Mr. BROWNBACK. Pay for it and pay for it completely. But this is also a more pernicious piece of this, and that is we have 40 percent of our physicians in Kansas saying they are not taking more Medicaid patients. That is 40 percent now. Now you are talking about expanding Medicaid, the number of people in Medicaid, when 40 percent of your doctors are saying: We aren't taking them. You are saying: Why won't the doctors take it? It is not that they don't want to have Medicaid patients, but it is the reimbursement ratios they get. Listen to these numbers from MedPAC saying that Medicare provider reimbursement rates are about 80 percent of private insurance. So private insurance, and then 80 percent of that is Medicare, and then Medicaid is 72 percent of Medicare. So you are cutting it back even further, to the point that physicians are saying: I just can't afford to take more.

Mr. ALEXANDER. Medicaid is the largest government program we have today, bigger than Medicare; it has low-income Americans in every State. I believe the Baucus proposal plans to add about 11 million more low-income Americans to this plan that 40 percent of doctors will not see patients for?

Mr. BROWNBACK. They won't see them. Now what you are doing is driving people into a system that is a very low reimbursement system, that physicians are, almost half, saying: We won't take any more.

My concern here is that you are going to drive people in this system where you are not going to be able to get health care; they are not going to be able to get health care at all because of these reimbursement rates, because of the reimbursement rates physicians are having under Medicaid.

So I think that is a deadly piece of this overall proposal. It is the cost to the States, and then it is also that you are driving people into an area where providers are fleeing and heading out of.

Mr. ALEXANDER. We have 5 minutes left. We will go to Senator THUNE and let Senator BROWNBACK wrap up our time.

But "Medicare cuts," those are scary words to most Americans. And some people say: Well, you Republicans are trying to scare the seniors of America when you say the words "Medicare cuts."

But is it not a fact that the Baucus plan would cut Medicare by about \$500 billion and use it for a different program instead of shoring up the Medicare Program?

Mr. THUNE. We know for a fact that the Medicare trustees have said the Medicare Program is destined to be bankrupt in the year 2017. So Medicare is already on an unsustainable path. It needs to be shored up. And what we are

talking about doing is getting savings, if you want to call them that, or "cuts," I would say out of Medicare to create a whole new entitlement program here in Washington, instead of fixing and making more sustainable a Medicare Program that, as I said, is destined for bankruptcy by the year 2017.

I think most seniors and most providers around the country are going to be very concerned about the idea of having cuts in the Medicare Program, \$500 billion, as the Senator from Tennessee has mentioned, go to paying for this new entitlement program which, as I said earlier, over a 10-year period is going to cost \$1.7 trillion.

So I think you are not only going to have, as the Senator mentioned, a lot of providers very concerned about cuts, I think you are going to have an awful lot of seniors who are concerned about how their Medicare benefits are going to be impacted by this proposal. I would add to what the Senator has already talked about, and I know the Senator from Tennessee's Governor has called some of these Medicaid expansions "the mother of all unfunded mandates."

I have had numerous conversations with my Governor in my State of South Dakota about this. It would cost our State about \$45 million a year, new revenues they would have to raise, to meet the matching requirements under this expansion of Medicaid.

In my State of South Dakota, that is real money. I know that does not sound like a lot out here in Washington. But that really is. My Governor is very concerned, as are all Governors, about the impacts not just on Federal budgets but on State budgets.

Of course, as the Senator from Tennessee and the Senator from Kansas have pointed out, Medicare—and I might add, I love the quote from the CEO of Mayo, which the Senator from Tennessee has mentioned, "If the public plan looks like Medicare, I think the country would go broke almost overnight," because Medicare is already proposed to go broke by 2015 to 2017.

I think that is the problem we run into when we try and build upon a foundation that is already crumbling. The Medicare Program is destined to go bankrupt. We are talking about adding a whole new entitlement. Instead of trying to figure out how to plow some of these savings back into Medicare and make it sustainable, we are actually adding to and building upon a foundation that is already crumbling.

Mr. ALEXANDER. We have about a minute and a half left in our time. I wonder if Senator BROWNBACK would conclude.

Mr. BROWNBACK. Mr. President, I think to put it in Kansas-type terms, if you are talking about taking savings from Medicare to start a whole new

health care entitlement program, that is like writing a big fat check on a completely overdrawn bank account to buy a new car.

You are going: Now, well, who would do something like that? When you are saying: Well, that is what the Federal Government is looking at doing in this proposal that Senator BAUCUS has put forward.

Medicare is not sustainable. It is not fiscally sound. You are going to write an overdraft check on that to start a whole new program that you do not have the wherewithal to do, that most Americans do not want to see you do because they want to see you fix the current program and get it on a sustainable basis.

It does not make sense. It is out of the stream of thought of the American public. We ought to back up, stop, and go at this in incremental changes, to get costs down and more people covered, that do not drive costs up, that do not do a big federal takeover of the system.

Mr. ALEXANDER. I thank Senators THUNE and BROWNBACK.

Obviously, we believe that instead of a 1,000-page bill, we should do what Senator BROWNBACK said. We should go step by step to re-earn the trust of the American people. For example, permitting small business plans to pool their resources to offer more insurance to a million people; buying insurance across State lines; stopping runaway junk lawsuits against doctors; signing up those people already eligible for Medicaid and SCHIP; and encouraging technology.

All of those are steps we can agree on and reduce costs, without running trillions of dollars of new debt, more taxes, and Medicare cuts. I thank the Senators from South Dakota and Kansas for participating in our colloquy.

I yield the floor.

#### RECOGNITION OF THE MINORITY LEADER

The PRESIDING OFFICER (Mrs. SHAHEEN). The Republican leader is recognized.

#### HEALTH CARE WEEK X, DAY III

Mr. MCCONNELL. Madam President, over the past several months, the American people have made their voices heard in the debate over health care. Everyone is frustrated at the high cost of even routine services and procedures. But the good news is this: everyone agrees that these are real and pressing issues and that Congress can and should do something to help.

Unfortunately, the Democrat plan being contemplated here in Congress is not content simply to address the problems at hand. Instead, this plan uses these problems as an excuse to dis-

slap together a new one as quickly as possible, and force it on the American people whether they like it or not.

That is what is going on this week in the hearing room of the Finance Committee.

The U.S. Congress is hashing out the details of an enormously complicated bill that calls for a massive expansion of Washington's role in the health decisions of every single American. And when they are done, they plan to rush this so-called reform through Congress and force it on a country that is overwhelmingly opposed to it.

But there is really only one thing Americans need to know about this legislation: When all the talking is through, what is left is this: a trillion dollar experiment that cuts Medicare, raises taxes, and threatens the health care options that millions of Americans enjoy.

The administration has been telling Americans for months and months that if they like the coverage they have, they can keep it. Whoever believes this apparently is not familiar with the bill that Democrats in Congress want the President to sign. If they were, they would realize that it creates a new government standard for coverage, and that anyone who falls below that standard will be forced to buy a different health plan.

Government would tell you which plans you can have and which ones you can not, and if you do not like the plan they suggest, then you will have to send a check to Washington. You will get taxed. That is government expansion. Americans do not want it.

Americans are worried about spending. It seems like every time they turn around they are hearing about another trillion-dollar spending bill coming out of Washington. Well here is another. Once again, it is being rushed through Congress, and once again, we will not have enough time to read it. They made sure of that yesterday. My Republican colleague from Kentucky, Senator BUNNING, offered an amendment to give senators the time they need to study the details. Democrats struck it down.

Taxes are already high enough. They are about to get higher. This legislation will lead to significantly higher taxes on just about everybody in America. If you have health insurance, you are taxed. If you do not have health insurance, you are taxed. If you need prescription medicine, you are taxed. If you need a medical device, you are taxed.

All these taxes would be bad enough if they were not so hard to understand.

For months we have been hearing that the goal of reform is to lower costs. Yet any school kid in America can tell you that raising taxes on something raises its cost. And every nonpartisan, independent study we have seen confirms this basic economic

principle. Despite all the talk of lowering costs, all these higher taxes mean that, as a result of this legislation, health care costs are headed in one direction, and that is up.

What is worse, the Joint Committee on Taxation and the Congressional Budget Office say that some of the worst taxes would fall squarely on the backs of consumers: not on the rich, but on ordinary Americans who are already struggling through a recession.

Seniors take a serious hit from this legislation, either through cuts in services that millions of them currently enjoy, or by being forced off the plans they have. All told, this bill calls for nearly \$140 billion in cuts to Medicare Advantage; nearly \$120 billion in Medicare cuts for hospitals that care for seniors; more than \$40 billion in cuts to home health agencies; and nearly \$8 billion in cuts to hospice care.

Everyone agrees Medicare needs reform. This is not reform. This is a massive raid on a program millions of seniors depend on in order to cover the cost of another new government program. This bill uses Medicare as a piggy bank to pay for this experiment.

There is no question that Americans want health care reform. They want lower costs. They want greater access. They want commonsense reforms, like a plan to get rid of junk lawsuits on doctors and hospitals and to level the playing field when it comes to taxes on health plans. But what they are getting from Congress instead is a trillion-dollar experiment that cuts Medicare, raises taxes, and threatens the health care options that millions of Americans now enjoy. And here is the worst part: they are being told that all this has to be rushed through Congress on some artificial timeline.

Americans have been asking us to slow down. Congress is doing the opposite.

This is not how Americans expect us to do their business. We need nonpartisan groups like the Congressional Budget Office to tell us how much this legislation will cost and how we would pay for it, and we need to slow down and get it right. We need to give Members of Congress the time they need to understand what they are going to be voting on. And we need to give the American people the time they need to understand this legislation too. This bill is too big, too costly, and too important to allow anything less.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. GILLIBRAND). Without objection, it is so ordered.

## ORDER OF PROCEDURE

Mr. REID. Madam President, I ask unanimous consent that the time for the cloture vote, now set for 10:30 a.m., be extended until 11 o'clock this morning.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, for the knowledge of all Members, we are very close to being able to work out an agreement on the finalizing of the Interior appropriations bill. There are some language problems the staff is working on now. But we should have a series of amendments—it could be as many as seven, eight amendments—and we will try to do those in a block of time. We have 23 members who are trying to work out something in the Finance Committee as it relates to health care, so we would like to have those votes in a block of time sometime this afternoon. But we should be able to have a consent agreement that will be approved by Senator MCCONNELL and me in the near future.

Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

## EXTENSION OF MORNING BUSINESS

Mr. REID. Madam President, the time between now and 11 o'clock, I ask unanimous consent that be time for morning business, with Senators allowed to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. BOND. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BOND. Madam President, are we in morning business?

The PRESIDING OFFICER. Yes, we are.

## AFGHANISTAN/PAKISTAN STRATEGY

Mr. BOND. Madam President, I rise today to call for the testimony before Congress of our top military commanders in Afghanistan, GEN Stanley McChrystal and General Petraeus. Con-

gress and the American people need to hear directly and as soon as possible from the generals to ensure that political motivations in Washington do not override the vital needs of our commanders and our troops on the ground.

Ordinarily, I don't like the idea of calling generals away from their duties in theater but, unfortunately, in the often surreal world of Washington politics, all the hard work by our military and intelligence professionals on the battlefield in Afghanistan can be undone very quickly. Unfortunately, the latest verbal wavering by the administration and some of my colleagues in Congress can do just that.

Last November, when I sent my report, the Roadmap to Success in South Asia, to then President-elect Obama and his national security team, I outlined the importance of messaging to our overall success in Afghanistan and Pakistan. For too long, the United States has flailed about with an uncoordinated communication plan. In other words, we have been off message.

Unfortunately, the enemy has continued to hone its own message. Radical Islamic terrorists have staged suicide attacks for maximum publicity, propagandizing their message on the Internet, and convinced their fellow terrorists-at-arms that they will defeat the international community.

Negative and indecisive comments by the President, broadcast worldwide, have now given the enemy a big win in the public information battle.

On CNN, the President questioned: "Are we pursuing the right strategy?"

On NBC's "Meet the Press," the President's words were even more disturbing, signaling a lack of confidence in his earlier strategy. The President said:

If an expanded counterinsurgency strategy in Afghanistan contributes to the goal of defeating al-Qaida, then we will move forward. But, if it doesn't, then I'm not interested in just being in Afghanistan for the sake of being in Afghanistan or saving face or . . . sending a message that America is here for the duration.

Comments such as these call into doubt America's commitment to Afghanistan. They give hope to the terrorists—hope that America's resolve is not real, and that they only need to wait us out to win the war.

The people of Afghanistan get the message that we are leaving soon. The implied message is that you better work with the Taliban and al-Qaida, because they will be here after America leaves. This is a public bonanza in diplomacy for our terrorist enemies.

At the same time, these comments have done a great disservice to our men and women serving in harm's way. These heroes need our country's unwavering support, not vacillation because of political pressures.

President Obama's recent comments present a stark and dangerous contrast to his earlier resolve—resolve that I

applauded on this floor and publicly and proudly supported. When President Obama commissioned General McChrystal's assessment of the situation in Afghanistan, I believed that he was genuinely interested in receiving the general's expert, on-the-ground perspective and his informed opinion of what strategic and tactical changes would be required for success.

Unfortunately, it now appears that the President has developed a sudden case of buyer's remorse. It seems increasingly clear to me the Obama administration is inclined to reject the counterinsurgency strategy recently recommended by General McChrystal and endorsed by the head of the U.S. Central Command, GEN David Petraeus and the Chairman of the Joint Chiefs of Staff, ADM Mike Mullen. In a bewildering twist, this is the same counterinsurgency strategy the President himself endorsed this past March.

I have been a strong and vocal supporter of the administration's new strategy in Afghanistan, so I was particularly disappointed by the President's suggestion this past Sunday that he is reconsidering the American commitment to the war in Afghanistan.

I am also deeply disturbed by press reports that Defense Secretary Gates will delay sending General McChrystal's troop request to the White House because the White House is not ready to receive it. Given the President's resolve this spring, I am somewhat puzzled by the strange treatment of General McChrystal's assessment and troop request. Unnecessary delay is not our friend in this war.

The clearest reason for this delay seems to be that the President is considering not granting General McChrystal's request. Instead, we are now hearing that he may push for a more aggressive covert war against al-Qaida leadership in Pakistan.

We all want to eliminate the al-Qaida leadership that plotted and planned the attacks that claimed more than 3,000 American lives on September 11. And depending on the details, more aggressive action in Pakistan may be a good thing. But such action should be in addition to, not a substitute for, giving our troops in Afghanistan all the resources and supporting personnel they need to succeed.

While denying al-Qaida and Taliban militants sanctuary in the border regions of Pakistan is critical, a counterterrorism-only approach, focusing on one part of this regional conflict, will ultimately hand victory to the world's most violent and feared terrorists. This type of counterterrorism-only approach failed us in Iraq and it has failed us in Afghanistan for the last 7 years.

I have consistently called for—and President Obama had promised—a comprehensive counterinsurgency strategy

designed to meet a set of clearly defined goals for the Afghanistan-Pakistan region. The Obama administration has rightly characterized the problem as involving both of these two countries. But right now, we have a plan only for one country.

I am not suggesting it is General McChrystal's job to set that wider. As directed by the President and by our NATO allies whom he represents as commander of ISAF, the general has laid out a good strategy for success in Afghanistan and that strategy includes a request for more boots on the ground. I understand there is a lot of hand-wringing in Washington right now over Afghanistan. We saw the same reaction over sending more troops into Iraq 2 years ago. The political courage shown by the White House and Congress back then proved to be successful. Today, we must marshal the same courage and give General McChrystal what he needs to get the job done.

Amid the reports of wavering and hand-wringing, an important question comes into mind: What has changed? During the campaign and after his inauguration, the President spoke repeatedly about the importance of winning the war in Afghanistan.

For example, on March 27, 2009, when he rolled out his comprehensive new strategy for Pakistan and Afghanistan, the President declared that:

To succeed, we and our friends and allies must reverse the Taliban's games and promote a more capable and accountable Afghan government. Our troops have fought bravely against a ruthless enemy. Our civilians have made great sacrifices. Our allies have borne a heavy burden. Afghans have suffered and sacrificed for their future. But for six years, Afghanistan has been denied the resources that it demands because of the war in Iraq. Now, we must make a commitment that can accomplish our goals.

I was heartened by these words. I agreed with the President on the need for a fully resourced counterinsurgency campaign and a solid commitment to ensure the security of the Afghan people and our own vital interests. I applauded his recognition of winning this war when he told our veterans, the VFW, this past August:

Those who attacked America on 9/11 are plotting to do so again. If left unchecked, the Taliban insurgency will be an even larger safe haven from which al-Qaida would plot to kill more Americans. So this is not only a war worth fighting; this is fundamental to the defense of our people.

But our troops in the field have now been waiting over 6 months for the President to follow through on his promises. As General McChrystal's recently leaked assessment points out, time is of the essence, and we cannot afford more stalling by the administration on this vital national security issue.

The general said the next 9 to 12 months are critical and that is why we need a decision now. I call on the Presi-

dent to heed his own words from this past weekend. Let's ignore the politics of the moment and finish the job in Afghanistan.

I recognize we have not yet seen any official numbers associated with General McChrystal's troop request, but I am very encouraged by the general's emphasis on putting more of an Afghan face on operations. I believe our ultimate success depends on our ability to hand responsibility for security over to Afghans.

I was also gratified to see the report's strong emphasis on the importance of "smart power" to achieving success. While the assessment does not actually use the term, the concept is woven into the core of the report. General McChrystal and others have been clear that traditional kinetic military efforts alone will not achieve the success we need. Success will be attainable only if we maximize the ability of nonmilitary agencies of the United States Government to work through Afghan institutions to achieve stability, reconstruction, and the rule of law.

As I have said repeatedly on the floor, the efforts by the National Guard, led by my own Missouri National Guard, to bring agricultural experts, including full-time farmers who also serve as trained military soldiers, who have gone into Nangarhar Province and in 1 year transformed the agriculture of Afghanistan so they could make a greater profit from raising legitimate crops and taking Afghanistan and Nangarhar Province from the No. 2 poppy-producing province in the nation down to almost zero poppy production. Six more National Guards from different States are there now. More are coming. Two weeks ago, I challenged all of the Nation's National Guard and their commanders at their meeting in Nashville to commit to send a National Guard unit from every State to an appropriate province where they can help, and they can make a difference. That is part of smart power. They need to bring the economic resources and the structures and the information and experience we have, protected by soldiers and airmen of the National Guard who can defend themselves and those they are protecting. That is smart power.

In the McChrystal report, the Afghan Defense Minister rejected the popular myth that Afghanistan is a graveyard of empires and we are destined to fail there. I couldn't agree more. As General McChrystal affirmed in his report: "While the situation is serious, success is still achievable." The Obama administration and Congress must each do its own part to give our troops the resources and time they need to make that success a reality.

Let's not snatch a defeat from the jaws of victory in Afghanistan just because a few pundits are pedaling polit-

ical pessimism in Washington. All the experts, including General McChrystal, agree we need a properly resourced counterinsurgency strategy, and we need it now. It is time to listen to our commanders on the ground, not the ever-changing political winds whispering defeat in Washington.

Madam President, I thank the Chair, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. VOINOVICH. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. VOINOVICH. Madam President, I ask unanimous consent to speak as in morning business for up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### EASTERN EUROPE

Mr. VOINOVICH. Madam President, I rise to discuss America's relationship with our Eastern European friends as well as the challenges America faces in our relationship with Russia.

Over the last decade in the Senate, I have been a champion of NATO and worked diligently to increase membership in the alliance. I have also been active in improving our image in Eastern Europe through the expansion of the Visa Waiver Program at the request of our friends and allies in Eastern Europe. My passion for foreign relations stems in large part as a supporter of Ohio's diverse ethnic communities. As mayor of Cleveland and Governor of Ohio, I gained a keen understanding of Europe from my close work with constituents who had ties to countries that were once subject to life behind the Iron Curtain. This goes back to my first paper in undergraduate school and how the United States sold out Yugoslavia at Teheran and Yalta.

We did see the Berlin Wall fall and the Iron Curtain torn thanks in part to the efforts of Pope John Paul II, President Reagan, and President George H.W. Bush. But even with the end of the Cold War, I was deeply concerned that darker forces in Russia could once again reemerge as a threat to democracy, human rights, and religious freedom not just for the Russian people but for the newly freed "captive nations" of Eastern Europe.

I understood getting those nations into NATO could make the alliance more vibrant and healthy and give them safe harbor from the possible threat of Russian expansionism. One of my proudest moments in the Senate was being present at Prague in March of 2002 in the room when Lord Robertson announced that seven countries—

Bulgaria, Estonia, Latvia, Lithuania, Romania, Slovakia, and Slovenia—were invited to join NATO.

When I was Governor of Ohio and chairman of the National Governors Association, I led an effort in 1998 to secure passage of an all-50-State resolution in support of NATO expansion for the Czech Republic, Hungary, and Poland. These new members have brought great vigor to the NATO Alliance and are now some of our strongest allies working alongside our troops in Iraq and Afghanistan—especially Afghanistan.

As such, I was astounded last week to see the Obama administration appear to turn its back on some of our staunchest NATO allies. Last week's missile defense announcement was made with little advance notice or consultation and disregarded the great political capital expended by the leaders of Poland and the Czech Republic. This decision leaves the impression that the United States is dealing unilaterally with Russia without regard to our NATO allies. Regardless of the merits of the decision itself—and I had a chance to talk to Secretary Gates about it, and it makes sense that this was a good decision—the manner in which it was revealed to Warsaw and Prague was a major public relations and public diplomacy blunder.

The Polish people are up in arms about the decision—and not so much with the decision, but the way it was handled and the disregard for handling it in a proper fashion. The fact also that the decision was announced on September 17, 2009, the 70th anniversary of the Soviet invasion of Poland, makes it even worse. The way this decision was communicated shabbily to Poland and the Czech Republic should also send a shiver down the spines of our brothers and sisters in Eastern Europe and their Baltic neighbors, who are concerned with Russia's aggressive efforts to reassert its influence in what was once the Soviet Union.

In an opinion piece in last Friday's edition of the Washington Post, David J. Kramer, of the German Marshall Fund, notes that:

Whatever the official explanation now for not moving forward, many—including the Kremlin—will read this shift as an effort to placate Moscow. Announcing the decision ahead of [President] Obama's meeting with Russian President Dmitry Medvedev this week in Pittsburgh reinforces such thinking.

I had the opportunity this past July to travel to the Baltic States with my friends Senators Durbin, Cardin, and Wicker as part of the U.S. delegation to the Organization for Security and Cooperation in Europe, to the parliamentary assembly that was held in Vilnius, Lithuania. As part of that trip, I also visited Riga, Latvia—a stop that marked the highest ranking official visit of the United States in Latvia in over 3 years. In all of our bilateral

meetings with Presidents, Prime Ministers, and Foreign Ministers from former Soviet countries or countries the Soviet Union exercised influence over, we were told it was comforting for them to know their membership in NATO serves as a hedge against a potential expansionist Russia.

We should be worried about the uncertainty surrounding a Russia that is reverting back to a KGB-ruled country seeking to weaponize its oil and natural gas resources as a means to expand its influence on Europe and the West.

I think one of the concerns we all ought to have is that many members of the European Union, instead of coming together and negotiating with Russia over the issue of natural gas, are cutting their own deals. I think we should be very concerned that in the long run many of those countries are not going to be able to make good decisions because of the influence Russia will have over their natural gas resources.

Russia has the world's largest reserves of natural gas and has the eighth-largest oil reserves. Moscow turned off the tap to Ukraine this past winter. They could do it again. We should also be concerned about Moscow using its control of oil and natural gas to pit members of NATO against each other.

There is much talk about resetting the U.S. bilateral relationship with Russia. Moscow seeks to regain its global stature and be respected as a peer in the international community. There is nothing inherently wrong with this.

I believe there are key areas where the United States and Russia share common cause and concern: Russia is a permanent member of the U.N. Security Council and will be essential to effective multilateral pressure on Iran to give up its nuclear program; Russia continues to have leverage on the North Korean regime and has stated that a nuclear-free Korean peninsula is in the interest of both our countries; we are partners on the International Space Station—in fact, we are going to rely on them to send our NASA people to the space station; and, until the Georgia situation flared in August of last year, our government and U.S. industry were working hard on a nuclear cooperation agreement with Russia, very much like the one we entered into with India.

With the world economy as it is today, the worst thing we could do is break off communication and revert back to our Cold War positions. This week's G-20 conference in Pittsburgh is an opportunity to further engage Russia and determine where we have a symbiotic relationship and what we can accomplish together for the good of the international community. Nevertheless, such a reset should not come at the expense of our Eastern European friends.

Time will tell whether last week's decision will have any influence on Russian cooperation on the Strategic Arms Reduction Treaty—START—or our efforts to prevent a nuclear-armed Iranian regime.

In the meantime, we have our work cut out as we seek to rebuild confidence and trust with our friends in Eastern Europe. After last week's events, I suspect that their confidence in the reliability of the United States as a partner and ally has been shaken.

I yield the floor and note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BURRIS. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BURRIS. Madam President, I would like to speak in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### RYAN WHITE HIV/AIDS TREATMENT MODERNIZATION ACT

Mr. BURRIS. Madam President, in my home State of Illinois, there are roughly 44,000 people living with HIV or AIDS.

Every day, these Americans face deadly illnesses that require delicate—and often expensive—treatment.

Thankfully, they don't have to fight this fight alone.

Across America, about 500,000 HIV patients who don't have adequate income or insurance are currently able to receive assistance under the Ryan White HIV/AIDS Treatment Modernization Act.

This program supports a wide range of medical and support services that benefit HIV and AIDS patients.

Illinois alone receives \$75 million in Federal funds that serve more than 10,000 people.

These programs make a real difference, not just in my home State, but in every State in the Union.

They are critically important not only for the people who receive treatment, but for public health in general.

That is why we cannot let the Ryan White Act expire on September 30.

If we do not take action right now to reauthorize this program, the treatments will stop.

If we do not stand up for those who need our help, half a million Americans will suddenly find themselves out in the cold.

We cannot let that happen. We must act now keep this safety net in place.

That's why I support a 3-year extension of the Ryan White Treatment Modernization Act.

But we shouldn't stop there.

As we reauthorize this legislation, it is a great opportunity to make a few small changes to make it more effective.

We should update the Ryan White Act, to make HIV/AIDS information more accurate.

We need to maintain transitional grant areas, so that essential services can be better matched with existing needs.

We should make sure medical transportation and dietary treatments are covered for all patients.

And we should use common sense to ensure that rebates and grants are classified and awarded the right way, with less bureaucratic redtape.

This will make the system more efficient, and it will increase the impact this program can have on people's lives.

More than 250 AIDS organizations have already expressed support for these changes, and for the reauthorization of this program.

It is time to stand with them.

It is time to stand with all the people who need treatment.

Let us send a strong message to those who are counting on us to keep the money flowing:

We will not abandon you in your time of need.

If this Senate fails to act by September 30, the aid will stop.

These successful programs—which enjoy broad, bipartisan support—will simply cease to exist.

We cannot let that happen on our watch.

I ask my colleagues to join with me in updating and reauthorizing the Ryan White Act.

I yield the floor and suggest the absence of a quorum.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BURRIS). Without objection, it is so ordered.

#### INTERIOR APPROPRIATIONS

Mr. REID. Mr. President, first of all, we have a unanimous consent agreement that has taken a lot of work. I appreciate the work of the two managers, Senator FEINSTEIN and Senator ALEXANDER. It is not easy, but this is an important piece of legislation. I think it is good for the body.

I heard my friend—I will be real quick; I know we are in a hurry—commenting on the dinner we had last night. I think that was such a timely, fortuitous event we had with Senators getting together to, in effect, cut the

ribbon on this wonderful picture out there, 147 years old.

I did not know much about Henry Clay other than he is a famous man but a great compromiser. He said everything legislatively you need to develop a consensus. Legislation is the art of compromise. This is a smaller piece; it is not Henry Clay stuff, but it is good stuff. I appreciate the two managers following in the footsteps of Henry Clay and we were able to work this out.

I ask unanimous consent that the following be the only first-degree amendments and an Ensign motion to recommit, other than the pending amendments, remaining in order to H.R. 2996, Interior appropriations; and that no second-degree amendments be in order to any of the listed amendments prior to a vote in relation to the amendment, except as noted with respect to Coburn amendment No. 2511; that a managers' amendment also be in order that has been cleared by the managers and the leaders, and that if that amendment is offered, then the vote on adoption of the amendment occur immediately; and that if agreed to, then the motion to reconsider be considered made and laid upon the table:

Carper No. 2456, pending, to be withdrawn once a managers' amendment has been agreed to; Collins No. 2498, pending; Isakson No. 2504, as modified, pending; Vitter No. 2549; Ensign motion to recommit; Coburn amendment Nos. 2482, 2463, 2480, 2523, 2466, 2483, 2468, and 2511, with a Feinstein second-degree amendment in order to No. 2511; Feingold No. 2522, to be withdrawn upon the adoption of the managers' amendment; Reid No. 2531; Bingaman No. 2493, with a modification; further, that during the consideration of the bill, Senators Murkowski and Thune each be provided up to 30 minutes, and Senator BOXER for up to 60 minutes for debate only; that upon disposition of all amendments and the motion to recommit, the substitute amendment, as amended, be agreed to, the motion to reconsider be considered made and laid upon the table; that the bill, as amended, be read a third time, and the Senate then proceed to vote on passage of the bill; that upon passage, the Senate insist on its amendment, request a conference with the House on the disagreeing votes of the two Houses, and that the Chair be authorized to appoint conferees on the part of the Senate, and that the subcommittee plus Senators Inouye and Bond be appointed as conferees; further, that if a point of order is raised against the substitute amendment, then it be in order for another substitute amendment to be offered minus the offending provisions but including any amendments which had been agreed to prior to the point of order; that no further amendments be in order; that the new substitute amendment be agreed to, and the motion to reconsider be considered made

and laid upon the table; and that the remaining provisions beyond adoption of the substitute amendment remain in effect; that if there is a sequence of votes, then after the first vote, the succeeding votes be limited to 10 minutes each and that there be 2 minutes of debate prior to each vote, equally divided and controlled in the usual form; that once this agreement is entered, the cloture motions be withdrawn.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

#### DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of H.R. 2996, which the clerk will report.

The bill clerk read as follows:

A bill (H.R. 2996) making appropriations for the Department of the Interior, Environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

Pending:

Carper amendment No. 2456, to require the Administrator of the Environmental Protection Agency to conduct a study on black carbon emissions.

Collins amendment No. 2498, to provide that no funds may be used for the administrative expenses of any official identified by the President to serve in a position without express statutory authorization and which is responsible for the interagency development or coordination of any rule, regulation, or policy unless the President certifies to Congress that such official will respond to all reasonable requests to testify before, or provide information to, any congressional committee with jurisdiction over such matters, and such official submits certain reports bi-annually to Congress.

Isakson modified amendment No. 2504, to encourage the participation of the Smithsonian Institution in activities preserving the papers and teachings of Dr. Martin Luther King, Jr., under the Civil Rights History Project Act of 2009.

AMENDMENTS NOS. 2492, 2501, 2505, 2509, 2518, 2519, 2522, 2534, AS MODIFIED; 2491, AS MODIFIED; 2495, 2507, 2493, AS MODIFIED, EN BLOC

The PRESIDING OFFICER. The Senator from California is recognized.

Mrs. FEINSTEIN. Mr. President, as part of the unanimous consent agreement entered into this morning by the leader, a managers' package of amendments to the Interior bill is in order.

I would like to proceed to that business now because of yesterday's filing deadline for all first-degree amendments. Each of these amendments which constitute the managers' package have been filed at the desk.

Therefore, I ask unanimous consent that the pending amendment be set

aside, and that the following amendments be called up and considered en bloc, and where modifications are noted, that those modifications be agreed to: Bingaman amendment No. 2492; Risch amendment No. 2501; Carper amendment No. 2505; Roberts amendment No. 2509; Feinstein amendment No. 2518; Feinstein amendment No. 2519; Feingold amendment No. 2522; Whitehouse amendment No. 2534, as modified; Bingaman amendment No. 2491, as modified; Schumer/Durbin amendment No. 2495; Tester/Crapo amendment No. 2507; and, Bingaman amendment No. 2493, as modified.

Let me make one note with respect to Carper amendment No. 2505. The amendment being included in the managers' package is very similar to pending Carper amendment No. 2456. But the version we are adopting now is the version that has been agreed to by both sides. At the proper time, then, I believe we will be in a position to withdraw the pending Carper amendment No. 2456.

In order to comply with Senate rule XLIV, which requires Members to certify that they have no financial interest in congressionally designated spending items, I also ask unanimous consent to have printed in the RECORD financial disclosure letters associated with amendments Nos. 2501 and 2518.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE,

Washington, DC, September 16, 2009.

Hon. DANIEL K. INOUE,  
Chairman, Senate Committee on Appropriations,  
U.S. Capitol, Washington, DC.

Hon. THAD COCHRAN,  
Ranking Member, Senate Committee on Appropriations,  
U.S. Capitol, Washington, DC.

Hon. DIANNE FEINSTEIN,  
Chairman, Appropriations Subcommittee on Interior,  
Environment, and Related Agencies,  
Dirksen Senate Office Building, Washington, DC.

Hon. LAMAR ALEXANDER,  
Ranking Member, Appropriations Subcommittee  
on Interior, Environment, and Related  
Agencies, Dirksen Senate Office Building,  
Washington, DC.

DEAR CHAIRMEN AND RANKING MEMBERS: I am writing to request your assistance in making a technical correction to the below projects in House Report 107-272, House Report 108-10, and House Report 108-401 so that the funds referenced may be made available to the City of Thomasville, Alabama. The awards in question are:

\$2,500,000 STAG award to the Southwest AL/Rural Municipal Water System in FY02; \$1,000,000 STAG award to the Southeast Alabama Regional Water Authority in FY02; \$450,000 STAG award to the Southwest Alabama Regional Water Authority in FY03; \$450,000 STAG award to the Southwest Alabama Regional Water Supply District in FY04.

I certify that neither I nor my immediate family has a pecuniary interest in the congressionally directed spending item(s) that I have requested for Fiscal Year 2010, consistent with the requirements of paragraph 9

of Rule XLIV of the Standing Rules of the Senate.

Very Truly Yours,  
JEFF SESSIONS,  
United States Senator.

Hon. DIANE FEINSTEIN,  
Chairwoman, Subcommittee on Interior, Environment,  
and Related Agencies, Dirksen  
Senate Office Building, Washington, DC.

DEAR MADAM CHAIRMAN: I am writing to seek your assistance in a technical correction for the City of Thomasville in the Fiscal Year 2010 Interior, Environment, and Related Agencies Appropriations bill.

The City of Thomasville is constructing a water treatment facility. The project began under the auspices of the Southwest Regional Water Authority and was composed of the City of Thomasville and the City of Jackson. Therefore, funds were appropriated in 2002, 2003, and 2004 under this name.

2002—AL Regional Water Authority for AAL/Rural Municipal Water System, \$2,425M; 2002—Southeast Alabama Regional Water Authority, \$970,000; 2003—Southwest Alabama Regional Water Authority, \$433,700; 2004—Southwest Alabama Regional Water Supply District, \$433,900.

Since that time, the City of Jackson has withdrawn from the authority and the City of Thomasville remains the only active partner. To meet eligibility qualifications of USDA/Rural Development and EPA to proceed with the development of the Thomasville water supply project, we were told that the earmarks from 2002-2004 would need to be amendment and replaced with the name "City of Thomasville."

Finally, I certify that neither I nor my immediate family has a pecuniary interest, consistent with the requirements of Paragraph 9 of Rule XLIV of the Standing Rules of the Senate, in any congressionally directed spending item I requested that is contained in the Fiscal Year 2010 Interior, Environment, and Related Agencies Appropriations bill or accompanying report. I further certify that I have posted a description of the items requested on my official website, along with the accompanying justification.

I greatly appreciate your assistance in this matter. As always, please do not hesitate to contact me or Laura Friedel in my office should you or your staff have any questions. Sincerely,

RICHARD SHELBY.

U.S. SENATE,

Washington, DC, September 17, 2009.

Hon. DIANNE FEINSTEIN  
Chairman, Subcommittee on Interior, Environment,  
and Related Agencies, Dirksen Senate  
Office Building, Washington, DC.

DEAR CHAIRMAN FEINSTEIN: I am writing to request your support for the enclosed amendment to the Fiscal Year 2010 Interior, Environment, and Related Agencies Appropriations bill.

Furthermore, I certify that neither I nor my immediate family has a pecuniary interest consistent with the requirements of Paragraph 9 of Rule XLIV of the Standing Rules of the Senate, in this or any other congressionally directed spending item I requested that is contained in the Fiscal Year 2010 Interior, Environment, and Related Agencies Appropriations bill or accompanying report. I further certify that I have posted a description of the amendment requested on my official website, along with the accompanying justification.

Thank you for your consideration of my request. As always, please do not hesitate to

contact me or Laura Friedel in my office should you or your staff have any questions. Sincerely,

RICHARD SHELBY.

Enclosure.

#### AMENDMENT

(Purpose: To provide for the use of certain funds for water system upgrades in Fayette County, Alabama)

On page 190, line 10, insert before the period at the end the following: "Provided further, That, notwithstanding House Report 108-401, the amount of \$2,000,000 made available to the Tom Beville Reservoir Management Area Authority for construction of a drinking water reservoir in Fayette County, Alabama, shall be made available to Fayette County, Alabama, for water system upgrades".

U.S. SENATE,

Washington, DC, September 16, 2009.

Hon. DANIEL K. INOUE,  
Committee on Appropriations, U.S. Senate,  
Washington, DC.

Hon. DIANNE FEINSTEIN,  
Subcommittee on Interior, Committee on Appropriations, U.S. Senate, Washington, DC.

Hon. THAD COCHRAN,  
Committee on Appropriations, U.S. Senate,  
Washington, DC.

Hon. LAMAR ALEXANDER,  
Subcommittee on Interior, Committee on Appropriations, U.S. Senate, Washington, DC.

DEAR CHAIRMEN AND RANKING MEMBERS, I am offering three amendments regarding congressionally directed spending items on the Senate floor to the Fiscal Year 2010 Interior, Environment, and Related Agencies Appropriations Bill.

Consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate, I certify that neither I nor my immediate family has a pecuniary interest in the congressionally directed spending items that I have requested for Fiscal Year 2010. I further certify that I have posted a description of the items requested on my official website, along with the accompanying justification.

Project Title: Lake County, California, for wastewater system improvements

Recipient: Lake County, CA  
Location: 230 A Main Street, Lakeport, CA 95453

Amount Requested: \$500,000

Lake County is upgrading the Kelseyville wastewater system to eliminate effluent and high nutrient pollution from entering Clear Lake. The facility, which is located on the south shore of Clear Lake, is under cease and desist orders to meet clean water standards, and requires expansion overflows into Clear Lake. This important project will improve sanitation and water quality for County residents by limiting sewage overflow.

Project Title: Tahoe Basin Vessel Inspection Station

Recipient: U.S. Fish and Wildlife Service  
Location: Lake Tahoe, California and Nevada

Amount Requested: \$800,000

The requested funding will be used for study, construction, staffing, and other expenses necessary to conduct water vessel inspection and decontamination at stations located away from boat and vessel ramps at Lake Tahoe and Echo Lake and Fallen Leaf Lake in California. The Tahoe Basin is under threat of Quagga and zebra mussel infestations because of its high-use by recreational boaters. An infestation could have devastating impacts on the regional economy,

including recreation, tourism, property values, and other infrastructure equaling approximately \$22 million a year. If introduced, Quagga and zebra mussels could destroy the region's fisheries, alter the food web and ecosystem, jeopardize the public drinking supply, and ruin the shoreline and public access points. An infestation would also jeopardize more than \$1.43 billion that has already been invested in environmental restoration and water clarity improvements in Lake Tahoe, including \$424 million from the Federal government.

*Project Title: Inland Empire Alternative Water Supply*

Recipient: City of San Bernardino Municipal Water Department

Location: 300 North "D" Street, San Bernardino, CA 92418

Amount Requested: Technical Correction

The Rialto-Colton Basin is seriously contaminated by perchlorate, and the cities and water districts in the area have had to abandon wells or install wellhead treatment equipment to use their groundwater. Local water providers have found a temporary source of 20,000–30,000 acre-feet in the Bunker Hill Basin, within the incorporated limits of the City of San Bernardino, which will use this water source in the long-term. I secured \$500,000 in the Fiscal Year 2009 Omnibus Appropriations Act, but the San Bernardino Municipal Water Department has been unable to access these funds and this technical correction will clarify that the city is the recipient of this funding.

Thank you for your consideration of my requests. If you have any questions, please do not hesitate to contact me, or have your staff contact Ryan Hunt in my office.

Sincerely,

DIANNE FEINSTEIN,  
United States Senator.

U.S. SENATE,

Washington, DC, September 16, 2009.

Hon. DANIEL K. INOUE,  
Chairman, Senate Committee on Appropriations,  
The Capitol, Washington, DC.

Hon. DIANNE FEINSTEIN,  
Chairman, Subcommittee on Interior, Environ-  
ment, and Related Agencies, Senate Com-  
mittee on Appropriations, Washington, DC.

Hon. THAD COCHRAN,  
Ranking Member, Senate Committee on Appro-  
priations, The Capitol, Washington, DC.

Hon. LAMAR ALEXANDER,  
Ranking Member, Subcommittee on Interior, En-  
vironment, and Related Agencies, Senate  
Committee on Appropriations, Washington,  
DC.

DEAR CHAIRMAN INOUE AND RANKING MEM-  
BER COCHRAN, CHAIRMAN FEINSTEIN AND  
RANKING MEMBER ALEXANDER: As the Fiscal  
Year 2010 Interior, Environment, and Related  
Agencies Appropriations bill moves to the  
floor, I respectfully request your consider-  
ation of the technical corrections for  
projects from previous bills listed in this  
letter. These technical corrections are also  
listed on my website. I look forward to  
working with you through enactment of this bill.

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending item(s) that I have requested, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate. I further certify that I have posted a description of the items requested on my official website, along with the accompanying justification.

Line 96 of the list of STAG Infrastructure Grants/Congressional Priorities in the Explanatory Statement for Title II of Division

F of Public Law 110-161 is revised to read "The City of Prescott for wastewater treatment plant construction project, \$170,800; and The City of Wichita for storm water technology pilot project, \$129,200."

Line 108 of the list of STAG Infrastructure Grants/Congressional Priorities in the Explanatory Statement for Title II of Division E of Public Law 111-8 is revised to read "City of Manhattan for water mainline extension project, \$185,000."

Line 111 of the list of STAG Infrastructure Grants/Congressional Priorities in the Explanatory Statement for Title II of Division E of Public Law 111-8 is revised to read "City of Manhattan for Konza water main extension project, \$290,000."

Sincerely,

SAM BROWNBACK,  
United States Senator.

Hon. DANIEL INOUE,

Chairman, Senate Appropriations Committee.

Hon. THAD COCHRAN,

Vice Chairman, Senate Appropriations Com-  
mittee.

Hon. DIANNE FEINSTEIN,

Chairman, Subcommittee on Interior, Environ-  
ment, and Related Agencies, Appropria-  
tions.

Hon. LAMAR ALEXANDER,

Ranking Member, Subcommittee on Interior, En-  
vironment, and Related Agencies, Appropria-  
tions.

DEAR CHAIRMAN INOUE, VICE CHAIRMAN COCHRAN, CHAIRMAN FEINSTEIN AND RANKING MEMBER ALEXANDER: I write to respectfully request a technical correction to my requests for congressionally directed appropriations in the Fiscal Year 2010 Interior and Environment Appropriations Bill. I have attached the legislative language for my amendment, which would provide for the use of certain funds for certain water projects to be carried out by the cities of Prescott, Wichita, and Manhattan. I know that this year's budget situation is extremely tight, and I appreciate your consideration of these requests.

In addition, I certify that neither I nor my immediate family has a pecuniary interest in the congressionally directed spending items that I have requested, consistent with the requirements of paragraph 9 of rule XLIV of the Standing Rules of the Senate. I further certify that I have posted a description of the items requested on my official website, along with the accompanying justification.

Again, I thank you for your consideration of these requests. Should you have any questions, please do not hesitate to contact my Legislative Director Mike Seyfert.

With every best wish,

Sincerely,

PAT ROBERTS.

AMENDMENT

(Purpose: To provide for the use of certain funds for certain water projects to be carried out by the cities of Prescott, Wichita, and Manhattan)

On page 190, line 10, insert before the period at the end the following: "Provided further, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying the Consolidated Appropriations Act, 2008 (Public Law 110-161; 121 Stat. 1844), from funds made available by that Act for the State and Tribal Assistance Grants program, \$170,800 shall be made available to the city of Prescott for a wastewater treatment plant construction project and \$129,200 shall be made available to the city of Wichita for

a storm water technology pilot project: *Provided further*, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 524), the amount of \$185,000 made available to the city of Manhattan for the sewer mainline extension project (as described in the table entitled 'Congressionally Designated Spending' contained in section 430 of that joint explanatory statement) shall be made available to the city of Manhattan for a water mainline extension project: *Provided further*, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 524), the amount of \$290,000 made available to the Riley County Board of Commissioners for the Konza Sewer Main Extension project (as described in the table entitled 'Congressionally Designated Spending' contained in section 430 of that joint explanatory statement) shall be made available to the city of Manhattan for the Konza Water Main Extension project".

U.S. SENATE,

Washington, DC, September 16, 2009.

Hon. ROBERT C. BYRD, Chairman,

Hon. THAD COCHRAN, Ranking Member,  
Senate Committee on Appropriations, U.S. Cap-  
itol, Washington, DC.

Hon. DIANNE FEINSTEIN, Chairman,

Hon. LAMAR ALEXANDER, Ranking Member,  
Senate Appropriations Subcommittee on Interior, Environment, and Related Agencies,  
Dirksen Senate Office Building, Wash-  
ington, DC.

DEAR CHAIRMEN AND RANKING MEMBERS, Please find enclosed amendments I will offer to the FY 2010 Interior appropriations bill making technical changes to previously enacted provisions. All changes are a result of requests by the U.S. Environmental Protection Agency for clarification on the specific funds recipient, and none involve appropriation of additional funds.

I certify that neither I nor my immediate family has a pecuniary interest in these items, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Thank you in advance for your attention to this matter.

Sincerely,

CHRISTOPHER S. BOND.

AMENDMENT

(Purpose: To provide for the use of certain funds for Johnson County, Missouri for a drinking water and wastewater infrastructure project)

On page 190, line 10, insert before the period at the end the following: *Providing further*, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$1,300,000 made available to the City of Warrensburg, Missouri for a drinking water and wastewater infrastructure project (as described in the table entitled 'Congressionally Designated Spending' contained in section 430 of that joint explanatory statement) shall be made available to Johnson County, Missouri for that project".

AMENDMENT

(Purpose: To provide for the use of certain funds for the Gravois Arm Sewer District for a wastewater infrastructure project)

On page 190, line 10, insert before the period at the end the following: "Providing

further, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$1,000,000 made available to the City of Gravois Mills for wastewater infrastructure (as described in the table entitled 'Congressionally Designated Spending' contained in section 430 of that joint explanatory statement) shall be made available to the Gravois Arm Sewer District for that project".

## AMENDMENT

(Purpose: To provide for the use of certain funds for PWSD #1 of McDonald County, Missouri for a wastewater infrastructure project)

On page 190, line 10, insert before the period at the end the following: "Providing further, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$500,000 made available to McDonald County, Missouri for a wastewater infrastructure expansion project (as described in the table entitled 'Congressionally Designated Spending' contained in section 430 of that joint explanatory statement) shall be made available to PWSD #1 of McDonald County, Missouri for that project".

U.S. SENATE,

Washington, DC, September 17, 2009.

Hon. ROBERT C. BYRD, *Chairman*,  
Hon. THAD COCHRAN, *Ranking Member*,  
*Senate Committee on Appropriations, U.S. Capitol, Washington, DC.*

Hon. DIANNE FEINSTEIN, *Chairman*,  
Hon. LAMAR ALEXANDER, *Ranking Member*,  
*Senate Appropriations Subcommittee on Interior, Environment and Related Agencies, Dirksen Senate Office Building, Washington, DC.*

DEAR CHAIRMEN AND RANKING MEMBERS: Please find enclosed an amendment I will offer to the FY 2010 Interior appropriations bill making a technical change to a previously enacted provision. The change retains the drinking water infrastructure purpose of the project, does not increase the amount of funds appropriated and does not change the funding recipient.

I certify that neither I nor my immediate family has a pecuniary interest in this item, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Thank you in advance for your attention to this matter.

Sincerely,

CHRISTOPHER S. BOND.

## AMENDMENT

(Purpose: To provide for the use of certain funds for the Pemiscot Consolidated Public Water Supply District #1 for a drinking water source protection infrastructure project)

On page 190, line 10, insert before the period at the end the following: "Providing further, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 110-161 (121 Stat. 1844), the amount of \$150,000 made available to the City of Hayti, Pemiscot Consolidated Public Water Supply District #1 for a water storage tank (as described in the section entitled 'STAG Infrastructure Grants/ Congressionally Priorities' on page 1264 of the joint explanatory statement) shall be made available to Pemiscot Consolidated Public Water Supply District #1 for a drink-

ing water source protection infrastructure project".

U.S. SENATE,

Washington, DC, September 16, 2009.

Hon. DIANNE FEINSTEIN,  
*Chairman, Subcommittee on Interior, Environment, and Related Agencies, Senate Committee on Appropriations, Washington, DC.*

Hon. LAMAR ALEXANDER,  
*Ranking Member, Subcommittee on Interior, Environment, and Related Agencies, Senate Committee on Appropriations, Washington, DC.*

DEAR CHAIRMAN FEINSTEIN AND RANKING MEMBER ALEXANDER: I am writing to request your assistance in making a technical correction to the Joint Explanatory Statement accompanying the Interior portion of the Omnibus Appropriations Act for Fiscal Year 2009. The Joint Explanatory Statement mistakenly directs \$400,000 from the Environmental Protection Agency's (EPA) State and Tribal Assistance Grants (STAG) account to the City of Lake Norden in South Dakota for wastewater infrastructure improvements. I request your assistance in correcting this description to reflect the fact that the Lake Norden project involves drinking water infrastructure.

I certify that neither I nor my immediate family has a pecuniary interest, consistent with the requirements of Paragraph 9 of Rule XLIV of the Standing Rules of the Senate, in any congressionally directed spending item that I requested from the Committee on Appropriations for Fiscal Year 2009.

Thank you for consideration of this request, and please contact me if you require any additional information.

Sincerely,

TIM JOHNSON,

United States Senator.

U.S. SENATE,

Washington, DC, September 24, 2009.

Hon. DIANNE FEINSTEIN,  
*Chairman, Appropriations Subcommittee on the Interior, Environment and Related Agencies, Washington, DC.*

Hon. LAMAR ALEXANDER,  
*Ranking Member, Appropriations Subcommittee on The Interior, Environment and Related Agencies, Washington, DC.*

DEAR CHAIRMAN FEINSTEIN AND RANKING MEMBER ALEXANDER: I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested, including Senate Amendment # 2501, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate for the FY 2010 Department of Interior, Environment, and Related Agencies Appropriations bill.

Sincerely,

JAMES E. RISCH,  
United States Senator.

Mrs. FEINSTEIN. Mr. President, all of these amendments have been cleared on both sides, and I believe we are in a position to voice vote the package.

Before voting, through, I would yield to my distinguished ranking member for any comments he may wish to make.

Mr. ALEXANDER. Mr. President, I concur with the remarks of the distinguished chairman of the subcommittee. I believe these are good amendments. We are able to clear them with the relevant members and their staffs. I support their adoption.

Beyond that, I would like to say to the chairman, I appreciate her willingness to accommodate the amendments and the positions of a large number of Republican Senators who have important issues that we will have a chance to vote on, and for including us in the process. I thank her for that, and we look forward to the rest of the day and concluding work on the bill.

Mrs. FEINSTEIN. I ask for a voice vote.

The PRESIDING OFFICER. The question is on agreeing to the managers' package of amendments en bloc.

The amendments were agreed to en bloc, as follows:

## AMENDMENT NO. 2492

(Purpose: To provide funds for the Collaborative Forest Landscape Restoration Fund, with an offset)

On page 197, line 11, strike "\$2,586,637,000" and insert "\$2,576,637,000".

On page 198, line 10, strike "\$350,285,000" and insert "\$340,285,000".

On page 200, between lines 13 and 14, insert the following:

COLLABORATIVE FOREST LANDSCAPE  
RESTORATION FUND

For expenses authorized by section 4003(f) of the Omnibus Public Land Management Act of 2009 (16 U.S.C. 7303(f)), \$10,000,000, to remain available until expended.

## AMENDMENT NO. 2501

(Purpose: To provide for the use of certain funds for the Upper Snake/South Fork River Area of Critical Concern)

On page 122, line 11, insert before the period at the end the following: "Provided, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$2,000,000 made available for the Henry's Lake ACEC in the State of Idaho (as described in the table entitled "Congressionally Designated Spending" contained in section 430 of that joint explanatory statement) shall be made available for the Upper Snake/South Fork River ACEC/SRMA in the State of Idaho".

## AMENDMENT NO. 2505

(Purpose: To require the Administrator of the Environmental Protection Agency to conduct a study on black carbon emissions)

On page 192, between lines 6 and 7, insert the following:

GENERAL PROVISIONS, ENVIRONMENTAL  
PROTECTION AGENCY

## BLACK CARBON

SEC. 201. (a) Not later than 18 months after the date of enactment of this Act, the Administrator, in consultation with other Federal agencies, may carry out and submit to Congress the results of a study to define black carbon, assess the impacts of black carbon on global and regional climate, and identify the most cost-effective ways to reduce black carbon emissions—

(1) to improve global and domestic public health; and

(2) to mitigate the climate impacts of black carbon.

(b) In carrying out the study, the Administrator shall—

(1) identify global and domestic black carbon sources, the quantities of emissions from those sources, and cost-effective mitigation technologies and strategies;

(2) evaluate the public health, climate, and economic impacts of black carbon;

(3) identify current and practicable future opportunities to provide financial, technical, and related assistance to reduce domestic and international black carbon emissions; and

(4) identify opportunities for future research and development to reduce black carbon emissions and protect public health in the United States and internationally.

(c) Of the amounts made available under this title under the heading "ENVIRONMENTAL PROGRAMS AND MANAGEMENT" for operations and administration, up to \$2,000,000 shall be—

(1) transferred to the account used to fund the Office of Air Quality Planning and Standards of the Environmental Protection Agency; and

(2) used by the Administrator to carry out this section.

#### AMENDMENT NO. 2509

(Purpose: To encourage the Administrator of the Environmental Protection Agency to reassess the cost-effectiveness of the buyout and relocation of residents of certain properties in Treece, Kansas)

At the end of title IV, add the following:

#### BUYOUT AND RELOCATION

SEC. 4. (a) As soon as practicable after the date of enactment of this Act, the Administrator of the Environmental Protection Agency (referred to in this section as the "Administrator") is encouraged to consider all appropriate criteria, including cost-effectiveness, relating to the buyout and relocation of residents of properties in Treece, Kansas, that are subject to risk relating to, and that may endanger the health of occupants as a result of risks posed by, chat (as defined in section 278.1(b) of title 40, Code of Federal Regulations (as in effect on the date of enactment of this Act)).

(b) For the purpose of the remedial action under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.) that includes permanent relocation of residents of Treece, Kansas, any such relocation shall not be subject to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.).

(c) Nothing in this section shall in any way affect, impede, or change the relocation or remediation activities pursuant to the Record of Decision Operable Unit 4, Chat Piles, Other Mine and Mill Waste, and Smelter Waste, Tar Creek Superfund Site, Ottawa County, Oklahoma (OKD980629844) issued by the Environmental Protection Agency Region 6 on February 20, 2008, or any other previous Record of Decision at the Tar Creek, Oklahoma, National Priority List Site, by any Federal agency or through any funding by any Federal agency.

#### AMENDMENT NO. 2518

(Purpose: To make technical corrections to certain State and tribal assistance grants)

On page 190, line 10, insert before the period at the end the following: "": *Provided further*, That, notwithstanding House Report 107-272, the amount of \$1,000,000 made available to the Southeast Alabama Regional Water Authority for a water facility project and the amount of \$2,500,000 made available to the Alabama Regional Water Authority for the Southwest Alabama Rural/Municipal Water System may, at the discretion of the Administrator, be made available to the city of Thomasville for those projects: *Provided further*, That, notwithstanding House Report

108-10, the amount of \$450,000 made available to the Southwest Alabama Regional Water Authority for water infrastructure improvements may, at the discretion of the Administrator, be made available to the city of Thomasville for that project: *Provided further*, That, notwithstanding House Report 108-401, the amount of \$450,000 made available to the Southwest Alabama Regional Water supply District for regional water supply distribution in Thomasville, Alabama, may, at the discretion of the Administrator, be made available to the city of Thomasville for that project: *Provided further*, That, notwithstanding House Report 108-401, the amount of \$2,000,000 made available to the Tom Bevill Reservoir Management Area Authority for construction of a drinking water reservoir in Fayette County, Alabama, may, at the discretion of the Administrator, be made available to Fayette County, Alabama, for water system upgrades: *Provided further*, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$500,000 made available to the San Bernardino Municipal Water District for the Inland Empire alternative water supply project (as described in the table entitled 'Congressionally Designated Spending' contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to the city of San Bernardino municipal water department for that project: *Provided further*, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying the Consolidated Appropriations Act, 2008 (Public Law 110-161; 121 Stat. 1844), from funds made available by that Act for the State and Tribal Assistance Grants program, \$170,800 may, at the discretion of the Administrator, be made available to the city of Prescott for a wastewater treatment plant construction project and \$129,200 may, at the discretion of the Administrator, be made available to the city of Wichita for a storm water technology pilot project: *Provided further*, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 524), the amount of \$185,000 made available to the city of Manhattan for the sewer mainline extension project (as described in the table entitled 'Congressionally Designated Spending' contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to the city of Manhattan for a water mainline extension project: *Provided further*, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 524), the amount of \$290,000 made available to the Riley County Board of Commissioners for the Konza Sewer Main Extension project (as described in the table entitled 'Congressionally Designated Spending' contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to the city of Manhattan for the Konza Water Main Extension project: *Provided further*, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$1,300,000 made available to the City of Warrensburg,

Missouri for a drinking water and wastewater infrastructure project (as described in the table entitled 'Congressionally Designated Spending' contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to Johnson County, Missouri for that project: *Provided further*, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$1,000,000 made available to the City of Gravois Mills for wastewater infrastructure (as described in the table entitled 'Congressionally Designated Spending' contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to the Gravois Arm Sewer District for that project: *Provided further*, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$500,000 made available to McDonald County, Missouri for a wastewater infrastructure expansion project (as described in the table entitled 'Congressionally Designated Spending' contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to PWSD #1 of McDonald County, Missouri for that project: *Provided further*, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 110-161 (121 Stat. 1844), the amount of \$150,000 made available to the City of Hayti, Pemiscot Consolidated Public Water Supply District 1 for a Water Storage Tank (as described in the section entitled 'STAG Infrastructure Grants/Congressional Priorities' on page 1264 of the joint explanatory statement) may, at the discretion of the Administrator, be made available to Pemiscot Consolidated Public Water Supply District 1 for a drinking water source protection infrastructure project: *Provided further*, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$400,000 made available to the City of Lake Norden, South Dakota, for wastewater infrastructure improvements (as described in the table entitled 'Congressionally Designated Spending' contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to the City of Lake Norden, South Dakota, for drinking water infrastructure improvements".

#### AMENDMENT NO. 2519

(Purpose: To extend a special use permit for Drake's Estero at Point Reyes National Seashore, California)

On page 179, strike line 7 and all that follows through page 180, line 9, and insert the following:

SEC. 120. Prior to the expiration on November 30, 2012 of the Drake's Bay Oyster Company's Reservation of Use and Occupancy and associated special use permit ("existing authorization") within Drake's Estero at Point Reyes National Seashore, notwithstanding any other provision of law, the Secretary of the Interior is authorized to issue a special use permit with the same terms and conditions as the existing authorization, except as provided herein, for a period of 10 years from November 30, 2012: *Provided*, That such extended authorization is subject to annual payments to the United States based on

the fair market value of the use of the Federal property for the duration of such renewal. The Secretary shall take into consideration recommendations of the National Academy of Sciences Report pertaining to shellfish mariculture in Point Reyes National Seashore before modifying any terms and conditions of the extended authorization.

## AMENDMENT NO. 2522

(Purpose: To clarify the authority of the Secretary of Agriculture regarding the coordination of biobased product activities)

On page 240, between lines 13 and 14, insert the following:

SEC. 4. Section 404(c) of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7624(c)) is amended—

(1) in paragraph (1), by striking “Agricultural Research Service” and inserting “Department of Agriculture”; and

(2) by adding at the end the following:

“(3) AUTHORITY OF SECRETARY.—To carry out a cooperative agreement with a private entity under paragraph (1), the Secretary may rent to the private entity equipment, the title of which is held by the Federal Government.”.

## AMENDMENT NO. 2534, AS MODIFIED

At the appropriate place, insert the following:

SEC. . (a) It is the sense of the Senate that the Senate—

(1) Supports the National Vehicle Mercury Switch Recovery Program as an effective way to reduce mercury pollution from electric arc furnaces used by the steel industry to melt scrap metal from old vehicles; and

(2) Urges the founders of the Program to secure private sector financial support so that the successful efforts of the Program to reduce mercury pollution may continue.

## AMENDMENT NO. 2491, AS MODIFIED

On page 240, between lines 13 and 14, insert the following:

## SEC. 423. NATIONAL FOREST FOUNDATION.

Section 403(a) of the National Forest Foundation Act (16 U.S.C. 583j-1(a)) is amended, in the first sentence, by striking “fifteen Directors” and inserting “not more than 30 Directors”.

## AMENDMENT NO. 2495

(Purpose: To support the Pest and Disease Revolving Loan Fund)

On page 193, line 13, insert before “: *Provided*” the following: “and of which \$2,000,000 may be made available to the Pest and Disease Revolving Loan Fund established by section 10205(b) of the Food, Conservation, and Energy Act of 2008 (16 U.S.C. 2104a(b))”.

## AMENDMENT NO. 2507

(Purpose: To limit the increase in cabin user fees, with an offset)

On page 193, line 9, strike “\$1,556,329,000” and insert “\$1,552,429,000”.

On page 193, line 20, insert before the period at the end the following: “: *Provided further*, that \$282,617,000 shall be made available for recreation, heritage, and wilderness”.

On page 240, between lines 13 and 14, insert the following:

## SEC. 423. CABIN USER FEES.

Notwithstanding any other provision of law, none of the funds made available by this Act shall be used to increase the amount of cabin user fees under section 608 of the Cabin User Fee Fairness Act of 2000 (16 U.S.C. 6207) to an amount beyond the amount levied on December 31, 2009.

## AMENDMENT NO. 2493, AS MODIFIED

On page 159, line 25, strike “\$979,637,000” and insert “\$904,637,000”.

On page 197, line 11, strike “\$2,576,637,000” and insert “\$1,817,637,000”.

On page 240, between lines 13 and 14, insert the following:

## SEC. 423. FLAME FUND FOR EMERGENCY WILDFIRE SUPPRESSION ACTIVITIES.

(a) DEFINITIONS.—In this section:

(1) FEDERAL LAND.—The term “Federal land” means—

(A) public land, as defined in section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702);

(B) units of the National Park System;

(C) refuges of the National Wildlife Refuge System;

(D) land held in trust by the United States for the benefit of Indian tribes or members of an Indian tribe; and

(E) land in the National Forest System, as defined in section 11(a) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1609(a)).

(2) FLAME FUND.—The term “Flame Fund” means the Federal Land Assistance, Management, and Enhancement Fund established by subsection (b).

(3) SECRETARIES.—The term “Secretaries” means the Secretary of the Interior and the Secretary of Agriculture, acting jointly.

(4) SECRETARY CONCERNED.—The term “Secretary concerned” means—

(A) the Secretary of the Interior, with respect to Federal land described in subparagraphs (A), (B), (C), and (D) of paragraph (1); and

(B) the Secretary of Agriculture, with respect to National Forest System land.

(b) ESTABLISHMENT OF FLAME FUND.—There is established in the Treasury of the United States a fund to be known as the “Federal Land Assistance, Management, and Enhancement Fund”, consisting of—

(1) such amounts as are appropriated to the Flame Fund; and

(2) such amounts as are transferred to the Flame Fund under subsection (d).

(c) FUNDING.—

(1) AUTHORIZATION OF APPROPRIATIONS.—

(A) IN GENERAL.—There are authorized to be appropriated to the Flame Fund such amounts as are necessary to carry out this section.

(B) CONGRESSIONAL INTENT.—It is the intent of Congress that the amounts appropriated to the Flame Fund for each fiscal year should be not less than the combined average amount expended by each Secretary concerned for emergency wildfire suppression activities over the 5 fiscal years preceding the fiscal year for which amounts are appropriated.

(C) AVAILABILITY.—Amounts appropriated to the Flame Fund shall remain available until expended.

(2) APPROPRIATION.—There is appropriated to the Flame Fund, out of funds of the Treasury not otherwise appropriated, \$834,000,000.

(3) SENSE OF CONGRESS ON DESIGNATION OF FLAME FUND APPROPRIATIONS AS EMERGENCY REQUIREMENT.—It is the sense of Congress that further amounts appropriated to the Flame Fund should be designated as amounts necessary to meet emergency needs.

(4) NOTICE OF INSUFFICIENT FUNDS.—The Secretaries shall notify the congressional committees described in subsection (h)(2) if the Secretaries estimate that only 60 days worth of funding remains in the Flame Fund.

(d) TRANSFER OF EXCESS WILDFIRE SUPPRESSION AMOUNTS INTO FLAME FUND.—At the end of each fiscal year, the Secretary concerned shall transfer to the Flame Fund amounts that—

(1) are appropriated to the Secretary concerned for wildfire suppression activities for the fiscal year; but

(2) are not obligated for wildfire suppression activities before the end of the fiscal year.

(e) USE OF FLAME FUND.—

(1) IN GENERAL.—Subject to paragraphs (2), (3), and (4), amounts in the Flame Fund shall be available to the Secretary concerned to pay the costs of emergency wildfire suppression activities that are separate from amounts annually appropriated to the Secretary concerned for routine wildfire suppression activities.

(2) DECLARATION REQUIRED.—

(A) IN GENERAL.—Amounts in the Flame Fund shall be made available to the Secretary concerned only after the Secretaries issue a declaration that a wildfire suppression activity is eligible for funding from the Flame Fund.

(B) DECLARATION CRITERIA.—A declaration by the Secretaries under subparagraph (A) may be issued only if—

(i) in the case of an individual wildfire incident—

(I) the fire covers 300 or more acres; and

(II) the Secretaries determine that the fire has required an emergency Federal response based on the significant complexity, severity, or threat posed by the fire to human life, property, or resources; or

(ii) the cumulative costs of wildfire suppression activities for the Secretary concerned have exceeded the amounts appropriated to the Secretary concerned for those activities (not including funds deposited in the Flame Fund).

(3) TRANSFER OF AMOUNTS TO SECRETARY CONCERNED.—After issuance of a declaration under paragraph (2) and on request of the Secretary concerned, the Secretary of the Treasury shall transfer from the Flame Fund to the Secretary concerned such amounts as the Secretaries determine are necessary for wildfire suppression activities associated with the declaration.

(4) STATE, PRIVATE, AND TRIBAL LAND.—Use of the Flame Fund for emergency wildfire suppression activities on State land, private land, and tribal land shall be consistent with any existing agreements in which the Secretary concerned has agreed to assume responsibility for wildfire suppression activities on the land.

(f) TREATMENT OF ANTICIPATED AND PREDICTED ACTIVITIES.—

(1) IN GENERAL.—Subject to subsection (e)(2)(B)(ii), the Secretary concerned shall continue to fund routine wildfire suppression activities within the appropriate agency budget for each fiscal year.

(2) CONGRESSIONAL INTENT.—It is the intent of Congress that funding made available through the Flame Fund be used—

(A) to supplement the funding otherwise appropriated to the Secretary concerned; and

(B) only for purposes in, and instances consistent with, this section.

(g) PROHIBITION ON OTHER TRANSFERS.—Any amounts in the Flame Fund and any amounts appropriated for the purpose of wildfire suppression on Federal land shall be obligated before the Secretary concerned may transfer funds from non-fire accounts for wildfire suppression.

(h) ACCOUNTING AND REPORTS.—

(1) ACCOUNTING AND REPORTING SYSTEM.—The Secretaries shall establish an accounting and reporting system for the Flame Fund that is compatible with existing National Fire Plan reporting procedures.

(2) **ANNUAL REPORT.**—Annually, the Secretaries shall submit to the Committee on Natural Resources, the Committee on Agriculture, and the Committee on Appropriations of the House of Representatives and the Committee on Energy and Natural Resources, the Committee on Indian Affairs, and the Committee on Appropriations of the Senate and make available to the public a report that—

(A) describes the use of amounts from the Flame Fund; and

(B) includes any recommendations that the Secretaries may have to improve the administrative control and oversight of the Flame Fund.

(3) **ESTIMATES OF WILDFIRE SUPPRESSION COSTS TO IMPROVE BUDGETING AND FUNDING.**—

(A) **IN GENERAL.**—Consistent with the schedule provided in subparagraph (C), the Secretaries shall submit to the committees described in paragraph (2) an estimate of anticipated wildfire suppression costs for the applicable fiscal year and the subsequent fiscal year.

(B) **PEER REVIEW.**—The methodology for developing the estimates under subparagraph (A) shall be subject to periodic peer review to ensure compliance with subparagraph (D).

(C) **SCHEDULE.**—The Secretaries shall submit an estimate under subparagraph (A) during—

(i) the first week of February of each year;

(ii) the first week of April of each year;

(iii) the first week of July of each year; and

(iv) if a bill making appropriations for the Department of the Interior and the Forest Service for the following fiscal year has not been enacted by September 1, the first week of September of each year.

(D) **REQUIREMENTS.**—An estimate of anticipated wildfire suppression costs shall be developed using the best available—

(i) climate, weather, and other relevant data; and

(ii) models and other analytic tools.

(i) **TERMINATION OF AUTHORITY.**—The authority under this section shall terminate at the end of the third fiscal year in which no appropriations to or withdrawals from the Flame Fund have been made for a period of 3 consecutive fiscal years.

#### **SEC. 424. COHESIVE WILDFIRE MANAGEMENT STRATEGY.**

(a) **STRATEGY REQUIRED.**—Not later than 1 year after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture, acting jointly, shall submit to Congress a report that contains a cohesive wildfire management strategy, consistent with the recommendations described in recent reports of the Government Accountability Office regarding management strategies.

(b) **ELEMENTS OF STRATEGY.**—The strategy required by subsection (a) shall provide for—

(1) the identification of the most cost-effective means for allocating fire management budget resources;

(2) the reinvestment in non-fire programs by the Secretary of the Interior and the Secretary of Agriculture;

(3) employing the appropriate management response to wildfires;

(4) assessing the level of risk to communities;

(5) the allocation of hazardous fuels reduction funds based on the priority of hazardous fuels reduction projects;

(6) assessing the impacts of climate change on the frequency and severity of wildfire; and

(7) studying the effects of invasive species on wildfire risk.

(c) **REVISION.**—At least once during each 5-year period beginning on the date of the submission of the cohesive wildfire management strategy under subsection (a), the Secretaries shall revise the strategy submitted under that subsection to address any changes affecting the strategy, including changes with respect to landscape, vegetation, climate, and weather.

Mr. COBURN. Mr. President, Senator CARPER successfully offered an amendment to this act that would authorize the EPA to conduct a study on black carbon emissions to “improve global and domestic public health” and “to mitigate the climate impacts of black carbon.”

A similar bill, S. 849, was also introduced by Senator CARPER and approved recently by the Senate Committee on the Environment and Public Works.

While I did not object to the purpose of the bill, I did object to the bill because the cost of the study—\$2 million according to the Congressional Budget Office—was not offset.

As I wrote in a letter to Minority Leader MCCONNELL and Senator CARPER outlining my objections to this bill, “At a time when our national debt is greater than \$11.6 trillion, we cannot afford to add to this debt that will be inherited by our children and grandchildren. Even our best intentions need to be paid for with offsets from lower priorities or wasteful spending.”

I also requested the opportunity to modify this legislation if no offsets were made.

I intended to offer a second-degree amendment to offset the expected cost increase in spending as a result of the Carper amendment by capping the amount of funds EPA can spend on conference travel. According to EPA, \$17.296 million was spent on conference travel in 2006—the last year for which we have records. This amendment would have capped conference travel spending at \$15 million, thus assuring that the full cost of the study will be offset.

In the past couple of years, as Americans were tightening their belts and travelling less, EPA was growing its conference budget and travelling more. This is reflected in its annual costs for conference participation and related expenses, which increased from \$10.781 million in fiscal year 2000 to \$17.296 million in fiscal year 2006.

Conference attendance for Federal employees in many, if not most, cases is discretionary, meaning that it is up to Federal agencies to determine to what conferences agency employees should go and how many employees should go. Some conferences provide valuable educational or agency-related information in a format unavailable in a normal office setting. Many conferences, by the sponsors’ design, are held in locations chosen to attract attendees.

That being said, it is the responsibility of the U.S. Congress and the

managers within Federal agencies to exercise due diligence in performing oversight over an area of Federal spending that has cost taxpayers over \$2 billion on conferences from 2000–2006. This spending has increased over 95 percent, from over \$200 million a year in fiscal year 2000 to almost \$400 million a year in fiscal year 2006. In addition to the financial cost of these trips, oversight hearings I held as the chair of the Federal Financial Management Subcommittee highlighted the lost productivity of government employees when they are out of the office on non-essential travel.

The EPA is just one among many Federal agencies that I believe has overspent on nonessential conferences and travel. In my research I found numerous instances where EPA showed questionable judgment in this regard.

In September 2006, EPA sent 23 employees to Paris, France, for the International Society of Exposure Analysis Meeting, at a cost of \$56,000. This conference featured a gala dinner cruise on the River Seine and a cast of presenters that consisted primarily of Americans.

The agency’s employees attended an annual National Beaches Conference in Niagara Falls, NY. The 2006 conference was attended by at least seven EPA employees, at a cost to taxpayers of \$52,500.

One EPA employee attended a December 2006 GSA Small Business Conference in Palm Springs, CA, at a cost of \$4,100, with his or her travel costs alone listed at \$1,800.

A Cancun, Mexico, meeting attended by two EPA employees cost \$4,200, with travel costs listed at \$2,900.

A March 2007 Waste-to-Energy Conference in San Juan, Puerto Rico cost taxpayers \$48,000 for nine EPA employees and two taxpayer-funded non-employees to attend.

A 2006 “Beyond Translation Forum” sponsored by the EPA in Texas to “engage the Hispanic community in becoming environmental stewards” costs \$52,100 for the attendance of 20 EPA employees and 85 taxpayer-funded non-employees.

Over 2 years, EPA also spent \$2.6 million in grants and contracts and over \$300,000 in travel and related expenses for brownfields conferences in Oregon and Missouri.

EPA spent \$235,000 in grants and \$25,000 in travel costs for the National Tank Conference in Memphis. Costs included events at BB King’s and seeing the Memphis Grizzlies basketball team play.

EPA spent \$355,000 in grants and contracts and \$167,000 in travel costs for the Community Involvement Conference in Milwaukee.

In February of 2007, EPA spent \$150,000 to sponsor the “Measuring Program Results” Conference, to which it sent one EPA employee and paid for the attendance of four nonemployees.

Instead of specifically capping the amount EPA could spend on conference travel, Senator CARPER has graciously modified his amendment to transfer \$2 million from the EPA's Environmental Programs and Management account to fund this study of black carbon emissions. This EPA account "provides personnel compensation, benefits, and travel and other administrative expenses for all agency programs."

It is my hope that this transfer in funds will help EPA better manage the funds it is entrusted with by Congress and limit questionable expenditures and unnecessary conference travel and related expenses.

I am pleased that the Senate has agreed to this offset and hope that Congress can begin to prioritize funds for its priorities with real offsets.

AMENDMENTS NOS. 2456 AND 2522 WITHDRAWN

The PRESIDING OFFICER. Under the previous order, amendments Nos. 2456 and 2522 are withdrawn.

Mrs. FEINSTEIN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. REID. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 2522

The PRESIDING OFFICER. For the clarification of the Senate, amendment 2522 was not withdrawn. It was part of the managers' package.

The majority leader.

HEALTH CARE DEBATE

Mr. REID. Mr. President, this past April, as the health care debate was getting underway, I sent my Republican counterpart, Senator McCONNELL, a letter outlining our priorities for the debate. I wrote, of course, that Democrats are committed to lowering health care costs, expanding access, and improving the quality of care. I said that we look forward to a dialog about how to prevent diseases, reduce health disparities, and encourage both early detection and effective treatments that save lives. But in that letter of 5 months ago, I also said that in order to help struggling Americans, we cannot drown in distractions and distortions. I made clear that bipartisanship depended on Republicans demonstrating a sincere interest in legislating. It depends on their joining us to offer concrete and constructive proposals, even if we disagree on the content of those ideas. It depends on us working together in our common interests rather than against each other and against the interests of the American people.

I stand by that assessment as strongly today as I did this spring. It is painfully clear to everyone who has seen this debate's disturbing turns and dis-

honest tactics that more than ever, we now need people willing to work together in good faith. If we have learned anything from the recent rhetoric, both in our respective States and here in the Senate, it is that we need honest debate. It is regrettable that we have seen far too little of that lately.

Today, I want to talk about one area of the debate that has seen particularly reckless rumors and scare tactics—what health insurance reform will mean to seniors.

A Republican Congresswoman recently claimed that our plan to improve health care would "put seniors in a position of being put to death by their government." That was wrong when it was said, and it is wrong now. A Republican Senator made a similar statement to mislead his constituents. He actually accused Democrats of proposing a plan that would kill Americans. Others pretend our reforms will cut benefits when, in fact, the only thing they cut is waste. Is this any way to have an honest debate? I don't think so. Is this what our constituents sent us here to do? I don't think so. Some of our friends on the other side may not want to let reality get in the way of a good sound bite, but I think it is crucial that we get the facts straight.

The fact is, ever since a Democratic Congress and Democratic President created Medicare, Democrats have spent the past 40 years protecting seniors.

I know a little bit about Medicare. My first elective job in Nevada was on a countywide hospital board. It was then called the Southern Nevada Memorial Hospital. It is now called the University Medical Center. When I started my job, 40 percent of seniors who came into that hospital had no insurance. We had an aggressive plan to go after their fathers, mothers, brothers, sisters, whoever signed for them. That is no longer the case with Medicare. Virtually every senior who comes into that institution and all institutions has insurance to cover their hospitalizations. It is called Medicare. By the time I left that job, Medicare had come into existence.

The fact is, ever since Republicans opposed the creation of Medicare, they have spent the past 40 years on the wrong side of history when it comes to helping seniors. They were wrong then, and they are wrong now.

I don't carry much in my wallet. I have three credit cards. I have a few dollars. One thing I always carry with me is something I think is pretty important. I have carried this for years. You can see how wilted it is. I have done it for many years because I want to be able to quote accurately what I am talking about here. Republicans have hated Medicare from the very beginning, and they still hate it.

I was there fighting the fight, one of twelve voting against Medicare because we knew it wouldn't work in 1965.

Robert Dole, former leader of the Republicans in the Senate, candidate for President on the Republican ticket, that is what he said.

Now, we didn't get rid of it in round one because we don't think it is politically smart, but we believe Medicare is going to wither on the vine.

Newt Gingrich. I am not making this up. This is what they said.

Dick Arme, majority leader a few years ago in the House of Representatives:

Medicare has no place in a free world.

When I say that since Democrats created Medicare, we have spent 40 years protecting America's seniors, the fact is, ever since the Republicans opposed the creation of Medicare, they have spent the past 40 years on the wrong side of history when it comes to helping seniors. They were wrong then. They are wrong now. They conveniently ignore facts such as that in 1965, only half the Nation's seniors had health insurance. Today, virtually every senior has health insurance. It is called Medicare. Is it a perfect program? Of course, it is not. But it is a pretty good program. Seniors' life expectancy has gone up and the number of seniors living in poverty has gone down. Those on Medicare universally like it.

People complain about this program. Do you know what the overhead is on this program? It is less than 3 percent. It is one of the most effective programs in the history of the country. But that hasn't stopped Republicans from bragging about trying to kill Medicare. It hasn't stopped them from looking out for insurance companies instead of their constituents. And in the past 10 years, it hasn't stopped Republicans from voting against protecting and strengthening Medicare 59 times. Look at this. These are the votes by year. Just last year, these are the votes. I hope this year's reform will not be No. 60 because this bill will also protect and strengthen Medicare.

There will be an opportunity for Democrats and Republicans to offer amendments to whatever bill comes out of the Finance Committee and out of the HELP Committee, and they will be melded together. What our legislation does is lower the cost of medicine. It provides a free yearly checkup, makes preventive care for seniors free. It will give doctors who treat seniors a raise, and it will cut waste from Medicare. For seniors, health insurance reform will mean all of that.

Rather than having a serious and real debate about a serious and real crisis, some would prefer to deploy tactics to frighten the American people. But what really frightens them is that under the status quo, they live just one illness, one accident, one pink slip away from losing everything they have.

This is no time to let partisanship get the best of us. This is no time to

obsess over rumors or oppose ideas simply because they were proposed by people who sit on a different side of this Chamber. This is no time to instill unfounded fears or incite hope that our Nation's leaders fail.

This is the time to get serious about making it easy for American citizens to afford and live healthy lives. When it comes to Republicans' attacks on Medicare, the messenger has no credibility and the message is nothing more than an excuse. At the end of the day, the other side's insistence on spreading fear above all else is what will truly hurt seniors and all Americans.

Our opponents' claims this time around are as disingenuous as they have been and phony at worst—disingenuous because they have a long track record of standing in the way of giving America's seniors what they need, phony because they completely and willfully misrepresent what the bills we are considering will actually do for seniors. Our bill will lower the cost of medicine, provide a free yearly checkup, make preventive care free, give doctors who treat seniors a raise, and cut waste from Medicare. That is what it is all about.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. I thank the majority leader, Mr. President, because a lot has been said in this health care debate that needs to be clarified. I have been on the floor—how many times—when the Republican leadership has come to the floor and told us that if we are not careful in health care reform, we will end up with a government-run health insurance program. They have warned us: Be careful. Government run health insurance, it is socialism, too much government. I am waiting for the first Republican Senator to come to the floor and say: So we should abolish Medicare; we ought to get rid of Medicaid, which is for the poorest people, and we ought to get rid of veterans health care, another government program, and the Children's Health Insurance Program that makes health insurance affordable all across the United States. If one follows the Republican logic, they are all government health insurance programs.

Traditionally, the Republican Party has not embraced the concept. Let's be honest about it. They have a different view. They would like government to step aside and let the market work its will. Have you noticed what the market is working? The market is working its will in health insurance, and we are seeing private, for-profit health insurance companies making a fortune, denying one out of five people the coverage they thought they had, raising their costs every single year. That is the reality of the private market.

When it comes to Medicare, a program created under President Lyndon Johnson more than 40 years ago, 45

million Americans have the peace of mind to know they have basic health insurance protection. Do you know who these people are? They are folks who worked their whole lives, paid money out of their paychecks to be part of Medicare so that they would have not only the peace of mind but quality health care in their retirement years. It is not just the peace of mind of having access to good health care, it is the peace of mind of knowing that all the money you worked for your entire life to save, the money you wanted to live on in comfort after retirement would not disappear because of medical bills. Medicare gives people peace of mind and protects their assets so they can live independently, comfortably, in the kind of style most of us dream of for all Americans who have worked so hard for many years.

We hear the other side tell us how bad those government health insurance programs are. The administrative costs of Medicare are dramatically lower than the cost of private health insurance. It is obvious. Medicare is a not-for-profit entity. It is managed at a cost of about 3 percent. Do you know what happens with health insurance companies? They load up with costs for profit. They load up with costs for advertising and marketing.

They load up with people who get on the telephone to say: No—no to your doctor. You know what I am talking about. When the doctor says: I think the best thing for you is this procedure, and you are under private health insurance, that last stop in that medical decision is not at the hospital or in the doctor's office; the last stop is a long-distance phone call to some clerk sitting out in Omaha, NE, with a manual in front of him or her, and the first words at the top of the page say: Say no. Raise questions. Tell them you will get back to them.

Am I making this up? I am not. I have example after example from my home State of Illinois, from people I have met during the course of my service in the Senate and the House, and people I met this last summer who will verify that.

So when the Republicans come to the floor to criticize us and say they are the guardians of Medicare, it does not square with their traditional position of opposing Medicare, with their efforts to cut Medicare over the years and the fact that when we talk about Medicare and its future, they are nowhere to be found.

This is a critical health care debate we are facing. I admit the President has stuck his neck out a mile. It takes some courage to do it because he knows it is a controversial issue. President Obama said to us in a joint session of Congress: If this were easy somebody would have done it a long time ago. But he is going to take this on, and he said to us publicly and pri-

vately he will spend every penny of political capital he has to get it done. It means that much to him and to our Nation.

So for seniors this is a critical debate. A lot of seniors are being misled by things that are downright awful. I saw the videotape. This Republican Congresswoman went to the floor of the U.S. House of Representatives and said that: Oh, these Democrats want to create death panels. Sarah Palin said that those death panels would take the life of one of her children or something. That is an outrageous statement and not true.

Do you know what they are talking about? They are talking about an amendment offered by a Georgia Senator—a Republican Georgia Senator—JOHNNY ISAKSON—a reasonable amendment. Do you know what it said? Under our health care reform, people should be allowed to go to a doctor and, in privacy and in confidence, sit down and say the words that need to be said—words like: Listen, I don't want to be hooked up to some machine. When the time comes, I want to go peacefully. I don't want extraordinary things done for me. That is my wish and, doctor, I want you to know that wish. I am going to tell my family, but I want you to know.

Is that an important conversation? Any one of us—and so many of us fit in this category, who have been through one of those situations with a parent, a member of our family, or someone we love—wants to know what they want.

So Senator ISAKSON proposed that amendment. It was a thoughtful, reasonable amendment that we brought into this debate. What happened to it? You know what happened: death panels. Oh, they are going in there. They are going to mandate that they pull the plug on Granny. That is sad. It is unfortunate. It shows a lack of maturity and judgment by those who are making those charges. And we have heard them from the halls of Congress and outside. What we are talking about here is health care reform this country needs but health care reform that will actually benefit Medicare beneficiaries.

As shown on this chart, this is basically what we hope to do for seniors when it comes to health insurance reform.

First, we want to lower the cost of medicine. Ask seniors about Medicare's prescription drug plan, and they will tell you: Well, it is good, but if you have a lot of drugs and they are very expensive—somehow or other Congress dreamed up something called the "doughnut hole." What it basically means is, for some period of time each year, those seniors who need drug protection the most are on their own. They have to start spending out of their pocket. We close the doughnut hole, lowering the cost of medicine for seniors under Medicare.

We provide for that free yearly checkup that can make all the difference in the world. A senior who gets to go in and check up with the doctor regularly is one who is likely going to spot something before it becomes serious where it can be treated successfully. That makes good sense. Seniors across America will appreciate that. That is part of our plan.

Preventive care is free. We are talking about mammograms, colonoscopies, blood tests for prostate cancer. These things will be free under the health care reform we are talking about for senior citizens and for virtually everyone in America.

Giving doctors who treat seniors compensation for the care they are providing. We want doctors who are professional enough to include Medicare patients in their practice to be compensated fairly.

Finally, cut waste from Medicare. I want to say a word about this. I got on this "Meet The Press" program. I get on there once in a while on Sunday mornings. I think they put me on because I am free. But for whatever reason, I was on there, and I was in debate with Newt Gingrich. You know Newt Gingrich, former Republican Speaker of the House of Representatives, the spokesman for many parts of his party today.

I said: It bothers me when people say health care reform is going to cut Medicare. Let me tell you what we have in mind. A few years ago, the private insurance companies came to us and said: We can do a better job at a lower cost in providing Medicare benefits. Well, some people were skeptical.

They said: Let us prove it. The government is doing this all wrong. Let the private health insurance companies do it. We will show you, and we will call it Medicare Advantage.

Off they went providing these Medicare Advantage programs that were to match the benefits under Medicare. The jury came in a few years later, and, do you know what, many of these plans cost up to 14 percent more than Medicare. They did not save us money. It ended up these private health insurance companies not only did not make their point about being cheaper, they cost the taxpayers more money than we should have paid out. They did not provide additional benefits for Medicare recipients that they needed.

They want us to continue to subsidize these private health insurance companies that have failed in their offer to beat Medicare at its own game. So when we say, and the President says, we want to cut the subsidy to health insurance companies under Medicare, that is what he and we are talking about. If they did not keep their end of the bargain to provide medical care at the same cost or less cost than Medicare, why should we continue to subsidize them? I do not think we should.

I said that on the show, and the next person to speak was former Speaker Newt Gingrich, who said: Well, that proves our point. DURBIN wants to cut Medicare.

Well, fortunately for me, Dr. Howard Dean, the former Governor of Vermont, was on the panel, and he corrected him. He said: Mr. Gingrich, he didn't say cut Medicare. He said cut the subsidy to the health insurance companies that are taking advantage of Medicare to profiteer, take that extra money and provide the kind of care we need for seniors, and make sure, in the process, we save the Medicare Program.

Untouched, our Medicare Program is going to suffer from the same thing everybody else suffers from in America: the escalating cost of health care. We have to do something. We have to keep our promise, not only to the seniors today, but to the many who will come after them, that Medicare will be there when they need it, that when they reach the age of 65, they will have the peace of mind of knowing they can still go to their doctor, still go to their hospital, get quality care, and not have a catastrophic illness that wipes out their savings.

This is a debate which is worth getting into. I hope those who follow it understand this party on this side of the aisle fought to create Medicare, fought to protect Medicare, and now is fighting to save Medicare. Do not let those who come before us, misleading us about what we are trying to achieve here, mislead the American people.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, I am not so sure, given what is happening in the country these days, it would be very easy to enact the Medicare Program, had we not done so previously. The Medicare Program was enacted at a time when one-half of the senior citizens in this country had no health care—none. That is not surprising because the fact is, insurance companies do not go running after elderly people to say: Can we provide health insurance coverage to you? We know you are in your seventies or eighties, and we know you are probably going to need coverage for various things in the years ahead. We would like to provide that coverage.

In the mid-1960s, this country and the Congress said: People in their elderly years should not have to lay their head on their pillow at night and wonder whether tomorrow might be the day when they become ill, have a disease, have an accident, and go to a hospital with no health insurance to cover their needs.

This Congress did something very important, and, as is usually the case, when it created Medicare, there were plenty of people saying: Don't do it. It won't work. It is socialism. It shouldn't happen. But it did happen.

There is a health care bill being written in the Finance Committee now. I am not part of a gang of two or a gang of six or a gang of eight. I am part of a gang of 99 Senators, as of today, who will consider the bill they come up with. I do not know what it will look like, and I wish to see all of it before I make a judgment about its merits, but I will say this: Even as it is being written, we hear of efforts to cold call into homes of senior citizens to tell them that what is happening is an attempt to injure and take away services from Medicare for senior citizens. It is not true. It is false.

It is hard to make the case, it seems to me, but some are trying, that if you try to reduce the cost of Medicare by getting rid of waste and fraud and abuse, somehow that results in less health care services for senior citizens, yet that is exactly what is being represented by some.

I have watched very carefully and been very concerned about the issue of waste and fraud and abuse in Medicare.

There should be aggressive oversight, with respect to those who are providing Medicare benefits to senior citizens. There is too much fraud. My hope is—and my understanding from what is being written with respect to preventing fraud—it is going to be a new day. If you want to sign up as a provider and get reimbursement from Medicare for helping senior citizens, you better be providing the service. All too often that has not been the case.

So when we decide we are going to try to cut waste and fraud and abuse in a very serious and relentless and aggressive way, we have people who say: Aha, what they are going to do will harm senior citizens. It is not going to harm senior citizens in the delivery of health care to those who are entitled to it if we take on the waste and the fraud and the abuse and start putting the crooks in jail. That is not going to hurt senior citizens. That is going to help America's elderly.

Let me describe what I am talking about. In 2007, the Department of Justice randomly visited 1,600 durable medical equipment suppliers that bill Medicare for services. They found that one-third of the businesses did not exist. Think of that. They randomly visited 1,600 durable medical equipment suppliers that provide services to beneficiaries, we are told—they are billing the government for it—and they found out that one-third of them did not exist. They were mailboxes to collect fraudulent checks. They billed Medicare, combined, \$237 million in 2007.

Putting those people in jail and stopping that kind of fraud does not injure Medicare. It strengthens it. It does not hurt senior citizens.

A man named Mr. Alcides Garcia was sentenced to 8 years in prison. Here is a picture of him, so we can give him a little credit for what he did. He was

sentenced to 8 years in prison after his medical equipment company made millions in false Medicare claims.

Mr. Thomas Fiore, as shown in this picture, was indicted with 10 others on racketeering charges in south Florida for identity theft and Medicare fraud and much more.

In April of this year, just months ago, officials in Oregon wrapped up a lengthy fraud case. Again, to give credit where credit's due, this is a man named Richard Vanderschuere. He faked disability. His wife Karen and son Richard, Jr. claimed to be full-time care providers. His mother claimed to be a weekend backup assistant. The so-called caretakers received payments for providing home health care while he received Social Security disability benefits. His mother was employed. By the way, this person's mother was employed as a fraud investigator for a State agency in the State of Oregon at the time. Here is his wife, to make sure she gets proper credit. We don't want to leave out the kid because they were all involved in this—trying to fleece the American taxpayers and defraud the American Government.

My point is very simple. My point is that when we take on waste, fraud, and abuse—and this is a new day; this is not part of the lost decade when we had a whole lot of people fleecing this program—when we do that, when we cut down on the waste, fraud and abuse and reduce the costs of Medicare, it is not about reducing Medicare for senior citizens.

I was in a little ice cream shop about 6 weeks ago in a little town in North Dakota. Two elderly women came up to me and said: BYRON, please don't let them take my Medicare benefits away. I understand that is what they are going to try to do.

I said: Well, they are not going to do that, but who told you that?

They said: We got telephone calls from some organization that said you have to be aware they are trying to take your Medicare Program away.

I said: Well, that is not true.

They said: Well, we got the telephone calls.

I said: You might have gotten the calls, but it is not true. It is false.

But what is happening around here—again, I don't know what the health care plan will be that comes out of the Finance Committee, but I will guarantee this: Whatever it is, it would not have a ghost of a chance of passing this Chamber if it begins to harm Medicare Programs for the elderly in this country. This is a very important program. We are the ones who created Medicare. We believe it is important. Those naysayers, those people who have always opposed everything—and there are plenty of them, by the way—they are the ones who are saying: If you cut waste, fraud, and abuse, you are going to cut X billions of dollars of costs;

therefore, you are cutting health care for senior citizens. That is false. I think it ought to stop. We have groups out there that are making cold calls into homes trying to scare senior citizens.

The fact is Medicare is a very important program. It has enriched the lives of the elderly in this country. Would we want to go back to a time when half the senior citizens reached the point in their lives where they were finished with their work life, didn't have much in assets, and then sat around thinking: Oh, my God, I hope I don't get sick because I don't have health care, and I can't find an insurance company that wants to cover me because they know what I know; that when you get older, sometimes you have those health issues that are most acute.

In North Dakota, I recently met a 111-year-old woman named Mary—111 years old. She is acutely aware of everything; she can visit with you about everything. She described to me when the barn burned down in 1904 when she was 6 years old. This is a wonderful, remarkable woman. She is certainly the oldest person in my State and I assume one of the oldest people in our country. But think of what she has experienced in 111 years. Unbelievable things: the automobile, the airplane, walking on the Moon, you name it. But then think of this: In the middle of all this, after she was well into her sixties, Medicare was provided to say to America's senior citizens: You don't have to be frightened anymore. We are going to provide health care coverage in your older years.

Now 99 percent of the senior citizens in this country have health care. They are our parents, our grandparents, those who raised us, those who loved us, those who cared about us. This country then provided a program called Medicare which said: You don't have to be afraid in your older years. You are going to be able to get health care. That is what Medicare is about. Is it perfect? No, it is not perfect. Is there waste, fraud, and abuse? Yes, there is, and we are determined to shut it down. It will be shut down with the right kinds of programs to prevent fraud. And if you try to cheat the Medicare Program, we are going to aggressively prosecute.

Again, I wish to make sure everybody understands, when we hear people say: If you reduce the cost of Medicare by getting rid of waste, fraud, and abuse you are hurting senior citizens and you are trying to cut senior citizens' benefits, that is false and it ought to stop. It is going on right now and it ought to stop. Organizations doing cold calls into homes of senior citizens ought to stop. And it is parroted by politicians and others who think it is an interesting message to scare senior citizens and it ought to stop.

Let me finish as I started. I don't know what kind of health care bill is

going to come to the Senate, and I want to see it before I evaluate it. It is important. It is important to everybody. But I do know this: The Medicare Program is something that has very substantial support in this Chamber. I don't believe there is anything being written in any one of the committees in the Senate that would begin to diminish or in any other way weaken Medicare coverage for America's senior citizens. If that was the case, it wouldn't have a ghost of a chance of getting through this Senate.

I yield the floor.

Ms. MURKOWSKI. Mr. President, I ask unanimous consent to modify the previously agreed to list of amendments to be considered in order to include my amendment No. 2530 and to set aside the pending amendment so mine may be called up.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. On behalf of the majority leader, I object.

The PRESIDING OFFICER. Objection is heard.

Ms. MURKOWSKI. Mr. President, I believe it is truly unfortunate that we are not allowed to consider this amendment. The amendment I was hoping to be able to bring up and consider is one that would prohibit the use of funds that has the effect of making carbon dioxide a pollutant subject to regulation under the Clean Air Act for any source other than a mobile source.

It is unfortunate that the majority will not allow us to consider this amendment. The problem it seeks to address is significant. I don't believe it is going to go away if we choose to ignore it. As disappointed as I am, this amendment has clearly received considerable attention, so I wish to take this time this afternoon to fully explain its intent, my efforts to ensure its bipartisan nature, as well as the reasons I believe it is so incredibly important for the Senate to be given an opportunity to vote in favor of its adoption, if not now, then at some other point.

In writing this amendment over this past week, I have listened to the concerns of many of my colleagues and the concerns of the environmental community, as well as the concerns expressed by the administration. My colleagues don't have to take my word for this. Look at the text of the amendment and see how it reflects—I think it so reflects—very seriously the comments and the criticisms from those who have weighed in. All I ask, at this time, is that for the next few minutes, my colleagues and my critics return the favor and listen to what I have to say.

For context, let's start back at the beginning. Back in April of 2007, the Supreme Court declared, in the case of *Massachusetts v. EPA*, that carbon dioxide is a pollutant that can be regulated under the Clean Air Act. The

Court held that the EPA must regulate emissions from mobile sources—meaning vehicles—if the Agency determined that carbon dioxide posed a threat to public health and welfare.

In the wake of that decision, EPA began to lay the groundwork for Federal regulation of greenhouse gas emissions. Through its proposed “endangerment finding,” the Agency has sought to confirm that greenhouse gas emissions are, indeed, a threat to the public health and welfare. That proposal is now under review and most expect that it will be finalized in the very near future.

The EPA has also released its draft rule to regulate mobile source emissions as required by the Supreme Court, and this will be accomplished through a dual standard that includes increased vehicle fuel economy and reduced tailpipe emissions.

I am not putting the brakes on that proposal, despite some assertions to the contrary, but I am deeply concerned about the reach it may ultimately have. Under the “Prevention of Significant Deterioration” provisions within the Clean Air Act, anything found to be a pollutant under one section will be subject to regulation under all other sections of the statute.

So what exactly does this mean in plain English? The EPA’s decision to regulate carbon dioxide legally covers not only mobile sources but also stationary sources. We tend to think of powerplants when we think of stationary sources, but also we think of office buildings, hospitals, schools, and apartment buildings. If you follow along those lines, you get the right idea. Very clearly, stationary sources must reduce emissions in order to bring our Nation to its climate goals, but forcing them to do so through the Clean Air Act would be one of the least efficient and most damaging ways to pursue that goal. It would be rife with unintended consequences and, I believe, potentially devastating for our economy.

Under the Clean Air Act, any stationary source that emits more than 250 tons of pollutants each year is subject to regulation. Unlike other pollutants, pretty much every form of economic activity generates some level of carbon dioxide emissions. So these add up relatively quickly. In fact, the U.S. Chamber of Commerce has looked at this very closely. They believe that more than 1.2 million buildings that have never before been regulated under the Clean Air Act would come under this regulation if Congress does not intervene and if EPA moves forward.

The 250-ton threshold would encompass more than just our major emitters. Caught in the same net would be dry cleaners, restaurants, the local Barnes & Noble bookstore. Realistically, we are probably talking about any facility that is heated or cooled by

conventional means that is more than 65,000 square feet in size.

I think there are some very grave concerns about the path the EPA would lead us down. I think they are apparent. I think others are seeing this as well and are expressing their concerns. Just this week, I received letters from over 11 different agricultural groups, including the American Farm Bureau Federation. I have received letters from the American Council of Engineering Companies; NFIB, the National Federation of Independent Businesses; the National Association of Manufacturers and the U.S. Chamber of Commerce.

I ask unanimous consent that the letters from these organizations be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL FEDERATION  
OF INDEPENDENCE BUSINESS,  
Washington, DC, September 23, 2009.

Senator LISA MURKOWSKI,  
Hart Senate Office Building,  
Washington, DC.

DEAR SENATOR MURKOWSKI, On behalf of the National Federation of Independent Business (NFIB), the nation’s leading small business advocacy organization, I am writing to support your amendment to the Fiscal Year 2010 Interior/Environment Appropriations bill to prohibit the Environmental Protection Agency for one year from using federal funds to regulate stationary sources of carbon dioxide (CO<sub>2</sub>).

As you know, the EPA proposed that six greenhouse gasses (GHGs), including CO<sub>2</sub>, endanger public health and welfare. These findings would trigger stringent new regulations under the Clean Air Act (CAA) that would disproportionately affect small entities that are not major polluters and least able to handle or even understand new restrictions. Regulation of GHGs under the CAA will create new burdens such as federal permitting requirements, restrictions on fuel choices and energy use, and requirements for installation of new energy efficient equipment.

Small business routinely cites unreasonable government regulations as a top problem, ranking number six on the 2008 NFIB Small Business Problems and Priorities publication. Regulatory costs are significant and small businesses pay disproportionately more than larger businesses. According to the 2001 NFIB study on Coping with Regulation, small businesses cite many reasons for being frustrated by government regulations, including dealing with the extra paperwork, understanding what is needed to be in compliance, and the dollars spent to comply with government regulations.

The cost of regulation for small business has risen by 10 percent, to \$7,647 per employee per year (according to the Small Business Administration’s Office of Advocacy). This means that for the average member at NFIB with ten employees, the cost of regulation now exceeds \$75,000 annually. Adding more regulatory costs would be a serious blow to already overburdened small business owners, who according to the September 2009 NFIB Small Business Economic Trends survey, are still suffering from weak sales and profits numbers.

NFIB supports the Murkowski amendment because it would delay for one year the use

of federal funds by the EPA to regulate stationary sources of CO<sub>2</sub>. As the 111th Congress continues, I look forward to working with you to address energy issues in a way that is not disruptive to the small business community.

Sincerely,

SUSAN ECKERLY,  
Senior Vice President, Public Policy.

SEPTEMBER 23, 2009.

U.S. Senate.

DEAR SENATOR: The undersigned agricultural organizations urge your support for an amendment to be offered by Senator Murkowski that would prevent unintended and unwanted consequences from regulation by the Environmental Protection Agency (EPA) of greenhouse gases under the Clean Air Act.

The Supreme Court, in *Massachusetts v. EPA*, held that EPA was not precluded from regulating greenhouse gases under section 202(a) of the Clean Air Act, which addresses new motor vehicle emission standards. This amendment would not affect the rulemaking since the rulemaking is still pending.

We do not believe it is sound policy for the EPA to extend this pending regulation beyond motor vehicles into activities like the production of crops, livestock and poultry. We urge your support for the Murkowski amendment.

Sincerely,

American Farm Bureau Federation®,  
American Soybean Association, National Association of Wheat Growers, National Barley Growers Association, National Cattlemen’s Beef Association, National Cotton Council, National Council of Farmer Cooperatives, Public Lands Council, United Egg Producers, US Dry Pea and Lentil Council, USA Rice Federation.

NATIONAL ASSOCIATION  
OF MANUFACTURERS,  
Washington, DC, September 23, 2009.

U.S. Senate,

Washington, DC.

DEAR SENATOR: The National Association of Manufacturers (NAM), the nation’s largest industrial trade association representing small and large manufacturers in every industrial sector and in all 50 states, urges, you to support the Murkowski Amendment to H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010.

At a time when our economy is attempting to recover from the most severe recession since the 1930s, Environmental Protection Agency (EPA) regulations, with no guidance from Congress, will establish disincentives for the long-term investments that would be necessary to grow jobs and expedite economic recovery. The Murkowski Amendment seeks to ensure a healthy and productive discussion in Congress on harmonizing our nation’s energy, environmental and economic needs before the EPA starts regulating carbon dioxide (CO<sub>2</sub>) emissions from stationary sources, including manufacturing facilities.

Manufacturers support a comprehensive, federal climate policy within a framework that will cause no economic harm while granting sufficient time to deploy low-carbon technologies, such as carbon capture and sequestration, renewable energy and a renewed and large-scale deployment of nuclear power plants.

Prior to the onset of the financial crisis in 2008, energy inflation and price volatility were major contributors to a loss of approximately 3.7 million high-wage manufacturing

jobs. As you may know, manufacturers use one-third of our nation's energy. Because of the impact a federal climate policy will have on the nation's energy future, this is an issue that must be debated by Congress without preemption from a federal agency.

Supporting the Murkowski Amendment does not convey opposition to climate change policy; it merely allows Congress to do its job. We concur with the sentiment in a Washington Post September 21 editorial, "Regulating Carbon." It noted that the EPA "is preparing to regulate carbon under the Clean Air Act," which "is breathtakingly unsuited to the great task of battling global warming. . . . Yet if Congress does not act, it's likely that the EPA will. It won't be pretty."

The NAM's Key Vote Advisory Committee has indicated that votes on the Murkowski Amendment, including potential procedural motions, may be considered for designation as Key Manufacturing Votes in the 111th Congress. Thank you for your consideration.

Sincerely,

JAY TIMMONS.

AMERICAN COUNCIL  
OF ENGINEERING COMPANIES,  
Washington, DC, September 23, 2009.

Hon. LISA MURKOWSKI,  
U.S. Senate,  
Washington, DC.

DEAR SENATOR MURKOWSKI: The American Council of Engineering Companies (ACEC) is pleased to support your amendment to the FY 2010 Interior Appropriations bill disallowing for one year the U.S. Environmental Protection Agency (EPA) from regulating under the Clean Air Act greenhouse gas (GHG) emissions from stationary sources. Without taking an overall position on comprehensive climate change legislation, we agree that Clean Air Act regulation of GHGs for stationary sources is not the appropriate way to manage carbon emissions.

ACEC is the business association of America's engineering industry, representing more than 5,000 independent engineering companies throughout the United States engaged in the development of America's infrastructure. ACEC member firms represent the broad spectrum of the industry, from very large firms to small, family-owned businesses.

We think it is wise public policy to delay for one year potentially premature EPA regulatory actions under the Clean Air Act before the Congress decides on its course of action. The breadth of the issues in a comprehensive climate change-energy bill requires thoughtful debate with ample time to negotiate differences between senators from all regions of the country, which has just begun in the Senate and should not be hindered by concerns that EPA could be developing a regulatory program for stationary sources that may be entirely inappropriate for GHG emissions. Even the EPA Administrator has indicated that she would prefer that the Congress work its will on a climate change bill rather than ceding authority to EPA.

It is also important to note that your amendment does not permanently take away any authority from EPA, but simply asks for a one-year delay in stationary source regulations. Given that the House-passed climate change bill makes it clear that stationary sources are subject only to the provisions of the legislation and not to Clean Air Act regulations, your amendment is eminently reasonable as the debate continues.

At the same time, we are hopeful that the amendment can be carefully tailored to limit

EPA's GHG regulatory authority under the Clean Air Act to only mobile sources. We thank you for the opportunity to express our views. If you have any questions or would like to discuss our comments, please feel free to contact me or our environment and energy director, Diane S. Shea.

Sincerely,

DAVID A. RAYMOND,  
President and CEO.

CHAMBER OF COMMERCE  
OF THE UNITED STATES OF AMERICA,  
Washington, DC, September 23, 2009.

TO THE MEMBERS OF THE UNITED STATES SENATE: The U.S. Chamber of Commerce, the world's largest business federation representing more than three million businesses and organizations of every size, sector and region, strongly supports an amendment expected to be offered by Sen. Murkowski and strongly opposes an amendment expected to be offered by Sen. Feinstein to the FY2010 Interior, Environment and Related Agencies Appropriations Act, both related to greenhouse gas emissions. The Murkowski amendment would ensure that should the U.S. Environmental Protection Agency seek to regulate greenhouse gases under the Clean Air Act absent specific authorization from Congress, that EPA limit such regulation to mobile sources. This was the issue decided by the U.S. Supreme Court in *Massachusetts v. EPA*. The Feinstein amendment would seek to "tailor" a small subset of EPA regulations, but in a manner far less comprehensive than the Murkowski amendment.

The House has approved climate change legislation, and the Senate may take up the matter this Congress. It would be inappropriate for EPA to usurp ongoing congressional action on a major policy decision and regulate the very same sources (and the very same emissions) that would be covered by greenhouse gas legislation. Yet that is precisely what would happen if EPA were allowed to proceed.

Since the *Massachusetts v. EPA* decision, EPA has issued regulations implementing a federal greenhouse gas registry, has proposed "endangerment" for the motor vehicle sector, and has proposed a rule to regulate motor vehicle greenhouse gas emissions.

EPA is also likely to issue and enforce as early as spring 2010 a suite of regulations applying to stationary sources, New Source Performance Standards for equipment, Prevention of Significant Deterioration construction permits, and Title V operating permits.

EPA asserts it can use the Clean Air Act to "tailor" its rules to large industrial sources, despite the Act's clear language. The Chamber disagrees, believing only Congress can determine the scope of the Clean Air Act. As raised repeatedly in correspondence from the Chamber, EPA could cripple the economy if it opens greenhouse gas regulation beyond mobile sources. EPA should remain within the bounds of the *Massachusetts v. EPA* decision, which dealt with mobile, not stationary, sources.

The Murkowski amendment would allow EPA to move forward with its greenhouse gas registry and to take public comment on its motor vehicle rule, but it would hold in abeyance EPA's efforts to regulate stationary sources while Congress considers greenhouse gas legislation and the Obama administration negotiates an international accord. If enacted, the Murkowski amendment would allow Congress to consider meaningful and pragmatic greenhouse gas legislation free from any EPA-imposed threat of a regulatory cascade.

The Chamber opposes the Feinstein amendment, which would only exempt farms and other small stationary sources from Clean Air Act Title V regulation. While the Chamber has long argued that the Clean Air Act is a poor tool to address greenhouse gas emissions because it would trigger regulation of smaller sources, like farms, hospitals and small businesses, it would be unwise policy for Congress to react to an attempt by EPA to assert jurisdiction over greenhouse gas emissions from stationary sources with piecemeal, temporary, and wholly incomplete fixes.

The Chamber reiterates its call for Congress to approve bipartisan, comprehensive greenhouse gas legislation in a manner that adequately addresses environmental, energy security, economic, and international aspects of the issue. The Murkowski amendment would facilitate a bipartisan, sensible framework for greenhouse gas legislation and ensure that EPA does not exceed the Court's *Massachusetts v. EPA* decision.

Sincerely,

R. BRUCE JOSTEN,  
Executive Vice President,  
Government Affairs.

Ms. MURKOWSKI. To its credit, the EPA realized that regulations at the 250-ton level are simply not feasible. So to try and resolve this issue, the Agency is apparently considering what they are calling a tailoring proposal. This would lift the Clean Air Act's regulatory threshold to 25,000 tons. That is a hundredfold increase.

I shared the Agency's concern about a 250-ton carbon dioxide limit, but this 250-ton proposal moving up to a 25,000-ton proposal, this tailoring issue, is simply not going to hold. It has no legal basis. I think we expect it would be swiftly rejected by the courts. The EPA cannot constitutionally legislate a major change in the Clean Air Act. Ultimately, once this has all played out, the Agency's carbon dioxide regulations would remain in effect, but the threshold would be triggered at a level 100 times lower than the Agency had planned.

That brings us to the tremendous consequences we can expect as a result. There is widespread agreement that the regulation of carbon dioxide emissions under the Clean Air Act would be absolutely unworkable and, at the same time, economically devastating. In the words of a long-term Democrat over in the House, it will create a "glorious mess." Another observed it could result in "one of the largest and most bureaucratic nightmares that the U.S. economy and Americans have ever seen."

Just this week, the editors of the Washington Post argued that the Clean Air Act is "breathtakingly unsuited to the great task of battling global warming." The Wall Street Journal's editors cast it as "reckless endangerment." They went on to assert that the regulation would be like putting "a gun to the head of Congress" to "play cap and trade roulette with the U.S. economy."

That may sound over the top, but even some members of the environmental community have agreed with

the metaphor, as one clean air advocate affirmed this by saying this regulation is “the legal equivalent of a .44 magnum.”

This regulation is a train that could wreck our fragile economy. It is our own creation, and it is barreling toward us at full speed. I recently saw an ironic motivational poster that said: “Government—if you think the problems we create are bad, wait until you see our solutions.” It is fair to say that this issue, the regulation of carbon dioxide under the Clean Air Act, is one of the many examples of why that poster was created and, sadly, it occasionally rings true.

Today, however, the Senate can choose another course for the debate over energy and climate policy. The Clean Air Act is one of our worst options to regulate carbon dioxide emissions, but it is not our only option for that cause.

Those of us in Congress can and should step up and pass workable, intellectually honest climate legislation—whether it is a system of cap and trade, a carbon tax, or something else that removes the Clean Air Act from the equation. Nearly every participant in this debate, from elected officials to businesses and the environmental community, has stated their preference for legislation over regulation.

That is where my amendment comes in. For exactly 1 year, it would limit the EPA’s ability to regulate carbon dioxide emissions to just the mobile sources that were the subject of the 2007 *Massachusetts v. EPA* lawsuit. This is nothing more than a temporary timeout that will give us the breathing room in an already heated debate. It will give us the time we need to develop a sensible, effective policy that achieves the same result at a much lower cost.

Anyone who takes the time to read my amendment will see I have gone to great lengths here to ensure it does not lead to any unintended or adverse consequences. It has been drafted and redrafted to limit one action by the EPA for 1 year, and nothing else. I have been responsive to bipartisan requests, even from Members who I knew would not be able to support this amendment, because I am committed to avoiding any overreach.

So the result we have is an amendment that will not interfere or conflict with any other regulation or action that EPA is obliged to complete. That goes for the preparatory work for the regulation of carbon dioxide emissions. It holds true for the rule to expand the renewable fuel standard, for construction permits, and for regulations to foster the development of clean coal technologies.

My amendment will not in any way impact EPA’s authority relating to the reporting of greenhouse gas emissions, its ability to develop a voluntary car-

bon offset program, to issue permits for energy infrastructure on or near Federal land, permit carbon sequestration projects, or to move forward with very important work of both exploring for and producing the vast reserves of domestic energy on our Outer Continental Shelf.

All of these concerns have been raised over the past several days, before this amendment was even introduced. All of these concerns are explicitly addressed within it. Some of our Nation’s leading Clean Air Act attorneys—among the best and brightest legal minds—have assisted us in its preparation. They agree it will do exactly as it says, and that leaves very little ground for the claims that have been made against it.

Given how devastating the EPA’s regulation of carbon dioxide emissions could be, many casual viewers are probably left wondering why, exactly, my amendment has drawn such fierce opposition. Well, again, let me be clear. As much as anything else, the regulation of carbon dioxide under the Clean Air Act is being used as a thinly veiled threat to force the Senate to act on climate legislation, regardless of where we are in what remains an ongoing and incredibly important debate.

The possibility that our worst option to reduce emissions will move forward, despite its consequences, is supposed to somehow compel us to move faster. We are expected to push through a climate bill, perhaps regardless of its content, in order to stave off this regulation. If the House debate is any indication of how our own will proceed, we will be asked to rush to judgment, cut off debate on one of the greatest challenges of our time, and to pass a bill—any bill—that purports to reduce emissions.

In my mind, this situation has created a false dilemma, a proverbial Morton’s Fork on Capitol Hill—meaning between a rock and a hard place. Right now, those of us in the Senate are clearly left with two bad choices—the EPA’s endangerment regulation or the House’s energy and climate bill—neither of which will end well for the American people. Making matters worse, we are told there isn’t enough time to consider our options and develop a more viable path forward.

By voting “yes” on my amendment, we could easily change this unfortunate dynamic. But we will not halt or hinder progress on climate legislation, as some have suggested. Not one of the climate bills that has been introduced so far would take effect until 2012—2 full years after the limitation imposed by my amendment would expire.

If my amendment were to be accepted, the EPA will continue its work to regulate emissions from mobile sources. The agency and its employees will go about their business exactly as normal. They can even continue developing regulations for carbon dioxide

emissions from stationary sources. For the next year, they simply cannot put those regulations into effect. One year after this bill is signed into law, that limitation would expire, and the EPA would have every authority to proceed if Congress has still not acted.

For those who have expressed concern that my amendment would become a long-term fixture in appropriations legislation, be assured that I will work with you to ensure that the climate debate not only proceeds but reaches a conclusion in the form of a responsible bill that a majority of us can support. As an elected representative of the State that has been hit hardest by climate change, I will work in good faith with all who want to address climate change in an effective way, while protecting our fragile economy from further harm.

To those who have claimed I am trying to put the brakes on climate legislation, I simply remind you of my longstanding support for renewable, nuclear, and alternative energies as part of the solution. There is a right way and there is a wrong way to moving forward in addressing climate change. EPA regulation of greenhouse gas emissions is simply the wrong way. We must reduce emissions, but it is unacceptable to do so at any cost and by any means. While Congress has not yet developed a workable bill, I will continue to work as hard as I can to make sure that, in fact, we do.

Unlike many Members of the Senate, I have also cosponsored cap-and-trade legislation. I cosponsored the Low Carbon Economy Act that was offered last Congress by Senator BINGAMAN and Senator SPECTER. This year, recognizing that our work is far from finished, Senator BINGAMAN and I worked together, very cooperatively and collaboratively, on another comprehensive measure—the American Clean Energy Leadership Act. We reported that bill from the Energy Committee more than 3 months ago. It would significantly reduce greenhouse gas emissions, without causing economic harm, and yet it is still waiting to be heard on the Senate floor.

The 23 members of the Energy Committee produced a bipartisan energy bill in the first 6 months of Congress. I have every reason to believe that the full Senate can, over a time period twice as long, develop an effective climate policy that will further reduce greenhouse emissions, without disrupting our economy. But that will require us to base our decisions more than on vote counts and special requests. It will require us to set aside politics and focus on substance. It will force us to cross the aisle instead of closing ranks, and it will mean acting on behalf of the American people, in their best interests, rather than our own or our party’s.

With regard to my amendment, the majority has again objected to calling

it up. They have done everything they can to prevent a vote from occurring on the amendment, culminating in the objection that we not even have debate on the matter today. I want my colleagues to know, however, that this issue will not go away. Neither will my commitment to seeing it addressed head-on in a responsible and, if at all possible, bipartisan way.

I ask unanimous consent that Senators BARRASSO, JOHANNIS, and CHAMBLISS be added as cosponsors to my amendment.

With that, I yield the floor.

The PRESIDING OFFICER (Mr. JOHANNIS) Without objection, it is so ordered.

The Senator from California is recognized.

Mrs. FEINSTEIN. Mr. President, I know Senator BOXER, the chairman of the Environment and Public Works Committee, has an hour reserved to come and speak.

First, I will respond to the comments of the distinguished Senator from Alaska. I hope she will understand there are many of us who have viewed her amendment with substantial alarm, for reasons that I thought I might spend a few moments speaking about.

Essentially, as I understood the amendment, which was blocked from coming to the floor, it attempted to prohibit the EPA from using any funds to enforce the Clean Air Act to reduce greenhouse gas emissions from stationary sources.

The proponents have argued that their only goal was to protect small family-owned farms and businesses from overly burdensome regulations. Yet the amendment would have gone much further. In fact, it would actually exempt some of the Nation's largest commercial emitters from climate change regulation, including huge industrial facilities, such as powerplants and refineries.

I am very pleased that this amendment is not before us today. The underlying rationale, as I understand it from the amendment, is groundless. EPA Administrator Lisa Jackson has made it clear that the agency will not use the Clean Air Act to regulate either small businesses or family-owned farms. I was prepared, should the amendment have come up, to put down a side-by-side amendment that would have clearly exempted any farm, as well as any business, that emits under 25,000 tons of carbon dioxide per year.

Let me point this out. Stationary industrial sources account for over half of the U.S. greenhouse gas emissions, according to EPA. These are the leading cause of climate change, and they must be reduced if we have any hope of containing the worst impact of climate change. The amendment would have hampered the administration's effort to tackle one of the biggest pieces of the emissions puzzle: large industrial

facilities. It would have been a major setback.

Thirdly, the amendment would effectively overturn the Supreme Court's landmark decision in *Massachusetts v. EPA*. In that decision, the Court found that the Clean Air Act requires the EPA to determine whether the emissions of greenhouse gases may be reasonably anticipated to endanger public health or welfare and then comply with the Clean Air Act requirements designed to protect public health from dangerous pollution.

Upon completion of an endangerment finding, the Clean Air Act requires EPA to control greenhouse gases from both stationary and mobile sources.

Many argue—and I happen to agree—that regulating the largest greenhouse gas emitters through new legislation, establishing a cap-and-trade system, would be more efficient and less expensive than regulating these sources under the existing Clean Air Act.

But until Congress enacts climate change legislation, EPA has a legal obligation to follow the Clean Air Act. So if one does not want EPA to take action under the Clean Air Act, then this body should want to pass a cap-and-trade bill.

The chairman of the EPW Committee, Senator BOXER, has been working very hard to put together a bill which has an opportunity to pass this Senate.

The point is, if we do not want the Clean Air Act to prevail, then the cap-and-trade bill is the only way to go. That is a clear incentive for the Senate and the House to pass a bill.

EPA has released a draft endangerment finding which it is going to soon finalize. Yet the amendment would have blocked EPA from completing the endangerment finding and from complying with its legal obligations to protect public health. The repercussions would have been major. It means EPA would not be able to complete a joint rulemaking with the Department of Transportation to increase corporate average fuel economy, which we call CAFE, and create a tailpipe emissions standard for automobiles.

That would have been a major problem. It would block implementation of the 2007 fuel economy law which I authored with Senator SNOWE and which took us a long time to get passed and enacted.

By undermining the negotiated agreement between States and the Obama administration, the Murkowski amendment would also have likely resulted in States moving forward with their own tailpipe emissions standards which automakers have fought for years as too onerous. This would have stopped California and 14 other States and the District of Columbia from moving forward with implementing tailpipe emissions standards.

This amendment is vigorously opposed by the Alliance of Automobile

Manufacturers, which includes General Motors, Ford, and Chrysler, the Association of International Automobile Manufacturers, and the United Auto Workers. To that end, I ask unanimous consent to have printed in the RECORD at the conclusion of my remarks a letter from the Auto Alliance and the Association of International Automobile Manufacturers.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mrs. FEINSTEIN. Mr. President, finally, the amendment would send the wrong signal to the rest of the world about the Senate's intentions on climate change. It would suggest that we want to ignore the clear imperative to act, despite the efforts of the administration to motivate the international community in advance of the Copenhagen summit.

There is some concern also about small emitters. EPA is not planning to regulate small emitters. EPA Administrator Lisa Jackson has clearly stated on several occasions that the agency will not regulate small emitters. She said it in her confirmation hearings, she said it again at Senate budget hearings, and she reiterated that comment when she appeared before the Senate Interior Appropriations Subcommittee hearing on EPA's fiscal year 2010 budget just a few months ago.

In fact, Administrator Jackson has sent a draft deregulatory rule to the Office of Management and Budget for review which would establish clearly that all but the very largest sources of greenhouse gas will be preemptively exempted from the stationary source permitting requirements in the Clean Air Act.

She has no intention of regulating small sources that emit under 25,000 tons of carbon dioxide or any small farm.

Mr. President, 25,000 metric tons is a very high threshold. According to EPA, it is equivalent to the emissions from burning 131 trainloads of coal per year—these would be exempted—or burning 2.8 million gallons of gasoline annually.

The 25,000-ton threshold would exempt every small source, focusing only on 13,000 of the largest emitters in the United States.

Let me say that again. The 25,000-ton threshold which EPA intends to proceed with, and which my side-by-side amendment would have had as one of the two criteria, would exempt every small source, focusing only on the 13,000 largest emitters in the United States.

EPA intends to only regulate the largest facilities, and these facilities are, almost without exception, already regulated under the Clean Air Act for emissions of other pollutants such as soot, smog-forming nitrous oxides, or acid-rain-inducing sulfur dioxide.

Let me now explain why the Murkowski Amendment would impact the joint EPA-Department of Transportation rulemaking on automobile greenhouse gas emissions.

This rulemaking is of critical importance, and the regulation implementing this law was negotiated by the White House in cooperation with automakers, the States, and labor.

But according to a letter I received from EPA Administrator Lisa Jackson last night, the impact of the Murkowski amendment "would be to make it impossible for the EPA to promulgate the light-duty vehicle greenhouse-gas emissions standards that the agency proposed on September 15, 2009."

She writes:

Because of the way the Clean Air Act is written, promulgation of the proposed light-duty vehicle rule will automatically make carbon dioxide a pollutant subject to regulation under the Clean Air Act for stationary sources, as well as for light-duty vehicles. The only way that EPA could comply with the prohibition in Senator MURKOWSKI's amendment would be to not promulgate the light-duty vehicle standards.

These standards are something Senator SNOWE and I have worked on for at least 7 years now, beginning with the SUV loophole and ending with the bill that became law, would be totally undermined. By undermining the negotiated agreement between States, the amendment would also likely result in States moving forward with their own tailpipe emissions standards.

As I indicated before, in 2002 California enacted a landmark law to reduce tailpipe emissions standards by 30 percent for all new sedans, trucks, and SUVs by 2016.

I also stated that 14 other States—namely, Arizona, Connecticut, Florida, Maine, Maryland, Massachusetts, New Jersey, New Mexico, New York, Oregon, Pennsylvania, Rhode Island, Vermont, Washington, and the District of Columbia—have adopted or announced their intention to adopt California's greenhouse gas emissions controls.

The amendment would have been a major roadblock in efforts to improve fuel economy standards for vehicles.

I don't think we can bury our head in the sand when it comes to climate change.

I would like to conclude by reminding my colleagues that it makes no sense at this particular point in time to put on the floor a major amendment which well could have devastated both the EPA and any effort to get to cap-and-trade legislation when, in fact, the EPW Committee is struggling to write a comprehensive bill which has an opportunity to pass this body.

Again I say, if people do not want the Clean Air Act prevailing, then the only way you can do that is with a cap-and-trade bill. That is the way the committee of this body is proceeding. I believe it is the correct way.

I believe our Nation is in serious jeopardy, as is the rest of planet Earth, with global warming. I believe it is real. Just this week, the *Journal Nature* published a new paper that found rapid deterioration of the ice sheets on Greenland and Antarctica. Yesterday on this floor, I showed the deterioration in the Arctic. I showed the deterioration in Greenland. I showed the deterioration in the Chukchi Sea. I showed the deterioration off Barrow, AK. It is happening all over the world.

The Flat Earth Society cannot prevail. I think there is a real danger signal out there for planet Earth. We know we cannot reverse it. We know that greenhouse gases do not dissipate and go away after a period of time in the atmosphere. We now know these gases that began during the Industrial Revolution are still present in the atmosphere, and we know that the Earth is not immutable, that it can change. We look at other planets and we see that they have changed over the millennia. What we do here to protect our planet Earth for the next generations is so key and critical.

This discussion has to be joined in an appropriate way, and an appropriate way is when a cap-and-trade bill is produced by the Environment and Public Works Committee and the chairman of that committee is on this floor and the bill is open for amendments and there is a free flow of debate and discussion.

I believe the science is real. I pointed out yesterday we have a project in intelligence whereby the satellites are tracking deterioration in the ice shelves of the world. I hope to present more of that information when there is a bill on the Senate floor.

I ask unanimous consent to have printed in the RECORD Administrator Lisa Jackson's letter.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

UNITED STATES ENVIRONMENTAL  
PROTECTION AGENCY,  
Washington, DC, September 23, 2009.

Hon. DIANNE FEINSTEIN,  
U.S. Senate,  
Washington, DC.

DEAR SENATOR FEINSTEIN: Thank you for your letter about Senator Lisa Murkowski's Amendment Number 2530 to H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act. As you noted in your letter, Senator Murkowski's amendment would prohibit the Environmental Protection Agency from using any funds made available under the Act to take any action that would have the effect of making carbon dioxide a pollutant subject to regulation under the Clean Air Act for any source other than a mobile source.

You asked me what the practical impact would be if Congress enacted Senator Murkowski's amendment. Perhaps the most striking impact would be to make it impossible for the Environmental Protection Agency to promulgate the light-duty vehicle greenhouse-gas emissions standards that the agency proposed on September 15, 2009. Because of the way the Clean Air Act is writ-

ten, promulgation of the proposed light-duty vehicle rule will automatically make carbon dioxide a pollutant subject to regulation under the Clean Air Act for stationary sources, as well as for light-duty vehicles. The only way that EPA could comply with the prohibition in Senator Murkowski's amendment would be to not promulgate the light-duty vehicle standards.

As you know, promulgation of EPA's light-duty vehicle greenhouse-gas emissions standards is an essential part of the historic agreement that President Obama announced earlier this year with the nation's automakers, the State of California, the Department of Transportation, and EPA. That agreement attracted broad, bi-partisan support. The joint DOT-EPA standards are projected to save 1.8 billion barrels of oil over the life of the program, which is twice the amount of oil (crude oil and products) imported in 2008 from the Persian Gulf countries, according to the Department of Energy's Energy Information Administration Office. Additionally, the standards are projected to help save consumers more than \$3,000 over the lifetime of a model year 2016 vehicle and reduce approximately 900 million metric tons of greenhouse gas emissions. Enactment of Senator Murkowski's amendment would pull the plug on those extraordinary accomplishments.

Sincerely,

LISA P. JACKSON,  
Administrator.

EXHIBIT 1

SEPTEMBER 24, 2009.

Hon. DIANNE FEINSTEIN,  
U.S. Senate, Hart Senate Office Building,  
Washington, DC.

DEAR SENATOR FEINSTEIN: We are writing regarding Senator Murkowski's Amendment Number 2530 to H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act. As manufacturers, we are sympathetic to the thrust of Senator Murkowski's amendment that the Congress—and not simply EPA acting under the provisions of the current Clean Air Act—should determine how best to reduce U.S. greenhouse gas emissions economy-wide.

However, the amendment raises additional issues that must be considered where complicated and interconnected environmental and legal issues are at stake. We are concerned that due to the complex interactions among regulations under the various sections of the Clean Air Act, the amendment may impact significantly pending regulations in the mobile source sector—despite language in the amendment that would appear to leave the sector unaffected. In a letter to Senator Feinstein dated September 23, Administrator Jackson stated EPA's interpretation that the Murkowski amendment as filed would "make it impossible for the Environmental Protection Agency to promulgate the light-duty vehicle greenhouse-gas emissions standards that the agency proposed on September 15, 2009."

While the author of the amendment appears not to intend this outcome, we feel compelled to express our concerns. It is critical that the national program for regulating greenhouse gas emissions from autos be finalized early next year. Failure to do so would subject automakers to a patchwork of conflicting state and federal regulations.

Therefore, we respectfully oppose the adoption of the Murkowski amendment as written to H.R. 2996.

Sincerely,

DAVE MCCURDY,  
President & CEO, Alliance of Automobile Manufacturers.

MICHAEL STANTON,  
President & CEO, As-  
sociation of Inter-  
national Automobile  
Manufacturers.

Mrs. FEINSTEIN. I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

Ms. MURKOWSKI. Mr. President, under the unanimous consent agreement, I apparently had 30 minutes. Can the Chair tell me if I have time remaining?

The PRESIDING OFFICER. The Senator from Alaska has 11 minutes remaining.

Ms. MURKOWSKI. Mr. President, I know the Senator from Oklahoma had wanted to make a couple comments, but I would like to take a couple extra minutes before I turn to him in response to my friend and colleague from California.

In many ways, she has made my point or supported the argument. I would agree that, in fact, in order to deal with this very timely issue, this very significant issue, we must act. I just do not believe that utilizing the regulation, moving a climate change regulation through the EPA, is the best instrument, the most effective instrument.

The people I represent back home are very concerned about this, as I have indicated, and are expecting their Congress to act. But they do not feel very comfortable with unelected bureaucrats in the Environmental Protection Agency telling them that, in fact, this is the road we are going to be going down, with no real appreciation or sensitivity to the environmental factors that we in this body assess as we are trying to advance policy. We need to be driving forward good, thoughtful, considered, reasonable policy on the issue of climate change.

I am not disagreeing we stop on this issue. I am simply suggesting we need to make sure it is Congress, it is through the legislative process that we advance these very important policy initiatives.

I do want to also make a comment about the concern that somehow or another my legislation would pull back on what the EPA is currently doing with mobile sources, the emissions from tailpipes. I don't think we could have drafted the amendment any more clear to ensure that it is specific as to the stationary sources.

Again, I urge my colleagues to make sure they are looking at the draft of the amendment we have proposed and not some previous initiatives.

One final point before I turn to Senator INHOFE. The point has been made by my colleague from California that the Administrator for EPA has said it is not her intention to be regulating the small emitters—the farms, the small businesses. She has made those statements, and I appreciate that, but

the problem we face is the Clean Air Act, which doesn't give her that flexibility to change the Clean Air Act. She is obligated to regulate those entities that emit in excess of 250 tons. These are our smaller emitters. So even though she may have suggested or stated this is not her intention to go down that road—she can perhaps move forward with this tailoring proposal, but as I stand before you, I can almost bet that will be challenged in court and it will not pass the test and we will be stuck with what we are all attempting to avoid, which is capturing the smaller businesses—the restaurants, the dry-cleaners, et cetera—into this net as we try to provide for the regulation of the major emitters.

I am sure we will have plenty of opportunity on this floor to continue this debate, but at this time, Mr. President, I yield the remainder of my time to my colleague from Oklahoma.

The PRESIDING OFFICER. The Senator from Oklahoma is recognized.

Mr. INHOFE. Mr. President, I only want to be here to thank the Senator from Alaska and Senator THUNE for trying to bring to our attention the issue of the endangerment findings. I have been discussing the incoming economic train wreck that can result from these regulations since the case of *Massachusetts v. EPA* was decided back in 2007. The EPA's regulatory reach could go everywhere. It could go into schools, hospitals, assisted-living facilities, and just about any activity that meets the minimum thresholds of the Clean Air Act.

Despite the attempts to draft an exemption for small businesses by the senior Senator from California, this effort would be hollow at best. Upon issuance of mobile source regulations the EPA has proposed in its light-duty vehicle greenhouse gas emission standards, the farmers and small sources still retain the obligation under the Clean Air Act, and this obligation is enforceable through citizen suits which we have confirmed through environmental groups will follow. So we know that is going to happen.

I would have to say, as the ranking member on the Environment and Public Works Committee, the more we get into this, the more complications we find. In the process of coming up with some type of an endangerment finding, we find that the information science has been suppressed. We know of the case of Dr. Alan Carlin, who claims his assessment of the latest science on global warming wasn't considered in the endangerment proposal. So we have the endangerment proposal. And some people are not aware of how this process works; that ultimately, if the findings are there, that is when they reach into every life in America. However, this Dr. Carlin has been with the EPA for a long period of time, and he was upset that his information was intentionally suppressed.

Then we find out that information concerning the economics, such as we found through the U.S. Treasury's assessment when they were trying to say, during the consideration of, perhaps this modified bill that it would be the cost of a postage stamp a day, that in fact it would have been some \$1,761 per family every year—we tried to relate that back to what kind of a tax increase this is. If you remember back in the year 1993, we had the Clinton-Gore tax increase—the largest tax increase in decades. It was the inheritance tax, marginal rates, capital gains, and every kind of tax imaginable. If you add all that up, that was a \$32 billion tax increase. This would be almost 10 times that much.

So I think, as we progress along the lines of the endangerment finding, we know how it will be life changing for every element of our society. So I appreciate the efforts of both Senator MURKOWSKI and Senator THUNE to bring this issue of endangerment findings to the forefront. I am not sure it is the best idea to try to get a 1-year moratorium because in a way that might suppress some of the activity that is going on to expose how bad this is to the public.

Having said that, I appreciate being yielded a small amount of time, and I yield the floor.

AMENDMENT NO. 2549

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. VITTER. Mr. President, I stand to briefly discuss my amendment, No. 2549, which is about the so-called czar issue that has a number of Members on both sides of the aisle very concerned.

As I introduce this amendment, Mr. President, let me ask unanimous consent to add Senators GRASSLEY, BUNNING, ROBERTS, and BROWNBACK as co-authors of the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. VITTER. Mr. President, at this point, I call up amendment No. 2549.

The PRESIDING OFFICER. Without objection, the clerk will report.

The assistant legislative clerk read as follows:

The Senator from Louisiana [Mr. VITTER], for himself and Mr. GRASSLEY, Mr. BUNNING, Mr. ROBERTS, and Mr. BROWNBACK, proposes an amendment numbered 2549.

Mr. VITTER. Mr. President, I ask unanimous consent that reading of the amendment be disposed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To ensure that the Assistant to the President for Energy and Climate Change (commonly known as the "White House Climate Change Czar") is not directing actions of departments and agencies funded by this Act)

At the appropriate place, insert the following:

FUNDING LIMITATION

SEC. \_\_\_\_\_. None of the funds made available by this Act may be obligated for the purpose

of departments or agencies funded by this Act and lead by Senate-confirmed appointees implementing policies of the Assistant to the President for Energy and Climate Change (commonly known as the "White House Climate Change Czar").

Mr. VITTER. Mr. President, I did just waive reading of the amendment, but I am going to read it. It is very short and very to the point, and I think simply reading the language is the best way to introduce the concept.

The language is very clear:

None of the funds made available by this Act may be obligated for the purpose of departments or agencies funded by this Act and led by Senate-confirmed appointees implementing policies of the Assistant to the President for Energy and Climate Change (commonly known as the "White House Climate Change Czar").

That is the entire amendment, and the amendment is, again, very simple and straightforward. The point it is making is that we have Cabinet-level appointees. They come before the Senate for vetting and they come before the Senate for confirmation. After they are confirmed, they come before the House and Senate on a regular basis as part of our oversight responsibilities. This constitutional structure should not be superceded by these so-called czars which have grown enormously under this administration.

In making this argument, let me say that this argument has nothing to do with Carol Browner and her qualifications. It is not an attack on her. It is an attack, quite frankly, on the concept of these multitude of czars and the fact that they are an end run around the constitutional process by which top Cabinet and other officials of any administration are confirmed by the Senate and regularly come before the House and Senate as part of our oversight process.

We all know this particular administration has developed an unprecedented number of these so-called czars. We have seen a dramatic increase in this phenomenon. Politico wrote that President Obama "is taking the notion of a powerful White House staff to new heights" and that he is creating "perhaps the most powerful staff in modern history." Specifically, the President has created 18 new czar positions, and I want to focus on those 18 positions.

This czar concept is obviously very general and somewhat undefined. What I am talking about are those 18 positions because none of those positions are established by statute. Congress has not authorized or established any of those positions, No. 1; No. 2, none of those individuals have come before the Senate for confirmation; and No. 3, none of those positions preexisted this administration. As I said a while ago, this has raised concerns among a number of Senators and certainly among the American people.

As I began my remarks, I added as coauthors of this amendment Senators

GRASSLEY, BUNNING, ROBERTS, and BROWNBACK. In addition, the distinguished Senator from Maine, Ms. COLLINS, who chairs the relevant authorization committee, has expressed grave concern about this same phenomenon and, in fact, has another amendment about this very issue. Unfortunately, that amendment is going to be struck down as legislating on an appropriations bill. But she has expressed concern. She spearheaded a letter signed by herself and Senator ALEXANDER and others which she sent to the President.

In addition, and this is very important, this has been a bipartisan concern. Going back to February of this year, the distinguished Senator from West Virginia, Mr. BYRD, wrote the administration expressing strong and grave concern about the constitutional implications of all of these czars. Again, the 18 I am talking about are not created by statute, have not been confirmed by the Senate, and never existed prior to this administration. Also, within the last 2 weeks, Senator FEINGOLD, in addition, has expressed strong and serious concern about exactly the same issue and has written to the administration.

The purpose of my amendment is to say quite simply that when we have an agency, when we have a department that is led by a Senate-confirmed appointee, we shouldn't have a so-called White House czar ordering that appointee or ordering that agency or that department to do things, particularly when that White House czar is not an office created by law through Congress, is not a Senate-confirmed position, and did not exist in any form or fashion prior to this administration.

In terms of my specific amendment, I have chosen to focus on the Assistant to the President for Energy and Climate Change, commonly known as the White House climate change czar, for one simple reason: First, she is among this 18 never created by statute, never confirmed by the Senate, never existing prior to this administration, and she is clearly in a very powerful position—apparently giving orders to Senate-confirmed appointees such as the head of EPA. Of course, the EPA is governed by this appropriations bill now on the floor, so that is why I chose to focus on this particular czar position.

Clearly, this particular czar meets all of those criteria which give rise to my concerns. The President himself, when he appointed this czar, said, "She will be indispensable in implementing an ambitious and complex energy policy."

In addition, there have been several media reports about her dominant stature and dominant role in these sorts of considerations. The Wall Street Journal, for instance, on September 11 of this year, reported:

Ms. Browner helped broker a fuel-standards deal between the administration and

automakers earlier this year and has been a conspicuous presence in climate negotiations with Congress. Energy Secretary Steven Chu, meanwhile, has been largely tied up administering billions of dollars in stimulus projects. Ms. Browner, through a spokesman, declined to comment.

Also, Mary Nichols, the head of the California Air Resources Board, and Carol Browner were key in crafting a plan to impose the first-ever national carbon limits on cars and trucks.

On May 20, the New York Times reported the following:

In an interview yesterday, Nichols said Browner quietly orchestrated private discussions from the White House with auto industry officials.

The obvious question this gives rise to is, What about the head of the Senate-confirmed Energy Department? What about the head of the EPA, Senate confirmed? Those folks seem to be shoved to the side, and this new super agency head, a super Cabinet Member seems to be playing a far more dominant role in key issues that are clearly under the purview of the Energy Department and the EPA. Again, this gives rise to serious constitutional concerns. A number of Senators, Republicans and Democrats, have expressed these concerns—Senator COLLINS, Senator BYRD, Senator FEINSTEIN, Senator ALEXANDER. So this is a germane limitation amendment that goes absolutely to the heart of the matter: Should these czars, positions never created by Congress or by statute, never confirmed by the Senate, never existing prior to this administration—should these czars have a role that is more significant than Senate-confirmed Cabinet Secretaries or agency heads?

Again, I have very carefully crafted an amendment to go specifically to this point. Let me read it word for word. It is not long.

None of the funds made available by this Act may be obligated for the purpose of departments or agencies funded by this Act and led by Senate-confirmed appointees implementing policies of the Assistant to the President for Energy and Climate Change (commonly known as the "White House Climate Change Czar").

It does not say you cannot implement policies of the President of the United States. Obviously, the President is elected by the people and the President obviously ranks higher than the head of EPA or anyone else. But it does say the head of EPA, a Senate-confirmed position, should not be ranked below some so-called czar, a position never before created by Congress, never confirmed by the Senate, never existing prior to this administration.

I encourage all my colleagues to stand up for the rights and the proper constitutional role of the Senate. We play a vital role, particularly with regard to Presidential appointments because only the Senate has advice and consent powers. I urge my colleagues

to stand up for that constitutional role, to preserve that vital constitutional role, and not to allow so-called White House czars to be an end-run around it and to minimize that role in a significant way.

This is a significant constitutional issue, it is a significant bipartisan issue, and I urge support of my amendment.

I yield the remainder of my time.

The PRESIDING OFFICER. The Senator from California is recognized.

Mrs. FEINSTEIN. Mr. President, I rise to oppose the amendment offered by the Senator from Louisiana. Over the past several weeks we have seen issues raised with increasing frequency and volume around the use of the word "czar" by the Obama administration.

I do believe it is unfair to suggest that the White House has a climate czar directing EPA's actions behind the scenes. I do not believe that is true. Effectively, the title "czar," as we all know, does not exist. The current Assistant to the President for Energy and Climate is there to serve as an adviser to the President and to Administrator Jackson on energy and environmental issues. She also coordinates the work of multiple Cabinet level agencies on one of President Obama's key policy priorities—clean energy and jobs that are essential for long-term economic growth.

In a way, this is becoming quite political because it is not unusual for a President to have high-level staff members in the White House who help to coordinate policy issues that touch a number of Federal agencies. We have heard a lot about it. What we do not hear is that President Bush had 47 such advisers for other issues. We Democrats did not make a huge issue about it. So I have a hard time understanding, with all of the concern over climate change and the rapidity with which it is moving, that a Special Assistant to the President who was head of the EPA during the Clinton administration is somebody who is spurious. She is steeped in this. She can give the President good advice. He wants her to be an assistant. So I do not understand quite why she is being picked on.

I still believe the day-to-day work of protecting the environment is very much driven by Administrator Jackson and the EPA staff. I have met with the Administrator. I spoke with her on the phone this morning. I read into the RECORD a letter she wrote yesterday. She is very much hands-on. So I think all of the energy going into these attacks ought to be put into perspective, and that perspective is that the former President of the United States had 47 special assistants. We didn't make a big deal of it. So I do not understand why this one position is now taken and an amendment is there to eliminate it.

I urge a "no" vote on the Vitter amendment.

I yield the floor.

The PRESIDING OFFICER. The Senator from Louisiana is recognized.

Mr. VITTER. Mr. President, I want to very briefly rebut some of the arguments of the distinguished Senator from California. First of all, in her last sentence she characterized the amendment as an amendment to eliminate the position. Of course it does not eliminate the position in any way.

She said earlier that Carol Browner does not tell EPA what to do. If that is the case, then this amendment will not have to change anything she does or how she operates and we should all come together to support the amendment to help allay concerns of the public. The amendment does not prohibit her from advising the President. The amendment does not prohibit her from coordinating multiagency meetings. The amendment is very clear, and it simply prohibits her from ordering around the EPA, which has its own Senate-confirmed head.

Again, I underscore the fact that this amendment is very carefully and narrowly written and does not prevent any of the legitimate advisory responsibilities that Senator FEINSTEIN has discussed.

I yield the floor.

The PRESIDING OFFICER. The Senator from California is recognized.

Mrs. FEINSTEIN. Perhaps I can engage the Senator from Louisiana. Candidly, I do not understand the wording of the amendment. Let me read it. You have read it, and I appreciate that. It does not make sense to me. Here is how it reads.

None of the funds made available by this Act may be obligated for the purpose of departments or agencies funded by this Act—

So none of the funds may be obligated for the purpose of departments or agencies funded by this act—and lead—

It says "lead" but led, I think that is a misspelling—

by Senate-confirmed appointees, implementing policies of the Assistant to the President for Energy and Climate Change.

I don't know what that means on its face.

Mr. VITTER. I would be happy to explain through the Chair what it means. The agency I have in mind, which is funded by this act and led by a Senate-confirmed position, is EPA. So it simply means that EPA cannot use any of its funds to implement orders, policies, from Carol Browner—the White House czar's policies. If the President wants to direct them, obviously the President outranks the head of EPA. But a White House czar, in a position not created by Congress, not confirmed by the Senate, never existing prior to this administration, should not be giving orders to a Senate-confirmed Cabinet Member.

The PRESIDING OFFICER. The Senator from California is recognized.

Mrs. FEINSTEIN. Mr. President, Carol Brown's title is not czar, it is As-

sistant to the President. The President has chosen to appoint an assistant to assist him in evaluating, I assume, various issues pertaining to climate change. It is a complicated subject. She has experience. She has been in government. She has served as head of a department. But the actual policies come over the signature of the Administrator of the EPA.

What you are saying is, essentially, then, the President cannot have any special assistant for the purpose of coordination, asking questions, informing, helping produce—it does not make sense to me. I think on its face it is not clear.

The PRESIDING OFFICER. The Senator from Louisiana is recognized.

Mr. VITTER. Mr. President, to wrap up, my amendment says none of that. My amendment does not prevent this climate change czar from informing and assisting the President. My amendment does not prevent her from convening multiagency and multidepartment meetings. My amendment doesn't say any of that and doesn't prevent any of that. It simply prevents her from ordering the EPA, headed by a Senate-confirmed appointee, to do certain things.

With that, I yield the floor.

The PRESIDING OFFICER. The Senator from California is recognized.

Mrs. FEINSTEIN. If I may, I would like to respond to that. Let me give an example. The CIA is headed by a Senate-confirmed Director, Leon Panetta. He carries on policies from the National Security Council led by General Jones, a nonconfirmed official. Does the Senator from Louisiana believe that the National Security Adviser to the President should not have any role in intelligence and national security matters? What is sauce for the goose is sauce for the gander.

Mr. VITTER. Through the Chair, my answer is no, I don't believe that. My amendment has nothing to do with that, and, by the way, that position is created by statute.

The PRESIDING OFFICER. The Senator from Tennessee is recognized.

Mr. ALEXANDER. If I may, I know the Senator from Missouri is waiting to speak because he has an important meeting to go to. But if I could take 2 minutes, I think the Senator from Louisiana is making a point that concerns not just him but a number of us in the Senate on both sides of the aisle. Maybe the best way to suggest that is this way.

No. 1, the focus should be on the 18 new czars appointed by this President who were not confirmed, never have existed before, and the number of them.

No. 2, it was not the Republican side of the aisle that raised these concerns first. Perhaps this would best express the concern that many of us have. It was offered by Senator BYRD, senior Member of the Senate, the constitutional conscience of the Senate, who in

a letter on February 23 said—this was a letter to President Obama—

The rapid easy accumulation of power by White House staff can threaten the constitutional system of checks and balances. At the worst, White House staff have taken direction and control of problematic areas that are the statutory responsibility of Senate-confirmed officials.

That would be exactly the point in terms of an environment or energy czar and energy or environment Secretary.

As Presidential assistants and advisers,

Senator BYRD goes on to say—

these White House staffers are not accountable for their actions to Congress, to cabinet officials, and to virtually anyone but the President. They rarely testify before Congressional committees—

Et cetera.

Then, Senator COLLINS, on behalf of six Senators, wrote the President a very respectful letter focusing on the 18 new czars who had been appointed by the President simply asking what their authorities and duties are, how they are appointed, whether they are willing to testify, whether they would consult with us. Senator FEINGOLD, the Democratic chairman on the constitution subcommittee, has expressed his concern and indicated he might hold hearings.

I think Senator VITTER is selecting a single example of this unusual number of new czars and raising the question of the constitutional checks and balances that is the same issue that Senator BYRD and Senator FEINGOLD and many of the rest of us raised.

The PRESIDING OFFICER. The Senator from Missouri is recognized.

Mr. BOND. Mr. President, through the Chair, I thank my colleague from South Dakota, Senator THUNE, for allowing me to speak for a minute. We agreed to do that rather than to offer amendments that I intended to propose to this bill. I want to make sure everybody understands a concern that Senator THUNE, many others, and I have; that is, the U.S. Environmental Protection Agency's potential efforts to push through back-door carbon regulations which they cannot achieve legislatively on the Senate floor.

EPA, over the next several years, may attempt to impose trillions of dollars in new energy taxes that will kill millions of jobs. Of course they will say that is not their intent. They want to control climate. But that will be the impact of regulations they could issue over the next few years to control carbon emissions.

Experts have told us the House-passed Waxman-Markey legislation would kill 2.4 million American jobs and impose new energy taxes on the American people. Even President Obama has previously confirmed that under his plan for carbon emission mandates, electricity prices will "necessarily skyrocket."

"Necessarily skyrocket". Those are the President's words. In the EPW

Committee, I presented information from the Missouri University Food and Agricultural Policy Research Institute which determined that the Waxman-Markey legislation would raise farm production for an average family-run commercial production farmer who grows corn and soybeans by about \$11,000 in 2020 and rising to over \$30,000 by 2050.

In this time of suffering, when so many people are out of work and so many family budgets are stretched thin, I cannot, in good conscience, stand by and remain quiet when there is a potential that such new energy taxes would be imposed on American families, farmers, and workers. It is no wonder the Senate is pausing before we jump off the cliff.

Senators, especially from manufacturing and the coal-dependent heartland where I am from, know how much this bill will punish the Midwest, South, and Great Plains. This spring, EPA began the process to start limiting carbon emissions through regulations, and they will do it through expensive plant-by-plant command-and-control regulations, not a cap-and-trade system.

Some say we could limit this problem by not regulating small emitters. But that is no different than Waxman-Markey, which already exempts small emitters. Thus, similar to Waxman-Markey's national energy tax, regulations that exempt small emitters would still impose a national energy tax and kill millions of jobs. Every family will be hit by higher electricity prices when they go after the large electricity-producing companies.

They will face more money for heating, more money for gasoline, more money for diesel fuel—if you are on the farm—more money for almost everything they buy that is produced with energy, which is just about everything that is not in the IT world, although there will be costs there too.

Businesses will face large increases in backdoor costs put on them by higher prices they must pay, even if they fall below the threshold. These costs, the backdoor impact of these costs, will be felt on families, on workers who can lose their jobs.

That is why I proposed two amendments to prevent EPA from imposing backdoor carbon regulations when they result in lost American jobs or raise costs unacceptably for farmers. I was gratified when the Senate earlier passed a version of my jobs amendment during the budget debate. But the leaders on the majority side stripped the job protection out of the bill, leaving workers vulnerable again.

They again, during this debate, will not allow us to protect workers from job-killing carbon proposals, but we will continue to educate the American people on how much they will suffer under proposed carbon legislation and regulation.

I have to add one last word about my friends and majority colleagues, Senators KERRY and BOXER. There continue to be reports that their bill will not include, in writing, before anybody votes on it, crucial sections on how they would distribute their program carbon allowances.

This, regrettably, would hide, not only from us but from the American people, the true costs of the energy tax they propose to impose.

If my Senator friends from Massachusetts and California believe truly in what they are doing, they should not hide the provisions from us. They should give us the time and the American people the time they need to determine the bill's impact.

With millions of jobs on the line and trillions of dollars in tax increases at stake, the American people deserve no less. I call on my colleagues to stand for the suffering people of America who are burdened already by energy costs and could pay much more. I call on people who may be affected to let their Members of Congress know how they feel.

Nobody is going to put out a mandate saying we cannot encourage them to speak. Nobody, no czar is going to come down and say: You cannot express your opinion. I have expressed mine. I have found a lot of people—almost everybody I talk to who raised the subject in my State of Missouri agrees.

I yield the floor.

The PRESIDING OFFICER (Mr. BROWN). The Senator from California.

Mrs. FEINSTEIN. I move to table the Vitter amendment No. 2549. I ask for the yeas and nays.

Mr. President, I withdraw that request.

The PRESIDING OFFICER. The Senator from South Dakota is recognized.

Mr. THUNE. Mr. President, I wish to speak in support of an amendment that was offered earlier today, actually it was filed, I think it was attempted to be called up by Senator MURKOWSKI. The Democratic majority objected to getting a vote on that amendment, which, I think, suggests they do not want to have a vote on that amendment. Frankly, I can see why.

From what I hear about the whole debate on climate change and cap-and-trade legislation that has passed in the House, it will not be voted on in the Senate this year. The reason it will not be voted on is because there are a lot of people in this Chamber who, I think, do not want to have that vote because they know it is a bad vote for them to make.

Fear not, EPA has come to the rescue of people who want to see a lot of this stuff accomplished but do not want to have to make a tough political vote on it. So what we are now faced with is the Environmental Protection Agency deciding they are going to regulate carbon emissions under the Clean

Air Act and moving forward with the regulations to do that.

The Murkowski amendment would essentially prevent funds from being used to do that. It weighs in favor of having Congress deal with this very complex, very weighty, very consequential, and very costly issue to the American people.

This legislation, as we all know, would increase energy prices, cost us jobs, be unfair to entire regions of the country, mine included, enlarge an already bloated bureaucracy in Washington, DC, and put our Nation at a certain economic disadvantage.

I have been skeptical of that controversial legislation that has passed the House, the cap-and-trade bill over there, for some time, for the reasons I have mentioned.

Additionally, I think it is fair to say there would be very little environmental benefit derived from that legislation, were it enacted, without binding, enforceable commitments by China, by India, and other developing countries that are now significant sources of carbon emissions.

I find it disappointing that in the middle of this important debate the administration wants to use the back door—issuing regulations to cap carbon dioxide under the Clean Air Act because they cannot get a Waxman-Markey type climate bill through the front door.

Instead, the relevant committees of this body and the Senate as a whole should be able to consider whether now is the right time for a new massive energy tax disguised as an EPA regulation.

During the previous administration, the EPA had published an Advanced Notice of Proposed Rulemaking that showed just how impractical it would be to regulate carbon dioxide and other greenhouse gases under the Clean Air Act.

These onerous regulations covered homes, schools, churches, hospitals, small businesses and potentially even small farms with livestock.

Under the Clean Air Act, the primary mechanism for regulating carbon emissions would be a fee placed on each ton of covered pollutant emitted above a certain threshold.

This fee, if applied to carbon emissions, is nothing more than a tax on energy that would have severe consequences as our economy struggles to recover from a long recession.

While the Bush administration regulations never made it past an initial draft, the Obama EPA is moving quickly to finalize an endangerment finding and regulate carbon dioxide emissions.

In April 2009, the EPA issued a draft endangerment finding that linked emissions from motor vehicles to an endangerment of human health.

The comment period has closed on this draft endangerment finding, and

when the EPA issues a final ruling it will trigger an array of regulations under the Clean Air Act.

These command and control regulations will have far reaching consequences for our economy at a time when we can least afford it.

According to media reports, EPA will eventually propose regulations for not just mobile sources, but stationary sources that emit over 25,000 tons of carbon dioxide.

The first round of regulations on stationary sources would cover approximately 13,000 facilities in the United States.

These include powerplants, large manufacturing facilities, refineries, fertilizer manufacturers, and a long list of other facilities that are critical to the health of our economy.

In South Dakota, these regulations would place a tax on powerplants, ethanol refineries, and even our largest public university.

And we need to remember that these companies will pass these new costs on to you and me. Now is an especially bad time to saddle the American people with what is in effect a gigantic new energy tax that would cause electricity, gasoline, and home heating costs to skyrocket.

Additionally, pending the outcome of the final endangerment finding, the EPA might be legally bound to regulate all sources that emit over 250 tons of carbon dioxide.

If this statutory threshold of the Clean Air Act is enforced, over 1 million carbon-emitting entities would be faced with a new tax, including commercial buildings, churches, homes, schools, restaurants, and manufacturing facilities both big and small.

Regulation of carbon dioxide is far too important for EPA and the administration to craft expensive, cumbersome, top-down regulations under the Clean Air Act.

Republicans in the Senate know this, Democrats in the Senate know this, the EPA knows this and the White House knows this.

Last year, Congressman JOHN DINGELL said that EPA greenhouse gas regulations would lead to “a glorious mess.” He continued by stating that “As a matter of national policy, it seems . . . insane that we would be talking about leaving this kind of judgment, which everybody tells us has to be addressed with great immediacy, to a long and complex process of regulatory action.”

Congressman DINGELL said it best when he concluded that carbon regulation under EPA had “the potential for shutting down or slowing down virtually all industry and all economic activity and growth.”

According to an OMB memo associated with EPA’s endangerment finding, “Making the decision to regulate CO<sub>2</sub> under the [Clean Air Act] for the first

time is likely to have serious economic consequences for regulated entities throughout the U.S. economy, including small businesses and small communities.”

Representative COLLIN PETERSON, chairman of the House Agriculture Committee, noted in a recent op-ed that EPA regulations of greenhouse gas emissions would result “in one of the largest and most bureaucratic nightmares that the U.S. economy and Americans have ever seen.”

Senator MURKOWSKI and I have filed an amendment to the fiscal year 2010 Interior and Environment appropriations bill that would prohibit the EPA from moving forward with regulations on carbon dioxide emitted from stationary sources for 1 year.

This amendment is not intended to impact the recent announcement from EPA and the Department of Transportation regarding new tailpipe emission requirements for new cars and light trucks.

Additionally, this amendment is not intended to impact the regulation of other greenhouse gasses, such as hydrofluorocarbons, which are also included in the proposed endangerment finding.

This amendment would simply delay the expensive, top-down regulation of carbon emissions from thousands if not 1 million stationary sources in the United States.

For those Senators who wish to regulate carbon emissions through a cap-and-trade system, I encourage you to support this amendment as well. You should be supporting this amendment.

This amendment is not about whether carbon dioxide emissions should be regulated or whether the Federal Government should take any action to reduce carbon emissions. Rather, this amendment is about the process of regulating carbon dioxide emissions.

Should regulations as far reaching and expensive as taxing carbon dioxide be determined by EPA bureaucrats behind closed doors? Or should carbon regulations be openly debated on the floor of the U.S. Senate?

The Murkowski amendment gives the Senate a clear choice.

Constituents, through their elected representatives, should have a voice in that debate. If carbon dioxide regulations moved through the EPA unchanged, the American people would be deprived of their opportunity to be heard on this very important subject. Meanwhile the cost of gasoline, food, and manufactured goods will skyrocket. I urge colleagues on both sides to acknowledge the extremely dangerous consequences of allowing the administration to unilaterally regulate carbon dioxide under the Clean Air Act. I understand the Murkowski amendment will not be allowed to be voted on. I believe the regulations that amendment addresses should be delayed until Congress has the opportunity to debate the consequences. I

will continue to work with Senator MURKOWSKI and other colleagues, families, and small business, to make them aware of what the EPA intends to do by regulation.

In addition to speaking on the Murkowski amendment, as I have filed an amendment which is similar, I ask unanimous consent to call up my amendment and ask that it be made pending.

The PRESIDING OFFICER. Is there objection?

Mrs. FEINSTEIN. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. THUNE. Let me briefly speak to the amendment because it simply addresses this subject in a slightly different way. It is clear the majority does not want to have a vote on either the Murkowski amendment or my amendment because they get at the fundamental issue which is whether we are going to have a debate in Congress about regulating CO<sub>2</sub> emissions or whether we will allow an administrative agency, the EPA, to do that for us. I understand my amendment, which has now been objected to, will not have a vote. We know where the votes are on this. But like the Murkowski amendment, what my amendment is designed to do is to shed daylight on harmful regulations that are taking shape behind the closed doors of the EPA. My amendment is designed to give our constituents a greater say in climate change regulations.

The amendment is also designed to force the EPA to consider the dramatic impact these new Clean Air Act regulations on carbon dioxide will have on electricity and gasoline prices. If these regulations move forward, I am concerned that many families, especially those who rely on coal-generated electricity, will see skyrocketing electricity bills. I am also concerned for families and truckdrivers who could see gasoline and diesel prices go up. EPA regulation of CO<sub>2</sub> would amount to a tax on millions of working-class families.

During debate on the climate change bill, proponents of cap and trade claimed that lower income families will be made whole by giving local distribution companies free allowances to meet the new carbon regulations. Aside from whether this mechanism would actually limit the impact on working families, it is clear such a safeguard is simply not possible under the Clean Air Act. Carbon regulations under the Clean Air Act would effectively be a huge new tax on electricity and gasoline prices paid by families and small businesses.

Additionally, new taxes under the Clean Air Act would apply to oil and ethanol refineries. In South Dakota, we produce approximately a billion gallons annually of ethanol. If the EPA moves forward with carbon caps under

the Clean Air Act, 12 ethanol plants in South Dakota will be subject to this new tax. Additionally, we have a large soybean processing facility hoping to soon produce biodiesel that would also be covered. Not only will these costs be passed on to consumers in the form of higher prices at the pump, but the new regulations will be a major setback to renewable fuel production. In the end, the energy security benefits of domestic renewable fuel production will be negatively impacted by these new regulations.

My amendment 2540 asks EPA to consider the costs and the adverse impacts these regulations will have on the economy before moving forward with an endangerment finding.

It is clear that neither the Murkowski amendment nor mine will be voted on. This issue is not going away. The EPA is moving forward. The House has acted on this issue. The Senate doesn't want to take the hard votes on this so they have punted it to the EPA. The EPA is now moving forward by regulation to do what Congress doesn't have the courage or the will to do, and that is to have a debate about the relative costs and, perhaps, benefits of climate change legislation. It is wrong for us to allow the bureaucracy at the EPA to move forward with these regulations that could be so harmful to our economy, so harmful to jobs, so disastrous when it comes to the energy prices paid by families and small businesses.

This issue will be back. Senator MURKOWSKI will bring it back. I will bring it back. Others of my colleagues who care about the impact of this particular regulation on small businesses and families will be back to debate the issue even though the Democratic majority will not allow us to get a vote today.

I yield the floor.

The PRESIDING OFFICER. The Senator from Louisiana is recognized.

Mrs. FEINSTEIN. Mr. President, I know the Senator from Louisiana wishes to speak in morning business, which is fine. I wonder if I could make one brief announcement. Members are interested in bringing this bill to a conclusion. There are a number of amendments that were listed in the consent order. I ask that Members come to the floor to call up their amendments shortly. Senator COBURN has a number, Senator REID, Senator COLLINS. Senator ENSIGN has a motion to recommit. If these Members could come to the floor and call up their amendments, it would be appreciated. We would be able to, hopefully, conclude the bill.

Mrs. BOXER. Will the Senator yield for a question?

Mrs. FEINSTEIN. I certainly will.

Mrs. BOXER. I am here to make a few comments addressing the points raised by Senator THUNE and Senator MURKOWSKI. They were going to offer an amendment.

Mrs. FEINSTEIN. The Senator has an hour.

Mrs. BOXER. I won't be taking that. At what point would the Senator like me to use the time?

Mrs. FEINSTEIN. I think directly following Senator LANDRIEU.

Mrs. BOXER. That is fine. And how long is Senator LANDRIEU speaking?

Ms. LANDRIEU. Ten minutes.

Mrs. BOXER. I ask unanimous consent that I be recognized following Senator LANDRIEU.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Louisiana.

Ms. LANDRIEU. I appreciate the leadership of the Senators from California and Tennessee, trying to move this important appropriations bill through the process. As we heard this morning, there are lots of important issues pending. I came to speak for a few minutes not about a pending amendment but about an issue bubbling up and brewing in a fairly significant way that we will have to address sometime soon, not necessarily on this bill today, not necessarily through an amendment process to the Interior appropriations, but a program that is in the Interior appropriations bill that is screaming for attention. That is the program having to do with the management of wild horses. It is not a major issue in all 50 States, but it is a big issue to a handful of western States and of interest to several of us in this body.

Let me thank Senator FEINSTEIN and her staff for the leadership they are providing in helping us shape policy. She has been extremely attentive over the last several months. I thank her. I acknowledge the interest of former Senator Salazar, now Secretary of Interior, and his top leadership. They have a tremendous amount of issues before them, issues that will take a lot of their time. For them to make this a priority because some of us have asked them to, I acknowledge that and thank them, all the assistant secretaries and staff from the Interior Department who are working on this.

There are two aspects to this important issue. One involves the fiscal element which taxpayers are alarmed about. The wild horse program, because of its mismanagement and poor, old-fashioned way of operating, is chewing up or taking up about three-quarters of the budget of the Bureau of Land Management. From a fiscal perspective and a financial management perspective, it is crying out for reform.

On the other hand, there is the view of the inhumaneness of some of the practices going on that also cries out for attention. I come to speak briefly about both.

As to the big picture, at the turn of the century, we had about a million wild horses in the territory of the United States. It is sad, from the perspective of most people, that we are

now down to 66,000 wild horses and burros basically forced, through policies developed in the 1970s, to stay in relatively small places, grouped in a few States, most notably the States of Nevada, Wyoming, and California, and a few other western States. We also are down to a few herds of horses. The reason I believe this is important not only to western States or ranchers or landowners or humane societies and others is because for the American people generally, the idea of wild spaces with wild horses is something that is part of our heritage. We want to make sure that heritage is not lost, that we are being responsible in terms of the way the land is being used for multiple purposes and, from the perspective of horse advocates, that the horses themselves are being treated well.

None of that is now being done in the way that most people would appreciate or would be satisfied with. There have been any number of studies I will submit for the record. Most recently, the Congressional Research Service, as well as the Government Accounting Office, suggested major changes to the program. I am going to go through a few possible options. One is the creation of several public/private sanctuaries. This has been suggested by a few fairly high-profile individuals. The idea has merit. We are working with a variety of groups, along with the Department, to think about the possibility of creating public/private partnerships, large sanctuaries, maybe 500,000 or a million acres, where thousands of wild horses could not only roam freely in a healthy way but could potentially become ecotourist opportunities for some of the States and communities, as it would be an attraction that could potentially make money and attract people to some of the western areas or, for that matter, rural areas in other parts of the country.

There is the possibility of making some smart investments to step up some of the adoption programs that might work. There are any number of scientific and new technologies that can be brought to bear in terms of breed management, reproductive issues that could help us to get a much more cost-effective, sane, and humane approach to this problem.

I wanted to let the managers of this legislation know that while we will not have an amendment at this time on the Interior bill, I am looking forward to working with members of the Energy Committee who have jurisdiction over this matter to review in detail a bill that has come over from the House, the ROAM Act, by the chairman of that subcommittee, whom I commend for taking the committee's time, Congressman RAHALL, who sent the bill over here to the Senate. As we begin to discuss the ways that bill could potentially be modified, working with the Department of Interior to find a long-

term solution, one that is cost effective, one that is humane, and one that honors the great history of wild horses, not just pleasant to look at but helped us to settle the West, helped us to open transport and commerce for the Nation, have carried us into war, into battle, helped to feed and clothe this Nation in our history, needs a bit more attention than what they are getting right now.

In conclusion, there was a disturbing roundup conducted not too long ago—just a few weeks ago—and I thank the advocates who brought this to my attention and commit to them to continue to work until we find a better way forward; again, a way that is good for the wild horses, that honors our heritage but is also very respectful of these Western lands and the ranchers who have multiple uses of this property.

I am certain in the Nation God has bequeathed to us we can find enough space for everyone if we keep an open mind. I know the Senator from Tennessee would agree with that; that if we work hard enough, we can find some common ground solutions to this issue.

I thank the Chair and yield the time. I understand my colleague from California is here to speak on a different issue.

The PRESIDING OFFICER. The Senator from California is recognized.

Mrs. BOXER. Mr. President, thank you very much.

I am on the floor, along with Senator WHITEHOUSE—there may be some others—to respond to the remarks made by Senators MURKOWSKI and THUNE regarding an amendment they very much wanted to put before this body. That amendment, simply stated, would stop the Environmental Protection Agency from enforcing the Clean Air Act as it relates to the pollutant carbon.

Some of the things they said are so reminiscent of what was said before the Clean Air Act passed, that: Oh, this is going to be a terrible thing for our people; and the same thing that was said when the Clean Water Act was passed: Oh, this is going to be a burden on business. I have to say to this body, the day we turn our back on these landmark environmental laws is the day the health of our people will suffer. We do not want that to happen.

I wish to be clear, I know this amendment will come back again and again. I know there will be attacks on the Clean Air Act and the Clean Water Act. That is an attack on our families. It is particularly an attack on our children and on our vulnerable senior citizens and our citizens who may have disabilities and who are ill. I will fight it with every ounce of my strength every time it rears its ugly head in this Chamber.

The interesting thing is, most of these environmental laws started with a Republican President named Richard Nixon. What happened to the days

when environmental laws were supported on both sides? Those days appear to be gone.

What I would like to do is—I am going to yield up to 20 minutes to the Senator from Rhode Island. He is so eloquent on this point. Before I do, I wish to place some letters in the RECORD.

One letter is from the Environmental Protection Agency, saying they would have a very difficult time making sure the air was clean if that Murkowski amendment had been offered and passed and become law.

Interestingly, we have a letter from the Alliance of Automobile Manufacturers, also opposing that Murkowski amendment.

We have two more letters to put in the RECORD—and this just happened in 24 hours—one from a coalition made up of the Alliance for Climate Protection, Center for American Progress Action Fund, Center for Auto Safety, Center for Biological Diversity, the Clean Air Task Force, Clean Water Action, the Defenders of Wildlife, Environment America, the Environmental Defense Fund, League of Women Voters of the United States, National Audubon Society, the Natural Resources Defense Council, Oceana, the Sierra Club, Southern Alliance for Clean Energy, Southern Environmental Law Center, and Union of Concerned Scientists—all saying they oppose this amendment, which concerns not enforcing the Clean Air Act as it relates to carbon dioxide.

Lastly, we have a very well put together letter by the National Wildlife Federation, in which they quote a poll that says 75 percent of Americans believe our government should, in fact, regulate global warming pollution, which, of course, is mostly carbon.

Mr. President, I ask unanimous consent those letters be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

UNITED STATES ENVIRONMENTAL  
PROTECTION AGENCY.

Washington, DC, September 23, 2009.

Hon. DIANNE FEINSTEIN,  
U.S. Senate,  
Washington, DC.

DEAR SENATOR FEINSTEIN: Thank you for your letter about Senator Lisa Murkowski's Amendment Number 2530 to H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act. As you noted in your letter, Senator Murkowski's amendment would prohibit the Environmental Protection Agency from using any funds made available under the Act to take any action that would have the effect of making carbon dioxide a pollutant subject to regulation under the Clean Air Act for any source other than a mobile source.

You asked me what the practical impact would be if Congress enacted Senator Murkowski's amendment. Perhaps the most striking impact would be to make it impossible for the Environmental Protection Agency to promulgate the light-duty vehicle greenhouse-gas emissions standards that the

agency proposed on September 15, 2009. Because of the way the Clean Air Act is written, promulgation of the proposed light-duty vehicle rule will automatically make carbon dioxide a pollutant subject to regulation under the Clean Air Act for stationary sources, as well as for light-duty vehicles. The only way that EPA could comply with the prohibition in Senator Murkowski's amendment would be to not promulgate the light-duty vehicle standards.

As you know, promulgation of EPA's light-duty vehicle greenhouse-gas emissions standards is an essential part of the historic agreement that President Obama announced earlier this year with the nation's auto-makers, the State of California, the Department of Transportation, and EPA. That agreement attracted broad, bi-partisan support. The joint DOT-EPA standards are projected to save 1.8 billion barrels of oil over the life of the program, which is twice the amount of oil (crude oil and products) imported in 2008 from the Persian Gulf countries, according to the Department of Energy's Energy Information Administration Office. Additionally, the standards are projected to help save consumers more than \$3,000 over the lifetime of a model year 2016 vehicle and reduce approximately 900 million metric tons of greenhouse gas emissions. Enactment of Senator Murkowski's amendment would pull the plug on those extraordinary accomplishments.

Sincerely,

LISA P. JACKSON.

SEPTEMBER 24, 2009.

Hon. DIANNE FEINSTEIN,  
U.S. Senate,  
Washington, DC.

DEAR SENATOR FEINSTEIN: We are writing regarding Senator Murkowski's Amendment Number 2530 to H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act. As manufacturers, we are sympathetic to the thrust of Senator Murkowski's amendment that the Congress—and not simply EPA acting under the provisions of the current Clean Air Act—should determine how best to reduce U.S. greenhouse gas emissions economy-wide.

However, the amendment raises additional issues that must be considered where complicated and interconnected environmental and legal issues are at stake. We are concerned that due to the complex interactions among regulations under the various sections of the Clean Air Act, the amendment may impact significantly pending regulations in the mobile source sector—despite language in the amendment that would appear to leave the sector unaffected. In a letter to Senator Feinstein dated September 23, Administrator Jackson stated EPA's interpretation that the Murkowski amendment as filed would "make it impossible for the Environmental Protection Agency to promulgate the light-duty vehicle greenhouse-gas emissions standards that the agency proposed on September 15, 2009."

While the author of the amendment appears not to intend this outcome, we feel compelled to express our concerns. It is critical that the national program for regulating greenhouse gas emissions from autos be finalized early next year. Failure to do so would subject automakers to a patchwork of conflicting state and federal regulations.

Therefore, we respectfully oppose the adoption of the Murkowski amendment as written to H.R. 2996.

Sincerely,

DAVE MCCURDY,  
President & CEO, Alliance of Automobile Manufacturers.

MICHAEL STANTON,  
President & CEO, Association of International Automobile Manufacturers.

SEPTEMBER 24, 2009.

DEAR SENATOR: We are writing in opposition to Senator Murkowski's revised appropriations amendment (No. 2350) to the FY 2010 Interior Appropriations bill, H.R. 2996, which concerns carbon dioxide pollution and the Clean Air Act.

The filed amendment's spending limitation would go well beyond blocking the Environmental Protection Agency (EPA) from curbing carbon dioxide pollution from power plants, refineries, and other big "stationary sources." It also would block EPA from implementing the Supreme Court's landmark decision in *Massachusetts v. EPA* by curbing carbon pollution from cars and trucks. If this amendment passes, EPA could not issue the historic consensus standards that the President announced in May with the support of the auto makers, the UAW, states, and the environmental community. Here is why:

The first sentence of the amendment says: "No action taken by the Environmental Protection Agency using funds made available under this Act shall have the effect of making carbon dioxide a pollutant subject to regulation under the Clean Air Act . . . for any source other than a mobile source. . . ." This is a reference to Section 169 of the Act, which says that every new or modified major stationary source needs to install best available control technology (BACT), considering costs, for each pollutant "subject to regulation under this chapter," i.e., under the Clean Air Act.

When EPA issues final vehicle carbon dioxide standards under Section 202 of the Act as planned next March, carbon dioxide will automatically become a pollutant "subject to regulation" under Section 169. From that point on, new or modified major stationary sources will need to install BACT for carbon dioxide, just as they currently do for other dangerous pollutants. This is automatic; there is no way around it without blocking the vehicle rules. Since the Murkowski amendment would bar any action that has the effect of making carbon dioxide "subject to regulation" under Section 169, EPA would be barred from issuing the vehicle standards.

This is why EPA Administrator Lisa Jackson said yesterday that the amendment would be "a death knell to the historic agreement between the President and automakers to increase gas mileage and reduce emissions from cars and trucks."

Congress should not take any action that would undo the progress already made on carbon pollution from motor vehicles.

Later paragraphs of the revised amendment attempt to limit other collateral damage done by the amendment. But those provisions cannot overcome the effect of the amendment's first sentence.

We believe common ground can be found to ensure that the Clean Air Act's stationary source requirements apply only to power plants and other big sources, not smaller sources, and to incorporate this approach in comprehensive energy and climate legislation. But it cannot be accomplished through this rider.

The Murkowski amendment would only move us farther from, not closer to, a bipartisan consensus on comprehensive clean energy and climate legislation that the Senator says she seeks. We strongly urge you to

oppose Senator Murkowski's amendment as well as any other amendments to the Interior Appropriations bill that would delay America's progress toward a clean energy economy that would create jobs, increase America's energy security, and cut pollution.

Alliance for Climate Protection, Center for American Progress Action Fund, Center for Auto Safety, Center for Biological Diversity, Clean Air Task Force, Clean Water Action, Defenders of Wildlife, Environment America, Environmental Defense Fund, League of Women Voters of the United States, National Audubon Society, Natural Resources Defense Council, Oceana, Sierra Club, Southern Alliance for Clean Energy, Southern Environmental Law Center, Union of Concerned Scientists.

NATIONAL WILDLIFE FEDERATION,  
NATIONAL ADVOCACY CENTER,  
Washington DC, September 24, 2009.

DEAR SENATOR: National Wildlife Federation asks you to oppose Amendment 2530, sponsored by Sen. Murkowski, on HR 2996 (the Fiscal Year 2010 Interior and Environment appropriations bill).

America and the world are poised to take long overdue action to reduce global warming pollution. As President Obama said this week in a climate address to the United Nations, there are "no excuses for inaction. . . we don't have much time left." At this historic juncture, Senators should not hit the "snooze button" to delay enforcement of the Clean Air Act and extend the government's long nap on global warming. Year after year, Congress has debated whether or not to act on global warming, but little has been done. Over the past two decades, as the impacts of warming became increasingly severe and the scientific warnings increasingly urgent, U.S. emissions of global warming pollution increased 17%.

National Wildlife Federation, which represents over four million members and supporters, and Americans across the nation strongly and overwhelmingly support action by the Environmental Protection Agency. A recent Washington Post poll found that 75% of Americans believe the government should regulate global warming pollution from power plants and factories.

Amendment 2530 has been revised from earlier drafts and now has a fatal flaw that would extend the amendment's damage beyond what is intended, undoing the recent progress made by automakers, environmental groups and the Obama administration to reach agreement on reducing vehicle emissions. The regulation of a pollutant under the Clean Air Act for vehicles automatically triggers regulation of stationary sources. By blocking action on stationary sources, the amendment would block the Environmental Protection Agency from implementing the new vehicle tailpipe standards as well.

The Clean Air Act has a strong and proven track record of cleaning the air we breathe while allowing our economy to prosper. The Supreme Court has spoken clearly on the government's neglected responsibility to address global warming under the Clean Air Act. And the Environmental Protection Agency is already taking commonsense steps to meet the requirements of the Clean Air Act, focusing on the biggest corporate polluters and limiting the reach of any new regulations.

We appreciate Sen. Murkowski's commitment to advance global warming legislation

in Congress, and look forward to pursuing that common effort with her and other Senators this year. But we strongly oppose this amendment.

Please support action on global warming and vote "no" on Murkowski Amendment 2530.

Sincerely,

LARRY J. SCHWEIGER,  
*President and CEO.*

Mrs. BOXER. So here we had a situation where I am very pleased the rules of this Senate did not allow this very dangerous amendment to be brought before the body. We would have talked about it for days because, before I would allow a vote on that, I would want to make sure every single Senator understood it is a repeal of the Clean Air Act through the backdoor, even after the Bush Supreme Court said the Clean Air Act covers carbon and greenhouse gases.

With that, Mr. President, I yield 20 minutes to the Senator from Rhode Island.

The PRESIDING OFFICER. The Senator from Rhode Island is recognized.

Mr. WHITEHOUSE. Mr. President, first, let me thank my distinguished Environment and Public Works Committee chairman, Senator BOXER, for her passionate defense of this statute, which has improved the quality of life and the quality of our air for a generation now of Americans against this assault. I appreciate that she has given me a few moments to discuss the amendment the Senator from Alaska wanted to offer. I know it was not offered, but, nevertheless, I feel we need to respond, given the message that amendment sends to this body, to the Nation, and to the world regarding America's position on the need to curb global warming and our move toward a clean energy economy.

This amendment would have tied the hands of the Environmental Protection Agency at the very time we need its help to protect the American public from the dangers of climate change—dangers to America's public health, to our national security, and to our economy.

A little history is in order here.

In 2007, the U.S. Supreme Court overrode the Bush administration and ruled, in a case called *Massachusetts v. EPA*, that the Clean Air Act requires the Environmental Protection Agency to regulate greenhouse gas emissions as pollutants, if the Agency determined that greenhouse gases posed a danger to public health, and the Court further obliged the EPA to go ahead and make that determination, yes or no.

The Bush administration, of course, did everything in its power to avoid the duty ordered by the Supreme Court, and it was only this April that the EPA, under Administrator Jackson, finally issued its proposed endangerment finding. The finding, unsurprisingly, acknowledged what every reasonable scientist—in fact, every reasonable

person—has known for years: That carbon dioxide and other so-called greenhouse gas emissions cause our planet's atmosphere to warm and pose a threat to the public health.

The conclusion that these gases should be regulated under the Clean Air Act logically and inevitably followed, as required by law, from the determination that these pollutants threaten public health. Thankfully, this administration has already begun this important work. Senator MURKOWSKI's amendment would have required EPA to take what is called a timeout while Congress crafted a legislative solution to global warming. Unfortunately, time is not on our side as we race to protect our planet from the effects of carbon pollution.

Just yesterday, our President spoke before the United Nations about the challenges to all nations from unchecked global climate change and the opportunities we have to revive the world economy through the advancement of clean energy and clean energy jobs. The world community needs the United States to be a leader in this effort, and the world is watching our actions closely.

President Obama pledged that our steps so far—investments in alternative energy, efficiency measures, tougher fuel standards—and our steps to come "represent an historic recognition on behalf of the American people and their government." He said:

We understand the gravity of the climate threat. We are determined to act. And we will meet our responsibility to future generations.

Forcing the EPA to take a timeout now would have sent exactly the opposite message; would tell the world we do not truly care about climate change; that we are not ready to step up, let alone lead; would say we would prefer to leave a polluted world to our children and grandchildren, a world far worse off than the world our parents and grandparents left to us. Any timeout now would have damaged our international progress and our leadership.

Moreover, a timeout of the sort proposed in the Murkowski amendment would have hurt our legislative efforts. Supporters of the timeout idea profess to want a legislative solution to address climate change. Well, maybe. But doing so would have set back that very goal.

To the extent some of the big polluters are working with us in this legislative process, it is because they feel the hot breath of the future on their necks, and they know they had better participate or be left to their fate. Give them an artificial reprieve from those consequences—real consequences of science, of fact, of law, and of nature—and their motivations would change. Delay would become their friend, indeed their purpose, because of the artificial, false status quo that a timeout would create for them.

Let me tell you how these polluters affect Rhode Island, my home.

Let's start back in 1972, when EPA authorized the use of tall smokestacks instead of emissions limits. By the mid-1970s, four different circuit courts of appeal had ruled that the Clean Air Act required real emissions controls and not just increased stack heights. A tall smokestack only curbs local emissions, but it spreads the poisons widely.

In 1977, Congress enacted section 123 of the Clean Air Act, which barred the construction of smokestacks taller than called for by good engineering practice. Notwithstanding, Midwestern powerplants continued to increase the height of their stacks. The average smokestack height increased from 200 feet tall in 1956 to over 500 feet tall in 1978. In 1970, there were two smokestacks in the United States taller than 500 feet. By 1985, 180 smokestacks stood taller than 500 feet. Twenty-three of these were over 1,000 feet. Once you get over 1,000 feet tall, you actually have to put that smokestack on the aviation safety maps because it becomes a hazard to aviation. Local interests, of course, were happy because less of the smokestack-emitted poisons fell locally and more were spread abroad.

What did this mean for downwind States, such as my State of Rhode Island? Well, all other things being equal, the taller the stack, the farther the poisons travel. According to a 2001 report by the Clean Air Act Task Force entitled "Power to Kill: Death and Disease from Power Plants Charged with Violating the Clean Air Act," pollution spewed from just 51 plants has shortened the lives of as many as 9,000 people nationwide annually, including about 1,500 to 2,100 people in our downwind States such as Rhode Island.

These plants have also caused tens of thousands of asthma attacks each year and hundreds just in Rhode Island. This is just from 51 plants. Physicians for Social Responsibility has estimated that all coal plants in the United States together cause about 23,600 premature deaths and 554,000 asthma attacks each year.

The Centers for Disease Control tells us that between 1980 and 1995 the incidence of childhood asthma increased over 100 percent—the increase of childhood asthma more than doubled—from 3.6 percent to 7.5 percent of all children.

By 2005, nearly 9 percent of all children were reported to have asthma. In African-American children, the rate soared to 19.2 percent—nearly one in five African-American children.

Massachusetts, Maryland, and my State of Rhode Island—all downwind States—were among the five States with the highest incidence of asthma. The Rhode Island Lung Association estimates that 15,000 children—15,000

children in my State of less than 1 million population—have asthma. Nationally, every year more than 40 kids 4 years old and under will die from asthma. Another 115 kids 5 to 15 years old will die, and nearly 400 more age 15 to 34 will die every year. This is what upwind polluters have helped cause.

When I was attorney general for the State of Rhode Island, I joined EPA's lawsuit against American Electric Power for its illegal modification of 16 plants. In 2008, the utility company settled the lawsuit by installing billions of dollars of pollution-control equipment which slashed NO<sub>x</sub> and SO<sub>2</sub> emissions by 813,000 tons each year—813,000 tons of pollution each year. American Electric Power also paid a \$15 million penalty, nearly five times what ExxonMobil has paid so far for the Exxon Valdez oil spill in 1990, and it invested another \$60 million in environmental mitigation projects. So don't tell me things can't be done.

But in Rhode Island, the danger continues, and still every summer in Rhode Island the morning radio announces several days that are unsafe air days, when infants and seniors and people with breathing difficulties are told they should stay home, that they should stay indoors because the summer air in Rhode Island is not safe, and one of the prime reasons it isn't safe is because we are downwind. So don't expect a lot of sympathy from me for these polluters, with their belching smokestacks, that want a free pass to endanger the public, timeout or not.

Here is a little description of how tall some of these stacks go. The tallest building is Willis Tower in Chicago. A lot of its radio towers are on the top, but it is still a heck of a big building. The Empire State Building is 1,250 feet. The Washington Monument is 555 feet. The Statue of Liberty is 305 feet. In Marshall, WV, there is a smokestack 1,204 feet tall. In Rockport, IN, there is a smokestack 1,038 feet tall. In Jefferson, OH, there is a smokestack exactly 1,000 feet tall. I don't know whether that has to go on the aviation safety maps. That is just at the boundary. What these things do is they solve the local problem of pollution by pushing the poisons so far up into the atmosphere that they don't fall in West Virginia, in Indiana, and in Ohio, but they move elsewhere and they land often in Rhode Island, and we face the health consequences every day. So if anybody is looking for a sympathetic ear for these powerplants, they have come to the wrong place if they have come to Rhode Island.

Today, we are facing perhaps the greatest environmental threat of our time: Global climate change triggered by increased concentrations of carbon dioxide in our atmosphere. We have supersaturated the atmosphere with carbon dioxide, and it is having an effect. Coal-fired powerplants share

much of the blame. Forty percent of all carbon dioxide emissions come from coal powerplants. And the polluters will fight—they are fighting—any effort to control their carbon dioxide emissions. The polluter opponents of climate change who are resisting our change to a clean energy economy are strong and wealthy, and they will stop at nothing. We have even recently seen forged letters to Congress opposing climate change legislation in the names of groups that never authorized the letters.

Just like the polluters fought the Clean Air Act in the past, just like the polluters built taller stacks rather than making what comes out of the stacks cleaner, just like the polluters manipulated their flunkies in the Bush administration, today the polluters wanted a timeout. They may say they support a legislative solution to climate change, but if they could fool us so that we defunded and stopped and weakened all of the other available tools for pollution control, that would not help in passing a climate bill. That would give those polluters every incentive in the world to defect, to delay, and ultimately to defeat our efforts to move this country toward a clean energy economy, to stop subsidizing their pollution of our air, and our efforts to start solving this great problem of our day. To protect ourselves, we have to keep all of our tools available, all options for curbing greenhouse gas emissions working to protect us.

I thank the chairman very much for yielding me this time, and I look forward to working with her as we continue to find ways to support this legislation.

I yield the floor.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Mr. President, I wish to thank the Senator from Rhode Island. He gets us to where we need to be, which is focusing on what happens to our people when we walk away from protecting them from pollution.

I know Senator BROWN is in the chair. I wanted to share with him the fact that he knows well that after the Cuyahoga River caught fire in Ohio in 1969 and many of our lakes and rivers appeared to be more like sewers, the committee, which I now chair so proudly and on which Senator WHITEHOUSE sits, responded by enacting the Clean Water Act. That was 1972. I don't know if Senator BROWN was born yet. The fact is, that incident of a river catching fire really caught the attention of the people of this Nation. Whether it was our water or our air or endangered species, we decided to take control of our communities, of our health, of our environment.

There is a lot about America that makes us proud. There is a lot about America that makes us great. I believe one of our values is caring about the

health of our families. I thought Senator WHITEHOUSE was very clear that we are not just debating a regulation on page 4 or 5 or 20 or 50. We are talking about the ability of our kids to breathe the air. We are talking about the ability of this planet to survive without the ravages of global warming, which the Bush administration's CDC told us would have unbelievable effects on the health and safety of our people.

The laws we passed are the landmark laws. So therefore I just want to be put on record, along with Senator WHITEHOUSE, that if this amendment that wasn't offered today comes back in any other form, we are going to have to open up the debate pretty wide—pretty wide—because a repeal of an environmental law can't be done on an appropriations bill. In essence, when you don't enforce a law—that is what the Murkowski amendment would have done—when you don't enforce it, it is the same as not really having it. But you don't have to look in the eyes of your constituents and say: Oh, by the way, today I repealed the Clean Air Act. What you say instead is: Today I fought to have a pause—no enforcement. Well, let me tell my colleagues, when that child gets asthma, she is not going to ask her mom: Did I get asthma because there was a pause in the Clean Air Act or because they repealed the Clean Air Act? That child will get asthma. I swear to my colleagues that I am not going to let more kids get asthma, not on my watch. It is wrong. It is wrong.

Here is the great news. The great news is, if we decide to be the leader in this clean energy revolution, we will see our people get healthy. We will see millions of jobs created. We will move off of these dirty energy sources. We will create American jobs, 21st-century jobs, building wind turbines, installing solar panels, producing a new fleet of electric cars, hybrid vehicles. We see it in Ohio already where they are building solar panels. This is the one area of growth.

We are having a tough time in our State—people laid off, terribly high unemployment rate. The stimulus is helping us. We are getting some jobs back, but we are suffering. The one area of growth, I say to the Chair, 125,000 new green jobs that can't be taken away. You can't take a job of putting a solar rooftop on a home in Los Angeles or Riverside or San Bernardino or San Diego or Akron, OH—you can't have that person in China putting on a solar rooftop. They have to be here. These are good jobs. That is what we ought to be doing, not repealing the laws that protect the health of our citizens but trying to figure out a way to work together to have a bill that will create these new clean energy jobs, that will protect our kids from carbon pollution, and that will make sure the ravages of global warming won't occur.

At the end of the day, our competitiveness depends on how we face this challenge. I believe Thomas Friedman got it right. If you haven't read his book "Hot, Flat, and Crowded," I think you should read it because he is so eloquent on the point. He is not on the defense on this, he is on the offense. He says that if we don't grab this mantle of leadership on clean energy, then other countries will grab it and they will create the technologies, they will create the jobs, and we will fall behind.

America is a leader. We are not a follower. We will have many more opportunities to debate this in the future, but, my goodness, if we are facing legislation that does not move us forward but takes us back to before Richard Nixon was President by not enforcing the Clean Air Act—I have heard of the party of no, but this is the party of yesterday if those are the kinds of amendments we are going to face, dangerous amendments that will hurt the health of our children.

So I wanted to make sure that America takes control of its energy future and that it doesn't cower in the corner and repeal laws that protect our citizens, landmark laws such as the Clean Air Act. I am so glad that today we avoided having to have this long debate. I am glad this amendment was disallowed because it doesn't belong on an appropriations bill. It is a repeal of the Clean Air Act. Let's face it, you don't do that in 15 minutes on the floor of the Senate and call it a timeout. Call it whatever you want, but when you tell an agency: Don't enforce the law that protects the health of our children and our families, that is a repeal through the back door.

So I thank you very much for the time. I know I have additional time. I will not be using it. I yield back the remainder of my time.

The PRESIDING OFFICER. The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, in just a few minutes, the Senator from Maine will have the floor. Senator FEINSTEIN has asked those Senators who have amendments which are part of the unanimous consent agreement to come on over and call them up. I think Senator COBURN is probably coming following Senator COLLINS from Maine.

I listened carefully to Senator WHITEHOUSE and to the distinguished chairman of the Environment and Public Works Committee. I wish to make an observation, if I may, which will take only 3 or 4 minutes, not to prolong the debate.

First, what Senator THUNE and Senator MURKOWSKI were saying is that the question of climate change is so important that we in the Congress ought to deal with it, not the Environmental Protection Agency. That is the point of the amendment.

Second, I am one Senator who believes we need to deal with climate

change and who believes humans are contributing to it, and we need to stop stuffing so much carbon into the atmosphere. But while my friends on the other side often speak in great rhetorical flourishes about the inconvenient problem of climate change that my friend and fellow Tennessean Al Gore talks about, they are conspicuously silent about the inconvenient solution, which is nuclear power.

Even the President of the United States went to New York this week and made an entire speech talking about our commitment to climate change and lecturing the developing countries of the world about climate change when they are ahead of us on nuclear power and the President, in his entire remarks, didn't mention it once. I simply think that ought to be noted in the midst of this debate.

The largest contributors to carbon in the air are China, the United States, Russia, India, and Japan. There are 44 nuclear reactors under construction this minute, almost all of them in Asia. China has 4 reactors under construction and has announced plans for 130 more reactors. Why? Because nuclear power is carbon free. The United States hasn't built a new nuclear plant in 30 years. Russia intends to build 2 reactors a year in order to replace the 30 percent of electricity they get from natural gas so they can sell that gas to Europe at a big profit.

Japan is building two nuclear reactors a year. They derive 36 percent of their electricity from nuclear. South Korea gets nearly 40 percent of its electricity from nuclear, and they are planning 8 more reactors by 2015. India is developing thorium reactors instead of uranium. France is 80 percent nuclear and is selling electricity to Germany, which is the only major European country still renouncing nuclear power. And here we sit worried about climate change, having 104 reactors that we built before 30 years ago, which produce 20 percent of our electricity, but 70 percent of our carbon-free electricity, and the President goes to New York and doesn't say one word about nuclear power. He wants to build 186 50-story wind turbines, which will operate about a third at a time, and not at all in our part of the country, instead of taking the greatest technological advance of the last century, which we already use to produce 70 percent of our carbon-free electricity, and say let's do more of that.

I am hopeful that as this debate proceeds, the President will say let's double our nuclear production and build 100 new nuclear plants in the next 20 years. We should be able to agree on 100 new nuclear plants and electrifying our cars and trucks. If we do those two things alone, we would meet the Kyoto Protocol by 2030. But we don't hear a word about it.

Let's bring up the inconvenient problem of climate change and let's deal

with it here. But let's bring up the inconvenient solution of nuclear power. As far as science goes, the chief scientist in the Obama administration, a Nobel Prize winner, Dr. Chu, says nuclear power is safe and nuclear waste—used nuclear fuel—can be safely dealt with for the next 40 to 60 years by having it stored onsite, while we have a mini Manhattan Project over the next 20 years to find the best way to recycle used nuclear fuel that doesn't produce plutonium.

This is a good debate. I am glad Senators have come to the floor to talk about this, and this is an appropriate amendment on which to have the discussion. The point of the Republican amendments were, let's do it in Congress, not the agency. If we are going to talk about the inconvenient problem, climate change—and I agree it is a problem and we need to deal with it—let's talk about the inconvenient solution, nuclear power, which today provides 70 percent of our carbon-free electricity, which is what we are debating.

The PRESIDING OFFICER (Mr. FRANKEN). The majority leader is recognized.

AMENDMENT NO. 2531

Mr. REID. Mr. President, I have an amendment No. 2531, and I ask that it be brought before the Senate.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Nevada [Mr. REID] proposes an amendment numbered 2531.

Mr. REID. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To make funds available for preliminary planning and design of a high-performance green building to consolidate the multiple offices and research facilities of the Environmental Protection Agency in Las Vegas, Nevada)

On page 183, line 14, before the period, insert the following: "Provided, That, at the discretion of the Administrator of the Environmental Protection Agency, from the funds included under this heading, \$500,000 may be made available for preliminary planning and design of a high-performance green building to consolidate the multiple offices and research facilities of the Environmental Protection Agency in Las Vegas, Nevada".

Mr. REID. Mr. President, I appreciate my friend from Maine allowing me to speak for a couple minutes prior to her being recognized.

The amendment I have called up allows, not directs, the EPA Administrator to use \$500,000 of the funds provided in the bill for preliminary planning and design to work to consolidate the many agency offices and labs in Las Vegas into one high-performance green building.

It doesn't make a lot of sense to continue spending money on aging facilities spread across several buildings in

need of repair and rehabilitation, particularly with the leases that are not far from ending. Current costs associated with these facilities' leases and their operation cost over \$5.5 million annually.

Consolidation would improve administrative efficiencies and reduce agency energy, water, and other costs over time. Developing a more precise estimate of total savings would be part of the preliminary planning effort my amendment authorizes.

The people in the offices and labs I think could be consolidated would also greatly benefit from their being able to work more closely together, given their mission and activities. These include the agency's National Exposure Research Laboratory, the Emergency Response Team—when something bad happens with a nuclear device, they are able to move on that—the Radiation and Indoor Environments National Laboratory, the Financial Management Center, the Human Resources Office, the National Environmental Research Center, and the Environmental Services Division's various laboratories and Technical Reference Center.

As we know, the Energy Independence and Security Act of 2007 and the Recovery Act strongly direct the Federal Government to be a leader, not a follower, in adopting green building technologies. EPA should be at the top of the list, given its important role, and I think its labs and facilities in Las Vegas should serve as a shining example of environmental leadership that saves the Federal Government and taxpayers money.

I ask unanimous consent to have printed in the RECORD following my statement a letter to the Appropriations Committee regarding this request, in compliance with paragraph 9 of rule XLIV of the Standing Rules of the Senate.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE,

Washington, DC, September 22, 2009.

Hon. DANIEL K. INOUE,  
Chairman, Committee on Appropriations, U.S.  
Senate, Washington, DC.

Hon. DIANNE FEINSTEIN,  
Chairwoman, Subcommittee on Interior, Environ-  
ment, and Related Agencies, U.S. Sen-  
ate, Washington, DC.

Hon. THAD COCHRAN,  
Vice Chairman, Committee on Appropriations,  
U.S. Senate, Washington, DC.

Hon. LAMAR ALEXANDER,  
Ranking Member, Subcommittee on Interior, En-  
vironment, and Related Agencies, U.S. Sen-  
ate, Washington, DC.

DEAR CHAIRMAN INOUE, VICE CHAIRMAN COCHRAN, CHAIRWOMAN FEINSTEIN, AND RANKING MEMBER ALEXANDER: I am writing to request that the Interior Appropriations bill for fiscal year 2010 include the discretion for the Administrator of the U.S. Environmental Protection Agency to use up to \$500,000 from the amounts identified for buildings and facilities for the purpose of preliminary planning and design work to consolidate the

Agency's Las Vegas offices into one high-performance green building.

Such a consolidation would save taxpayers money, reduce energy and water use, and improve administrative efficiency. The current facilities used by the EPA offices and laboratories are in need of rehabilitation and repair and their leases expire in the near future, so it is essential that the Agency begin making plans for their future use.

Consistent with paragraph 9 of Rule XLIV of the requirements of the Standing Rules of the Senate, I certify that neither I nor my immediate family has a pecuniary interest in the congressionally directed spending items I have requested. I further certify that I have posted a description of the items requested on my official website, along with the accompanying justification.

Thank you for your attention to this request

Sincerely,

HARRY REID,  
United States Senator.

Mr. REID. Mr. President, on the University of Nevada-Las Vegas campus we have EPA buildings. They are so old. We have been talking about doing something about them for decades. They have been so terribly important over the years with what has been going on at the Nevada Test Site and Yucca Mountain. The leases are about to run out. It is not fair to the Federal Government or the university. It would save the government huge amounts of money and it would be the right thing to do. This would be the beginning of accomplishing what EPA wanted to do for decades. I hope that Senators will look favorably on this amendment.

The PRESIDING OFFICER. The Senator from Maine is recognized.

Ms. COLLINS. Mr. President, what is the pending amendment?

The PRESIDING OFFICER. The Reid amendment.

AMENDMENT NO. 2498

Ms. COLLINS. Mr. President, prior to Senator REID offering his proposal, the pending business before the Senate was an amendment I offered earlier this week, which was designed to promote better transparency, accountability, and oversight within our government.

I am deeply disappointed that a procedural tactic will be invoked to prevent an up-or-down vote on my amendment, which is designed to bring the proliferation of czars under the normal process.

The amendment I proposed would have ensured that the 18 new czar positions appointed by this administration could be held accountable to Congress and to the American people. The proliferation of czars under the current administration to manage some of the most complex and important issues facing our country has created serious problems in oversight, accountability, and transparency. It is of great concern to me that these positions circumvent the congressional requirements for oversight. They circumvent the constitutional process by which the Senate is supposed to give advice and con-

sent to major policy positions within our government.

I have a list of the 18 new czar positions that have been created by this administration. I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### CZARS

##### POSITIONS IN THE EXECUTIVE OFFICE OF THE PRESIDENT (10)

Central Region Czar: Dennis Ross. Official Title: Special Assistant to the President and Senior Director for the Central Region. Reports to: National Security Adviser Gen. James L. Jones.

Cybersecurity Czar: TBD. Reported Duties: Will have broad authority to develop strategy to protect the nation's government-run and private computer networks. Reports to: National Security Adviser Gen. James L. Jones and Larry Summers, the President's top economic advisor.

Domestic Violence Czar: Lynn Rosenthal. Official Title: White House Advisor on Violence Against Women. Reported Duties: Will advise the President and Vice President on domestic violence and sexual assault issues. Reports to: President Obama and Vice President Biden.

Economic Czar: Paul Volcker. Official Title: Chairman of the President's Economic Recovery Advisory Board. Reported Duties: Charged with offering independent, non-partisan information, analysis and advice to the President as he formulates and implements his plans for economic recovery. Reports to: President Obama.

Energy and Environment Czar: Carol Browner. Official Title: Assistant to the President for Energy and Climate Change. Reported Duties: Coordinate energy and climate policy, emphasizing regulation and conservation. Reports to: President Obama.

Health Czar: Nancy-Ann DeParle. Official Title: Counselor to the President and Director of the White House Office of Health Reform. Reported Duties: Coordinates the development of the Administration's healthcare policy agenda. Reports to: President Obama.

Senior Director for Information Sharing Policy: Mike Resnick. Reported Duties: Lead a comprehensive review of information sharing and lead an interagency policy process to identify information sharing and access priorities going forward. (Perhaps performing functions statutorily assigned to the Program Manager for the Information Sharing Environment). Reports to: Unknown.

Urban Affairs Czar: Adolfo Carrion Jr. Official Title: White House Director of Urban Affairs. Reported Duties: Coordinating transportation and housing initiatives, as well as serving as a conduit for federal aid to economically hard-hit cities. Reports to: President Obama.

WMD Policy Czar: Gary Samore. Official Title: White House Coordinator for Weapons of Mass Destruction, Security and Arms Control. Reported Duties: Will coordinate issues related to weapons of mass destruction across the government, including: proliferation, nuclear and conventional arms control, threat reduction, and terrorism involving weapons of mass destruction. Reports to: National Security Adviser Gen. James L. Jones.

Green Jobs Czar: TBD (Van Jones—Resigned). Official Title: Special Adviser for Green Jobs, Enterprise, and Innovation at the White House Council on Environmental

Quality. Reported Duties: Will focus on environmentally-friendly employment within the administration and boost support for the idea nationwide. Reports to: Head of Council on Environmental Quality.

POSITIONS IN A DEPARTMENT OR AGENCY (8)

Afghanistan Czar: Richard Holbrooke. Official Title: Special Representative for Afghanistan and Pakistan. Reported Duties: Will work with CENTCOM head to integrate U.S. civilian and military efforts in the region. Reports to: Secretary of State (position is within the Department of State).

Auto Recovery Czar: Ed Montgomery. Official Title: Director of Recovery for Auto Communities and Workers. Reported Duties: Will work to leverage government resources to support the workers, communities, and regions that rely on the American auto industry. Reports to: Labor Secretary and Larry Summers, the President's top economic advisor (position is within the Department of Labor).

Car Czar (Manufacturing Policy): Ron Bloom. Official Title: Counselor to the Secretary of the Treasury. Reported Duties: Leader of the White House task force overseeing auto company bailouts; worked on the restructuring of General Motors and Chrysler LLC. Reports to: Treasury Secretary and Larry Summers, the President's top economic advisor (position is within the Department of Treasury).

Great Lakes Czar: Cameron Davis. Official Title: Special advisor to the U.S. EPA overseeing its Great Lakes restoration plan. Reported Duties: Oversees the Administration's initiative to restore the Great Lakes' environment. Reports to: Environmental Protection Agency Administrator (position is within the Environmental Protection Agency).

Pay Czar: Kenneth Feinberg. Official Title: Special Master on executive pay. Reported Duties: Examines compensation practices at companies that have been bailed out more than once by the federal government. Reports to: Treasury Secretary (position is within the Department of the Treasury).

Guantanamo Closure Czar: Daniel Fried. Official Title: Special Envoy to oversee the closure of the detention center at Guantanamo Bay. Reported Duties: Works to get help of foreign governments in moving toward closure of Guantanamo Bay. Reports to: Secretary of State (position is within the Department of State).

International Climate Czar: Todd Stern. Official Title: Special Envoy for Climate Change. Reported Duties: Responsible for developing international approaches to reduce the emission of greenhouse gases. Reports to: Secretary of State (position is within the Department of State).

Special Representative for Border Affairs and Assistant Secretary for International Affairs (dubbed "Border Czar"): Alan Bersin. Official Title: Assistant Secretary for International Affairs. Reported Duties: Will coordinate all of the Department's border security and law-enforcement efforts. Reports to: Homeland Security Secretary (position is within the Department of Homeland Security).

Ms. COLLINS. Many of the czars on the list seem to either duplicate or dilute the statutory authority and responsibilities that Congress has already conferred upon Cabinet level officials and other senior executive branch officials who go through the normal constitutional process whereby the Senate gives its consent to these nominees.

As I said when I first introduced this amendment, I do not consider every position that has been identified as a czar in various media reports to be problematic. Some of those positions are established by law. Some of them are subject to Senate confirmation. Rather, my amendment is carefully tailored so it would not cover and would not apply to positions recognized in law or subject to Senate confirmation.

For example, the proposal I have would not apply to the Director of National Intelligence, to the National Security Advisor, to the Homeland Security Advisor, to the Chairman of the Recovery Accountability and Transparency Board, or to the so-called information or regulatory czar within OMB. These positions, because they are recognized in law, or they are subject to Senate confirmation, simply do not raise the same kinds of concerns about accountability, transparency, oversight, and vetting.

Instead, my amendment has been carefully tailored to cover officials that the President has unilaterally designated as responsible for significant policy matters. It would not have covered the President's Chief of Staff, for example, and it would not cover less senior White House officials, despite some misinformation to the contrary.

Because the White House has raised so many objections to my amendment, I have offered to sit down with the White House counsel and narrow the scope of the amendment further, to address any concerns the White House might have. Unfortunately, the White House has failed to provide any modification to the text of my amendment. Instead, they said they did not want any of these officials to be called to testify before Congress.

Let me explain exactly what my amendment would have done, so you can see how modest indeed the amendment was.

The amendment simply would have required that the President certify to Congress that officials in these important positions would respond to all reasonable requests to testify before or provide information to congressional committees with jurisdiction over the issues involved.

Second, it simply would have required these officials to submit a biannual report to the congressional committee with jurisdiction, describing the activities of the official and his or her office, and any rule, regulation, or policy that the official participated in or assisted in the development of.

That is it. How can we possibly be against that kind of accountability, transparency, and oversight? It is our job as Members of Congress to conduct such oversight.

We cannot do so when the administration sets up a structure where there is an energy czar, an urban affairs czar, an environmental czar, a cyber-security

czar—the list goes on and on. It creates confusion over who is in charge, who is making policy.

Let's take the area of health care. Is the top policy position in this administration Nancy-Ann DeParle, who is the health care czar within the Executive Office of the President—a person, by the way, for whom I have the greatest respect—or is it Senate-confirmed Kathleen Sebelius, the Secretary of Health and Human Services? Who is in charge? Whom do we hold accountable?

What the President has done by creating so many czar positions within the White House that appear to duplicate the executive branch officials who are subject to Senate confirmation is to blur the lines of authority. That is not good for our system of government, and it is not in keeping with this administration's pledge to be the most transparent administration ever—a pledge for which I salute the President.

Mr. DURBIN. Mr. President, will the Senator yield for a question?

Ms. COLLINS. I will be happy to yield.

Mr. DURBIN. Mr. President, I would like to ask the Senator about her amendment. The first thing I would like to ask is, her amendment does not specify how many czars—I think that is the term she used on the floor—how many czars she thinks there are in the administration or what their titles are. Could the Senator from Maine tell me how many czars we are going to try to impact with her amendment?

Ms. COLLINS. I will be happy to. Mr. President, I say to my friend that I have a list of 18 positions which I have talked repeatedly about and which I have inserted into the RECORD. As I have said, I am not one who has used this term in the way some have to include individuals with broad authority across various agencies, such as the Director of National Intelligence. But that is the position that is established or recognized in law and is subject to Senate confirmation. I did not include those. In fact, in the language of my amendment, I specifically say it does not apply to positions established in law.

Mr. DURBIN. Mr. President, if the Senator will yield and share a copy of that list with me, I would appreciate it. But in the meantime, I ask the Senator, it seems that the czar watchers on her side of the aisle, Senator HUTCHISON, for example, found 32 czars when she went looking. One of the advisers to some politicians—and I will not include the Senator from Maine; she can speak for herself—the noted guru Glenn Beck has identified 32 czars as well.

I ask the Senator from Maine before we get into the propriety of her amendment under Senate rules, who is going to define who is covered by her amendment, if her colleague from Texas found 32, Glenn Beck found 32, and she found 18?

Ms. COLLINS. Mr. President, I will be glad to respond to the question of my colleague. My colleague did not have the benefit of being on the Senate floor when I first presented my amendment, and I addressed this very issue.

I was very careful in drafting this amendment to make clear that I was not talking about positions that are recognized in law. Some of my colleagues legitimately have taken a different approach. But that is not the approach that is before the Senate now. Rather, I have taken into account the issues that have been raised by my colleagues on the other side of the aisle, such as Senator BYRD—who certainly knows more about the Constitution than I think any of us who are serving at the present time—who has expressed concerns about the proliferation of czars. I have taken into account concerns expressed by Senator FEINGOLD, by Senator FEINSTEIN. I have done a careful, narrowly tailored amendment that does not attempt to sweep in positions that are recognized in law, nor does it sweep in positions that are subject to Senate confirmation.

That is why it is so disappointing to me that my colleagues are not unanimously adopting my amendment, which it looked like they were going to do earlier this week before the White House weighed in, because I did not take a broad sweeping approach. I took a very narrow, careful approach that aimed at the promise the President talked about, the lack of oversight, transparency, and accountability.

Mr. DURBIN. If the Senator will yield further for a question, I would like to ask the Senator—I have been told that using the definition of “czar” that Mr. Beck, political adviser to some, and Senator HUTCHISON, and even you use, that under President George W. Bush, the previous Republican administration, one could characterize his officials and advisers in the Executive Office of the President and other agencies as an Afghanistan czar, an AIDS czar, a drug czar, a faith-based czar, an intelligence czar, a Mideast peace czar, a regulatory czar, a science czar, a Sudan czar, a TARP bailout czar, a terrorism czar, and a weapons czar, under the previous administration. I ask the Senator from Maine if she proposed this amendment under a Republican President who clearly had his own stable of Muscovite czars of a lot of different versions?

Ms. COLLINS. Mr. President, I, again, will be happy to attempt to clarify this issue for my colleague and friend—and he is my friend—from Illinois. I realize he has his role to play in this debate. But the fact is, he has just listed several positions that are established by law. The intelligence czar is the Director of National Intelligence, Dennis Blair. Joe Lieberman and I wrote the law that established that position in 2004, and he is confirmed by the Senate.

The regulatory czar—he is referring to Cass Sunstein in this administration and John Graham in the previous one—it is established by law. It is part of the Office of Information and Regulatory Affairs within OMB. I am not talking about those positions no matter in whose administration it is. I am talking about perhaps other positions on his list. Regardless of whose administration they are in, I would apply the same standards.

The Senator may say why didn't I offer this amendment in the previous administration. The answer is, we did not have this proliferation of czar positions in the previous administration. But I would say to my colleagues, regardless of whether it is a Democratic President or a Republican President, a Democratic Congress or a Republican Congress, I think this is an institutional issue, and I think all of us as Members of Congress should be very concerned about organizational structures that make it impossible for us to conduct effective congressional oversight; that insulate these officials who have significant policy responsibilities from ever coming to testify, from going through the vetting and the confirmation process.

I think that is a problem regardless of who the President is, and I am not the only one who thinks it. That is why Senator ROBERT C. BYRD wrote to the White House, wrote to the President, as this press release says, questioning the Obama administration on the role of White House czar positions because, as he says:

Too often, I have seen these lines of authority and responsibility become tangled and blurred, sometimes purposely, to shield information and to obscure the decision-making process.

I am not saying this is part of a plot to obscure information, but what I am saying is we have an obligation to exercise our constitutional duties, and the proliferation of these unaccountable positions in any administration makes that impossible for us to do so.

Mr. President, if I may complete the end of my statement—before we got into this good little colloquy. And I do appreciate the opportunity to clarify whom my amendment would cover, who would be covered by it and who would not. As I said, I was willing to work with the White House to make this even clearer. My staff was here many hours last night. I had conversations with White House officials and, unfortunately, at the last moment, they decided not to try to propose revisions to the text.

I am not going to seek to overturn the Chair's ruling on this amendment which will be forthcoming, and I know how it will go. But I do think it is unfortunate that a procedural tactic is being used to block a vote on this amendment. I do want to tell my colleagues that I think this is a real issue.

I am very pleased the Homeland Security and Governmental Affairs Committee, under Chairman LIEBERMAN, is going to hold a hearing to explore this issue because it does have constitutional ramifications and it does involve the balance of power between the executive and legislative branches. The ruling the Chair is going to make is not going to be the last word on this subject.

The administration needs—any administration—to fully explain the responsibilities and authorities of these czars. Until all of these czars are made available to testify before and provide information to Congress, until Congress is fully consulted on the decisions to create these positions in the first place, I will continue to press forward on this issue.

I believe the amendment I drafted is a very reasonable, balanced one, and it would have been a significant step toward establishing an oversight structure for these positions that would provide the transparency, accountability, and oversight our Nation expects from its leaders. I am dismayed the Senate is about to choose a point of order over these principles.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. Mr. President, let me point out at the outset my friendship and respect for Senator COLLINS. These are terms tossed around on the Senate floor sometimes in meaningless context, but this is meaningful. We have worked together on many issues. I respect her very much and believe when she was chairman of the then Governmental Affairs Committee, later to be the Homeland Security Committee, that she did extraordinary work with Senator LIEBERMAN, particularly when it came to the creation of a new intelligence agency. After 9/11, it was one of the toughest political assignments ever given, and Senator COLLINS handled it with professionalism, in a bipartisan way. I commend her for it. I think she is exceptionally talented, and I am happy to have her as my ranking member on the Financial Services and General Government Appropriations Subcommittee where we continue to work closely together.

She raises a legitimate inquiry. The legislative branch should ask whether the executive branch has gone beyond its constitutional authority. I think it is a legitimate question. Unfortunately, before she came to the Senate floor, the waters had been muddied by statements made by our colleague, Senator HUTCHISON, in the Washington Post on September 13 as to when she went searching for czars in the Obama administration, she found 32 of them. The political wise man, Glenn Beck, found 32 as well but went on to say on his Web site—he is a major champion on this issue, incidentally—“since czar isn't an official job title, the number

[of czars in the Obama administration] is somewhat in the eye of the beholder.”

That is why this becomes a pretty difficult amendment to consider at this moment in time. The Senator from Maine has been kind enough to add a page in the RECORD that lists her findings of 18 of these so-called czars. I don't know if others would find the same number, more or less. Whether there are 57 known czars or whether there are 18, I just don't know.

This amendment would prohibit funds for the administrative expenses of White House advisers—and that is a term usually used by those not partial to Russian history—unless those positions were created through express statutory authorization.

Further, the amendment requires the President to certify to Congress that the adviser will respond to all reasonable requests to testify before or provide information to any congressional committee with jurisdiction over such matter.

The adviser must give a report every 6 months, kind of a work-in-progress report, a diary of what they are doing. So in addition to working on issues such as health care reform, they need to prepare a report sent to Congress every 6 months to let us know they are showing up on time at their desks and actually doing what they are supposed to do. The President doesn't need statutory authority to appoint advisers, and it doesn't make sense to require an assistant to the President, who has an otherwise pretty serious workload, to fill out these reports to Congress every 6 months to make sure they are showing up as promised.

But the amendment does touch on accountability in a way that I agree with. Public officials, including those who serve at the pleasure of the President, should be responsive to congressional inquiries. That is why Senator COLLINS and I, through our appropriations subcommittee, bring in leaders from the administration. And I can't say for certain, but I am virtually certain we have not been turned down by any at this point. The committee expects officials employed in whole or in part by the Executive Office of the President and designated by the President to coordinate policy agendas across executive departments and agencies to keep Congress fully and currently informed. We ask that of them, and so far we have received their cooperation.

Over the past several weeks, there has been this new interest in the czars and czarinas in the Obama administration, according to Mr. Beck and others. Some Members have asked serious questions about the makeup of the White House staff. The bulk of the noise being heard right now began with partisan commentators like Mr. Beck, suggesting this is somehow a new and

sinister development that threatens our democracy.

Unfortunately, this czar issue didn't start with the Obama administration. It goes back much further in history, and it certainly includes the previous Bush administration, which was not subjected to an amendment such as is being offered at this moment. Many of the officials cited by conservative commentators—and I don't include Senator COLLINS because I haven't seen her list of 18—are Senate-confirmed appointees or advisory roles carried over from the Bush White House. Many are advisers to the President's Cabinet Secretaries. Many hold policy jobs that existed in the Bush administration. Some hold jobs that involve coordinating the work of agencies on President Obama's key policy priorities: health insurance reform, energy and green jobs, and building a new foundation for a longlasting economic growth.

I might say that in the past the same concern and furor hasn't arisen. DARRRELL ISSA, a Congressman from California, was recently on FOX News and was asked what kind of investigation he had made into the Bush administration about czars, and he said he hadn't done so. He hadn't raised any objection, although he now thought it was a pretty important issue under President Obama. In fact, if you adhere to the definition of czar held by many Members—and I won't include Senator COLLINS in this group but other Members in the Senate—the Bush administration had 47 czars—budget czars, faith czars, manufacturing czars, to name a few.

Many of the Members who now decry the practice have called on Presidents in the past to appoint czars. Senator ROBERT BENNETT of Utah, a friend and recognized colleague who worked hard on the Y2K concern, asked for a czar to be appointed, and he said he had worked with that person to maintain “bipartisan and across-the-government communication.” Even the ranking member of the Appropriations Interior Subcommittee, Senator ALEXANDER of Tennessee, has had words said about czars in this administration. But during remarks delivered on the Senate floor in 2003, captured in the CONGRESSIONAL RECORD, Senator ALEXANDER said, “I would welcome [President Bush's] manufacturing job czar.” That same day in the Senate, he also expressed support for President Bush's AIDS czar, Randall Tobias.

Mr. ALEXANDER. Mr. President, will the Senator yield for a question?

Mr. DURBIN. I would be happy to yield.

Mr. ALEXANDER. Mr. President, I would ask the distinguished assistant Democratic leader if he is aware that the manufacturing czar in President Bush's time was appointed by the President and confirmed by the Senate and testified before the Senate? And I

wonder if he is also aware that the AIDS czar was appointed by the President and confirmed by the Senate and testified before the Senate?

Senator COLLINS has been careful—I believe he is aware; I wonder if he is aware—that she is not talking about any czars whom we confirm and the President appoints and who testify, and she is only talking about the 18 new czars under the Obama administration, just as Senator BYRD did in February.

I wonder if the Senator is aware of those things?

Mr. DURBIN. I thank the Senator from Tennessee for the question, and I am aware of that fact, and I would respond to him, that is why I was trying to clarify how many czars are in this Muscovite conspiracy because one of his colleagues from Texas, Senator HUTCHISON, identified 32, as did Mr. Glenn Beck, and they included 16—pardon me, 7 of these so-called czars are people who have—pardon me, 9 have been confirmed by the Senate. So it appears that some of your colleagues do not share your definition that Senator COLLINS referred to on the floor.

The point I am trying to make is that this is a legitimate inquiry, it is an important inquiry, but it has been muddled by statements made by some Members of Congress and certainly by those in the political commentary realm.

The good news for Senator ALEXANDER and Senator COLLINS and everyone else concerned about this issue is that a trusted friend and colleague, Senator JOE LIEBERMAN, chairman of the Homeland Security Committee, has promised a hearing on this issue. I know he will engage Senator COLLINS, as ranking Republican member, on it, and serious questions which have been presented will be considered by Senator LIEBERMAN. We respect him in that capacity.

So the reason I am objecting to this amendment isn't because I don't think Senator COLLINS has at least a legitimate inquiry, but I think it should be taken in the greater order of things rather than considered in this fashion on an appropriations bill.

So, Mr. President, I make a point of order that the Collins amendment, No. 2498, violates rule XVI, paragraph 4, legislating on an appropriations bill.

Excuse me, Mr. President, I missed one procedural step.

I call for regular order on the pending Collins amendment.

The PRESIDING OFFICER. The amendment is now pending.

Mr. DURBIN. Mr. President, I now make a point of order that the Collins amendment, No. 2498, violates rule XVI, paragraph 4, in that it legislates on an appropriations bill.

The PRESIDING OFFICER. The point of order is sustained. The amendment falls.

The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, I thank the assistant Democratic leader for his comments, and I want to especially thank the Senator from Maine.

The Senator from Illinois suggested that the waters had gotten muddled because some of us didn't count very well in terms of the number of czars who might exist in the Obama administration. That is why we are so fortunate to have the Senator from Maine, who is always careful, always thoughtful, and always experienced. What she has done is gone back to Senator BYRD's first letter in February, in which he expressed his concern about the constitutional issues here, and then she has counted 18 new czars in the Obama administration. Her letter of September 14 to the President is limited, thoughtful and respectful, and she simply asks that the President identify the specific authorities and responsibilities of those positions, the process by which the administration examines these people, and whether they are willing to testify before us. She is the ranking member of the committee Senator LIEBERMAN chairs and will have an opportunity during the hearings to explore this.

Some of us are concerned that the administration is too dedicated to too many Washington takeovers, and the unusual number of new czars is the most visible symbol of the large number of Washington takeovers. I think we are fortunate that we have as thoughtful a Senator as the Senator from Maine and an independent Senator from Connecticut, JOE LIEBERMAN, who will look into it. I am sure Senator BYRD will want to weigh in. Senator FEINGOLD may want to have a hearing. So we will have an opportunity to have a thoughtful resolution.

I thank the Senator from Maine for her amendment and her leadership on this issue, and I look forward to hearing more from her on it.

Madam Chairman, if I could say to the Senator from California, the Senator from New Mexico has been waiting and the Senator from Louisiana has been waiting.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. VITTER. Mr. President, I ask unanimous consent for 2 minutes of recognition before we move away from this issue.

The PRESIDING OFFICER. Is there objection?

Hearing no objection, it is so ordered.

Mr. VITTER. Mr. President, I will be brief. I wish to compliment my distinguished colleague from Maine on her amendment. It was very well tailored and very carefully put together. I do think it is a shame that it won't be able to come to any vote because of this procedural move by the assistant majority leader.

I want to underscore three points:

No. 1, maybe we can talk about some other universe when we debate the Beck amendment, but we are not debating the Glenn Beck amendment, we are talking about the Collins amendment, and we will get to vote on the Vitter amendment. What all of us have been talking about are appointees of the President whose offices were not created by statute in any way and who were never Senate confirmed.

No. 2, I also want to underscore the point that this is clearly a bipartisan concern, as evidenced by Senator BYRD's letter of February and the recent comments of Senator RUSS FEINGOLD. It is a very serious and very bipartisan concern.

No. 3, we will have an opportunity to vote on this issue today under my amendment. The climate change czar is one of those 18, and she clearly threatens to supercede and overshadow Senate-confirmed Cabinet members such as the head of EPA. My amendment is very simple. It says EPA shouldn't have to carry out orders of the climate change czar when it is supposed to be headed by a Cabinet member, a Senate-confirmed appointee, directly at EPA.

So again I compliment the Senator from Maine on her efforts. I will certainly pledge ongoing support on the issue, including through my amendment.

I yield back my time.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. UDALL of New Mexico. Mr. President, I rise today to oppose the Murkowski amendment. The Murkowski amendment would prohibit the EPA from using funds under the Clean Air Act to deal with climate change.

I listened earlier today, and I heard the Senator from California, the chairman of the Appropriations Interior, Environment Subcommittee, speaking about the issue, and she spoke eloquently. I heard Senator BOXER, the chairman of the Environment and Public Works Committee, speaking about this issue. She also made the very strong point that this amendment would be ill-advised and irresponsible. And I rise today to speak to this amendment and to oppose it.

America and the world are face-to-face with a perfect storm—an energy crisis and a climate crisis that require a do-it-all energy policy. These two crises are closely linked, and today I would like to raise one facet of the solution: clean energy incentives.

I strongly believe we should resist efforts to block the Obama administration actions on clean energy on the fiscal year 2010 Interior and Environment Appropriations Act or other legislation, for that matter. If that were to happen, American families and the men and women in our Armed Forces would be stuck with the bill.

Concerns about the cost of the administration's actions to address our

energy and climate crisis have it exactly backward. The biggest cost is the cost of inaction—costs families pay at the pump in energy bills every day; money from their hard-earned paychecks that end up in the treasuries of foreign countries or foreign oil companies, some of which are hostile to the United States. In the end, the only people who will benefit from efforts to block clean energy solutions are members of OPEC and other special interests in the fossil fuel industry.

To put it simply, our dependence on fossil fuels is a huge drag on families' pocketbooks and a clear and present danger to our national security. In 2008, American families and businesses sent \$475 billion overseas to pay for foreign oil. That works out to over \$4,000 per household in America—a massive transfer of wealth from hard-working families in New Mexico and the other 49 States to the treasuries of foreign nations. The largest consumer of foreign oil is the U.S. military, which is engaged in two major conflicts in the Middle East—an area of strategic importance largely due to its massive oil reserves.

Making matters worse, this same reliance on fossil fuels pollutes our atmosphere with toxic compounds such as sulfur dioxide, soot, and mercury, alongside greenhouse gases such as carbon dioxide. The global climate crisis is real. Strong scientific evidence shows unless we transition to clean energy sources, our home States will pay a heavy price.

In New Mexico, scientific evidence indicates more devastating forest fires, droughts, and invasive species caused by climate change.

Luckily, we have numerous cost-effective solutions at hand to address the energy and climate crisis. My home State of New Mexico and many other States across the Nation are rich in much cleaner domestic sources of energy, sources such as wind and solar, geothermal and natural gas. Several years ago, wind energy was unusual but today these projects are quite common. Wind projects create thousands of U.S. jobs in the steel, manufacturing, and construction sectors.

The United States is now installing over a gigawatt of solar power each year and there are six other gigawatts of concentrated solar power projects planned nationally, particularly in the Southwest.

U.S. natural gas reserves have also increased by 35 percent in 1 year, an increase that gives our Nation a century's worth of supply. While natural gas is a fossil fuel, it is significantly cleaner than either coal or oil, and much more abundant.

Despite these improvements, we continue to waste tremendous amounts of energy. Government and industry studies have found that the right investments could save energy and more than

\$1 trillion at the same time. Energy efficiency does not mean turning down the heater in the winter. Rather, efficiency means investments in building technologies such as advanced windows, insulation, and smart electric grids that do not waste energy or money. Improving our efficiency on a major scale would also save more than 1 billion tons of greenhouse gases, proving we can address the global climate crisis without increasing costs on families.

The U.S. Supreme Court ruled that the Bush administration was required by the Clean Air Act to reduce air pollution that is causing our climate crisis, but the Bush administration failed to act. Congress should not put the Obama administration in handcuffs when the President is trying to change course and follow the law. To those who worry that the administration action could short circuit debate on these issues in Congress, nothing could be further from the truth. I agree that Congress should act and set a comprehensive clean energy incentive policy. Numerous Cabinet Secretaries from the administration have testified that they welcome congressional action to create a path forward on clean energy. For Congress to block the administration and to fail to act itself would be the height of irresponsibility.

Our energy and climate crisis have the same root cause. The Senate should address both challenges with the same cost-effective solutions—incentives for renewable energy and energy efficiency. That is why efforts to block the Obama administration from acting on climate change are so dangerous. Such efforts continue our reliance on fossil fuels that hurt family budgets, threaten our national security, and pollute our atmosphere.

The bottom line is America needs a “do it all” energy policy, one that includes all the tools in our energy toolbox—more alternative energies and a commitment to conservation; increased domestic oil production, including offshore; investments in clean coal research and technology; and nuclear power has to be part of the mix. Energy and climate change are one of the defining challenges of our time—our perfect storm. We have the tools to fix the problem. Now we need the will to act, not to obstruct.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma is recognized.

Mr. COBURN. Mr. President, I wanted to make some comments based on the comments the Senator from New Mexico raised.

He talked about \$4,000 a year in terms of imported oil into this country and then he talked about we needed to do offshore exploration, but I note for the RECORD he voted against an opportunity to expand offshore exploration yesterday. You can't have it both ways.

If we are going to get off oil and hydrocarbons, it is going to take us 25 years. But when we have an opportunity to decrease that cost of \$4,000 per family and use American oil, we do not have the same consistency as the rhetoric when it comes to the votes. I think the RECORD needs to show that although the Senator claims that, when he had the opportunity yesterday to vote in a way to expand domestic offshore exploration, he voted against that opportunity.

I wish to take this time to bring up several amendments and make them pending. I thank the chairman of the committee and staff for working with us. We will try to make this as painless as possible and do it in as short a period of time as possible, but I have been down here for the last 4 days, every day, trying to get things done and unable to get them done. So I am going to take adequate time to explain these amendments and also explain a couple of amendments I agreed not to offer but I think it pertinent the American people hear about.

#### AMENDMENT NO. 2463

First, I ask the pending amendment be set aside and amendment No. 2463 be called up.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. COBURN] proposes an amendment numbered 2463.

Mr. COBURN. I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To require public disclosure of certain reports)

At the appropriate place, insert the following:

SEC. \_\_\_\_\_. (a) Notwithstanding any other provision of this Act and except as provided in subsection (b), any report required to be submitted by a Federal agency or department to the Committee on Appropriations of either the Senate or the House of Representatives in this Act shall be posted on the public website of that agency upon receipt by the committee.

(b) Subsection (a) shall not apply to a report if—

- (1) the public posting of the report compromises national security; or
- (2) the report contains proprietary information.

#### AMENDMENT NO. 2523

Mr. COBURN. I ask unanimous consent the pending amendment be set aside and amendment No. 2523 be called up.

The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. COBURN] proposes an amendment numbered 2523.

Mr. COBURN. I ask unanimous consent the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To secure our borders and protect our environment)

At the appropriate place, insert the following:

#### SEC. \_\_\_\_\_. PROHIBITION ON USE OF FUNDS TO IMPEDE OPERATIONAL CONTROL.

None of the funds made available by this Act may be used to impede, prohibit, or restrict activities of the Secretary of Homeland Security on public lands to achieve operational control (as defined in section 2(b) of the Secure Fence Act of 2006 (8 U.S.C. 1701 note; Public Law 109-367)) over the international land and maritime borders of the United States.

#### AMENDMENT NO. 2483

Mr. COBURN. I ask unanimous consent the pending amendment be set aside and amendment No. 2483 be called up.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. COBURN] proposes an amendment numbered 2483.

Mr. COBURN. I ask unanimous consent the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To help preserve America's national parks and other public land treasures by reducing maintenance backlogs that threaten the health and safety of visitors)

At the appropriate place, insert the following:

#### SEC. \_\_\_\_\_. MAINTENANCE BACKLOG.

Notwithstanding any other provision of this Act, any funds provided from the land and water conservation fund established under section 2 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-5) to an agency under this Act for federal land acquisition shall be used by the agency for maintenance, repair, or rehabilitation projects for constructed assets.

#### AMENDMENT NO. 2482

Mr. COBURN. I ask unanimous consent the pending amendment be set aside and amendment No. 2482 be called up.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. COBURN] proposes an amendment numbered 2482.

Mr. COBURN. I ask unanimous consent the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To protect property owners from being included without their knowledge or consent in the Federal preservation and promotion activities of any National Heritage Area)

Beginning on page 173, strike line 1 and all that follows through page 174, line 5, and insert the following:

NORTHERN PLAINS HERITAGE AREA,  
AMENDMENT

SEC. 115. (a) IN GENERAL.—Section 8004 of the Omnibus Public Land Management Act of 2009 (Public Law 111-11; 123 Stat. 1240) is amended—

(1) by redesignating subsections (g) through (i) as subsections (h) through (j), respectively;

(2) in subsection (h)(1) (as redesignated by paragraph (1)), in the matter preceding subparagraph (A), by striking “subsection (i)” and inserting “subsection (j)”;

(3) by inserting after subsection (f) the following:

“(g) REQUIREMENTS FOR INCLUSION AND REMOVAL OF PROPERTY IN A NATIONAL HERITAGE AREA.—

“(1) PRIVATE PROPERTY INCLUSION.—No privately owned property shall be included in a National Heritage Area unless the owner of the private property provides to the management entity a written request for the inclusion.

“(2) PROPERTY REMOVAL.—

“(A) PRIVATE PROPERTY.—At the request of an owner of private property included in a National Heritage Area pursuant to paragraph (1), the private property shall be immediately withdrawn from the National Heritage Area if the owner of the property provides to the management entity a written notice requesting removal.

“(B) PUBLIC PROPERTY.—

“(i) INCLUSION.—Only on written notice from the appropriate State or local government entity may public property be included in a National Heritage Area.

“(ii) WITHDRAWAL.—On written notice from the appropriate State or local government entity, public property shall be immediately withdrawn from a National Heritage Area.”.

(b) PROHIBITION ON USE OF FUNDS.—None of the funds made available by this Act shall be made available for a Heritage Area that does not comply with section 8004(g) of the Omnibus Public Land Management Act of 2009 (Public Law 111-11; 123 Stat. 1240) (as amended by subsection (a)).

## AMENDMENT NO. 2511

Mr. COBURN. I ask it be set aside and amendment No. 2511 be called up.

The PRESIDING OFFICER. Is there objection?

Mrs. FEINSTEIN. Mr. President, if I may, if the Senator would be good enough to mention the subject of the amendment as he reads the number, it would be appreciated. We could keep it straight that way.

Mr. COBURN. This is the last one. These are all in the agreement the Senator and I had that I would bring up and this is the last one.

Mr. FEINSTEIN. Good. I just want to know about which one the Senator is speaking when he is speaking.

Mr. COBURN. I will be happy to do that. No. 2511.

The PRESIDING OFFICER. The clerk will report the amendment.

Mr. COBURN. This amendment is as modified without the second degree, with agreement of the chairman of the committee, and you should have the modified amendment at the desk.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. COBURN] proposes an amendment numbered 2511.

The amendment is as follows:

(Purpose: To prohibit no-bid contracts and grants)

At the appropriate place, insert the following:

**SEC. \_\_\_\_ PROHIBITION ON NO-BID CONTRACTS AND GRANTS.**

(a) Notwithstanding any other provision of this Act, none of the funds appropriated or otherwise made available by this Act may be—

(1) used to make any payment in connection with a contract not awarded using competitive procedures in accordance with the requirements of section 303 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253), section 2304 of title 10, United States Code, and the Federal Acquisition Regulation; or

(2) awarded by grant not subjected to merit-based competitive procedures, needs-based criteria, and other procedures specifically authorized by law to select the grantee or award recipient.

(b) This prohibition shall not apply to the awarding of contracts or grants with respect to which—

(1) no more than one applicant submits a bid for a contract or grant; or

(2) Federal law specifically authorizes a grant or contract to be entered into without regard for these requirements, including formula grants for States.

## AMENDMENT NO. 2511, AS MODIFIED

Mr. COBURN. I ask unanimous consent this amendment be as modified, and I yield to the chairman of the committee.

Mrs. FEINSTEIN. Mr. President, with respect to amendment No. 2511, Senator COBURN and I have come to an agreement. Therefore, there is no need for me to offer a second degree.

I ask unanimous consent that the Coburn amendment No. 2511 be modified with the changes at the desk, and that the amendment, as modified, be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2511), as modified, was agreed to, as follows:

(Purpose: To prohibit no-bid contracts and grants)

At the appropriate place, insert the following:

**SEC. \_\_\_\_ PROHIBITION ON NO-BID CONTRACTS AND GRANTS. (a) Notwithstanding any other provision of this Act, none of the funds appropriated or otherwise made available by this Act may be—**

(1) used to make any payment in connection with a contract not awarded using competitive procedures in accordance with the requirements of section 303 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253), section 2304 of title 10, United States Code, and the Federal Acquisition Regulation; or

(2) awarded by grant not subjected to merit-based competitive procedures, needs-based criteria, or other procedures specifically authorized by law to select the grantee or award recipient.

(b) This prohibition shall not apply to the awarding of contracts or grants with respect to which—

(1) no more than one applicant submits a bid for a contract or grant; or

(2) Federal law specifically authorizes a grant or contract to be entered into without

regard for these requirements, including formula grants for States, or Federally recognized Indian tribes; or

(3) Such contracts or grants are authorized by the Indian Self-Determination and Education and Assistance Act (P.L. 93-638, 25 U.S.C. 450 et seq., as amended) or by any other Federal laws that specifically authorize a grant or contract with an Indian tribe as defined in section 4(e) of that Act (25 U.S.C. 450b(e)).

The PRESIDING OFFICER. The Senator from Oklahoma is recognized.

Mr. COBURN. Mr. President, I will try to do this, to save some time, in the shortest amount of time I can. I also thank the chairman of this committee for working with me.

There are several amendments I did not offer. I want to spend a couple of minutes talking about those because I think the American people need to hear about them.

Less than a block from this building is the Belmont House. It is a foundation. It is a beautiful building. It has \$4 million in the bank, the foundation does. There is an earmark in this bill at this time of a \$1.8 trillion deficit, of a 16-percent increase in this bill. The Senator, Senator LANDRIEU from Louisiana, is sending \$1 million to that building. They have the money in the bank but we are still going to take \$1 million from our grandkids and send it there. I am not offering that amendment in conjunction with having the pleasure of the chairman consider my other amendments. But the American people need to know that kind of thing is going on. It is absolutely not indicated. Who uses that building? We do, for fundraisers. We do for events. We do for social events. In fact, there is a high price paid when you rent it. But what we are going to do, without regard to what our fiscal situation is, is we are going to send another \$1 million as though it is a peanut and send it to that building. That is all I will say on it, but to me it is one of the reasons why this Congress, and we in particular as Members of the Senate, lack the respect of the American people.

The other amendment I am not going to offer that was objected to by the chairman of the Resources Committee is for us to know what kind of land we own. We don't know, since 2005, how much land we have or where we own it.

Supposedly the BLM puts out something. Supposedly the Geological Survey puts something out. But there is not a concise list of the land that the Federal Government owns—and it is somewhere in excess of a third of all the land of this country—and it is 650 million acres. In this bill is another \$300 million—almost \$400 million—to buy more land. At the same time, the National Park Service has a backlog of \$11 billion. We do not have one national park that does not have significant factors of erosion and dilapidation that is now putting both the employees and park visitors at risk. Yet we are going

to spend \$400 million to buy more land, to require more of their services to take care of, rather than to take care of what we have. It does not fit with common sense.

There is no way the American people as a whole would embrace that kind of stupidity. Yet that is in this bill. We are going to buy more land, we are going to take more land off the tax rolls, we are going to hurt the States, we are going to limit the ability of property owners, and we are going to continue—the Park Service, this year, their backlog grew by over \$400 million.

We have the Carlsbad Caverns where we had sewage leaking into the cavern. I won't spend the time to go through the hundreds of examples the Park Service has given us, that they cannot maintain the parks because we will not send them the money to do it. We would rather spend it on an earmark or buy more land. The priorities here are amazing.

Let me talk about amendment No. 2511. I will spend a short period on it. That is the competitive bidding amendment. We have carefully crafted that with the concerns of both staff and the chairman and ranking member of this committee. What it says is we are going to use competitive bidding, much like the President campaigned, when we go to buy things that are approved in this bill. We very carefully exempted the sections of the Native Americans where their sovereignty reigns, where we would not step on their sovereignty—although I am not sure we should not require them to competitively bid, but we agreed not to do that.

Here is what we do know. If you take different branches of the Federal Government, about 5 percent of the costs are excessive because we do not have competitive bidding. If you take the Pentagon, it is about \$20 billion a year because we do not have competitive bidding. In the Interior it is much smaller. But any penny we can save, in terms of enhancing the value of the American taxpayers' dollars by saying what we buy is going to be competitively bid, we ought to do that. We ought to get the best value we can. We may not always get great value but at least we are going to have a competitive bid and we are at least going to have everybody in that who is qualified to have a shot at some of that business. So it is a "two-fer." It is, No. 1, better value for the American people but also opening up all this to everybody who has a opportunity to offer a service when the Federal Government buys it.

With that, we have an agreement and I appreciate the chairman accepting that amendment.

Amendment No. 2463 is an amendment for the public to see all the reports required by this bill if, in fact, that will not in any way compromise

national security. I think we have worked out an agreement on that amendment to where that is going to be accepted. It is about transparency.

We ought to make sure the American people see what we are doing, and if we ask for a report that will not in any way endanger the security of this country that comes back to us, there is no reason the American people should not be able to see that and we make it available to them so they can make a judgment to judge us on what we are doing and whether we are responding properly to problems identified in such reports.

So I am very thankful for the chairman in terms of accepting this amendment. I look forward to her comments on it. We should do the same thing with this amendment as we did with the last one.

The PRESIDING OFFICER. The Senator from California.

Mrs. FEINSTEIN. Mr. President, I would be happy to do the same thing. If I may, Senator COBURN's amendment No. 2463, he and I have come to an agreement.

I ask unanimous consent that the Coburn amendment be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2463) was agreed to.

The PRESIDING OFFICER (Mrs. MCCASKILL.) The Senator from Oklahoma is recognized.

#### AMENDMENT NO. 2523

Mr. COBURN. Madam President, I switch now to amendment No. 2523, which is a prohibition on funds being spent in this act that would actually limit the effectiveness of the Homeland Security Department in terms of securing our borders and protecting us.

This amendment basically ensures that the wilderness areas and other public lands are protected from crime and pollution. I know it is not seen that way, but what is happening is a very big and sad story about what is happening in our wilderness areas.

Border violence and trafficking is at an all-time high. Our public lands along the border are being exploited by drug and human smugglers. Wilderness concerns hinder law enforcement efforts. How do we balance properly our concerns for the environment and still secure our borders and still protect our population from both drug smuggling and human trafficking?

Wilderness areas also are being destroyed by these very smugglers because we do not allow the enforcement agencies access to be able to make a difference. We have not acted on it; we have not acted on it in this bill. We have to make sure there is the proper balance between protecting our wilderness areas and protecting our country and our citizens.

We have sought to address in the last couple of years our border security concerns by appropriating a large increase in Federal funds for law enforcement and for significant legislation to construct infrastructure along the southern border.

In the Secure Fence Act of 2006, Congress sought to ensure that the Secretary of the Department of Homeland Security was able to take the actions necessary and appropriate to achieve and maintain the operational control over the entire international land and maritime borders of the United States.

The goal of the act was to prevent all unlawful entries into the United States, including entries by terrorists, narcotics, and other contraband, except it has not had the desired impact, and in large part, to the unwelcome increase of illegal human and drug trafficking through public lands, along our southern border. So we have a conflict of desires by agencies to do their jobs.

Amendment No. 2523 would prohibit any funds from within the Interior appropriations bill to be used to prohibit or restrict the activities of Homeland Security on public lands to secure our borders. The effect of this amendment would be to ensure that DHS is able to further secure our borders from terrorists and other national security threats and protect the environment of these lands.

I know there is some concern on the other side of the language, the way we have written it. I am more than willing to work with the chairman of both the Resources Committee, Interior Committee, and the Appropriations Committee to try to put that in a way that properly balances it. I know this is a tough amendment. I do not deny that.

But when you hear the testimony—and I am going to ask that this be printed in the RECORD. This is former Border Patrol officers and field supervisory Border Patrol agents who testified in Congress last April about what is going on in our wilderness areas.

Do you realize that these people, because we do not have law enforcement in there, they are setting fires in our wilderness areas to distract us to the fire so they can smuggle contraband and humans while we are addressing the fire?

Our wilderness areas are being defiled near McAllen, TX. It relates: When a wilderness area or refuge is established near the border, the criminal element moves in and trashes it because the restrictive wilderness or refuge status accorded to these lands effectively prevents all law enforcement from effectively working the area.

This is Border Patrol:

In other words, refuge or wilderness designation actually serves to put the environment at a greater risk of being seriously damaged and defaced. Law enforcement must have common, unrestricted, free access to all lands near the U.S. border.

He goes on to clarify that it needs to be at least 50 miles. The other thing that was especially telling and which is horrific is the comments about what is going on along Interstate 8 and Interstate 10 in Arizona: numerous reported "rape trees" have been identified in and near the current Pajarita Wilderness near the U.S.-Mexican border.

Rape trees mark the location where drug and alien smugglers habitually sexually assault and rape illegal alien females that are being brought into the United States across the Mexican border. These locations are marked by the perpetrators who prominently display and hang—

I will not use the words that he does. the underwear of their victims on a particular tree. I visited one such reported tree on March 27, 2008, and noticed 30 sets of underwear. These rape-tree trails begin at the Mexican border and travel all of the way through the Pajarita Wilderness.

In southern Arizona we are experiencing increased incidents of wildfires from two primary sources. The first source is illegal aliens who cross into the United States illegally and start fires through carelessness. The second is from illegal aliens engaged in other criminal enterprises who start wildfires intentionally to create a diversion so they can smuggle things into or out of the United States.

You cannot deny the fact that we are having a conflict between the Department of Interior and the Department of Homeland Security in terms of law enforcement along our border. The tragedy is that the very intent of the Department of Interior to protect the environment is actually being made worse by their policy of not allowing law enforcement efforts, i.e., the Border Patrol, into those areas.

So this amendment is intended to do a couple of things. Let me talk about what the claims against this amendment are first, and that I am more than willing to try to work out a sensible agreement. What is driving me nuts is those two Departments have not worked out a sensible agreement themselves, which we ought to have significant oversight hearings on the fact that we are having to do something that they should be taking care of.

The claim is that if this amendment passes it will devastate the environment and give the Department of Homeland Security the mandate to show no regard for the environment. Nothing can be further from the truth. The interpretation of congressional intent that we currently have has led to the destruction of much of our wilderness area because human and drug smugglers have been able to use these lands as major thoroughfares without fear of law enforcement.

Additionally, the Department of Homeland Security will still be obligated to conduct its law enforcement activities in a manner that seeks to minimize or mitigate any negative en-

vironmental impact. Do you realize in Arizona they are cutting down 150-year-old cactuses to block the road to inhibit anybody following them? And the fact that we do not have significant law enforcement, i.e., Border Patrol there, these majestic, 100-year-old cactuses, which are protected, are intentionally being destroyed to protect the smugglers.

In the past, when the Secretary of Homeland Security waived 30 environmental and other laws and regulations associated with the construction of tactical infrastructure along the southwest border in compliance with the Federal law, he still required the Department to practice responsible stewardship of natural and cultural resources.

The U.S. Customs and Border Patrol is also committed to do that. I will stop with this: I do want to have printed in the RECORD a letter from the National Border Patrol Council, which is the AFL-CIO representative of our Border Patrol agents who fully endorse this amendment because they are the people actually on the ground seeing the problem, and we are not allowing them to do their job.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

EAGLE FORUM,  
September 23, 2009.

U.S. Senate,  
Washington, DC.

DEAR SENATOR: On behalf of the many thousands of American families we represent, I urge you to support Senator Tom Coburn's (R-OK) Secure Our Borders and Protect the Environment amendment (#2523) to the Interior Appropriations bill, H.R. 2996, currently being debated on the Senate floor.

The Coburn amendment would simply prevent any funds in this bill from going to any Department of the Interior efforts or activities to impede or stall the Department of Homeland Security's progress of the border fence or to prevent the enforcement of U.S. law on public lands near the border. Yesterday, the House passed a motion to recommit to the Santa Cruz Valley National Heritage Area Act (H.R. 324) by a vote of 259 to 167 that included this same amendment language.

In 2006, the U.S. Senate overwhelmingly passed the Secure Fence Act of 2006 by a vote of 80 to 19 to construct 700 miles of border fence between the U.S. and Mexico—even then-Senator, President Barack Obama, voted in favor of the fence. Despite the enactment of this law and billions of taxpayer dollars for law enforcement efforts, our border remains vulnerable and the increase in violence in Mexico has begun to spill over into the United States. Even worse, our national parks and other federal public lands are being easily targeted by and used as sanctuaries for illegal drug smugglers because environmental concerns limit the range of U.S. Border Patrol agents and also complicate efforts to build the barrier ordered by Congress.

Not only do these restrictions on enforcement endanger our border guards, but the increased illegal activity as a result of reduced law enforcement has led to adverse environmental impacts on these lands, including

contamination of pristine areas with bio-hazardous waste and communicable diseases, contamination of water supplies for animals and local ranchers, and an increase in wildfires.

We need the Coburn amendment because it is a common-sense step in our fight against the illegal drug and human trade, to secure our border, and to restore our wilderness areas that border Mexico. I urge you to vote in favor of the Coburn amendment when it comes up for a floor vote today. Eagle Forum will score this vote, which will appear in our scoreboard, published annually, for the 1st session of the 111th Congress.

Sincerely,

SUZANNE BIBBY,  
Legislative Director, Eagle Forum.

NATIONAL BORDER PATROL COUNCIL  
OF THE AMERICAN FEDERATION OF  
GOVERNMENT EMPLOYEES, AFFILI-  
ATED WITH AFL-CIO.

September 24, 2009.

Hon. TOM COBURN,  
U.S. Senate,  
Washington, DC.

DEAR SENATOR COBURN: The United States Border Patrol is charged with the formidable task of securing our Nation's borders, and confronts numerous obstacles that hinder the accomplishment of that goal, including rugged terrain, extreme climatic conditions, an overwhelming number of people crossing the border illegally, and violence perpetrated by smugglers and other criminals. Bureaucratic regulations that prevent Border Patrol agents from utilizing vehicles and technology on public lands should be the least of their concerns, but unfortunately are not.

Your amendment to the Fiscal Year 2010 appropriations bill for Interior, Environment and Related Agencies that would preclude the use any of those funds to impede, prohibit, or restrict any activities of the Department of Homeland Security on public lands that are undertaken to achieve operational control of our borders is therefore greatly appreciated by the dedicated men and women of the U.S. Border Patrol.

Sincerely,

T.J. BONNER,  
President.

The PRESIDING OFFICER. The Senator from California.

Mrs. FEINSTEIN. Madam President, if I may say through the Chair to the distinguished Senator from Oklahoma, the manager of the amendment and I are prepared to take the amendment. Moreover, we are prepared to convene a meeting between the two Department heads, have you present, and sit down and see what we can work out.

Mr. COBURN. Well, that is perfectly acceptable to me. I want the problem solved. I think security is just as important as protecting our environment. We are not going to allow one to trump the other.

Mrs. FEINSTEIN. We will accept the amendment on both sides with the stricture I just added to it on the pending amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2523) was agreed to.

Mrs. FEINSTEIN. Thank you, Madam President.

AMENDMENT NO. 2483

Mr. COBURN. I would next like to talk about amendment No. 2483. This is the amendment that moves the Federal Land Acquisition Fund to backlog.

There is no question my colleagues in this body know of my concern about an ever-expanding, ever-enlarging Federal role in terms of land ownership. In fact, I have had a lot of conflicts with the chairmen, whether it was a Republican chairman or a Democratic chairman, in terms of expanding the amount of property the Federal Government owns.

It is not just about expanding. When we expand it costs more money. It costs our kids more money. But in this bill, we have almost \$400 million that is going to be put in to buy more land where we cannot take care of the land that we have today.

What we know is the following: Federal land management agencies across all these different branches of government, as well as within this bill, are responsible for a large and aging number of structures. As we have continued, through the Federal Government, to consume more private land nationwide, Federal agencies have increasingly been unable to maintain the existing land holdings.

All one has to do is talk to any park ranger. Go up to the Statue of Liberty, they have an \$800 million backlog. Go to the Washington Mall, well over \$1 billion in maintaining some of our most significant structures. If you go to the Grand Canyon National Park, people are continually being limited because we can't maintain the trails and because we don't put the money in to do it. The National Park Service, which receives most of the money to buy more land in this bill, faces an \$11 billion backlog.

When I first started talking about the issue, the backlog was \$6 billion. In 4 years, we have seen the backlog with the National Park Service almost double. Although I am thankful for the increase in maintenance funds this bill does add to the national parks, it does not come sufficiently close.

What is the priority? Is the priority for the Federal Government to consume more land, restrict more access, limit the freedom of people around that land and on that land, or is it to let Americans own the land and take care of the land the Federal Government already has? It owns a third of the land. How much land is enough for the Federal Government to own? How much is enough, especially when most of the land we own we are not taking care of. We are letting it fall down. The question has to be: What are the priorities?

The committee says the priority is to buy more land. This amendment says the priority is to repair and take care of the land we have. It specifically directs this money to the National Park Service to help with a backlog of fall-

ing down structures and the increased risk of safety for both park employees and visitors.

I obviously don't have all the information the committee has, but as the Senator from New Mexico knows, I have been looking at land acquisition and land bills for the last few years. I have not been successful in slowing them down, but I think the American people need to know about this. They need to recognize that our priorities are screwed up and that, in fact, we ought to be about taking care of what we have before we add to it.

I yield the floor.

Mrs. FEINSTEIN. Madam President, regretfully, I have to oppose this amendment. The fact is, we would lose opportunities to conserve valuable lands because within national parks there are inholdings, and inholdings, when they become available—these are private properties that people own—the Federal Government buys them and adds to the public land. Let me name a few: In Georgia, I am told the Chattahoochee National Recreation Area would be involved; in many States, Civil War battlefield sites; in Ohio, the Cuyahoga Valley National Park; in the State of Washington, Mount Rainier, Olympic, and San Juan National Parks; in Texas, Big Thicket National Preserve; in Indiana, the Hoosier National Forest; in Utah, Dixie National Forest; in South Dakota, the Black Hills National Forest.

The point I wish to make is, on occasion, there are families who have large land holdings, and these are valuable, pristine land holdings. Their first preference might be to have the Federal Government buy these lands to hold them for the future and to conserve the lands. If the Federal Government can't do that, the lands go on the market, generally, for the highest and best use. With some of our prized and treasured possessions, that is not the way to go.

I will oppose this amendment. I am sure it will be in line for a vote.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. COBURN. The chairman makes my point for me. Yes, we might miss an opportunity. But we don't have the courage to put the priorities right. We are going to miss an opportunity while structures fall down at Yellowstone. That is what the choice is. We are going to take large, valuable land segments that are now paying property taxes and, because they are up for sale, we are going to spend that money rather than repair Carlsbad Caverns. That is the choice. The chairman made my argument for me. We are not going to do the sensible thing.

Many of these things will come back. They are not gone forever. What we are saying is, because we don't have any limitation on what we spend or how we spend it, we therefore have no limitation in worrying about whether things

fall down. The fact is, now an \$11 billion backlog, which grew \$400 million last year alone in the Forest Service, documented by the Forest Service—those are not my numbers—we are going to say these are more important now than putting back in proper order things that relate to safety or security in the national parks. I will end with the fact that if we don't do this, what we have done is earned the reputation we are garnering, that we refuse to make tough choices. Life is about tough choices. Maybe we don't get to add to one of these parks right now. But how about taking care of what we have? Why not make that a priority?

It is kind of like when your front porch is falling down and that is the only entrance to your house, you start building a garage rather than fix your front porch or you buy an extra five acres so you can have a big garden. We wouldn't do that. The American people wouldn't do that. We need to respond with some commonsense solutions. Instead, we are adding to the cost as the backlog grows.

I am uncomfortable with the fact that that is how we think here. I know the American people are uncomfortable with that fact. I am disappointed we will not have the support of the committee. I look forward to the vote.

The next amendment I will call up is pending, but I will discuss amendment No. 2482.

Mrs. FEINSTEIN. Will the Senator yield? I know he is a gentleman.

Mr. COBURN. I am happy to.

Mrs. FEINSTEIN. Madam President, when we did the stimulus, we put in the maximum amount that the departments could use for maintenance and rehabilitation. I have the breakdown. It is hard to add it all up quickly, but I can give some idea. Bureau of Land Management deferred maintenance, \$35 million; recreation maintenance, 25; trail maintenance, 20; abandoned mine site remediation, \$30 million; habitat restoration, 25. It goes on. I recall as we did this, what we were told by our staffs is that was the maximum amount these departments could absorb in the length of time covered by the stimulus. I will leave my colleagues with that.

Mr. COBURN. I would be happy to have a UC on this amendment that would exclude the inholdings, if that would satisfy the chairman.

In fact, the inholdings are a very small amount of the \$400 million. A very small amount of the money for land acquisitions is inholdings. I would be happy to accept a second degree that would exclude the inholdings from this.

Mrs. FEINSTEIN. I appreciate that, but I cannot accept that. We believe the Land and Water Conservation Fund is working as it is supposed to. If anything, it has been underfunded. This

bill proposes to appropriate \$420 million of the \$900 million that is authorized. That is less than 50 percent. The Land and Water Conservation Fund, we believe, is extraordinarily important. We would try to get it higher if we could, but we cannot.

Mr. COBURN. I thank the chairman for her comments on that. I am sure it is important. It is important to preserve what we have. You can't go to one national park and talk to the park rangers and talk to the person in charge without hearing them talk about the declining status of their individual parks. We have to start making some choices. We are going to refuse to do that. So next year, instead of it being \$11 billion, it is going to be \$11.6 billion, and then it is going to grow. What is happening right now is, we are shutting off parts of our parks. We are saying, since it is dangerous or it is in disrepair, we cannot let people experience it.

I will put in the RECORD hundreds of examples where that is happening right now. We have researched and the parks have told us where they are limiting access because of the lack of maintenance funds and funds for repair of required things in the parks.

With that, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mrs. FEINSTEIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AMENDMENT NO. 2504, AS MODIFIED

Mrs. FEINSTEIN. Madam President, I ask unanimous consent that the pending amendment be set aside and amendment No. 2504, as modified, be called up.

The PRESIDING OFFICER. Without objection, it is so ordered. The amendment, as modified, is pending.

#### AMENDMENT NO. 2504, AS FURTHER MODIFIED

Mrs. FEINSTEIN. Madam President, there is a further modification at the desk, and I ask unanimous consent that the amendment be further modified.

The PRESIDING OFFICER. Without objection, the amendment is further modified.

The amendment, as further modified, is as follows:

(Purpose: To encourage the participation of the National Park Service in activities preserving the papers and teachings of Dr. Martin Luther King, Jr., under the Civil Rights History Project Act of 2009)

On page 135, line 2, before the period, insert the following: "of which \$200,000 may be made available by the Secretary of the Interior to develop, in conjunction with Morehouse College, a program to catalogue, preserve, provide public access to and research on, develop curriculum and courses based on, provide public access to, and conduct schol-

arly forums on the important works and papers of Dr. Martin Luther King, Jr. to provide a better understanding of the message and teachings of Dr. Martin Luther King, Jr.,".

Mrs. FEINSTEIN. Madam President, this modification, which has been agreed to on both sides, allows the Secretary of the Interior to make \$200,000 available for preservation of the Martin Luther King papers. It is an amendment offered by Senator ISAKSON. I fully support the amendment.

Madam President, I ask unanimous consent that the amendment as further modified, be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2504), as further modified, was agreed to.

Mrs. FEINSTEIN. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mrs. FEINSTEIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AMENDMENT NO. 2535

Mrs. FEINSTEIN. Madam President, I ask unanimous consent to call up amendment No. 2535.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The assistant bill clerk read as follows:

The Senator from California [Mrs. FEINSTEIN], for Mr. BARRASSO, proposes an amendment numbered 2535.

The amendment is as follows:

(Purpose: To provide for the use of certain funds for an Indian estate planning assistance program)

In the matter under the heading "FEDERAL TRUST PROGRAMS (INCLUDING TRANSFER OF FUNDS)" under the heading "OFFICE OF THE SPECIAL TRUSTEE FOR AMERICAN INDIANS" under the heading "DEPARTMENT OF THE INTERIOR" of title I, insert "and of which \$1,500,000 shall be available for the estate planning assistance program under section 207(f) of the Indian Land Consolidation Act (25 U.S.C. 2206(f))" after "historical accounting".

Mrs. FEINSTEIN. Madam President, this amendment has been accepted by both sides. I ask unanimous consent that the amendment be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2535) was agreed to.

#### AMENDMENT NO. 2527

Mrs. FEINSTEIN. Madam President, I ask unanimous consent to call up amendment No. 2527.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The assistant bill clerk read as follows:

The Senator from California [Mrs. FEINSTEIN], for Mr. BENNETT, proposes an amendment numbered 2527.

Mrs. FEINSTEIN. Madam President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To modify the definition of the term "Beaver Dam Wash National Conservation Area Map")

On page 240, between lines 13 and 14, insert the following:

SEC. 4 \_\_\_\_ Section 1971(1) of the Omnibus Public Land Management Act of 2009 (16 U.S.C. 460www note; Public Law 111-11) is amended by striking "December 18, 2008" and inserting "September 20, 2009".

Mrs. FEINSTEIN. Madam President, I ask unanimous consent that the amendment be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2527) was agreed to.

Mrs. FEINSTEIN. Madam President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. LAUTENBERG. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LAUTENBERG. Madam President, I come to the floor because we were looking at an amendment earlier today that would have stopped the EPA from exercising its obligation to combat global warming pollution. There are those here who would choose to defer taking action to deal with this enormous threat where future generations' lives and well-being would be at risk. But the time for delay is a luxury we don't have. We can't afford to wait any longer and we cannot afford to limit our options.

Every day the science makes it more clear we are on a dangerous course. In fact, the scientific community has recently had to revise its own estimates because rising temperatures are destabilizing our planet far faster than originally expected. For instance, 2 years ago, scientists warned us that summers in the Arctic would be completely ice free by 2050. Now they are saying summers in the Arctic will be completely ice free in 3 years. Two years ago they said sea levels would rise less than 2 feet by the end of this century and now it is being said sea levels will rise by 6 feet. The risks of inaction are too great.

We have to look also at the national security risks we face by continuing to do nothing about climate change. According to the CIA's National Intelligence Council, if we fail to act, nearly 1 billion people may face water and food shortages in the next 15 years. These shortages will set the stage for conflict and breed conditions for terrorism. At the same time, with 20 percent of the world's population living in

coastal zones, rising sea levels and stronger hurricanes could displace more than 150 million people by 2050. When it is expressed in percentages such as that and talking about numbers that are almost beyond the imagination, it sometimes loses its impact. But what we are talking about are people seeking higher-level places to take themselves and their families so they are not overwhelmed by floods.

Border pressures created by these mass migrations will increase tensions and lay the groundwork for armed conflict. The U.S. Navy has looked at this problem in the past and issued a report that in the last half of the 21st century we could be looking at a different structure for naval engagements with smaller boats, higher speeds, and so forth to keep people from flooding our shores because they are trying to get away from higher water. Nations will look to us, to the United States, as a first responder in the aftermath of these major natural emergencies and humanitarian disasters.

Retired GEN Anthony Zinni put it this way, that if we don't begin reducing carbon emissions now, we will "pay the price later in military terms and that will involve human lives."

Delay is not a substitute for confronting this growing problem. It is no surprise that many of those who want to shelve the Clean Air Act and stop EPA from doing its duty are the same ones who close their eyes to the overwhelming scientific evidence that says, Wake up, hear the alarm. They have dismissed the ominous forecasts of life changes for plants, animals, and humans. They called global warming "the greatest hoax ever perpetrated on the American people." A hoax is a joke. That is a bad joke.

Let's not forget, the EPA's power to curb greenhouse gas emissions under the Clean Air Act was recently affirmed by the Supreme Court. The Clean Air Act has been one of the great success stories of our lifetime and it is one of the few tools we have to overcome climate change. For the last 40 years, this law has led to cleaner skies and healthier children. If it weren't for the Clean Air Act, 225,000 Americans would have died prematurely, according to an EPA study. Imagine, we would have lost 225,000 people if it weren't for the Clean Air Act.

While the gains have been enormous, the cost to polluters has been minimal. In fact, the total benefits to our economy have been identified as high as \$49 trillion, putting the benefit at 100 times greater than the cost for action. Even so, history shows that opponents often dramatically overstate the costs of environmental improvement. The last time we strengthened the Clean Air Act, our adversaries rang the alarm that these changes would cost too much and damage the economy. But as it turned out, the actual costs were

less than one-fifth of what these opponents estimated. Today, even though EPA has a proven track record of producing trillions in benefits for our economy and our country under the Clean Air Act, we are hearing the same kinds of warnings. It makes no sense.

There is no doubt our opponents prefer to endorse inaction and will reward failure. That is why I urge my colleagues to stand up to the special interests and stand for the public interest. It is time to say from our hearts that we are willing to stand firm against those who claim the overstated cost of change outweighs the risk of disappearing species, poor health, and international unrest.

With that, I yield the floor and note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. COBURN. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COBURN. Madam President, I wish to put my colleagues on notice that we are trying to work out an amendment so it can be acceptable to all parties concerned. It has to do with the heritage areas. If, in fact, you are a landowner in this country or you are a farmer or you are a rancher or you happen to have 20 acres in the country, you ought to be very worried about the implications and the consequences of those who come in and change the zoning laws on heritage areas.

Most people in this country have no idea they are in a heritage area. They have no knowledge that they are in a heritage area. As a matter of fact, the whole State of Tennessee is a heritage area. So what we are attempting to do is to create a mechanism where anybody in the country who is in a heritage area who doesn't want to be in it can be out of it with their property.

We also want to respectfully protect some efforts in North Dakota on one specifically where they would have to opt in. So we are working on an agreement. We will come back and talk about this when this is finished. Hopefully, this is the start of restoring property rights to Americans that have been trampled, in my opinion, by those who are empowered through the heritage area name.

My hope is we are going to make good progress on this with this bill. It is important. If you are a farmer or a rancher, if you are a farm bureau member, if you are a cattleman or if you are a dairy farmer, it is time to make sure this stays—whatever agreement we come to—in this bill as it goes to conference. Because real property rights are at risk. They have been at risk. They have been trampled on. This is a great solution in terms of solving it.

The PRESIDING OFFICER. The Senator from Tennessee.

Mr. ALEXANDER. Madam President, I wish to thank the Senator from Oklahoma, the Senator from California, the Senator from North Dakota, and the Senator from New Mexico for their work on this amendment. The Senator from Oklahoma stated it exactly right, and that is our intention. I wish to thank the Senators involved.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Madam President, I am in support of the amendment offered by the Senator from Oklahoma. I also offered an amendment which I understand will be accepted. It allows for something called an "opt in" for private property. It means that for the Northern Plains Heritage Area, private property would be involved only if someone wishes to be included. My understanding is, after having worked with the Senators from Tennessee and Oklahoma, and the Senator from California, who is managing this bill, my amendment will also be accepted by unanimous consent.

My amendment is amendment No. 2441 which has previously been filed.

The PRESIDING OFFICER. The Senator from California.

Mrs. FEINSTEIN. Madam President, in the interest of moving things along—Members are impatient. We have been on this bill for a long time. We wish to conclude. It is my understanding both sides are agreeable to take the Dorgan amendment No. 2441, so I ask for unanimous consent.

Mr. ALEXANDER. Madam President, the Senator from Oklahoma has asked to be present when we do that, so I wonder if it might not be possible to take up other amendments at this time.

The PRESIDING OFFICER. The Senator from California.

Mrs. FEINSTEIN. Mr. President, I withdraw my prior request and I ask unanimous consent that at 5 o'clock tonight, the Senate proceed to vote in relation to the following amendments and motion to recommit remaining in order to H.R. 2996, the Interior Appropriations Act, and in the following order:

The Vitter amendment, No. 2549; the Ensign motion to recommit; the Coburn amendment No. 2482; the Coburn amendment No. 2483; and the Reid amendment No. 2531; that the remaining provisions of the previous order are still in effect.

The PRESIDING OFFICER (Mr. WHITEHOUSE). Is there objection?

Without objection, it is so ordered.

Mr. FEINGOLD. Mr. President, the exercise of governmental authority by White House advisers, sometimes called "czars," is a serious issue that deserves serious consideration by the Senate. Our ability to conduct meaningful oversight of those who hold the

levers of power and to evaluate whether they have the qualifications and character to carry out their duties may be undermined by the centralization of power in the White House. That is why I wrote to the President recently and plan to chair a hearing in the Constitution Subcommittee on this topic in the very near future. We need to know more about the role of these advisers and what powers they have. There is a core issue here that concerns me. At this point, however, it is premature to pass legislation on this topic before fully understanding the constitutional and policy ramifications. I am also uncomfortable with singling out a single policy adviser, the Assistant to the President for Energy and Climate Change, particularly since I am not aware of any evidence that she is acting inappropriately. Therefore, I will vote against the Vitter amendment.

Mrs. FEINSTEIN. Mr. President, I yield back the time remaining on the Vitter amendment No. 2549, and I move to table it. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The question is on agreeing to the motion. The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) is necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 57, nays 41, as follows:

[Rollcall Vote No. 295 Leg.]

#### YEAS—57

Akaka	Franken	Murray
Baucus	Gillibrand	Nelson (FL)
Bayh	Hagan	Pryor
Begich	Harkin	Reed
Bennet	Inouye	Reid
Bingaman	Johnson	Rockefeller
Boxer	Kaufman	Sanders
Brown	Kerry	Schumer
Burris	Klobuchar	Shaheen

#### NOT VOTING—1

Byrd

The motion was agreed to.

Mrs. FEINSTEIN. Mr. President, I move to reconsider the vote.

Mr. ALEXANDER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Nevada.

#### MOTION TO RECOMMIT

Mr. ENSIGN. Mr. President, I have a motion at the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Nevada [Mr. ENSIGN] moves to recommit H.R. 2996 to the Committee on Appropriations with instructions to report the same back to the Senate with changes that reduce the aggregate level of discretionary appropriations in the Act for fiscal year 2010 by \$4,270,000,000 from the level currently in the Act.

The PRESIDING OFFICER. There is 2 minutes equally divided.

Mr. ENSIGN. Mr. President, this is a very simple motion. It just says that at this time of runaway deficits, of out-of-control Federal spending, we are going to try to do a little something. We are just going to take this appropriations bill and say with regard to last year's level, which was increased fairly substantially, we are going to freeze it to last year's level.

As State budgets, local budgets, and family budgets are all being cut, trimmed, and tightened around the country, Washington says: You know what, we are going to print money. We are just going to borrow from our children and grandchildren and continue to print money and print money and push it off onto the next generation.

It is time for this body to show some fiscal restraint. So let's cut \$4 billion out of this spending bill and bring it back to last year's level. Let the Appropriations Committee determine where that spending is, but let's actually show some fiscal responsibility.

The PRESIDING OFFICER. The Senator's time has expired.

Who yields time?

The Senator from California.

Mrs. FEINSTEIN. Mr. President, I urge a "no" vote. I am going to move to table at the appropriate time. If we adopt the Ensign motion, we cut Park Service dollars, Indian health dollars, particularly water infrastructure. Mr. President, \$2.5 billion in this bill is for sewer grants; \$1.8 billion is for fire suppression. It is the first time we have met the fire suppression need fully so that they do not have to take from other accounts to fight fires.

I move to table the motion to recommit.

Mr. ENSIGN. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is on agreeing to the motion to table the motion to recommit.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) is necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 64, nays 34, as follows:

[Rollcall Vote No. 296 Leg.]

#### NOT VOTING—1

Byrd

The motion to table the motion to recommit was agreed to.

Mrs. FEINSTEIN. Mr. President, I move to reconsider the vote.

Mr. SPECTER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Oklahoma is recognized.

#### AMENDMENT NO. 2482, AS MODIFIED

Mr. COBURN. Mr. President, I think we can dispense with two fairly quickly, one with a vote and one without. We have worked out an agreement on amendment No. 2482. I believe the modification is at the desk. We have an agreement between the chairman and ranking member of the committee and the Senator from New Mexico, who is chair of the appropriate authorizing committee, which allows private property owners to opt out of heritage areas. I ask for its consideration now, rather than spending more time on it, and ask unanimous consent it be accepted.

Mrs. FEINSTEIN. The Senator is correct. We are prepared to accept the amendment.

The PRESIDING OFFICER. If there is no objection, the amendment will be modified and agreed to as modified.

The amendment (No. 2482), as modified, was agreed to, as follows:

At the appropriate place insert the following:

Any owner of private property within an existing or new National Heritage Area may opt out of participating in any plan, project, program, or activity conducted within the National Heritage Area if the property owner provides written notice to the local coordinating entity.

#### AMENDMENT NO. 2441

Mrs. FEINSTEIN. A corollary part of this is Dorgan amendment No. 2441, which also moves along with this. So we are prepared to accept Dorgan No. 2441 as well.

Mr. DORGAN. Mr. President, let me say I think this has been cleared by both sides. It does have a connection to the previous amendment. I appreciate the cooperation of the Senator from California, the Senator from Tennessee, and the Senator from Oklahoma.

I ask for its immediate consideration and approval.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from North Dakota [Mr. DORGAN], for himself, and Mr. CONRAD, proposes an amendment No. 2441.

The amendment is as follows:

(Purpose: To provide for the inclusion of property in, or removal of property from, the Northern Plains Heritage Area)

Beginning on page 173, strike line 12 and all that follows through page 174, line 5, and insert the following:

“(g) REQUIREMENTS FOR INCLUSION AND REMOVAL OF PROPERTY IN HERITAGE AREA.—

“(1) PRIVATE PROPERTY INCLUSION.—No privately owned property shall be included in the Heritage Area unless the owner of the private property provides to the management entity a written request for the inclusion.

“(2) PROPERTY REMOVAL.—

“(A) PRIVATE PROPERTY.—At the request of an owner of private property included in the Heritage Area pursuant to paragraph (1), the private property shall be immediately withdrawn from the Heritage Area if the owner of the property provides to the management entity a written notice requesting removal.

“(B) PUBLIC PROPERTY.—On written notice from the appropriate State or local government entity, public property included in the Heritage Area shall be immediately withdrawn from the Heritage Area.”.

The PRESIDING OFFICER. Without objection, the amendment will be accepted.

The amendment (No. 2441) was agreed to.

Mrs. FEINSTEIN. Mr. President, I move to reconsider the vote.

Mr. DORGAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Oklahoma is recognized.

#### AMENDMENT NO. 2483

Mr. COBURN. We are on amendment No. 2483, which was not agreed to. We could not work out an agreement. I want to take a minute or two—we don't have a time agreement on this—to talk about this amendment, what amendment No. 2483 will do.

The PRESIDING OFFICER. There is 2 minutes equally divided on this amendment.

Mr. COBURN. I am not sure I was present. Do we have a unanimous consent in that regard?

The PRESIDING OFFICER. Yes.

Mr. COBURN. I should have been here to object.

We have an \$11 billion backlog in the national parks. It grew by \$400 million this year. The Land and Water Conservation Act of 1965 was not meant just to buy land. It was meant to take care of the backlogs and the problems associated with outdoor recreation enjoyment by the American people. There is almost \$400 million in this bill to buy more land rather than take care of the things we have today. This amendment simply moves that to take care of the backlog at every national park we have. If we do not do that, we are soon going to be at \$12 billion, soon at \$13 billion.

The PRESIDING OFFICER. The Senate will be in order.

Mr. COBURN. The fact is, it is common sense. Every American knows you do not build a garage when your front porch is falling down and that is the only way to get into your house. That is what is happening to our parks. I know there is some increased funding for the parks but the fact is they are falling down, whether it is Yellowstone—I don't care where it is, there are significant maintenance problems in the parks. That ought to be a priority before we add 1 more acre to 650 million acres we already own.

The PRESIDING OFFICER. Who yields time?

The Senator from California is recognized.

Mrs. FEINSTEIN. Mr. President, we oppose this amendment. We oppose it because it takes \$420 million out of the Land and Water Conservation Fund. We oppose it because the committee in the stimulus bill put in as many dollars as these departments could absorb in the period of time for maintenance.

I move to table. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The question is on agreeing to the motion.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) is necessarily absent.

The PRESIDING OFFICER (Mr. BEGICH). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 79, nays 19, as follows:

[Rollcall Vote No. 297 Leg.]

#### YEAS—79

#### NOT VOTING—1

Byrd

The motion was agreed to.

Mrs. FEINSTEIN. Mr. President, I move to reconsider the vote.

Mr. ALEXANDER. I move to lay that motion upon the table.

The motion to lay upon the table was agreed to.

#### AMENDMENT NO. 2531

The PRESIDING OFFICER. The question is on agreeing to the Reid amendment No. 2531.

Mrs. FEINSTEIN. I yield back all time on the Reid amendment. It has been cleared on both sides. I ask for its adoption by unanimous consent.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2531) was agreed to.

#### TAHOE RIM TRAIL

Mrs. FEINSTEIN. Mr. President, I rise to provide additional clarification regarding a congressionally directed spending items included in the fiscal year 2010 Senate Interior Appropriations Subcommittee. At Senator REID's request, the committee included \$100,000 for the U.S. Forest Service to fund trail improvements in Nevada. It is my understanding that Senator REID intended those funds to be used for improvements for the Tahoe Rim Trail, to be conducted through a partnership with the Tahoe Rim Trail Association. Due to a clerical error, the project is not listed correctly in the committee report, and I would like to ensure that the RECORD clearly reflects Senator REID's intended use for these funds.

Through the chair, I would like to ask my colleague from Nevada, the distinguished majority leader, if my understanding of his intent is correct?

Mr. REID. I would like to thank the chairman for her efforts to clarify this matter. Chairman FEINSTEIN is correct, I do intend that the funds recommended by the committee be used by the U.S. Forest Service for improvements to the Tahoe Rim Trail through their partnership with the Tahoe Rim Trail Association. I would also note for the record that my request complies fully with all disclosure requirements relating to congressionally directed spending.

Mrs. FEINSTEIN. Mr. President, I thank the majority leader for his clarification and I look forward to working with him to support his project as we move through the annual appropriations process.

#### FUNDING RCAPS

Mr. LEAHY. Mr. President, as the Chair knows, I have long been a supporter of improving the quality of drinking water in rural America. There is a lot of work to be done. While small rural communities are home to fewer than 20 percent of America's population, they account for more than 85 percent of the Nation's community water systems, and are more likely than larger systems to report major drinking water violations. According to EPA data, 93 percent of the maximum contaminant level, MCL, and treatment technique, TT, violations reported in 2002 affected community water systems serving fewer than 10,000 people. MCL and TT violations include higher than allowable levels of organic and inorganic contaminants such as arsenic, benzene, atrazine, lead, copper and nitrate.

One significant reason for these high numbers is the lack of capacity among local elected officials to deal with the complexities of maintaining a safe and clean supply of drinking water. For this reason I have supported funding for RCAPs—six regional nonprofit organizations that help rural communities with facilities needs.

The technical assistance and training activities the RCAPs provide focus on helping communities comply with the Clean Water Act and the Safe Drinking Water Act. Last year alone, the RCAPs assisted more than 2,000 communities, leveraged over \$200,000,000 in funding, conducted 78 training sessions for almost 2,000 community water officials, and assisted nearly 3 million people to access safe and clean water. Most of the communities the RCAPs work with have populations of less than 1,500.

Funding for the RCAPs has been included in this bill for more than 20 years. I understand that the committee was limited by rules regarding earmarks, and I note that funding for the RCAPs is not included in the fiscal year 2010 Senate bill. However, I under-

stand that the House bill includes funding for the RCAPs at the current rate and it my hope that in conference the Senate will move toward the House position on this.

Mrs. FEINSTEIN. I thank the Senator for his comments on this. I appreciate the difficulties faced by rural communities in gaining and maintaining access to adequate drinking water. I also know well the good work of the RCAPs in assisting those communities. As we move into conference on this legislation I look forward to working with my colleague to see if we can maintain funding for this important program.

#### WHITE NOSE SYNDROME

Mr. LAUTENBERG. I would like to discuss with the Senator a serious issue that deserves our attention. White nose syndrome, WNS, is a fungus that is causing an extraordinary number of bat deaths, particularly in the Northeast. This disease has the potential to inflict widespread ecological, agricultural, and economic damage throughout our country. More than 1 million bats have died from New Hampshire to Virginia over the last two winters, and scientists report mortality rates as high as 100 percent in some affected caves. Experts fear that WNS could lead to the extinction of many bat species as the disease spreads across the country.

WNS not only has ecological effects, but it also has severe economic and environmental implications. Bats consume vast quantities of insects, protecting crops and reducing pesticide use. A single bat can easily eat more than 3,000 insects a night and an entire colony will consume hundreds of millions of insects per year. Bats prey on mosquitoes, which spread disease, and moths and beetles, which damage agriculture.

With the Senator's leadership, the fiscal year 2010 Interior appropriations bill has included \$500,000 for research to prevent the spread of WNS, and I thank the Senator for that.

Mrs. FEINSTEIN. I thank Senator LAUTENBERG. Our offices have worked together on efforts to provide funding to fight WNS, and I share his concerns about this issue.

Mr. LAUTENBERG. As the Senator knows, the U.S. Fish and Wildlife Service, FWS, is spearheading efforts to better understand this deadly disease and learn how to control its spread. FWS is working in conjunction with the U.S. Geological Survey, National Park Service, and U.S. Forest Service and with State and local partners, scientists, and conservation organizations. Due to the high mortality rate and the rapid spread of the disease, time is of the essence.

Mrs. FEINSTEIN. I agree with the Senator. We must tackle this issue head-on and make sure all stakeholders are working together to combat this challenge.

Mr. LAUTENBERG. Experts estimate that much more funding is needed for research on WNS. Accordingly, I filed an important amendment to this bill, amendment No. 2476, to shift \$1.4 million in additional funding to WNS research. My amendment would not put any other projects or programs at risk, and it would provide critical resources to fight this disease. I ask for the chairman's assurance that she will work in conference to implement my amendment.

Mrs. FEINSTEIN. As I mentioned earlier, I share the Senator's concerns and agree that we need to focus more attention and resources on WNS. I commit to work in conference to increase funding for this disease as called for in his amendment.

#### CLEAN AUTOMOTIVE TECHNOLOGY

Mr. LEVIN. Mr. President, I want to bring to the attention of the distinguished chair of the Appropriations Subcommittee on Interior, Environment and Related Agencies a very important program in my State. The Environmental Protection Agency's National Vehicle and Fuel Emissions Laboratory in Ann Arbor, MI, leads EPA's Clean Automotive Technology Program by facilitating collaboration with the automotive industry through innovative research to achieve ultra low-pollution emissions, increase fuel efficiency and reduce greenhouse gases.

One of the programs that has been developed collaboratively through the Ann Arbor laboratory and its industry partners is the hydraulic hybrid technology which has come out of the laboratory's focus areas in hydraulic hybrid research, engine research, alternative fuels research and technical and analytical support. This technology offers potential to reduce greenhouse gas emissions by 50 percent.

The President's fiscal year 2010 budget increases the Climate Protection Program line in EPA's budget, which includes this facility, and I appreciate the subcommittee's concurrence with the request in the bill before the Senate.

It is my understanding that the version of the bill adopted by the House of Representatives provides an additional \$1.6 million over the fiscal year 2010 budget request. Is that also the understanding of the Senator from California?

Mrs. FEINSTEIN. The Senator is correct. The President's budget proposed \$18.975 million for the Climate Protection Program, and that is the same amount proposed in this bill. The House of Representatives approved \$20.575 million.

Mr. LEVIN. I hope to provide additional funding for this program in order to fund a demonstration program to deploy hybrid hydraulic technology in larger fleet vehicles, such as school buses. Demonstration of this hybrid hydraulic technology, through its incorporation into a fleet of school buses,

would not only bring these fuel-efficient and environmentally friendly technologies closer to wide-scale viability and acceptance but also provide EPA with important data to support its work in developing achievable standards for fuel economy and greenhouse gas emissions.

As the conference committee considers the differences between the House and Senate bills, I am hopeful that the additional \$1.6 million included in the House bill will be maintained and that serious consideration will be given to directing this funding to demonstration of the hybrid hydraulic technology I have described.

Mrs. FEINSTEIN. I appreciate the Senator from Michigan bringing this to my attention and I assure him that I will keep his suggestions in mind as this bill progresses.

Mr. LEVIN. I thank the distinguished Senator.

NEW YORK'S NORTHEASTERN STATES RESEARCH  
COOPERATIVE FUNDING

Mrs. FEINSTEIN. I would like to enter into a colloquy with my colleague from New York.

Mrs. GILLIBRAND. I thank the chairman for entering into a colloquy with me and for her hard work on this bill. I want to discuss the need to add New York to the list of States included for Northeastern States Research Cooperative Funding.

The Northeastern States Research Cooperative, NSRC, was originally authorized by Congress in the Forest and Rangeland Renewable Resources Research Act of 1978 and is managed by the U.S. Forest Service. The clear intent of Congress in creating the NSRC was to fund a competitive grants research program shared by the four states of the cooperative, New Hampshire, Vermont, Maine and New York.

The original intent of Congress was to have all four States jointly funded by the enacted authorization of this act. Unfortunately, New York has been left out of the Forest Service budget requests this year.

Funding through this cooperative will maintain critical forestry research programs in New York State. For instance, the State University of New York, College of Environmental Science and Forestry has received funding through this program in the past that has provided research, technology transfer and outreach to coordinate and improve ecological and economic vitality of the northeastern forests of New York, Vermont, New Hampshire and Maine.

The NSRC's research is critical to the economic vitality of and quality-of-life in the 18.5 million acres of the New York's forested land.

Mrs. FEINSTEIN. I would like to thank my colleague for bringing this to my attention and I will certainly look into this matter during conference negotiations.

Mrs. GILLIBRAND. I thank the chairman for her help and for her leadership.

Mr. UDALL of New Mexico. Mr. President, I would like to correct the record regarding some recent remarks of Senator TOM COBURN of Oklahoma regarding offshore drilling. Senator COBURN stated in today's debate that I "voted against an opportunity to expand offshore exploration yesterday."

First, the Senator's comments are somewhat confusing because there were no votes yesterday that would have opened up even one acre of our offshore public lands to oil exploration. Instead, I believe that Senator COBURN may have been referring to yesterday's motion to recommit by Senator VITTER of Louisiana.

I opposed the Vitter motion yesterday because it was counter-productive. By using political interference in offshore permitting, it would have actually created serious delays. Supporters of the Vitter motion talked about their desire to expand offshore oil drilling, but the motion set up major legal obstacles to developing our natural resources.

The motion was vaguely drafted, but it could have blocked funding from being used to review the over 300,000 public comments received. The motion also could have blocked the Secretary from considering facts and scientific evidence regarding the decision he needs to make.

I opposed the Vitter motion because the only way that we can legally access our public lands for natural resources is by due process. If we block the Department of Interior from following due process, that only serves to delay the process with litigation.

Mr. HATCH. Mr. President, I rise today to discuss an amendment I filed to the Interior appropriations bill, and in doing so, I hope to remind my colleagues about their responsibility as federally elected representatives of the citizens of the United States. The U.S. Constitution, the document written by the people to empower and limit government, specifically gives the Congress the power to make the laws that direct this government. The first section of the first article of the Constitution states "All legislative Powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives." The people also established an executive power and a judicial power, but put the lawmaking power specifically into the hands of Congress.

I would invite my colleagues to consider for a moment, and to remind themselves, why the people put the control of the Nation's laws into the hands of Congress, and not to the other branches of government. It is because Congress is directly answerable to the people. For members of Congress, there

is no escape from the people. Our founding document ensures that we routinely have elections whereby law-makers face the citizens who sent them here. By limiting legislative powers to Congress, the people have secured this power to themselves. So we see that the people are willing to live under laws, but only to the extent that those laws are their own.

This is a principle upon which our Nation was founded. This is a principle upon which we have achieved our status as a great nation. It is a principle that has made our government an inspiration to generations of free minds throughout the world. And I believe it is a principle that is being weakened on our watch during the 111th Congress.

In April of 2007, the Supreme Court ruled in *Massachusetts v. EPA*, by a 5 to 4 margin, that the Environmental Protection Agency could act to regulate carbon dioxide emissions as a pollutant from vehicles under the Clean Air Act without further authorization from Congress. And it is widely believed that this decision allows the EPA to also regulate carbon dioxide emissions from all other sources, as well, without further action from Congress.

I disagree with the Supreme Court's decision in *Massachusetts v. EPA* and even consider it ill-informed in some respects. However, I don't question the role of the Court to make such a decision. After all, the people did, in fact, give the Supreme Court the jurisdiction to interpret the laws of Congress.

Furthermore, I disagree with the EPA's finding that carbon dioxide poses an endangerment to humans and that it is a pollutant. Unlike conventional pollutants, CO<sub>2</sub> does not normally cause direct harm to our environment or to our bodies. It is considered an endangerment only because it has the potential as a greenhouse gas to warm the planet. What seems to be completely lost by the EPA, is that most scientists will tell you that a warming climate is a net benefit, while a cooling climate is a net detriment to life on Earth.

If greenhouse gases and warming are detrimental to life, then why doesn't the EPA propose to regulate water vapor? Water vapor makes up 95 percent of all greenhouse gases, and a cubic foot of water vapor has a much stronger warming factor than a cubic foot of carbon dioxide?

Those are just a couple questions that haven't been answered sufficiently, in my view. And so I disagree with the EPA's finding that carbon dioxide is an endangerment. In spite of that, I do recognize that the Supreme Court has the ability to interpret the Clean Air Act in a way that allows the EPA to make this finding.

However, I doubt that any of my colleagues can honestly say that when Congress voted for the Clean Air Act in

1970, that we intended that carbon dioxide should be regulated as a pollutant. But now we are witnessing the EPA initiating a process to that end which will lead to the most sweeping, and probably most expensive set of regulations in our nation's history, with no specific authorization from Congress to do so.

Is it the proper role of Congress to sit by and allow an independent agency, with nary an elected official within its walls to take over every single energy producing activity in the Nation? Could there be a more dramatic and sweeping centralization of government power than the move to control all carbon dioxide emissions? And are we, as the elected body representing the people going to hide behind a decision by a Supreme Court and just watch it happen? While technically, the Supreme Court and the EPA are acting within their jurisdictions and authority. Certainly, though, with such far reaching regulations, Congress has a responsibility to put these actions back under the direct authority of Congress, and thus back into the hands of the people.

My amendment would do just that. It would bar the EPA from moving forward with these far reaching regulations until Congress has expressly authorized such an action. I urge my colleagues to restore Congress and the people to their proper role over laws that relate to the regulation of carbon dioxide, and support my amendment.

Mr. AKAKA. Mr. President, I rise today to speak in support of the fiscal year 2010 Department of the Interior, Environment, and Related Agencies Appropriations Act. I wish to thank subcommittee Chairman FEINSTEIN and Ranking Member ALEXANDER, as well as committee Chairman INOUE and Vice Chairman COCHRAN, for their work on this bill.

This bill will fund important programs at the Environmental Protection Agency, Department of the Interior, Indian Health Service, Forest Service, Smithsonian Institution, National Endowment for the Arts, and National Endowment for the Humanities. Consequently, it addresses critical needs related to public lands management, environmental protection, Indian Country, and cultural education. I am pleased with the inclusion of a number of initiatives for which I requested funding and that I believe will be of great benefit to Hawaii and our Nation. Therefore, I am very thankful that my colleagues on the Appropriations Committee recognized the need of these programs and backed them with unanimous committee approval. I would like to take this opportunity to discuss these important initiatives.

The Omnibus Public Lands Management Act of 2009, which was signed into law earlier this year, includes a bill I introduced in the 110th Congress to au-

thorize appropriations for the National Tropical Botanical Garden, NTBG. Chartered by Congress in 1964, the NTBG collects, cultivates, and preserves tropical flora and conducts research in tropical botany. The NTBG's work has advanced disease treatment, world hunger prevention, and medical education. Funding in this appropriations bill will allow the NTBG to continue to help protect, propagate, and study tropical species that could permit additional scientific advances but are threatened with extinction.

The bill will also fund the establishment and construction of a research and education center for the Hawaii Experimental Tropical Forest, HETF. The Hawaii Tropical Forest Recovery Act, which I sponsored and became law in 1992, authorized the establishment of the HETF to be managed as a site for research and education on tropical forestry, conservation biology, and natural resource management. HETF has been home to dozens of research projects since its establishment, and it has been selected as one of the National Science Foundation's 20 core wildland sites of the National Ecological Observatory Network and a site of the Forest Service's Experimental Forest and Range Synthesis Network. Construction of the center will further HETF's mission to improve the conservation and scientific understanding of tropical forests, a natural resource of global significance.

The James Campbell National Wildlife Refuge will receive funding in this bill to help provide for the acquisition of the remaining parcels on Oahu's northern shore to complete the expansion of the Refuge. The expansion would add approximately 1,100 acres and ensure protection of the largest natural coastal wetland and last remaining natural coastal dune ecosystem on Oahu. It is a premier endangered Hawaiian waterbird recovery area and supports four endangered Hawaiian waterbirds and a variety of migratory shorebirds and waterfowl. I was pleased to be an original cosponsor of the 2005 legislation that authorized such expansion and believe that securing the remaining parcels will aid in preserving the wetland's natural flood-water retention function.

In addition, the invasive species management project in Hawaii included in this bill will help to reduce the impact of established invasive species in the State and support ongoing efforts to prevent the introduction of new ones. Hawaii's delicate insular ecosystems are home to over 300 endangered species, which is more than any other State, and the primary factor limiting their recovery and contributing to their decline in Hawaii is the continued presence of ecologically harmful invasive species. Thus, continued vigilance and action is needed to safeguard these species and their habitats, which

are so important both nationally, in terms of biodiversity, and locally, in terms of agriculture, tourism, and culture.

I am also pleased the funding in this appropriations bill that will support the Native Hawaiian Culture and Arts Program, NHCAP, which preserves, supports, revitalizes, and develops Native Hawaiian arts and culture. NHCAP's efforts are focused on assisting Native Hawaiians to be practitioners of their culture and to share knowledge of and celebrate Hawaiian art and culture. NHCAP projects include educational programs, exhibits, publications, and increased access to the Bishop Museum's vast cultural collections of artifacts, documents, and images. These projects foster Native Hawaiian cultural preservation, create important educational opportunities for youth, and promote the sort of understanding necessary in a multicultural nation and increasingly interconnected world.

As population grows on islands with limited freshwater resources, information to evaluate the sustainability of water resources is needed to make informed decisions that balance environmental protection with economic opportunity. The resources that this bill supports for well monitoring and water assessment in my State will enable continued work with stakeholders to provide information on water resources so that they can be managed in a sustainable and legally compliant basis. It will also provide for the operation of stream gauges, which supply data important to signaling flood conditions, improving long-term planning, examining climate change, and measuring water availability and quality.

In all, funding for our national priorities in such areas as environmental protection, Federal lands, and cultural education is complemented in this bill by these six Hawaii programs that drive progress on research, education, planning, and preservation related to natural and cultural resources across my home state for the benefit of my constituents and the country as a whole. Again, I thank my colleagues for their support of these initiatives and urge continued support in conference.

Mr. LEVIN. Mr. President, I will vote for this bill to provide \$32 billion in funding for a variety of important environmental and infrastructure purposes. This bill would provide clean drinking water, prevent pollution from contaminating our precious natural resources, clean up hazardous waste sites, protect lands for habitat preservation and recreation, improve vehicle efficiency, and help restore the Great Lakes.

I am pleased this bill includes \$400 million for Great Lakes restoration and protection efforts through a new effort called the Great Lakes Restoration Initiative, GLRI. The GLRI is a

multiagency effort to address the array of current and historic threats facing the Great Lakes including invasive aquatic species, nonpoint source pollution, and contaminated sediment.

While I appreciate the significant investment in the Great Lakes, I have encouraged the bill managers to provide the full funding requested for the GLRI. The President requested \$475 million for the GLRI, and the Environmental Protection Agency has prepared a spending plan for the full funding. Full funding is needed now and would be well spent.

A 2003 GAO report on Great Lakes federal restoration programs stated: "Despite early success in improving conditions in the Great Lakes Basin, significant environmental challenges remain, including increased threats from invasive species and cleanup of areas contaminated with toxic substances that pose human health threats." More recently, scientists report that the Great Lakes are exhibiting signs of stress due to a combination of sources, including toxic contaminants, invasive species, nutrient loading, shoreline and upland land use changes, and changes to how water flows. A 2005 report from a group of Great Lakes scientific experts states that "historical sources of stress have combined with new ones to reach a tipping point, the point at which ecosystem-level changes occur rapidly and unexpectedly, confounding the traditional relationships between sources of stress and the expected ecosystem response."

The Great Lakes are a unique American treasure. We must recognize that we are only their temporary stewards. If Congress does not act to keep pace with the needs of the lakes, and the tens of millions of Americans dependent upon them and affected by their condition, the problems will continue to build and we may start to undo some of the important work that has already been done and is underway. We must be good stewards by providing the resources that the Federal Government needs to meet its ongoing obligation to protect and restore the Great Lakes. This bill will help us meet that great responsibility to future generations.

Importantly, the bill would provide \$1.4 billion to capitalize the Drinking Water State Revolving Fund and \$2.1 billion for the Clean Water State Revolving Fund for wastewater projects. The funding in the Senate bill more than doubles the amount provided in the fiscal year 2009 bill. I had urged appropriators to provide this increase because Michigan's water infrastructure needs are sizable. Michigan would receive about \$41 million for drinking water and \$88 million for wastewater projects, protecting public health, improving the environment, and creating a stronger economic climate.

I am also pleased this bill provides \$2.7 billion for our National Park Serv-

ice, an increase of \$200 million from last year's level, which I supported. Michigan has six national park units, and this funding would help ensure these resources are adequately maintained and protected. The national parks have been struggling for years with inadequate funding and large maintenance and construction backlogs. This funding would help meet these needs so that our Nation's natural and cultural heritage is preserved. Over a million people visited Michigan's national parks last year, and it is important that visitors find our parks in good condition and that we do the same for future generations.

I am pleased to see this bill includes the President's fiscal year 2010 budget request for the Environmental Protection Agency's Climate Protection Program, which includes the Clean Automotive Technology Program. EPA's National Vehicle and Fuel Emissions Laboratory in Ann Arbor, MI, leads the Clean Automotive Technology Program by facilitating collaboration with the automotive industry through innovative research to achieve ultra low-pollution emissions, increase fuel efficiency and reduce greenhouse gases. An example of the work done collaboratively through this program at the Ann Arbor laboratory with its industry partners is development of hydraulic hybrid technology that offers potential to reduce greenhouse gas emissions by 50 percent. The House bill includes an additional \$1.6 million for the Climate Protection Program, and I am hopeful this additional funding will be maintained in conference and that serious consideration will be given to directing this funding to deployment of hybrid hydraulic technology in larger fleet vehicles, such as schoolbuses.

Mr. President, this appropriations bill would protect our natural resources and the Great Lakes in particular, provide communities with safe drinking water and wastewater infrastructure, improve fuel efficiency and reduce greenhouse gases, and protect and improve public lands and parks, and I support its passage.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. REID. Mr. President, my understanding is that the next vote will be final passage on the Interior appropriations bill. I want to alert all Members and give them kind of a suggestion of what the schedule is going to be.

First of all, people are asking about the Finance Committee. I have spoken to Chairman BAUCUS. The Finance Committee is going to work late tonight. They are going to come in in the morning and work, and then they will make a decision how long they are going to work tomorrow and whether they go into the weekend.

The next item of business will be the Department of Defense appropriations bill. Tonight will be debate only. There

will be no votes on Friday. The Defense appropriations managers will be here for amendments and debate.

This is one of the most important bills we deal with every year. There will be no votes on Monday. It is one of the high holidays, Yom Kippur. The Defense managers will be here to continue consideration of the bill. We are not going to be in session on Monday, not on the holiday. I do not think that would be appropriate. People are traveling that day. I do not think it is fair.

There will be votes on Tuesday. It will be like a regular Monday. There will be no votes before 5:30. I would hope if people have amendments on this Defense bill they will lay them down. We want to move on this as quickly as possible. We know there are lots of important subjects people want to talk about.

Wednesday, September 30, is the end of the fiscal year. We have a number of things we must do before the end of the fiscal year. We are going to have a CR. We have to extend FAA authority and other issues. All of the chairmen and ranking members know what they are and we have discussed them on the Senate floor.

Next week will be an extremely busy week. I am hopeful in the next few days the Finance Committee will complete their work on the Finance health care bill, and I hope we do not have to do anything dealing with reconciliation on that. We have made progress this week.

Members this week working on this bill have been very cooperative. We have two wonderful managers on this Interior appropriations bill. They have worked well together and done a good job.

Mrs. FEINSTEIN. Before you call the roll, I just want to thank the distinguished ranking member. A lot of cooperation went into this bill or it would have taken a lot longer.

I thank particularly the staff: Peter Kiefhaber, Virginia James, Scott Dalzell, Rachael Taylor, Chris Watkins; on the Republican side, Lee Fennesbeck, Rachelle Schroeder, and Rebecca Benn. We thank you very much.

The PRESIDING OFFICER. The Senator from Tennessee.

Mr. ALEXANDER. In 60 seconds I would like to thank Chairman FEINSTEIN for being so accommodating working with Republican Members. I would like to thank my colleagues for moving this bill along. Senators COCHRAN, INOUE, REID, and MCCONNELL have been terrific. The staff members, Peter and Rachael and Scott; on our side, Leif and Rachelle and Rebecca. We thank you for your hard work.

The PRESIDING OFFICER. Under the previous order, the committee substitute, as amended, is agreed to.

Mr. INHOFE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AMENDMENT NO. 2445

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that Inhofe amendment No. 2445 be in order.

The PRESIDING OFFICER. Notwithstanding the adoption of the substitute, the clerk will report.

The legislative clerk read as follows:

The Senator from Oklahoma [Mr. INHOFE] proposes an amendment numbered 2445.

Mrs. FEINSTEIN. This amendment has been cleared on both sides. I ask unanimous consent the amendment be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2445) was agreed to, as follows:

#### AMENDMENT NO. 2445

(Purpose: To provide for the expedited cleanup of the Tar Creek Superfund Site)

On page 240, between lines 13 and 14, insert the following:

#### SEC. 423. TAR CREEK SUPERFUND SITE.

(a) IN GENERAL.—To expedite the cleanup of the Federal land and Indian land at the Tar Creek Superfund Site (referred to in this section as the “site”), any purchase of chat (as defined in section 278.1(b) of title 40, Code of Federal Regulations (or a successor regulation)), from the site shall be—

(1) counted at twice the purchase price of the chat; and

(2) eligible to be counted toward meeting the federally required disadvantaged business enterprise set-aside on federally funded projects.

(b) RESTRICTED INDIAN OWNERS.—Subsection (a) shall only apply if the purchase of chat is made from 1 or more restricted Indian owners or an Indian tribe.

(c) APPLICABLE LAW.—The use of chat acquired under subsection (a) shall conform with applicable laws (including the regulations for the use of chat promulgated by the Administrator of the Environmental Protection Agency).

The PRESIDING OFFICER. The question is on the engrossment of the committee amendment in the nature of a substitute, as amended, and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill pass?

Mr. MENENDEZ. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) is necessarily absent.

The PRESIDING OFFICER. Are there are other Senators in the Chamber desiring to vote?

The result was announced—yeas 77, nays 21, as follows:

[Rollcall Vote No. 298 Leg.]

#### YEAS—77

#### NOT VOTING—1

Byrd

The bill (H.R. 2996), as amended, was passed, as follows:

(The bill will be printed in a future edition of the RECORD.)

Mr. REID. I move to reconsider the vote and to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER appointed Senators Mrs. FEINSTEIN, Mr. BYRD, Mr. LEAHY, Mr. DORGAN, Ms. MIKULSKI, Mr. KOHL, Mr. JOHNSON, Mr. REED, Mr. NELSON of Nebraska, Mr. TESTER, Mr. INOUE, Mr. ALEXANDER, Mr. COCHRAN, Mr. BENNETT, Mr. GREGG, Ms. MURKOWSKI, Ms. COLLINS, and Mr. BOND conferees on the part of the Senate.

#### ENHANCED PARTNERSHIP WITH PAKISTAN ACT OF 2009

Mr. DORGAN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. 1707, introduced earlier today.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 1707) to authorize appropriations for fiscal year 2010 through 2014 to promote an enhanced strategic partnership with Pakistan and its people, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. DORGAN. Mr. President, I ask unanimous consent that the bill be read three times and passed, the motions to reconsider be laid upon the table, with no intervening action or debate, and any statements related to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 1707) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

#### S. 1707

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Enhanced Partnership with Pakistan Act of 2009”.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

- Sec. 1. Short title; table of contents.
- Sec. 2. Definitions.
- Sec. 3. Findings.
- Sec. 4. Statement of principles.

#### TITLE I—DEMOCRATIC, ECONOMIC, AND DEVELOPMENT ASSISTANCE FOR PAKISTAN

- Sec. 101. Authorization of assistance.
- Sec. 102. Authorization of appropriations.
- Sec. 103. Auditing.

#### TITLE II—SECURITY ASSISTANCE FOR PAKISTAN

- Sec. 201. Purposes of assistance.
- Sec. 202. Authorization of assistance.
- Sec. 203. Limitations on certain assistance.
- Sec. 204. Pakistan Counterinsurgency Capability Fund.
- Sec. 205. Requirements for civilian control of certain assistance.

#### TITLE III—STRATEGY, ACCOUNTABILITY, MONITORING, AND OTHER PROVISIONS

- Sec. 301. Strategy Reports.
- Sec. 302. Monitoring Reports.

#### SEC. 2. DEFINITIONS.

In this Act:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—Except as otherwise provided in this Act, the term “appropriate congressional committees” means the Committees on Appropriations and Foreign Relations of the Senate and the Committees on Appropriations and Foreign Affairs of the House of Representatives.

(2) COUNTERINSURGENCY.—The term “counterinsurgency” means efforts to defeat organized movements that seek to overthrow the duly constituted Governments of Pakistan and Afghanistan through violent means.

(3) COUNTERTERRORISM.—The term “counterterrorism” means efforts to combat al Qaeda and other foreign terrorist organizations that are designated by the Secretary of State in accordance with section 219 of the Immigration and Nationality Act (8 U.S.C. 1189), or other individuals and entities engaged in terrorist activity or support for such activity.

(4) FATA.—The term “FATA” means the Federally Administered Tribal Areas of Pakistan.

(5) FRONTIER CRIMES REGULATION.—The term “Frontier Crimes Regulation” means the Frontier Crimes Regulation, codified under British law in 1901, and applicable to the FATA.

(6) IMPACT EVALUATION RESEARCH.—The term “impact evaluation research” means

the application of research methods and statistical analysis to measure the extent to which change in a population-based outcome can be attributed to program intervention instead of other environmental factors.

(7) **MAJOR DEFENSE EQUIPMENT.**—The term “major defense equipment” has the meaning given the term in section 47(6) of the Arms Export Control Act (22 U.S.C. 2794(6)).

(8) **NWFP.**—The term “NWFP” means the North West Frontier Province of Pakistan, which has Peshawar as its provincial capital.

(9) **OPERATIONS RESEARCH.**—The term “operations research” means the application of social science research methods, statistical analysis, and other appropriate scientific methods to judge, compare, and improve policies and program outcomes, from the earliest stages of defining and designing programs through their development and implementation, with the objective of the rapid dissemination of conclusions and concrete impact on programming.

(10) **SECURITY FORCES OF PAKISTAN.**—The term “security forces of Pakistan” means the military and intelligence services of the Government of Pakistan, including the Armed Forces, Inter-Services Intelligence Directorate, Intelligence Bureau, police forces, levies, Frontier Corps, and Frontier Constabulary.

(11) **SECURITY-RELATED ASSISTANCE.**—The term “security-related assistance”—

(A) means—

(i) grant assistance to carry out section 23 of the Arms Export Control Act (22 U.S.C. 2763); and

(ii) assistance under chapter 2 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2311 et. seq); but

(B) does not include—

(i) assistance authorized to be appropriated or otherwise made available under any provision of law that is funded from accounts within budget function 050 (National Defense); and

(ii) amounts appropriated or otherwise available to the Pakistan Counterinsurgency Capability Fund established under the Supplemental Appropriations Act, 2009 (Public Law 111-32).

### SEC. 3. FINDINGS.

Congress finds the following:

(1) The people of the Islamic Republic of Pakistan and the United States share a long history of friendship and comity, and the interests of both nations are well-served by strengthening and deepening this friendship.

(2) Since 2001, the United States has contributed more than \$15,000,000,000 to Pakistan, of which more than \$10,000,000,000 has been security-related assistance and direct payments.

(3) With the free and fair election of February 18, 2008, Pakistan returned to civilian rule, reversing years of political tension and mounting popular concern over military rule and Pakistan's own democratic reform and political development.

(4) Pakistan is a major non-NATO ally of the United States and has been a valuable partner in the battle against al Qaeda and the Taliban, but much more remains to be accomplished by both nations.

(5) The struggle against al Qaeda, the Taliban, and affiliated terrorist groups has led to the deaths of several thousand Pakistani civilians and members of the security forces of Pakistan over the past seven years.

(6) Despite killing or capturing hundreds of al Qaeda operatives and other terrorists—including major al Qaeda leaders, such as Khalid Sheikh Muhammad, Ramzi bin al-Shibh, and Abu Faraj al-Libi—the FATA,

parts of the NWFP, Quetta in Balochistan, and Muridke in Punjab remain a sanctuary for al Qaeda, the Afghan Taliban, the Terikh-e Taliban and affiliated groups from which these groups organize terrorist actions against Pakistan and other countries.

(7) The security forces of Pakistan have struggled to contain a Taliban-backed insurgency, recently taking direct action against those who threaten Pakistan's security and stability, including military operations in the FATA and the NWFP.

(8) On March 27, 2009, President Obama noted, “Multiple intelligence estimates have warned that al Qaeda is actively planning attacks on the United States homeland from its safe-haven in Pakistan.”

(9) According to a Government Accountability Office report (GAO-08-622), “since 2003, the [A]dministration's national security strategies and Congress have recognized that a comprehensive plan that includes all elements of national power—diplomatic, military, intelligence, development assistance, economic, and law enforcement support—was needed to address the terrorist threat emanating from the FATA” and that such a strategy was also mandated by section 7102(b)(3) of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108-458; 22 U.S.C. 2656f note) and section 2042(b)(2) of the Implementing the Recommendations of the 9/11 Commission Act of 2007 (Public Law 110-53; 22 U.S.C. 2375 note).

(10) During 2008 and 2009, the people of Pakistan have been especially hard hit by rising food and commodity prices and severe energy shortages, with ¾ of the population living on less than \$2 a day and ¾ of the population living below the poverty line according to the United Nations Development Program.

(11) Economic growth is a fundamental foundation for human security and national stability in Pakistan, a country with more than 175,000,000 people, an annual population growth rate of two percent, and a ranking of 136 out of 177 countries in the United Nations Human Development Index.

(12) The 2009 Pakistani military offensive in the NWFP and the FATA displaced millions of residents in one of the gravest humanitarian crises Pakistan has faced, and despite the heroic efforts of Pakistanis to respond to the needs of the displaced millions and facilitate the return of many, it has highlighted the need for Pakistan to develop an effective national counterinsurgency strategy.

### SEC. 4. STATEMENT OF PRINCIPLES.

Congress declares that the relationship between the United States and Pakistan should be based on the following principles:

(1) Pakistan is a critical friend and ally to the United States, both in times of strife and in times of peace, and the two countries share many common goals, including combating terrorism and violent radicalism, solidifying democracy and rule of law in Pakistan, and promoting the social and economic development of Pakistan.

(2) United States assistance to Pakistan is intended to supplement, not supplant, Pakistan's own efforts in building a stable, secure, and prosperous Pakistan.

(3) The United States requires a balanced, integrated, countrywide strategy for Pakistan that provides assistance throughout the country and does not disproportionately focus on security-related assistance or one particular area or province.

(4) The United States supports Pakistan's struggle against extremist elements and recognizes the profound sacrifice made by Paki-

stan in the fight against terrorism, including the loss of more than 1,900 soldiers and police since 2001 in combat with al Qaeda, the Taliban, and other extremist and terrorist groups.

(5) The United States intends to work with the Government of Pakistan—

(A) to build mutual trust and confidence by actively and consistently pursuing a sustained, long-term, multifaceted relationship between the two countries, devoted to strengthening the mutual security, stability, and prosperity of both countries;

(B) to support the people of Pakistan and their democratic government in their efforts to consolidate democracy, including strengthening Pakistan's parliament, helping Pakistan reestablish an independent and transparent judicial system, and working to extend the rule of law in all areas in Pakistan;

(C) to promote sustainable long-term development and infrastructure projects, including in healthcare, education, water management, and energy programs, in all areas of Pakistan, that are sustained and supported by each successive democratic government in Pakistan;

(D) to ensure that all the people of Pakistan, including those living in areas governed by the Frontier Crimes Regulation, have access to public, modernized education and vocational training to enable them to provide for themselves, for their families, and for a more prosperous future for their children;

(E) to support the strengthening of core curricula and the quality of schools across Pakistan, including madrassas, in order to improve the prospects for Pakistani children's futures and eliminate incitements to violence and intolerance;

(F) to encourage and promote public-private partnerships in Pakistan in order to bolster ongoing development efforts and strengthen economic prospects, especially with respect to opportunities to build civic responsibility and professional skills of the people of Pakistan, including support for institutions of higher learning with international accreditation;

(G) to expand people-to-people engagement between the two countries, through increased educational, technical, and cultural exchanges and other methods;

(H) to encourage the development of local analytical capacity to measure program effectiveness and progress on an integrated basis, especially across the areas of United States assistance and payments to Pakistan, and increase accountability for how such assistance and payments are being spent;

(I) to assist Pakistan's efforts to improve counterterrorism financing and anti-money laundering regulatory structure in order to achieve international standards and encourage Pakistan to apply for “Financial Action Task Force” observer status and adhere to the United Nations International Convention for the Suppression of the Financing of Terrorism;

(J) to strengthen Pakistan's counterinsurgency and counterterrorism strategy to help prevent any territory of Pakistan from being used as a base or conduit for terrorist attacks in Pakistan or elsewhere;

(K) to strengthen Pakistan's efforts to develop strong and effective law enforcement and national defense forces under civilian leadership;

(L) to achieve full cooperation in matters of counter-proliferation of nuclear materials and related networks;

(M) to strengthen Pakistan's efforts to gain control of its under-governed areas and

address the threat posed by any person or group that conducts violence, sabotage, or other terrorist activities in Pakistan or its neighboring countries; and

(N) to explore means to consult with and utilize the relevant expertise and skills of the Pakistani-American community.

# **TITLE I—DEMOCRATIC, ECONOMIC, AND DEVELOPMENT ASSISTANCE FOR PAKISTAN**

## **SEC. 101. AUTHORIZATION OF ASSISTANCE.**

(a) IN GENERAL.—The President is authorized to provide assistance to Pakistan—

(1) to support the consolidation of democratic institutions;

(2) to support the expansion of rule of law, build the capacity of government institutions, and promote respect for internationally-recognized human rights;

(3) to promote economic freedoms and sustainable economic development;

(4) to support investment in people, including those displaced in on-going counterinsurgency operations; and

(5) to strengthen public diplomacy.

(b) ACTIVITIES SUPPORTED.—Activities that may be supported by assistance under subsection (a) include the following:

(1) To support democratic institutions in Pakistan in order to strengthen civilian rule and long-term stability, including assistance such as—

(A) support for efforts to strengthen Pakistan's institutions, including the capacity of the National Parliament of Pakistan, such as enhancing the capacity of committees to oversee government activities, including national security issues, enhancing the ability of members of parliament to respond to constituents, and supporting of parliamentary leadership;

(B) support for voter education and civil society training as well as appropriate support for political party capacity building and responsiveness to the needs of all the people of Pakistan; and

(C) support for strengthening the capacity of the civilian Government of Pakistan to carry out its responsibilities at the national, provincial, and local levels.

(2) To support Pakistan's efforts to expand rule of law, build the capacity, transparency, and trust in government institutions, and promote internationally recognized human rights, including assistance such as—

(A) supporting the establishment of frameworks that promote government transparency and criminalize corruption in both the government and private sector;

(B) support for police professionalization, including training regarding use of force, human rights, and community policing;

(C) support for independent, efficient, and effective judicial and criminal justice systems, such as case management, training, and efforts to enhance the rule of law to all areas in Pakistan;

(D) support for the implementation of legal and political reforms in the FATA;

(E) support to counter the narcotics trade;

(F) support for internationally recognized human rights, including strengthening civil society and nongovernmental organizations working in the area of internationally recognized human rights, as well as organizations that focus on protection of women and girls, promotion of freedom of religion and religious tolerance, and protection of ethnic or religious minorities; and

(G) support for promotion of a responsible, capable, and independent media.

(3) To support economic freedom and economic development in Pakistan, including—

(A) programs that support sustainable economic growth, including in rural areas, and the sustainable management of natural resources through investments in water resource management systems;

(B) expansion of agricultural and rural development, such as farm-to-market roads, systems to prevent spoilage and waste, and other small-scale infrastructure improvements;

(C) investments in energy, including energy generation and cross-border infrastructure projects with Afghanistan;

(D) employment generation, including increasing investment in infrastructure projects, including construction of roads and the continued development of a national aviation industry and aviation infrastructure, as well as support for small and medium enterprises;

(E) worker rights, including the right to form labor unions and legally enforce provisions safeguarding the rights of workers and local community stakeholders;

(F) access to microfinance for small business establishment and income generation, particularly for women; and

(G) countering radicalization by providing economic, social, educational, and vocational opportunities and life-skills training to at-risk youth.

(4) To support investments in people, particularly women and children, including—

(A) promoting modern, public primary and secondary education and vocational and technical training, including programs to assist in the development of modern, nationwide school curriculums for public, private, and religious schools; support for the proper oversight of all educational institutions, including religious schools, as required by Pakistani law; initiatives to enhance access to education and vocational and technical training for women and girls and to increase women's literacy, with a special emphasis on helping girls stay in school; and construction and maintenance of libraries and public schools;

(B) programs relating to higher education to ensure a breadth and consistency of Pakistani graduates, including through public-private partnerships;

(C) improving quality public health to eliminate diseases such as hepatitis and to reduce maternal and under-five mortality rates;

(D) building capacity for nongovernmental and civil society organizations, particularly organizations with demonstrated experience in delivering services to the people of Pakistan, particularly to women, children, and other vulnerable populations; and

(E) support for refugees and internally displaced persons and long-term development in regions of Pakistan where internal conflict has caused large-scale displacement.

(5) To strengthen public diplomacy to combat militant extremism and promote a better understanding of the United States, including—

(A) encouraging civil society, respected scholars, and other leaders to speak out against militancy and violence; and

(B) expanded exchange activities under the Fulbright Program, the International Visitor Leadership Program, the Youth Exchange and Study Program, and related programs administered by the Department of State designed to promote mutual understanding and interfaith dialogue and expand sister institution programs between United States and Pakistani schools and universities.

(c) ADDITIONAL AND RELATED ACTIVITIES.—

(1) AVAILABILITY OF AMOUNTS FOR PAKISTANI POLICE PROFESSIONALIZATION, EQUIPPING, AND TRAINING.—Not less than \$150,000,000 of the amounts appropriated for fiscal year 2010 pursuant to the authorization of appropriations under section 102 should be made available for assistance to Pakistan under this section for police professionalization, equipping, and training.

(2) AVAILABILITY OF AMOUNTS FOR ADMINISTRATIVE EXPENSES.—Up to \$10,000,000 of the amounts appropriated for each fiscal year pursuant to the authorization of appropriations under section 102 may be made available for administrative expenses of civilian departments and agencies of the United States Government in connection with the provision of assistance under this section. Such amounts shall be in addition to amounts otherwise available for such purposes.

(3) UTILIZING PAKISTANI ORGANIZATIONS.—The President is encouraged, as appropriate, to utilize Pakistani firms and community and local nongovernmental organizations in Pakistan, including through host country contracts, and to work with local leaders to provide assistance under this section.

(4) USE OF DIRECT EXPENDITURES.—Amounts appropriated for each fiscal year pursuant to the authorization of appropriations under section 102 or otherwise made available to carry out this section shall be utilized to the maximum extent possible as direct expenditures for projects and programs, subject to existing reporting and notification requirements.

(5) CHIEF OF MISSION FUND.—Of the amounts appropriated for each fiscal year pursuant to the authorization of appropriations under section 102, up to \$5,000,000 may be used by the Secretary of State to establish a fund for use by the Chief of Mission in Pakistan to provide assistance to Pakistan under this title or the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.) to address urgent needs or opportunities, consistent with the purposes of this section, or for purposes of humanitarian relief. The fund established pursuant to this paragraph may be referred to as the "Chief of Mission Fund".

(6) SENSE OF CONGRESS.—It is the sense of Congress that—

(A) the United States should provide robust assistance to the people of Pakistan who have been displaced as a result of ongoing conflict and violence in Pakistan and support international efforts to coordinate assistance to refugees and internally displaced persons in Pakistan, including by providing support to international and nongovernmental organizations for this purpose;

(B) the Administrator of the United States Agency for International Development should support the development objectives of the Refugee Affected and Host Areas (RAHA) Initiative in Pakistan to address livelihoods, health, education, infrastructure development, and environmental restoration in identified parts of the country where Afghan refugees have lived; and

(C) the United States should have a coordinated, strategic communications strategy to engage the people of Pakistan and to help ensure the success of the measures authorized by this title.

(d) NOTIFICATION.—For fiscal years 2010 through 2014, the President shall notify the appropriate congressional committees not later than 15 days before obligating any assistance under this section as budgetary support to the Government of Pakistan or any element of the Government of Pakistan and

shall include in such notification a description of the purpose and conditions attached to any such budgetary support.

#### SEC. 102. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated to the President, for the purposes of providing assistance to Pakistan under this title and to provide assistance to Pakistan under the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.), up to \$1,500,000,000 for each of the fiscal years 2010 through 2014.

(b) AVAILABILITY OF FUNDS.—

(1) IN GENERAL.—Of the amounts appropriated in each fiscal year pursuant to the authorization of appropriations in subsection (a)—

(A) none of the amounts appropriated for assistance to Pakistan may be made available after the date that is 60 days after the date of the enactment of this Act unless the Pakistan Assistance Strategy Report has been submitted to the appropriate congressional committees pursuant to section 301(a); and

(B) not more than \$750,000,000 may be made available for assistance to Pakistan unless the President's Special Representative to Afghanistan and Pakistan submits to the appropriate congressional committees during such fiscal year—

(i) a certification that assistance provided to Pakistan under this title or the Foreign Assistance Act of 1961 to date has made or is making reasonable progress toward achieving the principal objectives of United States assistance to Pakistan contained in the Pakistan Assistance Strategy Report; and

(ii) a memorandum explaining the reasons justifying the certification described in clause (i).

(2) MAKER OF CERTIFICATION.—In the event of a vacancy in, or the termination of, the position of the President's Special Representative to Afghanistan and Pakistan, the certification and memorandum described under paragraph (1)(B) may be made by the Secretary of State.

(c) WAIVER.—The Secretary of State may waive the limitations in subsection (b) if the Secretary determines, and certifies to the appropriate congressional committees, that it is in the national security interests of the United States to do so.

(d) SENSE OF CONGRESS ON FOREIGN ASSISTANCE FUNDS.—It is the sense of Congress that, subject to an improving political and economic climate in Pakistan, there should be authorized to be appropriated up to \$1,500,000,000 for each of the fiscal years 2015 through 2019 for the purpose of providing assistance to Pakistan under the Foreign Assistance Act of 1961.

#### SEC. 103. AUDITING.

(a) ASSISTANCE AUTHORIZED.—The Inspector General of the Department of State, the Inspector General of the United States Agency for International Development, and the inspectors general of other Federal departments and agencies (other than the Inspector General of the Department of Defense) carrying out programs, projects, and activities using amounts appropriated to carry out this title shall audit, investigate, and oversee the obligation and expenditure of such amounts.

(b) AUTHORIZATION FOR IN-COUNTRY PRESENCE.—The Inspector General of the Department of State and the Inspector General of the United States Agency for International Development, after consultation with the Secretary of State and the Administrator of the United States Agency for International Development, are authorized to establish field offices in Pakistan with sufficient staff

from each of the Offices of the Inspector General, respectively, to carry out subsection (a).

(c) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—Of the amounts authorized to be appropriated under section 102 for each of the fiscal years 2010 through 2014, up to \$30,000,000 for each fiscal year is authorized to be made available to carry out this section.

(2) RELATION TO OTHER AVAILABLE FUNDS.—Amounts made available under paragraph (1) are in addition to amounts otherwise available for such purposes.

### TITLE II—SECURITY ASSISTANCE FOR PAKISTAN

#### SEC. 201. PURPOSES OF ASSISTANCE.

The purposes of assistance under this title are—

(1) to support Pakistan's paramount national security need to fight and win the ongoing counterinsurgency within its borders in accordance with its national security interests;

(2) to work with the Government of Pakistan to improve Pakistan's border security and control and help prevent any Pakistani territory from being used as a base or conduit for terrorist attacks in Pakistan, or elsewhere;

(3) to work in close cooperation with the Government of Pakistan to coordinate action against extremist and terrorist targets; and

(4) to help strengthen the institutions of democratic governance and promote control of military institutions by a democratically elected civilian government.

#### SEC. 202. AUTHORIZATION OF ASSISTANCE.

(a) INTERNATIONAL MILITARY EDUCATION AND TRAINING.—

(1) IN GENERAL.—There are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2010 through 2014 for assistance under chapter 5 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2347 et seq.; relating to international military education and training) for Pakistan, including expanded international military education and training (commonly known as "E-IMET").

(2) USE OF FUNDS.—It is the sense of Congress that a substantial amount of funds made available to carry out this subsection for a fiscal year should be used to pay for courses of study and training in counterinsurgency and civil-military relations.

(b) FOREIGN MILITARY FINANCING PROGRAM.—

(1) IN GENERAL.—There are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2010 through 2014 for grant assistance under section 23 of the Arms Export Control Act (22 U.S.C. 2763; relating to the Foreign Military Financing program) for the purchase of defense articles, defense services, and military education and training for Pakistan.

(2) USE OF FUNDS.—

(A) IN GENERAL.—A significant portion of the amount made available to carry out this subsection for a fiscal year shall be for the purchase of defense articles, defense services, and military education and training for activities relating to counterinsurgency and counterterrorism operations in Pakistan.

(B) SENSE OF CONGRESS.—It is the sense of Congress that a significant majority of funds made available to carry out this subsection for a fiscal year should be used for the purpose described in subparagraph (A).

(3) ADDITIONAL AUTHORITY.—Except as provided in sections 3 and 102 of the Arms Export Control Act, the second section 620J of

the Foreign Assistance Act of 1961 (as added by Public Law 110-161), and any provision of an Act making appropriations for the Department of State, foreign operations, and related programs that restricts assistance to the government of any country whose duly elected head of government is deposed by military coup or decree, and except as otherwise provided in this title, amounts authorized to be made available to carry out paragraph (2) for fiscal years 2010 and 2011 are authorized to be made available notwithstanding any other provision of law.

(4) DEFINITIONS.—In this section, the terms "defense articles", "defense services", and "military education and training" have the meaning given such terms in section 644 of the Foreign Assistance Act of 1961 (22 U.S.C. 2403).

(c) SENSE OF CONGRESS.—It is the sense of Congress that the United States should facilitate Pakistan's establishment of a program to provide reconstruction assistance, including through Pakistan's military as appropriate, in areas damaged by combat operations.

(d) EXCHANGE PROGRAM BETWEEN MILITARY AND CIVILIAN PERSONNEL OF PAKISTAN AND CERTAIN OTHER COUNTRIES.—

(1) IN GENERAL.—The Secretary of State is authorized to establish an exchange program between—

(A) military and civilian personnel of Pakistan; and

(B)(i) military and civilian personnel of countries determined by the Secretary of State to be in the process of consolidating and strengthening a democratic form of government; or

(ii) military and civilian personnel of North Atlantic Treaty Organization member countries, in order to foster greater mutual respect for and understanding of the principle of civilian rule of the military.

(2) ELEMENTS OF PROGRAM.—The program authorized under paragraph (1) may include conferences, seminars, exchanges, and other events, distribution of publications and reimbursements of expenses of foreign military personnel participating in the program, including transportation, translation and administrative expenses.

(3) ROLE OF NONGOVERNMENTAL ORGANIZATIONS.—Amounts authorized to be appropriated to carry out this section for a fiscal year are authorized to be made available for nongovernmental organizations to facilitate the implementation of the program authorized under paragraph (1).

(4) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2010 through 2014 to carry out the program established by this subsection.

#### SEC. 203. LIMITATIONS ON CERTAIN ASSISTANCE.

(a) LIMITATION ON SECURITY-RELATED ASSISTANCE.—For fiscal years 2011 through 2014, no security-related assistance may be provided to Pakistan in a fiscal year until the Secretary of State, under the direction of the President, makes the certification required under subsection (c) for such fiscal year.

(b) LIMITATION ON ARMS TRANSFERS.—For fiscal years 2012 through 2014, no letter of offer to sell major defense equipment to Pakistan may be issued pursuant to the Arms Export Control Act (22 U.S.C. 2751 et seq.) and no license to export major defense equipment to Pakistan may be issued pursuant to such Act in a fiscal year until the Secretary of State, under the direction of the President, makes the certification required under subsection (c) for such fiscal year.

(c) **CERTIFICATION.**—The certification required by this subsection is a certification by the Secretary of State, under the direction of the President, to the appropriate congressional committees that—

(1) the Government of Pakistan is continuing to cooperate with the United States in efforts to dismantle supplier networks relating to the acquisition of nuclear weapons-related materials, such as providing relevant information from or direct access to Pakistani nationals associated with such networks;

(2) the Government of Pakistan during the preceding fiscal year has demonstrated a sustained commitment to and is making significant efforts towards combating terrorist groups, consistent with the purposes of assistance described in section 201, including taking into account the extent to which the Government of Pakistan has made progress on matters such as—

(A) ceasing support, including by any elements within the Pakistan military or its intelligence agency, to extremist and terrorist groups, particularly to any group that has conducted attacks against United States or coalition forces in Afghanistan, or against the territory or people of neighboring countries;

(B) preventing al Qaeda, the Taliban and associated terrorist groups, such as Lashkar-e-Taiba and Jaish-e-Mohammed, from operating in the territory of Pakistan, including carrying out cross-border attacks into neighboring countries, closing terrorist camps in the FATA, dismantling terrorist bases of operations in other parts of the country, including Quetta and Muridke, and taking action when provided with intelligence about high-level terrorist targets; and

(C) strengthening counterterrorism and anti-money laundering laws; and

(3) the security forces of Pakistan are not materially and substantially subverting the political or judicial processes of Pakistan.

(d) **CERTAIN PAYMENTS.**—

(1) **IN GENERAL.**—Subject to paragraph (2), none of the funds appropriated for security-related assistance for fiscal years 2010 through 2014, or any amounts appropriated to the Pakistan Counterinsurgency Capability Fund established under the Supplemental Appropriations Act, 2009 (Public Law 111-32), may be obligated or expended to make payments relating to—

(A) the Letter of Offer and Acceptance PK-D-YAD signed between the Governments of the United States of America and Pakistan on September 30, 2006;

(B) the Letter of Offer and Acceptance PK-D-NAP signed between the Governments of the United States of America and Pakistan on September 30, 2006; and

(C) the Letter of Offer and Acceptance PK-D-SAF signed between the Governments of the United States of America and Pakistan on September 30, 2006.

(2) **EXCEPTION.**—Funds appropriated for security-related assistance for fiscal years 2010 through 2014 may be used for construction and related activities carried out pursuant to the Letters of Offer and Acceptance described in paragraph (1).

(e) **WAIVER.**—

(1) **IN GENERAL.**—The Secretary of State, under the direction of the President, may waive the limitations contained in subsections (a), (b), and (d) for a fiscal year if the Secretary of State determines that is important to the national security interests of the United States to do so.

(2) **PRIOR NOTICE OF WAIVER.**—The Secretary of State, under the direction of the

President, may not exercise the authority of paragraph (1) until 7 days after the Secretary of State provides to the appropriate congressional committees a written notice of the intent to issue to waive and the reasons therefor. The notice may be submitted in classified or unclassified form, as necessary.

(f) **APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.**—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Foreign Affairs, the Committee on Armed Services, the Committee on Oversight and Government Reform, and the Permanent Select Committee on Intelligence of the House of Representatives; and

(2) the Committee on Foreign Relations, the Committee on Armed Services, and the Select Committee on Intelligence of the Senate.

#### **SEC. 204. PAKISTAN COUNTERINSURGENCY CAPABILITY FUND.**

(a) **FOR FISCAL YEAR 2010.**—

(1) **IN GENERAL.**—For fiscal year 2010, the Department of State’s Pakistan Counterinsurgency Capability Fund established under the Supplemental Appropriations Act, 2009 (Public Law 111-32), hereinafter in this section referred to as the “Fund”, shall consist of the following:

(A) Amounts appropriated to carry out this subsection (which may not include any amounts appropriated to carry out title I of this Act).

(B) Amounts otherwise available to the Secretary of State to carry out this subsection.

(2) **PURPOSES OF FUND.**—Amounts in the Fund made available to carry out this subsection for any fiscal year are authorized to be used by the Secretary of State, with the concurrence of the Secretary of Defense, to build and maintain the counterinsurgency capability of Pakistan under the same terms and conditions (except as otherwise provided in this subsection) that are applicable to amounts made available under the Fund for fiscal year 2009.

(3) **TRANSFER AUTHORITY.**—

(A) **IN GENERAL.**—The Secretary of State is authorized to transfer amounts in the Fund made available to carry out this subsection for any fiscal year to the Department of Defense’s Pakistan Counterinsurgency Fund established under the Supplemental Appropriations Act, 2009 (Public Law 111-32) and such amounts may be transferred back to the Fund if the Secretary of Defense, with the concurrence of the Secretary of State, determines that such amounts are not needed for the purposes for which initially transferred.

(B) **TREATMENT OF TRANSFERRED FUNDS.**—Subject to subsections (d) and (e) of section 203, transfers from the Fund under the authority of subparagraph (A) shall be merged with and be available for the same purposes and for the same time period as amounts in the Department of Defense’s Pakistan Counterinsurgency Fund.

(C) **RELATION TO OTHER AUTHORITIES.**—The authority to provide assistance under this subsection is in addition to any other authority to provide assistance to foreign countries.

(D) **NOTIFICATION.**—The Secretary of State shall, not less than 15 days prior to making transfers from the Fund under subparagraph (A), notify the appropriate congressional committees in writing of the details of any such transfer.

(b) **SUBMISSION OF NOTIFICATIONS.**—Any notification required by this section may be submitted in classified or unclassified form, as necessary.

(c) **APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.**—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Appropriations, the Committee on Armed Services, and the Committee on Foreign Affairs of the House of Representatives; and

(2) the Committee on Appropriations, the Committee on Armed Services, and the Committee on Foreign Relations of the Senate.

#### **SEC. 205. REQUIREMENTS FOR CIVILIAN CONTROL OF CERTAIN ASSISTANCE.**

(a) **REQUIREMENTS.**—

(1) **IN GENERAL.**—For fiscal years 2010 through 2014, any direct cash security-related assistance or non-assistance payments by the United States to the Government of Pakistan may only be provided or made to civilian authorities of a civilian government of Pakistan.

(2) **DOCUMENTATION.**—For fiscal years 2010 through 2014, the Secretary of State, in coordination with the Secretary of Defense, shall ensure that civilian authorities of a civilian government of Pakistan have received a copy of final documentation provided to the United States related to non-assistance payments provided or made to the Government of Pakistan.

(b) **WAIVER.**—

(1) **SECURITY-RELATED ASSISTANCE.**—The Secretary of State, in consultation with the Secretary of Defense, may waive the requirements of subsection (a) with respect to security-related assistance described in subsection (a) funded from accounts within budget function 150 (International Affairs) if the Secretary of State certifies to the appropriate congressional committees that the waiver is important to the national security interest of the United States.

(2) **NON-ASSISTANCE PAYMENTS.**—The Secretary of Defense, in consultation with the Secretary of State, may waive the requirements of subsection (a) with respect to non-assistance payments described in subsection (a) funded from accounts within budget function 050 (National Defense) if the Secretary of Defense certifies to the appropriate congressional committees that the waiver is important to the national security interest of the United States.

(c) **APPLICATION TO CERTAIN ACTIVITIES.**—Nothing in this section shall apply with respect to—

(1) any activities subject to reporting requirements under title V of the National Security Act of 1947 (50 U.S.C. 413 et seq.);

(2) any assistance to promote democratic elections or public participation in democratic processes;

(3) any assistance or payments if the Secretary of State determines and certifies to the appropriate congressional committees that subsequent to the termination of assistance or payments a democratically elected government has taken office;

(4) any assistance or payments made pursuant to section 1208 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108-375; 118 Stat. 2086), as amended;

(5) any payments made pursuant to the Acquisition and Cross-Servicing Agreement between the Department of Defense of the United States of America and the Ministry of Defense of the Islamic Republic of Pakistan; and

(6) any assistance or payments made pursuant to section 943 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417; 122 Stat. 4578).

(d) DEFINITIONS.—In this section—

(1) the term “appropriate congressional committees” means the Committees on Appropriations, Armed Services, and Foreign Affairs of the House of Representatives and the Committees on Appropriations, Armed Services, and Foreign Relations of the Senate; and

(2) the term “civilian government of Pakistan” does not include any government of Pakistan whose duly elected head of government is deposed by military coup or decree.

### TITLE III—STRATEGY, ACCOUNTABILITY, MONITORING, AND OTHER PROVISIONS

#### SEC. 301. STRATEGY REPORTS.

(a) PAKISTAN ASSISTANCE STRATEGY REPORT.—Not later than 45 days after the date of enactment of this Act, the Secretary of State shall submit to the appropriate congressional committees a report describing United States policy and strategy with respect to assistance to Pakistan under this Act. The report shall include the following:

(1) A description of the principal objectives of United States assistance to Pakistan to be provided under title I of this Act.

(2) A general description of the specific programs, projects, and activities designed to achieve the purposes of section 101 and the respective funding levels for such programs, projects, and activities for fiscal years 2010 through 2014.

(3) A plan for program monitoring, operations research, and impact evaluation research for assistance authorized under title I of this Act.

(4) A description of the role to be played by Pakistani national, regional, and local officials and members of Pakistani civil society and local private sector, civic, religious, and tribal leaders in helping to identify and implement programs and projects for which assistance is to be provided under this Act, and of consultations with such representatives in developing the strategy.

(5) A description of the steps taken, or to be taken, to ensure assistance provided under this Act is not awarded to individuals or entities affiliated with terrorist organizations.

(6) A projection of the levels of assistance to be provided to Pakistan under this Act, broken down into the following categories as described in the annual “Report on the Criteria and Methodology for Determining the Eligibility of Candidate Countries for Millennium Challenge Account Assistance”:

- (A) Civil liberties.
- (B) Political rights.
- (C) Voice and accountability.
- (D) Government effectiveness.
- (E) Rule of law.
- (F) Control of corruption.
- (G) Immunization rates.
- (H) Public expenditure on health.
- (I) Girls’ primary education completion rate.
- (J) Public expenditure on primary education.
- (K) Natural resource management.
- (L) Business start-up.
- (M) Land rights and access.
- (N) Trade policy.
- (O) Regulatory quality.
- (P) Inflation control.
- (Q) Fiscal policy.

(7) An analysis for the suitable replacement for existing Pakistani helicopters, including recommendations for sustainment and training.

#### (b) COMPREHENSIVE REGIONAL STRATEGY REPORT.—

(1) SENSE OF CONGRESS.—It is the sense of Congress that the achievement of United

States national security goals to eliminate terrorist threats and close safe havens in Pakistan requires the development of a comprehensive plan that utilizes all elements of national power, including in coordination and cooperation with other concerned governments, and that it is critical to Pakistan’s long-term prosperity and security to strengthen regional relationships among India, Pakistan, and Afghanistan.

(2) COMPREHENSIVE REGIONAL SECURITY STRATEGY.—The President shall develop a comprehensive interagency regional security strategy to eliminate terrorist threats and close safe havens in Pakistan, including by working with the Government of Pakistan and other relevant governments and organizations in the region and elsewhere, as appropriate, to best implement effective counterinsurgency and counterterrorism efforts in and near the border areas of Pakistan and Afghanistan, including the FATA, the NWFP, parts of Balochistan, and parts of Punjab.

#### (3) REPORT.—

(A) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the President shall submit to the appropriate congressional committees a report on the comprehensive regional security strategy required under paragraph (2).

(B) CONTENTS.—The report shall include a copy of the comprehensive regional security strategy, including specifications of goals, and proposed timelines and budgets for implementation of the strategy.

(C) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this paragraph, the term “appropriate congressional committees” means—

(i) the Committee on Appropriations, the Committee on Armed Services, the Committee on Foreign Affairs, and the Permanent Select Committee on Intelligence of the House of Representatives; and

(ii) the Committee on Appropriations, the Committee on Armed Services, the Committee on Foreign Relations, and the Select Committee on Intelligence of the Senate.

(c) SECURITY-RELATED ASSISTANCE PLAN.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall submit to the appropriate congressional committees a plan for the proposed use of amounts authorized for security-related assistance for each of the fiscal years 2010 through 2014. Such plan shall include an assessment of how the use of such amounts complements or otherwise is related to amounts described in section 204.

#### SEC. 302. MONITORING REPORTS.

(a) SEMI-ANNUAL MONITORING REPORT.—Not later than 180 days after the submission of the Pakistan Assistance Strategy Report pursuant to section 301(a), and every 180 days thereafter through September 30, 2014, the Secretary of State, in consultation with the Secretary of Defense, shall submit to the appropriate congressional committees a report that describes the assistance provided under this Act during the preceding 180-day period. The report shall include—

(1) a description of all assistance by program, project, and activity, as well as by geographic area, provided pursuant to title I of this Act during the period covered by the report, including the amount of assistance provided for each program or project, and with respect to the first report a description of all amounts made available for assistance to Pakistan during fiscal year 2009, including a description of each program, project, and activity for which funds were made available;

(2) a list of persons or entities from the United States or other countries that have

received funds in excess of \$100,000 to conduct projects under title I of this Act during the period covered by the report, which may be included in a classified annex, if necessary to avoid a security risk, and a justification for the classification;

(3) with respect to the plan described in section 301(a)(3), updates to such plan and a description of best practices to improve the impact of the assistance authorized under title I of this Act;

(4) an assessment of the effectiveness of assistance provided under title I of this Act during the period covered by the report in achieving desired objectives and outcomes as guided by the plan described in section 301(a)(3), and as updated pursuant to paragraph (3) of this subsection, including a systematic, qualitative, and where possible, quantitative basis for assessing whether desired outcomes are achieved and a timeline for completion of each project and program;

(5) a description of any shortfall in United States financial, physical, technical, or human resources that hinder the effective use and monitoring of such funds;

(6) a description of any negative impact, including the absorptive capacity of the region for which the resources are intended, of United States bilateral or multilateral assistance and recommendations for modification of funding, if any;

(7) any incidents or reports of waste, fraud, and abuse of expenditures under title I of this Act;

(8) the amount of funds authorized to be appropriated pursuant to section 102 that were used during the reporting period for administrative expenses or for audits and program reviews pursuant to the authority under sections 101(c)(2) and 103;

(9) a description of the expenditures made from any Chief of Mission Fund established pursuant to section 101(c)(5) during the period covered by the report, the purposes for which such expenditures were made, and a list of the recipients of any expenditures from the Chief of Mission Fund in excess of \$100,000;

(10) an accounting of assistance provided to Pakistan under title I of this Act, broken down into the categories set forth in section 301(a)(6);

(11) an evaluation of efforts undertaken by the Government of Pakistan to—

(A) disrupt, dismantle, and defeat al Qaeda, the Taliban, and other extremist and terrorist groups in the FATA and settled areas;

(B) eliminate the safe havens of such forces in Pakistan;

(C) close terrorist camps, including those of Lashkar-e-Taiba and Jaish-e-Mohammed;

(D) cease all support for extremist and terrorist groups;

(E) prevent attacks into neighboring countries;

(F) increase oversight over curriculum in madrassas, including closing madrassas with direct links to the Taliban or other extremist and terrorist groups; and

(G) improve counterterrorism financing and anti-money laundering laws, apply for observer status for the Financial Action Task Force, and take steps to adhere to the United Nations International Convention for the Suppression of Financing of Terrorism;

(12) a detailed description of Pakistan’s efforts to prevent proliferation of nuclear-related material and expertise;

(13) an assessment of whether assistance provided to Pakistan has directly or indirectly aided the expansion of Pakistan’s nuclear weapons program, whether by the diversion of United States assistance or the reallocation of Pakistan’s financial resources

that would otherwise be spent for programs and activities unrelated to its nuclear weapons program;

(14) a detailed description of the extent to which funds obligated and expended pursuant to section 202(b) meet the requirements of such section; and

(15) an assessment of the extent to which the Government of Pakistan exercises effective civilian control of the military, including a description of the extent to which civilian executive leaders and parliament exercise oversight and approval of military budgets, the chain of command, the process of promotion for senior military leaders, civilian involvement in strategic guidance and planning, and military involvement in civil administration.

(b) GOVERNMENT ACCOUNTABILITY OFFICE REPORTS.—

(1) PAKISTAN ASSISTANCE STRATEGY REPORT.—Not later than one year after the submission of the Pakistan Assistance Strategy Report pursuant to section 301(a), the Comptroller General of the United States shall submit to the appropriate congressional committees a report that contains—

(A) a review of, and comments addressing, the Pakistan Assistance Strategy Report;

(B) recommendations relating to any additional actions the Comptroller General believes could help improve the efficiency and effectiveness of United States efforts to meet the objectives of this Act;

(C) a detailed description of the expenditures made by Pakistan pursuant to grant assistance under section 23 of the Arms Export Control Act (22 U.S.C. 2763; relating to the Foreign Military Financing program); and

(D) an assessment of the impact of the assistance on the security and stability of Pakistan.

(2) CERTIFICATION REPORT.—Not later than 120 days after the date on which the President makes the certification described in section 203(c) for a fiscal year, the Comptroller General of the United States shall conduct an independent analysis of the certification described in such section and shall submit to the appropriate congressional committees a report containing the results of the independent analysis.

(c) SUBMISSION.—The Secretary of State may submit the reports required by this section in conjunction with other reports relating to Pakistan required under other provisions of law, including sections 1116 and 1117 of the Supplemental Appropriations Act, 2009 (Public Law 111-32; 123 Stat. 1906 and 1907).

(d) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Appropriations, the Committee on Armed Services, and the Committee on Foreign Affairs of the House of Representatives; and

(2) the Committee on Appropriations, the Committee on Armed Services, and the Committee on Foreign Relations of the Senate.

#### DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2010

The PRESIDING OFFICER. The majority leader.

Mr. REID. I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 159, H.R. 3326, the Defense Department Appropriations Act; that once the bill is reported, the Senate then proceed to a period of morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 3326) making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes.

The Senate proceeded to consider the bill which had been reported from the Committee on Appropriations with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

*That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending September 30, 2010, for military functions administered by the Department of Defense and for other purposes, namely:*

#### TITLE I

##### MILITARY PERSONNEL

##### MILITARY PERSONNEL, ARMY

*For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Army on active duty, (except members of reserve components provided for elsewhere), cadets, and aviation cadets; for members of the Reserve Officers' Training Corps; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund, \$41,267,448,000.*

##### MILITARY PERSONNEL, NAVY

*For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Navy on active duty (except members of the Reserve provided for elsewhere), midshipmen, and aviation cadets; for members of the Reserve Officers' Training Corps; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund, \$25,440,472,000.*

##### MILITARY PERSONNEL, MARINE CORPS

*For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Marine Corps on active duty (except members of the Reserve provided for elsewhere); and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund, \$12,883,790,000.*

##### MILITARY PERSONNEL, AIR FORCE

*For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Air Force on active duty (except members of reserve components provided for elsewhere), cadets, and aviation cadets; for members of the Reserve Officers' Training Corps; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund, \$26,378,761,000.*

##### RESERVE PERSONNEL, ARMY

*For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army Reserve on active duty under sections 10211, 10302, and 3038 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$4,286,656,000.*

##### RESERVE PERSONNEL, NAVY

*For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Navy Reserve on active duty under section 10211 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$1,905,166,000.*

##### RESERVE PERSONNEL, MARINE CORPS

*For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Marine Corps Reserve on active duty under section 10211 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and for members of the Marine Corps platoon leaders class, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$611,500,000.*

##### RESERVE PERSONNEL, AIR FORCE

*For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air Force Reserve on active duty under sections 10211, 10305, and 8038 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$1,584,712,000.*

##### NATIONAL GUARD PERSONNEL, ARMY

*For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army National Guard while on duty under section 10211, 10302, or 12402 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 12301(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$7,535,088,000.*

##### NATIONAL GUARD PERSONNEL, AIR FORCE

*For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air National Guard on duty under section 10211, 10305, or 12402 of title 10 or section*

708 of title 32, United States Code, or while serving on duty under section 12301(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$2,923,599,000.

## TITLE II

### OPERATION AND MAINTENANCE

#### OPERATION AND MAINTENANCE, ARMY

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Army, as authorized by law; and not to exceed \$12,478,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Army, and payments may be made on his certificate of necessity for confidential military purposes, \$30,667,886,000.

#### OPERATION AND MAINTENANCE, NAVY

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Navy and the Marine Corps, as authorized by law; and not to exceed \$14,657,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Navy, and payments may be made on his certificate of necessity for confidential military purposes, \$34,773,497,000.

#### OPERATION AND MAINTENANCE, MARINE CORPS

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Marine Corps, as authorized by law, \$5,435,923,000.

#### OPERATION AND MAINTENANCE, AIR FORCE

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Air Force, as authorized by law; and not to exceed \$7,699,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Air Force, and payments may be made on his certificate of necessity for confidential military purposes, \$33,739,447,000.

#### OPERATION AND MAINTENANCE, DEFENSE-WIDE

##### (INCLUDING TRANSFER OF FUNDS)

For expenses, not otherwise provided for, necessary for the operation and maintenance of activities and agencies of the Department of Defense (other than the military departments), as authorized by law, \$28,205,050,000: Provided, That not more than \$50,000,000 may be used for the Combatant Commander Initiative Fund authorized under section 166a of title 10, United States Code: Provided further, That not to exceed \$36,000,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of Defense, and payments may be made on his certificate of necessity for confidential military purposes: Provided further, That of the funds provided under this heading, not less than \$29,732,000 shall be made available for the Procurement Technical Assistance Cooperative Agreement Program, of which not less than \$3,600,000 shall be available for centers defined in 10 U.S.C. 2411(1)(D): Provided further, That none of the funds appropriated or otherwise made available by this Act may be used to plan or implement the consolidation of a budget or appropriations liaison office of the Office of the Secretary of Defense, the office of the Secretary of a military department, or the service headquarters of one of the Armed Forces into a legislative affairs or legislative liaison office: Provided further, That \$6,667,000, to remain available until expended, is available only for ex-

penses relating to certain classified activities, and may be transferred as necessary by the Secretary to operation and maintenance appropriations or research, development, test and evaluation appropriations, to be merged with and to be available for the same time period as the appropriations to which transferred: Provided further, That any ceiling on the investment item unit cost of items that may be purchased with operation and maintenance funds shall not apply to the funds described in the preceding proviso: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

#### OPERATION AND MAINTENANCE, ARMY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Army Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications, \$2,582,624,000.

#### OPERATION AND MAINTENANCE, NAVY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Navy Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications, \$1,272,501,000.

#### OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Marine Corps Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications, \$219,425,000.

#### OPERATION AND MAINTENANCE, AIR FORCE RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Air Force Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications, \$3,085,700,000.

#### OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

For expenses of training, organizing, and administering the Army National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, and repairs to structures and facilities; hire of passenger motor vehicles; personnel services in the National Guard Bureau; travel expenses (other than mileage), as authorized by law for Army personnel on active duty, for Army National Guard division, regimental, and battalion commanders while inspecting units in compliance with National Guard Bureau regulations when specifically authorized by the Chief, National Guard Bureau; supplying and equipping the Army National Guard as authorized by law; and expenses of repair, modification, maintenance, and issue of supplies and equipment (including aircraft), \$5,989,034,000.

#### OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

For expenses of training, organizing, and administering the Air National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, and repairs to structures and facili-

ties; transportation of things, hire of passenger motor vehicles; supplying and equipping the Air National Guard, as authorized by law; expenses for repair, modification, maintenance, and issue of supplies and equipment, including those furnished from stocks under the control of agencies of the Department of Defense; travel expenses (other than mileage) on the same basis as authorized by law for Air National Guard personnel on active Federal duty, for Air National Guard commanders while inspecting units in compliance with National Guard Bureau regulations when specifically authorized by the Chief, National Guard Bureau, \$5,857,011,000.

#### UNITED STATES COURT OF APPEALS FOR THE ARMED FORCES

For salaries and expenses necessary for the United States Court of Appeals for the Armed Forces, \$13,932,000, of which not to exceed \$5,000 may be used for official representation purposes.

#### ENVIRONMENTAL RESTORATION, ARMY

##### (INCLUDING TRANSFER OF FUNDS)

For the Department of the Army, \$430,864,000, to remain available until transferred: Provided, That the Secretary of the Army shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of the Army, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Army, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

#### ENVIRONMENTAL RESTORATION, NAVY

##### (INCLUDING TRANSFER OF FUNDS)

For the Department of the Navy, \$285,869,000, to remain available until transferred: Provided, That the Secretary of the Navy shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of the Navy, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Navy, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

#### ENVIRONMENTAL RESTORATION, AIR FORCE

##### (INCLUDING TRANSFER OF FUNDS)

For the Department of the Air Force, \$494,276,000, to remain available until transferred: Provided, That the Secretary of the Air Force shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of the Air Force, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Air Force, to be merged with and to be available for the same

purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

**ENVIRONMENTAL RESTORATION, DEFENSE-WIDE  
(INCLUDING TRANSFER OF FUNDS)**

For the Department of Defense, \$11,100,000, to remain available until transferred: Provided, That the Secretary of Defense shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of Defense, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of Defense, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

**ENVIRONMENTAL RESTORATION, FORMERLY USED  
DEFENSE SITES**

**(INCLUDING TRANSFER OF FUNDS)**

For the Department of the Army, \$307,700,000, to remain available until transferred: Provided, That the Secretary of the Army shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris at sites formerly used by the Department of Defense, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Army, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

**OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC  
AID**

For expenses relating to the Overseas Humanitarian, Disaster, and Civic Aid programs of the Department of Defense (consisting of the programs provided under sections 401, 402, 404, 407, 2557, and 2561 of title 10, United States Code), \$109,869,000, to remain available until September 30, 2011.

**COOPERATIVE THREAT REDUCTION ACCOUNT**

For assistance to the republics of the former Soviet Union and, with appropriate authorization by the Department of Defense and Department of State, to countries outside of the former Soviet Union, including assistance provided by contract or by grants, for facilitating the elimination and the safe and secure transportation and storage of nuclear, chemical and other weapons; for establishing programs to prevent the proliferation of weapons, weapons components, and weapon-related technology and expertise; for programs relating to the training and support of defense and military personnel

for demilitarization and protection of weapons, weapons components and weapons technology and expertise, and for defense and military contacts, \$424,093,000, to remain available until September 30, 2012: Provided, That of the amounts provided under this heading, not less than \$15,000,000 shall be available only to support the dismantling and disposal of nuclear submarines, submarine reactor components, and security enhancements for transport and storage of nuclear warheads in the Russian Far East and North.

**DEPARTMENT OF DEFENSE ACQUISITION  
WORKFORCE DEVELOPMENT FUND**

For the Department of Defense Acquisition Workforce Development Fund, \$100,000,000.

**TITLE III  
PROCUREMENT**

**AIRCRAFT PROCUREMENT, ARMY**

For construction, procurement, production, modification, and modernization of aircraft, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$5,244,252,000, to remain available for obligation until September 30, 2012.

**MISSILE PROCUREMENT, ARMY**

For construction, procurement, production, modification, and modernization of missiles, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$1,257,053,000, to remain available for obligation until September 30, 2012.

**PROCUREMENT OF WEAPONS AND TRACKED  
COMBAT VEHICLES, ARMY**

For construction, procurement, production, and modification of weapons and tracked combat vehicles, equipment, including ordnance, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$2,310,007,000, to remain available for obligation until September 30, 2012.

**PROCUREMENT OF AMMUNITION, ARMY**

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities, authorized by section 2854 of title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and inter-

ests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$2,049,995,000, to remain available for obligation until September 30, 2012.

**OTHER PROCUREMENT, ARMY**

For construction, procurement, production, and modification of vehicles, including tactical, support, and non-tracked combat vehicles; the purchase of passenger motor vehicles for replacement only; and the purchase of eight vehicles required for physical security of personnel, notwithstanding price limitations applicable to passenger vehicles but not to exceed \$250,000 per vehicle; communications and electronic equipment; other support equipment; spare parts, ordnance, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$9,395,444,000, to remain available for obligation until September 30, 2012.

**AIRCRAFT PROCUREMENT, NAVY**

For construction, procurement, production, modification, and modernization of aircraft, equipment, including ordnance, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, \$18,079,312,000, to remain available for obligation until September 30, 2012.

**WEAPONS PROCUREMENT, NAVY**

For construction, procurement, production, modification, and modernization of missiles, torpedoes, other weapons, and related support equipment including spare parts, and accessories therefor; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, \$3,446,419,000, to remain available for obligation until September 30, 2012.

**PROCUREMENT OF AMMUNITION, NAVY AND  
MARINE CORPS**

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities, authorized by section 2854 of title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$814,015,000, to remain available for obligation until September 30, 2012.

## SHIPBUILDING AND CONVERSION, NAVY

For expenses necessary for the construction, acquisition, or conversion of vessels as authorized by law, including armor and armament thereof, plant equipment, appliances, and machine tools and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; procurement of critical, long lead time components and designs for vessels to be constructed or converted in the future; and expansion of public and private plants, including land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title, as follows:

Carrier Replacement Program, \$739,269,000;  
Carrier Replacement Program (AP), \$484,432,000;

NSSN, \$1,964,317,000;  
NSSN (AP), \$1,959,725,000;  
CVN Refueling, \$1,563,602,000;  
CVN Refuelings (AP), \$211,820,000;  
DDG-1000 Program, \$1,393,797,000;  
DDG-51 Destroyer, \$3,650,000,000;  
DDG-51 Destroyer (AP), \$328,996,000;  
Littoral Combat Ship, \$1,080,000,000;  
LPD-17, \$872,392,000;  
LPD-17 (AP), \$184,555,000;  
LHA-R (AP), \$170,000,000;  
Intratheater Connector, \$177,956,000;  
LCAC Service Life Extension Program, \$63,857,000;

Prior year shipbuilding costs, \$144,950,000;  
Service Craft, \$3,694,000; and  
For outfitting, post delivery, conversions, and first destination transportation, \$391,238,000.

In all: \$15,384,600,000, to remain available for obligation until September 30, 2014: Provided, That additional obligations may be incurred after September 30, 2014, for engineering services, tests, evaluations, and other such budgeted work that must be performed in the final stage of ship construction: Provided further, That none of the funds provided under this heading for the construction or conversion of any naval vessel to be constructed in shipyards in the United States shall be expended in foreign facilities for the construction of major components of such vessel: Provided further, That none of the funds provided under this heading shall be used for the construction of any naval vessel in foreign shipyards.

## OTHER PROCUREMENT, NAVY

For procurement, production, and modernization of support equipment and materials not otherwise provided for, Navy ordnance (except ordnance for new aircraft, new ships, and ships authorized for conversion); the purchase of passenger motor vehicles for replacement only, and the purchase of seven vehicles required for physical security of personnel, notwithstanding price limitations applicable to passenger vehicles but not to exceed \$250,000 per vehicle; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, \$5,499,413,000, to remain available for obligation until September 30, 2012.

## PROCUREMENT, MARINE CORPS

For expenses necessary for the procurement, manufacture, and modification of missiles, armament, military equipment, spare parts, and accessories therefor; plant equipment, appliances, and machine tools, and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; vehicles for the Marine

Corps, including the purchase of passenger motor vehicles for replacement only; and expansion of public and private plants, including land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title, \$1,550,080,000, to remain available for obligation until September 30, 2012.

## AIRCRAFT PROCUREMENT, AIR FORCE

For construction, procurement, and modification of aircraft and equipment, including armor and armament, specialized ground handling equipment, and training devices, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things, \$13,148,720,000, to remain available for obligation until September 30, 2012.

## MISSILE PROCUREMENT, AIR FORCE

For construction, procurement, and modification of missiles, spacecraft, rockets, and related equipment, including spare parts and accessories therefor, ground handling equipment, and training devices; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things, \$6,070,344,000, to remain available for obligation until September 30, 2012.

## PROCUREMENT OF AMMUNITION, AIR FORCE

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities, authorized by section 2854 of title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$815,246,000, to remain available for obligation until September 30, 2012.

## OTHER PROCUREMENT, AIR FORCE

For procurement and modification of equipment (including ground guidance and electronic control equipment, and ground electronic and communication equipment), and supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of passenger motor vehicles for replacement only, and the purchase of two vehicles required for physical security of personnel, notwithstanding price limitations applicable to passenger vehicles but not to exceed \$250,000 per vehicle; lease of passenger motor vehicles; and expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon, prior to approval of title; reserve plant and Government and contractor-

owned equipment layaway, \$17,283,800,000, to remain available for obligation until September 30, 2012.

## PROCUREMENT, DEFENSE-WIDE

For expenses of activities and agencies of the Department of Defense (other than the military departments) necessary for procurement, production, and modification of equipment, supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of passenger motor vehicles for replacement only; expansion of public and private plants, equipment, and installation thereof in such plants, erection of structures, and acquisition of land for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway, \$4,017,697,000, to remain available for obligation until September 30, 2012.

## NATIONAL GUARD AND RESERVE EQUIPMENT

For procurement of aircraft, missiles, tracked combat vehicles, ammunition, other weapons, and other procurement for the reserve components of the Armed Forces, \$1,500,000,000, to remain available for obligation until September 30, 2012: Provided, That the Chiefs of the Reserve and National Guard components shall, not later than 30 days after the enactment of this Act, individually submit to the congressional defense committees the modernization priority assessment for their respective Reserve or National Guard component.

## DEFENSE PRODUCTION ACT PURCHASES

For activities by the Department of Defense pursuant to sections 108, 301, 302, and 303 of the Defense Production Act of 1950 (50 U.S.C. App. 2078, 2091, 2092, and 2093), \$149,746,000, to remain available until expended.

## TITLE IV

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

For expenses necessary for basic and applied scientific research, development, test and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, \$10,653,126,000, to remain available for obligation until September 30, 2011.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For expenses necessary for basic and applied scientific research, development, test and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, \$19,148,509,000, to remain available for obligation until September 30, 2011: Provided, That funds appropriated in this paragraph which are available for the V-22 may be used to meet unique operational requirements of the Special Operations Forces: Provided further, That funds appropriated in this paragraph shall be available for the Cobra Judy program.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For expenses necessary for basic and applied scientific research, development, test and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, \$28,049,015,000, to remain available for obligation until September 30, 2011.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

For expenses of activities and agencies of the Department of Defense (other than the military departments), necessary for basic and applied scientific research, development, test and evaluation; advanced research projects as may be

designated and determined by the Secretary of Defense, pursuant to law; maintenance, rehabilitation, lease, and operation of facilities and equipment, \$20,408,968,000, to remain available for obligation until September 30, 2011, of which \$2,500,000 shall be available only for the Missile Defense Agency to construct a replacement Patriot launcher pad for the Japanese Ministry of Defense.

#### OPERATIONAL TEST AND EVALUATION, DEFENSE

For expenses, not otherwise provided for, necessary for the independent activities of the Director, Operational Test and Evaluation, in the direction and supervision of operational test and evaluation, including initial operational test and evaluation which is conducted prior to, and in support of, production decisions; joint operational testing and evaluation; and administrative expenses in connection therewith, \$190,770,000, to remain available for obligation until September 30, 2011.

#### TITLE V

##### REVOLVING AND MANAGEMENT FUNDS

###### DEFENSE WORKING CAPITAL FUNDS

For the Defense Working Capital Funds, \$1,455,004,000.

###### NATIONAL DEFENSE SEALIFT FUND

For National Defense Sealift Fund programs, projects, and activities, and for expenses of the National Defense Reserve Fleet, as established by section 11 of the Merchant Ship Sales Act of 1946 (50 U.S.C. App. 1744), and for the necessary expenses to maintain and preserve a U.S.-flag merchant fleet to serve the national security needs of the United States, \$1,242,758,000, to remain available until expended: Provided, That none of the funds provided in this paragraph shall be used to award a new contract that provides for the acquisition of any of the following major components unless such components are manufactured in the United States: auxiliary equipment, including pumps, for all shipboard services; propulsion system components (engines, reduction gears, and propellers); shipboard cranes; and spreaders for shipboard cranes: Provided further, That the exercise of an option in a contract awarded through the obligation of previously appropriated funds shall not be considered to be the award of a new contract: Provided further, That the Secretary of the military department responsible for such procurement may waive the restrictions in the first proviso on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes.

#### TITLE VI

##### OTHER DEPARTMENT OF DEFENSE PROGRAMS

###### DEFENSE HEALTH PROGRAM

For expenses, not otherwise provided for, for medical and health care programs of the Department of Defense as authorized by law, \$28,311,113,000; of which \$26,990,219,000 shall be for operation and maintenance, of which not to exceed one percent shall remain available until September 30, 2011, and of which up to \$15,093,539,000 may be available for contracts entered into under the TRICARE program; of which \$322,142,000, to remain available for obligation until September 30, 2012, shall be for procurement; and of which \$998,752,000, to remain available for obligation until September 30, 2011, shall be for research, development, test and evaluation.

#### CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE

For expenses, not otherwise provided for, necessary for the destruction of the United States stockpile of lethal chemical agents and munitions, to include construction of facilities, in accordance with the provisions of section 1412 of the Department of Defense Authorization Act, 1986 (50 U.S.C. 1521), and for the destruction of other chemical warfare materials that are not in the chemical weapon stockpile, \$1,539,869,000, of which \$1,125,911,000 shall be for operation and maintenance, of which no less than \$84,839,000, shall be for the Chemical Stockpile Emergency Preparedness Program, consisting of \$34,905,000 for activities on military installations and \$49,934,000, to remain available until September 30, 2011, to assist State and local governments; \$12,689,000 shall be for procurement, to remain available until September 30, 2012, of which no less than \$12,689,000 shall be for the Chemical Stockpile Emergency Preparedness Program to assist State and local governments; and \$401,269,000, to remain available until September 30, 2011, shall be for research, development, test and evaluation, of which \$398,669,000 shall only be for the Assembled Chemical Weapons Alternatives (ACWA) program.

#### DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

##### (INCLUDING TRANSFER OF FUNDS)

For drug interdiction and counter-drug activities of the Department of Defense, for transfer to appropriations available to the Department of Defense for military personnel of the reserve components serving under the provisions of title 10 and title 32, United States Code; for operation and maintenance; for procurement; and for research, development, test and evaluation, \$1,103,086,000: Provided, That the funds appropriated under this heading shall be available for obligation for the same time period and for the same purpose as the appropriation to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority contained elsewhere in this Act.

#### OFFICE OF THE INSPECTOR GENERAL

For expenses and activities of the Office of the Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, \$288,100,000, of which \$287,100,000 shall be for operation and maintenance, of which not to exceed \$700,000 is available for emergencies and extraordinary expenses to be expended on the approval or authority of the Inspector General, and payments may be made on the Inspector General's certificate of necessity for confidential military purposes; and of which \$1,000,000, to remain available until September 30, 2012, shall be for procurement.

#### TITLE VII

##### RELATED AGENCIES

###### CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

For payment to the Central Intelligence Agency Retirement and Disability System Fund, to maintain the proper funding level for continuing the operation of the Central Intelligence Agency Retirement and Disability System, \$290,900,000.

#### INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

For necessary expenses of the Intelligence Community Management Account, \$750,812,000.

#### TITLE VIII

##### GENERAL PROVISIONS

SEC. 8001. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes not authorized by the Congress.

SEC. 8002. During the current fiscal year, provisions of law prohibiting the payment of compensation to, or employment of, any person not a citizen of the United States shall not apply to personnel of the Department of Defense: Provided, That salary increases granted to direct and indirect hire foreign national employees of the Department of Defense funded by this Act shall not be at a rate in excess of the percentage increase authorized by law for civilian employees of the Department of Defense whose pay is computed under the provisions of section 5332 of title 5, United States Code, or at a rate in excess of the percentage increase provided by the appropriate host nation to its own employees, whichever is higher: Provided further, That this section shall not apply to Department of Defense foreign service national employees serving at United States diplomatic missions whose pay is set by the Department of State under the Foreign Service Act of 1980: Provided further, That the limitations of this provision shall not apply to foreign national employees of the Department of Defense in the Republic of Turkey.

SEC. 8003. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year, unless expressly so provided herein.

SEC. 8004. No more than 20 percent of the appropriations in this Act which are limited for obligation during the current fiscal year shall be obligated during the last 2 months of the fiscal year: Provided, That this section shall not apply to obligations for support of active duty training of reserve components or summer camp training of the Reserve Officers' Training Corps.

##### (TRANSFER OF FUNDS)

SEC. 8005. Upon determination by the Secretary of Defense that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed \$4,000,000,000 of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: Provided, That such authority to transfer may not be used unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by the Congress: Provided further, That the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority or any other authority in this Act: Provided further, That no part of the funds in this Act shall be available to prepare or present a request to the Committees on Appropriations for reprogramming of funds, unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which reprogramming is requested has been denied by the Congress: Provided further, That a request for multiple reprogrammings of funds using authority provided in this section must be made prior to June 30, 2010: Provided further, That transfers among military personnel appropriations shall not be taken into account for purposes of the limitation on the amount of funds that may be transferred under this section: Provided further, That no obligation of funds may be made pursuant to

section 1206 of Public Law 109-163 (or any successor provision) unless the Secretary of Defense has notified the congressional defense committees prior to any such obligation.

SEC. 8006. (a) Not later than 60 days after enactment of this Act, the Department of Defense shall submit a report to the congressional defense committees to establish the baseline for application of reprogramming and transfer authorities for fiscal year 2010: Provided, That the report shall include—

(1) a table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level;

(2) a delineation in the table for each appropriation both by budget activity and program, project, and activity as detailed in the Budget Appendix; and

(3) an identification of items of special congressional interest.

(b) Notwithstanding section 8005 of this Act, none of the funds provided in this Act shall be available for reprogramming or transfer until the report identified in subsection (a) is submitted to the congressional defense committees, unless the Secretary of Defense certifies in writing to the congressional defense committees that such reprogramming or transfer is necessary as an emergency requirement.

SEC. 8007. The Secretaries of the Air Force and the Army are authorized, using funds available under the headings "Operation and Maintenance, Air Force" and "Operation and Maintenance, Army", to complete facility conversions and phased repair projects which may include upgrades and additions to Alaskan range infrastructure and training areas, and improved access to these ranges.

#### (TRANSFER OF FUNDS)

SEC. 8008. During the current fiscal year, cash balances in working capital funds of the Department of Defense established pursuant to section 2208 of title 10, United States Code, may be maintained in only such amounts as are necessary at any time for cash disbursements to be made from such funds: Provided, That transfers may be made between such funds: Provided further, That transfers may be made between working capital funds and the "Foreign Currency Fluctuations, Defense" appropriation and the "Operation and Maintenance" appropriation accounts in such amounts as may be determined by the Secretary of Defense, with the approval of the Office of Management and Budget, except that such transfers may not be made unless the Secretary of Defense has notified the Congress of the proposed transfer. Except in amounts equal to the amounts appropriated to working capital funds in this Act, no obligations may be made against a working capital fund to procure or increase the value of war reserve material inventory, unless the Secretary of Defense has notified the Congress prior to any such obligation.

SEC. 8009. Funds appropriated by this Act may not be used to initiate a special access program without prior notification 30 calendar days in advance to the congressional defense committees.

SEC. 8010. None of the funds provided in this Act shall be available to initiate: (1) A multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any one year of the contract or that includes an unfunded contingent liability in excess of \$20,000,000; or (2) a contract for advance procurement leading to a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any one year, unless the congressional defense committees have been notified at least 30 days in advance of the proposed contract award: Provided, That no part of any appropriation contained in this Act shall be

available to initiate a multiyear contract for which the economic order quantity advance procurement is not funded at least to the limits of the Government's liability: Provided further, That no part of any appropriation contained in this Act shall be available to initiate multiyear procurement contracts for any systems or component thereof if the value of the multiyear contract would exceed \$500,000,000 unless specifically provided in this Act: Provided further, That no multiyear procurement contract can be terminated without 10-day prior notification to the congressional defense committees: Provided further, That the execution of multiyear authority shall require the use of a present value analysis to determine lowest cost compared to an annual procurement: Provided further, That none of the funds provided in this Act may be used for a multiyear contract executed after the date of the enactment of this Act unless in the case of any such contract—

(1) the Secretary of Defense has submitted to Congress a budget request for full funding of units to be procured through the contract and, in the case of a contract for procurement of aircraft, that includes, for any aircraft unit to be procured through the contract for which procurement funds are requested in that budget request for production beyond advance procurement activities in the fiscal year covered by the budget, full funding of procurement of such unit in that fiscal year;

(2) cancellation provisions in the contract do not include consideration of recurring manufacturing costs of the contractor associated with the production of unfunded units to be delivered under the contract;

(3) the contract provides that payments to the contractor under the contract shall not be made in advance of incurred costs on funded units; and

(4) the contract does not provide for a price adjustment based on a failure to award a follow-on contract.

SEC. 8011. Within the funds appropriated for the operation and maintenance of the Armed Forces, funds are hereby appropriated pursuant to section 401 of title 10, United States Code, for humanitarian and civic assistance costs under chapter 20 of title 10, United States Code. Such funds may also be obligated for humanitarian and civic assistance costs incidental to authorized operations and pursuant to authority granted in section 401 of chapter 20 of title 10, United States Code, and these obligations shall be reported as required by section 401(d) of title 10, United States Code: Provided, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance by using Civic Action Teams in the Trust Territories of the Pacific Islands and freely associated states of Micronesia, pursuant to the Compact of Free Association as authorized by Public Law 99-239: Provided further, That upon a determination by the Secretary of the Army that such action is beneficial for graduate medical education programs conducted at Army medical facilities located in Hawaii, the Secretary of the Army may authorize the provision of medical services at such facilities and transportation to such facilities, on a nonreimbursable basis, for civilian patients from American Samoa, the Commonwealth of the Northern Mariana Islands, the Marshall Islands, the Federated States of Micronesia, Palau, and Guam.

SEC. 8012. (a) During fiscal year 2010, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year.

(b) The fiscal year 2011 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2011 Department of Defense budget request shall be prepared and submitted to the Congress as if subsections (a) and (b) of this provision were effective with regard to fiscal year 2011.

(c) Nothing in this section shall be construed to apply to military (civilian) technicians.

SEC. 8013. None of the funds made available by this Act shall be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before the Congress.

SEC. 8014. None of the funds appropriated by this Act shall be available for the basic pay and allowances of any member of the Army participating as a full-time student and receiving benefits paid by the Secretary of Veterans Affairs from the Department of Defense Education Benefits Fund when time spent as a full-time student is credited toward completion of a service commitment: Provided, That this section shall not apply to those members who have reenlisted with this option prior to October 1, 1987: Provided further, That this section applies only to active components of the Army.

SEC. 8015. (a) None of the funds appropriated by this Act shall be available to convert to contractor performance an activity or function of the Department of Defense that, on or after the date of the enactment of this Act, is performed by more than 10 Department of Defense civilian employees unless—

(1) the conversion is based on the result of a public-private competition that includes a most efficient and cost effective organization plan developed by such activity or function;

(2) the Competitive Sourcing Official determines that, over all performance periods stated in the solicitation of offers for performance of the activity or function, the cost of performance of the activity or function by a contractor would be less costly to the Department of Defense by an amount that equals or exceeds the lesser of—

(A) 10 percent of the most efficient organization's personnel-related costs for performance of that activity or function by Federal employees; or

(B) \$10,000,000; and

(3) the contractor does not receive an advance for a proposal that would reduce costs for the Department of Defense by—

(A) not making an employer-sponsored health insurance plan available to the workers who are to be employed in the performance of that activity or function under the contract; or

(B) offering to such workers an employer-sponsored health benefits plan that requires the employer to contribute less towards the premium or subscription share than the amount that is paid by the Department of Defense for health benefits for civilian employees under chapter 89 of title 5, United States Code.

(b)(1) The Department of Defense, without regard to subsection (a) of this section or subsection (a), (b), or (c) of section 2461 of title 10, United States Code, and notwithstanding any administrative regulation, requirement, or policy to the contrary shall have full authority to enter into a contract for the performance of any commercial or industrial type function of the Department of Defense that—

(A) is included on the procurement list established pursuant to section 2 of the Javits-Wagner-O'Day Act (41 U.S.C. 47);

(B) is planned to be converted to performance by a qualified nonprofit agency for the blind or by a qualified nonprofit agency for other severely handicapped individuals in accordance with that Act; or

(C) is planned to be converted to performance by a qualified firm under at least 51 percent

ownership by an Indian tribe, as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)), or a Native Hawaiian Organization, as defined in section 8(a)(15) of the Small Business Act (15 U.S.C. 637(a)(15)).

(2) This section shall not apply to depot contracts or contracts for depot maintenance as provided in sections 2469 and 2474 of title 10, United States Code.

(c) The conversion of any activity or function of the Department of Defense under the authority provided by this section shall be credited toward any competitive or outsourcing goal, target, or measurement that may be established by statute, regulation, or policy and is deemed to be awarded under the authority of, and in compliance with, subsection (h) of section 2304 of title 10, United States Code, for the competition or outsourcing of commercial activities.

(TRANSFER OF FUNDS)

SEC. 8016. Funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protege Program may be transferred to any other appropriation contained in this Act solely for the purpose of implementing a Mentor-Protege Program developmental assistance agreement pursuant to section 831 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 10 U.S.C. 2302 note), as amended, under the authority of this provision or any other transfer authority contained in this Act.

SEC. 8017. None of the funds in this Act may be available for the purchase by the Department of Defense (and its departments and agencies) of welded shipboard anchor and mooring chain 4 inches in diameter and under unless the anchor and mooring chain are manufactured in the United States from components which are substantially manufactured in the United States: Provided, That for the purpose of this section manufactured will include cutting, heat treating, quality control, testing of chain and welding (including the forging and shot blasting process): Provided further, That for the purpose of this section substantially all of the components of anchor and mooring chain shall be considered to be produced or manufactured in the United States if the aggregate cost of the components produced or manufactured outside the United States: Provided further, That when adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis, the Secretary of the service responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations that such an acquisition must be made in order to acquire capability for national security purposes.

SEC. 8018. None of the funds available to the Department of Defense may be used to demilitarize or dispose of M-1 Carbines, M-1 Garand rifles, M-14 rifles, .22 caliber rifles, .30 caliber rifles, or M-1911 pistols.

SEC. 8019. No more than \$500,000 of the funds appropriated or made available in this Act shall be used during a single fiscal year for any single relocation of an organization, unit, activity or function of the Department of Defense into or within the National Capital Region: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the congressional defense committees that such a relocation is required in the best interest of the Government.

SEC. 8020. In addition to the funds provided elsewhere in this Act, \$15,000,000 is appropriated only for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544): Provided, That a prime contractor

or a subcontractor at any tier that makes a subcontract award to any subcontractor or supplier as defined in section 1544 of title 25, United States Code, or a small business owned and controlled by an individual or individuals defined under section 4221(9) of title 25, United States Code, shall be considered a contractor for the purposes of being allowed additional compensation under section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544) whenever the prime contract or subcontract amount is over \$500,000 and involves the expenditure of funds appropriated by an Act making Appropriations for the Department of Defense with respect to any fiscal year: Provided further, That notwithstanding section 430 of title 41, United States Code, this section shall be applicable to any Department of Defense acquisition of supplies or services, including any contract and any subcontract at any tier for acquisition of commercial items produced or manufactured, in whole or in part by any subcontractor or supplier defined in section 1544 of title 25, United States Code, or a small business owned and controlled by an individual or individuals defined under section 4221(9) of title 25, United States Code.

SEC. 8021. Funds appropriated by this Act for the Defense Media Activity shall not be used for any national or international political or psychological activities.

SEC. 8022. None of the funds appropriated by this Act shall be available to perform any cost study pursuant to the provisions of OMB Circular A-76 if the study being performed exceeds a period of 24 months after initiation of such study with respect to a single function activity or 30 months after initiation of such study for a multi-function activity.

SEC. 8023. During the current fiscal year, the Department of Defense is authorized to incur obligations of not to exceed \$350,000,000 for purposes specified in section 2350f(c) of title 10, United States Code, in anticipation of receipt of contributions, only from the Government of Kuwait, under that section: Provided, That upon receipt, such contributions from the Government of Kuwait shall be credited to the appropriations or fund which incurred such obligations.

SEC. 8024. (a) Of the funds made available in this Act, not less than \$25,756,000 shall be available for the Civil Air Patrol Corporation, of which—

(1) \$22,433,000 shall be available from "Operation and Maintenance, Air Force" to support Civil Air Patrol Corporation operation and maintenance, readiness, counterdrug activities, and drug demand reduction activities involving youth programs;

(2) \$2,426,000 shall be available from "Aircraft Procurement, Air Force"; and

(3) \$897,000 shall be available from "Other Procurement, Air Force" for vehicle procurement.

(b) The Secretary of the Air Force should waive reimbursement for any funds used by the Civil Air Patrol for counter-drug activities in support of Federal, State, and local government agencies.

SEC. 8025. (a) None of the funds appropriated in this Act are available to establish a new Department of Defense (department) federally funded research and development center (FFRDC), either as a new entity, or as a separate entity administered by an organization managing another FFRDC, or as a nonprofit membership corporation consisting of a consortium of other FFRDCs and other nonprofit entities.

(b) No member of a Board of Directors, Trustees, Overseers, Advisory Group, Special Issues Panel, Visiting Committee, or any similar entity of a defense FFRDC, and no paid consultant to any defense FFRDC, except when acting in a technical advisory capacity, may be com-

pensated for his or her services as a member of such entity, or as a paid consultant by more than one FFRDC in a fiscal year: Provided, That a member of any such entity referred to previously in this subsection shall be allowed travel expenses and per diem as authorized under the Federal Joint Travel Regulations, when engaged in the performance of membership duties.

(c) Notwithstanding any other provision of law, none of the funds available to the department from any source during fiscal year 2010 may be used by a defense FFRDC, through a fee or other payment mechanism, for construction of new buildings, for payment of cost sharing for projects funded by Government grants, for absorption of contract overruns, or for certain charitable contributions, not to include employee participation in community service and/or development.

(d) Notwithstanding any other provision of law, of the funds available to the department during fiscal year 2010, not more than 5,600 staff years of technical effort (staff years) may be funded for defense FFRDCs: Provided, That of the specific amount referred to previously in this subsection, not more than 1,100 staff years may be funded for the defense studies and analysis FFRDCs: Provided further, That this subsection shall not apply to staff years funded in the National Intelligence Program (NIP) and the Military Intelligence Program (MIP).

(e) The Secretary of Defense shall, with the submission of the department's fiscal year 2011 budget request, submit a report presenting the specific amounts of staff years of technical effort to be allocated for each defense FFRDC during that fiscal year and the associated budget estimates.

(f) Notwithstanding any other provision of this Act, the total amount appropriated in this Act for FFRDCs is hereby reduced by \$120,200,000.

SEC. 8026. None of the funds appropriated or made available in this Act shall be used to procure carbon, alloy or armor steel plate for use in any Government-owned facility or property under the control of the Department of Defense which were not melted and rolled in the United States or Canada: Provided, That these procurement restrictions shall apply to any and all Federal Supply Class 9515, American Society of Testing and Materials (ASTM) or American Iron and Steel Institute (AISI) specifications of carbon, alloy or armor steel plate: Provided further, That the Secretary of the military department responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: Provided further, That these restrictions shall not apply to contracts which are in being as of the date of the enactment of this Act.

SEC. 8027. For the purposes of this Act, the term "congressional defense committees" means the Armed Services Committee of the House of Representatives, the Armed Services Committee of the Senate, the Subcommittee on Defense of the Committee on Appropriations of the Senate, and the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives.

SEC. 8028. During the current fiscal year, the Department of Defense may acquire the modification, depot maintenance and repair of aircraft, vehicles and vessels as well as the production of components and other Defense-related articles, through competition between Department of Defense depot maintenance activities

and private firms: Provided, That the Senior Acquisition Executive of the military department or Defense Agency concerned, with power of delegation, shall certify that successful bids include comparable estimates of all direct and indirect costs for both public and private bids: Provided further, That Office of Management and Budget Circular A-76 shall not apply to competitions conducted under this section.

SEC. 8029. (a)(1) If the Secretary of Defense, after consultation with the United States Trade Representative, determines that a foreign country which is party to an agreement described in paragraph (2) has violated the terms of the agreement by discriminating against certain types of products produced in the United States that are covered by the agreement, the Secretary of Defense shall rescind the Secretary's blanket waiver of the Buy American Act with respect to such types of products produced in that foreign country.

(2) An agreement referred to in paragraph (1) is any reciprocal defense procurement memorandum of understanding, between the United States and a foreign country pursuant to which the Secretary of Defense has prospectively waived the Buy American Act for certain products in that country.

(b) The Secretary of Defense shall submit to the Congress a report on the amount of Department of Defense purchases from foreign entities in fiscal year 2010. Such report shall separately indicate the dollar value of items for which the Buy American Act was waived pursuant to any agreement described in subsection (a)(2), the Trade Agreement Act of 1979 (19 U.S.C. 2501 et seq.), or any international agreement to which the United States is a party.

(c) For purposes of this section, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).

SEC. 8030. During the current fiscal year, amounts contained in the Department of Defense Overseas Military Facility Investment Recovery Account established by section 2921(c)(1) of the National Defense Authorization Act of 1991 (Public Law 101-510; 10 U.S.C. 2687 note) shall be available until expended for the payments specified by section 2921(c)(2) of that Act.

SEC. 8031. (a) Notwithstanding any other provision of law, the Secretary of the Air Force may convey at no cost to the Air Force, without consideration, to Indian tribes located in the States of Nevada, Idaho, North Dakota, South Dakota, Montana, Oregon, and Minnesota relocatable military housing units located at Grand Forks Air Force Base, Malmstrom Air Force Base, Mountain Home Air Force Base, Ellsworth Air Force Base, and Minot Air Force Base that are excess to the needs of the Air Force.

(b) The Secretary of the Air Force shall convey, at no cost to the Air Force, military housing units under subsection (a) in accordance with the request for such units that are submitted to the Secretary by the Operation Walking Shield Program on behalf of Indian tribes located in the States of Nevada, Idaho, North Dakota, South Dakota, Montana, Oregon, and Minnesota.

(c) The Operation Walking Shield Program shall resolve any conflicts among requests of Indian tribes for housing units under subsection (a) before submitting requests to the Secretary of the Air Force under subsection (b).

(d) In this section, the term "Indian tribe" means any recognized Indian tribe included on the current list published by the Secretary of the Interior under section 104 of the Federally Recognized Indian Tribe Act of 1994 (Public Law 103-454; 108 Stat. 4792; 25 U.S.C. 479a-1).

SEC. 8032. During the current fiscal year, appropriations which are available to the Department of Defense for operation and maintenance may be used to purchase items having an investment item unit cost of not more than \$250,000.

SEC. 8033. (a) During the current fiscal year, none of the appropriations or funds available to the Department of Defense Working Capital Funds shall be used for the purchase of an investment item for the purpose of acquiring a new inventory item for sale or anticipated sale during the current fiscal year or a subsequent fiscal year to customers of the Department of Defense Working Capital Funds if such an item would not have been chargeable to the Department of Defense Business Operations Fund during fiscal year 1994 and if the purchase of such an investment item would be chargeable during the current fiscal year to appropriations made to the Department of Defense for procurement.

(b) The fiscal year 2011 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2011 Department of Defense budget shall be prepared and submitted to the Congress on the basis that any equipment which was classified as an end item and funded in a procurement appropriation contained in this Act shall be budgeted for in a proposed fiscal year 2011 procurement appropriation and not in the supply management business area or any other area or category of the Department of Defense Working Capital Funds.

SEC. 8034. None of the funds appropriated by this Act for programs of the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year, except for funds appropriated for the Reserve for Contingencies, which shall remain available until September 30, 2011: Provided, That funds appropriated, transferred, or otherwise credited to the Central Intelligence Agency Central Services Working Capital Fund during this or any prior or subsequent fiscal year shall remain available until expended: Provided further, That any funds appropriated or transferred to the Central Intelligence Agency for advanced research and development acquisition, for agent operations, and for covert action programs authorized by the President under section 503 of the National Security Act of 1947, as amended, shall remain available until September 30, 2011.

SEC. 8035. Notwithstanding any other provision of law, funds made available in this Act for the Defense Intelligence Agency may be used for the design, development, and deployment of General Defense Intelligence Program intelligence communications and intelligence information systems for the Services, the Unified and Specified Commands, and the component commands.

SEC. 8036. Of the funds appropriated to the Department of Defense under the heading "Operation and Maintenance, Defense-Wide", not less than \$12,000,000 shall be made available only for the mitigation of environmental impacts, including training and technical assistance to tribes, related administrative support, the gathering of information, documenting of environmental damage, and developing a system for prioritization of mitigation and cost to complete estimates for mitigation, on Indian lands resulting from Department of Defense activities.

SEC. 8037. (a) None of the funds appropriated in this Act may be expended by an entity of the Department of Defense unless the entity, in expending the funds, complies with the Buy American Act. For purposes of this subsection, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).

(b) If the Secretary of Defense determines that a person has been convicted of intentionally affixing a label bearing a "Made in America" inscription to any product sold in or shipped to the United States that is not made in America, the Secretary shall determine, in accordance with section 2410f of title 10, United States Code, whether the person should be debarred from contracting with the Department of Defense.

(c) In the case of any equipment or products purchased with appropriations provided under this Act, it is the sense of the Congress that any entity of the Department of Defense, in expending the appropriation, purchase only American-made equipment and products, provided that American-made equipment and products are cost-competitive, quality-competitive, and available in a timely fashion.

SEC. 8038. None of the funds appropriated by this Act shall be available for a contract for studies, analysis, or consulting services entered into without competition on the basis of an unsolicited proposal unless the head of the activity responsible for the procurement determines—

(1) as a result of thorough technical evaluation, only one source is found fully qualified to perform the proposed work;

(2) the purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source; or

(3) the purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support: Provided, That this limitation shall not apply to contracts in an amount of less than \$25,000, contracts related to improvements of equipment that is in development or production, or contracts as to which a civilian official of the Department of Defense, who has been confirmed by the Senate, determines that the award of such contract is in the interest of the national defense.

SEC. 8039. (a) Except as provided in subsections (b) and (c), none of the funds made available by this Act may be used—

(1) to establish a field operating agency; or  
(2) to pay the basic pay of a member of the Armed Forces or civilian employee of the department who is transferred or reassigned from a headquarters activity if the member or employee's place of duty remains at the location of that headquarters.

(b) The Secretary of Defense or Secretary of a military department may waive the limitations in subsection (a), on a case-by-case basis, if the Secretary determines, and certifies to the Committees on Appropriations of the House of Representatives and Senate that the granting of the waiver will reduce the personnel requirements or the financial requirements of the department.

(c) This section does not apply to—

(1) field operating agencies funded within the National Intelligence Program; or

(2) an Army field operating agency established to eliminate, mitigate, or counter the effects of improvised explosive devices, and, as determined by the Secretary of the Army, other similar threats.

#### (RESCISSIONS)

SEC. 8040. Of the funds appropriated in Department of Defense Appropriations Acts, the following funds are hereby rescinded from the following accounts and programs in the specified amounts:

"Research, Development, Test and Evaluation, Air Force, 2009/2010", \$110,230,000;

"Research, Development, Test and Evaluation, Defense-Wide, 2009/2010", \$199,750,000;

"Procurement of Weapons and Tracked Combat Vehicles, Army, 2009/2011", \$41,087,000;

"Other Procurement, Army, 2009/2011", \$138,239,000;

"Aircraft Procurement, Air Force, 2009/2011", \$628,900,000;

"Missile Procurement, Air Force, 2009/2011", \$147,595,000;

"Other Procurement, Air Force, 2009/2011", \$5,000,000;

"Procurement, Defense-Wide, 2009/2011", \$5,200,000; and

"Procurement, Defense-Wide, 2008/2010", \$2,000,000.

SEC. 8041. None of the funds available in this Act may be used to reduce the authorized positions for military (civilian) technicians of the Army National Guard, Air National Guard, Army Reserve and Air Force Reserve for the purpose of applying any administratively imposed civilian personnel ceiling, freeze, or reduction on military (civilian) technicians, unless such reductions are a direct result of a reduction in military force structure.

SEC. 8042. None of the funds appropriated or otherwise made available in this Act may be obligated or expended for assistance to the Democratic People's Republic of Korea unless specifically appropriated for that purpose.

SEC. 8043. Funds appropriated in this Act for operation and maintenance of the Military Departments, Combatant Commands and Defense Agencies shall be available for reimbursement of pay, allowances and other expenses which would otherwise be incurred against appropriations for the National Guard and Reserve when members of the National Guard and Reserve provide intelligence or counterintelligence support to Combatant Commands, Defense Agencies and Joint Intelligence Activities, including the activities and programs included within the National Intelligence Program and the Military Intelligence Program: Provided, That nothing in this section authorizes deviation from established Reserve and National Guard personnel and training procedures.

SEC. 8044. During the current fiscal year, none of the funds appropriated in this Act may be used to reduce the civilian medical and medical support personnel assigned to military treatment facilities below the September 30, 2003, level: Provided, That the Service Surgeons General may waive this section by certifying to the congressional defense committees that the beneficiary population is declining in some catchment areas and civilian strength reductions may be consistent with responsible resource stewardship and capitation-based budgeting.

SEC. 8045. (a) None of the funds available to the Department of Defense for any fiscal year for drug interdiction or counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

(b) None of the funds available to the Central Intelligence Agency for any fiscal year for drug interdiction and counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

SEC. 8046. None of the funds appropriated by this Act may be used for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin: Provided, That the Secretary of the military department responsible for such procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate, that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: Provided further, That this restriction shall not apply to the purchase of "commercial items", as defined by section 4(12) of the Office of Federal Procure-

ment Policy Act, except that the restriction shall apply to ball or roller bearings purchased as end items.

SEC. 8047. None of the funds in this Act may be used to purchase any supercomputer which is not manufactured in the United States, unless the Secretary of Defense certifies to the congressional defense committees that such an acquisition must be made in order to acquire capability for national security purposes that is not available from United States manufacturers.

SEC. 8048. None of the funds made available in this or any other Act may be used to pay the salary of any officer or employee of the Department of Defense who approves or implements the transfer of administrative responsibilities or budgetary resources of any program, project, or activity financed by this Act to the jurisdiction of another Federal agency not financed by this Act without the express authorization of Congress: Provided, That this limitation shall not apply to transfers of funds expressly provided for in Defense Appropriations Acts, or provisions of Acts providing supplemental appropriations for the Department of Defense.

SEC. 8049. (a) Notwithstanding any other provision of law, none of the funds available to the Department of Defense for the current fiscal year may be obligated or expended to transfer to another nation or an international organization any defense articles or services (other than intelligence services) for use in the activities described in subsection (b) unless the congressional defense committees, the Committee on Foreign Affairs of the House of Representatives, and the Committee on Foreign Relations of the Senate are notified 15 days in advance of such transfer.

(b) This section applies to—

(1) any international peacekeeping or peace-enforcement operation under the authority of chapter VI or chapter VII of the United Nations Charter under the authority of a United Nations Security Council resolution; and

(2) any other international peacekeeping, peace-enforcement, or humanitarian assistance operation.

(c) A notice under subsection (a) shall include the following—

(1) A description of the equipment, supplies, or services to be transferred.

(2) A statement of the value of the equipment, supplies, or services to be transferred.

(3) In the case of a proposed transfer of equipment or supplies—

(A) a statement of whether the inventory requirements of all elements of the Armed Forces (including the reserve components) for the type of equipment or supplies to be transferred have been met; and

(B) a statement of whether the items proposed to be transferred will have to be replaced and, if so, how the President proposes to provide funds for such replacement.

SEC. 8050. None of the funds available to the Department of Defense under this Act shall be obligated or expended to pay a contractor under a contract with the Department of Defense for costs of any amount paid by the contractor to an employee when—

(1) such costs are for a bonus or otherwise in excess of the normal salary paid by the contractor to the employee; and

(2) such bonus is part of restructuring costs associated with a business combination.

#### (INCLUDING TRANSFER OF FUNDS)

SEC. 8051. During the current fiscal year, no more than \$30,000,000 of appropriations made in this Act under the heading "Operation and Maintenance, Defense-Wide" may be transferred to appropriations available for the pay of military personnel, to be merged with, and to be available for the same time period as the appropriations to which transferred, to be used in

support of such personnel in connection with support and services for eligible organizations and activities outside the Department of Defense pursuant to section 2012 of title 10, United States Code.

SEC. 8052. (a) IN GENERAL.—Service as a member of the Alaska Territorial Guard during World War II of any individual who was honorably discharged therefrom under section 8147 of the Department of Defense Appropriations Act, 2001 (Public Law 106-259; 114 Stat. 705) shall be treated as active service for purposes of the computation under chapter 61, 71, 371, 571, 871, or 1223 of title 10, United States Code, as applicable, of the retired pay to which such individual may be entitled under title 10, United States Code.

(b) APPLICABILITY.—Subsection (a) shall apply with respect to amounts of retired pay payable under title 10, United States Code, for months beginning on or after the date of the enactment of this Act. No retired pay shall be paid to any individual by reason of subsection (a) for any period before that date.

(c) WORLD WAR II DEFINED.—In this section, the term "World War II" has the meaning given that term in section 101(8) of title 38, United States Code.

SEC. 8053. (a) Notwithstanding any other provision of law, the Chief of the National Guard Bureau may permit the use of equipment of the National Guard Distance Learning Project by any person or entity on a space-available, reimbursable basis. The Chief of the National Guard Bureau shall establish the amount of reimbursement for such use on a case-by-case basis.

(b) Amounts collected under subsection (a) shall be credited to funds available for the National Guard Distance Learning Project and be available to defray the costs associated with the use of equipment of the project under that subsection. Such funds shall be available for such purposes without fiscal year limitation.

SEC. 8054. Using funds available by this Act or any other Act, the Secretary of the Air Force, pursuant to a determination under section 2690 of title 10, United States Code, may implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community in the Federal Republic of Germany: Provided, That in the City of Kaiserslautern such agreements will include the use of United States anthracite as the base load energy for municipal district heat to the United States Defense installations: Provided further, That at Landstuhl Army Regional Medical Center and Ramstein Air Base, furnished heat may be obtained from private, regional or municipal services, if provisions are included for the consideration of United States coal as an energy source.

SEC. 8055. None of the funds appropriated in title IV of this Act may be used to procure end-items for delivery to military forces for operational training, operational use or inventory requirements: Provided, That this restriction does not apply to end-items used in development, prototyping, and test activities preceding and leading to acceptance for operational use: Provided further, That this restriction does not apply to programs funded within the National Intelligence Program: Provided further, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do so.

SEC. 8056. None of the funds made available in this Act may be used to approve or license the sale of the F-22A advanced tactical fighter to any foreign government: Provided, That the Department of Defense may conduct or participate in studies, research, design and other activities

to define and develop a future export version of the F-22A that protects classified and sensitive information, technologies and U.S. warfighting capabilities.

SEC. 8057. (a) The Secretary of Defense may, on a case-by-case basis, waive with respect to a foreign country each limitation on the procurement of defense items from foreign sources provided in law if the Secretary determines that the application of the limitation with respect to that country would invalidate cooperative programs entered into between the Department of Defense and the foreign country, or would invalidate reciprocal trade agreements for the procurement of defense items entered into under section 2531 of title 10, United States Code, and the country does not discriminate against the same or similar defense items produced in the United States for that country.

(b) Subsection (a) applies with respect to—

(1) contracts and subcontracts entered into on or after the date of the enactment of this Act; and

(2) options for the procurement of items that are exercised after such date under contracts that are entered into before such date if the option prices are adjusted for any reason other than the application of a waiver granted under subsection (a).

(c) Subsection (a) does not apply to a limitation regarding construction of public vessels, ball and roller bearings, food, and clothing or textile materials as defined by section 11 (chapters 50–65) of the Harmonized Tariff Schedule and products classified under headings 4010, 4202, 4203, 6401 through 6406, 6505, 7019, 7218 through 7229, 7304.41 through 7304.49, 7306.40, 7502 through 7508, 8105, 8108, 8109, 8211, 8215, and 9404.

SEC. 8058. (a) None of the funds made available by this Act may be used to support any training program involving a unit of the security forces of a foreign country if the Secretary of Defense has received credible information from the Department of State that the unit has committed a gross violation of human rights, unless all necessary corrective steps have been taken.

(b) The Secretary of Defense, in consultation with the Secretary of State, shall ensure that prior to a decision to conduct any training program referred to in subsection (a), full consideration is given to all credible information available to the Department of State relating to human rights violations by foreign security forces.

(c) The Secretary of Defense, after consultation with the Secretary of State, may waive the prohibition in subsection (a) if he determines that such waiver is required by extraordinary circumstances.

(d) Not more than 15 days after the exercise of any waiver under subsection (c), the Secretary of Defense shall submit a report to the congressional defense committees describing the extraordinary circumstances, the purpose and duration of the training program, the United States forces and the foreign security forces involved in the training program, and the information relating to human rights violations that necessitates the waiver.

SEC. 8059. None of the funds appropriated or made available in this Act to the Department of the Navy shall be used to develop, lease or procure the T-AKE class of ships unless the main propulsion diesel engines and propulsors are manufactured in the United States by a domestically operated entity: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely

basis and that such an acquisition must be made in order to acquire capability for national security purposes or there exists a significant cost or quality difference.

SEC. 8060. None of the funds appropriated or otherwise made available by this or other Department of Defense Appropriations Acts may be obligated or expended for the purpose of performing repairs or maintenance to military family housing units of the Department of Defense, including areas in such military family housing units that may be used for the purpose of conducting official Department of Defense business.

SEC. 8061. Notwithstanding any other provision of law, funds appropriated in this Act under the heading “Research, Development, Test and Evaluation, Defense-Wide” for any new start advanced concept technology demonstration project or joint capability demonstration project may only be obligated 30 days after a report, including a description of the project, the planned acquisition and transition strategy and its estimated annual and total cost, has been provided in writing to the congressional defense committees: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying to the congressional defense committees that it is in the national interest to do so.

SEC. 8062. The Secretary of Defense shall provide a classified quarterly report beginning 30 days after enactment of this Act, to the House and Senate Appropriations Committees, Subcommittees on Defense on certain matters as directed in the classified annex accompanying this Act.

SEC. 8063. During the current fiscal year, none of the funds available to the Department of Defense may be used to provide support to another department or agency of the United States if such department or agency is more than 90 days in arrears in making payment to the Department of Defense for goods or services previously provided to such department or agency on a reimbursable basis: Provided, That this restriction shall not apply if the department is authorized by law to provide support to such department or agency on a nonreimbursable basis, and is providing the requested support pursuant to such authority: Provided further, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do so.

SEC. 8064. Notwithstanding section 12310(b) of title 10, United States Code, a Reserve who is a member of the National Guard serving on full-time National Guard duty under section 502(f) of title 32, United States Code, may perform duties in support of the ground-based elements of the National Ballistic Missile Defense System.

SEC. 8065. None of the funds provided in this Act may be used to transfer to any nongovernmental entity ammunition held by the Department of Defense that has a center-fire cartridge and a United States military nomenclature designation of “armor penetrator”, “armor piercing (AP)”, “armor piercing incendiary (API)”, or “armor-piercing incendiary-tracer (API-T)”, except to an entity performing demilitarization services for the Department of Defense under a contract that requires the entity to demonstrate to the satisfaction of the Department of Defense that armor piercing projectiles are either: (1) rendered incapable of reuse by the demilitarization process; or (2) used to manufacture ammunition pursuant to a contract with the Department of Defense or the manufacture of ammunition for export pursuant to a License for Permanent Export of Unclassified Military Articles issued by the Department of State.

SEC. 8066. Notwithstanding any other provision of law, the Chief of the National Guard

Bureau, or his designee, may waive payment of all or part of the consideration that otherwise would be required under section 2667 of title 10, United States Code, in the case of a lease of personal property for a period not in excess of 1 year to any organization specified in section 508(d) of title 32, United States Code, or any other youth, social, or fraternal nonprofit organization as may be approved by the Chief of the National Guard Bureau, or his designee, on a case-by-case basis.

SEC. 8067. None of the funds appropriated by this Act shall be used for the support of any nonappropriated funds activity of the Department of Defense that procures malt beverages and wine with nonappropriated funds for resale (including such alcoholic beverages sold by the drink) on a military installation located in the United States unless such malt beverages and wine are procured within that State, or in the case of the District of Columbia, within the District of Columbia, in which the military installation is located: Provided, That in a case in which the military installation is located in more than one State, purchases may be made in any State in which the installation is located: Provided further, That such local procurement requirements for malt beverages and wine shall apply to all alcoholic beverages only for military installations in States which are not contiguous with another State: Provided further, That alcoholic beverages other than wine and malt beverages, in contiguous States and the District of Columbia shall be procured from the most competitive source, price and other factors considered.

SEC. 8068. Funds available to the Department of Defense for the Global Positioning System during the current fiscal year may be used to fund civil requirements associated with the satellite and ground control segments of such system's modernization program.

#### (INCLUDING TRANSFER OF FUNDS)

SEC. 8069. Of the amounts appropriated in this Act under the heading “Operation and Maintenance, Army”, \$106,754,000 shall remain available until expended: Provided, That notwithstanding any other provision of law, the Secretary of Defense is authorized to transfer such funds to other activities of the Federal Government: Provided further, That the Secretary of Defense is authorized to enter into and carry out contracts for the acquisition of real property, construction, personal services, and operations related to projects carrying out the purposes of this section: Provided further, That contracts entered into under the authority of this section may provide for such indemnification as the Secretary determines to be necessary: Provided further, That projects authorized by this section shall comply with applicable Federal, State, and local law to the maximum extent consistent with the national security, as determined by the Secretary of Defense.

SEC. 8070. Section 8106 of the Department of Defense Appropriations Act, 1997 (titles I through VIII of the matter under subsection 101(b) of Public Law 104–208; 110 Stat. 3009–111; 10 U.S.C. 113 note) shall continue in effect to apply to disbursements that are made by the Department of Defense in fiscal year 2010.

#### (INCLUDING TRANSFER OF FUNDS)

SEC. 8071. Of the amounts appropriated in this Act under the heading “Research, Development, Test and Evaluation, Defense-Wide”, \$202,434,000 shall be for the Israeli Cooperative Programs: Provided, That of this amount, \$80,092,000 shall be for the Short Range Ballistic Missile Defense (SRBMD) program, \$50,036,000 shall be available for an upper-tier component to the Israeli Missile Defense Architecture, and \$72,306,000 shall be for the Arrow Missile Defense Program, of which \$25,000,000 shall be for

producing Arrow missile components in the United States and Arrow missile components in Israel to meet Israel's defense requirements, consistent with each nation's laws, regulations and procedures: Provided further, That funds made available under this provision for production of missiles and missile components may be transferred to appropriations available for the procurement of weapons and equipment, to be merged with and to be available for the same time period and the same purposes as the appropriation to which transferred: Provided further, That the transfer authority provided under this provision is in addition to any other transfer authority contained in this Act.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8072. Of the amounts appropriated in this Act under the heading "Shipbuilding and Conversion, Navy", \$144,950,000 shall be available until September 30, 2010, to fund prior year shipbuilding cost increases: Provided, That upon enactment of this Act, the Secretary of the Navy shall transfer such funds to the following appropriations in the amounts specified: Provided further, That the amounts transferred shall be merged with and be available for the same purposes as the appropriations to which transferred:

To:

Under the heading "Shipbuilding and Conversion, Navy, 2004/2010":

New SSN, \$26,906,000; and

LPD-17 Amphibious Transport Dock Program, \$16,844,000.

Under the heading "Shipbuilding and Conversion, Navy, 2005/2010":

New SSN, \$18,702,000; and

LPD-17 Amphibious Transport Dock Program, \$16,498,000.

Under the heading "Shipbuilding and Conversion, Navy, 2008/2012":

LPD-17 Amphibious Transport Dock Program, \$66,000,000.

SEC. 8073. None of the funds available to the Department of Defense may be obligated to modify command and control relationships to give Fleet Forces Command administrative and operational control of U.S. Navy forces assigned to the Pacific fleet: Provided, That the command and control relationships which existed on October 1, 2004, shall remain in force unless changes are specifically authorized in a subsequent Act.

SEC. 8074. Notwithstanding any other provision of law or regulation, the Secretary of Defense may exercise the provisions of section 7403(g) of title 38, United States Code, for occupations listed in section 7403(a)(2) of title 38, United States Code, as well as the following:

Pharmacists, Audiologists, Psychologists, Social Workers, Othotists/Prosthetists, Occupational Therapists, Physical Therapists, Rehabilitation Therapists, Respiratory Therapists, Speech Pathologists, Dietitian/Nutritionists, Industrial Hygienists, Psychology Technicians, Social Service Assistants, Practical Nurses, Nursing Assistants, and Dental Hygienists:

(A) The requirements of section 7403(g)(1)(A) of title 38, United States Code, shall apply.

(B) The limitations of section 7403(g)(1)(B) of title 38, United States Code, shall not apply.

SEC. 8075. Funds appropriated by this Act, or made available by the transfer of funds in this Act, for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 2010 until the enactment of the Intelligence Authorization Act for Fiscal Year 2010.

SEC. 8076. None of the funds provided in this Act shall be available for obligation or expenditure through a reprogramming of funds that creates or initiates a new program, project, or activity unless such program, project, or activity must be undertaken immediately in the interest

of national security and only after written prior notification to the congressional defense committees.

SEC. 8077. In addition to funds made available elsewhere in this Act, \$5,500,000 is hereby appropriated and shall remain available until expended to provide assistance, by grant or otherwise (such as the provision of funds for information technology and textbook purchases, professional development for educators, and student transition support) to public schools in states that are considered overseas assignments with unusually high concentrations of special needs military dependents enrolled: Provided, That up to 2 percent of the total appropriated funds under this section shall be available for the administration and execution of the programs and/or events that promote the purpose of this appropriation: Provided further, That up to 5 percent of the total appropriated funds under this section shall be available to public schools that have entered into a military partnership: Provided further, That \$1,000,000 shall be available for a nonprofit trust fund to assist in the public-private funding of public school repair and maintenance projects: Provided further, That \$500,000 shall be available to fund an ongoing special education support program in public schools with unusually high concentrations of active duty military dependents enrolled: Provided further, That to the extent a Federal agency provides this assistance by contract, grant, or otherwise, it may accept and expend non-Federal funds in combination with these Federal funds to provide assistance for the authorized purpose.

SEC. 8078. In addition to the amounts appropriated or otherwise made available elsewhere in this Act, \$50,500,000 is hereby appropriated to the Department of Defense: Provided, That the Secretary of Defense shall make grants in the amounts specified as follows: \$20,000,000 to the Edward M. Kennedy Institute for the Senate; \$5,500,000 to the U.S.S. Missouri Memorial Association; and \$25,000,000 to the National World War II Museum.

SEC. 8079. The budget of the President for fiscal year 2011 submitted to the Congress pursuant to section 1105 of title 31, United States Code, shall include separate budget justification documents for costs of United States Armed Forces' participation in contingency operations for the Military Personnel accounts, the Operation and Maintenance accounts, and the Procurement accounts: Provided, That these documents shall include a description of the funding requested for each contingency operation, for each military service, to include all Active and Reserve components, and for each appropriations account: Provided further, That these documents shall include estimated costs for each element of expense or object class, a reconciliation of increases and decreases for each contingency operation, and programmatic data including, but not limited to, troop strength for each Active and Reserve component, and estimates of the major weapons systems deployed in support of each contingency: Provided further, That these documents shall include budget exhibits OP-5 and OP-32 (as defined in the Department of Defense Financial Management Regulation) for all contingency operations for the budget year and the two preceding fiscal years.

SEC. 8080. None of the funds in this Act may be used for research, development, test, evaluation, procurement or deployment of nuclear armed interceptors of a missile defense system.

SEC. 8081. None of the funds appropriated or made available in this Act shall be used to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve, if such action would reduce the WC-130 Weather Reconnaissance mission below the levels funded in this Act: Provided, That the

Air Force shall allow the 53rd Weather Reconnaissance Squadron to perform other missions in support of national defense requirements during the non-hurricane season.

SEC. 8082. None of the funds provided in this Act shall be available for integration of foreign intelligence information unless the information has been lawfully collected and processed during the conduct of authorized foreign intelligence activities: Provided, That information pertaining to United States persons shall only be handled in accordance with protections provided in the Fourth Amendment of the United States Constitution as implemented through Executive Order No. 12333.

SEC. 8083. (a) At the time members of reserve components of the Armed Forces are called or ordered to active duty under section 12302(a) of title 10, United States Code, each member shall be notified in writing of the expected period during which the member will be mobilized.

(b) The Secretary of Defense may waive the requirements of subsection (a) in any case in which the Secretary determines that it is necessary to do so to respond to a national security emergency or to meet dire operational requirements of the Armed Forces.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8084. The Secretary of Defense may transfer funds from any available Department of the Navy appropriation to any available Navy ship construction appropriation for the purpose of liquidating necessary changes resulting from inflation, market fluctuations, or rate adjustments for any ship construction program appropriated in law: Provided, That the Secretary may transfer not to exceed \$100,000,000 under the authority provided by this section: Provided further, That the Secretary may not transfer any funds until 30 days after the proposed transfer has been reported to the Committees on Appropriations of the House of Representatives and the Senate, unless a response from the Committees is received sooner: Provided further, That the transfer authority provided by this section is in addition to any other transfer authority contained elsewhere in this Act.

SEC. 8085. For purposes of section 612 of title 41, United States Code, any subdivision of appropriations made under the heading "Shipbuilding and Conversion, Navy" that is not closed at the time reimbursement is made shall be available to reimburse the Judgment Fund and shall be considered for the same purposes as any subdivision under the heading "Shipbuilding and Conversion, Navy" appropriations in the current fiscal year or any prior fiscal year.

SEC. 8086. (a) None of the funds appropriated by this Act may be used to transfer research and development, acquisition, or other program authority relating to current tactical unmanned aerial vehicles (TUAVs) from the Army.

(b) The Army shall retain responsibility for and operational control of the MQ-1C Sky Warrior Unmanned Aerial Vehicle (UAV) in order to support the Secretary of Defense in matters relating to the employment of unmanned aerial vehicles.

SEC. 8087. Of the funds provided in this Act, \$10,000,000 shall be available for the operations and development of training and technology for the Joint Interagency Training and Education Center and the affiliated Center for National Response at the Memorial Tunnel and for providing homeland defense/security and traditional warfighting training to the Department of Defense, other Federal agencies, and State and local first responder personnel at the Joint Interagency Training and Education Center.

SEC. 8088. Notwithstanding any other provision of law or regulation, the Secretary of Defense may adjust wage rates for civilian employees hired for certain health care occupations as

authorized for the Secretary of Veterans Affairs by section 7455 of title 38, United States Code.

SEC. 8089. Up to \$16,000,000 of the funds appropriated under the heading "Operation and Maintenance, Navy" may be made available for the Asia Pacific Regional Initiative Program for the purpose of enabling the Pacific Command to execute Theater Security Cooperation activities such as humanitarian assistance, and payment of incremental and personnel costs of training and exercising with foreign security forces: Provided, That funds made available for this purpose may be used, notwithstanding any other funding authorities for humanitarian assistance, security assistance or combined exercise expenses: Provided further, That funds may not be obligated to provide assistance to any foreign country that is otherwise prohibited from receiving such type of assistance under any other provision of law.

SEC. 8090. None of the funds appropriated by this Act for programs of the Office of the Director of National Intelligence shall remain available for obligation beyond the current fiscal year, except for funds appropriated for research and technology, which shall remain available until September 30, 2011.

SEC. 8091. Notwithstanding any other provision of this Act, to reflect savings from revised economic assumptions, the total amount appropriated in title II of this Act is hereby reduced by \$294,000,000, the total amount appropriated in title III of this Act is hereby reduced by \$322,000,000, the total amount appropriated in title IV of this Act is hereby reduced by \$236,000,000, and the total amount appropriated in title V of this Act is hereby reduced by \$9,000,000: Provided, That the Secretary of Defense shall allocate this reduction proportionally to each budget activity, activity group, sub-activity group, and each program, project, and activity, within each appropriation account.

SEC. 8092. For purposes of section 1553(b) of title 31, United States Code, any subdivision of appropriations made in this Act under the heading "Shipbuilding and Conversion, Navy" shall be considered to be for the same purpose as any subdivision under the heading "Shipbuilding and Conversion, Navy" appropriations in any prior fiscal year, and the 1 percent limitation shall apply to the total amount of the appropriation.

SEC. 8093. Notwithstanding any other provision of law, that not more than 35 percent of funds provided in this Act for environmental remediation may be obligated under indefinite delivery/indefinite quantity contracts with a total contract value of \$130,000,000 or higher.

SEC. 8094. The Director of National Intelligence shall include the budget exhibits identified in paragraphs (1) and (2) as described in the Department of Defense Financial Management Regulation with the congressional budget justification books.

(1) For procurement programs requesting more than \$20,000,000 in any fiscal year, the P-1, Procurement Program; P-5, Cost Analysis; P-5a, Procurement History and Planning; P-21, Production Schedule; and P-40 Budget Item Justification.

(2) For research, development, test and evaluation projects requesting more than \$10,000,000 in any fiscal year, the R-1, RDT&E Program; R-2, RDT&E Budget Item Justification; R-3, RDT&E Project Cost Analysis; and R-4, RDT&E Program Schedule Profile.

SEC. 8095. None of the funds made available in this Act may be used in contravention of the following laws enacted or regulations promulgated to implement the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (done at New York on December 10, 1984):

(1) Section 2340A of title 18, United States Code.

(2) Section 2242 of the Foreign Affairs Reform and Restructuring Act of 1998 (division G of Public Law 105-277; 112 Stat. 2681-822; 8 U.S.C. 1231 note) and regulations prescribed thereto, including regulations under part 208 of title 8, Code of Federal Regulations, and part 95 of title 22, Code of Federal Regulations.

(3) Sections 1002 and 1003 of the Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and Pandemic Influenza Act, 2006 (Public Law 109-148).

SEC. 8096. (a) Not later than 60 days after enactment of this Act, the Office of the Director of National Intelligence shall submit a report to the congressional intelligence committees to establish the baseline for application of reprogramming and transfer authorities for fiscal year 2010: Provided, That the report shall include—

(1) a table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level;

(2) a delineation in the table for each appropriation by Expenditure Center and project; and

(3) an identification of items of special congressional interest.

(b) None of the funds provided for the National Intelligence Program in this Act shall be available for reprogramming or transfer until the report identified in subsection (a) is submitted to the congressional intelligence committees, unless the Director of National Intelligence certifies in writing to the congressional intelligence committees that such reprogramming or transfer is necessary as an emergency requirement.

SEC. 8097. The Director of National Intelligence shall submit to Congress each year, at or about the time that the President's budget is submitted to Congress that year under section 1105(a) of title 31, United States Code, a future-years intelligence program (including associated annexes) reflecting the estimated expenditures and proposed appropriations included in that budget. Any such future-years intelligence program shall cover the fiscal year with respect to which the budget is submitted and at least the four succeeding fiscal years.

SEC. 8098. For the purposes of this Act, the term "congressional intelligence committees" means the Permanent Select Committee on Intelligence of the House of Representatives, the Select Committee on Intelligence of the Senate, the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives, and the Subcommittee on Defense of the Committee on Appropriations of the Senate.

SEC. 8099. The Department of Defense shall continue to report incremental contingency operations costs for Operation Iraqi Freedom and Operation Enduring Freedom on a monthly basis in the Cost of War Execution Report as prescribed in the Department of Defense Financial Management Regulation Department of Defense Instruction 7000.14, Volume 12, Chapter 23 "Contingency Operations", Annex 1, dated September 2005.

SEC. 8100. The amounts appropriated in title II of this Act are hereby reduced by \$500,000,000 to reflect excess cash balances in Department of Defense Working Capital Funds, as follows:

From "Operation and Maintenance, Air Force", \$500,000,000.

SEC. 8101. During the current fiscal year, not to exceed \$10,000,000 from each of the appropriations made in title III of this Act for "Operation and Maintenance, Army", "Operation and Maintenance, Navy", and "Operation and Maintenance, Air Force" may be transferred by the military department concerned to its central fund established for Fisher Houses and Suites

pursuant to section 2493(d) of title 10, United States Code.

SEC. 8102. Of the funds appropriated in the Intelligence Community Management Account for the Program Manager for the Information Sharing Environment, \$24,000,000 is available for transfer by the Director of National Intelligence to other departments and agencies for purposes of Government-wide information sharing activities: Provided, That funds transferred under this provision are to be merged with and available for the same purposes and time period as the appropriation to which transferred: Provided further, That the Office of Management and Budget must approve any transfers made under this provision.

SEC. 8103. Funds appropriated by this Act for operation and maintenance shall be available for the purpose of making remittances to the Defense Acquisition Workforce Development Fund in accordance with the requirements of section 1705 of title 10, United States Code.

#### TITLE IX

#### OVERSEAS CONTINGENCY OPERATIONS MILITARY PERSONNEL

##### MILITARY PERSONNEL, ARMY

For an additional amount for "Military Personnel, Army", \$9,597,340,000.

##### MILITARY PERSONNEL, NAVY

For an additional amount for "Military Personnel, Navy", \$1,175,601,000.

##### MILITARY PERSONNEL, MARINE CORPS

For an additional amount for "Military Personnel, Marine Corps", \$670,722,000.

##### MILITARY PERSONNEL, AIR FORCE

For an additional amount for "Military Personnel, Air Force", \$1,445,376,000.

##### RESERVE PERSONNEL, ARMY

For an additional amount for "Reserve Personnel, Army", \$293,637,000.

##### RESERVE PERSONNEL, NAVY

For an additional amount for "Reserve Personnel, Navy", \$37,040,000.

##### RESERVE PERSONNEL, MARINE CORPS

For an additional amount for "Reserve Personnel, Marine Corps", \$31,337,000.

##### RESERVE PERSONNEL, AIR FORCE

For an additional amount for "Reserve Personnel, Air Force", \$19,822,000.

##### NATIONAL GUARD PERSONNEL, ARMY

For an additional amount for "National Guard Personnel, Army", \$824,966,000.

##### NATIONAL GUARD PERSONNEL, AIR FORCE

For an additional amount for "National Guard Personnel, Air Force", \$9,500,000.

#### OPERATION AND MAINTENANCE

##### OPERATION AND MAINTENANCE, ARMY

For an additional amount for "Operation and Maintenance, Army", \$51,928,167,000.

##### OPERATION AND MAINTENANCE, NAVY

For an additional amount for "Operation and Maintenance, Navy", \$5,899,597,000.

##### OPERATION AND MAINTENANCE, MARINE CORPS

For an additional amount for "Operation and Maintenance, Marine Corps", \$3,775,270,000.

##### OPERATION AND MAINTENANCE, AIR FORCE

For an additional amount for "Operation and Maintenance, Air Force", \$9,929,868,000.

#### OPERATION AND MAINTENANCE, DEFENSE-WIDE

For an additional amount for "Operation and Maintenance, Defense-Wide", \$7,550,900,000, of which:

(1) Not to exceed \$12,500,000 for the Combatant Commander Initiative Fund, to be used in support of Operation Iraqi Freedom and Operation Enduring Freedom; and

(2) Not to exceed \$1,600,000,000, to remain available until expended, for payments to reimburse key cooperating nations for logistical, military, and other support, including access provided to United States military operations in support of Operation Iraqi Freedom and Operation Enduring Freedom, notwithstanding any other provision of law: Provided, That such reimbursement payments may be made in such amounts as the Secretary of Defense, with the concurrence of the Secretary of State, and in consultation with the Director of the Office of Management and Budget, may determine, in his discretion, based on documentation determined by the Secretary of Defense to adequately account for the support provided, and such determination is final and conclusive upon the accounting officers of the United States, and 15 days following notification to the appropriate congressional committees: Provided further, That these funds may be used for the purpose of providing specialized training and procuring supplies and specialized equipment and providing such supplies and loaning such equipment on a non-reimbursable basis to coalition forces supporting United States military operations in Iraq and Afghanistan, and 15 days following notification to the appropriate congressional committees: Provided further, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees on the use of funds provided in this paragraph.

**OPERATION AND MAINTENANCE, ARMY RESERVE**  
For an additional amount for "Operation and Maintenance, Army Reserve", \$234,898,000.

**OPERATION AND MAINTENANCE, NAVY RESERVE**  
For an additional amount for "Operation and Maintenance, Navy Reserve", \$68,059,000.

**OPERATION AND MAINTENANCE, MARINE CORPS RESERVE**

For an additional amount for "Operation and Maintenance, Marine Corps Reserve", \$86,667,000.

**OPERATION AND MAINTENANCE, AIR FORCE RESERVE**

For an additional amount for "Operation and Maintenance, Air Force Reserve", \$125,925,000.

**OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD**

For an additional amount for "Operation and Maintenance, Army National Guard", \$450,246,000.

**OPERATION AND MAINTENANCE, AIR NATIONAL GUARD**

For an additional amount for "Operation and Maintenance, Air National Guard", \$289,862,000.

**AFGHANISTAN SECURITY FORCES FUND**

For the "Afghanistan Security Forces Fund", \$6,562,769,000, to remain available until September 30, 2011: Provided, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, for the purpose of allowing the Commander, Combined Security Transition Command—Afghanistan, or the Secretary's designee, to provide assistance, with the concurrence of the Secretary of State, to the security forces of Afghanistan, including the provision of equipment, supplies, services, training, facility and infrastructure repair, renovation, and construction, and funding: Provided further, That the authority to provide assistance under this heading is in addition to any other authority to provide assistance to foreign nations: Provided further, That contributions of funds for the purposes provided herein from any person, foreign government, or international organization may be credited to this Fund and used for such purposes: Provided further, That the Secretary of Defense shall notify the congressional defense committees in writing upon

the receipt and upon the obligation of any contribution, delineating the sources and amounts of the funds received and the specific use of such contributions: Provided further, That the Secretary of Defense shall, not fewer than 15 days prior to obligating from this appropriation account, notify the congressional defense committees in writing of the details of any such obligation.

#### PROCUREMENT

##### AIRCRAFT PROCUREMENT, ARMY

For an additional amount for "Aircraft Procurement, Army", \$1,119,319,000, to remain available until September 30, 2012.

##### MISSILE PROCUREMENT, ARMY

For an additional amount for "Missile Procurement, Army", \$475,954,000, to remain available until September 30, 2012.

##### PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

For an additional amount for "Procurement of Weapons and Tracked Combat Vehicles, Army", \$875,866,000, to remain available until September 30, 2012.

##### PROCUREMENT OF AMMUNITION, ARMY

For an additional amount for "Procurement of Ammunition, Army", \$365,635,000, to remain available until September 30, 2012.

##### OTHER PROCUREMENT, ARMY

For an additional amount for "Other Procurement, Army", \$4,874,176,000, to remain available until September 30, 2012.

##### AIRCRAFT PROCUREMENT, NAVY

For an additional amount for "Aircraft Procurement, Navy", \$1,342,577,000, to remain available until September 30, 2012.

##### WEAPONS PROCUREMENT, NAVY

For an additional amount for "Weapons Procurement, Navy", \$50,700,000, to remain available until September 30, 2012.

##### PROCUREMENT OF AMMUNITION, NAVY AND MARINE CORPS

For an additional amount for "Procurement of Ammunition, Navy and Marine Corps", \$681,957,000, to remain available until September 30, 2012.

##### OTHER PROCUREMENT, NAVY

For an additional amount for "Other Procurement, Navy", \$260,118,000, to remain available until September 30, 2012.

##### PROCUREMENT, MARINE CORPS

For an additional amount for "Procurement, Marine Corps", \$868,197,000, to remain available until September 30, 2012.

##### AIRCRAFT PROCUREMENT, AIR FORCE

For an additional amount for "Aircraft Procurement, Air Force", \$736,501,000, to remain available until September 30, 2012.

##### MISSILE PROCUREMENT, AIR FORCE

For an additional amount for "Missile Procurement, Air Force", \$36,625,000, to remain available until September 30, 2012.

##### PROCUREMENT OF AMMUNITION, AIR FORCE

For an additional amount for "Procurement of Ammunition, Air Force", \$256,819,000, to remain available until September 30, 2012.

##### OTHER PROCUREMENT, AIR FORCE

For an additional amount for "Other Procurement, Air Force", \$3,138,021,000, to remain available until September 30, 2012.

##### PROCUREMENT, DEFENSE-WIDE

For an additional amount for "Procurement, Defense-Wide", \$480,780,000, to remain available until September 30, 2012.

##### MINE RESISTANT AMBUSH PROTECTED VEHICLE FUND

(INCLUDING TRANSFER OF FUNDS)

For the Mine Resistant Ambush Protected Vehicle Fund, \$6,656,000,000, to remain available

until September 30, 2011: Provided, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, to procure, sustain, transport, and field Mine Resistant Ambush Protected vehicles: Provided further, That the Secretary shall transfer such funds only to appropriations for operation and maintenance; procurement; research, development, test and evaluation; and defense working capital funds to accomplish the purpose provided herein: Provided further, That this transfer authority is in addition to any other transfer authority available to the Department of Defense: Provided further, That the Secretary shall, not fewer than 10 days prior to making transfers from this appropriation, notify the congressional defense committees in writing of the details of any such transfer.

##### RESEARCH, DEVELOPMENT, TEST AND EVALUATION

##### RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

For an additional amount for "Research, Development, Test and Evaluation, Army", \$57,962,000, to remain available until September 30, 2011.

##### RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For an additional amount for "Research, Development, Test and Evaluation, Navy", \$84,180,000, to remain available until September 30, 2011.

##### RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For an additional amount for "Research, Development, Test and Evaluation, Air Force", \$39,286,000, to remain available until September 30, 2011.

##### RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

For an additional amount for "Research, Development, Test and Evaluation, Defense-Wide", \$112,196,000, to remain available until September 30, 2011.

##### REVOLVING AND MANAGEMENT FUNDS

##### DEFENSE WORKING CAPITAL FUNDS

For an additional amount for "Defense Working Capital Funds", \$412,215,000.

##### OTHER DEPARTMENT OF DEFENSE PROGRAMS

##### DEFENSE HEALTH PROGRAM

For an additional amount for "Defense Health Program", \$1,563,675,000, which shall be for operation and maintenance.

##### DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES

For an additional amount for "Drug Interdiction and Counter-Drug Activities", \$353,603,000, to remain available until September 30, 2011.

##### JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT FUND

(INCLUDING TRANSFER OF FUNDS)

For the "Joint Improvised Explosive Device Defeat Fund", \$2,033,560,000, to remain available until September 30, 2012: Provided, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, for the purpose of allowing the Director of the Joint Improvised Explosive Device Defeat Organization to investigate, develop and provide equipment, supplies, services, training, facilities, personnel and funds to assist United States forces in the defeat of improvised explosive devices: Provided further, That within 60 days of the enactment of this Act, a plan for the intended management and use of the amounts provided under this heading shall be submitted to the congressional defense committees: Provided further, That the Secretary of Defense

shall submit a report not later than 60 days after the end of each fiscal quarter to the congressional defense committees providing assessments of the evolving threats, individual service requirements to counter the threats, the current strategy for predeployment training of members of the Armed Forces on improvised explosive devices, and details on the execution of this Fund: Provided further, That the Secretary of Defense may transfer funds provided herein to appropriations for operation and maintenance; procurement; research, development, test and evaluation; and defense working capital funds to accomplish the purpose provided herein: Provided further, That amounts transferred shall be merged with and available for the same purposes and time period as the appropriations to which transferred: Provided further, That this transfer authority is in addition to any other transfer authority available to the Department of Defense: Provided further, That the Secretary of Defense shall, not fewer than 15 days prior to making transfers from this appropriation, notify the congressional defense committees in writing of the details of any such transfer.

#### OFFICE OF THE INSPECTOR GENERAL

For an additional amount for the "Office of the Inspector General", \$8,876,000.

#### GENERAL PROVISIONS—THIS TITLE

SEC. 9001. Notwithstanding any other provision of law, funds made available in this title are in addition to amounts appropriated or otherwise made available for the Department of Defense for fiscal year 2010.

#### (INCLUDING TRANSFER OF FUNDS)

SEC. 9002. Upon the determination of the Secretary of Defense that such action is necessary in the national interest, the Secretary may, with the approval of the Office of Management and Budget, transfer up to \$4,000,000,000 between the appropriations or funds made available to the Department of Defense in this title: Provided, That the Secretary shall notify the Congress promptly of each transfer made pursuant to the authority in this section: Provided further, That the authority provided in this section is in addition to any other transfer authority available to the Department of Defense and is subject to the same terms and conditions as the authority provided in the Department of Defense Appropriations Act, 2010: Provided further, That the amount in this section is designated as being for overseas deployments and other activities pursuant to sections 401(c)(4) and 423(a)(1) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

SEC. 9003. Supervision and administration costs associated with a construction project funded with appropriations available for operation and maintenance or the "Afghanistan Security Forces Fund" provided in this Act and executed in direct support of overseas contingency operations in Afghanistan, may be obligated at the time a construction contract is awarded: Provided, That for the purpose of this section, supervision and administration costs include all in-house Government costs.

SEC. 9004. From funds made available in this title, the Secretary of Defense may purchase for use by military and civilian employees of the Department of Defense in Iraq and Afghanistan: (a) passenger motor vehicles up to a limit of \$75,000 per vehicle and (b) heavy and light armored vehicles for the physical security of personnel or for force protection purposes up to a limit of \$250,000 per vehicle, notwithstanding price or other limitations applicable to the purchase of passenger carrying vehicles.

SEC. 9005. Not to exceed \$1,200,000,000 of the amount appropriated in this title under the heading "Operation and Maintenance, Army" may be used, notwithstanding any other provision of law, to fund the Commander's Emer-

gency Response Program, for the purpose of enabling military commanders in Iraq and Afghanistan to respond to urgent humanitarian relief and reconstruction requirements within their areas of responsibility: Provided, That not later than 15 days after the end of each fiscal year quarter, the Secretary of Defense shall submit to the congressional defense committees a report regarding the source of funds and the allocation and use of funds during that quarter that were made available pursuant to the authority provided in this section or under any other provision of law for the purposes described herein.

SEC. 9006. Funds available to the Department of Defense for operation and maintenance may be used, notwithstanding any other provision of law, to provide supplies, services, transportation, including airlift and sealift, and other logistical support to coalition forces supporting military and stability operations in Iraq and Afghanistan: Provided, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees regarding support provided under this section.

SEC. 9007. Each amount in this title is designated as being for overseas deployments and other activities pursuant to section 401(c)(4) and 423(a)(1) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

SEC. 9008. None of the funds appropriated or otherwise made available by this or any other Act shall be obligated or expended by the United States Government for a purpose as follows:

(1) To establish any military installation or base for the purpose of providing for the permanent stationing of United States Armed Forces in Iraq.

(2) To exercise United States control over any oil resource of Iraq.

(3) To establish any military installation or base for the purpose of providing for the permanent stationing of United States Armed Forces in Afghanistan.

SEC. 9009. (a) The Director of the Office of Management and Budget, in consultation with the Secretary of Defense; the Commander of the United States Central Command; the Commander, Multi-National Security Transition Command—Iraq; and the Commander, Combined Security Transition Command—Afghanistan, shall submit to the congressional defense committees not later than 45 days after the end of each fiscal quarter a report on the proposed use of all funds appropriated by this or any prior Act under each of the headings "Iraq Security Forces Fund", "Afghanistan Security Forces Fund", and "Pakistan Counterinsurgency Fund" on a project-by-project basis, for which the obligation of funds is anticipated during the 3-month period from such date, including estimates by the commanders referred to in this section of the costs required to complete each such project.

(b) The report required by this subsection shall include the following:

(1) The use of all funds on a project-by-project basis for which funds appropriated under the headings referred to in subsection (a) were obligated prior to the submission of the report, including estimates by the commanders referred to in subsection (a) of the costs to complete each project.

(2) The use of all funds on a project-by-project basis for which funds were appropriated under the headings referred to in subsection (a) in prior appropriations Acts, or for which funds were made available by transfer, reprogramming, or allocation from other headings in prior appropriations Acts, including estimates by the commanders referred to in subsection (a) of the costs to complete each project.

(3) An estimated total cost to train and equip the Iraq, Afghanistan, and Pakistan security

forces, disaggregated by major program and sub-elements by force, arrayed by fiscal year.

(c) The Secretary of Defense shall notify the congressional defense committees of any proposed new projects or transfers of funds between sub-activity groups in excess of \$20,000,000 using funds appropriated by this or any prior Act under the headings "Iraq Security Forces Fund", "Afghanistan Security Forces Fund", and "Pakistan Counterinsurgency Fund".

SEC. 9010. (a) None of the funds appropriated or otherwise made available by this Act or any prior Act may be used to transfer, release, or incarcerate any individual who was detained as of October 1, 2009, at Naval Station, Guantanamo Bay, Cuba, to or within the United States or its territories.

(b) In this section, the term "United States" means the several States and the District of Columbia.

SEC. 9011. In addition to amounts made available elsewhere in this title there is hereby appropriated \$329,000,000 for the purchase of fuel to the following accounts in the specified amounts:

"Operation and Maintenance, Army", \$83,552,000;

"Operation and Maintenance, Navy", \$33,889,000;

"Operation and Maintenance, Marine Corps", \$1,619,000;

"Operation and Maintenance, Air Force", \$179,191,000;

"Operation and Maintenance, Army Reserve", \$8,567,000;

"Operation and Maintenance, Navy Reserve", \$3,007,000;

"Operation and Maintenance, Marine Corps Reserve", \$39,000; and

"Operation and Maintenance, Army National Guard", \$19,136,000.

This Act may be cited as the "Department of Defense Appropriations Act, 2010".

Mr. INOUE. Mr. President, today the Senate will begin consideration of the bill making appropriations for the Department of Defense for fiscal year 2010. On behalf of the committee, Vice Chairman COCHRAN and I are recommending funding which totals \$636.3 billion for the discretionary programs under the Defense Subcommittee's jurisdiction.

This amount is \$3.9 billion below the amount requested but is the same as the subcommittee's allocation.

Of this amount \$128.2 billion is funding to sustain our overseas contingency operations, primarily in Iraq and Afghanistan.

I applaud Secretary Gates and the administration for putting forward a budget request which covers the operations both for the normal cost of running our national security programs and for the ongoing wartime needs.

The proposed funding in this measure protects the priorities of our military and civilian leaders; it supports our men and women in uniform, and provides the funding needed for critical acquisition programs.

There has been much discussion this year about proposals by the administration to cut funding for "unnecessary" weapons programs. Vice Chairman COCHRAN and I have reviewed each of the proposals by the administration.

While we are not in complete agreement with the judgment of administration officials, we have generally concurred with the recommendations of our current leaders.

I would like to remind the Members of the Senate that the Defense Department has been wrong on several occasions in recommending program terminations. Luckily the Congress has not always agreed with such proposals.

Let me give three examples, although we could spend all day relaying examples of mistakes by previous administrations.

First, the F-117 Stealth fighter. After producing only one squadron of F-117s the Air Force wanted to terminate the program which some in the Defense Department saw as a threat to the F-15E. Congress continued to add funding for the program until two squadrons had been completely filled out.

Without the additional aircraft provided by the Congress, the Defense Department would have been woefully short of Stealth aircraft in conducting operations in Desert Storm and Bosnia.

Second, the first Bush administration fought very hard to kill the V-22 which today the Marine Corps considers one of its greatest assets.

Finally, I would remind my colleagues that shortly before Desert Shield-Desert Storm some in the Pentagon wanted to eliminate the Central Command. The view at the time was that we probably wouldn't need to focus much attention on South West Asia. This clearly demonstrates that our ability to predict hot spots and future threats is not perfect.

As we go forward today—killing the F-22, the VH-71 Presidential helicopter, the Combat Search and Rescue helicopter, the Kinetic Energy Interceptor, we do so with the hope that today's military and civilian leaders are better able to predict the future than some of their predecessors were.

The recommendations before the Senate provide our best judgment on the needs of our Nation for national security.

We have not provided funding for the closure of Guantanamo because the administration has yet to produce a credible plan. Instead we have included language which for all practical purposes is the same as was adopted by the Senate earlier this year.

We have adjusted funding for the littoral combat ship because the administration did not request sufficient funding to produce the quantity it requested.

On that subject, I must report that the administration has recently announced that it will only procure two LCS ships this year, which is the number that our committee has funded.

We have reapplied savings cut from unjustified amounts requested in the budget to programs that are better suited for funding.

For example, we have reduced amounts requested for Afghanistan security forces which the administration has informed the committee cannot be spent in the coming year and transferred that amount to cover a shortfall in the critically needed MRAP program.

While we strongly concur with the administration that increased funding is required to train and equip our Afghan army and police forces, the amount that we recommend is nearly \$1 billion more than was provided for fiscal year 2009.

Moreover, my colleagues should be advised that the Defense Department has not yet spent nearly \$2 billion of the funds that are currently available for this program as we near the end of this fiscal year.

Notwithstanding the critical importance of funding for the Afghan security forces, it simply makes no sense to provide more funding than can be spent for this program when other shortfalls exist.

Along with our staffs we spend countless hours reviewing the programs and funding requests proposed by the administration. As you all know the defense budget is huge and it is extremely complex. There are thousands of acquisition and operations programs. In most cases the specific amounts requested for each of these programs was proposed by the military services more than a year ago.

During the intervening period many changes occur. It is not unusual for a program to be delayed or even terminated while a request is pending before the Congress.

As such, it is up to the subcommittee to make the necessary adjustments based on the latest information to ensure that the Nation is afforded the best use of the funds provided in this measure.

In so doing, we are recommending several program increases in this bill.

For example, we are recommending adding \$1.5 billion to provide for essential equipment for our National Guard and Reserve Forces.

We have also added funding to sustain our near term missile defense programs—like the AEGIS standard missile, THAAD radars, and ground based interceptors for testing.

We are recommending \$1.7 billion to purchase an additional DDG-51 Destroyer to put that restarted program on a more efficient and economical production schedule.

And we have added \$2.5 billion to sustain production of the C-17 program for one additional year. The administration has recently been provided with authority to retire the aging, hard to maintain, and often broken C-5A force.

We expect that in re-examining its airlift fleet the Defense Department will eventually conclude that purchasing additional C-17s and maintain-

ing the strategic asset of a hot airlift production line is the right solution.

On the question of earmarks, as we described earlier this year, the committee has reduced the amount recommended for earmarks by \$300 million or 10 percent from last year's recommendation.

In numbers, the committee has reduced the number of earmarks by nearly 200 fewer projects. We recognize that most members of the Senate will receive less than last year. We hope that our colleagues can support this package with its streamlined approach to earmarking.

Collectively, we believe the recommendations in this bill will provide for our Nation's defense and is far superior to the budget request submitted by the administration. Having had the time to review the suggestions of the administration carefully has afforded the subcommittee the opportunity to produce a better bill. I hope that all my colleagues can support the bill which was approved unanimously by the committee.

Mr. COCHRAN. Mr. President, I thank Chairman INOUE for his leadership and bipartisanship in putting together this legislation and moving it to the floor for consideration.

Two weeks ago, the Appropriations Committee unanimously approved this bill which provides over \$636 billion for Department of Defense operations for fiscal year 2010, including \$128 billion for overseas contingency operations. In compliance with committee allocation, this bill is \$3.9 billion below the President's budget request.

Given the allocation, the committee was forced to make tough decisions. This bill reflects a balanced recommendation which fully funds key readiness programs as well as providing for pay, housing allowance, medical care and family support for our men and women in uniform and their families.

Included in this bill is funding for requirements identified by the administration after the budget request was submitted. Funding is included to address the administration's budget amendment to grow the Army by an additional 22,200 personnel. Also included is an additional \$1.2 billion for 1400 mine resistant ambush protected vehicles that were recently identified as new requirements for our men and women serving in Afghanistan.

This bill also includes \$1.5 billion in the National Guard and Reserve Equipment account to help the Guard and Reserve components procure needed equipment. The Guard and Reserve continue to answer the call to duty. With over 140,000 Guard and Reserve personnel activated, we need to ensure they have the resources necessary to be ready to perform their Federal and State missions. This additional funding will help ensure the Guard and Reserve have the equipment they need.

I urge Senators to support the passage of this bill so we can make sure service members and their civilian colleagues in the Department of Defense have the funding they need to carry out their responsibilities. The men and women who wear our Nation's uniform make great sacrifices and one way to show our support is to provide funding in a timely manner. My hope is that we finish floor consideration of this bill this week. It would be good for all concerned if we could in a timely fashion before the end of this fiscal year.

#### MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, the Senate will proceed to a period of morning business.

The Senator from Georgia.

#### DEPARTMENT OF JUSTICE INVESTIGATION

Mr. CHAMBLISS. Mr. President, I rise today to speak in opposition to Attorney General Holder's decision to re-examine the judgment by career prosecutors at the Department of Justice and initiate a preliminary review to determine whether criminal charges should be filed against CIA officers who conducted interrogations against hardened al-Qaida terrorists.

At the outset, let me remind everyone that President Obama promised the American people he would look forward rather than backward and would not seek a criminal investigation for individuals involved in the CIA's interrogation and detention program. Notwithstanding this promise, he has allowed the Attorney General, a member of his Cabinet who answers to him, to rehash old ground despite the fact that career prosecutors already have examined the same information and declined to prosecute the same individuals for the same actions.

By allowing this decision to stand, President Obama is failing to exercise his duty as Chief Executive and enforcer of the law. Given that there are no new facts to justify this action by the Attorney General, the President should demand that the legal conclusions previously reached by career prosecutors be upheld.

Just last week, seven former CIA Directors—encompassing all living former CIA Directors from both political parties except the two presently serving in the Obama administration, current Director Panetta and Secretary of Defense Gates—wrote in a letter to President Obama that the decision to reexamine these cases “creates an atmosphere of continuous jeopardy for those whose cases the Department of Justice had previously declined to prosecute.”

No facts have changed since then, no new facts have arisen, and in light of the previous refusal of the Department

of Justice to prosecute all but one CIA employee, the CIA has already taken administrative action against some of these individuals. Where is the justice for these government employees who have been on the front lines in the war on terror since the 9/11 attacks and who acted under the legal guidance given to them if they are to face potential punishment more than once for their actions?

What is the message we are sending to our intelligence community? Reopening these cases is exactly the type of action which creates risk-averse intelligence agencies and officers. If an intelligence officer involved in a clandestine operation today worries that he may be prosecuted for it tomorrow, he is not going to think twice about conducting the operation. He simply will not do it. Worse yet, if an intelligence officer involved in a clandestine operation today worries that he may be prosecuted for it tomorrow because of random policy changes, it will evoke an even greater subjective risk-adverse environment. Creating such an environment where intelligence activities today are held hostage to the political decisions of tomorrow is a recipe for failure for our intelligence collection efforts.

As a member of the Senate Select Committee on Intelligence, I understand the important role that intelligence plays in our military, law enforcement, and intelligence operations. I see firsthand the bravery and professionalism exhibited by our intelligence community cadre. Partisanship plays no role in their daily operations. They are guided not by which political party may obtain their vote on a particular day in November but by an overwhelming sense of duty to their country. They understand they do not make policy. Yet they are out there risking their lives to gather the intelligence necessary for policymakers to make an informed decision.

Similarly, partisanship should play no role in the decisions of the administration or Congress when it comes to intelligence gathering. I do not want our intelligence community professionals to have to think twice about whether to gather certain information that will inform me of foreign policy developments because they fear potential prosecution at a later date for doing so. These men and women need to know they have the freedom to do their jobs within the guidance that is given to them at the time, even though that guidance or policy may change down the road. They need to know the country they are serving has their back. Sadly, that is not the message we are sending. Never before has a change in policy brought the threat of potential prosecution for past sanctioned actions.

Some may ask why the Attorney General's decision is so harmful to our

national security. The answer is simple. Without calculated risk taking on the part of our intelligence community, we will lose the fight against not only our state adversaries but against terrorists as well. This is not a tradeoff I am willing to take. It is not a tradeoff the President should be willing to make either, particularly as we continue the fight in Afghanistan.

We need to look no further than the events of the past week, the arrests on American soil of three individuals with admitted ties to al-Qaida who may have been planning attacks against the U.S. homeland, to understand that the threats to our country are real and that this tradeoff which the administration has sanctioned is a lot closer to hitting home.

Finally, I would point out that the same report—the CIA inspector general's report entitled “Counterterrorism Detention and Interrogation Activities (September 2001–October 2003)” —that Attorney General Holder claims was his reason for reopening this investigation was the same report that prompted the CIA to self-report to the Department of Justice in the first place.

Long before the IG even started his review, the CIA informed the Department of Justice that they had recommended an IG investigation related to the interrogation program. Once the report was completed, the Department of Justice received it and carefully reviewed the facts and circumstances described within it. Only after doing so did the career attorneys decline to prosecute. Unfortunately, press reports from this past weekend indicate that the Attorney General never even bothered to read the declination memos prepared by these career public servants.

In recent months, the administration has declassified and released to the public this IG report, as well as the legal guidance from the Department of Justice. The record is there for the American people to review for themselves. I have reviewed all of this information, and I am confident that anyone else who does so will reach the same conclusion I have; namely, that reopening an investigation is not merited.

Further, it is worth noting that the IG report found that:

The Agency's detention and interrogation of terrorists has provided intelligence that has enabled identification and apprehension of other terrorists and warned of terrorist plots planned for the United States and around the world.

Where deviations from the approved procedures and guidance occurred, it was an anomaly and was either prosecuted or administratively punished by the CIA leadership.

The issues at the heart of the Attorney General's decision have been examined thoroughly, and it is time for

them to be laid to rest. President Obama and the Attorney General should put an end to their unjustified second-guessing of career prosecutors. I cannot imagine they would be willing to expose their own policy decisions and legal determinations to future politically motivated prosecutions. Yet by doing so with their actions against the CIA employees, they are setting a dangerous precedent which I believe will have a lasting, chilling effect on our intelligence community and our national security.

With that, Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. KAUFMAN. Mr. President, I ask unanimous consent to speak in morning business for up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### CELEBRATING THE 2009 SERVICE TO AMERICA MEDAL WINNERS

Mr. KAUFMAN. Mr. President, I rise once again to honor America's great Federal employees.

When I began my great Federal employees initiative in May, I did so by sharing the stories of some outstanding public servants who in past years had won Service to America Medals.

Last night, at its eighth annual awards gala, the Partnership for Public Service announced its 2009 Service to America Medal winners. These nine exemplary Federal employees represent a number of agencies and hail from diverse backgrounds. Together, they form a snapshot of the finest civil service in history.

When I spoke in May about what makes our Federal workforce so excellent, I said there are several qualities our civil servants embody. First and foremost, they demonstrate great citizenship by choosing careers in the public sector. Second, they are industrious and hardworking in the face of often difficult and challenging tasks.

Our Federal employees take risks both to their safety and to their careers. They persevere even when faced with setbacks or with the knowledge that the effects of their work may not be felt for years to come. Our public servants exhibit great intellect and bring to their jobs many advanced skills and specialized knowledge. I am glad—very glad—there are awards such as the Service to America Medals to recognize the unsung heroes who keep America moving ever forward. This is what I have tried to do each week by speaking about our great public servants.

This year's Service to America medalists can well be described by the five attributes I just listed.

Dr. Janet Kemp, who won this year's Federal Employee of the Year Medal, exemplified the value of outstanding

citizenship when she organized a national suicide prevention hotline for veterans. As national director for the VA's Suicide Prevention Program, Janet oversaw the creation of the hotline to help combat veteran suicide, which has increased significantly in recent years. Since 2005, when she was asked to spearhead this program, Janet's initiative has rescued over 3,000 veterans and has assisted them in finding help.

An important aspect of citizenship is a commitment to protecting one's community from harm. Ben Fisherow was awarded the 2009 Justice and Law Enforcement Medal for his work to prevent air pollution. As an experienced litigator with the Department of Justice's Environment and Natural Resources Division, Ben has spent over 20 years enforcing key provisions of the Clean Air Act and taking legal action against utilities that violate anti-pollution mandates. In one case alone, Ben secured a settlement that prevented the release of over 800,000 tons of air pollutants annually.

Our federal employees are hard working, and this year's Citizens Services Medal winner proves it. Michael German, of the Department of Housing and Urban Development, has been working tirelessly to combat homelessness in America. The Interagency Council on Homelessness, which he leads, coordinates with over 850 State and local officials nationwide on efforts to help the homeless obtain medical care and permanent housing. Their work has led to a 30-percent reduction in the chronically homeless between 2005 and 2007.

Another example of our civil servants' industriousness can be found in Allan Comp. Allan won the 2009 Environment Medal for his work at the Department of the Interior's Office of Surface Mining. He created the Appalachian Coal Country Watershed Team, a partnership between his office and VISTA volunteers who help local citizens and community groups organize clean-up projects and monitor water quality. His program was so successful that it was recently expanded to the American West. Today, joint Office of Surface-Mining and VISTA teams are at work protecting and empowering local communities in Colorado, New Mexico, and Montana.

Clare Rowley is an economic analyst for the FDIC. She won the Call to Service Medal for helping to implement the FDIC's mortgage modification program, which helped thousands of families stay in their homes after the collapse of subprime mortgages. In February, Clare, who is only 25 years old, found herself sitting in a high-level meeting with regulators, bankers, and Obama administration officials on the foreclosure crisis. Despite feeling somewhat intimidated because of her age and junior position, Clare spoke up and offered important ideas that even-

tually made their way into the Treasury Department's mortgage crisis recovery plan. Now, Clare is one of those instrumental in carrying out the plan.

A risk-taker, who won this year's National Security and International Affairs Medal, serves as the director of the USAID's Office of Economic Growth in Pakistan. In July, I spoke about a USAID employee who was gunned down by extremists while posted in the Sudan. For Amy Meyer, who performs similar work in Pakistan, the danger is very real. Nonetheless, she arrived in the country in 2006 and began working with local women to create dairy cooperatives. Starting with just a staff of two and little funding, Amy now oversees a \$200 million budget and several successful economic empowerment programs. She even teaches yoga on Pakistani television and has spent much of her personal time dispensing advice to local women in their homes.

The winner of the 2009 Career Achievement Medal knows the meaning of perseverance. Dr. Thomas Waldmann has been a medical researcher at the National Institutes of Health for over 50 years. Currently, Tom is chief of the NIH National Cancer Institute's Metabolism Branch, and the focus of his career has been researching disorders in which the body attacks its own cells. His work has led to treatments to once-fatal varieties of lymphoma, leukemia, and multiple sclerosis. Tom also co-discovered a type of molecule that may lead to advances in the fight against AIDS and cancer. But his successes did not happen overnight. His achievements were the work of a lifetime, and the full impact of Tom's discoveries will not be known for years.

Similarly, Dr. Patricia Guerri has demonstrated great resolve while researching an elusive vaccine. Now serving as chief of the Naval Medical Research Center's Molecular Biology and Biochemistry Branch, she has spent nearly 30 years studying a microbe that causes food poisoning. Researchers discovered that the most common microbe involved in food-borne illnesses is *Campylobacter*. In the mid-1980s, after several years of unsuccessfully attempting to find a vaccine, many microbiologists turned their attention elsewhere. Patricia, however, never gave up. Today, she and her team of researchers are nearing their goal, and their vaccine is now in the testing phase. She persevered, and our troops stationed abroad as well as tens of millions in the developing world will likely soon benefit from a vaccine.

This year's Homeland Security Medal was shared by a pair of CIA employees who showed great intellect in solving a critical problem. In 2005, the Office of the Director of National Intelligence gave Sean Dennehy and Don Burke the task of improving information-sharing

across the intelligence community. Lack of communication between the intelligence agencies had been a serious impediment to preventing the September 11 attacks. To fix this, Sean and Don created an online system called "Intellipedia," modeled after the popular Wikipedia Web site. Intellipedia enables analysts from different agencies to contribute information to subject pages and open cases. Today, Intellipedia has grown to nearly a million pages, and it has helped prevent threats to the Beijing Olympics, analyze IED patterns in Iraq, and study the 2008 Mumbai terror attacks.

All of these outstanding public servants display great humility. Even with such accomplishments, modesty is their common response.

I want to congratulate the Partnership for Public Service on their work to award the Service to America Medals. The winners were selected by a blue ribbon panel of leaders from both the public and private sectors, of which our colleague from Mississippi, Senator THAD COCHRAN, is a member.

I hope the rest of my colleagues will join me in congratulating all of this year's Service to America winners on receiving their medals. We thank them, and all Federal employees, for their service to our Nation.

Mr. President, I yield the floor.

#### FURTHER CHANGES TO S. CON. RES. 13

Mr. CONRAD. Mr. President, I wish to make a series of adjustments to the allocation of budget authority and outlays to the Senate Appropriations Committee and the section 401(b) Senate discretionary spending limits. I am making these adjustments for the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2010, and for the Department of Defense Appropriations Act, 2010.

First, section 401(c)(2)(A) of the 2010 Budget Resolution permits the chairman to adjust the section 401(b) discretionary spending limits, allocations pursuant to section 302(a) of the Congressional Budget Act of 1974, and aggregates for legislation making appropriations for fiscal year 2010 that both appropriates \$273 million and provides an additional appropriation of up to

\$485 million to the Social Security Administration for continuing disability reviews and Supplemental Security Income redeterminations.

Second, section 401(c)(2)(C) of the 2010 Budget Resolution permits the chairman to adjust the section 401(b) discretionary spending limits, allocations pursuant to section 302(a) of the Congressional Budget Act of 1974, and aggregates for legislation making appropriations for fiscal year 2010 that appropriates up to \$311 million to the Health Care Fraud and Abuse Control Program at the Department of Health and Human Services.

Third, section 401(c)(2)(D) of the 2010 Budget Resolution permits the chairman to adjust the section 401(b) discretionary spending limits, allocations pursuant to section 302(a) of the Congressional Budget Act of 1974, and aggregates for legislation making appropriations for fiscal year 2010 that both appropriates \$10 million and provides an additional appropriation of up to \$50 million for in-person reemployment and eligibility assessments and unemployment insurance improper payment reviews.

Fourth, section 401(c)(3) of S. Con. Res. 13, the 2010 Budget Resolution, permits the chairman of the Senate Budget Committee to adjust the section 401(b) discretionary spending limits, allocations pursuant to section 302(a) of the Congressional Budget Act of 1974, and aggregates for legislation making appropriations for fiscal year 2010 that appropriates \$3.2 billion in funding for the Low-Income Home Energy Assistance Program and provides an additional appropriation of up to \$1.9 billion for that program.

On August 4, 2009, the Senate Appropriations Committee reported H.R. 3293, the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2010, with an amendment in the nature of a substitute. The reported bill contains \$2.746 billion in funding that satisfies the conditions of sections 401(c)(2)(A), 401(c)(2)(C), 401(c)(2)(D), and 401(c)(3). The Congressional Budget Office estimates that the \$2.746 billion in budget authority will result in \$2.197 billion in new outlays in 2010. As a result, I am revising both the discretionary spending limits and the allocation to the Senate Committee on Ap-

propriations for discretionary budget authority and outlays by those amounts in 2010.

Finally, section 401(c)(4) of S. Con. Res. 13, the 2010 Budget Resolution, permits the chairman of the Senate Budget Committee to adjust the section 401(b) discretionary spending limits, allocations pursuant to section 302(a) of the Congressional Budget Act of 1974, and aggregates for legislation making appropriations for fiscal years 2009 and 2010 for overseas deployments and other activities by the amounts provided in such legislation for those purposes and so designated pursuant to section 401(c)(4). The adjustment is limited to the total amount of budget authority specified in section 104(21) of S. Con. Res. 13. For 2009, that limitation is \$90.745 billion, and for 2010, it is \$130 billion.

On September 10, 2009, the Senate Appropriations Committee reported H.R. 3326, the Department of Defense Appropriations Act, 2010, with an amendment in the nature of a substitute. The reported bill contains \$128.221 billion in funding that has been designated for overseas deployments and other activities pursuant to section 401(c)(4). The Congressional Budget Office estimates that the \$128.221 billion in budget authority will result in \$66.653 billion in new outlays in 2010. As a result, I am revising both the discretionary spending limits and the allocation to the Senate Committee on Appropriations for discretionary budget authority and outlays by those amounts in 2010. When combined with previous adjustments made pursuant to section 401(c)(4), \$128.6 billion has been designated so far for overseas deployments and other activities for 2010.

When combining the effects of the adjustments made for both bills, I am revising today both the discretionary spending limits and the allocation to the Senate Committee on Appropriations by a total of \$130,967 million for budget authority and \$68,850 million for outlays.

I ask unanimous consent that the following revisions to S. Con. Res. 13 be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CONCURRENT RESOLUTION ON THE BUDGET FOR FISCAL YEAR 2010—S. CON. RES. 13; FURTHER REVISIONS TO THE CONFERENCE AGREEMENT PURSUANT TO SECTIONS 401(c)(2), 401(c)(3), AND 401(c)(4) TO THE ALLOCATION OF BUDGET AUTHORITY AND OUTLAYS TO THE SENATE APPROPRIATIONS COMMITTEE AND THE SECTION 401(b) SENATE DISCRETIONARY SPENDING LIMITS

[In millions of dollars]

	Current allocation/limit	Adjustment	Revised allocation/limit
FY 2009 Discretionary Budget Authority .....	1,482,201	0	1,482,201
FY 2009 Discretionary Outlays .....	1,247,872	0	1,247,872
FY 2010 Discretionary Budget Authority .....	1,087,285	130,967	1,218,252
FY 2010 Discretionary Outlays .....	1,307,200	68,850	1,376,050

### NATIONAL PROSTATE CANCER AWARENESS MONTH

Mr. JOHNSON. Mr. President, today I wish to recognize September as National Prostate Cancer Awareness Month. Prostate cancer is the most diagnosed nonskin cancer in the United States and the most commonly diagnosed cancer in men. It is estimated that 200,000 men will be diagnosed with prostate cancer and 30,000 men will die from the disease this year. Our commitment to making awareness and early detection of this disease a national priority must continue.

A simple blood test, the prostate-specific antigen, or PSA, can detect the risk of prostate cancer. Health experts recommend that doctors offer men yearly screening beginning at age 50. However, men with high-risk factors should consider starting yearly testing earlier. We must remember that through screening and early detection, we truly can save lives.

I am proud to add my voice to those who are working to fight prostate cancer, and I take this opportunity to recognize the families, professionals, and advocates who work day after day to be a powerful voice for prostate cancer patients. I commend them on their tireless efforts to raise awareness of the risks, to promote early detection and treatment, and to further our efforts to understand and eliminate this disease. We must all join these efforts to pursue increased funding for biomedical research and public health awareness campaigns, as well as expanded diagnosis and treatment options.

I urge all citizens to support the search for the early detection and cure of prostate cancer and support those individuals and families who face this devastating disease.

### RECOGNIZING CHARACTER COUNTS! WEEK

Mr. JOHNSON. Mr. President, today I wish to pay tribute to the national week of CHARACTER COUNTS!, the most widely used character building framework in the United States.

In 1993, after a conference in Aspen, Colorado, CHARACTER COUNTS! was formed to educate students about universal ethical standards. With six vital pillars—trustworthiness, respect, responsibility, fairness, caring, and citizenship—CHARACTER COUNTS! teaches students essential values for developing into productive citizens. This important program supplements a regular school's curriculum to educate our future generations about important decisionmaking skills. The program has been credited for increased school attendance, as well as a reduction in misbehavior.

Character education is vital to our youth, and it teaches important lessons we would all do well to embrace. I commend the CHARACTER COUNTS!

organization, its instructors, and its participants for being a part of this admirable initiative.

### HONORING OUR ARMED FORCES

SPECIALIST JUSTIN PELLERIN

Mr. GREGG. Mr. President, I rise today to pay tribute to a special person, U.S. Army SPC Justin Pellerin of Concord, NH, for his service and supreme sacrifice for our Nation.

Tragically, on August 20, 2009, this courageous young soldier, only 21 years of age, gave his last full measure of devotion when an explosive device detonated near his vehicle in Wardak Province, Afghanistan. At the time of the incident, Specialist Pellerin was serving as an infantryman assigned to the 2nd Battalion, 87th Infantry Regiment, 3rd Brigade Combat Team, 10th Mountain Division based at Fort Drum, NY.

Justin joined the U.S. Army in June 2007 after graduating from Concord High School and deployed in January in support of Operation Enduring Freedom. This decorated patriot is the recipient of the National Defense Service Medal, Afghanistan Campaign Medal, Global War on Terrorism Service Medal, Army Service Ribbon, NATO Service Medal, and most recently, the Purple Heart and Bronze Star.

Heroes from the State of New Hampshire have served our Nation with honor and distinction from Bunker Hill to Afghanistan. Undoubtedly, Justin has advanced that fine tradition. Daniel Webster said: "God grants liberty only to those who love it, and are always ready to guard and defend it." Justin chose to serve our Nation, guard our precious liberties, and answer the call of freedom. Our debt of gratitude will never be fully repaid to Justin or his loved ones.

The sudden death of a young person is especially difficult for family and friends. In November 1864, President Abraham Lincoln was informed by the War Department of a mother who had lost five sons in the Civil War. He wrote the mother: "I feel how weak and fruitless must be any word of mine which should attempt to beguile you from the grief of a loss so overwhelming. But I cannot refrain from tendering you the consolation that may be found in the thanks of the Republic they died to save."

My heartfelt sympathy, condolences, and prayers go out to Justin's wife Chelsey; his parents Dale and Melissa, and family and friends. The death of Justin, on a battlefield far from New Hampshire, is a true loss for our State and Nation, and a grievous pain for those who knew him best and loved him most. Although he will be sorely missed by all, it is my hope that his family and friends may find some comfort in knowing that Justin's devotion, sense of duty, and selfless dedication have made the safety and liberty of

each and every American more secure. May God bless SPC Justin Pellerin.

### ADDITIONAL STATEMENTS

#### TRIBUTE TO OUTSTANDING HAWAII EDUCATORS

• Mr. AKAKA. Mr. President, I wish to congratulate two outstanding educators from my State, elementary school teachers Liane Tanigawa of Pearl Ridge Elementary School and Seanyelle Yagi of Kanewai Elementary School, for receiving the Presidential Award for Excellence in Mathematics and Science Teaching, PAEMST.

The PAEMST, administered by the National Science Foundation on behalf of the White House Office of Science and Technology Policy, is the highest recognition that a mathematics or science teacher may receive. Since the program's inception in 1983, more than 3,900 educators nationwide have been recognized for their contribution to mathematics and science education. As a former educator and principal, I know firsthand of the countless hours that go into creating curricula, and it makes me proud to see outstanding teachers receive recognition for their hard work.

The dedication of Liane and Seanyelle to their field and to the children of Hawaii is undeniable. I congratulate them both for receiving this outstanding recognition, and I wish them the very best in their future endeavors. •

#### TRIBUTE TO STEWART AND MARLENE GREENEBAUM

• Mr. CARDIN. Mr. President, today I wish to pay special tribute to the outstanding achievements of Stewart and Marlene Greenebaum. Stewart and Marlene are lifelong residents of Baltimore and good friends of mine who have shown a deep personal commitment to Baltimore, to Maryland, and to improving our community and Nation through their commitment of time and resources.

The Greenebaums have helped to establish our community as a leader in health care. Through their efforts, they established one of our Nation's premier cancer centers. The Marlene and Stewart Greenebaum Cancer Center is known for translating its innovative research into better treatments. Stewart is a past chairman of the board of the University of Maryland Medical System, home to the Marlene and Stewart Greenebaum Cancer Center. The Greenebaums also founded the Children's House at Johns Hopkins Hospital, a facility dedicated to helping the families of children who are fighting life-threatening illness.

The Greenebaums' commitment to improving health care outcomes is

known nationwide. Stewart serves as the founding chair for the American Cancer Society's Cancer Resource Network, a program that provides resource navigators to major cancer centers. He is chairman emeritus and member of the Board of Advisors for the Baltimore-based Institute of Human Virology, which focuses on HIV/AIDS research, care, and treatment, and he serves on the board of Profectus Biosciences Inc. and Welldoc, a company whose products help in the management of diabetes. Stewart also is one of the five U.S. directors of the Hadassah Hospital in Jerusalem.

Marlene Greenebaum is known in our community for her commitment to Judaism. She has served as president of Temple Oheb Shalom Sisterhood and is past president of Miriam Lodge, K.S.B. She was vice president of fundraising for Hadassah Hospital in Jerusalem and is currently on the Greenebaum Cancer Center board.

Marlene and Stewart are also committed to education. Stewart helped to found and fund a program that sends African-American students to Israel. He is the founding president of Shoshana S. Cardin Jewish High School. On October 21, the Shoshana S. Cardin School will honor Marlene and Stewart Greenebaum for all they have contributed. I ask my colleagues to join me in applauding the many accomplishments of Stewart and Marlene Greenebaum and for their undying commitment and dedication to helping others.●

#### TRIBUTE TO BRAYDIN AND TORIN SONES

● Mr. CARPER. Mr. President, I wish today to recognize the noble efforts of both the Sones family and the Dover Air Force Base community for their support of Karina Sones in her battle against cancer. Karina was diagnosed with acute lymphocytic leukemia when she was 4 years old. Although the doctors thought they had beaten the cancer after a round of chemotherapy in 2004, she unfortunately relapsed in 2006. I wish to commemorate the sterling efforts of her two younger brothers, her parents, and the men and women of Dover Air Force Base for encouraging and supporting Karina through this difficult time. Thankfully, she is now on the path to recovery.

When Karina relapsed, her parents were informed that a bone marrow transplant was her only option. Despite there being approximately 20 million bone marrow donations on record, there were no matches on the National Marrow Donor database for Karina. Her parents, however, remained optimistic that a solution would be found. In what can only be described as good fortune, Karina was lucky enough to be the recipient of an anonymous donation of umbilical cord stem cells that allowed

her to have a second chance at life. Karina bravely endured radiation and 50 days of isolation before she could receive the transplant. Afterwards, the whole family had to work together to prevent her from getting sick. Although, Karina still suffers from graft-vs-host disease which has caused her skin to be inflamed, she remains brave and upbeat. She insists that she would like to go to Disneyland with her mother and be Cinderella.

Her two younger brothers, Braydin, age 10, and Torin, age 7, admirably refuse to be helpless as their sister battles leukemia. Karina's struggle inspired them to want to help other kids with cancer and to further support research, so they began collecting golf balls that had landed in their backyard and selling them on to golfers. Their goal was to collect \$500, and they have already exceeded that amount. They will donate all the money to the Alfred I. duPont Hospital for Children where Karina still receives treatment.

This story is a true example of the Air Force, the Dover community, and the Sones family all coming together to unite against a common adversary. The city of Dover and the Dover Air Force Base are known for their tight-knit relationship which is certainly demonstrated by the Dover community having won the Abeliene trophy twice—the trophy designated for the base with the most supportive community—and this story only provides further evidence for that statement.

I believe that it is a mark of Karina's character and impressive bravery that she has persevered through all of her medical setbacks. To this day, Karina refuses to rest and is working on spreading awareness about becoming a bone marrow donor because she wants other children to have the same chance at life that she had. Most children, after spending so much time in hospitals, would wish to stay away from them, but Karina is not most children. She wants to become a cardiologist when she grows up.

Karina's brave story is one that we do not hear often. I wish to honor not just her courage but also the bravery and perseverance of her brothers and her parents and to wish them continued blessings in the future. I also want to emphasize the good work and support that Dover Air Force Base has offered the Sones family during such a trying and difficult time.●

#### TRIBUTE TO THE WHIFFENPOOFS

● Mr. DODD. Mr. President, 100 years ago this winter, history was made at the old Mory's Bar on Temple Street in New Haven, CT, as Denton Fowler, James Merriam Howard, Carl Lohmann, Meade Minnigerode, and George Pomeroy formed an acappella singing group known as the Whiffenpoofs of Yale University.

The Whiffenpoofs, as every Yale knows, are unsurpassed in talent and tradition. They are now the oldest continuously functioning collegiate a cappella singing group in the United States.

Their history is rich and vibrant. During World War II, the brave men of the U.S. Army Air Force's Black Sheep Squadron adopted "The Whiffenpoof Song" as their theme song. And over the course of the 20th century, that famous tune has been recorded by such legendary artists as Bing Crosby, Ella Fitzgerald, Louis Armstrong, and Elvis Presley.

The Whiffenpoofs have inspired a cappella singing groups at colleges and secondary schools across America—in fact, there are now more than 1,200 such groups entertaining audiences.

But their influence is not limited by our borders. Each year, the Whiffenpoofs embark on an international tour, visiting foreign capitals and tiny villages, great palaces and humble churches, and U.S. Embassies around the world, spreading song and good will on behalf of Yale University and America's college students.

Next month, Whiffenpoofs alumni from around the world will descend upon Yale to convene with the current group in celebration of the Whiffenpoofs' centennial. It is sure to be an occasion filled with good cheer, great music, and tremendous fellowship—the trademarks of this beloved Connecticut institution.

Mr. President, I congratulate the Whiffenpoofs of Yale University on their centennial. I thank them for their many contributions to our Nation, and I look forward to another century of song and friendship.●

#### TRIBUTE TO STEVE AND SHELLEY BRUNE

● Mr. JOHANNIS. Mr. President, Steve and Shelley Brune are extraordinary Nebraskans who made a commitment to open their hearts and home to a foster child, which led to a remarkable story of love and compassion.

In September 1999, they welcomed Jonathon into their home as a foster child. In February 2001, Jonathon's biological brother, James, was also removed from the home. The Brune family recognized the importance of keeping siblings together and agreed to unite the brothers by welcoming James into their home as a second foster child.

The Brunos worked closely with the Nebraska Department of Health and Human Services, HHS, in efforts to reunite Jonathon and James with their biological parents. When HHS determined that reunification was not in the boys' best interest, Steve and Shelley made a permanent commitment to the boys by adopting them; Jonathon on July 19, 2001 and James on January 17, 2002.

In October 2007, the biological sister of James and Jonathon, Mary Ann, was removed from the home. HHS contacted the Brune family to discuss the possibility of once again becoming foster parents. The Bruness recognized that this child needed a loving home and would benefit from being with her brothers. For a third time, they admirably opened their hearts and home, welcoming Mary Ann on July 15, 2008.

In April 2009, another sibling, Madeline Grace, was born and was also removed from the home. The Brune family showed tremendous compassion and devotion to the children of this family by agreeing to welcome Madeline Grace into their family. Steve and Shelley are currently in the process of adopting both Mary Ann and Madeline Grace.

It is with heartfelt admiration that I nominate Steve and Shelley Brune as Adoption Angels. Their capacity to love and care for these four children is an inspiration and worthy example for others to follow. My hope is that their story inspires others to consider opening their hearts and homes to the many children awaiting adoption, in need of loving families.

May God bless Shelley, Steve, Jonathon, James, Mary Ann, Madeline Grace, and all adoptive parents who give children the gift of a loving family.●

#### RECOGNIZING THE 100TH ANNIVERSARY OF THE BRICKLAYERS AND ALLIED CRAFT WORKERS

● Mr. JOHNSON. Mr. President, I wish to recognize the 100th anniversary of the Bricklayers and Allied Craft Workers of the South Dakota Administrative District Council Local 03 of Aberdeen, SD. October 2009 marks the month and year of this landmark anniversary. BAC is highly respected as one of the oldest highly skilled trade unions in the United States and Canada.

For the past 100 years, Local 03 has played a major role in shaping the workforce in Aberdeen. Working with their signatory contractors, Local 03 negotiated fair wages, safe working conditions, a respectable retirement, and solidarity among the membership. Although Local 03 has never had a large membership, they have always believed that working together will accomplish more than working alone. Today, 16 members keep the hopes and dreams of their founding members alive and well. Special recognition is given to Howard Jones as he receives his 50-year gold card and Don Feiock as he receives his 25-year membership pin.

I commend Local 03 Bricklayers and Allied Craft members for continuing the proud tradition of craft excellence and union solidarity started by their founders a century ago.●

#### RECOGNIZING HARBOR TECHNOLOGIES

● Ms. SNOWE. Mr. President, as we emerge from this lengthy recession, companies small and large are seeking to grow their businesses and become increasingly more innovative. Many are seeking to be leaders in some of the world's foremost emerging technologies. I wish to recognize a small firm in my home State of Maine that has been at the cutting edge of the composites industry since its founding 6 years ago, positioning itself well for continued future success.

Harbor Technologies, located in Brunswick, was founded during the summer of 2003 to fill the demand for environmentally friendly composite building products used for marine infrastructure. In particular, Harbor Technologies' composites are utilized in the manufacturing of docks, piers, marinas, sea walls, pilings, and other similar structures. Additionally, Harbor Technologies is using its composites to build bridge beams as an alternative to heavy steel. As we seek to improve and upgrade our Nation's roads and bridges, Harbor Technologies' distinctive fiberglass bridge beams should be at the forefront.

What makes composites so unique is its durability. While steel rusts and wood is subject to rotting, composites last longer and are easily maintained, leading to huge cost savings for both the supplier and the purchaser. Composites are also lightweight and compact; a large composite beam weighs 4,000 pounds, while similar concrete beams weigh 63,000 pounds. This allows Harbor Technologies to save on shipping costs, and reduce its carbon footprint in the process.

Just last year, Harbor Technologies tripled the size of its manufacturing space to 30,000 square feet, and added state-of-the-art pultrusion machinery to produce pilings of any length. This has allowed the company to take on considerable new work and hire additional employees, even during these difficult economic times.

Significantly, Harbor Technologies has played a critical role in developing an advanced composites cluster in the Maine midcoast region. Additionally, Harbor Technologies' president Martin Grimnes, is the founder of the Maine Composites Alliance, an organization that seeks to promote the State's leadership in several composites industries, including marine, aerospace, and automotive. Clusters, which are geographic concentrations of companies and organizations that collaborate to create specific products, represent proven tools in our Nation's innovation agenda, and Mr. Grimnes is to be commended for his steadfast determination to advance their effectiveness and utilization throughout Maine.

As a national leader in the composites industry, Harbor Technologies has

made a name for itself as a reliable and trustworthy company that produces innovative, cost-effective, and environmentally sound products. And it is small businesses like Harbor Technologies that represent the brightest lights for our economy's future. I congratulate president Martin Grimnes and everyone at Harbor Technologies on their outstanding work and wish them continued success.●

#### MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

#### EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

#### MESSAGES FROM THE HOUSE

##### ENROLLED BILL SIGNED

At 9:33 a.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the Speaker has signed the following enrolled bill:

S. 1677. An act to reauthorize the Defense Production Act of 1950, and for other purposes.

The enrolled bill was subsequently signed by the President pro tempore (Mr. BYRD).

At 10:25 a.m., a message from the House of Representatives, delivered by Mr. Hanrahan, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 324. An act to establish the Santa Cruz Valley National Heritage Area, and for other purposes.

H.R. 2131. An act to amend the Foreign Affairs Reform and Restructuring Act of 1998 to reauthorize the United States Advisory Commission on Public Diplomacy.

H.R. 2215. An act to designate the facility of the United States Postal Service located at 140 Merriman Road in Garden City, Michigan, as the "John J. Shiven Post Office Building".

H.R. 3593. An act to amend the United States International Broadcasting Act of 1994 to extend by one year the operation of Radio Free Asia, and for other purposes.

H.R. 3617. An act to provide an extension of Federal-aid highway, highway safety, motor carrier safety, transit, and other programs funded out of the Highway Trust Fund pending enactment of a multiyear law reauthorizing such programs.

The message also announced that the House has agreed to the following concurrent resolutions, in which it requests the concurrence of the Senate:

H. Con. Res. 74. Concurrent resolution supporting the goals and ideals of a decade of action for road safety with a global target to reduce by 50 percent the predicted increase in global road deaths between 2010 and 2020.

H. Con. Res. 178. Concurrent resolution expressing the sense of Congress that we reaffirm the historic ties between the United States and the Netherlands by recognizing the Quadricentennial celebration of the discovery of the Hudson River and honoring the enduring values of the settlers of New Netherland that continue to permeate American society.

The message further announced that the House disagrees to the amendment of the Senate to the bill (H.R. 2918) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes, and agrees to conference the conference asked by the Senate on disagreeing votes of the two Houses thereon, and appoints the following Members as managers of the conference on the part of the House: Ms. WASSERMAN SCHULTZ, Mr. HONDA, Ms. MCCOLLUM, Mr. RYAN of Ohio, Mr. RUPPERSBERGER, Mr. RODRIGUEZ, Mr. OBEY, Mr. ADERHOLT, Mr. LATOURETTE, Mr. COLE, and Mr. LEWIS of California.

#### MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 324. An act to establish the Santa Cruz Valley National Heritage Area, and for other purposes; to the Committee on Energy and Natural Resources.

H.R. 2131. An act to amend the Foreign Affairs Reform and Restructuring Act of 1998 to reauthorize the United States Advisory Commission on Public Diplomacy; to the Committee on Foreign Relations.

H.R. 2215. An act to designate the facility of the United States Postal Service located at 140 Merriman Road in Garden City, Michigan, as the "John J. Shiven Post Office Building"; to the Committee on Homeland Security and Governmental Affairs.

H.R. 3593. An act to amend the United States International Broadcasting Act of 1994 to extend by one year the operation of Radio Free Asia, and for other purposes; to the Committee on Foreign Relations.

The following concurrent resolutions were read, and referred as indicated:

H. Con. Res. 74. Concurrent resolution supporting the goals and ideals of a decade of action for road safety with a global target to reduce by 50 percent the predicted increase in global road deaths between 2010 and 2020; to the Committee on Foreign Relations.

H. Con. Res. 136. Concurrent resolution authorizing the use of the Capitol Grounds for a celebration of Citizenship Day; to the Committee on Rules and Administration.

H. Con. Res. 178. Expressing the sense of Congress that we reaffirm the historic ties between the United States and the Netherlands by recognizing the Quadricentennial celebration of the discovery of the Hudson River and honoring the enduring values of the settlers of New Netherland that continue to permeate American society; to the Committee on Foreign Relations.

#### ENROLLED BILLS PRESENTED

The Secretary of the Senate reported that on today, September 24, 2009, she had presented to the President of the United States the following enrolled bill:

S. 1677. An act to reauthorize the Defense Production Act of 1950, and for other purposes.

#### EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-3129. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed technical assistance agreement to include the export of technical data, defense services, and defense articles to Israel for the manufacture of various F-16 components for end use by the governments of Bahrain, Belgium, Chile, Denmark, Egypt, Greece, Israel, Italy, Jordan, Morocco, The Netherlands, Norway, Oman, Pakistan, Poland, Portugal, the Republic of Korea, Singapore, Taiwan, Thailand, Turkey, the United Arab Emirates, and the United States in the amount of \$50,000,000 or more; to the Committee on Foreign Relations.

EC-3130. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed manufacturing license agreement to include the export of technical data, defense services, and defense articles to Italy for the manufacture of T700/T6A aircraft engine parts and assembly of these engines for the Italian EH-101 helicopter program in the amount of \$100,000,000 or more; to the Committee on Foreign Relations.

EC-3131. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed manufacturing license agreement to include the export of technical data, defense services, and defense articles for the manufacture of Inertial Systems derived from the H-4223 Ring Laser Gyro based Inertial Navigation System for end-use by the Ministry of Defense of Japan; to the Committee on Foreign Relations.

EC-3132. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of an application for a license for the export of defense articles or services relative to the launch of all commercial and foreign non-commercial satellites from the Pacific Ocean utilizing a modified oil platform to Russia, Denmark, Ukraine, and Norway in the amount of \$50,000,000 or more; to the Committee on Foreign Relations.

EC-3133. A communication from the Chief of Staff, Media Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "Television Broadcasting Services Biloxi, Mississippi" [MB Docket No. 09-125] received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3134. A communication from the Chief of the Policy Division, International Bureau, Federal Communications Commission, trans-

mitting, pursuant to law, the report of a rule entitled "Amendment of Parts 2 and 25 of the Commission's Rules to Allocate Spectrum and Adopt Service Rules and Procedures to Govern the Use of Vehicle-Mounted Earth Stations in Certain Frequency Bands Allocated to the Fixed-Satellite Service" (IB Docket No. 07-101) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3135. A communication from the Attorney, Federal Railroad Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Excess Risk Estimate for Highway-Rail Grade Crossings Along the Florida East Coast Railway Line" (RIN2130-AB88) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3136. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Amendment No. 3337" ((RIN2120-AA65)(9-14-9-14/30684/3337)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3137. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Amendment No. 3336" ((RIN2120-AA65)(9-14-9-14/30683/3336)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3138. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Boeing Model 747 Airplanes" ((RIN2120-AA64)(9-17-9-22/0136/NM-171)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3139. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; British Aerospace Regional Aircraft Model HP.137 Jetstream Mk.1, Jetstream Series 200 and 3101, and Jetstream Model 3201 Airplanes" ((RIN2120-AA64)(9-14-9-14/0817/CE-046)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3140. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Airbus Model A300, A310, and A300-600 Series Airplanes" ((RIN2120-AA64)(9-17-9-22/0292/NM-011)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3141. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule

entitled "Modification of Class E Airspace; Sarasota, Florida" ((RIN2120-AA66)(9-14/9-14/0652/ASO-21)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3142. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Establishment of Class E Airspace; Saluda, South Carolina" ((RIN2120-AA66)(9-14/9-14/0603/ASO-16)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3143. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Establishment of Class E Airspace; Clayton, Georgia" ((RIN2120-AA66)(9-14/9-14/0605/ASO-19)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3144. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Establishment of Class E Airspace; Hertford, North Carolina" ((RIN2120-AA66)(9-14/9-14/0705/ASO-25)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3145. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Establishment of Class E Airspace; Tompkinsville, Kentucky" ((RIN2120-AA66)(9-14/9-14/0604/ASO-18)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3146. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Establishment of Class E Airspace; Lewisport, Kentucky" ((RIN2120-AA66)(9-14/9-14/0706/ASO-26)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3147. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Modification of Class D and Class E Airspace, Establishment of Class E Airspace; Binghamton, New York" ((RIN2120-AA66)(9-14/9-14/0202/AEA-11)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3148. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Amendment to Restricted Areas R-5103A, R-5103B, and R-5103C; McGregor, New Mexico" ((RIN2120-AA66)(9-17/9-17/0770/ASW-20)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3149. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airspace Designations; Incorporation by Reference" (Docket No.

29334)(Amendment No. 71-41)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3150. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone: USCG Barque Eagle Transits of Rockland Harbor, ME, Portland Harbor, ME and Portsmouth Harbor, NH" (Docket No. USG-2009-0777) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3151. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone: Swim Events in Lake Champlain, NY and VT; Casco Bay, Rockland Harbor, Linekin Bay, ME" (Docket No. USG-2009-0523) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3152. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone: MS Harborfest Tugboat Races in Casco Bay, ME" ((RIN1625-AA00)(Docket No. USG-2009-0524)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

#### REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. INOUE, from the Committee on Appropriations:

Special Report entitled "Further Revised Allocation to Subcommittees of Budget Totals From the Concurrent Resolution, Fiscal Year 2010" (Rept. No. 111-78).

By Mr. ROCKEFELLER, from the Committee on Commerce, Science, and Transportation, with an amendment in the nature of a substitute:

S. 251. A bill to amend the Communications Act of 1934 to permit targeted interference with mobile radio services within prison facilities (Rept. No. 111-79).

By Mr. LEAHY, from the Committee on the Judiciary, with amendments:

S. 1670. A bill to reform and modernize the limitations on exclusive rights relating to secondary transmissions of certain signals.

#### EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Mr. LEVIN from the Committee on Armed Services.

Air Force nomination of Maj. Gen. Ralph J. Jodice II, to be Lieutenant General.

Air Force nomination of Maj. Gen. William J. Rew, to be Lieutenant General.

Air Force nomination of Maj. Gen. Christopher D. Miller, to be Lieutenant General.

Army nomination of Brig. Gen. Joseph B. DiBartolomeo, to be Major General.

Army nomination of Lt. Gen. Benjamin C. Freakley, to be Lieutenant General.

Army nomination of Lt. Gen. John D. Gardner, to be Lieutenant General.

Army nomination of Lt. Gen. Frank G. Helmick, to be Lieutenant General.

Army nomination of Maj. Gen. Mark P. Hertling, to be Lieutenant General.

Army nominations beginning with Colonel Robin B. Akin and ending with Colonel Peter B. Zwack, which nominations were received by the Senate and appeared in the Congressional Record on September 9, 2009. (minus 1 nominee: Colonel Kelly J. Thomas)

Army nomination of Col. David J. Conboy, to be Brigadier General.

Army nomination of Col. James V. Young, Jr., to be Brigadier General.

Army nomination of Col. Ivan N. Black, to be Brigadier General.

Navy nominations beginning with Rear Adm. (lh) Michael H. Mittelman and ending with Rear Adm. (lh) Matthew L. Nathan, which nominations were received by the Senate and appeared in the Congressional Record on February 9, 2009.

Navy nomination of Adm. Michael G. Mullen, to be Admiral.

Navy nomination of Capt. Charles A. Rainey, to be Rear Admiral (lower half).

Navy nomination of Capt. Jonathan W. White, to be Rear Admiral (lower half).

Navy nomination of Rear Adm. (lh) David W. Titley, to be Rear Admiral.

Navy nomination of Rear Adm. (lh) Gregory J. Smith, to be Rear Admiral.

Navy nomination of Vice Adm. Bruce W. Clingan, to be Vice Admiral.

Marine Corps nomination of Gen. James N. Mattis, to be General.

Marine Corps nomination of Maj. Gen. Frank A. Panter, Jr., to be Lieutenant General.

Marine Corps nomination of Maj. Gen. Thomas D. Waldhauser, to be Lieutenant General.

Marine Corps nomination of Maj. Gen. John F. Kelly, to be Lieutenant General.

Mr. LEVIN. Mr. President, for the Committee on Armed Services I report favorably the following nomination lists which were printed in the RECORD on the dates indicated, and ask unanimous consent, to save the expense of reprinting on the Executive Calendar that these nominations lie at the Secretary's desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

Air Force nominations beginning with Lance L. Annicelli and ending with David A. Welge, which nominations were received by the Senate and appeared in the Congressional Record on July 14, 2009.

Air Force nomination of Thomas M. Anderson, to be Lieutenant Colonel.

Air Force nomination of Ricky B. Reaves, to be Major.

Air Force nomination of Jose R. Pereztorres, to be Major.

Air Force nominations beginning with Loyd A. Graham and ending with Christine E. Stahl, which nominations were received by the Senate and appeared in the Congressional Record on September 14, 2009.

Army nomination of Robert J. Schultz, to be Major.

Army nomination of Andrea J. Fuller, to be Major.

Army nominations beginning with Peter H. Guevara and ending with Jean R. Elysee, which nominations were received by the Senate and appeared in the Congressional Record on July 28, 2009.

Army nominations beginning with James Bane and ending with Benoit D. Tano, which nominations were received by the Senate and

appeared in the Congressional Record on July 28, 2009.

Army nominations beginning with John A. Blankenbaker and ending with Virginia R. Zoller, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Army nominations beginning with William L. Abernathy, Jr. and ending with Francisco Zuniga, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Army nominations beginning with Gregory T. Adams and ending with Scott L. Zonis, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Army nomination of Cameron D. Wright, to be Colonel.

Army nomination of Andre L. Brown, to be Major.

Army nominations beginning with Kathleen E. Coffey and ending with Brian R. Trenda, which nominations were received by the Senate and appeared in the Congressional Record on August 6, 2009.

Army nomination of Sonnie D. Deyampert, to be Lieutenant Colonel.

Army nomination of Douglas Lougee, to be Colonel.

Army nomination of James Peak, to be Major.

Army nominations beginning with Joyvetta Lewis and ending with William A. Wyman, which nominations were received by the Senate and appeared in the Congressional Record on September 14, 2009.

Army nomination of Derek D. Brown, to be Major.

Army nominations beginning with Stephanie Latimer and ending with Oanh K. Tran, which nominations were received by the Senate and appeared in the Congressional Record on September 17, 2009.

Army nominations beginning with Michelle H. Martin and ending with Margaret A. Mosley, which nominations were received by the Senate and appeared in the Congressional Record on September 17, 2009.

Army nominations beginning with Robert E. Powers and ending with Mysore S. Shilpa, which nominations were received by the Senate and appeared in the Congressional Record on September 17, 2009.

Navy nomination of Erik J. Modlo, to be Lieutenant Commander.

Navy nominations beginning with Josh A. Cassada and ending with Larry R. Smith, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Navy nominations beginning with Matthew J. Acanfora and ending with David W. York, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Navy nominations beginning with Ron J. Arellano and ending with Joel A. Yates, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Navy nominations beginning with Benjamin I. Abney and ending with Mckinnya J. Williamsrobinson, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Navy nominations beginning with Christopher D. Addington and ending with Kurt A. Young, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Navy nominations beginning with Kelly W. Bowman, Jr. and ending with Michael Windom, which nominations were received

by the Senate and appeared in the Congressional Record on August 3, 2009.

Navy nominations beginning with Hasan Abdulmutakallim and ending with Kenya D. Williamson, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Navy nominations beginning with Denise G. Barham and ending with Herlinda K. Sweeney, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Navy nominations beginning with Guillermo R. Amezaaga and ending with Mike E. Svatek, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Navy nominations beginning with Christopher W. Anderson and ending with Colin D. Xander, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Navy nominations beginning with Matthew L. Abbot and ending with Stuart R. Zurn, which nominations were received by the Senate and appeared in the Congressional Record on August 3, 2009.

Navy nominations beginning with Paul C. Kerr and ending with Bruce A. Waterman, which nominations were received by the Senate and appeared in the Congressional Record on August 6, 2009.

Navy nominations beginning with Scott A. Anderson and ending with Gwendolyn Willis, which nominations were received by the Senate and appeared in the Congressional Record on August 6, 2009.

Navy nominations beginning with Keith R. Barkey and ending with Jason D. Zeda, which nominations were received by the Senate and appeared in the Congressional Record on August 6, 2009.

Navy nominations beginning with Paul S. Anderson and ending with Michael D. Williams, which nominations were received by the Senate and appeared in the Congressional Record on August 6, 2009.

Navy nominations beginning with Robin M. Allen and ending with Scott Y. Yamamoto, which nominations were received by the Senate and appeared in the Congressional Record on August 6, 2009.

Navy nominations beginning with James D. Abbott and ending with Robert W. Zurschmit, which nominations were received by the Senate and appeared in the Congressional Record on August 6, 2009.

Navy nominations beginning with Jason T. Baltimore and ending with Ian S. Wexler, which nominations were received by the Senate and appeared in the Congressional Record on August 6, 2009.

Navy nominations beginning with Joel R. Bealer and ending with Richard G. Zeber, which nominations were received by the Senate and appeared in the Congressional Record on August 6, 2009.

Navy nominations beginning with Martin J. Anerino and ending with Walter H. Williams, which nominations were received by the Senate and appeared in the Congressional Record on August 6, 2009.

Navy nominations beginning with Roger S. Akins and ending with Tingwei Yang, which nominations were received by the Senate and appeared in the Congressional Record on August 6, 2009.

Navy nominations beginning with Brian J. Ellis and ending with Matthew L. Tucker, which nominations were received by the Senate and appeared in the Congressional Record on September 14, 2009.

Navy nominations beginning with Anthony T. Cowden and ending with Jared E. Scott,

which nominations were received by the Senate and appeared in the Congressional Record on September 14, 2009.

Navy nominations beginning with Neri B. Barnea and ending with William O. Voelker, which nominations were received by the Senate and appeared in the Congressional Record on September 17, 2009.

Navy nominations beginning with Anita Aminoshariae and ending with Denny Martin, which nominations were received by the Senate and appeared in the Congressional Record on September 17, 2009.

Navy nominations beginning with Tracy D. Emerson and ending with David K. Shellington, which nominations were received by the Senate and appeared in the Congressional Record on September 17, 2009.

By Mr. LEAHY for the Committee on the Judiciary.

Paul Joseph Fishman, of New Jersey, to be United States Attorney for the District of New Jersey for the term of four years.

Jenny A. Durkan, of Washington, to be United States Attorney for the Western District of Washington for the term of four years.

Florence T. Nakakuni, of Hawaii, to be United States Attorney for the District of Hawaii for the term of four years.

Deborah K. R. Gilg, of Nebraska, to be United States Attorney for the District of Nebraska for the term of four years.

Ignacia S. Moreno, of New York, to be an Assistant Attorney General.

(Nominations without an asterisk were reported with the recommendation that they be confirmed.)

## INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. DORGAN (for himself, Mr. TESTER, Mr. INOUE, Mr. AKAKA, Mr. BAUCUS, Mr. UDALL of New Mexico, Mr. BINGAMAN, and Mr. FRANKEN):

S. 1703. A bill to amend the Act of June 18, 1934, to reaffirm the authority of the Secretary of the Interior to take land into trust for Indian tribes; to the Committee on Indian Affairs.

By Mr. NELSON of Florida (for himself, Ms. SNOWE, and Mr. CARDIN):

S. 1704. A bill to hold the surviving Nazi war criminals accountable for the war crimes, genocide, and crimes against humanity they committed during World War II, by encouraging foreign governments to more efficiently prosecute and extradite wanted criminals; to the Committee on the Judiciary.

By Mr. BARRASSO:

S. 1705. A bill to suspend temporarily the duty on certain acrylic fiber tow containing a minimum of 92 percent acrylonitrile; to the Committee on Finance.

By Mr. BARRASSO:

S. 1706. A bill to suspend temporarily the duty on certain acrylic fiber tow; to the Committee on Finance.

By Mr. KERRY (for himself and Mr. LUGAR):

S. 1707. A bill to authorize appropriations for fiscal years 2010 through 2014 to promote an enhanced strategic partnership with Pakistan and its people, and for other purposes; considered and passed.

By Ms. KLOBUCHAR (for herself and Mrs. HAGAN):

S. 1708. A bill to establish a grant program to prevent truancy, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Ms. STABENOW (for herself, Mr. THUNE, Mr. JOHNSON, Mr. COCHRAN, Mr. JOHANNIS, Mr. GRASSLEY, Mr. BARRASSO, Mr. ISAKSON, Mr. CHAMBLISS, Ms. KLOBUCHAR, Mr. TESTER, Mr. BAUCUS, Mr. HARKIN, Mr. SANDERS, Mrs. GILLIBRAND, Mr. CRAPO, Mr. BENNET, Mr. LEAHY, Mr. BROWNBACK, and Mr. NELSON of Nebraska):

S. 1709. A bill to amend the National Agricultural Research, Extension, and Teaching Policy Act of 1977 to establish a grant program to promote efforts to develop, implement, and sustain veterinary services, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. VITTER (for himself and Mr. SHELBY):

S. 1710. A bill to prohibit recipients of TARP assistance from funding ACORN, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. REID (for himself and Mr. ENSIGN):

S. 1711. A bill to amend the Internal Revenue Code of 1986 to provide tax incentives for making homes more water-efficient, for building new water-efficient homes, for public water conservation, and for other purposes; to the Committee on Finance.

By Mr. REID (for himself, Mrs. BOXER, and Mr. CARDIN):

S. 1712. A bill to promote water efficiency, conservation, and adaptation, and for other purposes; to the Committee on Environment and Public Works.

By Mr. REID (for himself, Mr. BAUCUS, Mr. HATCH, Mr. TESTER, and Mr. UDALL of New Mexico):

S. 1713. A bill to establish loan guarantee programs to develop biochar technology using excess plant biomass, to establish biochar demonstration projects on public land, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. DURBIN:

S. 1714. A bill to authorize grants for the creation, update, or adaption of open textbooks, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

## SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mrs. FEINSTEIN (for herself, Mr. ROCKEFELLER, Mrs. GILLIBRAND, Mr. CARPER, Ms. MIKULSKI, Mr. LIEBERMAN, Ms. COLLINS, Mr. REID, Mr. LEVIN, Mr. BENNETT, Ms. SNOWE, Ms. LANDRIEU, Mr. HATCH, Mr. BAYH, and Mr. VOINOVICH):

S. Res. 285. A resolution supporting the goals and ideals of national cybersecurity awareness month and raising awareness and enhancing the State of cybersecurity in the United States; to the Committee on Commerce, Science, and Transportation.

By Mr. ISAKSON (for himself and Mr. CHAMBLISS):

S. Res. 286. A resolution expressing condolences to the families of the individuals killed during unusual storms and floods in the State of Georgia between September 18 and September 21, 2009, and expressing gratitude to all of the emergency personnel who

continue to work with unyielding determination to meet the needs of Georgia's residents; considered and agreed to.

By Mr. BROWN:

S. Res. 287. Honoring the 25th anniversary of the enactment of the Drug Price Competition and Patent Term Restoration Act of 1984 (the Hatch-Waxman Act); to the Committee on the Judiciary.

## ADDITIONAL COSPONSORS

S. 327

At the request of Mr. LEAHY, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of S. 327, a bill to amend the Violence Against Women Act of 1994 and the Omnibus Crime Control and Safe Streets Act of 1968 to improve assistance to domestic and sexual violence victims and provide for technical corrections.

S. 624

At the request of Mr. DURBIN, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 624, a bill to provide 100,000,000 people with first-time access to safe drinking water and sanitation on a sustainable basis by 2015 by improving the capacity of the United States Government to fully implement the Senator Paul Simon Water for the Poor Act of 2005.

S. 628

At the request of Mr. CONRAD, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 628, a bill to provide incentives to physicians to practice in rural and medically underserved communities.

S. 723

At the request of Mr. WYDEN, the name of the Senator from Mississippi (Mr. WICKER) was added as a cosponsor of S. 723, a bill to prohibit the introduction or delivery for introduction into interstate commerce of novelty lighters, and for other purposes.

S. 729

At the request of Mr. DURBIN, the name of the Senator from Colorado (Mr. BENNET) was added as a cosponsor of S. 729, a bill to amend the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 to permit States to determine State residency for higher education purposes and to authorize the cancellation of removal and adjustment of status of certain alien students who are long-term United States residents and who entered the United States as children, and for other purposes.

S. 839

At the request of Mr. CASEY, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 839, a bill to assist States in making voluntary high quality universal prekindergarten programs available to 3- to 5-year olds for at least 1 year preceding kindergarten.

S. 1055

At the request of Mrs. BOXER, the name of the Senator from Oklahoma (Mr. INHOFE) was added as a cosponsor of S. 1055, a bill to grant the congressional gold medal, collectively, to the 100th Infantry Battalion and the 442nd Regimental Combat Team, United States Army, in recognition of their dedicated service during World War II.

S. 1301

At the request of Mr. MENENDEZ, the name of the Senator from Rhode Island (Mr. WHITEHOUSE) was added as a cosponsor of S. 1301, a bill to direct the Attorney General to make an annual grant to the A Child Is Missing Alert and Recovery Center to assist law enforcement agencies in the rapid recovery of missing children, and for other purposes.

S. 1304

At the request of Mr. GRASSLEY, the name of the Senator from Nebraska (Mr. NELSON) was added as a cosponsor of S. 1304, a bill to restore the economic rights of automobile dealers, and for other purposes.

S. 1337

At the request of Mr. AKAKA, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of S. 1337, a bill to exempt children of certain Filipino World War II veterans from the numerical limitations on immigrant visas.

S. 1422

At the request of Mrs. MURRAY, the name of the Senator from Illinois (Mr. BURRIS) was added as a cosponsor of S. 1422, a bill to amend the Family and Medical Leave Act of 1993 to clarify the eligibility requirements with respect to airline flight crews.

S. 1547

At the request of Mr. REED, the name of the Senator from Illinois (Mr. BURRIS) was added as a cosponsor of S. 1547, a bill to amend title 38, United States Code, and the United States Housing Act of 1937 to enhance and expand the assistance provided by the Department of Veterans Affairs and the Department of Housing and Urban Development to homeless veterans and veterans at risk of homelessness, and for other purposes.

S. 1584

At the request of Mr. MERKLEY, the name of the Senator from Colorado (Mr. BENNET) was added as a cosponsor of S. 1584, a bill to prohibit employment discrimination on the basis of sexual orientation or gender identity.

S. 1624

At the request of Mr. WHITEHOUSE, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of S. 1624, a bill to amend title 11 of the United States Code, to provide protection for medical debt homeowners, to restore bankruptcy protections for individuals experiencing economic distress as caregivers

to ill, injured, or disabled family members, and to exempt from means testing debtors whose financial problems were caused by serious medical problems, and for other purposes.

S. 1661

At the request of Mr. KOHL, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of S. 1661, a bill to protect older Americans from misleading and fraudulent marketing practices, with the goal of increasing retirement security.

S. 1666

At the request of Ms. COLLINS, the name of the Senator from Virginia (Mr. WEBB) was added as a cosponsor of S. 1666, a bill to require the Administrator of the Environmental Protection Agency to satisfy certain conditions before issuing to producers of mid-level ethanol blends a waiver from certain requirements under the Clean Air Act, and for other purposes.

S. 1668

At the request of Mr. BENNET, the name of the Senator from Idaho (Mr. RISCH) was added as a cosponsor of S. 1668, a bill to amend title 38, United States Code, to provide for the inclusion of certain active duty service in the reserve components as qualifying service for purposes of Post-9/11 Educational Assistance Program, and for other purposes.

S. 1678

At the request of Mr. CARDIN, the names of the Senator from Georgia (Mr. CHAMBLISS) and the Senator from New York (Mrs. GILLIBRAND) were added as cosponsors of S. 1678, a bill to amend the Internal Revenue Code of 1986 to extend the first-time homebuyer tax credit, and for other purposes.

S. 1685

At the request of Mr. SANDERS, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 1685, a bill to provide an emergency benefit of \$250 to seniors, veterans, and persons with disabilities in 2010 to compensate for the lack of a cost-of-living adjustment for such year, and for other purposes.

S. 1699

At the request of Mr. REED, the name of the Senator from South Carolina (Mr. GRAHAM) was added as a cosponsor of S. 1699, a bill to amend the Supplemental Appropriations Act, 2008 to provide for the temporary availability of certain additional emergency unemployment compensation, and for other purposes.

S. CON. RES. 37

At the request of Mr. JOHANNIS, the name of the Senator from Georgia (Mr. ISAKSON) was added as a cosponsor of S. Con. Res. 37, a concurrent resolution supporting the goals and ideals of senior caregiving and affordability.

AMENDMENT NO. 2441

At the request of Mr. DORGAN, the name of the Senator from North Da-

kota (Mr. CONRAD) was added as a cosponsor of amendment No. 2441 proposed to H.R. 2996, a bill making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2477

At the request of Mr. HARKIN, the names of the Senator from Nebraska (Mr. JOHANNIS) and the Senator from Missouri (Mrs. MCCASKILL) were added as cosponsors of amendment No. 2477 intended to be proposed to H.R. 2996, a bill making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2491

At the request of Ms. MURKOWSKI, her name was added as a cosponsor of amendment No. 2491 proposed to H.R. 2996, a bill making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2498

At the request of Ms. COLLINS, the name of the Senator from Wyoming (Mr. BARRASSO) was added as a cosponsor of amendment No. 2498 proposed to H.R. 2996, a bill making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2501

At the request of Mr. CRAPO, his name was added as a cosponsor of amendment No. 2501 proposed to H.R. 2996, a bill making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2530

At the request of Ms. MURKOWSKI, the names of the Senator from Wyoming (Mr. BARRASSO), the Senator from Nebraska (Mr. JOHANNIS) and the Senator from Georgia (Mr. CHAMBLISS) were added as cosponsors of amendment No. 2530 intended to be proposed to H.R. 2996, a bill making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2534

At the request of Ms. STABENOW, her name was added as a cosponsor of amendment No. 2534 proposed to H.R. 2996, a bill making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2535

At the request of Mr. BARRASSO, the name of the Senator from North Dakota (Mr. DORGAN) was added as a cosponsor of amendment No. 2535 pro-

posed to H.R. 2996, a bill making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2543

At the request of Mr. TESTER, the name of the Senator from Idaho (Mr. RISCH) was added as a cosponsor of amendment No. 2543 intended to be proposed to H.R. 2996, a bill making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. DORGAN (for himself, Mr. TESTER, Mr. INOUE, Mr. AKAKA, Mr. BAUCUS, Mr. UDALL of New Mexico, Mr. BINGAMAN, and Mr. FRANKEN):

S. 1703. A bill to amend the Act of June 18, 1934, to reaffirm the authority of the Secretary of the Interior to take land into trust for Indian tribes; to the Committee on Indian Affairs.

Mr. DORGAN. Mr. President, I rise today to introduce a technical amendment to the Act of June 18, 1934.

On February 24, 2009, the Supreme Court issued its decision in the *Carcieri v. Salazar* case. In that decision the Supreme Court held that the Secretary of the Interior exceeded his authority in taking land into trust for a tribe that was not under Federal jurisdiction, or recognized, at the time the Indian Reorganization Act was enacted in 1934.

The legislation I am introducing today is necessary to reaffirm the Secretary's authority to take lands into trust for Indian tribes, regardless of when they were recognized by the Federal government. The amendment ratifies the prior trust acquisitions of the Secretary, who for the past 75 years has been exercising his authority to take lands into trust, as intended by the Indian Reorganization Act.

On May 21, 2009, the Senate Committee on Indian Affairs held a hearing to examine the executive branch's authority to take land into trust for Indian tribes. At that hearing, it became clear that Congress needs to act to resolve the uncertainty created by the Supreme Court's decision. Therefore, this legislation was developed in consultation with interested parties to clarify the Secretary's authority.

Inaction by Congress could significantly impact planned development projects on Indian trust lands, including the building of homes and community centers; result in a loss of jobs in an already challenging economic environment; and create costly and unnecessary litigation.

Further, if the decision stands, it would have the effect of creating two

classes of Indian tribes—those who were recognized as of 1934, for whom land may be taken into trust, and those recognized after 1934 that would be unable to have land taken into trust status. Creating two classes of tribes is unacceptable and is contrary to prior Acts of this Congress. In 1994, Congress passed the Federally Recognized Indian Tribe List Act to ensure that all tribes are treated equally, regardless of their date of recognition.

I want to thank Senators TESTER, INOUE, AKAKA, BAUCUS, UDALL, BINGAMAN, and FRANKEN for their support on this legislation. My cosponsors are well aware of the resulting impact this decision could have on our Native American communities. Affected tribes deserve our timely consideration of this bill. I urge my colleagues to join me in supporting the passage of this legislation.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1703

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. MODIFICATION OF DEFINITION.

(a) IN GENERAL.—Section 19 of the Act of June 18, 1934 (commonly known as the “Indian Reorganization Act”) (25 U.S.C. 479), is amended—

(1) in the first sentence—

(A) by striking “The term” and inserting “Effective beginning on June 18, 1934, the term”; and

(B) by striking “any recognized Indian tribe now under Federal jurisdiction” and inserting “any federally recognized Indian tribe”; and

(2) by striking the third sentence and inserting the following: “In this section, the term ‘Indian tribe’ means any Indian or Alaska Native tribe, band, nation, pueblo, village, or community that the Secretary of the Interior acknowledges to exist as an Indian tribe.”.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect as if included in the Act of June 18, 1934 (commonly known as the “Indian Reorganization Act”) (25 U.S.C. 479), on the date of enactment of that Act.

By Mr. NELSON, of Florida (for himself, Ms. SNOWE, and Mr. CARDIN):

S. 1704. A bill to hold the surviving Nazi war criminals accountable for the war crimes, genocide, and crimes against humanity they committed during World War II, by encouraging foreign governments to more efficiently prosecute and extradite wanted criminals; to the Committee on the Judiciary.

Mr. NELSON of Florida. Mr. President, I rise today to introduce the World War II War Crimes Accountability Act of 2009. The bill seeks to hold the surviving Nazi war criminals accountable for their crimes by encour-

aging foreign governments to prosecute and extradite wanted criminals. I would like to thank my colleagues, Senators SNOWE and CARDIN, for supporting this important legislation.

The atrocities committed by the Nazis and their allies during the Second World War were vast and have helped shape the modern concept of crimes against humanity. After the war, some of the perpetrators of these heinous crimes escaped justice and have been living out their days as free men.

In an effort to bring these fugitives to justice, the Simon Wiesenthal Center and the Targum Shlishi Foundation of Miami, Florida launched “Operation: Last Chance” to help identify and facilitate the prosecution of the remaining unprosecuted Nazi war criminals and to assist governments in bringing Nazi war criminals to justice.

Among the Center’s many open cases there is Alois Brunner, a key operative of Adolf Eichmann, who was responsible for the deportation of 47,000 Jews from Austria, 44,000 Jews from Greece, 23,500 Jews from France, and 14,000 Jews from Slovakia to Nazi death camps. He lived in Syria for decades and the Syrian government refused to cooperate with international prosecution efforts. He was convicted in absentia for his crimes by France. He was born in 1912 and last seen in 2001. While it is doubtful that he is still alive, there is no conclusive evidence of his death.

Another case is that of Milivoj Asner, who served as the police chief of the city of Slavonska Pozega. During 1941 and 1942, Mr. Asner orchestrated the robbery, persecution and destruction of the local Serb, Jewish, and Gypsy communities, which culminated in the deportation of hundreds of civilians to Ustasha concentration camps, where most of the deportees were murdered. After his exposure in Operation: Last Chance, the former police chief later escaped once again to Klagenfurt, Austria where he currently resides.

Within our own government, the Office of Special Investigations at the Justice Department is tasked with identifying, investigating and denying refuge in the United States to the Nazi persecutors. As a result, the U.S. is the only country in the world to have won an “A” rating from the Simon Wiesenthal Center for effectiveness in pursuing justice for Holocaust crimes.

Yet despite the best efforts of the U.S. Government and tireless work of organizations like the Wiesenthal Center, some countries continue to harbor wanted Nazis and refuse to accept the extradition of Nazi criminals from other countries, including the U.S. This inaction is shameful.

It is incumbent upon us as Americans to honor the memory of those killed in the Holocaust and to pay tribute to the sacrifices of the men and women who

fought and died in World War II. The last surviving Nazi war criminals are dying off. We must do everything in our power, including equipping our own government with important tools, to bring these war criminals to justice before it is too late.

The World War II War Crimes Accountability Act seeks to strengthen U.S. efforts by directing the Attorney General to assess a country’s cooperation in prosecuting and extraditing war criminals when considering prospective countries for admission into the Visa Waiver Program. It also requires the President to issue an annual report describing such cooperation for countries seeking entry into or renewal of the Visa Waiver Program.

I believe that giving the administration this added review process will help encourage foreign governments to prosecute and extradite wanted criminals. I hope that others will join me in cosponsoring this legislation and voting it into law.

Time is of the essence. Surviving Nazi war criminals are becoming increasingly rare. We must do all that we can before it is too late.

By Mr. REID (for himself and Mr. ENSIGN):

S. 1711. A bill to amend the Internal Revenue Code of 1986 to provide tax incentives for making homes more water-efficient, for building new water-efficient homes, for public water conservation, and for other purposes; to the Committee on Finance.

Mr. REID. Mr. President, I rise today to introduce three pieces of legislation: the Water Efficiency and Conservation Investment Act, S. 1711, the Water Efficiency, Conservation and Adaptation Act, S. 1712, and the Water Efficiency via Carbon Harvesting and Restoration Act, S. 1713.

Water is our world’s most precious and important limited natural resource—access to water is vital for every person and life form on this planet. Albert Szent-Gyorgyi, a Hungarian Nobel Prize winning doctor, once said that “water is life’s mater and matrix, mother and medium. There is no life without water.”

While Nevada is blessed with beautiful desert landscapes and tremendous clean energy resources, we are not blessed with abundant water supplies. That is why I am introducing legislation together with my friend Senator ENSIGN and others that will: encourage Americans to use water more efficiently; ensure that future generations have access to adequate supplies of clean water; and convert water stealing invasive weeds to sequestered carbon and clean-burning fuels.

A lengthy drought is taking its toll on the Colorado River Basin states, especially Nevada, Arizona, and California. More than 30 million people rely on water from the Colorado River,

which supplies Southern Nevada with 90 percent of its water. Water levels at Lake Mead, where water used by 1.9 million Nevadans is stored, have dropped by roughly 100 feet. If the drought in the Southwest continues the lake could dry up in the next 12 years, according to a study by the Scripps Institution of Oceanography.

Growing population, rising water demand, climate change induced disruptions to the water cycle, aging infrastructure, and water disputes all necessitate early action so the water resources we rely on today can be enjoyed by the next generation.

Even without considering the effects of climate change, the U.S. Global Change Research Program has identified many serious water supply conflicts in the Colorado River Basin states by 2025. Factoring in the USGCRP's projection that precipitation runoff will decrease in the Southwest by up to 40 percent in some areas over the next half century as a result of a changing climate, it is clear that immediate and constant attention is and will be necessary to address these water supply problems.

Legislation is urgently needed to promote greater water efficiency and create better financing options for improving our infrastructure to save, recycle and reuse water. Strong tax incentives to make our homes and yards more water efficient and to increase investments in extending the life of our existing water supplies will help secure water scarce regions against the economic and health catastrophes that would occur if their water supplies were to run dry.

We need to invest meaningfully in planning for, adapting to and mitigating the effects of climate change on water supplies and water infrastructure with which Nevadans are becoming all too familiar. It is important that we start planning right away for a more secure water supply future.

Investing in water efficiency and adapting our water systems to a changing climate not only prepares us for the future, it also can save consumers hundreds of dollars on their water bills. Additionally, adequate funding for the legislation I am introducing today could create tens of thousands of jobs. A \$1 million direct investment in water efficiency is estimated to create between 15 and 22 jobs—more than double the jobs created by coal or oil investments.

Together, the Water Efficiency and Conservation Investment Act and the Water Efficiency, Conservation and Adaptation Act provide the right balance of tax incentives, financing and grant programs to begin formulating a national strategy to address these pressing needs and ensure that current and future Nevadans will have greater and more sustainable economic growth opportunities.

The Water Efficiency via Carbon Harvesting and Restoration Act also helps protect our water resources, and does much more. Invasive weeds and dangerous fuels buildup in Western landscapes have become recipes for disaster on a seemingly annual basis. The Bureau of Land Management has estimated that a single acre of salt cedar robs our watersheds of nearly a million gallons of water each year. The National Park Service has found that the infestation at Lake Mead National Recreation Area alone covers almost 7,000 acres. Removing the salt cedar from this one area would restore enough water to satisfy the needs of 72,000 Las Vegas residents.

At the same time, expansion of pinyon and juniper now covers up to 9 million acres of the public lands in the Great Basin, forming dense thickets impenetrable to most wildlife, and creating enormous wildland fire hazards.

Using biochar production technology, we can restore these impacted landscapes, while producing valuable products that can help address climate change through long term carbon sequestration, benefit agriculture and the environment by reducing the need for chemical fertilizers, and produce cleaner-burning fuels to help meet our Nation's energy needs. All of this can be achieved while saving billions of gallons of water, reducing the risks of hotter and more difficult to extinguish wildfires, and creating rural economic development opportunities.

Let me offer a brief description of how biochar technology works: The woody material in invasive plants is heated in the absence of oxygen to produce biochar, as well as bio-oil and syngas which can then be used to power the production process. Biochar is nearly pure carbon, and when applied to landscapes and agricultural fields it has long-lasting benefits. It significantly improves soil quality, decreases fertilizer runoff, and increases plant health and crop yields. Studies have found that biochar is stable for hundreds if not thousands of years, keeping this carbon from being released into the atmosphere where it would contribute to climate change.

These bills will do much to extend the life of our water resources in the face of growing water demand and climate disruptions, while improving the health of ecosystems. Under these bills, Nevadans would have new options to save money on their water bills and new ways to make money by eliminating water-hungry invasive species. And, the low-cost financing options that will help communities adapt to drought and water scarcity due to global climate change will ensure sustainable economic growth and stimulate more green job creation.

As these bills move through the legislative process, I look forward to working with my colleagues to ensure

that adequate attention is paid to the tremendous work our Nation must do so that future generations may enjoy a more secure and predictable clean water future.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1711

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Water Efficiency and Conservation Investment Act of 2009".

#### SEC. 2. RESIDENTIAL WATER EFFICIENCY CREDIT.

(a) IN GENERAL.—Subpart B of part IV of subchapter A of chapter 1 of the Internal Revenue Code is amended by inserting after section 30D the following new section:

##### "SEC. 30E. RESIDENTIAL WATER EFFICIENCY CREDIT.

"(a) ALLOWANCE OF CREDIT.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to 50 percent of the qualified water efficiency property expenditures paid or incurred during such taxable year.

"(b) LIMITATION.—The credit allowed under this section with respect to any taxpayer for any taxable year shall not exceed \$750.

"(c) QUALIFIED WATER EFFICIENCY PROPERTY EXPENDITURES.—For purposes of this section—

"(1) IN GENERAL.—The term 'qualified water efficiency property expenditures' means expenditures for qualified water efficiency property which is—

"(A) installed on or in connection with a dwelling unit located in the United States that is owned by the taxpayer (without regard to whether any other person occupies such dwelling unit as a residence), and

"(B) originally placed in service by the taxpayer.

Such term includes expenditures for labor costs properly allocable to the onsite preparation, assembly, or original installation of such property.

"(2) QUALIFIED WATER EFFICIENCY PROPERTY.—The term 'qualified water efficiency property' means—

"(A) property which meets the national efficiency standards and specifications for residential water-using fixtures, appliances, and devices under the WaterSense program of the Environmental Protection Agency that are in effect on the date of purchase of such property, but only if such property improves water efficiency by no less than 20 percent over standard models of similar water-using fixtures and appliances as determined by the Administrator of such Agency, and

"(B) water efficient landscaping which is installed by a landscape irrigation professional certified by such WaterSense program and which reduces water use by no less than 50 percent, as certified by such professional.

"(3) STATE WATER EFFICIENCY STANDARDS.—In the case of a State that has mandatory water efficiency standards for any property that are more stringent than the standards and specifications described in paragraph (2), property installed on or in connection with a dwelling unit that is located in such State must meet such water efficiency standards of

such State in order to be treated as qualified water efficiency property for purposes of this section.

“(d) SPECIAL RULES.—For purposes of this section—

“(1) JOINT OWNERSHIP OF WATER EFFICIENCY ITEMS.—

“(A) IN GENERAL.—An expenditure shall not fail to be treated as a qualified water efficiency property expenditure merely because such expenditure was made with respect to 2 or more dwelling units.

“(B) ALLOCATION OF EXPENDITURES.—In the case of an expenditure made with respect to 2 or more dwelling units, for purposes of determining the credit allowable under this section, such expenditure shall be allocated among such dwelling units in proportion to the amount of the expenditure made for each dwelling unit.

“(2) REFUNDS DISREGARDED IN THE ADMINISTRATION OF FEDERAL PROGRAMS AND FEDERALLY ASSISTED PROGRAMS.—Any credit or refund allowed or made to any individual by reason of this section shall not be taken into account as income and shall not be taken into account as resources, for purposes of determining the eligibility of such individual or any other individual for benefits or assistance, or the amount or extent of benefits or assistance, under any Federal program or under any State or local program financed in whole or in part with Federal funds.

“(3) BASIS ADJUSTMENTS.—For purposes of this subtitle, if a credit is allowed under subsection (a) for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so allowed.

“(4) DENIAL OF DOUBLE BENEFIT.—

“(A) IN GENERAL.—No deduction or credit under any other provision of this chapter shall be allowed with respect to the amount of any qualified water efficiency property expenditure taken into account under this section.

“(B) REBATE PROGRAMS.—The amount of any qualified water efficiency property expenditure for which an individual is reimbursed under any Federal government program shall not be taken into account for purposes of determining the credit under subsection (a) with respect such individual.

“(e) APPLICATION WITH OTHER CREDITS.—

“(1) BUSINESS CREDIT.—

“(A) BUSINESS CREDIT TREATED AS PART OF GENERAL BUSINESS CREDIT.—So much of the credit which would be allowed under subsection (a) for any taxable year (determined without regard to this subsection) that is attributable to property of a character subject to an allowance for depreciation shall be treated as a credit listed in section 38(b) for such taxable year (and not allowed under subsection (a)).

“(B) DISALLOWANCE OF DEPRECIATION.—In the case of an expenditure for property described in subparagraph (A) with respect to which a credit is allowed under section 38(b) by reason of such subparagraph, the depreciation allowance for such property in all taxable years shall be zero and no deduction shall be available under section 167 with respect to such property.

“(2) PERSONAL CREDIT.—

“(A) IN GENERAL.—For purposes of this title, the credit allowed under subsection (a) for any taxable year (determined after application of paragraph (1)) shall be treated as a credit allowable under subpart A for such taxable year.

“(B) LIMITATION BASED ON AMOUNT OF TAX.—In the case of a taxable year to which

section 26(a)(2) does not apply, the credit allowed under subsection (a) for any taxable year (determined after application of paragraph (1)) shall not exceed the excess of—

“(i) the sum of the regular tax liability (as defined in section 26(b)), plus

“(ii) the sum of the credits allowable under subpart A (other than this section and sections 23, 25D, 30, 30B, and 30D) and section 27 for the taxable year.

“(f) TERMINATION.—This section shall not apply with respect to any property placed in service after December 31, 2014.”

(b) CONFORMING AMENDMENTS.—

(1) Section 24(b)(3)(B) of the Internal Revenue Code of 1986 is amended by striking “and 30D” and inserting “, 30D, and 30E”.

(2) Section 25(e)(1)(C)(ii) of such Code is amended by inserting “30E,” after “30D,”

(3) Section 25B(g)(2) of such Code is amended by striking “and 30D” and inserting “30D, and 30E”.

(4) Section 904(i) of such Code is amended by striking “and 30D” and inserting “30D, and 30E”.

(5) Section 1016(a) of such Code is amended by striking “and” at the end of paragraph (36), by striking the period at the end of paragraph (37) and inserting “, and”, and by adding at the end the following new paragraph:

“(38) to the extent provided in section 30E(d)(3).”

(6) Section 1400C(d)(2) of such Code is amended by striking “and 30D” and inserting “30D, and 30E”.

(c) CREDIT TO BE PART OF BUSINESS CREDIT.—Section 38(b) of the Internal Revenue Code of 1986 is amended by striking “plus” at the end of paragraph (34), by striking the period at the end of paragraph (35) and inserting “, plus”, and by adding at the end the following new paragraph:

“(36) the portion of the residential water efficiency credit to which section 30E(e)(1) applies.”

(d) CLERICAL AMENDMENT.—The table of sections for subpart B of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by inserting after the item relating to section 30D the following new item:

“Sec. 30E. Residential water efficiency credit.”

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after December 31, 2009.

### SEC. 3. NEW WATER EFFICIENT HOME CREDIT.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by adding at the end the following new section:

#### “SEC. 45R. NEW WATER EFFICIENT HOME CREDIT.”

“(a) ALLOWANCE OF CREDIT.—For purposes of section 38, in the case of an eligible contractor, the new water efficient home credit for the taxable year is an amount equal to \$1,500 for each qualified new water efficient home which is—

“(1) constructed by such eligible contractor, and

“(2) acquired by a person from such eligible contractor during the taxable year.

“(b) DEFINITIONS.—For purposes of this section—

“(1) ELIGIBLE CONTRACTOR.—The term ‘eligible contractor’ means a person who is certified as a builder partner under the WaterSense program of the Environmental Protection Agency and who is—

“(A) the person who constructed the qualified new water efficient home, or

“(B) in the case of a qualified new energy efficient home which is a manufactured

home, the manufactured home producer of such home.

“(2) QUALIFIED NEW WATER EFFICIENT HOME.—The term ‘qualified new water efficient home’ means a dwelling unit—

“(A) located in the United States,

“(B) the construction of which is substantially completed after the date of the enactment of this section, and

“(C) which is certified by the Environmental Protection Agency as complying with the Final Water-Efficient Single-Family New Home Specification issued by such Agency.

“(3) CONSTRUCTION.—The term ‘construction’ includes substantial reconstruction and rehabilitation.

“(4) ACQUIRE.—The term ‘acquire’ includes purchase.

“(c) CERTIFICATION.—

“(1) METHOD OF CERTIFICATION.—A certification described in subsection (b)(2)(C) shall be made in accordance with guidance prescribed by the Secretary, after consultation with the Administrator of the Environmental Protection Agency. Such guidance shall specify procedures and methods for calculating water and cost savings.

“(2) FORM.—Any certification described in subsection (b)(2)(C) shall be made in writing in a manner which specifies in readily verifiable fashion the water efficient components (including toilets, faucets, other plumbing fixtures and appliances, hot water delivery, landscape design, and irrigation systems) installed and their respective rated water efficiency performance.

“(d) BASIS ADJUSTMENT.—For purposes of this subtitle, if a credit is allowed under this section in connection with any expenditure for any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so determined.

“(e) COORDINATION WITH OTHER CREDITS.—Expenditures taken into account under section 45L, 47, or 48(a) shall not be taken into account under this section.

“(f) REBATE PROGRAMS.—The amount of the credit allowed under subsection (a) to an eligible contractor with respect to any qualified new water efficient home shall be reduced, but not below zero, by the amount of any reimbursement which such contractor receives under any Federal government program for the construction of such home or for expenditures relating to such construction.

“(g) TERMINATION.—This section shall not apply to any qualified new water efficient home acquired after December 31, 2014.”

(b) CREDIT TO BE PART OF GENERAL BUSINESS CREDIT.—Section 38(b) of the Internal Revenue Code of 1986, as amended by this Act, is amended by striking “plus” at the end of paragraph (35), by striking the period at the end of paragraph (36) and inserting “, plus”, and by adding at the end the following new paragraph:

“(37) the new water efficient home credit determined under section 45R.”

(c) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by adding at the end the following new item:

“Sec. 45R. New water efficient home credit.”

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to homes acquired after December 31, 2009.

### SEC. 4. WATER CONSERVATION BONDS.

(a) IN GENERAL.—Section 54D of the Internal Revenue Code of 1986 is amended—

(1) by striking “energy conservation bond” each place it appears in subsections (a), (b), and (d), and inserting “energy and water conservation bond”;

(2) by inserting “**AND WATER**” after “**QUALIFIED ENERGY**” in the heading,

(3) by striking “State or local government” in subsection (a)(2) and inserting “State, local government, or water district”;

(4) by striking “\$3,200,000,000” in subsection (d) and inserting “\$4,000,000,000, of which not less than 20 percent shall be used for qualified conservation purposes described in subsection (f)(1)(F)”, and

(5) by adding at the end of subsection (f)(1) the following new subparagraph:

“(F) Expenditures incurred for purposes of—

“(i) reducing water consumption by a public building or facility by not less than 30 percent,

“(ii) advanced water metering infrastructure, including the purchase, installation, and commissioning of advanced water meters and related software and infrastructure,

“(iii) investigation, design, or construction of a qualified groundwater remediation, desalination, or recycled water facility or system,

“(iv) increasing energy efficiency or the generation and use of renewable energy in the management, conveyance, or treatment of water, wastewater, or stormwater,

“(v) reducing water loss in a water distribution system, including training water system personnel, annual testing and calibration of meters, detecting and repairing leaks, and purchase and installation of related equipment, or

“(vi) establishing or improving a system for volumetric billing to enable utilities to base retail residential customer bills in whole or in part on the volume of metered water deliveries.”.

(b) **EFFECTIVE DATE.**—The amendments made by this section shall take effect on the date of the enactment of this Act.

#### **SEC. 5. ARBITRAGE RULES NOT TO APPLY TO PREPAYMENTS FOR ELECTRICITY.**

(a) **IN GENERAL.**—Subsection (b) of section 148 of the Internal Revenue Code of 1986 is amended by adding at the end the following new paragraph:

“(5) **SAFE HARBOR FOR PREPAID ELECTRICITY SUPPLY CONTRACTS.**—

“(A) **IN GENERAL.**—The term ‘investment-type property’ does not include a prepayment under a qualified electricity supply contract.

“(B) **QUALIFIED ELECTRICITY SUPPLY CONTRACT.**—

“(i) **IN GENERAL.**—For purposes of this paragraph, the term ‘qualified electricity supply contract’ means—

“(I) any contract entered into by a water or sewer utility to acquire electricity for the use of such utility in providing water or sewer services to its customers, if such contract provides that the provider of such electricity under the contract will use not less than 75 percent of the prepayment described in subparagraph (A) to acquire, construct, or improve a qualified renewable energy facility, and

“(II) any contract to acquire electricity which is not described in subclause (I) which the Secretary determines does not constitute property of the type intended to be described in paragraph (2)(D).

“(ii) **WATER OR SEWER UTILITY.**—The term ‘water or sewer utility’ means a utility which is a governmental unit or is owned by a governmental unit and which provides—

“(I) water for residential, commercial, irrigation, or industrial use, or

“(II) sewer services for residential, commercial, or industrial use, to retail or wholesale customers in the service territory of such utility.

“(iii) **QUALIFIED RENEWABLE ENERGY FACILITY.**—The term ‘qualified renewable energy facility’ means a qualified facility within the meaning of section 45(d) (without regard to paragraphs (8) and (10) thereof, to the placed in service date of such facility, and to the person who owns such facility) which is located in the United States.

“(iv) **USE OF WATER OR SEWER UTILITY.**—For purposes of clause (i)(I), a contract shall be treated as providing electricity for the use of a water or sewer utility if the sum of—

“(I) the total number of kilowatt hours of electricity purchased under such contract and any other contracts for the purchase of electricity by such utility in effect on the date of the execution of such contract, plus

“(II) the amount of electricity expected to be generated by any generating facilities owned and used by such utility,

does not exceed by more than 10 percent the total kilowatt hours of electricity expected to be used by such utility during the term of such contract for the purpose of providing water or sewer services to its customers or for resale to other water or sewer utilities for their use (and not for resale to any entity that is not a water or sewer utility).

“(C) **OTHER RULES.**—Rules similar to the rules of subparagraphs (D)(ii), (G), and (I) of paragraph (4) shall apply for purposes of this paragraph.”.

(b) **PRIVATE LOAN FINANCING TEST NOT TO APPLY TO PREPAYMENTS FOR ELECTRICITY.**—Paragraph (2) of section 141(c) of the Internal Revenue Code of 1986 is amended—

(1) by striking “or” at the end of subparagraph (B),

(2) by striking the period at the end of subparagraph (C) and inserting “, or”, and

(3) by adding at the end the following new subparagraph:

“(D) is a qualified electricity supply contract (as defined in section 148(b)(5)).”.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply to obligations issued after the date of the enactment of this Act.

By Mr. REID (for himself, Mrs. BOXER, and Mr. CARDIN):

S. 1712. A bill to promote water efficiency, conservation, and adaptation, and for other purposes; to the Committee on Environment and Public Works.

Mr. REID. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1712

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### **SECTION 1. SHORT TITLE.**

This Act may be cited as the “Water Efficiency, Conservation, and Adaptation Act of 2009”.

#### **SEC. 2. FINDINGS.**

Congress finds that—

(1)(A) human-induced climate change is affecting the natural water cycle, decreasing precipitation levels in the West, especially the Southwest, and making droughts and floods more frequent and more intense;

(B) declining precipitation levels will severely impact water supplies in Southwestern States; and

(C) a sharp increase in the number of days with very heavy precipitation throughout the Northeast and the Midwest will stress aging water infrastructure;

(2) changes in the water cycle caused by climate disruptions will adversely affect water infrastructure, energy production and use, human health, transportation, agriculture, and ecosystems, while also aggravating water disputes across the United States;

(3)(A) the Colorado River, which supplies water for over 30,000,000 people, is experiencing the worst drought in over 100 years of recordkeeping; and

(B) the primary reservoirs of the Colorado River Basin and Lakes Mead and Powell have lost nearly half of the storage waters of the reservoirs and Lakes, and clean hydropower generated from Hoover Dam risks reduction if the extended drought persists;

(4) States and local governments and water utilities can begin to address the challenges described in this section by providing incentives for water efficiency and conservation, while also planning and investing in infrastructure to adapt to the impacts of climate change, particularly those impacts already affecting the United States;

(5) residential water demand can be reduced by 25 to 40 percent using existing, cost-effective technologies that also can reduce the water bills of consumers by hundreds of dollars per year; and

(6) water and energy use are inseparable activities, and supplying and treating water consumes around 4 percent of the electricity of the United States, and electricity makes up 75 percent of the cost of processing and delivering municipal water.

#### **SEC. 3. DEFINITION OF ADMINISTRATOR.**

In this Act, the term “Administrator” means the Administrator of the Environmental Protection Agency.

#### **SEC. 4. WATERSENSE.**

(a) **IN GENERAL.**—There is established within the Environmental Protection Agency a WaterSense program to identify and promote water efficient products, buildings, landscapes, facilities, processes, and services so as—

(1) to reduce water use;

(2) to reduce the strain on water, wastewater, and stormwater infrastructure;

(3) to conserve energy used to pump, heat, transport, and treat water; and

(4) to preserve water resources for future generations, through voluntary labeling of, or other forms of communications about, products, buildings, landscapes, facilities, processes, and services that meet the highest water efficiency and performance criteria.

(b) **DUTIES.**—The Administrator shall—

(1) establish—

(A) a WaterSense label to be used for certain items; and

(B) the procedure by which an item may be certified to display the WaterSense label;

(2) promote WaterSense-labeled products, buildings, landscapes, facilities, processes, and services in the market place as the preferred technologies and services for—

(A) reducing water use; and

(B) ensuring product and service performance;

(3) work to enhance public awareness of the WaterSense label through public outreach, education, and other means;

(4) preserve the integrity of the WaterSense label by—

(A) establishing and maintaining performance criteria so that products, buildings,

landscapes, facilities, processes, and services labeled with the WaterSense label perform as well or better than less water-efficient counterparts;

(B) overseeing WaterSense certifications made by third parties;

(C) conducting reviews of the use of the WaterSense label in the marketplace and taking corrective action in any case in which misuse of the label is identified; and

(D) carrying out such other measures as the Administrator determines to be appropriate;

(5) regularly review and, if appropriate, update WaterSense criteria for categories of products, buildings, landscapes, facilities, processes, and services, at least once every 4 years;

(6) to the maximum extent practicable, regularly estimate and make available to the public the production and relative market shares of, and the savings of water, energy, and capital costs of water, wastewater, and stormwater infrastructure attributable to the use of WaterSense-labeled products, buildings, landscapes, facilities, processes, and services, at least annually;

(7) solicit comments from interested parties and the public prior to establishing or revising a WaterSense category, specification, installation criterion, or other criterion (or prior to effective dates for any such category, specification, installation criterion, or other criterion);

(8) provide reasonable notice to interested parties and the public of any changes (including effective dates), on the adoption of a new or revised category, specification, installation criterion, or other criterion, along with—

(A) an explanation of the changes; and

(B) as appropriate, responses to comments submitted by interested parties and the public;

(9) provide appropriate lead time (as determined by the Administrator) prior to the applicable effective date for a new or significant revision to a category, specification, installation criterion, or other criterion, taking into account the timing requirements of the manufacturing, marketing, training, and distribution process for the specific product, building and landscape, or service category addressed;

(10) identify and, if appropriate, implement other voluntary approaches in commercial, institutional, residential, industrial, and municipal sectors to encourage recycling and reuse technologies to improve water efficiency or lower water use; and

(11) if appropriate, apply the WaterSense label to water-using products that are labeled by the Energy Star program implemented by the Administrator and the Secretary of Energy.

(C) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this section—

(1) \$7,500,000 for fiscal year 2010;

(2) \$10,000,000 for fiscal year 2011;

(3) \$20,000,000 for fiscal year 2012;

(4) \$50,000,000 for fiscal year 2013; and

(5) for each subsequent fiscal year, the applicable amount during the preceding fiscal year, as adjusted to reflect changes for the 12-month period ending the preceding November 30 in the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics of the Department of Labor.

#### **SEC. 5. STATE RESIDENTIAL WATER EFFICIENCY AND CONSERVATION INCENTIVES PROGRAM.**

(a) **DEFINITIONS.**—In this section:

(1) **ELIGIBLE ENTITY.**—The term “eligible entity” means a State government, local or county government, tribal government, wastewater or sewerage utility, municipal water authority, energy utility, water utility, or nonprofit organization that meets the requirements of subsection (b).

(2) **INCENTIVE PROGRAM.**—The term “incentive program” means a program for administering financial incentives for consumer purchase and installation of water-efficient products, buildings (including new water-efficient homes), landscapes, processes, or services described in subsection (b)(1).

(3) **RESIDENTIAL WATER-EFFICIENT PRODUCT, BUILDING, LANDSCAPE, PROCESS, OR SERVICE.**—

(A) **IN GENERAL.**—The term “residential water-efficient product, building, landscape, process, or service” means a product, building, landscape, process, or service for a residence or its landscape that is rated for water efficiency and performance—

(i) by the WaterSense program; or

(ii) if a WaterSense specification does not exist, by the Energy Star program or an incentive program approved by the Administrator.

(B) **INCLUSIONS.**—The term “residential water-efficient product, building, landscape, process, or service” includes—

(i) faucets;

(ii) irrigation technologies and services;

(iii) point-of-use water treatment devices;

(iv) reuse and recycling technologies;

(v) toilets;

(vi) clothes washers;

(vii) dishwashers;

(viii) showerheads;

(ix) xeriscaping and other landscape conversions that replace irrigated turf; and

(x) new water efficient homes certified under the WaterSense program.

(4) **WATERSENSE PROGRAM.**—The term “WaterSense program” means the program established by section 4.

(b) **ELIGIBLE ENTITIES.**—An entity shall be eligible to receive an allocation under subsection (c) if the entity—

(1) establishes (or has established) an incentive program to provide financial incentives to residential consumers for the purchase of residential water-efficient products, buildings, landscapes, processes, or services;

(2) submits an application for the allocation at such time, in such form, and containing such information as the Administrator may require; and

(3) provides assurances satisfactory to the Administrator that the entity will use the allocation to supplement, but not supplant, funds made available to carry out the incentive program.

(c) **AMOUNT OF ALLOCATIONS.**—For each fiscal year, the Administrator shall determine the amount to allocate to each eligible entity to carry out subsection (d), taking into consideration—

(1) the population served by the eligible entity during the most recent calendar year for which data are available;

(2) the targeted population of the incentive program of the eligible entity, such as general households, low-income households, or first-time homeowners, and the probable effectiveness of the incentive program for that population;

(3) for existing programs, the effectiveness of the program in encouraging the adoption of water-efficient products, buildings, landscapes, facilities, processes, and services;

(4) any allocation to the eligible entity for a preceding fiscal year that remains unused and

(5) the per capita water demand of the population served by the eligible entity during

the most recent calendar year for which data are available and the accessibility of water supplies to the eligible entity.

(d) **USE OF ALLOCATED FUNDS.**—Funds allocated to an eligible entity under subsection (c) may be used to pay up to 50 percent of the cost of establishing and carrying out an incentive program.

(e) **FIXTURE RECYCLING.**—Eligible entities are encouraged to promote or implement fixture recycling programs to manage the disposal of older fixtures replaced due to the incentive program under this section.

(f) **ISSUANCE OF INCENTIVES.**—

(1) **IN GENERAL.**—Financial incentives may be provided to residential consumers that meet the requirements of the applicable incentive program.

(2) **MANNER OF ISSUANCE.**—An eligible entity may—

(A) issue all financial incentives directly to residential consumers; or

(B) with approval of the Administrator, delegate all or part of financial incentive administration to other organizations, including local governments, municipal water authorities, water utilities, and nonprofit organizations.

(3) **AMOUNT.**—The amount of a financial incentive shall be determined by the eligible entity, taking into consideration—

(A) the amount of any Federal or State tax incentive available for the purchase of the residential water-efficient product or service;

(B) the amount necessary to change consumer behavior to purchase water-efficient products and services; and

(C) the consumer expenditures for onsite preparation, assembly, and original installation of the product.

(g) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Administrator to carry out this section—

(1) \$100,000,000 for fiscal year 2010;

(2) \$150,000,000 for fiscal year 2011;

(3) \$200,000,000 for fiscal year 2012;

(4) \$150,000,000 for fiscal year 2013;

(5) \$100,000,000 for fiscal year 2014; and

(6) for each subsequent fiscal year, the applicable amount during the preceding fiscal year, as adjusted to reflect changes for the 12-month period ending the preceding November 30 in the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics of the Department of Labor.

#### **SEC. 6. BLUE BANK FOR WATER SYSTEM MITIGATION AND ADAPTATION.**

(a) **DEFINITIONS.**—In this section:

(1) **ABRUPT CLIMATE CHANGE.**—The term “abrupt climate change” means a large-scale change in the climate system that—

(A) takes place over a few decades or less;

(B) persists (or is anticipated to persist) for at least a few decades; and

(C) causes substantial disruptions in human and natural systems.

(2) **OWNER OR OPERATOR.**—

(A) **IN GENERAL.**—The term “owner or operator” means a person (including a regional, State, local, municipal, or private entity) that owns or operates a water system.

(B) **INCLUSION.**—The term “owner or operator” includes a non-Federal entity that has operational responsibilities for a federally owned water system.

(3) **WATER SYSTEM.**—The term “water system” means—

(A) a community water system (as defined in section 1401 of the Safe Drinking Water Act (42 U.S.C. 300f));

(B) a publicly owned treatment works (as defined in section 212 of the Federal Water

Pollution Control Act (33 U.S.C. 1292)), including a municipal separate storm sewer system;

(C) a decentralized wastewater treatment system for domestic sewage;

(D) a groundwater storage and replenishment system; or

(E) a system for transport and delivery of water for irrigation or conservation.

(b) GRANTS.—Beginning in fiscal year 2010, the Administrator shall make grants to owners or operators of water systems to address any ongoing or forecasted (based on the best available research and data) climate-related impact on the water quality or quantity of a region of the United States, for the purposes of mitigating or adapting to the impacts of climate change.

(c) ELIGIBLE USES.—In carrying out this section, the Administrator shall make grants to assist in the planning, design, construction, implementation, or maintenance of any program or project to increase the resilience of a water system to climate change by—

(1) conserving water or enhancing water use efficiency, including through the use of water metering to measure the effectiveness of a water efficiency program;

(2) modifying or relocating existing water system infrastructure made or projected to be made inoperable by climate change impacts;

(3) preserving or improving water quality, including through measures to manage, reduce, treat, or reuse municipal stormwater, wastewater, or drinking water;

(4) investigating, designing, or constructing groundwater remediation, recycled water, or desalination facilities or systems;

(5) enhancing water management by increasing watershed preservation and protection, such as through the use of natural or engineered green infrastructure in the management, conveyance, or treatment of water, wastewater, or stormwater;

(6) enhancing energy efficiency or the use and generation of renewable energy in the management, conveyance, or treatment of water, wastewater, or stormwater;

(7) supporting the adoption and use of advanced water treatment, water supply management (such as reservoir reoperation), or water demand management technologies, projects, or processes (such as water reuse and recycling or adaptive conservation pricing) that maintain or increase water supply or improve water quality;

(8) modifying or replacing existing systems or constructing new systems for existing communities or land currently in agricultural production to improve water availability, storage, or conveyance in a manner that—

(A) promotes more efficient use of available water supplies; and

(B) does not further exacerbate stresses on ecosystems;

(9) supporting practices and projects, such as improved irrigation systems, water banking and other forms of water transactions, groundwater recharge, stormwater capture, and reuse or recycling of drainage water, to improve water quality or promote more efficient water use, including on land currently in agricultural production;

(10) conducting and completing studies or assessments to project how climate change may impact the future operations and sustainability of water systems; or

(11) developing and implementing mitigation measures to rapidly address impacts on water systems most susceptible to abrupt climate change, including those in the Colo-

rado River Basin and coastal regions at risk from rising sea levels.

(d) APPLICATION.—To be eligible to receive a grant from the Administrator under subsection (b), the owner or operator of a water system shall submit to the Administrator an application that—

(1) includes a proposal of the program, strategy, or infrastructure improvement to be planned, designed, constructed, implemented, or maintained by the water system;

(2) cites the best available research or data that demonstrates—

(A) the risk to the water resources or infrastructure of the water system as a result of ongoing or forecasted changes to the hydrological system brought about by factors arising from climate change, including rising sea levels and changes in precipitation levels; and

(B) how the proposed program, strategy, or infrastructure improvement would perform under the anticipated climate conditions;

(3) explains how the proposed program, strategy, or infrastructure improvement is expected to enhance the resiliency of the water system, including source water protection for community water systems, to these risks or reduce the direct or indirect greenhouse gas emissions of the water system; and

(4) demonstrates that the program, strategy, or infrastructure improvement is—

(A) consistent with any approved State and tribal climate adaptation plan; and

(B) not inconsistent with any approved natural resources plan.

(e) COMPETITIVE PROCESS.—

(1) IN GENERAL.—Each calendar year, the Administrator shall conduct a competitive process to select and fund applications under this section.

(2) PRIORITY REQUIREMENTS AND WEIGHTING.—In carrying out the process, the Administrator shall—

(A) prioritize funding of applications that are submitted by the owners or operators of water systems that are, based on the best available research and data, at the greatest and most immediate risk of facing significant climate-related negative impacts on water quality or quantity;

(B) in selecting among the priority applications determined under subparagraph (A), ensure that the final list of applications funded for each year includes a substantial number that, to the maximum extent practicable, includes each eligible use described in subsection (c);

(C) solicit applications from water systems that are—

(i) located in all regions of the United States; and

(ii) facing varying risks as a result of climate change; and

(D) provide for solicitation and consideration of public input in the development of criteria used in evaluating applications.

(f) COST SHARING.—

(1) FEDERAL SHARE.—The Federal share of the cost of any program, strategy, or infrastructure improvement that is the subject of a grant awarded by the Administrator to a water system under subsection (b) shall not exceed 50 percent of the cost of the program, strategy, and infrastructure improvement.

(2) CALCULATION OF NON-FEDERAL SHARE.—In calculating the non-Federal share of the cost of a program, strategy, or infrastructure improvement proposed by a water system through an application submitted by the water system under subsection (d), the Administrator shall—

(A) include the value of any in-kind services that are integral to the completion of

the program, strategy, or infrastructure improvement, as determined by the Administrator; and

(B) not include any other amount that the water system receives from a Federal agency.

(g) LABOR STANDARDS.—

(1) IN GENERAL.—All laborers and mechanics employed on infrastructure improvements funded directly by or assisted in whole or in part by this section shall be paid wages at rates not less than those prevailing for the same type of work on similar construction in the immediate locality, as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of part A of subtitle II of title 40, United States Code.

(2) AUTHORITY AND FUNCTIONS.—With respect to the labor standards in this subsection, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code.

(h) REGULATIONS.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Administrator shall promulgate final regulations to carry out this section.

(2) SPECIAL RULE FOR THE CONSTRUCTION OF TREATMENT WORKS.—In carrying out this subsection, the Administrator shall incorporate all relevant and appropriate requirements of title VI of the Federal Water Pollution Control Act (33 U.S.C. 1381 et seq.) applicable to the construction of treatment works that are carried out under this section.

(i) REPORT TO CONGRESS.—Not later than 3 years after the date of enactment of this Act, and every 3 years thereafter, the Administrator shall submit to the Congress a report on progress in implementing this section, including information on project applications received and funded annually.

(j) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as are necessary.

By Mr. REID (for himself, Mr. BAUCUS, Mr. HATCH, Mr. TESTER, and Mr. UDALL of New Mexico):

S. 1713. A bill to establish loan guarantee programs to develop biochar technology using excess plant biomass, to establish biochar demonstration projects on public land, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. REID. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1713

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the “Water Efficiency via Carbon Harvesting and Restoration (WECHAR) Act of 2009”.

#### SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) numerous expert reports have brought attention to the negative impacts caused by invasive weed species, including the consumption of water in areas with diminishing supplies;

(2) salt cedar, or *Tamarix* species, a noxious and invasive plant commonly found on public land can consume 200 gallons of water per plant each day;

(3) salt cedar now covers as much as 1,000,000 acres of floodplains, riparian acres, wetland, and lake margins in the Western United States;

(4) minimizing the impact of and eradicating invasive species that wrest water from delicate watersheds is in the best interest of the United States;

(5) as drought conditions worsen and legal requirements relating to water supply accelerate water shortages, innovative approaches are needed to address the increasing demand for water;

(6) pine bark beetle has killed thousands of acres of standing forests in the Western United States, creating a hazardous buildup of dead tree biomass that is a serious fire threat to those and surrounding areas;

(7) biochar technology would result in a more cost-effective, environmentally beneficial, and successful approach to combating invasive weeds and removing excess biomass and plant waste from public land;

(8) invasive weeds and excess biomass on public land can serve as feedstock for biochar and alternative fuel production;

(9) it is in the best interest of the United States to conduct a comprehensive and thorough research, development, and demonstration program on biochar and related bioenergy so as to better understand how to use excess biomass available on public land; and

(10) biochar production and use systems have been shown to have many ancillary beneficial environmental impacts.

(b) **PURPOSES.**—The purposes of this Act are—

(1) to restore the natural hydrology of Western landscapes by removing water-intensive invasive plant species;

(2) to reduce dangerous forest and rangeland fuel loads;

(3) to develop technologies to convert undesirable invasive plant species to useful materials;

(4) to develop markets for those materials; and

(5) to provide technologies to land managers to continue those processes into the future.

### SEC. 3. DEFINITIONS.

In this Act:

(1) **BIOCHAR.**—The term “biochar” means charcoal or black carbon derived from organic matter through pyrolysis.

(2) **BIOENERGY.**—The term “bioenergy” means hydrocarbons derived from organic matter through pyrolysis, including bio-oil, syngas, or thermal energy.

(3) **EXCESS BIOMASS.**—

(A) **IN GENERAL.**—The term “excess biomass” means any plant matter targeted for removal from public land to promote ecosystem health.

(B) **INCLUSIONS.**—The term “excess biomass” includes—

(i) trees or tree waste on public land;

(ii) wood and wood wastes and residues; and

(iii) weedy plants and grasses (including aquatic, noxious, or invasive plants).

(4) **FEEDSTOCK.**—The term “feedstock” means excess biomass in the form of plant matter or materials that serves as the raw material for the production of biochar and bioenergy.

(5) **INVASIVE PLANT SPECIES.**—The term “invasive plant species” means a species—

(A) that is nonnative to a specified ecosystem; and

(B) the introduction to an ecosystem of which causes, or may cause, harm to—

(i) the economy;

(ii) the environment;

(iii) water resources; or

(iv) human, animal, or plant health.

(6) **SECRETARY CONCERNED.**—The term “Secretary concerned” means the Secretary of the Interior or the Secretary of Agriculture, as appropriate.

### SEC. 4. RESOURCE ASSESSMENT.

(a) **IN GENERAL.**—The Director of the United States Geological Survey shall conduct resources assessments that collect and synthesize interagency and State data to quantify—

(1) invasive plant species and excess biomass in the form of dangerous fuel loads on public land that can be used for feedstock;

(2) estimated carbon content in that feedstock;

(3) estimated potential biochar and bioenergy producible from that feedstock; and

(4) potential water savings resulting from removal of invasive plant species and excess biomass on public land, by watershed.

(b) **REPORT.**—Not later than 1 year after the date of enactment of this Act and biennially thereafter, the Director of United States Geological Survey shall submit to Congress a report that describes the results of each resource assessment conducted under subsection (a).

### SEC. 5. TECHNOLOGY RESEARCH.

(a) **DEVELOPMENT OF MOBILE BIOCHAR PRODUCTION UNITS.**—Not later than 1 year after the date of enactment of this Act and in accordance with subsection (c), the Secretary of the Interior shall establish a program to provide guarantees of loans by private institutions—

(1) to develop and optimize commercially and technologically viable biochar production units that—

(A) are designed to use woody invasive plant species and excess biomass feedstock such as tamarisk, pinyon pine, and juniper;

(B) produce net negative carbon emissions relative to natural decomposition;

(C) are self-contained on a portable platform suitable for deployment to remote locations and on unpaved roads; and

(D) can capture biochar and bioenergy produced for immediate energy needs or transport to market; and

(2) to produce, not later than 2 years after the date of securing a guaranteed loan under this section for the purposes described in section 7(a)(2), 4 biochar production units for deployment to remote landscapes, of which—

(A) 2 shall be dedicated primarily to contract work with the Bureau of Land Management; and

(B) 2 shall be dedicated primarily to contract work with the National Park Service.

(b) **DEVELOPMENT OF FIXED BIOCHAR PRODUCTION UNITS.**—Not later than 1 year after the date of enactment of this Act and in accordance with subsection (c), the Secretary of Agriculture shall establish a program to provide guarantees of loans by private institutions—

(1) to develop and optimize commercially and technologically viable biochar production units that—

(A) while not necessarily self contained, can be disassembled, moved, and reassembled to be operational on a new site within 30 days, so as to support fuels reduction work;

(B) are designed to use excess biomass feedstock, such as trees killed by bark beetle infestations;

(C) produce net negative carbon emissions relative to natural decomposition;

(D) can capture biochar and bioenergy produced for immediate energy needs or transport to market; and

(2) to produce, not later than 2 years after the date of securing a guaranteed loan under this section for the purposes described in section 7(a)(3), 2 biochar production units for deployment to remote landscapes.

(c) **GUARANTEED LOAN PROGRAM.**—

(1) **IN GENERAL.**—The Secretary concerned may provide loan guarantees under this section to an applicant if the biochar production units produced by the applicant will be dedicated primarily to contract restoration work with the Bureau of Land Management, National Park Service, or Forest Service, using—

(A) pinyon pine and juniper feedstock in the Great Basin;

(B) tamarisk feedstock in the Mojave Desert; or

(C) excess biomass feedstock, such as trees killed by bark beetle infestations in the Intermountain West.

(2) **CRITERIA.**—In selecting recipients of loan guarantees from among applicants, the Secretary concerned shall give preference to proposals that, as determined by the Secretary concerned—

(A) meet all applicable Federal and State permitting requirements;

(B) are most likely to be successful; and

(C) are located in local markets that have the greatest need for the biochar production units due to—

(i) identified high-priority landscape restoration needs;

(ii) availability of sufficient quantities of feedstocks described in subsection (b); or

(iii) a high level of demand for biochar or other commercial byproducts of the biochar production units.

(3) **MATURITY.**—A loan guaranteed under this section shall have a maturity of not more than 20 years.

(4) **TERMS AND CONDITIONS.**—The loan agreement for a loan guaranteed under this section shall provide that no provision of the loan agreement may be amended or waived without the consent of the Secretary.

(5) **GUARANTEE FEE.**—The recipient of a loan guarantee under this section shall pay to the Secretary concerned a guarantee fee in an amount determined by the Secretary concerned to be sufficient to cover the administrative costs of the Secretary concerned relating to the loan guarantee.

(6) **FULL FAITH AND CREDIT.**—

(A) **IN GENERAL.**—The full faith and credit of the United States is pledged to the payment of all guarantees made by the Secretary concerned under this section.

(B) **EVIDENCE.**—Any guarantee made by the Secretary concerned under this section shall be conclusive evidence of the eligibility of the loan for the guarantee with respect to principal and interest.

(C) **VALIDITY.**—The validity of any guarantee made by the Secretary concerned under this section shall be incontestable in the hands of a holder of the guaranteed loan.

(7) **ANNUAL REPORTS.**—Until the date on which each guaranteed loan under this section has been repaid in full, each year the Secretary concerned shall submit to Congress a report on the activities of the Secretary concerned under this section during the preceding year.

### SEC. 6. EXISTING TECHNOLOGY.

(a) **IN GENERAL.**—The Secretary of the Interior and the Secretary of Agriculture shall each establish a program to provide guarantees of loans by private institutions for the construction or acquisition of facilities for the production of biochar.

(b) **REQUIREMENT.**—The Secretary concerned may provide a loan guarantee under this section to an applicant if facilities constructed or acquired by the applicant will be dedicated primarily to contract restoration work with the Bureau of Land Management, National Park Service, or Forest Service, using—

(1) pinyon pine and juniper feedstock in the Great Basin;

(2) tamarisk feedstock in the Mojave Desert; or

(3) excess biomass feedstock, such as trees killed by bark beetle infestations in the Intermountain West.

(c) **CRITERIA.**—In selecting recipients of loan guarantees from among applicants, the Secretary concerned shall give preference to proposals that, as determined by the Secretary concerned—

(1) meet all applicable Federal and State permitting requirements;

(2) are most likely to be successful; and

(3) are located in local markets that have the greatest need for the facility due to—

(A) identified high-priority landscape restoration needs;

(B) availability of sufficient quantities of feedstocks described in subsection (b); or

(C) a high level of demand for biochar or other commercial byproducts of the facility.

(d) **MATURITY.**—A loan guaranteed under this section shall have a maturity of not more than 20 years.

(e) **TERMS AND CONDITIONS.**—The loan agreement for a loan guaranteed under this section shall provide that no provision of the loan agreement may be amended or waived without the consent of the Secretary concerned.

(f) **GUARANTEE FEE.**—The recipient of a loan guarantee under this section shall pay the Secretary concerned a guarantee fee in an amount determined by the Secretary concerned to be sufficient to cover the administrative costs of the Secretary concerned relating to the loan guarantee.

(g) **FULL FAITH AND CREDIT.**—

(1) **IN GENERAL.**—The full faith and credit of the United States is pledged to the payment of all guarantees made by the Secretary concerned under this section.

(2) **EVIDENCE.**—Any guarantee made by the Secretary concerned under this section shall be conclusive evidence of the eligibility of the loan for the guarantee with respect to principal and interest.

(3) **VALIDITY.**—The validity of any guarantee made by the Secretary concerned under this section shall be incontestable in the hands of a holder of the guaranteed loan.

(h) **ANNUAL REPORTS.**—Until the date on which each guaranteed loan under this section has been repaid in full, each year the Secretary concerned shall submit to Congress a report on the activities of the Secretary concerned under this section during the preceding year.

## SEC. 7. DEPLOYMENT.

(a) **NEW TECHNOLOGY.**—

(1) **IN GENERAL.**—Not later than 2 years after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall initiate 3-year programs to employ the biochar production units provided under section 5 in pilot applications in various climates and ecosystems of the United States.

(2) **MOBILE UNITS.**—In the case of biochar production units developed or optimized under section 5(a)—

(A) the Director of the National Park Service shall carry out initial programs using invasive tamarisk in the Mojave Desert as feedstock; and

(B) the Director of the Bureau of Land Management shall carry out initial programs using excess pinyon pine and juniper biomass in the Great Basin as feedstock.

(3) **FIXED UNITS.**—In the case of biochar production units developed or optimized under section 5(b), the Chief of the Forest Service shall carry out the initial program using bark beetle-killed trees in the Intermountain West.

(b) **EXISTING TECHNOLOGY.**—

(1) **IN GENERAL.**—Not later than 180 days after enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall prepare plans for carrying out 3-year landscape restoration programs in various climates and ecosystems of the United States to employ facilities constructed or acquired under section 6.

(2) **REQUIREMENTS.**—In carrying out the landscape restoration programs described in paragraph (1), the Secretary of the Interior and the Secretary of Agriculture shall carry out programs using invasive tamarisk in the Mojave Desert, excess pinyon pine and juniper biomass in the Great Basin, and bark beetle-killed trees in the Intermountain West.

## SEC. 8. APPLICATION AND MARKET RESEARCH.

(a) **ATTRIBUTES.**—Not later than 1 year after the date of enactment of this Act, the Secretary of Agriculture shall provide competitive grants to conduct research and analysis that identifies—

(1) attributes and composition profiles of biochar produced from different feedstocks for use as soil amendments; and

(2) attributes and composition profiles of bioenergy produced from different feedstocks for use as fuel for transportation, heating, or other uses identified in subsection (b)(1).

(b) **MARKET DEVELOPMENT.**—Not later than 1 year after the date of enactment of this Act, the Secretary of Agriculture, acting through the Director of the National Institute of Food and Agriculture, the Administrator of the Agricultural Research Service, and the Administrator of the Agricultural Marketing Service shall provide competitive grants to conduct research and analysis that—

(1) identifies potential uses and markets for biochar and bioenergy; and

(2) in the case of economic and life-cycle issues, analyzes—

(A) the full production costs versus the economic benefits of biochar production systems;

(B) the impact of the production and use of biochar, including the performance of biochar in carbon sequestration programs; and

(C) the availability of feedstocks and the efficiency of using those feedstock for biochar production as compared to other biofuel-production systems.

(c) **ENVIRONMENTAL REVIEW.**—Not later than 1 year after the date of enactment of this Act, the Secretary of Agriculture shall provide competitive grants to conduct research and analysis relating to—

(1) the environmental benefits of biochar production and use, including—

(A) the water savings resulting from reducing populations of invasive or noxious plant species;

(B) the potential of biochar production systems—

(i) to reduce fertilizer use, nutrient leaching, and run-off; and

(ii) to reduce water pollution from feedlot runoff by capturing ammonia; and

(C) the reduction in greenhouse gas emissions resulting from the production and use of related bioenergy;

(2) the potential environmental impacts of biochar and bioenergy use, including—

(A) the potential toxicity and other adverse ecosystem effects resulting from biochar production or use of different biochars, as identified under subsection (a)(1);

(B) the characterization of combustion products of bioenergy, as identified under subsection (a)(2), and the effects of those combustion products on air and water quality; and

(C) impacts on human health and safety.

(d) **DEVELOPMENT OF BIOCHAR IN LANDSCAPE RESTORATION.**—Not later than 1 year after the date of enactment of this Act, the Secretary of Agriculture, acting through the Director of the National Institute of Food and Agriculture and the Administrator of the Agricultural Research Service, shall provide competitive grants to research and analyze—

(1) the potential uses of biochar in landscape restoration in different ecosystems and soil types;

(2) the relative benefits and potential adverse effects of use of different biochars, as identified under subsection (a)(1) in different western ecosystems and soil types; and

(3) the safety and efficacy of different methods of application.

## SEC. 9. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out sections 4 through 8, including for the cost of grants and loan guarantees under those sections, such sums as are necessary for each of fiscal years 2010 through 2016.

By Mr. DURBIN:

S. 1714. A bill to authorize grants for the creation, update, or adaption of open textbooks, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. DURBIN. Mr. President, technology has transformed the way we work, the way we entertain ourselves, and the way we understand the world around us. But one area of our lives that has been more resistant to technological change has been the way we educate our children. And yet I see tremendous potential in technology to improve access to education and decrease its often high costs. One example of this is open educational resources. Today, I am introducing a bill that will provide a short-term federal investment in the development of one type of open educational resource—college textbooks. I believe this investment will improve learning in our college classrooms and help bring down the cost of college for students.

The growth of the Internet has enabled the creation and sharing of open content. A teacher or professor in Illinois can create a lecture, a lesson, a book, or an entire curriculum and share it online. A teacher across the country or even across the world can access that educational material, adapt it, and use it in his or her classroom. More and more often educators are utilizing technology in this way to improve student learning.

The President recognizes the potential of this new technology. He has proposed a significant new Federal investment in the creation of online open-

source courses for community colleges. These courses will be made freely available online and widely distributed so that all colleges can make use of them. I believe this initiative will help make higher education more accessible for students, especially non-traditional students or students living in rural areas far away from brick-and-mortar institutions. Because the courses will be available for free, the initiative will also help bring down the high cost of a college education for students struggling to pay.

I think we can go even further. The high cost of textbooks continues to be a barrier for many students struggling to pay for college. The College Board reported that for the 2007 to 2008 school year, students spent an estimated \$805 to \$1,229 on books and supplies. A little over a year ago, the Higher Education Opportunity Act was signed into law. That law includes provisions that I authored to increase transparency in college textbook pricing for professors and students. I hope that new law will help decrease the high cost of textbooks when these provisions are enacted next year, but there is more that the Federal Government can do to provide cheap alternatives to professors and students.

The bill I am introducing today, the Open College Textbook Act, will create a grant program for the creation of freely-available, online open college textbooks. Making high-quality open textbooks freely available to the general public would significantly lower college textbook costs. Under my bill, the Secretary of Education would award grants to colleges, professors, nonprofit organizations or for-profit companies to create introductory-level college textbooks. Once produced, these books would be posted on an easily-accessible website and made available to students, professors, and the public for free. The result would be a set of high-quality college textbooks that could be adopted in any introductory course at any college in the country. This would be a limited investment of Federal grant funding over just a few years, not a permanent federal funding stream. The choice would ultimately still be the professor's. Each professor could choose whether to assign the open textbook to his class, but I hope that he would seriously consider this high-quality, free online option that would save his students \$150 or \$200 each at the college bookstore.

Along with the clear cost benefits, open textbooks can also improve teaching and learning. The content of an open textbook can be adapted, supplemented, and personalized by professors for their course. Instead of framing a course around a textbook, a professor can modify an open textbook to fit the needs of a particular course or group of students. When professors take advantage of the flexibility and adaptability

of open textbooks, student learning improves.

The use of Federal funding for textbooks and curricula is not new. For years, the National Science Foundation has been awarding grants to professors for research into the improvement of learning in the classroom. Sometimes these grants have resulted in the creation of textbooks, which the author can then license for profit to a commercial publisher. I believe textbooks created with Federal funding should be made available for free so that all students and professors can benefit from our investment. This bill would also require that all future Federal grants that lead to the creation of a textbook or curriculum for use in the classroom be licensed openly and made freely available to all educators for their use.

Over the past decade, I have watched textbook publishers use technology to drive up the cost of textbooks through unnecessary online supplements and CD-ROMs. It is time that we use the potential of technology to improve college access, learning, and affordability for all students. I believe the Open College Textbook Act that I am introducing today will accomplish that goal.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1714

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Open College Textbook Act of 2009".

#### SEC. 2. FINDINGS.

Congress finds the following:

(1) The growth of the Internet has enabled the creation and sharing of open content, including open educational resources.

(2) The President has proposed a new, significant Federal investment in the creation of online open-source courses for community colleges that will make learning more accessible, adaptable, and affordable for students.

(3) The President has challenged the United States with a goal of having the highest college graduation rate in the world by 2020.

(4) More than 80 percent of the 23,000,000 jobs that will be created in the next 10 years will require postsecondary education, but only 36 percent of all 18- to 24-year-olds are currently enrolled in postsecondary education.

(5) The high cost of college textbooks continues to be a barrier for many students in achieving higher education, and according to the Advisory Committee on Student Financial Assistance, 200,000 qualified students fail to enroll in college each year due to cost.

(6) The College Board reported that for the 2007–2008 academic year an average student spent an estimated \$805 to \$1,229 on college books and supplies.

(7) Making high quality open textbooks freely available to the general public could significantly lower college textbook costs and increase accessibility to such education materials.

(8) Open textbooks can improve learning and teaching by creating course materials that are more flexible, adaptable, and accessible through the use of technology.

#### SEC. 3. DEFINITIONS.

In this Act:

(1) **DIRECTOR.**—The term "Director" means the Director of the National Science Foundation.

(2) **INSTITUTION OF HIGHER EDUCATION.**—The term "institution of higher education" has the meaning given the term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

(3) **OPEN LICENSE.**—The term "open license" means an irrevocable intellectual property license that grants the public the right to access, customize, and distribute a copyrighted material.

(4) **OPEN TEXTBOOK.**—The term "open textbook" means a textbook or set of course materials in electronic format designed for use in a college course at an institution of higher education that is licensed under an open license.

(5) **SECRETARY.**—The term "Secretary" means the Secretary of Education.

#### SEC. 4. GRANT PROGRAM.

(a) **GRANTS AUTHORIZED.**—From the amounts appropriated under subsection (i), the Secretary is authorized to award grants, on a competitive basis, to eligible entities to carry out the activities described in this section, including creating, updating, or adapting open textbooks. The Secretary shall award grants in a manner that will result in the creation of a comprehensive slate of high quality course materials for introductory courses in a variety of subject areas.

(b) **ELIGIBLE ENTITY.**—In this section, the term "eligible entity" means—

(1) an institution of higher education;

(2) a professor or group of professors at an institution of higher education; or

(3) a nonprofit or for-profit organization that produces open textbooks.

(c) **DURATION.**—Grants awarded under this section shall be 1 year in duration.

(d) **APPLICATIONS.**—

(1) **IN GENERAL.**—Each eligible entity desiring a grant under this section shall submit an application to the Secretary at such time, in such manner, and accompanied by such information as the Secretary may reasonably require.

(2) **CONTENTS.**—Each application submitted under paragraph (1) shall include a description of the project to be completed with grant funds and—

(A) a plan for quality review and review of accuracy of content;

(B) a plan for access to ensure the widest possible availability of the digital version of the open textbook;

(C) a plan for distribution and adoption of the open textbook to ensure the widest possible adoption of the open textbook in postsecondary courses, including, where applicable, a marketing plan or a plan to partner with for-profit or nonprofit organizations to assist in marketing and distribution; and

(D) a plan for tracking and reporting formal adoptions of the open textbook within postsecondary institutions, including an estimate of the number of students impacted by the adoptions.

(e) **SPECIAL CONSIDERATION.**—In awarding grants under this section, the Secretary shall give special consideration to applications that demonstrate the greatest potential to produce—

(1) the highest quality and most marketable open textbooks;

(2) open textbooks that correspond to the highest enrollment courses at institutions of higher education;

(3) open textbooks that are easily utilized by faculty members at institutions of higher education; and

(4) open textbooks created in partnership with for-profit or nonprofit organizations to assist in marketing and distribution.

(f) USES OF GRANTS.—

(1) OPEN TEXTBOOKS.—An eligible entity that receives a grant under this section shall—

(A) create a new open textbook for use in postsecondary coursework;

(B) update an open textbook for use in postsecondary coursework; or

(C) adapt a textbook into an open format for use in postsecondary coursework.

(2) LICENSE.—An open textbook created, updated, or adapted under paragraph (1) shall be licensed through an open license.

(3) ACCESSIBILITY.—The full and complete digital content of each open textbook created, updated, or adapted under paragraph (1) shall be—

(A) posted on an easily accessible and interoperable website, which site shall be identified to the Secretary by the eligible entity; and

(B) made available free of charge to, and may be downloaded, redistributed, changed, revised, or otherwise altered by, any member of the general public.

(g) REVIEW PROCESS.—The Secretary shall develop a peer review and evaluation process in consultation with the Director to ensure that open textbooks created, updated, or adapted under this section are of the highest quality, accurate in content, and meet or exceed market quality and accessibility standards.

(h) REPORT.—Upon an eligible entity's completion of a project supported under this section, the eligible entity shall prepare and submit a report to the Secretary regarding all project costs, including the value of any volunteer labor and institutional capital used for the project.

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated \$15,000,000 to carry out this section for fiscal year 2010 and such sums as are necessary for each of the 5 succeeding fiscal years.

**SEC. 5. LICENSING MATERIALS WITH A FEDERAL CONNECTION.**

(a) IN GENERAL.—Notwithstanding any other provision of law, educational materials such as curricula and textbooks created through grants distributed by Federal agencies, including the National Science Foundation, for use in elementary, secondary, or postsecondary courses shall be licensed under an open license.

(b) ACCESSIBILITY.—The full and complete digital content of each of the materials created as described in subsection (a) shall be—

(1) posted on an easily accessible and interoperable website, which site shall be identified to the Secretary by the grant recipient; and

(2) made available free of charge to, and may be downloaded, redistributed, changed, revised, or otherwise altered by, any member of the general public.

**SEC. 6. SENSE OF CONGRESS.**

It is the sense of Congress that institutions of higher education should encourage the consideration of open textbooks by professors within the generally accepted principles of academic freedom that established the right and responsibility of faculty members, individually and collectively, to select course materials that are pedagogically most appropriate for their classes.

**SEC. 7. REPORT TO CONGRESS.**

Not later than September 30, 2015, the Secretary shall prepare and submit a report to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Education and Labor of the House of Representatives detailing—

(1) the open textbooks created, updated, or adapted under this Act;

(2) the adoption of such open textbooks; and

(3) the savings generated for students, States, and the Federal Government through the use of open textbooks.

**SUBMITTED RESOLUTIONS**

**SENATE RESOLUTION 285—SUPPORTING THE GOALS AND IDEALS OF NATIONAL CYBERSECURITY AWARENESS MONTH AND RAISING AWARENESS AND ENHANCING THE STATE OF CYBERSECURITY IN THE UNITED STATES**

Mrs. FEINSTEIN (for herself, Mr. ROCKEFELLER, Mrs. GILLIBRAND, Mr. CARPER, Ms. MIKULSKI, Mr. LIEBERMAN, Ms. COLLINS, Mr. REID, Mr. LEVIN, Mr. BENNETT, Ms. SNOWE, Ms. LANDRIEU, Mr. HATCH, Mr. BAYH, and Mr. VOINOVICH) submitted the following resolution; which was referred to the Committee on Commerce, Science, and Transportation:

**S. RES. 285**

Whereas the use of the Internet in the United States, to communicate, conduct business, or generate commerce that benefits the overall United States economy, is ubiquitous;

Whereas many people use the Internet in the United States to communicate with family and friends, manage finances and pay bills, access educational opportunities, shop at home, participate in online entertainment and games, and stay informed of news and current events;

Whereas United States small businesses, which employ a significant fraction of the private workforce, increasingly rely on the Internet to manage their businesses, expand their customer reach, and enhance the management of their supply chain;

Whereas nearly all public schools in the United States have Internet access to enhance children's education, with a significant percentage of instructional rooms connected to the Internet to enhance children's education by providing access to educational online content and encouraging self-initiative to discover research resources;

Whereas the number of children who connect to the Internet continues to rise, and teaching children of all ages to become good cyber-citizens through safe, secure, and ethical online behaviors and practices is essential to protect their computer systems and potentially their physical safety;

Whereas the growth and popularity of social networking websites has attracted millions of teenagers, providing access to a range of valuable services, making it all the more important to teach young users how to avoid potential threats like cyber bullies, predators, and identity thieves they may come across while using such services;

Whereas cybersecurity is a critical part of the United States national security and economic security;

Whereas the United States critical infrastructure and economy rely on the secure and reliable operation of information networks to support the United States military, civilian government, energy, telecommunications, financial services, transportation, health care, and emergency response systems;

Whereas Internet users and information infrastructure owners and operators face an increasing threat of malicious crime and fraud attacks through viruses, worms, Trojans, and unwanted programs such as spyware, adware, hacking tools, and password stealers, that are frequent and fast in propagation, are costly to repair, and may disable entire systems;

Whereas millions of records containing personally identifiable information have been lost, stolen, or breached, threatening the security and financial well-being of United States citizens;

Whereas consumers face significant financial and personal privacy losses due to personally identifiable information being more exposed to theft and fraud than ever before;

Whereas national organizations, policy-makers, government agencies, private sector companies, nonprofit institutions, schools, academic organizations, consumers, and the media recognize the need to increase awareness of cybersecurity and the need for enhanced cybersecurity in the United States;

Whereas coordination between the numerous Federal agencies involved in cybersecurity efforts is essential to securing the cyber infrastructure of the United States;

Whereas the National Strategy to Secure Cyberspace, published in February 2003, recommends a comprehensive national awareness program to empower all people in the United States, including businesses, the general workforce, and the general population, to secure their own parts of cyberspace;

Whereas the White House's Cyberspace Policy Review, published in May 2009, recommends that the government initiate a national public awareness and education campaign to promote cybersecurity; and

Whereas the National Cyber Security Alliance, the Multi-State Information Sharing and Analysis Center, the Department of Homeland Security, and other organizations working to improve cybersecurity in the United States have designated October 2009 as the sixth annual National Cybersecurity Awareness Month which serves to educate the people of the United States about the importance of cybersecurity: Now, therefore, be it

*Resolved*, That the Senate—

(1) supports the goals and ideals of National Cybersecurity Awareness Month, as designated by the National Cyber Security Alliance, the Multi-State Information Sharing and Analysis Center, the Department of Homeland Security, and other organizations working to improve cybersecurity in the United States;

(2) continues to work with Federal agencies, businesses, educational institutions, and other organizations to enhance the state of cybersecurity in the United States; and

(3) congratulates the National Cyber Security Alliance, the Multi-State Information Sharing and Analysis Center, the Department of Homeland Security, and other organizations working to improve cybersecurity in the United States on the sixth anniversary of the National Cybersecurity Month during October 2009.

Mrs. FEINSTEIN. Mr. President, today I rise to submit, along with Senators ROCKEFELLER, GILLIBRAND, CARPER, MIKULSKI, LIEBERMAN, COLLINS, REID, LEVIN, BENNETT, SNOWE, LANDRIEU, HATCH, BAYH, and VOINOVICH, a resolution supporting National Cyber Security Awareness Month, which will be held next month.

We in the Congress are trying to make cybersecurity a priority issue, but much work remains to be done. A critical first step is to raise awareness and public understanding of the cyber threat and steps that can be taken to improve cybersecurity. This is true across Government and private industry, but the Government should play a leadership role.

Each year for the last 5 years, the National Cyber Security Alliance, the Multi-State Information Sharing and Analysis Center, the Department of Homeland Security, and other organizations working to improve cybersecurity in the U.S. have designated October as National Cyber Security Awareness Month.

Today, I am submitting a resolution to officially designate National Cyber Security Awareness Month again this October.

The goal is to educate and empower Internet users to take simple steps to safeguard themselves from the latest online threats and respond to cyber crime and to bring Federal agencies, businesses, educational institutions, and other organizations together to encourage development and implementation of cybersecurity best practices.

Cybersecurity is a serious national security and economic security challenge of great complexity, deserving of increased attention from the Congress. As the Senate prepares to consider important cybersecurity legislation to provide new authorities and clarify privacy and legal issues, a few cyber-related observations and concerns can be mentioned now.

First, I am troubled by the lack of situational awareness on the opportunities, activities, and identities of cyber thieves or potential attackers on U.S. information networks. This is a serious weakness and a source of frustration for those responsible for oversight and strategic decision-making. Unfortunately, it will not be easy to remedy this because there are disincentives to report cyber intrusions and vulnerabilities in the U.S. Government and private sector. This must change. It must change quickly so that cybersecurity leaders can make well-informed decisions and respond to problems in real time.

Next, it is clear that cybersecurity activities must be conducted with strong congressional oversight that will demand thorough Executive branch planning before billions of dollars are authorized and appropriated. In addition, there must be a rigorous

analysis of the government's use of legal authorities for national cybersecurity missions that preserve the reasonable privacy expectations of Americans. The government's role must be well-defined as its activities involving the Internet evolve. I appreciate the White House's effort to be transparent and open with Congress on this issue this year, and have high expectations for continued healthy cooperation.

We need to have those entities with cybersecurity responsibilities collaborating across the Government. That means homeland security, intelligence, military, foreign policy, law enforcement, and other components involved in cybersecurity must be working together. The President has begun, through his cybersecurity review earlier this year, to provide a clear vision, strategic direction, and effective integration of the wide range of cybersecurity activities. However, more progress in this area is needed.

I was pleased when President Obama made a major address on cybersecurity at the end of May, but that strong first step has been followed by a four-month delay in appointing a White House cybersecurity coordinator. Until this position is filled, it will be difficult to have effective leadership and coordination on governmental cybersecurity efforts.

The Federal Government's communication strategy concerning cybersecurity must be improved as well. There should be a new plan on the best way to communicate the national cybersecurity policy to the public. Though some elements must be classified, it is important that the American people understand the Government's basic role in helping to secure information networks. The general rules and expectations for Government involvement, and how these may affect privacy, must be clearly explained.

In addition, the Government must consider that effective cybersecurity inside the U.S. will require stronger diplomatic efforts and an international agreement on what will and will not be tolerated in cyberspace. An international framework on cyber warfare, much like international conventions on traditional warfare, is needed to govern this rapidly growing field.

I also believe there should be a significant emphasis on long-term issues such as cyber research and development, recruiting cyber experts into government, and cyber education and training. In particular, recent studies sponsored by the Senate Select Committee on Intelligence have concluded that the Intelligence Community must dramatically increase funding for research and development in order for our cyber defenses to be effective in the future.

The online world is moving quickly, with cutting-edge technology expertise spread across the globe, and the U.S.

cannot presume a clear-cut technology advantage as it has in other areas of national security. I recommend a balanced portfolio approach that includes a nationally coordinated program of long-term, high-risk research aimed at revolutionary breakthroughs, sustained even when faced with near-term budget pressures. I strongly support a rebalancing of the Federal Government's Comprehensive National Cybersecurity Initiative budget to address these concerns.

Finally, as a step beyond the Comprehensive National Cybersecurity Initiative's focus on securing Federal Government information networks, I am highly concerned about protecting the U.S. critical infrastructure. For example, the country's electric power grid, communications systems, and financial infrastructure are all critical to our way of life yet unacceptably vulnerable to cyber attack. The Government and the private sector must work together to share more effectively cyber threat and vulnerability information, and the administration and the Congress must work together to determine the best mix of mandates, incentives, and other tools to improve critical infrastructure security.

Fortunately, there is an increasing level of interest and debate on cybersecurity issues in Congress and around the country. The Senate Intelligence Committee, which I have the privilege of chairing, has invested significant time assessing the cyber threat to our country and potential Government responses through the following initiatives: scores of personal meetings and staff briefings with Government, private sector, academic, and nonprofit thought-leaders; six cyber hearings in the last 2 years; four 6-month studies by the Committee's Technical Advisory Group; a new, balanced oversight system for Federal Government cybersecurity programs, as proposed in the fiscal year 2010 intelligence authorization bill; and regular outreach to other congressional committees.

I want to thank my distinguished colleagues, Senators ROCKEFELLER, GILLIBRAND, CARPER, MIKULSKI, LIEBERMAN, COLLINS, REID, LEVIN, BENNETT, SNOWE, LANDRIEU, HATCH, VOINOVICH, and BAYH, for cosponsoring this resolution and for their leadership on this issue. I look forward to working with them and other members of Congress to improve our cybersecurity in the future.

**SENATE RESOLUTION 286—EXPRESSING CONDOLENCES TO THE FAMILIES OF THE INDIVIDUALS KILLED DURING UNUSUAL STORMS AND FLOODS IN THE STATE OF GEORGIA BETWEEN SEPTEMBER 18 AND SEPTEMBER 21, 2009, AND EXPRESSING GRATITUDE TO ALL OF THE EMERGENCY PERSONNEL WHO CONTINUE TO WORK WITH UNYIELDING DETERMINATION TO MEET THE NEEDS OF GEORGIA'S RESIDENTS**

Mr. ISAKSON (for himself and Mr. CHAMBLISS) submitted the following resolution; which was considered and agreed to:

**S. RES. 286**

Whereas beginning on September 18, 2009, the State of Georgia was hit by days of unusually strong storms that resulted in downpours and flooding;

Whereas numerous Georgia rivers and creeks, including the Chattooga and Chattahoochee Rivers and the Chickamauga Creek, swollen by days of rain, overtopped their banks, creating a dangerous and deadly situation for nearby residents;

Whereas the storms and floods took human lives;

Whereas the floodwater destroyed homes, flooded roadways, including major highways, compromised drinking water, severely damaged plumbing systems, and caused significant damage to homes and businesses;

Whereas on September 21, 2009, Georgia Governor Sonny Perdue declared a state of emergency in 17 counties, including Carroll, Catoosa, Chattooga, Cherokee, Clayton, Cobb, Crawford, DeKalb, Douglas, Forsyth, Fulton, Gwinnett, Newton, Paulding, Rockdale, Stephens, and Walker Counties;

Whereas the National Weather Service estimated that between 15 and 22 inches of rain fell in the metropolitan Atlanta counties of Gwinnett, Douglas, and Paulding between September 18 and September 21, 2009;

Whereas the rains broke a 130-year-old record at Hartsfield-Jackson International Airport;

Whereas hundreds of Georgians were evacuated from their homes, and more than 300 people sought refuge in shelters;

Whereas Governor Perdue estimated that more than 1,000 residences were seriously flooded;

Whereas the weather closed schools in several counties;

Whereas as many as tens of thousands of people were without power in metropolitan Atlanta;

Whereas search and rescue operations functioned in several counties where the water continued to rise;

Whereas the Georgia Emergency Management Agency coordinated with local emergency personnel and worked tirelessly to protect human lives and rescue those threatened by the floods;

Whereas the Georgia Emergency Management Agency facilitated requests for assistance from people and first responders all across the State of Georgia;

Whereas the Georgia Emergency Management Agency and other first responders acted valiantly in life-safety response operations, including delivering sandbags and rescuing people trapped in their cars and homes from the floodwater;

Whereas the Federal Emergency Management Agency activated its national and re-

gional response coordination centers and worked closely with the State of Georgia to monitor the response efforts and identify and respond to any immediate emergency needs for the people and communities of the State that were impacted by the devastating floods; and

Whereas volunteers gave their time to help ensure that evacuees were sheltered, clothed, fed, and comforted through this traumatic event: Now, therefore, be it

*Resolved*, That the Senate—

(1) offers its deepest sympathy and condolences to the families of those who lost their lives in the flooding in the State of Georgia;

(2) expresses its condolences to the families who lost their homes and other property in the floods;

(3) expresses gratitude and appreciation to the people of the State of Georgia and the surrounding States, who worked to protect people from the rising floodwaters;

(4) expresses its support as the Federal Emergency Management Agency responds to the needs of the people and communities affected by the flooding; and

(5) honors the emergency responders, within and beyond metropolitan Atlanta and the State of Georgia, for their bravery and sacrifice during this tragedy.

**SENATE RESOLUTION 287—HONORING THE 25TH ANNIVERSARY OF THE ENACTMENT OF THE DRUG PRICE COMPETITION AND PATENT TERM RESTORATION ACT OF 1984 (THE HATCH-WAXMAN ACT)**

Mr. BROWN submitted the following resolution; which was referred to the Committee on the Judiciary:

**S. RES. 287**

Whereas on September 24, 1984, the Drug Price Competition and Patent Term Restoration Act of 1984 (Public Law 98-417; 98 Stat. 1585), commonly known as the Hatch-Waxman Act, was signed into law by President Ronald Reagan, at which time President Reagan indicated that generic drugs might save American consumers \$1,000,000,000 over the next 10 years;

Whereas this landmark law created the regulatory mechanism under which the Food and Drug Administration approves safe and affordable generic drugs;

Whereas each year for the past quarter century, the generic pharmaceutical industry has delivered billions of dollars in savings on the purchase of prescription drugs, far exceeding the original estimate;

Whereas a May 2009 report showed that during the preceding 10-year period, the use of generic drugs has saved the American health care system more than \$734,000,000,000, with the most recent annual average exceeding \$121,000,000,000;

Whereas generic drugs accounted for more than 72 percent of all prescription drugs dispensed, yet accounted for only 17 percent of the spending on all prescription drugs, a differential that reflects the dramatically lower prices paid for generic drugs, which not only reduces consumer and taxpayer spending but also increases patient access to needed medicines; and

Whereas while the Hatch-Waxman Act does not have an explicit pathway for approval by the Food and Drug Administration of lower-priced versions of cutting-edge biologic medicines, which account for a rapidly growing portion of prescription medicine spend-

ing, the Act does provide a solid framework for such a pathway: Now, therefore, be it

*Resolved*, That it is the sense of Senate that—

(1) enactment of the Hatch-Waxman Act (Public Law 98-417; 98 Stat. 1585) in 1984 served to create the modern generic pharmaceutical industry, which has provided consumers with access to affordable drugs, yielding significant health and economic benefits for the Nation's health care system;

(2) Senator Orrin Hatch and Representative Henry Waxman deserve the Nation's gratitude for authoring and championing this landmark bipartisan legislation; and

(3) Congress should build on the work of these dedicated policymakers and enact legislation to create a pathway for approval by the Food and Drug Administration of safe and affordable generic versions of biologic medicines.

Mr. BROWN. Mr. President, I rise today to submit a resolution commemorating the 25th Anniversary of the Drug Price Competition and Patent Term Restoration Act, more commonly known as the Hatch-Waxman Act.

This historic legislation—which was signed into law exactly 25 years ago today, on September 24, 1984—marked the culmination of months of lengthy and often contentious debate over how to foster pharmaceutical innovation while at the same time encouraging competition from affordable generic prescription drugs.

Guided by my good friends and colleagues Representative HENRY WAXMAN of California and Senator ORRIN HATCH of Utah, Congress delivered a bill that struck the right balance between innovation and access, and put in place a new regulatory pathway to bring safe and effective generic medicines to market.

I doubt that anyone involved in the passage of Hatch-Waxman could have envisioned a quarter century ago the magnitude of savings and the significant boost to new drug innovation that this bill has delivered.

According to a May 2009 report of IMS data, the use of FDA-approved generic medicines has saved the U.S. healthcare system approximately \$734 billion over the past 10 years.

Moreover, patients around the world can get needed medication that they would not be able to afford except for access to lower-cost generics.

At the same time, price competition from generics has acted to spur a dramatic increase in new drug research and development.

In short, the Hatch-Waxman Act has delivered above and beyond the intended result.

I urge my colleagues to view the success of this landmark legislation as an indicator of what we can accomplish in the field of biologic medicines.

Biologics are the most promising treatments available for diseases such as cancer, multiple sclerosis, and Alzheimer's, but they are expensive, often costing between \$20,000 and \$100,000 a year.

There is no explicit pathway for Food and Drug Administration approval of generic versions of these medicines under the Hatch-Waxman law; however, there is bipartisan agreement that we need to create one. To do that, we need to focus on our goals and bridge our differences.

The time to do that is now.

Biologic drugs are the fast growing component of prescription drug spending.

These drugs are expected to make up 50 percent of the pharmaceutical marketplace by 2020, but their high prices keep them out of reach for far too many patients and place an increasingly heavy financial burden on consumers, on businesses, and on taxpayers.

In 2007, the top six biologics accounted for more than \$7 billion of the nearly \$17 billion in direct prescription drug spending by Medicare.

That figure will continue to grow, and the amount taxpayers pay depends on whether Medicare can access lower-priced biogenerics or is forced to pay brand-name prices year after year after year.

Biogenerics hold the promise of making life-saving medicines available to all patients at an affordable cost.

With the explosion in biologics, we have a new generation of lifesaving medicines—and a new opportunity to reprise the historic victory Senator ORRIN HATCH and Representative HENRY WAXMAN achieved 25 years ago today.

With biologic use and prices spiraling upward, we have no: time to lose.

#### AMENDMENTS SUBMITTED AND PROPOSED

SA 2548. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 2440 submitted by Mr. VITTER and intended to be proposed to the bill H.R. 2996, making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table.

SA 2549. Mr. VITTER (for himself, Mr. GRASSLEY, Mr. BUNNING, Mr. ROBERTS, and Mr. BROWNBACK) submitted an amendment intended to be proposed by him to the bill H.R. 2996, supra.

SA 2550. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 2517 submitted by Mrs. FEINSTEIN and intended to be proposed to the bill H.R. 2996, supra; which was ordered to lie on the table.

SA 2551. Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2530 submitted by Ms. MURKOWSKI (for herself and Mr. THUNE) and intended to be proposed to the bill H.R. 2996, supra; which was ordered to lie on the table.

SA 2552. Mr. THUNE submitted an amendment intended to be proposed to amendment SA 2517 submitted by Mrs. FEINSTEIN and intended to be proposed to the bill H.R. 2996, supra; which was ordered to lie on the table.

SA 2553. Mr. SCHUMER submitted an amendment intended to be proposed to

amendment SA 2513 submitted by Mr. SCHUMER and intended to be proposed to the bill H.R. 2996, supra; which was ordered to lie on the table.

SA 2554. Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2511 proposed by Mr. COBURN to the bill H.R. 2996, supra; which was ordered to lie on the table.

SA 2555. Mr. JOHANNIS submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table.

#### TEXT OF AMENDMENTS

SA 2548. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 2440 submitted by Mr. VITTER and intended to be proposed by him to the bill H.R. 2996, making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

##### FUNDING LIMITATION

SEC. 4. None of the funds made available by this Act may be obligated for the purpose of departments or agencies funded by this Act and lead by Senate-confirmed appointees implementing policies of the Assistant to the President for Energy and Climate Change (commonly known as the "White House Climate Change Czar").

SA 2549. Mr. VITTER (for himself, Mr. GRASSLEY, Mr. BUNNING, Mr. ROBERTS and Mr. BROWNBACK) submitted an amendment intended to be proposed by him to the bill H.R. 2996, making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes; as follows:

At the appropriate place, insert the following:

##### FUNDING LIMITATION

SEC. . None of the funds made available by this Act may be obligated for the purpose of departments or agencies funded by this Act and lead by Senate-confirmed appointees implementing policies of the Assistant to the President for Energy and Climate Change (commonly known as the "White House Climate Change Czar").

SA 2550. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 2517 submitted by Mrs. FEINSTEIN and intended to be proposed to the bill H.R. 2996, making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 1, line 8, strike "greenhouse gases" and all that follows through page 2, line 7, and insert "carbon dioxide."

SA 2551. Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2530 submitted to Ms. MURKOWSKI (for herself and Mr. THUNE) and intended to be proposed to the bill H.R. 2996, making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 1, strike line 6 and all that follows through the end of the amendment and insert the following:

SEC. 201. None of the funds made available under this Act may be used to apply the permit program under part C of title I, or under title V, of the Clean Air Act (42 U.S.C. 7440 et seq., 7661 et seq.) to any stationary source, on the basis of its emissions of greenhouse gases, that—

(1) is a farm, as the term is defined in section 6420(c)(2) of the Internal Revenue Code of 1986; or

(2) is not subject to the requirement to report greenhouse gas emissions under the final Environmental Protection Agency rule entitled "Mandatory Reporting of Greenhouse Gases" and numbered 2060-A079.

SA 2552. Mr. THUNE submitted an amendment intended to be proposed to amendment SA 2517 submitted by Mrs. FEINSTEIN and intended to be proposed to the bill H.R. 2996, making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

##### SEC. 423. PROHIBITION ON USE OF FUNDS.

None of the funds made available under this Act may be used to apply the permit program under part C of title I, or under title V, of the Clean Air Act (42 U.S.C. 7440 et seq., 7661 et seq.) to any stationary source, on the basis of its emissions of greenhouse gases, if—

(1) the stationary source—

(A) is a farm, as the term is defined in section 6420(c)(2) of the Internal Revenue Code of 1986; or

(B) is not subject to the requirement to report greenhouse gas emissions under the final Environmental Protection Agency rule entitled "Mandatory Reporting of Greenhouse Gases" and numbered 2060-A079; or

(2) the applicability of the program would result in an increase in electricity or gasoline prices.

SA 2553. Mr. SCHUMER submitted an amendment intended to be proposed to amendment SA 2513 submitted by Mr. SCHUMER and intended to be proposed to the bill H.R. 2996, making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 1, line 6 of the amendment, strike "shall use" and insert "may use up to".

SA 2554. Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2511 proposed by Mr.

COBURN to the bill H.R. 2996, making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

**SEC. \_\_\_\_ . PROHIBITION ON USE OF FUNDS FOR NO-BID CONTRACTS AND GRANTS.**

(a) IN GENERAL.—Notwithstanding any other provision of this Act and subject to subsection (b), none of the funds appropriated or otherwise made available by this Act may be—

(1) used to make any payment in connection with a contract not awarded using competitive procedures in accordance with the requirements of section 303 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253), section 2304 of title 10, United States Code, and the Federal Acquisition Regulation; or

(2) awarded by a grant not subject to merit-based competitive procedures, needs-based criteria, and other procedures specifically authorized by law to select the grantee or award recipient.

(b) LIMITATIONS.—The prohibition under subsection (a), shall not apply to the awarding of contracts or grants with respect to which—

(1) not more than 1 applicant submits a bid for a contract or grant;

(2) Federal law specifically otherwise authorizes a grant or contract to be entered into without regard for the laws, regulations, or requirements described in subsection (a)(1), including formula grants for States; or

(3) Federal laws otherwise authorize grants, contracts, or compacts to federally recognized Indian tribes or tribally owned businesses.

**SA 2555.** Mr. JOHANNIS submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . (a) HIGH PRIORITY NATIONAL GUARD COUNTERDRUG PROGRAMS.**—Of the amount appropriated or otherwise made available by title VI under the heading “DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE”, up to \$30,000,000 may be available for the purpose of High Priority National Guard Counterdrug Programs.

(b) SUPPLEMENT NOT SUPPLANT.—The amount made available by subsection (a) for the purpose specified in that subsection is in addition to any other amounts made available by this Act for that purpose.

**NOTICE OF HEARING**

**COMMITTEE ON ENERGY AND NATURAL RESOURCES**

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a hearing has been scheduled before the Subcommittee on Public Lands and Forests.

The hearing will be held on Thursday, October 8, 2009, at 2:30 p.m. in room SD-366 of the Dirksen Senate Office Building.

The purpose of the hearing is to receive testimony on the following bills:

S. 522, to resolve the claims of the Bering Straits Native Corporation and the State of Alaska to land adjacent to Salmon Lake in the State of Alaska and to provide for the conveyance to the Bering Straits Native Corporation of certain other public land in partial satisfaction of the land entitlement of the Corporation under the Alaska Native Claims Settlement Act;

S. 865 and H.R. 1442, to provide for the sale of the Federal Government's reversionary interest in approximately 60 acres of land in Salt Lake City, Utah, originally conveyed to the Mount Olivet Cemetery Association under the Act of January 23, 1909;

S. 881, to provide for the settlement of certain claims under the Alaska Native Claims Settlement Act, and for other purposes;

S. 940, to direct the Secretary of the Interior to convey to the Nevada System of Higher Education certain Federal land located in Clark and Nye counties, Nevada, and for other purposes;

S. 1272, to provide for the designation of the Devil's Staircase Wilderness Area in the State of Oregon, to designate segments of Wasson and Franklin Creeks in the State of Oregon as wild or recreation rivers, and for other purposes; and

S. 1689, to designate certain land as components of the National Wilderness Preservation System and the National Landscape Conservation System in the State of New Mexico, and for other purposes.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send it to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510-6150, or by email to [allison\\_seyferth@energy.senate.gov](mailto:allison_seyferth@energy.senate.gov).

For further information, please contact David Brooks at (202) 224-9863 or Allison Seyferth at (202) 224-4905.

**AUTHORITY FOR COMMITTEES TO MEET**

**COMMITTEE ON ARMED SERVICES**

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that Committee on Armed Services be authorized to meet during the session of the Senate on September 24, 2009, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

**COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS**

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the Committee Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on September 24, 2009, at 9:30 a.m., to conduct a hearing entitled “Emergency Economic Stabilization Act: One year later.”

The PRESIDING OFFICER. Without objection, it is so ordered.

**COMMITTEE ON FINANCE**

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the Com-

mittee on Finance be authorized to meet during the session of the Senate on September 24, 2009, at 9:30 a.m., in room 216 of the Hart Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

**COMMITTEE ON THE JUDICIARY**

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate, on September 24, 2009, at 10 a.m., in SD-226 of the Dirksen Senate Office Building, to conduct an executive business meeting.

The PRESIDING OFFICER. Without objection, it is so ordered.

**SELECT COMMITTEE ON INTELLIGENCE**

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on September 24, 2009, at 2:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

**SUBCOMMITTEE ON FEDERAL FINANCIAL MANAGEMENT, GOVERNMENT INFORMATION, FEDERAL SERVICES, AND INTERNATIONAL SECURITY**

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs' Subcommittee on Federal Financial Management, Government Information, Federal Services, and International Security be authorized to meet during the session of the Senate on September 24, 2009, at 10:30 a.m. to conduct a hearing entitled, “Getting to Better Government: Focusing on Performance”.

The PRESIDING OFFICER. Without objection, it is so ordered.

**SUBCOMMITTEE ON OVERSIGHT OF GOVERNMENT MANAGEMENT, THE FEDERAL WORKFORCE, AND THE DISTRICT OF COLUMBIA**

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs's Subcommittee on Oversight of Government Management, the Federal Workforce, and the District of Columbia be authorized to meet during the session of the Senate on September 24, 2009, at 2:30 p.m. to conduct a hearing entitled “A Review of U.S. Diplomatic Readiness: Addressing the Staffing and Foreign Language Challenges Facing the Foreign Service.”

The PRESIDING OFFICER. Without objection, it is so ordered.

**FISCAL YEAR 2010 FEDERAL AVIATION ADMINISTRATION EXTENSION ACT**

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of H.R. 3607; that the bill be read the third time and passed; that the motion to reconsider be laid upon the table, and that any

statements relating to the matter be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 3607) was ordered to be read a third time, was read the third time, and passed.

#### RESERVE OFFICERS ASSOCIATION MODERNIZATION ACT OF 2009

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 158, S. 1599.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 1599) to amend title 36, United States Code, to include in the federal charter of the Reserve Officers Association leadership positions newly added in its constitution and bylaws.

There being no objection, the Senate proceeded to consider the bill.

Mr. LEAHY. Mr. President, I am pleased that today the Senate will pass the Reserve Officers Association Modernization Act of 2009. I thank Senator CHAMBLISS and Senator PRYOR, cosponsors of this legislation and chairs of the U.S. Reserve Caucus, for their hard work and support of this legislation.

This legislation makes several updates to the charter of the Reserve Officers Association, ROA, to more accurately reflect the organization's current operation. First, it adds the position of "president elect" to its constitution and bylaws. Additionally, under the legislation, the national executive committee is expanded to include three representatives from each of the seven branches of the uniformed services. This bill makes the first changes to the ROA charter since 1998 and will enable ROA to continue its good work.

Since its founding in 1922, the ROA has worked on behalf of the National Guard and Reserves and their families. For over 85 years, ROA has remained committed to its original mission, to "support and promote the development and execution of a military policy for the United States that will provide adequate National security." The Reserve Officers Association represents the Reserve components officers for the Army, Air Force, Navy, Marine Corps, Coast Guard, the Air and Army National Guard, Public Health Service, and the officers of the National Oceanic and Atmospheric Administration.

As chair of the Senate National Guard Caucus, I have worked closely with groups like the Reserve Officers Association, ROA, to ensure that the National Guard and Reserves have access to more affordable health care, a greater influence in the military, adequate training facilities and supplies, and shorter troop deployments in Iraq and Afghanistan. The National Guard and Reserves provide an invaluable

contribution to our Nation's military, our national security, and disaster relief efforts, and it is vital that we continue to support their needs.

The Reserve Officers Association has provided a voice to the men and women that serve our country in the National Guard and Reserves. I am proud that today the Senate has demonstrated its support for the brave members of the National Guard and Reserves by passing this legislation.

Mr. REID. Mr. President, I ask unanimous consent that the bill be read the third time, passed, the motion to reconsider be laid upon the table, with no intervening action or debate, and that any statements relating to the matter be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 1599) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 1599

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Reserve Officers Association Modernization Act of 2009".

#### SEC. 2. INCLUSION OF NEW LEADERSHIP POSITIONS IN THE FEDERAL CHARTER OF THE RESERVE OFFICERS ASSOCIATION.

(a) NATIONAL EXECUTIVE COMMITTEE.—Section 190104(b)(2) of title 36, United States Code, is amended—

(1) by inserting "the president elect," after "the president,";

(2) by inserting "a minimum of" before "3 national executive committee members,"; and

(3) by striking "except the executive director," and inserting "except the president elect and the executive director,".

(b) OFFICERS.—Section 190104(c) of such title is amended—

(1) in paragraph (1)—

(A) by inserting "a president elect," after "a president,";

(B) by inserting "a minimum of" before "3 national executive committee members,";

(C) by striking "a surgeon, a chaplain, a historian, a public relations officer,"; and

(D) by striking "as decided at the national convention" and inserting "specified in the constitution of the corporation"; and

(2) in paragraph (2)—

(A) by inserting "and take office" after "be elected"; and

(B) by striking "and the national public relations officer," and inserting "the judge advocate, and any other national officers specified in the constitution of the corporation,".

(c) VACANCIES.—Section 190104(d)(1) of such title is amended by striking "president and last past president," and inserting "president, president elect, and last past president,".

(d) RECORDS AND INSPECTION.—Section 190109(a)(2) of such title is amended by striking "national council;" and inserting "other national entities of the corporation;".

Mrs. BOXER. Mr. President, tonight the Senate has approved a 3-month extension of the FAA Reauthorization Act.

While I understand the importance of passing a short-term extension of this

law, I am disappointed that the full Senate has yet to act on the FAA reauthorization bill that was ordered reported by the Senate Commerce Committee in July. That bill, the FAA Air Transportation Modernization and Safety Improvement Act, includes long overdue legislation known as the Airline Passenger Bill of Rights.

Too often, airline passengers are trapped on airplanes without basic needs such as food, water, medicine, working restrooms or proper cabin ventilation.

Just last month, passengers on a flight from Houston to Minneapolis-St. Paul were diverted to Rochester, MN, and forced to spend the night trapped in a small commuter airplane.

Two weeks later, a flight carrying more than 100 passengers bound for Minneapolis was forced to sit on the tarmac at JFK airport in New York for 6 hours before finally departing. The passengers, including parents traveling with infants, were forced to endure overflowing bathrooms and had no real food or water to speak of.

These are not isolated examples of a few airlines with ineffective policies. USA Today recently reported that since January 2007, 200,000 domestic passengers on 3,000 flights have been stranded in airplanes on the tarmac for 3 hours or more.

This is unacceptable. We must pass the Airline Passenger Bill of Rights this year—before the 3-month extension of the FAA reauthorization bill expires. The Passenger Bill of Rights, which I have introduced with Senator OLYMPIA SNOWE, would require airlines to offer passengers the option of safely leaving a plane they have boarded once that plane has sat on the ground for 3 hours.

Americans deserve a safe and efficient aviation system. We cannot afford to wait another year to pass long overdue legislation that will make our skies safer and protect passengers from excessive tarmac delays. No American should ever be forced to spend the night in a plane on an airport tarmac. We can prevent this and we must.

I know the Senate is working to address many important challenges at this time. But, we cannot lose sight of the aviation challenges facing our country. It is time for Congress to meet its responsibility to the flying public.

#### GRANTING A FEDERAL CHARTER TO THE MILITARY OFFICERS ASSOCIATION OF AMERICA

Mr. REID. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of S. 832, and that the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The legislative clerk read as follows:

A bill (S. 832) to amend title 36, United States Code, to grant a Federal charter to the Military Officers Association of America, and for other purposes.

There being no objection, the Senate proceed to consider the bill.

Mr. REID. Mr. President, I ask unanimous consent that the bill be read the third time and passed, the motion to reconsider be laid upon the table, and if there are statements, I ask that they be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 832) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 832

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. GRANT OF FEDERAL CHARTER TO MILITARY OFFICERS ASSOCIATION OF AMERICA.**

(a) GRANT OF CHARTER.—Part B of subtitle II of title 36, United States Code, is amended by inserting after chapter 1403 the following new chapter:

**“CHAPTER 1404—MILITARY OFFICERS ASSOCIATION OF AMERICA**

“Sec.

“140401. Organization.

“140402. Purposes.

“140403. Membership.

“140404. Governing body.

“140405. Powers.

“140406. Restrictions.

“140407. Tax-exempt status required as condition of charter.

“140408. Records and inspection.

“140409. Service of process.

“140410. Liability for acts of officers and agents.

“140411. Annual report.

“140412. Definition.

**“§ 140401. Organization**

“(a) FEDERAL CHARTER.—Military Officers Association of America (in this chapter, the ‘corporation’), a nonprofit organization that meets the requirements for a veterans service organization under section 501(c)(19) of the Internal Revenue Code of 1986 and is organized under the laws of the Commonwealth of Virginia, is a federally chartered corporation.

“(b) EXPIRATION OF CHARTER.—If the corporation does not comply with the provisions of this chapter, the charter granted by subsection (a) shall expire.

**“§ 140402. Purposes**

“(a) GENERAL.—The purposes of the corporation are as provided in its bylaws and articles of incorporation and include—

“(1) to inculcate and stimulate love of the United States and the flag;

“(2) to defend the honor, integrity, and supremacy of the Constitution of the United States and the United States Government;

“(3) to advocate military forces adequate to the defense of the United States;

“(4) to foster the integrity and prestige of the Armed Forces;

“(5) to foster fraternal relations between all branches of the various Armed Forces from which members are drawn;

“(6) to further the education of children of members of the Armed Forces;

“(7) to aid members of the Armed Forces and their family members and survivors in every proper and legitimate manner;

“(8) to present and support legislative proposals that provide for the fair and equitable treatment of members of the Armed Forces, including the National Guard and Reserves, military retirees, family members, survivors, and veterans; and

“(9) to encourage recruitment and appointment in the Armed Forces.

**“§ 140403. Membership**

“Eligibility for membership in the corporation, and the rights and privileges of members of the corporation, are as provided in the bylaws of the corporation.

**“§ 140404. Governing body**

“(a) BOARD OF DIRECTORS.—The composition of the board of directors of the corporation, and the responsibilities of the board, are as provided in the articles of incorporation and bylaws of the corporation.

“(b) OFFICERS.—The positions of officers of the corporation, and the election of the officers, are as provided in the articles of incorporation and bylaws.

**“§ 140405. Powers**

“The corporation has only those powers provided in its bylaws and articles of incorporation filed in each State in which it is incorporated.

**“§ 140406. Restrictions**

“(a) STOCK AND DIVIDENDS.—The corporation may not issue stock or declare or pay a dividend.

“(b) DISTRIBUTION OF INCOME OR ASSETS.—The income or assets of the corporation may not inure to the benefit of, or be distributed to, a director, officer, or member of the corporation during the life of the charter granted by this chapter. This subsection does not prevent the payment of reasonable compensation to an officer or employee of the corporation or reimbursement for actual necessary expenses in amounts approved by the board of directors.

“(c) LOANS.—The corporation may not make a loan to a director, officer, employee, or member of the corporation.

“(d) CLAIM OF GOVERNMENTAL APPROVAL OR AUTHORITY.—The corporation may not claim congressional approval or the authority of the United States Government for any of its activities.

“(e) CORPORATE STATUS.—The corporation shall maintain its status as a corporation incorporated under the laws of the Commonwealth of Virginia.

**“§ 140407. Tax-exempt status required as condition of charter**

“If the corporation fails to maintain its status as an organization exempt from taxation under the Internal Revenue Code of 1986, the charter granted under this chapter shall terminate.

**“§ 140408. Records and inspection**

“(a) RECORDS.—The corporation shall keep—

“(1) correct and complete records of account;

“(2) minutes of the proceedings of the members, board of directors, and committees of the corporation having any of the authority of the board of directors of the corporation; and

“(3) at the principal office of the corporation, a record of the names and addresses of the members of the corporation entitled to vote on matters relating to the corporation.

“(b) INSPECTION.—A member entitled to vote on any matter relating to the corporation, or an agent or attorney of the member, may inspect the records of the corporation for any proper purpose at any reasonable time.

**“§ 140409. Service of process**

“The corporation shall comply with the law on service of process of each State in which it is incorporated and each State in which it carries on activities.

**“§ 140410. Liability for acts of officers and agents**

“The corporation is liable for any act of any officer or agent of the corporation acting within the scope of the authority of the corporation.

**“§ 140411. Annual report**

“The corporation shall submit to Congress an annual report on the activities of the corporation during the preceding fiscal year. The report shall be submitted at the same time as the report of the audit required by section 10101(b) of this title. The report may not be printed as a public document.

**“§ 140412. Definition**

“In this chapter, the term ‘State’ includes the District of Columbia and the territories and possessions of the United States.”

(b) CLERICAL AMENDMENT.—The table of chapters at the beginning of subtitle II of title 36, United States Code, is amended by inserting after the item relating to chapter 1403 the following new item:

“1404. Military Officers Association of America ..... 140401”.

**MEASURES DISCHARGED**

Mr. REID. Mr. President, I ask unanimous consent that the Environment and Public Works Committee be discharged from further consideration of the following bills, all en bloc: H.R. 2913, H.R. 1687, H.R. 2053, H.R. 2498, and H.R. 2121; that the bills be read a third time and passed, en bloc, with the motions to reconsider laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

**SIDNEY M. ARONOVITZ UNITED STATES COURTHOUSE**

The bill (H.R. 2913) was ordered to a third reading, was read the third time, and passed.

**RALPH REGULA FEDERAL BUILDING AND UNITED STATES COURTHOUSE**

The bill (H.R. 1687) was ordered to a third reading, was read the third time, and passed.

**ALBERT ARMENDARIZ, SR., UNITED STATES COURTHOUSE**

The bill (H.R. 2053) was ordered to a third reading, was read the third time, and passed.

**WILLIAM O. LIPINSKI FEDERAL BUILDING**

The bill (H.R. 2498) was ordered to a third reading, was read the third time, and passed.

# CONVEYANCE OF REAL PROPERTY IN GALVESTON, TEXAS

The bill (H.R. 2121) was ordered to a third reading, was read the third time, and passed.

## CONDOLENCES TO THE FAMILIES OF THE INDIVIDUALS KILLED DURING UNUSUAL STORMS AND FLOODS IN GEORGIA

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to S. Res. 286.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 286) expressing condolences to the families of the individuals killed during unusual storms and floods in the State of Georgia between September 18 and September 21, 2009, and expressing gratitude to all of the emergency personnel who continue to work with unyielding determination to meet the needs of Georgia's residents.

There being no objection, the Senate proceeded to consider the resolution.

Mr. CHAMBLISS. Mr. President, I come to the floor with a heavy heart to express condolences to those in my home State of Georgia as well as others across the southern part of our country who have been affected by the recent devastating floods.

It is hard to imagine that 1 year ago we in Georgia were in the fourth year of extensive drought. Yet today across the metro Atlanta area and throughout north Georgia, we have gone from a water crisis in the last couple of years to rising waters that have transformed neighborhoods into rivers, ballfields into lakes, and basements into dank pools. Rafts and kayaks have taken the place of cars in streets. In many areas, the only dry places are rooftops and treetops.

For 4 days and 4 nights, beginning September 18, water poured from the sky in torrents, and rose from rivers, creeks, and the saturated ground to claim lives and livelihoods, worldly possessions, and treasured memories in flooded basements, attics, driveways, and fields.

The Chattooga and Chattahoochee Rivers and Chickamauga Creek, swollen by days of rain, topped their banks, with deadly results. The Chattahoochee crested at 30 feet, some 15 feet above flood stage.

Nearly 1,000 families have lost their homes to flooding they never expected to see in their lifetimes. Others found their businesses submerged. Because most are not in floodplains, they do not have flood insurance. Many have lost everything they own during already tough economic times.

In addition to homes and businesses, the rising waters destroyed roadways, swept away bridges, tainted drinking water, and damaged sewer systems. It will take months, if not years, to repair the damage.

Even more heart-wrenching is the fact that nine Georgians and one resident of Alabama, just across the State line, have perished in the rushing waters.

When all was said and done, more than 20 inches of rain fell on Georgia, breaking a 130-year-old record at Atlanta's Hartsfield-Jackson International Airport. More than 30,000 people were without power in the metro Atlanta area. The Red Cross sheltered hundreds rendered homeless by the floods.

However, the worst situations often bring out the best in people. Local first responders and emergency personnel worked tirelessly to protect lives and property and to rescue those trapped by the waters. Their bravery and sacrifice is exemplary.

Also, the Georgia Emergency Management Agency worked around the clock to facilitate requests for assistance. The Federal Emergency Management Agency worked closely with the State to anticipate and respond to emergency needs, and countless volunteers gave time and energy to ensure that evacuees were sheltered, clothed, fed, and comforted. They all have Georgians' and my personal deepest, most heartfelt gratitude.

I would like to express my sympathy to the families of those who have lost loved ones, homes, and livelihoods. To that end, Senator ISAKSON and I have submitted this resolution, S. Res. 286, expressing condolences to those affected and appreciation to emergency responders and others who helped them. I urge my colleagues to support the resolution tonight.

On September 21, Gov. Sonny Perdue declared a state of emergency in 17 counties. I understand President Obama called Governor Perdue Tuesday night to discuss the needs of Georgians and assured the Governor that his request for Federal aid would receive prompt attention. To that end, today we received notification that 4 of the 17 affected counties have been declared disaster areas by President Obama, and I am certain the others, when the processing is completed, will likewise be declared disaster areas.

Tomorrow, Vice President BIDEN will accompany Senator ISAKSON and myself to Georgia to take a firsthand look at what is going on.

Mr. President, we are literally underwater. Georgia and other parts of the Southeast need the assistance of the Federal Government in this case, as well as the State government. To that end, we are seeing the response in a very appropriate way.

Mr. REID. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motions to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 286) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

### S. RES. 286

Whereas beginning on September 18, 2009, the State of Georgia was hit by days of unusually strong storms that resulted in downpours and flooding;

Whereas numerous Georgia rivers and creeks, including the Chattooga and Chattahoochee Rivers and the Chickamauga Creek, swollen by days of rain, overtopped their banks, creating a dangerous and deadly situation for nearby residents;

Whereas the storms and floods took human lives;

Whereas the floodwater destroyed homes, flooded roadways, including major highways, compromised drinking water, severely damaged plumbing systems, and caused significant damage to homes and businesses;

Whereas on September 21, 2009, Georgia Governor Sonny Perdue declared a state of emergency in 17 counties, including Carroll, Catoosa, Chattooga, Cherokee, Clayton, Cobb, Crawford, DeKalb, Douglas, Forsyth, Fulton, Gwinnett, Newton, Paulding, Rockdale, Stephens, and Walker Counties;

Whereas the National Weather Service estimated that between 15 and 22 inches of rain fell in the metropolitan Atlanta counties of Gwinnett, Douglas, and Paulding between September 18 and September 21, 2009;

Whereas the rains broke a 130-year-old record at Hartsfield-Jackson International Airport;

Whereas hundreds of Georgians were evacuated from their homes, and more than 300 people sought refuge in shelters;

Whereas Governor Perdue estimated that more than 1,000 residences were seriously flooded;

Whereas the weather closed schools in several counties;

Whereas as many as tens of thousands of people were without power in metropolitan Atlanta;

Whereas search and rescue operations functioned in several counties where the water continued to rise;

Whereas the Georgia Emergency Management Agency coordinated with local emergency personnel and worked tirelessly to protect human lives and rescue those threatened by the floods;

Whereas the Georgia Emergency Management Agency facilitated requests for assistance from people and first responders all across the State of Georgia;

Whereas the Georgia Emergency Management Agency and other first responders acted valiantly in life-safety response operations, including delivering sandbags and rescuing people trapped in their cars and homes from the floodwater;

Whereas the Federal Emergency Management Agency activated its national and regional response coordination centers and worked closely with the State of Georgia to monitor the response efforts and identify and respond to any immediate emergency needs for the people and communities of the State that were impacted by the devastating floods; and

Whereas volunteers gave their time to help ensure that evacuees were sheltered, clothed, fed, and comforted through this traumatic event: Now, therefore, be it

*Resolved*, That the Senate—

(1) offers its deepest sympathy and condolences to the families of those who lost their lives in the flooding in the State of Georgia;

(2) expresses its condolences to the families who lost their homes and other property in the floods;

(3) expresses gratitude and appreciation to the people of the State of Georgia and the surrounding States, who worked to protect people from the rising floodwaters;

(4) expresses its support as the Federal Emergency Management Agency responds to the needs of the people and communities affected by the flooding; and

(5) honors the emergency responders, within and beyond metropolitan Atlanta and the State of Georgia, for their bravery and sacrifice during this tragedy.

## EXECUTIVE SESSION

### NOMINATION OF JONATHAN B. JARVIS

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider Calendar No. 406, the nomination of Jonathan B. Jarvis to be Director of the National Park Service; that immediately after reporting the nomination, the Senate proceed to vote on confirmation of the nomination.

The PRESIDING OFFICER. The clerk will report the nomination.

The legislative clerk read the nomination of Jonathan B. Jarvis, of California, to be Director of the National Park Service.

The PRESIDING OFFICER. The question is, Will the Senate advise and consent to the nomination of Jonathan B. Jarvis, of California, to be Director of the National Park Service?

The nomination was confirmed.

Mr. REID. I move to reconsider the vote, and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. President, I ask unanimous consent that the President be immediately notified of the Senate's action, and that any statements relating to the nomination be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

### NOMINATION DISCHARGED

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be discharged of PN704 and that the Senate then proceed to the nomination; that the nomination be confirmed and the motion to reconsider be laid upon the table; that no further motions be in order; that the President be immediately notified of the Senate's action and the Senate return to legislative session, and that any statements relating thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nomination considered and confirmed is as follows:

### SMALL BUSINESS ADMINISTRATION

Peggy E. Gustafson, of Illinois, to be Inspector General, Small Business Administration.

## LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will return to legislative session.

### GOLDEN GAVEL AWARD

Mr. REID. Mr. President, earlier today—actually, at 1:43 p.m. today—Senator TOM UDALL, the Senator from New Mexico, joined the 100-hour presiding club of the 111th Congress. He is the third member of the freshman class to achieve this goal. These are individuals who preside over the Senate for 100 hours.

We have a tradition that those Senators who devote so much time to presiding in the Senate are given what we call a golden gavel. It is a very nice presentation, very nice keepsake, and we will make that presentation at our next caucus. I appreciate very much the work of TOM UDALL, devoting his time to making sure the proceedings on the floor are in keeping with the rules of the Senate, and we welcome him to this most prestigious club—a member of the golden gavel society.

I believe the Presiding Officer is a member of the golden gavel society.

The PRESIDING OFFICER. The Senator is correct.

Mr. REID. I ask the Presiding Officer, were you the first to get it? In your capacity as a Senator from the State of Alaska, what is the answer?

The PRESIDING OFFICER. In my capacity as a Senator from the State of Alaska, the answer is yes.

Mr. REID. It was a close battle, but you won.

### ORDERS FOR FRIDAY, SEPTEMBER 25, 2009

Mr. REID. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until tomorrow morning at 9:30 a.m., Friday, September 25; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate then resume consideration of H.R. 3326, the Defense appropriations bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

## PROGRAM

Mr. REID. As I announced earlier tonight, Mr. President, there will be no rollcall votes during Friday's session of the Senate. On Monday, which is Yom

Kippur, the most significant and highest Holy Day of those of the Jewish faith, we will not be in session. Therefore, the next vote will occur around 5:30 p.m., Tuesday, September 29.

As a reminder to all Senators, Paul Kirk will be sworn in as the new Senator from the State of Massachusetts, replacing Senator Kennedy. That will be at 3:30 tomorrow afternoon.

### ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. REID. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate stand adjourned under the previous order.

There being no objection, the Senate, at 7:12 p.m., adjourned until Friday, September 25, 2009, at 9:30 a.m.

## NOMINATIONS

Executive nominations received by the Senate:

### DEPARTMENT OF STATE

FREDERICK D. BARTON, OF MAINE, TO BE AN ALTERNATE REPRESENTATIVE OF THE UNITED STATES OF AMERICA TO THE SESSIONS OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS, DURING HIS TENURE OF SERVICE AS REPRESENTATIVE OF THE UNITED STATES OF AMERICA ON THE ECONOMIC AND SOCIAL COUNCIL OF THE UNITED NATIONS.

BILL DELAHUNT, OF MASSACHUSETTS, TO BE A REPRESENTATIVE OF THE UNITED STATES OF AMERICA TO THE SIXTY-FOURTH SESSION OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS.

### SMALL BUSINESS ADMINISTRATION

PEGGY E. GUSTAFSON, OF ILLINOIS, TO BE INSPECTOR GENERAL, SMALL BUSINESS ADMINISTRATION.

## EXTENSIONS OF REMARKS

HONORING THE 50TH ANNIVERSARY OF HOFFMAN ESTATES, ILLINOIS

**HON. PETER J. ROSKAM**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. ROSKAM. Madam Speaker, I rise today to commemorate the 50th Anniversary of the incorporation of Hoffman Estates, Illinois, in the heart of my Congressional District.

The Village was founded by Sam and Jack Hoffman who purchased the land from a local farmer to establish a housing subdivision. The homeowners of the subdivision voted to incorporate the Village in 1959. From its early origins, Hoffman Estates has become a model for other cities and towns to follow through its continued dedication to building a strong and vibrant community to live, work in, and raise a family.

On the occasion of this 50th Anniversary, we join together to celebrate Hoffman Estate's legacy of growth and prosperity and to look ahead to the opportunities facing our state and our nation. Today both marks 50 years of working together to build a brighter future, and reminds us that our work continues.

Madam Speaker and Distinguished Colleagues, please join me in recognizing Hoffman Estates Mayor Bill McLeod, the Hoffman Estates Village Board of Trustees and the citizens of Hoffman Estates and in wishing them every happiness on this special occasion.

HONORING IRVING KRISTOL

**HON. MIKE PENCE**

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. PENCE. Madam Speaker, I rise today to commemorate the life of Irving Kristol, an extraordinary modern intellectual leader who sadly passed away recently.

Irving Kristol will be remembered as "perhaps the most consequential public intellectual of the latter half of the 20th century" as The Daily Telegraph recently memorialized him.

Born to Jewish immigrants in New York City in 1920, Irving grew up during the Great Depression, and his experience during those dark times undoubtedly shaped his worldview.

Kristol was a Trotskyist in his youth who embraced socialism long before he ever advocated for free markets and tax cuts; however, he broke from liberalism and will be remembered most for his conservative thoughts and writings that had a profound impact on generations of Americans.

He worked as the managing editor of Commentary magazine, executive vice president of Basic Books, and in the Mid-1960's, Kristol co-

founded The Public Interest, a domestic policy journal that cast wide influence among policymakers.

Kristol also served as a fellow of the American Academy of Arts and Sciences, senior fellow emeritus of the American Enterprise Institute, and a member of the board of contributors for the Wall Street Journal in addition to the many books he authored. To honor this distinguished career, President George W. Bush awarded him with the Presidential Medal of Freedom in 2002.

Irving Kristol was a thought leader and his forward-thinking ideas shaped policies and helped cement the Republican Party's position as the "party of ideas."

A soldier during World War II, Kristol once wrote that "my army experience permitted me to make an important political discovery . . . The idea of building socialism with the common man who actually existed—as distinct from his idealized version—was sheer fantasy, and therefore the prospects for 'democratic socialism' were nil."

These beliefs helped shape the policies of President Ronald Reagan's administration in defeating communism.

Our former colleague, Speaker Newt Gingrich recently said that it was Irving Kristol's insights that helped create the solutions-oriented Republicanism that led to the Contract with America.

Irving Kristol was a cheerful conservative, rejuvenating and shaping American politics, often with a smile.

The list of those who will mourn his loss is long and distinguished as he touched many lives, but I take comfort in knowing that both the Kristol name and legacy will live on.

I offer my most sincere condolences to his wife Gertrude, and children, Elizabeth and Bill.

SUPPORTING H.R. 2749, THE FOOD SAFETY ENHANCEMENT ACT

**HON. LYNN C. WOOLSEY**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Ms. WOOLSEY. Madam Speaker, I rise today to express my support for reforming our food safety system. As a tireless advocate for consumers' rights, I have continually supported protecting our Nation's food supply. Over the last several years, our country has experienced food-borne illnesses stemming from E. coli in bagged spinach and a salmonella outbreak in peanut products. As the number of outbreaks rise, it's essential that we dramatically improve our food safety laws.

H.R. 2749, the Food Safety Enhancement Act, will take important and necessary steps to remove tainted food products from our food supply and improve accountability for large processing facilities. I strongly support provi-

sions in this bill that grant the Food and Drug Administration, FDA, new authority to hold more frequent inspections of food processing facilities and the requirement that all food facilities register with the FDA annually. To better combat food-borne illnesses, H.R. 2749 will also enable the FDA to establish a food trace-back system that will help public health officials identify the origin and path of food products when an outbreak occurs. Additionally, ensuring that imported foods are safe and that there are strong, flexible enforcement tools will restore Americans' confidence in the foods they purchase.

However, despite these bold and necessary improvements, I continue to believe that we need to do more to respect the unique needs of small and organic farmers in this legislation. This is why I ultimately voted against H.R. 2749.

Currently, organic farmers are required to adhere to strict traceability standards through the USDA's National Organic Program. The absence of specific guidance requiring FDA to harmonize new traceability standards with the National Organic Program will create potentially duplicative regulations and standards for organic farmers. The FDA's authority grew this year after Congress passed H.R. 1256, legislation I voted for, which enables the FDA to regulate tobacco products. After passing H.R. 2749, the FDA will also have expanded food safety authority. Without specific requirements included in this legislation, the FDA will not have the incentive or manpower to go above and beyond what is mandated in the law. We cannot overlook the requirements our organic farmers already follow as the FDA issues its traceability standards.

Additionally, I worry that the growth of the organics market could be constrained by fee provisions in this bill. An increasing number of organic farmers sell to wholesalers as well as directly to consumers. This bill exempts farmers who sell their products directly to consumers from the annual fee, but not farmers who sell the majority of their products to wholesalers. By incentivizing organic producers to sell fewer than 51 percent of their products to wholesalers, we could be deterring organic farmers from branching out to new markets. This is not the time to be hindering the growth of organic farming by discouraging organic farmers from diversifying the markets where their products are sold.

This legislation also must take into account the relationship between the co-management of conservation and food safety. The use of animals for pest control is a crucial component of organic farming, and this bill would restrict farmers from maintaining their organic practices. Instead of regulating all animals, this legislation could investigate other alternatives, including focusing on animals that are at a high risk for passing on diseases, to take into account the needs of organic farmers. More should be done to encourage biodiversity and

natural farming techniques that farmers have used to reduce their dependence on pesticides and herbicides.

Madam Speaker, food safety legislation must protect the health of consumers and respect the needs of family farms and sustainable producers. It is my hope that we can strengthen the provisions in H.R. 2749 affecting the unique needs of small and organic farmers when this bill is taken up in conference. I am encouraged by the work done to enhance the safety of our Nation's food supply, and look forward to continuing to improve this important legislation and our food delivery system.

**A PROCLAMATION HONORING  
KASEY GERBER FOR WINNING  
THE GIRLS' DIVISION IV STATE  
SOFTBALL CHAMPIONSHIP**

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. SPACE. Madam Speaker,

Whereas, Kasey Gerber showed hard work and dedication to the sport of softball; and

Whereas, Kasey Gerber was a supportive team player; and

Whereas, Kasey Gerber always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with her friends, family, and the residents of the 18th Congressional District, I congratulate Kasey Gerber on winning the Girls' Division IV State Softball Championship. We recognize the tremendous hard work and sportsmanship she has demonstrated during the 2008–2009 softball season.

**HONORING THE LIFE AND ACCOMPLISHMENTS OF JUDGE ALDEN  
EDWARD DANNER UPON HIS RETIREMENT**

**HON. ZOE LOFGREN**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Ms. ZOE LOFGREN of California. Madam Speaker, I rise today to honor the life and accomplishments of a distinguished member of my community, the Honorable Alden Edward Danner, upon his retirement after more than 20 years of public service to the State of California and the people of Santa Clara County.

Throughout his career, Judge Danner has demonstrated public service values, adhering to the highest ethical standards, respecting the dignity and integrity of all people, and sought solutions while fostering open communication and mutual support for court clients, staff, members of the judicial branch, and justice system partners.

Judge Danner applied his expertise in the law and his commitment to the administration of justice and the independent, consistent, and impartial interpretation of the law through his participation as a member of the Judicial

Council of California's Task Force on Probate and Mental Health, 1997–1998; Court Technology Advisory Committee, 1999–2005; Trial Court Presiding Judges Advisory Committee, 2003–2004, and its Executive Committee, 2005–2006; and the Task Force on Judicial Campaign Finance, 2009; and as faculty for the Center for Judicial Education and Research's Probate and Mental Health Institute, 1997–1998; and Computer Training for Judges, 1993–1998.

The California judicial branch is fortunate to have benefited from Judge Danner's distinguished service as a jurist since his appointment to the Superior Court by Governor George Deukmejian in 1989 and his subsequent election by citizens of Santa Clara County.

Prior to his appointment to the bench, Judge Danner served our justice system with distinction, contributing to the resolution of legal issues for the people of Santa Clara County as an associate and partner in private law practice from 1966–1989. Judge Danner earned a Juris Doctorate from Stanford Law School in 1965, after service in the U.S. Army from 1958–1962.

It is with great pleasure that I join in celebrating Judge Danner's life and many accomplishments. I thank him for his contributions to our region in California and to our Nation. On behalf of our community, I congratulate Judge Danner and wish him and his family well in his retirement and his future plans.

**TRIBUTE TO THE FAIRFIELD  
INTERFAITH FOOD PANTRY**

**HON. MICHAEL H. MICHAUD**

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. MICHAUD. Madam Speaker, I rise today to recognize a vital program to the Greater Fairfield area, the Fairfield Interfaith Food Pantry at the Immaculate Heart of Mary Church. The Food Pantry has assisted innumerable members of this community, and I would like to take the opportunity of their celebration of sixteen years of service to congratulate them on their lasting impact.

At the celebration on October 3, 2009, the Fairfield Community will recognize and honor Nancy Marcoux, the Interfaith Food Pantry Director, and Richard "Dick" Tompkins, the Co-Director since the beginning. The work that Nancy and Richard have done is truly amazing. The volunteer staff and the clients appreciate and respect both of these hardworking individuals. They are known to everyone in the Greater Fairfield area, and when someone is in need of assistance, they do not hesitate to call Nancy or Dick and know that their doors will open.

The Fairfield Interfaith Food Pantry works with the Maine Department of Agriculture, Food and Rural Resources which oversees The Emergency Food Assistance Program, a federal initiative that provides commodities to about 260 voluntary feeding programs in Maine. The Fairfield Interfaith Food pantry also receives assistance from the Kennebec County Sheriff's Department, says community

services officer John Matthews. Under the Sheriff's Department program, incarcerated inmates harvest potatoes and mixed vegetables on 8 acres of fields in Augusta and Benton. The program was started by Sheriff Randy Liberty and yields fresh produce for the Fairfield Interfaith Food Pantry and other food banks in Maine.

Today is an opportunity to thank Nancy Marcoux and Dick Tompkins for their dedication to this program. In Nancy's words, "you got to do what you got to do to exist."

**PERSONAL EXPLANATION**

**HON. J. GRESHAM BARRETT**

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. BARRETT of South Carolina. Madam Speaker, unfortunately, I missed recorded votes on the House floor on Tuesday, September 22, 2009.

Had I been present, I would have voted "Aye" on rollcall vote No. 720, on motion to suspend the rules and agree to H. Res. 441; "Aye" on rollcall vote No. 721, on motion to suspend the rules and agree to H.R. 2971; "No" on rollcall vote No. 722, on motion to suspend the rules and agree to H.R. 3548.

**PERSONAL EXPLANATION**

**HON. NEIL ABERCROMBIE**

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. ABERCROMBIE. Madam Speaker, I regret that I missed rollcall vote Nos. 710–719 and rollcall vote 730. Had I been present, I would have voted "aye" on rollcall votes 713–716, 718, and 719. I would have voted "nay" on rollcall votes 710–712, 717, and 730.

**REMEMBERING LENETTE  
FREEMAN**

**HON. MIKE PENCE**

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. PENCE. Madam Speaker, I rise today to mourn the loss of a dear friend to the community of Muncie, Indiana.

Lenette Freeman, known to all as a giving and determined woman, passed away following a five year battle with cancer. Though the pain of her passing is deeply felt, we will continue to be inspired by the life she led.

Lenette Freeman was born on October 29, 1958, in Evanston, Illinois to Leonard and Dolores Hartowicz. A graduate of Taft High School in Chicago, Lenette went on to receive her bachelor's degree and a teaching certificate from Northern Illinois University.

In 1987, Lenette moved to Muncie, where she would become an active leader and vital asset in this eastern Indiana Community. She was a member of the Lutheran Church of the

Cross, the Rotary Club, the Muncie Endurathon, and co-founder of the youth Academy for Community Leadership. For 4 years, Lenette served as the executive director of the Muncie Children's Museum, a children's educational learning facility in the community.

When the City of Muncie authorized the creation of a Mayor's Youth Council in 2002, Lenette volunteered countless hours as a mentor to the young students on the founding Council and remained active in the years to follow. Her impact on the members of the Mayor's Youth Council, as well as the effect the Council had in the community, will be felt far into the future.

In 2004, Lenette was named director of the Cardinal Greenway. The Cardinal Greenway is a series of recreational trails spanning 27 miles throughout my district. Lenette was keenly aware of the benefits of these trails and advocated for its continued development. Her passion and dedication to the preservation and extension of the trails will forever be remembered by a grateful community.

Just one month after becoming Director of the Cardinal Greenway, Lenette was diagnosed with cancer. Rather than succumbing to feelings of self-pity and defeat, Lenette said her diagnosis was a "blessing in disguise" that resulted in a greater appreciation of people and deeper relationships with them. Despite her illness, Lenette was a determined fighter and continued her work with the Greenway, holding meetings in her home and working via teleconference when necessary.

Lenette's determination was evident not only in her work, but in her personal life. She was the proud mother of three boys, and she encouraged each of them to pursue their own individual talents and goals. Fondly referred to as her "cowboys," her boys were undoubtedly a major source of strength and inspiration in Lenette's fight against cancer.

Lenette will be sorely missed by her sons, her mother and three siblings, those fortunate enough to know her, as well as the entire Muncie Community.

We have lost an important figure in the Muncie community, but I know that Lenette's legacy will not soon be forgotten. Let us keep Lenette's three boys, family, and cherished friends in our prayers during this difficult time.

#### TOWN OF INDIAN SHORES, FLORIDA CELEBRATES ITS 60TH ANNIVERSARY

#### HON. C. W. BILL YOUNG

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. YOUNG of Florida. Madam Speaker, the Town of Indian Shores, Florida, which I not only have the privilege to represent but also call my home, this week celebrates the 60th anniversary of the signing of its town charter.

Although I was not able to be there today as the House is in session, my friends and neighbors gathered at The Pub Restaurant to celebrate their 60 years of progress, development and success.

Indian Shores, first known as Indian Rocks Beach South Shore, is a small but beautiful is-

land on the Gulf Coast of Florida. Its sandy white beaches and crystal clear water made it a favorite summer retreat dating back to the late 1800s. It was on September 16, 1949 that 42 registered voters and freeholders met at the Beach Park Restaurant, where The Pub is now located, to incorporate the Town of Indian Rocks Beach South Shore.

At that meeting, the residents of the newly established town elected their first town leaders: Edward Fitch Taylor as Mayor, Bernice Pitt as Town Clerk, Emory Boyd as Town Marshall, and as Aldermen: Mrs. E. Boyd, Harry Gooding, Russel West, H. Tinman, James Roesler, Hubert Tipton, Estelle Harper, Pearl Cook, and Arthur Goble.

The town held a special referendum in July 1973 and voted to rename itself the Town of Indian Shores, as it is known today.

From the early leadership that established this beautiful beach haven, new leadership has led Indian Shores into this new century and into a thriving community. Mayor Jim Lawrence, Vice Mayor Joan Herndon, Councilor Steve Sutch, Councilor Bill Smith, and Councilor Carole Irelan are the town's elected leaders. They oversee a staff headed by Town Administrator Chief E. D. Williams, Town Clerk Marcia Grantham, Deputy Clerk Elaine Jackson, Building Official Larry Nayman, Administrative Assistant Joyce Ciccarello, Director of Finance Mary Karayianes, Public Service Supervisor Jim Jeeter, and Assistant to the Town Manager Bonnie Dhonau.

They govern a town of 1,800 permanent residents and 2,600 homes that swells to a town of 6,000 during the peak winter months. Although only 2.6 miles long, this town remains one of Florida's most beautiful beach communities. From its early history when legend has it that an elderly Indian Chief was brought to its shores to be healed by its special water, to its time as an Indian campsite, Indian Shores has grown and prospered yet retained its small town charm.

Madam Speaker, the Town's motto says it all—"Indian Shores—A Great Place to Live." I am proud to call Indian Shores my home and I join in celebrating its rich history and its bright and sunny future along Florida's most beautiful beaches.

#### NATIONAL DAY OF REMEMBRANCE FOR HOMICIDE VICTIMS

#### HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. POE of Texas. Madam Speaker, September 25th is the National Day of Remembrance for Homicide Victims. On this day, it is important for all of us to reflect on the terrible toll that violence takes on our communities, and for us to reflect on ways to reduce this violence. One type of homicide that is particularly disturbing is when the perpetrator is a partner of the victim. According to the Centers for Disease Control, on average, three women a day are murdered by their current or former husbands. That is three women a day who are killed by the very same man who took an oath to honor and protect them.

This number should be disturbing to all of us. We are not doing enough to keep women safe in their own homes, the very place where we should all find safety and comfort. Too many American women are finding danger, violence, and even death in their own homes.

One-third—yes, that's right—one-third, of all murdered females are killed by somebody they were in a relationship with. That is a staggering statistic. These women are not being killed by a stranger in a dark alley, they are being killed by people they trust, often in their own homes.

To bring attention to this issue, Congresswoman Edwards and I have introduced H. Res. 757, to support the goals and ideals of the National Day of Remembrance for Homicide Victims. It is my hope that this resolution can help raise awareness about this epidemic of violence, and encourage all of us to realize just how prevalent this is in our communities. The time has come for us all to work together to end this violence.

#### HONORING THE VOLUNTEER WORK OF EMMA VALENTEEN

#### HON. JIM GERLACH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. GERLACH. Madam Speaker, I rise today to honor a Phoenixville, Pennsylvania woman who has dedicated her life to making a difference in her community and lending a helping hand to neighbors in need.

Emma Valenteen moved to Phoenixville as a teenager in 1948 and has called the Borough home ever since. Her tremendous work ethic allowed her to juggle the demands of raising five children while working for 44 years at Container Corp. of America. Somehow, Emma still found plenty of energy to work even harder in her community. After losing her youngest daughter, Marianne, to leukemia, Emma joined the Valley Forge Chapter of the support group Compassionate Friends. By 1991, she started a Phoenixville chapter and has spent 18 years as chairwoman of the group.

For more than a quarter century, Emma has been the Recording Secretary of the Social Concerns Committee of the Phoenixville Interfaith Council. Her commitment to the community and dedicated volunteerism earned Emma numerous awards through the years. However, it has been the organizations and the entire community who have been the true winners thanks to Emma's extraordinary efforts.

Friends, family and community members will express their gratitude for Emma's service and recognize all of her accomplishments during a dinner on September 30, 2009 at Robert Ryan's Columbia Station.

Madam Speaker, I ask that my colleagues join me today in honoring Emma Valenteen for her selfless service and tireless work to make Phoenixville a great place to live, work and raise a family.

RECOGNIZING ACCOMPLISHMENTS  
OF MR. PEDRO DEVORA

**HON. HENRY CUELLAR**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. CUELLAR. Madam Speaker, I rise today to recognize the accomplishments of Mr. Pedro Devora, whose barbershop business recently celebrated 50 years of operations in downtown Floresville, Texas.

Pedro Devora was born on May 22, 1926 and raised in Tordio, Texas where he attended school until the third grade. Mr. Devora worked in the area until he joined the U.S. Navy on October 1, 1944 to serve his country. While in the Navy, he served during the invasion of Okinawa that began on April 1, 1945. During that mission, his ship was hit in battle. Mr. Devora would survive a night in the water until he was rescued the following morning. During his time in the Navy, his hard work ethic gained him several promotions from his superiors. In fact, in less than a week he went from working in the laundry section to becoming an assistant supervisor, and later supervisor. In 1946, Mr. Devora returned to the United States and received an honorable discharge.

Following his time in the Navy, he returned home to Tordio and within a year he decided to attend Barber School. While in attendance, Mr. Devora married his sweetheart, Maria Flores on November 3, 1947. In 1948, Mr. Devora received his Barber's License and began work in Floresville, Texas.

Since returning from the Navy, he has been active in several political races, such as those of Lyndon Baines Johnson, Harry Truman, Gus Garcia, Carlos Cadena, Judge Mike Machado, Congressman Chick Kazen, Albert Pena, Judge Esquivel, Pete Tijerina, and almost every Democratic President since 1946.

On August 12th, 1959, he opened a barbershop with his longtime friend Raymond Lucio. Mr. Devora and Mr. Lucio spent over 49 years as coworkers until Mr. Lucio's passing. The business remains in operation to this day and remains a pillar of the Floresville community.

Madam Speaker, I am honored to have had the time to recognize the many accomplishments and service of Mr. Pedro Devora, and I thank you for this time.

2009 SECRETARY OF DEFENSE EMPLOYER SUPPORT FREEDOM  
AWARD

**HON. LORETTA SANCHEZ**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Ms. LORETTA SANCHEZ of California. Madam Speaker, I rise today to congratulate my local police department, the Santa Ana Police Department, on receiving the 2009 Secretary of Defense Employer Support Freedom Award.

Each year, the United States gives this distinguished award to large businesses, small businesses, and public service employers who

provide outstanding support to employees who serve in the National Guard and Reserve.

Last week, Chief Paul Walters of the Santa Ana Police Department had the pleasure of being congratulated by President Obama and Secretary Gates at the White House after a reception and ceremony hosted by Dr. Jill Biden.

The Orange County community is incredibly proud of the Santa Ana Police Department. They have worked hard to create a positive work environment for our National Guard and Reserve members, and we are so grateful that they protect us each and every day.

I want to personally thank the Chief and the police department for their efforts and congratulate them once again for receiving the 2009 Freedom Award.

PERSONAL EXPLANATION

**HON. TAMMY BALDWIN**

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Ms. BALDWIN. Madam Speaker, I regret that I missed four votes under suspension of the Rules on September 9, 2009.

Had I been present, I would have voted in support of the following four bills: H. Res. 447, H.R. 2097, H.R. 2498, and H. Res. 722.

IN RECOGNITION OF MELVIN J.  
LARSON'S 54 YEARS OF SERVICE  
TO UNITED CEREBRAL PALSY OF  
WILL COUNTY

**HON. DEBORAH L. HALVORSON**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mrs. HALVORSON. Madam Speaker, I rise today to recognize Melvin J. Larson for his fifty-four years of service as a board member and founder of United Cerebral Palsy of Will County, now known as United Cerebral Palsy of Illinois Prairieland.

Melvin Larson's life has been one of service to others. He has said, "To make life a little easier for someone, I hope I can make some contribution to that end." That is exactly what he did. He moved to Joliet, Illinois in 1954 where he became the head of Joliet Junior College's (JJC) Department of Physical Science. Upon retirement in 1975 from a successful career at JJC, he began a quest to help others.

Melvin Larson formed the first Will County chapter of the United Cerebral Palsy organization, with a vision to provide an education to children with disabilities. The organization began with just six families, but quickly grew to 35. It was not long before they outgrew their single room in the former Rehn School and began utilizing an entire grade school building. Thousands of children have benefited from the school throughout the years, and today more than 60 children are currently enrolled.

The dedication, service, and commitment exhibited by Melvin Larson throughout his life

merit recognition and should be showcased as an example for selflessness unto others. That is why today we must honor Mel's vision to provide an education to children with disabilities.

HONORING THE NEW HAVEN  
ALUMNAE CHAPTER OF DELTA  
SIGMA THETA SORORITY ON  
THEIR 50TH ANNIVERSARY

**HON. ROSA L. DeLAURO**

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Ms. DELAURO. Madam Speaker, I am pleased to rise today to extend my sincere congratulations to the New Haven Alumnae Chapter of Delta Sigma Theta Sorority as they celebrate their 50th Anniversary. The Delta Sigma Theta Sorority is a non-profit organization dedicated to enriching our community through community service.

In its fifty year history, the New Haven Alumnae Chapter has focused its attention on the changing and diverse needs of our community. Their mission has been to actively engage the community—particularly young people—in public service. Their goals are rooted in the understanding that our communities thrive when every member contribute to its success. Since its inception, this outstanding organization has awarded over \$250,000 in college scholarships; has developed and implemented multiple programs benefiting our youth including Delta Academy and the GEMS mentoring program; Project S.E.E. (Science and Everyday Experiences) workshops; as well as their signature "18 and Registered" voter registration campaign. With each of the programs offered, the New Haven Alumnae Chapter is opening the doors of opportunity to our community's young people.

The membership of the New Haven Alumnae Chapter includes some of our community's most prominent community advocates—many of whom dedicate both their professional and personal lives to public service. These women stand as role models for every member of our community, but particularly for our young people. They inspire us with their deep commitment to community and compassion for others. Our communities would not be the same without organizations such as the New Haven Alumnae Chapter of Delta Sigma Theta Sorority. Their efforts make it a better place to live, learn, and grow.

It is with great pleasure that I stand today to recognize the invaluable contributions the New Haven Alumnae Chapter of Delta Sigma Theta Sorority have made to our community and to extend my heartfelt congratulations on their 50th Anniversary. They have made a real difference in our community and I wish them all the best for many more years of success.

## PERSONAL EXPLANATION

**HON. SOLOMON P. ORTIZ**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. ORTIZ. Madam Speaker, on September 23, 2009, I was absent for rollcall vote 730 because of important committee business. If I had been present, I would have voted "nay."

IN RECOGNITION OF CHIEF  
BEARD'S 30 YEARS OF BRAVE  
AND SELFLESS SERVICE TO THE  
COMMUNITIES OF KANKAKEE  
AND BOURBONNAIS

**HON. DEBORAH L. HALVORSON**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mrs. HALVORSON. Madam Speaker, this month marks Chief Joe Beard's 30 years of brave and selfless service to citizens of Kankakee and Bourbonnais, Illinois. Today, I join these communities in thanking Joe for his dedication and outstanding commitment.

Joe did not grow up dreaming about being a police officer. But in the midst of studying to become a history teacher, Joe felt the calling to enter law enforcement. After receiving a law enforcement administration degree from Western Illinois University, he was hired by the Kankakee County Sheriff's Department, where he served for several years before briefly pursuing a real estate career. But soon Joe was back fighting to protect Illinoisans. And in 1979, at the age of 27, Joe was named Police Chief of Bourbonnais, Illinois.

Whether it was responding to a massive train wreck on a spring night ten years ago that left eleven dead, 122 injured, and a pile-up of twisted steel and train cars in its wake across the Illinois prairie, or responding to a routine traffic stop, Chief Beard has exhibited tremendous courage and selflessness. During Joe's tenure as Chief, the police department has doubled, expanding personnel to answer new challenges and better serve citizens. Chief Beard, along with the Kankakee Area Metropolitan Enforcement Group (KAMEG), has been a leader in fighting drug crime.

Those like Chief Joe Beard keep our communities safe and provide families piece of mind to enjoy their lives. We all owe a profound debt to Joe Beard. On behalf of the entire 11th Congressional District, I thank Joe as he continues to serve the people of Bourbonnais.

IN RECOGNITION OF AMBASSADOR  
IRINA BOKOVA OF BULGARIA

**HON. JOE WILSON**

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. WILSON of South Carolina. Madam Speaker, on Tuesday, September 22, 2009, Irina Bokova, Bulgaria's Ambassador to

France, was elected the director general of the United Nations Educational, Scientific and Cultural Organization (UNESCO). As the first female director of UNESCO, Ambassador Bokova brings her diplomatic and cultural knowledge as a former foreign minister of Bulgaria and her work in helping to bring Bulgaria into the European Union and the North American Treaty Organization (NATO).

As co-chair of the Congressional Bulgaria Caucus, I want to congratulate the people of Bulgaria and Ambassador Bokova for her success. Having visited Bulgaria first as an International Republican Institute election observer in June 1990 and since, I have seen firsthand this young democracy emerge from the oppression of Communism to being one of the most dynamic democracies of Europe. On my multiple visits over the years to Bulgaria, I have always been inspired by the extraordinary people who have overcome totalitarianism for liberty and freedom. Bulgaria is a cherished partner of America, and we want the best for this nation of historic treasures.

## HONORING CHESTER HUGHES, JR.

**HON. DALE E. KILDEE**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. KILDEE. Madam Speaker, I rise today to pay tribute to the Illustrious Potentate of the Oman Temple No. 72, Chester Hughes, Jr. Chester will be feted at the 53rd Annual Potentate Ball to be held in my hometown of Flint, Michigan, on Saturday, October 3rd.

Chester Hughes received his B.S. degree from Jackson State University and his M.S. degree from Eastern Michigan University. He has taught at schools in Mississippi and Michigan, retiring from Beecher Community Schools in 2003 with 37 years of service. He served as the Regional Director of Amicus II during 2006-2007 and works part time at Lawrence E. Moon Funeral Home. He is also the CEO of the Hughes Educational Leadership Institute and a PrePaid Legal Insurance Associate/Distributor.

Chester is affiliated with many community organizations and has received numerous awards from the Kappa Alpha Psi Fraternity, the Central Optimist Club, the Flint Inner City Lions Club, the Flint Pan-Hellenic Club, the Urban League of Flint, and the Beecher School System. He has held several positions with the Oman Temple No. 72 and the Masonic Order. The 33 degree was conferred on him on May 26, 2008. Chester and his wife Myra have 2 children, DeWana Denise Hughes-McCarty and Chelonde Nichelle Hughes.

Madam Speaker, I ask the House of Representatives to applaud the life and work of Chester Hughes, Jr. I congratulate him on his elevation to Illustrious Potentate and may he continue to serve the community for many, many years to come.

IN RECOGNITION OF THE HEROIC  
ACTIONS OF RICK DANIELS FOR  
HIS EFFORTS TO SAVE THE LIFE  
OF SAVANNA ZIRBEL

**HON. DEBORAH L. HALVORSON**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mrs. HALVORSON. Madam Speaker, Rick Daniels of Kankakee, Illinois would tell you he is not a hero, but on Friday, July 3, 2009, he did something heroic.

Rick Daniels conducts himself not unlike the many great citizens of Illinois' 11th Congressional District. He is a normal guy. On July 3rd, he saw a neighbor in trouble. Although he is not a trained paramedic, he saw that 20-month old Savanna Zirbel was seriously injured from a mowing accident and sprang to action. Rick Daniels administered lifesaving first aid until paramedics arrived.

Some in this situation may have been scared to help, but Rick did not hesitate to assist. He focused on what might have happened if he had chosen to simply be an observer. The consequences were life and death. Savanna Zirbel is alive because of Rick Daniel rose to the occasion.

America's history has been one of ordinary individuals doing extraordinary things. Rick Daniels reminds us that we are capable of doing heroic things. On behalf of the entire 11th Congressional District, we thank Rick Daniels for his amazing efforts.

IN RECOGNITION OF THE 50TH AN-  
NIVERSARY OF THE APARTMENT  
ASSOCIATION OF GREATER DAL-  
LAS

**HON. PETE SESSIONS**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. SESSIONS. Madam Speaker, I rise today to recognize the 50th Anniversary of the Apartment Association of Greater Dallas (AAGD).

Founded in 1959 by a small group of dedicated professionals, the Apartment Owners Association of Dallas sought to establish a communication forum to share information and foster professionalism for the growing multi-family industry. Since then the organization has grown to over 1,000 members, representing members across 11 counties in North Texas and over 35 municipalities. Members of AAGD are wholeheartedly committed to providing quality and affordable housing for all apartment residents. They are also responsible for managing over 1,890 properties representing 435,000 rental units, which consists of more than 90 percent of the apartments and rental homes in the Dallas area.

As the nation's largest member based local apartment association, they are specifically devoted to the advancement of its members within the apartment industry ranging from legislative representation to education and certification programs to community service projects as well as a wide range of communication

tools. Also functioning as a trade association, AAGD is dedicated to upholding and promoting the highest professional standards in the apartment industry.

Madam Speaker, I ask my esteemed colleagues to join me in celebrating AAGD's 50th anniversary. Congratulations to AAGD on fifty years of dedicated service to the multifamily industry! I know their hard work and commitment to quality and affording living has benefited the many residents of apartment homes managed by AAGD members.

**HONORING THE LIFE AND SERVICE  
OF SERGEANT TIMOTHY SMITH  
OF SOUTH LAKE TAHOE, CA**

**HON. TOM MCCLINTOCK**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. MCCLINTOCK. Madam Speaker, I rise today to honor Timothy Smith of South Lake Tahoe, CA, who was killed in the line of duty on April 7, 2007. Tim is survived by his wife Shayna Richard-Smith, their son Riley, his parents, Patricia and Michael, his brother Tom, and his sister Jackie.

Tim graduated from South Tahoe High School in 2001 and joined the Army in April 2004. He will always be remembered for his sense of humor, his warmth, and his great courage. Senator HARRY REID, on the floor of the United States Senate, called Tim Smith "a hero—a real-life American hero—who gave his life so that others might be safe."

Timothy Smith gave the ultimate sacrifice, may we never forget.

**A PROCLAMATION HONORING ERIN  
METZGER FOR WINNING THE  
GIRLS' DIVISION IV STATE SOFT-  
BALL CHAMPIONSHIP**

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. SPACE. Madam Speaker, Whereas, Erin Metzger showed hard work and dedication to the sport of softball; and Whereas, Erin Metzger was a supportive team player; and

Whereas, Erin Metzger always displayed sportsmanship on and off the field; now, therefore, be it

Resolved, that along with her friends, family, and the residents of the 18th Congressional District, I congratulate Erin Metzger on winning the Girls' Division IV State Softball Championship. We recognize the tremendous hard work and sportsmanship she has demonstrated during the 2008–2009 softball season.

**HONORING GENE TUNNEY**

**HON. LYNN C. WOOLSEY**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Ms. WOOLSEY. Madam Speaker, I rise today along with my colleague Representative

MIKE THOMPSON, to honor the life of Gene Tunney, who served as Sonoma County District Attorney for 20 years. Mr. Tunney passed away August 9, 2009, with his family at his side.

Born in New York City in 1931, Mr. Tunney was the son of the famous heavyweight boxing champion James Joseph "Gene" Tunney and brother of California Congressman and Senator John Tunney. After a stint in the Army, he moved to the Bay Area where he enrolled in law school in San Francisco. In 1971, he began his first job in Sonoma County as a Deputy Public Defender. A few years later he ran for District Attorney, narrowly winning the race. He served in that office for five more terms, from 1974 to 1994.

Mr. Tunney is credited with modernizing and professionalizing the District Attorney's office, guiding its transition in an era of increasingly urban types of crime. He placed restrictions on plea bargains and reviewed all felony cases while becoming an advocate for victims of crime. He was highly regarded for his sense of justice and for bringing changes to offices around the state after co-founding the California District Attorney's Association.

Married 49 years ago, Mr. Tunney enjoyed spending time with his wife Ann and their family. After retirement, the couple lived for a decade in Hawaii where they pursued their mutual hobby, flying small planes, as well as traveling, swimming, and reading. They later moved to Tiburon in Marin County, California.

Mr. Tunney is survived by his children Alexandra Kelly, Megan Tunney, Erin MacLeon, and Gene Tunney as well as seven grandchildren and brothers John and Jay.

Madam Speaker, we are proud to honor Gene Tunney's contributions to our community and know that, with many of his Deputy District Attorneys serving on the bench, his legacy of high standards and fairness to victims will continue in Sonoma County.

**HONORING THE LIFE AND SERVICE  
OF LANCE CORPORAL BRAD  
SHUDER OF EL DORADO HILLS,  
CA**

**HON. TOM MCCLINTOCK**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. MCCLINTOCK. Madam Speaker, I rise to honor the life and service of Lance Corporal Brad Shuder of El Dorado Hills, CA, who was killed in action on April 12, 2004 while serving his country in Iraq. Lance Corporal Shuder graduated from Oakridge High School in El Dorado Hills. The day he graduated, Brad enlisted in the Marine Corps. He is survived by his parents, Glenn and Rose, and his younger sister, Chelsey.

I cannot begin to comprehend the tragedy of losing such a loving and courageous young man and I cannot soothe that pain with my words. All I can do is say thank you for Brad's sacrifice. Brad's cousin, Reverend Michael Bugarin, officiated the funeral service and delivered the following words: "Brad did something extraordinary. He was willing to sacrifice his life for me and you." May we never forget

the sacrifices that the sons and daughters of our great country have made.

**A PROCLAMATION HONORING  
BROOKE SEAL FOR WINNING THE  
GIRLS' DIVISION IV STATE SOFT-  
BALL CHAMPIONSHIP**

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. SPACE. Madam Speaker, Whereas, Brooke Seal showed hard work and dedication to the sport of softball; and

Whereas, Brooke Seal was a supportive team player; and

Whereas, Brooke Seal always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with her friends, family, and the residents of the 18th Congressional District, I congratulate Brooke Seal on winning the Girls' Division IV State Softball Championship. We recognize the tremendous hard work and sportsmanship she has demonstrated during the 2008–2009 softball season.

**HONORING KCRB'S 25TH  
ANNIVERSARY**

**HON. MIKE THOMPSON**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. THOMPSON of California. Madam Speaker, I rise with my colleague Representative LYNN WOOLSEY, to honor a local public broadcaster, KRCB in Sonoma County, California. KRCB is celebrating 25 years of service to our local communities.

Nancy Dobbs, President and CEO, has been the guiding force behind KRCB from the beginning. She notes that it is a rare opportunity to build such a public institution. "When we started in January, 1981," she says, "we had to argue for the license before the FCC, find land on which to build our offices and studios, raise money for a station that did not yet exist, and convince the community about the importance of our own public broadcasting service."

Fortunately for all of us, the effort was successful. Today, we cannot imagine what Sonoma County would be like without KRCB, which provides PBS television, NPR radio, and local programming. It is the only PBS service available to more than a quarter of a million residents.

Working with nonprofits, businesses, and government agencies, KRCB has led community dialogues on health care, the environment, and disability awareness, to name just a few. The station has been awarded three Emmys for its national environmental series "Natural Heroes", has been honored by the California Teachers' Association for its North Bay Report, and has received honors for local election coverage, provided consistently for the past 17 years. KRCB also provides air time to celebrate local cultural events, such as

the full season of the acclaimed Santa Rosa Symphony, which would otherwise be unavailable.

According to Dobbs, "It was clear from the beginning that KRCB's mission was to utilize the public airwaves of which we are stewards to strengthen the communities we serve. Public broadcasting is a critically important tool with which to stimulate community dialogue and engagement, central elements of a healthy democracy."

Madam Speaker, we congratulate KRCB Television and Radio on its 25 years of service. It is indeed a treasure of Northern California.

CONGRATULATING CARMEN  
AMBROSINO, RECIPIENT OF THE  
2009 LIFETIME ACHIEVEMENT  
AWARD FROM THE ITALIAN  
AMERICAN ASSOCIATION OF  
LUZERNE COUNTY

**HON. PAUL E. KANJORSKI**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. Kanjorski. Madam Speaker, I rise today to ask you and my esteemed colleagues in the House of Representatives to pay tribute to Mr. Carmen Ambrosino, Chief Executive Officer of the Wyoming Valley Alcohol and Drug Services, Inc., who has been selected by the Italian American Association of Luzerne County to receive its prestigious 2009 "Lifetime Achievement Award."

A 1966 graduate of Exeter High School, Mr. Ambrosino received his bachelor's degree in English from King's College in 1970. He obtained a master's degree in Health Administration from Wilkes University in 1986. He is currently a Certified Addictions Counselor of Diplomate (CAC) and Certified Prevention Specialist (CPS) in the Commonwealth of Pennsylvania. He was a member of the Pennsylvania National Guard from 1970 to 1976. He has been employed by the Wyoming Valley Alcohol and Drug Services, Inc., since June, 1973 and became Chief Executive Officer in 1974.

During Mr. Ambrosino's career, he has had many accomplishments. Through his marketing, publishing and consulting firm, Rainbow Educational Productions, he has authored six nationally circulated publications for young people. He also produced a motivational video entitled, "Unleash Your Human Dynamo."

In education, Mr. Ambrosino developed the "Student Assisting Students," program at King's College in Wilkes-Barre, Pennsylvania, which is designed to establish peer intervention and referral to assist impaired college level students. He also developed a course on chemical dependency for Misericordia University in Dallas, Pennsylvania which was adopted by national colleges and universities as a chemical dependency model program to be used in sociology departments.

Mr. Ambrosino also developed a "Drug free Community Festival" in Wilkes-Barre that attracted 100,000 people annually for a celebration of drug-free living. He has also served as an international consultant for the Dominican

Republic and he visited South Africa as a "People to People" delegate representing the United States on an educational mission regarding drug and alcohol issues. He is a charter member of the National Association of Prevention Professionals and Advocates.

Mr. Ambrosino has also received numerous civic and community awards and recognitions. He was selected as the Outstanding Young Pennsylvanian in 1979 by the statewide Jaycees for his contributions to the community. He was inducted into the Chapel of the Four Chaplains, Philadelphia, for contributions to community. He received the Ronald J. Russo Community Service Award for distinguished service in public service in Luzerne and Wyoming Counties; the Commitment to Youth Award from the Wilkes-Barre Catholic Youth Center; special awards from Wilkes University, Penn State Wilkes-Barre Campus and the Paul Harris Fellowship Award from the Wilkes-Barre Rotary.

A son of Rose Ambrosino and the late Carmen Ambrosino, he is married to the former Bernice Szumski. The couple has one son, Carmen Jr. and two grandsons.

Madam Speaker, please join me in congratulating Mr. Ambrosino on this auspicious occasion. Mr. Ambrosino's work in the field of substance abuse has rescued countless people from the ravages of addiction and has illuminated the path to sobriety for countless others as well. And, for that, he has earned the respect and admiration of a grateful community.

A PROCLAMATION HONORING  
EMMY HENSEL FOR WINNING  
THE GIRLS' DIVISION IV STATE  
SOFTBALL CHAMPIONSHIP

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. SPACE. Madam Speaker,

Whereas, Emmy Hensel showed hard work and dedication to the sport of softball; and

Whereas, Emmy Hensel was a supportive team player; and

Whereas, Emmy Hensel always displayed sportsmanship on and off of the field; now, therefore, be it

*Resolved*, That along with her friends, family, and the residents of the 18th Congressional District, I congratulate Emmy Hensel on winning the Girls' Division IV State Softball Championship. We recognize the tremendous hard work and sportsmanship she has demonstrated during the 2008–2009 softball season.

INTRODUCING A RESOLUTION EXPRESSING APPRECIATION TO PORTUGAL FOR ACCEPTING TWO DETAINEES RELEASED FROM GUANTANAMO BAY, CUBA

**HON. ALCEE L. HASTINGS**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. HASTINGS of Florida. Madam Speaker, I rise to introduce a resolution expressing appreciation to the nation of Portugal for accepting two detainees from Guantanamo Bay, Cuba. These two Syrian men had been cleared by the federal government for release but were unable to be sent to their home country, in compliance with international human rights law.

The United States has been working with other countries to effect a safe and efficient process for resettling detainees cleared of wrongdoing and scheduled for release. This is a complicated and difficult process but has resulted in approximately 15 resettled detainees since President Obama took office. Two of those went to Portugal. Dozens more have been cleared for release but have not yet been transferred to a third-party nation.

In December 2008, Portuguese Foreign Minister Luis Amado announced in a public letter to European officials that Portugal was ready to assist the United States in resettling released detainees. In doing so, Portugal became the first nation to publicly state its willingness to take Guantanamo detainees who were not its own nationals. In August 2009, Portugal accepted the two Syrian released detainees and provided homes for them to live freely.

Madam Speaker, I appreciate Portugal—our friend and ally—assisting us in the effort to resolve the complex problem of resettling detainees cleared for release. The fact of the matter is that the Bush administration's reckless approach to establishing an extrajudicial system at Guantanamo has left us grappling with how to humanely and effectively resettle detainees who pose no threat to our national security. To that end we owe the people of Portugal sincere thanks for taking on the responsibility of ensuring the rights and well-being of these two resettled detainees, who have been cleared of any wrongdoing. Portugal and the United States have set a positive example for the safe, efficient, and humane process of resettling former detainees.

A PROCLAMATION HONORING  
CARLY CLARK FOR WINNING  
THE GIRLS' DIVISION IV STATE  
SOFTBALL CHAMPIONSHIP

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. SPACE. Madam Speaker, Whereas, Carly Clark showed hard work and dedication to the sport of softball; and

Whereas, Carly Clark was a supportive team player; and

Whereas, Carly Clark always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with her friends, family, and the residents of the 18th Congressional District, I congratulate Carly Clark on winning the Girls' Division IV State Softball Championship. We recognize the tremendous hard work and sportsmanship she has demonstrated during the 2008–2009 softball season.

#### PERSONAL EXPLANATION

### HON. C.A. DUTCH RUPPERSBERGER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. RUPPERSBERGER. Madam Speaker, during the vote on the motion to instruct conferees on H.R. 2918, Fiscal Year 2010 Legislative Branch Appropriations, (Rollcall 734), I mistakenly voted "yea" but I meant to vote "nay."

#### A PROCLAMATION HONORING KRISTEN SMITH FOR WINNING THE GIRLS' DIVISION IV STATE SOFTBALL CHAMPIONSHIP

### HON. ZACHARY T. SPACE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. SPACE. Madam Speaker, Whereas, Kristen Smith showed hard work and dedication to the sport of softball; and

Whereas, Kristen Smith was a supportive team player; and

Whereas, Kristen Smith always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with her friends, family, and the residents of the 18th Congressional District, I congratulate Kristen Smith on winning the Girls' Division IV State Softball Championship. We recognize the tremendous hard work and sportsmanship she has demonstrated during the 2008–2009 softball season.

#### HONORING SFC SHAWN PATRICK MCCLOSKEY

### HON. LYNN A. WESTMORELAND

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. WESTMORELAND. Madam Speaker, I rise today to pay tribute to a fallen American patriot.

Thousands of my constituents in Georgia's 3rd Congressional District lined the streets of Peachtree City, GA, this week, waving American flags, to honor the late SFC Shawn Patrick McCloskey. The sergeant, returning home to his final resting place, died while serving in the U.S. Army in Afghanistan.

Sergeant McCloskey, 33, suffered fatal injuries after he was hit by a roadside bomb Sept.

15 while on patrol in Ghur Ghuri. SFC Bradley Bohle of Maryland and SSG Joshua Mills of Texas also died in the attack.

Before joining the service, Sergeant McCloskey worked for a construction company in Fayette County. Like many of his fellow soldiers, he was a regular American, going to work every day and providing for his family when he decided to join the military in 2002. At a time of great anguish for our Nation, he heard the call to duty and he answered it.

After Special Forces training, Sergeant McCloskey became a Green Beret and performed intelligence work in Colombia. When he died, he was serving his third tour in the Global War on Terror. His meritorious service won him many medals and awards, including the Bronze Star, Purple Heart and the National Defense Service Medal.

Our Nation mourns the loss of each soldier sacrificed on the battlefield. But there is no tribute we can give that eases the pain of the Gold Star families. Sergeant McCloskey is survived by his wife Jessica and two children, Katie and Collin, and also his parents Patrick and Kathryn McCloskey of Fayetteville.

Today, we remember and grieve this great American hero, SFC Shawn McCloskey. He died so that we, his fellow Americans, could continue to live in freedom.

We thank the McCloskey family for their gift to us. May God bless them during their hour of greatest need.

#### TRIBUTE TO THE MARLBOROUGH REGIONAL CHAMBER OF COMMERCE (MRCC)

### HON. JAMES P MCGOVERN

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. MCGOVERN. Madam Speaker, I rise today to pay tribute to the Marlborough Regional Chamber of Commerce, MRCC, for their devotion to their community for 85 years. The MRCC is a not-for-profit organization that provides resources for businesses to help them develop and grow. Their continuing efforts have helped make Marlborough a better place to live, work and raise a family.

The MRCC has continued to reach their goal of creating a better community with their strong leadership and dedication to the town. Throughout the years, the MRCC has presented gifts for the town, awarded scholarships for graduating high school seniors, and participated vigorously in public discussions about improvements to the city. Their successful events, such as the Heritage Festival and The Annual Steak and Lobster Cookout, have brought the community together. They bring great pride and joy to the town and get people involved.

The Marlborough Regional Chamber of Commerce will celebrate its founding at an event being held September 25, 2009. The theme of the event is based on Marlborough's history in the shoe industry. Throughout the night, videos, vintage pictures and newspapers will be on display. Also during the event, several local businesses will be acknowledged for their support since the 1920s.

Madam Speaker, I ask all of my colleagues to join me in congratulating the Marlborough Regional Chamber of Commerce for 85 years of service, and to wish them continued success.

#### A PROCLAMATION HONORING AUBREY BURNWORTH FOR WINNING THE GIRLS' DIVISION IV STATE SOFTBALL CHAMPIONSHIP

### HON. ZACHARY T. SPACE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. SPACE. Madam Speaker,

Whereas, Aubrey Burnworth showed hard work and dedication to the sport of softball; and

Whereas, Aubrey Burnworth was a supportive team player; and

Whereas, Aubrey Burnworth always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with her friends, family, and the residents of the 18th Congressional District, I congratulate Aubrey Burnworth on winning the Girls' Division IV State Softball Championship. We recognize the tremendous hard work and sportsmanship she has demonstrated during the 2008–2009 softball season.

#### PERSONAL EXPLANATION

### HON. J. GRESHAM BARRETT

OF SOUTH CAROLINA.

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. BARRETT of South Carolina. Madam Speaker, unfortunately, I missed recorded votes on the House floor on Wednesday, September 23, 2009.

Had I been present, I would have voted "No" on rollcall vote No. 723, on agreeing to H. Res. 723; "Aye" on rollcall vote No. 724, on motion to suspend the rules and agree to H. Res. 765; "No" on rollcall vote No. 725, on motion to suspend the rules and agree to H.R. 2215; "Aye" on rollcall vote No. 726, on motion to suspend the rules and agree to H.R. 3614; "Aye" on rollcall vote No. 727, on motion to recommit with instructions H.R. 324; "No" on rollcall vote No. 728, on passage of H.R. 324; "Aye" on rollcall vote No. 729, on passage of H. Res. 696; "Aye" on rollcall vote No. 730, on motion to adjourn "No" on rollcall vote No. 731, on motion to suspend the rules and agree to H.R. 3617; "Aye" on rollcall vote No. 732, motion to adjourn; "No" on rollcall vote No. 733, on ordering the previous question; "Yes" on rollcall vote No. 734, on motion to Instruct Conferees for H.R. 2918.

SERVICES FOR ENDING LONG-TERM HOMELESSNESS ACT OF 2009

**HON. ALCEE L. HASTINGS**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. HASTINGS of Florida. Madam Speaker, I rise today to introduce the Services for Ending Long-Term Homelessness Act of 2009. The reality is that more than a half million Americans do not have a place to call home each night, and half of them are without shelter. This bill will alleviate the wide-spread problem of chronic homelessness across the country.

According to the Department of Children and Families' most recent report, there are 85,907 persons homeless on any given day. At least 2 million people find themselves homeless at some point each year in our country. There isn't nearly enough shelter for these individuals. In 2007, my home state of Florida alone had 48,000 homeless people, with 14,900 of them families and 7,691 of them chronic cases.

Recently, I heard the story of a 25-year-old mother of three in my district, who was running out of options—staying at a hotel in Palm Beach County after fleeing domestic violence in Miami. As she was running out of money, this brave young woman and her young children soon would be homeless. But, they were one of the lucky ones. She was referred to The Lord's Place residence for homeless families, where she now lives with her children. As a leader in my district for chronic homelessness solutions, the Lord's Place is a perfect example of the types of establishments that would benefit immensely from this legislation. In this survivor's words: "I am here. I am working. I am breathing. And I am grateful."

Throughout our country, over 100,000 people have nowhere to call home for years on end. These are the long-term homeless, who all too often also confront mental illness, substance addiction, life-threatening illness or other serious health problems. The good news is: this bill presents us with an opportunity to put an end to this national crisis that hits home for all of us.

In 2003, the President's New Freedom Commission on Mental Health recommended the development and implementation of a comprehensive plan designed to create 150,000 units of permanent supportive housing for consumers and families who are chronically homeless. Affordable housing alone can't meet the needs for many people with severe mental illness. This bill will establish funding for supportive housing, affordable housing linked to accessible mental health, substance addiction, unemployment, and other support services as necessary. Permanent supportive housing is cost-effective, and is the soundest available investment of public and private resources to end long-term homelessness.

Current programs for funding services in permanent supportive housing, other than those administered by the Department of Housing and Urban Development, were not designed to be closely coordinated with housing resources, nor were they designed to meet

the multiple needs of people who are chronically homeless. This bill will establish a comprehensive grant program to provide supportive housing for chronically homeless individuals and families that they so badly need. Support services will include mental health services, substance use disorder treatment, referrals for medical and dental care, health education, and services designed to help individuals make progress toward self-sufficiency and recovery. Permanent supportive housing can help the chronically homeless stay off the streets, out of hospitals and jails, and ultimately help them achieve the stability they need to lead healthy lives as productive members of their communities.

Madam Speaker, it is time we take a stand to put an end to long-term homelessness in America. I urge my colleagues to support this bill and to support a proven and cost-effective solution to ending chronic homelessness.

A PROCLAMATION HONORING ANNE DREHER FOR WINNING THE GIRLS' DIVISION IV STATE SOFTBALL CHAMPIONSHIP

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. SPACE. Madam Speaker,

Whereas, Anne Dreher showed hard work and dedication to the sport of softball; and

Whereas, Anne Dreher was a supportive team player; and

Whereas, Anne Dreher always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with her friends, family, and the residents of the 18th Congressional District, I congratulate Anne Dreher on winning the Girls' Division IV State Softball Championship. We recognize the tremendous hard work and sportsmanship she has demonstrated during the 2008–2009 softball season.

HONORING WILLIAM MCDANIEL

**HON. SAM GRAVES**

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. GRAVES. Madam Speaker, I proudly pause to recognize William McDaniel. William is a very special young man who has exemplified the finest qualities of citizenship and leadership by taking an active part in the Boy Scouts of America, Troop 1040, and earning the most prestigious award of Eagle Scout.

William has been very active with his troop, participating in many scout activities. Over the many years William has been involved with scouting, he has not only earned numerous merit badges, but also the respect of his family, peers, and community. Most notably, William has earned the Ad Altare Dei emblem, recognizing his development and growth into a fully Christian way of life in the faith community. William has also contributed to his community through his Eagle Scout project. Wil-

liam built a delivery ramp for the Grace United Church soup kitchen, allowing them greater ease in their deliveries and increasing their effectiveness in providing for their community.

Madam Speaker, I proudly ask you to join me in commending William McDaniel for his accomplishments with the Boy Scouts of America and for his efforts put forth in achieving the highest distinction of Eagle Scout.

HONORING THE MEMORY OF JUDGE JAMES E. MIES

**HON. THADDEUS G. McCOTTER**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. McCOTTER. Madam Speaker, today I rise to honor the extraordinary life of Judge James E. Mies, a retired Wayne Circuit Court judge, who passed away Monday at the age of 81.

For almost 25 years, Judge Mies pursued truth and impartiality behind the bench and was well-regarded both as a lawyer and a judge. Judge Mies was a 1951 graduate of the University of Detroit law school and served in the Livonia law firm of Brashear and Brashear. In 1969, he was elected a district judge in Livonia. In 1981, Governor William Milliken named Judge Mies to the Wayne Circuit Court, where he served until his retirement in 1993.

Judge Mies was perhaps best known for his handling of Wayne County's numerous asbestos lawsuits. Colleagues remembered him as, first and foremost, a decent man whose rulings were meticulously thought out. Outside the courtroom, Judge Mies was active in the Optimists, the Michigan Cancer Foundation and other civic organizations and in 1993, the Livonia City Council named a park in his honor.

On September 21, 2009, Judge Mies passed away after a lengthy illness. A beloved husband and father, he is survived by his wife of 59 years, Mary Patricia, his sons Edward, James, Gerald and Michael, his daughters Jean and Catherine (Diamond), as well as thirteen grandchildren and two great-grandchildren. He is predeceased by his son Thomas. The citizens of Wayne County were privileged to have been served by this erudite judge for a quarter of a century.

Madam Speaker, Judge Mies is remembered as a philanthropist, mentor, and friend. As we bid him farewell, I ask my colleagues to join me in mourning his passing and honoring the contributions he made to society.

A PROCLAMATION HONORING BUD WEISGARBER FOR WINNING THE GIRLS' DIVISION IV STATE SOFTBALL CHAMPIONSHIP

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. SPACE. Madam Speaker, Whereas, Bud Weisgarber showed hard work and dedication to the sport of softball; and

Whereas, Bud Weisgarber was a supportive coach; and

Whereas, Bud Weisgarber always displayed sportsmanship on and off of the field; now, therefore, be it

*Resolved*, That along with his friends, family, and the residents of the 18th Congressional District, I congratulate Bud Weisgarber on winning the Girls' Division IV State Softball Championship. We recognize the tremendous hard work and sportsmanship he has demonstrated during the 2008–2009 softball season.

INTRODUCING A RESOLUTION EXPRESSING APPRECIATION TO BERMUDA FOR ACCEPTING FOUR DETAINEES RELEASED FROM GUANTANAMO BAY, CUBA

**HON. ALCEE L. HASTINGS**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. HASTINGS of Florida. Madam Speaker, I rise to introduce a resolution expressing appreciation to the nation of Bermuda for accepting four detainees from Guantanamo Bay, Cuba. These four men—Chinese Uighurs—had been cleared by the federal government for release but were unable to be sent to their home country of China, for fear for their safety and in compliance with international human rights law.

The United States has been working with other countries to effect a safe and efficient process for resettling detainees cleared of wrongdoing and scheduled for release. This is a complicated and difficult process but has resulted in approximately 15 resettled detainees since President Obama took office. Four of those went to Bermuda. Dozens more have been cleared for release but have not yet been transferred to a third-party nation.

In a May 2009, visit to the White House, Premier Ewart Brown of Bermuda generously offered to assist the United States in relocating released detainees from the detention facility at Guantanamo. One month later the four Uighurs were transported to Bermuda, where they currently receive government assistance to integrate into the surrounding community, including work at a local golf course.

Madam Speaker, I appreciate Bermuda—our friend and ally—assisting us in the effort to resolve the complex problem of resettling detainees cleared for release. The fact of the matter is that the Bush administration's reckless approach to establishing an extrajudicial system at Guantanamo has left us grappling with how to humanely and effectively resettle detainees who pose no threat to our national security. To that end we owe the people of Bermuda sincere thanks for taking on the responsibility of ensuring the rights and well-being of these four released detainees, who have been cleared of any wrongdoing. Bermuda and the United States have set a positive example for the safe, efficient, and humane process of releasing former detainees.

CONGRATULATING WILLIAM ANZALONE, ESQ., RECIPIENT OF THE 2009 PERSON OF THE YEAR AWARD FROM THE ITALIAN AMERICAN ASSOCIATION OF LUZERNE COUNTY

**HON. PAUL E. KANJORSKI**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. KANJORSKI. Madam Speaker, I rise today to ask you and my esteemed colleagues in the House of Representatives to pay tribute to Mr. William Anzalone, Esq., on the occasion of his selection by the Italian American Association of Luzerne County, Pennsylvania, to receive its prestigious 2009 "Person of the Year" award.

Mr. Anzalone is a 1969 graduate of Wyoming Area High School. He received his undergraduate degree from Temple University where he also distinguished himself as a member of the university football team. He earned his law degree from Dickinson School of Law. In 1998, he was inducted into the Wyoming Area "Ring of Pride" and, in 2005, he was inducted into the Luzerne County Sports Hall of Fame.

Mr. Anzalone owns Anzalone Law Offices in Wilkes-Barre, Scranton and Stroudsburg, Pennsylvania. He is associated in practice with his son, Attorney Jamie Joseph Anzalone; his daughter, Attorney Alana Marie Anzalone and Attorney Eric William Wassel.

Attorney Anzalone is the former president and founder of the Northeastern Pennsylvania Trial Lawyers Association, an association that encompasses 12 counties of northeastern Pennsylvania. He also served a two-year term as the president of the Luzerne County Bar Association. He was also the founder and first president of the Luzerne County Bar Association's charitable foundation. He currently serves on the board of governors for the statewide Pennsylvania Trial Lawyers Association.

Attorney Anzalone is a mediator for the United States District Court for the Middle District of Pennsylvania and is a certified trial master in Luzerne County. He frequently lectures throughout the Commonwealth on trial-related matters.

Attorney Anzalone was recognized as a pre-eminent lawyer by the Martindale Hubble Bar Register and was recognized as a Pennsylvania Super Lawyer since its inception in 2004. He was also recognized in 2007 and 2009 as being among the top 100 Super Lawyers in Pennsylvania.

Attorney Anzalone is a past president of the Wilkes-Barre Chapter of UNICO. He chaired their annual Allstate Football games many times and currently serves on the board of directors of the Luzerne County Catholic Social Services, FM Kirby Center for the Performing Arts, Wilkes-Barre Chapter of UNICO and the Luzerne County Bar Association's Charitable Foundation. He previously served on the board of directors for the St. Vincent DePaul Soup Kitchen, Lackawanna County Junior College, Wilkes-Barre Chamber of Commerce and Wilkes-Barre Leadership. He is a 2006 recipient of the Greater Pittston Friendly Sons of St. Patrick Swingle Award.

Married to the former Tina Medico, the couple has three children: Attorney Jamie Joseph Anzalone, Attorney Alana Marie Anzalone and Dr. William F. Anzalone, director of forensic psychology of Luzerne County.

HONORING GENE TUNNEY

**HON. MIKE THOMPSON**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. THOMPSON of California. Madam Speaker, I rise today along with my colleague, Representative LYNN WOOLSEY, to honor the life of Gene Tunney who served as Sonoma County District Attorney for 20 years. Mr. Tunney passed away August 9, 2009, with his family at his side.

Born in New York City in 1931, Mr. Tunney was the son of the famous heavyweight boxing champion James Joseph "Gene" Tunney and brother of California Congressman and Senator John Tunney. After serving in the Army, he moved to the Bay Area where he enrolled in law school in San Francisco. In 1971, he began his first job in Sonoma County as a Deputy Public Defender. A few years later he ran for District Attorney, narrowly winning the race. He served in that office for five more terms, from 1974 to 1994.

Mr. Tunney is credited with modernizing and professionalizing the District Attorney's office, guiding its transition in an era of increasingly urban types of crime. He placed restrictions on plea bargains and reviewed all felony cases while becoming an advocate for victims of crime. He was highly regarded for his sense of justice and for bringing changes to offices around the state after co-founding the California District Attorney's Association.

Married 49 years ago, Mr. Tunney enjoyed spending time with his wife Ann and their family. After retirement, the couple lived in Hawaii for a decade where they pursued their mutual hobby, flying small planes, as well as traveling, swimming, and reading. They later moved to Tiburon in Marin County, California.

Mr. Tunney is survived by his children Alexandra Kelly, Megan Tunney, Erin MacLeon, and Gene Tunney as well as seven grandchildren and brothers John and Jay.

Madam Speaker, we are proud to honor Gene Tunney's contributions to our community and know that, with many of his Deputy District Attorneys serving on the bench, his legacy of high standards and fairness to victims will continue in Sonoma County.

A PROCLAMATION HONORING MELISSA SIBLEY FOR WINNING THE GIRLS' DIVISION IV STATE SOFTBALL CHAMPIONSHIP

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. SPACE. Madam Speaker, Whereas, Melissa Sibley showed hard work and dedication to the sport of softball; and

Whereas, Melissa Sibley was a supportive team player; and

Whereas, Melissa Sibley always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with her friends, family, and the residents of the 18th Congressional District, I congratulate Melissa Sibley on winning the Girls' Division IV State Softball Championship. We recognize the tremendous hard work and sportsmanship she has demonstrated during the 2008–2009 softball season.

**A TRIBUTE TO CLÍNICA MSR.  
OSCAR A. ROMERO ON THE OC-  
CASION OF THE ORGANIZATION'S  
25TH ANNIVERSARY**

**HON. LUCILLE ROYBAL-ALLARD**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Ms. ROYBAL-ALLARD. Madam Speaker, I rise today to recognize Clínica Msr. Oscar A. Romero, a non-profit organization based in Los Angeles County that provides quality and affordable health care, health education, and advocacy to the uninsured and underserved communities of Greater Los Angeles.

Named after Archbishop Romero of El Salvador, the organization was founded in 1983 by a coalition of Salvadoran civil war refugees and local volunteer health professionals who wanted to address the unmet health care needs of thousands of Central American refugees arriving in Los Angeles in the early 1980s.

During its 25 years of service, Clínica Romero has grown from a very small operation to a \$9.2 million Federal 330 Community Health Center, with two clinics in Pico-Union/Westlake and a third clinic in Boyle Heights.

In the past year alone, Clínica Romero has reached notable milestones.

The organization completed its \$6 million Capital Campaign, which was essential to the purchase and renovation of its main clinic at 123 South Alvarado Street in Pico-Union/Westlake. When the work concludes, Clínica Romero will be based out of its first permanent medical home in its history.

Equally significant, on June 15, Clínica Romero opened a new Children's Clinic located just two blocks from its main site. Renovated with the assistance of a \$1.2 million grant from the St. Vincent Medical Center on behalf of the Daughters of Charity, this "Clínica Infantil" is dedicated to serving the health care needs of children 11 years and younger.

As a way of including the entire community in the celebration of its 25th anniversary, Clínica Romero will hold its 1st Annual Health Walk on October 3—a fun-filled and innovative way to promote the health and well being of the families it serves.

Clínica Romero's 1st Annual Health Walk (Camine, Sonría y Vive con Clínica Romero) is expected to include 2,000 participants who will meet at its 123 South Alvarado Street clinic. They will then walk three kilometers through the local community to the new Vista Hermosa Natural Park, where they will be invited to

enjoy a picnic lunch, live entertainment and a community health fair.

Madam Speaker, during my years in Congress, I have had the privilege of working closely with the community health centers in my district and have seen firsthand the important role that clinics such as Clínica Romero play in improving the health of our communities, especially among Latinos. I especially enjoyed partnering with Clínica Romero in securing federal funds to bolster its successful diabetes care program and I pledge to continue to fight for increased federal funding for all of our community health clinics through comprehensive health care reform.

In recognition of Clínica Romero's ongoing and tireless role as a health provider and educator in the 34th District, I ask my colleagues to join me in recognizing its 25th anniversary. I also commend Clínica Romero's Board Chair, Carlos Vaquerano, its Executive Director, Albert Pacheco, and all of the many dedicated people who make Clínica Romero the health care safety net that it is today, especially for the most hard to reach and at-risk patients. Clínica Romero provides resources that enable our community members to stay healthy and strong, and I wish everyone involved with this fine organization many more years of continued success.

**HONORING KRCB'S 25TH  
ANNIVERSARY**

**HON. LYNN C. WOOLSEY**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Ms. WOOLSEY. Madam Speaker, I rise with my colleague Representative MIKE THOMPSON, to honor a local public broadcaster, KRCB in Sonoma County, California. KRCB is celebrating 25 years of service to our local communities.

Nancy Dobbs, President and CEO, has been the guiding force behind KRCB from the beginning. She notes that it is a rare opportunity to build such a public institution. "When we started in January, 1981," she says, "we had to argue for the license before the FCC, find land on which to build our offices and studios, raise money for a station that did not yet exist, and convince the community about the importance of our own public broadcasting service."

Fortunately for all of us, the effort was successful. Today, we cannot imagine life in Sonoma County without KRCB, which provides PBS television, NPR radio, and local programming. It is the only PBS service available to more than a quarter million residents.

Working with nonprofits, businesses, and government agencies, KRCB has led community dialogs on health care, the environment, and disability awareness, to name just a few. The station has been awarded three Emmys for its national environmental series "Natural Heroes", has been honored by the California Teachers' Association for its North Bay Report, and has received honors for local election coverage, provided consistently for the past 17 years. KRCB also provides air time to celebrate local cultural events, such as the full

season of the acclaimed Santa Rosa Symphony, which are available in no other venue.

According to Dobbs, "It was clear from the beginning that KRCB's mission was to utilize the public airwaves of which we are stewards to strengthen the communities we serve. Public broadcasting is a critically important tool with which to stimulate community dialog and engagement, central elements of a healthy democracy."

Madam Speaker, we congratulate KRCB Television and Radio on its 25 years of service. It is indeed a treasure of Northern California.

**IN MEMORY OF IRVING KRISTOL**

**HON. JOE WILSON**

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Mr. WILSON of South Carolina. Madam Speaker, I wish to recognize the life and work of Irving Kristol who died on September 18, 2009. An icon of the conservative movement, Kristol brought his intellect and enthusiasm to the many debates that spanned the nearly nine decades of his life. The Kristol Family has made a difference for America.

Stephen Miller of the Wall Street Journal penned the following tribute to Mr. Kristol on September 19, 2009.

NEOCONSERVATIVE PIONEER PAVED WAY FOR  
REAGAN

(By Stephen Miller)

Irving Kristol, who died Friday at 89, was an editor, political essayist and provocateur universally known as the "Godfather of Neoconservatism."

In a six-decade career, Mr. Kristol's politics evolved ever-rightward, most markedly in reaction to the Great Society programs of the 1960s. As his opposition to what he saw as excesses of the welfare state crystallized, he helped provide the intellectual underpinnings of the Republican resurgence that began with the 1980 election of President Ronald Reagan.

Neoconservatism became a Washington byword for supply-side economics, defense-budget increases and entitlement cuts. The neoconservative framework came to the fore again under President George W. Bush, who awarded Mr. Kristol the Presidential Medal of Freedom in 2002.

"America has lost one of its finest thinkers and greatest patriots," House Minority Leader John Boehner (R., Ohio) said in a statement Friday. "Irving Kristol added intellectual rigor and heft to the conservative movement by redefining how we apply the values and principles our nation was founded on to the challenges of the modern era."

Mr. Kristol was appointed an editor of Commentary magazine in his 20s. But it was in his own tart essays and as an editor of literary-political journals that he helped found, including Encounter in Britain and the Public Interest in the U.S., that he fostered his reputation as a public intellectual.

Later, he was a professor at New York University, an executive vice president at Basic Books and a longtime contributor to The Wall Street Journal's editorial page.

Mr. Kristol at first resisted the label "neoconservative," but later accepted it. As much an avatar as a progenitor of

neoconservatism, Mr. Kristol once described the credo as that of "a liberal who has been mugged by reality."

Mr. Kristol grew up in Brooklyn, N.Y. His father was in the garment trade and Mr. Kristol, like many of his bright contemporaries, attended City College of New York, then a hotbed of student radicalism.

He was a self-described student "Trotskyist," but soon after graduation rejected that label. Of his youthful leanings Mr. Kristol later wrote, "It was a useful inoculation that rendered me not only immune, but positively indifferent to the ideological chatter around me."

Any remaining faith in the masses was obliterated by his experience serving in the Army during World War II alongside "thugs or near-thugs."

"Again and again, and to my surprise, I found reasons to think better of the Army and less well of my fellow enlisted men," he wrote in 1993. "The Army may have radicalized Norman Mailer; it successfully de-radicalized me. It caused me to cease being a socialist."

Energized by the writings of Lionel Trilling and Reinhold Niebuhr—self-described liberals both, but thinkers critical of the human capacity for perfection—Mr. Kristol became managing editor of *Commentary* in 1947.

In 1952, he left *Commentary* and traveled to England to found *Encounter* with the British poet Stephen Spender, as a counterblast to left-wing intellectual publications.

He returned to the U.S., and in 1965 founded the *Public Interest*, a quarterly journal he edited with Daniel Bell, a sociologist and friend from his City College days. The journal was hardly a bastion of right-wing thought, and Mr. Kristol identified himself more as a moderate than as a conservative.

In his 1972 book "On the Democratic Idea in America," he wrote, "I regard the exaggerated hopes we attach to politics as the curse of our age, just as I regard moderation as one of our vanishing virtues."

Later, though, his positions hardened. By 1993, he wrote, "What is wrong with liberalism is liberalism—a metaphysics and a mythology that is woefully blind to human and political reality."

Paul Wolfowitz, former deputy defense secretary, said Mr. Kristol infused policy de-

bates with a practical, "more fact-based" approach and showed thinkers that "it's not enough just to have a sense of what's right and what's wrong, you also have to have a sense of how the world works."

Nathan Glazer, another of the founders of the *Public Interest*, said Mr. Kristol had "a wonderful way of formulating things" and that his Trotskyist years had helped shape his work. "I think his conservatism is clearly inflected by where he came from and how he came to it," Mr. Glazer said.

Mr. Kristol is survived by his wife, Gertrude Himmelfarb, a noted historian often identified with the neoconservative movement, and his son, William Kristol, a former chief of staff for Vice President Dan Quayle and editor of the journal the *Weekly Standard*.

---

HONORING NANCY CARRINGTON  
ON HER 25TH ANNIVERSARY  
WITH THE CONNECTICUT FOOD  
BANK

---

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 24, 2009*

Ms. DELAURO. Madam Speaker, it gives me great pleasure to rise today to join the many friends, colleagues and community members who have gathered in congratulating Nancy L. Carrington on her 25th anniversary as Executive Director of the Connecticut Food Bank. This is a remarkable milestone for an outstanding and dedicated woman—one whom I am proud to call my friend.

Nancy came to the Connecticut Food Bank just two years after it was incorporated. She began her work with the organization as a food solicitor—responsible for seeking the donation of excess and unsalable products from local and regional food companies. When Nancy first came to the Food Bank, the organization was already distributing 1.3 million pounds of food a year to 188 community agencies throughout Connecticut. Just five years after she first started with the Food

Bank, Nancy became its Executive Director. Twenty-five years later, Nancy can be credited with seeing the organization through its expansion to the largest centralized source of donated, emergency food in Connecticut—distributing enough food to 650 food assistance programs to feed about 250,000 men, women, and children every year.

Nancy is not only responsible for the day-to-day operations at the Food Bank, but is also one of Connecticut's strongest voices on behalf of the hungry in our state. Nancy has said that "food should not be a privilege . . . it should be a basic human right." The fact is that our nation produces enough food to feed everyone—yet families still go hungry. And today, as the economic challenges our families are facing increase, demand in Connecticut is up twenty percent. Nancy has made it her personal mission to overcome the challenge of feeding the hungry—her work touching the lives of thousands over the years. There is no stronger or more dedicated advocate. While she hopes for the day when organizations like the Food Bank are no longer needed, we are certainly fortunate to have her at the helm and can find comfort in the knowledge that someone with her passion and commitment continues to serve our community.

I would be remiss if I did not take a moment to thank Nancy for her many years of friendship. She has been an invaluable resource to both myself and my staff. I am grateful for her insights and constant commitment to ending hunger in our state and our nation. And so I stand today to express my deepest thanks and appreciation to Nancy L. Carrington, for all of her good work and many years of dedicated service to the Connecticut Food Bank. It has been her leadership that has made this organization such a success and, more importantly, it has been because of her compassion and advocacy that the Food Bank has been able to make such a difference so many lives. Nancy—my heartfelt congratulations to you as you celebrate your 25th anniversary and my very best wishes for continued success.

## HOUSE OF REPRESENTATIVES—Friday, September 25, 2009

The House met at 9 a.m. and was called to order by the Speaker pro tempore (Ms. BALDWIN).

### DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,  
September 25, 2009.

I hereby appoint the Honorable TAMMY BALDWIN to act as Speaker pro tempore on this day.

NANCY PELOSI,  
*Speaker of the House of Representatives.*

### PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer: Let us rejoice in the Lord.

In His beauty, we trace our creation. In His compassion and mercy, we claim our salvation.

In profound humility, we offer our works of justice and our public service on behalf of others, and so we find fulfillment.

To the Lord, we commend this Nation, its people, its resources and its leadership.

May all give You, Lord God, glory, praise, honor, and thanksgiving, today and forever.

Amen.

### THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

### PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Illinois (Mr. SHIMKUS) come forward and lead the House in the Pledge of Allegiance.

Mr. SHIMKUS led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to five requests for 1-minute speeches on each side of the aisle.

### NORMALIZING THE RELATIONSHIP BETWEEN THE REPUBLICS OF ARMENIA AND TURKEY

(Mr. SNYDER asked and was given permission to address the House for 1 minute.)

Mr. SNYDER. Madam Speaker, I rise today to call attention to recent encouraging developments concerning discussions between the Republic of Turkey and the Republic of Armenia.

On August 31, 2009, Turkey and Armenia, along with Switzerland, which acted as broker for the talks, announced two protocols and a timetable for normalizing relationships between Armenia and Turkey. These protocols have been initiated by both foreign ministries.

While many have seen the longstanding disputes between Turkey and Armenia as intractable, the recent announcement gives hope that these two countries have taken the first tangible steps on the road to rapprochement. The Protocol for the Establishment of Diplomatic Relations between the Republic of Armenia and the Republic of Turkey reinforces the willingness of these two governments to open their shared border and to advance bilateral relations, including trade and economic cooperation.

Although this process still faces a number of hurdles, including ratification by the two countries' respective parliaments, I am encouraged by and applaud the initial important steps Turkey and Armenia have taken to strengthen their relations by beginning an open dialogue on some of the major issues that divide them. I commend Switzerland for its important role.

My four little boys—Penn, Aubrey, Wyatt, and Sullivan—and all of the children of the world, whether Turkish, Armenian or American, benefit when diplomacy succeeds.

### BIG GOVERNMENT IS NOT THE SOLUTION

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Madam Speaker, American families are concerned that the failed solutions they see coming out of Washington all have the same themes: more government, more taxes, more borrowing, and more spending.

At a time when our government is heavily in debt and when our economy is losing jobs, more spending and more

taxes are not strategies that will produce jobs or that will protect the value of our currency.

With health insurance reform, we need solutions that are built on strengthening individual choice and on protecting the doctor-patient relationship. We need to expand competition in the health insurance market by letting individuals shop for plans across State lines. Rather than a plan that empowers the government, we can empower individuals and small businesses to band together to secure affordable health care.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism. God bless Benjamin Netanyahu as a leader of the free world.

### HONORING THE LIFE AND SERVICE OF SERGEANT FIRST CLASS SHAWN PATRICK MCCLOSKEY

(Mr. WESTMORELAND asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WESTMORELAND. Madam Speaker, I rise today to pay tribute to a fallen American patriot.

Thousands of my constituents lined the streets of Peachtree City, Georgia, this week, waving American flags to honor the late Sergeant First Class Shawn Patrick McCloskey. The sergeant, returning home to his final resting place, died while serving in the U.S. Army in Afghanistan.

Before joining the service, Sergeant McCloskey worked for a construction company in Fayette County. Like many of his fellow soldiers, he was a regular American, going to work every day and providing for his family, when he decided to join the military in 2002. At a great time of anguish for our Nation, he heard the call to duty and answered it.

Sergeant McCloskey became a Green Beret in 2004, and his valor won him many medals and awards, including the Bronze Star, the Purple Heart and the National Defense Service Medal.

Our Nation mourns the loss of each soldier sacrificed on the battlefield. Today, we remember and grieve this great American hero, Sergeant First Class Shawn McCloskey. He died so that we and his fellow Americans could continue to live in freedom.

We thank the McCloskey family for their gift to us. May God bless them during this hour of grief.

### SCRAPPING NATIONAL MISSILE DEFENSE

(Mr. SHIMKUS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SHIMKUS. Madam Speaker, the United States has an operating national missile defense to protect our west coast. Why would we leave our east coast undefended?

In an ABC story today, it reads, "The Obama administration believes Iran has now lied to inspectors three times. In addition to today's news there were revelations in 2002 about a different clandestine plant, and news discovered in 2007 that Iran had been working to design a nuclear warhead."

Our response should be: Don't trust, but defend.

If the Obama administration believes that Iran has lied to the United States on nuclear weapons, why would we drop our defenses on the east coast?

Our national government is constituted to protect our citizens. By scrapping national missile defense for our east coast, we fail in our job.

### PAYING TRIBUTE TO STAFF SERGEANT SHANNON M. SMITH

(Mr. JORDAN of Ohio asked and was given permission to address the House for 1 minute.)

Mr. JORDAN of Ohio. Madam Speaker, I rise today to honor the life of a brave young soldier, one of American's fallen heroes, Staff Sergeant Shannon Smith of Ohio.

Shannon was a native of Marion, Ohio, and graduated from Marion Harding High School, where he was an accomplished wrestler, winning his weight class in the Ohio Heartland Conference for 3 straight years.

He joined the service in September 1997, serving stateside as well as in Afghanistan, Iraq and Bosnia, before joining the 545th Military Police Company, Arctic Military Police Battalion, based at Fort Richardson, Alaska.

Shannon died on September 8, 2009, in Iraq while serving his country in support of Operation Iraqi Freedom. Aged 31, he is survived by a loving family, including his wife, Cassie, and his parents, James and Deborah.

In the reading of Shannon's life and in speaking with his family members, it was clear that he had a positive impact on the lives of everyone around him. He had the tenacity of a wrestler and a remarkable sense of humor. He was a leader, a family man and a champion in every sense of the word. He was one of the brave few who stood up and volunteered to serve his country.

He fought to protect us. He gave his life in defense of his family, his community, his State, and his Nation. For this, every American owes him and his family a great debt of gratitude.

Shannon will be missed each and every day, but the strength of his char-

acter and the courage he demonstrated through his service will live on.

### NATIONAL DAY OF REMEMBRANCE FOR MURDER VICTIMS

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Madam Speaker, this day, we honor the memory of those whose lives are suddenly violently taken by homicide. Everything a person was or ever will be—stolen by the assassin's hands.

Most of us will never lose a loved one to a violent crime. Most of us never even think about murder. Victims don't wake up in the morning knowing they'll be murdered that day, and for their families, it's the most painful and traumatic thing they can ever imagine. Suddenly, their loved one is gone. What takes their place are images of that violent death and of things left unsaid.

Then comes the police investigation—learning more than any layman wants to know about murder—then the trial if the police capture someone, then crime scene photographs; sitting in the courtroom day by day with the one who stole their loved one's life; the uncertainty, the strain, the verdict. It's not just the one killed who is the victim of murder.

Today, we honor the families who live through the horror of homicide. Families never get over the murder of a loved one. They think about it every day—forever.

And that's just the way it is.

### ECONOMY

(Mr. MURPHY of New York asked and was given permission to address the House for 1 minute.)

Mr. MURPHY of New York. Madam Speaker, I stand today to point to upstate New York's leadership and significant accomplishments in partnering education and 21st-century job creation.

This week, the hard work of the capital region's higher education institutions and businesses were highlighted when President Barack Obama lauded Hudson Valley Community College's great work in preparing young professionals and training leaders for the 21st-century economy.

The President spoke about the vital importance of education and about the role community colleges will play in reviving our economy and in preparing a workforce for the future.

I have spent my entire career working to create jobs and high-tech businesses across upstate New York. One of the keys to preparing our economy for success is having a well-educated workforce.

This week, we heard the President lay out three building blocks for innovation: Education, infrastructure and

research. This is exactly what we have been working on and developing in upstate New York, and it is what has made our region a leader in the innovation economy.

As our economy becomes more knowledge-based, the continued leadership of our colleges and universities will be ever more important. Twenty-first century jobs will require increasingly knowledgeable workers in the innovative programs, and our Nation's fine higher education institutions are a key to them.

### HEALTH CARE REFORM

(Mr. PALLONE asked and was given permission to address the House for 1 minute.)

Mr. PALLONE. Madam Speaker, I was watching the Senate Finance Committee yesterday, and I was pleased to see that they were moving along in adopting health care reform and in moving it out of committee. It couldn't be too soon.

The bottom line is that we've heard more reports about how more and more people have no insurance in this country and that insurance is increasingly becoming unaffordable. I know that the Democrats in both the House and the Senate and, hopefully, some Republicans, are moving forward with health care reform. We are trying to get it done by the end of this year, and it really is important.

People need to have affordable insurance. They need to have choices. I think we need a strong public option as well because that will create competition with private insurance. It will bring down costs, and it will allow more people to find affordable insurance.

The problem is not getting any better. It's getting worse every day, and health insurance reform needs to be done here in the House, in the Senate, and it needs to be sent to the President as quickly as possible so we can deal with this major problem that we face in this country. I would like to see it done in a bipartisan way.

### PROVIDING FOR CONSIDERATION OF CONFERENCE REPORT ON H.R. 2918, LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010

Mr. MCGOVERN. Madam Speaker, by direction of the Committee on Rules, I call up House Resolution 772 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

#### H. RES. 772

*Resolved*, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (H.R. 2918) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes. All points of order against consideration of

the conference report are waived. The conference report shall be considered as read. All points of order against the conference report are waived. The previous question shall be considered as ordered on the conference report to its adoption without intervening motion except: (1) one hour of debate; and (2) one motion to recommit if applicable.

The SPEAKER pro tempore. The gentleman from Massachusetts is recognized for 1 hour.

Mr. McGOVERN. Madam Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from California (Mr. DREIER). All time yielded during consideration of the rule is for debate only.

#### GENERAL LEAVE

I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks and to insert extraneous materials into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

□ 0915

Mr. McGOVERN. I yield myself such time as I may consume.

Madam Speaker, this rule provides for consideration of the conference report on H.R. 2918, the Legislative Branch Appropriations Act. I rise in strong support of the rule and of the underlying legislation. The bill before us today includes not only the fy 2010 Legislative Branch appropriations bill but, more importantly, a continuing resolution to keep the government operating for the next 6 weeks.

With a few important exceptions, the continuing resolution provides level funding. In other words, the bill maintains funding levels passed at the 2009 appropriations process levels.

One of those exceptions is in the vital area of veterans health care, which receives an increase in this bill. The VA estimates that it will treat more than 6.1 million patients in 2010, including more than 419,000 veterans of the Iraq and Afghanistan wars. That number represents an increase of 56,000 more patients than in 2009.

To ensure that the VA can provide our veterans the care that they need and that they deserve, the bill increases the funding for VA health by \$3.85 billion. I would encourage all Members on both sides of the aisle who wish to provide this needed increase in veterans health care to support the bill.

To address the right-wing talk radio target of the week, no funds in this bill may be provided to ACORN or any of its affiliates, subsidiaries or allied organizations.

In terms of process, Madam Speaker, none of us on either side of the aisle are happy with continuing resolutions. They have been used for years under Democratic and Republican majorities, but they are clearly not ideal.

Here in the House, we have completed our work of passing all of the appropriations bills, and I want to commend Chairman OBEY and his colleagues on the Appropriations Committee for their efforts and all of their hard work.

Unfortunately, it seems that these days that you need 60 votes in the Senate to agree that the sun came up this morning. The Senate has not yet passed all of its bills, and this continuing resolution is necessary to ensure that vital programs continue to receive funding.

I urge my colleagues to support the rule and the underlying legislation.

I reserve the balance of my time.

Mr. DREIER. Madam Speaker, I yield myself such time as I might consume.

Madam Speaker, the end of the fiscal year, as we all know, is just a few days away.

Despite this looming deadline, Congress has not completed action on a single appropriations bill. Let me repeat that, Madam Speaker: we have got within 5 days of the end of the fiscal year, and yet not one single appropriations bill has been completed by this Congress.

As a result, the Democratic majority is scrambling to accomplish two things, two things with this underlying bill that we have. The first is to buy more time to get our work done with the continuing resolution, which will keep the government operating for an additional 38 days beyond the September 30 expiration of the fiscal year. The second is to finally take the first step towards passing our appropriations conference reports.

Madam Speaker, which spending bill has the honor of being considered first? Which spending bill? Perhaps it's our Homeland Security appropriations bill, which funds our Border Patrol and other Federal agencies charged with protecting our States, cities, and ports from terrorist attacks. Or, perhaps, Madam Speaker it's the very, very important Defense appropriations spending bill, which would provide the funding for our troops.

In fact, the very first spending bill that the House is moving to send to the President is our Congress' own funding bill. The underlying Legislative Branch appropriations bill makes the Democratic majority's funding priorities very, very clear.

Madam Speaker, I describe this as the "putting Congress first" appropriations process. That's really what it is. We remember back in 1992, putting people first was President Clinton's campaign motto. We have now seen this Congress establish a new directive based on what we are doing on this appropriations bill, and that is we are putting Congress first.

As we look at this priority, it is very clear that the continuing resolution will allow for more time to take care of

everything else. Now, some would say that we, as Republicans, are just belly-aching. I mentioned President Clinton and his campaign back in 1992 of putting people first, and this now the putting Congress first appropriations process.

Well, back in 1996 after President Clinton had been President for almost 4 years, he vetoed the Legislative Branch appropriations bill when a Republican Congress sent it as the second appropriations bill of that season. Madam Speaker, President Clinton said the following in his veto message: "I believe that it would be inappropriate to fully fund regular funding for Congress and its offices while funding for most other activities of government remains incomplete, unresolved and uncertain. I don't think Congress should take care of its own business before it takes care of the people's business."

Those are the words of President Clinton in his 1996 veto message when the second appropriations conference report sent to him was the Legislative Branch appropriations bill measure. He was right to veto that bill and President Obama would be right to do it now, Madam Speaker, following President Clinton's lead.

Unfortunately, even if the President wanted to veto this bill, there is a problem. A veto, as we all know, would shut down the government, something that no one wants. The Democratic majority has made sure that our offices don't have to worry about working within temporary funding; but our veterans, Homeland Security personnel, the fighting men and women will just have to make do.

Madam Speaker, this is just another example of what I am calling the "putting Congress first" appropriations process. Those who follow the work of the Congress know that continuing resolutions are not unusual, and we recognize that on this side of the aisle. The Federal budget is a very serious responsibility, and our work often, under either party, has extended throughout the fall.

What's different throughout this year is not the necessity of a continuing resolution. What's different, Madam Speaker, is the fact that the Democratic majority shut down debate on our appropriations bills, ostensibly for the sake of completing our spending bills on time.

They said that there was a schedule to keep. They said that there was no time for debate and deliberation while the clock was ticking. With regrets to the American people, we just cannot allow for scrutiny and accountability on the spending of taxpayer dollars because September 30 is fast approaching.

Now, as the fiscal year draws to a close, it would appear that the rights of Democrats and Republicans have been trampled on for the sake of a goal that has not come close to being

achieved. Throughout June and July, as debate on bill after bill was shut down, we heard the drum beat of the impending deadline.

On June 10 our friend, whom I am happy to see here on the floor, the distinguished chairman of the Appropriations Committee, announced his "ambitious schedule" saying that his time line would be unworkable as long as we had "procedural cooperation." Of course, we very soon learned that procedural cooperation was a euphemism for closing down the debate.

Now, the distinguished chairwoman of the Committee on Rules, on June 17 on the House floor, said that the Democratic majority was prepared to push forward at all costs to complete the appropriations process on time.

Again, we now know that those costs were the abandonment of what has been the 220-year history of the appropriations process, and that is open to debate and the rejection of amendments to be considered by Democrats and Republicans. On June 19, the distinguished majority leader reiterated this stance saying that the only way to get our work done is if we limit debate time.

Throughout the summer, the Democratic majority did just that. Every single appropriations bill was considered under a restrictive rule. Spending bills have been historically considered, as I said, under a full and open process that allows for all Members, not just committee Chairs or members of the leadership, but all Members of both parties to make their constituencies' voices heard in the Federal spending process. Yet the Democratic majority announced at the outset of this year's process that they were abandoning open debate for the sake of expediency.

Now, Madam Speaker, the Democratic majority did deliver on the issue of closing down debate for the appropriations process. What they haven't delivered on is the timely completion of our constitutional responsibility. They dismantled the open appropriations process, and, for what? So we could pass the "putting Congress first" bill and leaving the rest of our work to be completed at a later date.

We could call this just another broken promise in a never-ending string of broken promises by this Democratic majority; but this is bigger, this is bigger, Madam Speaker, than just broken promises. We have more than a trillion-dollar deficit, and the year isn't over yet. Our national debt has skyrocketed, skyrocketed to nearly unfathomable levels.

The American people are incredibly frustrated about our fiscal state and the crippling debt we have saddled on our future generations. Yet the Democratic majority has shut out accountability of their spending practices for the sake of a deadline that they didn't even try to keep. That's one of the rea-

sons why we are here today, to extend the deadline on appropriations bills that were rammed through the House without the benefit of many thoughtful amendments from both Democrats and Republicans proposed by those who are deeply concerned about runaway spending.

Now, of course, our friends on the other side of the aisle will have great excuses, and they are excuses we have heard regularly from both sides. They will say that the House has done its work; they can't control what happens over in the other body; we can't control what those guys do on the other side of the Capitol. But when the Republicans were in the majority, our colleagues on the other side of the aisle would regularly point out that we had control of both bodies of Congress and the White House. They would say that we were in control, and so we had to shoulder the responsibility.

Madam Speaker, when someone stands up and makes the argument we did our job in the House, but we can't, we can't control what those guys do over on the other side of the Capitol, remember what was regularly said, that when you have supermajority control of the Senate, and now with the appointment of PAUL KIRK, the 60th seat is there in the Senate, when you have control of the White House and a large majority in the House of Representatives, one has to take responsibility.

Now, the situation is such that our friends must take the responsibility. With the impending appointment, as I said, we now have, we now have both Houses of Congress and the White House in complete control of the Democrats. Excuses about blaming the other body for having not done their work really are not acceptable.

Madam Speaker, not one of us, not one of us is interested in a government shutdown. But this bill makes two things very clear, first, that the Democratic majority is more concerned with padding its own budget for this institution than meeting the rest of the country's needs. Second, the concerns and input of the American people were stifled, we see now, for no good reason at all.

I urge my colleagues to reject this rule.

I reserve the balance of my time.

Mr. MCGOVERN. Madam Speaker, I yield myself such time as I may consume.

First of all, I don't think we need any lectures by Members of the other side about process. If I recall, when they were in charge here, continuing resolutions were a regular part of the process. If I recall correctly, their last year in power they did a short-term CR. That means they got nothing done and dumped all of their appropriations work on the incoming Democratic Congress, which was a daunting task, to

deal with 2 years of appropriations. They had their chance, and I think that they messed it up.

□ 0930

The fact is that the bill before us, the conference report before us, is the Legislative Branch Appropriations bill, which is an important appropriations bill. All appropriations bills are important. I don't think it does anybody any good to diminish the importance of this.

This is important and it needs to be passed. I fully expect that the other appropriations bills will be conferenced, and we will be dealing with more and more conference reports in the coming weeks.

But, look, what we need to do here, Madam Speaker, is not only pass a conference report for the Legislative Branch Appropriations, but we also need to pass a continuing resolution which includes an increase in veterans' health care.

We have thousands and thousands of young men and women who we have sent to Iraq and who we have sent to Afghanistan. They deserve a first-class health care system when they return. All veterans do. They have served our country with great distinction. They not only deserve the best health care, but they have earned it. There is an increase in this CR for veterans' health.

Mr. DREIER. Will the gentleman yield?

Mr. MCGOVERN. I'm happy to yield.

Mr. DREIER. I thank my friend for yielding.

Madam Speaker, let me say that I completely concur with the gentleman. He's actually making our arguments here about the priority of ensuring that our men and women who have sacrificed and fought on behalf of the cause of freedom do have access to quality health care, that we have the funding for those troops there. That is a very important priority. That's why we should be doing those appropriations bills first.

Mr. MCGOVERN. I reclaim my time.

I thank the gentleman for agreeing with me, and hopefully we will have a unanimous vote on this, because there should be no disagreement on that. Again, in this continuing resolution, I will repeat to my colleagues, there is an increase in funding for veterans' health.

I think we should move forward. Get this conference report done. There will be more conference reports down the road. This is not an easy process. I think I've come to learn that the House of Representatives does not control the United States Senate. I wish we did. We would get a lot more done. But that's not the way our system works.

At this time, Madam Speaker, I yield 4 minutes to the gentleman from New York (Mr. NADLER).

Mr. NADLER of New York. I thank the gentleman for yielding me time, Madam Speaker.

The Constitution prohibits Congress from passing a bill of attainder, a bill that, no matter what its form, punishes either a named individual or an easily ascertainable group of people.

Last week, to the great shame of this House, we passed a bill of attainder, a bill stating that no Federal funds shall go to a specifically named organization, ACORN.

Now, in this conference report, we are about to do it again. Why? Because of a desire to punish ACORN. And yet, as ACORN's lawyer wrote to us recently, this is, "to my research, unprecedented in congressional history. Never before has one corporation or entity been the subject of such broad reaching punishment by congressional mandate."

"The punishment here did not follow some criminal or administrative process with basic due process protections. It flowed out of a Fox News network-led call for a public lynching. There was no statement of charges and no reference to a judicial or administrative finding of wrongdoing by ACORN. All that occurred was a Member of Congress making a motion supported with a speech full of negative and largely inaccurate observations about ACORN, followed by a vote."

The fact is ACORN has never been convicted of anything. Lots of charges. So far, no proof in any court or any administrative proceeding. But some charges may be true. And they may or may not—I think not, but that's just a personal opinion—indicate substantial misfeasance. But that's why we have courts and administrative agencies and congressional investigating committees.

It may be that ACORN is guilty of various infractions, and, if so, it ought to be vetted or maybe sanctioned by the appropriate administrative agency or by the judiciary. But Congress must not be in the business of punishing individual organizations or people without trial, and that is what the provision in this conference report does. It prohibits any Federal funds from going to ACORN for any purpose, clearly as a punishment for alleged misdeeds. This is a classic bill of attainder, and as such, it is flatly prohibited by the Constitution.

We must not ignore the Constitution. Whatever one may think of the subject matter or the organization, the Constitution and the ban on bills of attainder are there for the protection of all our liberties. And we ignore the constitutional provisions at our peril.

This bill of attainder should not be in this conference report, and I will, therefore, vote against the conference report.

Mr. DREIER. Madam Speaker, I yield myself such time as I may consume.

Let me respond to some of the remarks that have been made so far, Madam Speaker. First, I have to say that, in addressing the issue of ACORN, the gentleman from Worcester said that ACORN was the target of right-wing radio this week. The fact of the matter is there is a Justice Department investigation that, at this moment, is being undertaken to address this issue. So to argue that somehow this is just a product of right-wing radio is silly.

Mr. NADLER of New York. Will the gentleman yield?

Mr. DREIER. Of course. I'm happy to yield.

Mr. NADLER of New York. There is an investigation, and let it proceed and let it come to a conclusion, but there is no conclusion yet.

Mr. DREIER. If I can reclaim my time, let me say that I was simply responding to the gentleman from Worcester, who was saying that somehow the ACORN concerns that have been raised are nothing but developed from right-wing radio, as he described it.

It is true that a number of very, very smart investigative journalists have come forward and brought to the forefront some of the most outrageous abuses of taxpayer dollars, and we have seen these reports carried on television. The gentleman mentioned Fox News. We've heard it reported on the radio.

I believe that it is a great service, as we see hardworking Americans, hardworking Americans trying to make ends meet, and that kind of abuse of their tax dollars is outrageous, as has been reported. That kind of abuse is outrageous.

Mr. NADLER of New York. Will the gentleman yield?

Mr. DREIER. Of course, I'm happy to yield to my friend.

Mr. NADLER of New York. The point is, of course, as I said—and, by the way, it was I who talked about right-wing radio, not the gentleman from Worcester.

Mr. DREIER. If I could reclaim my time, Madam Speaker, the gentleman was not on the floor when Mr. MCGOVERN began his opening statement. The gentleman did, in fact.

So now I will say both my friends from Massachusetts and New York are now saying that right-wing talk radio is somehow responsible for this, when, in fact, it has been some very shrewd investigative journalists. And we have seen talk radio and some of the cable television networks bring us to the forefront. Unfortunately, it's taken quite a while for the so-called mainstream media to begin the kind of coverage of ACORN that we are finally seeing.

Mr. NADLER of New York. Will the gentleman yield?

Mr. DREIER. Of course, I'm happy to yield to my friend.

Mr. NADLER of New York. Thank you.

The point is, of course, I'm not going to debate the merits of the charges against ACORN. Charges have been made. As I said, some of them may be valid. They may be not valid. And if they're valid, they may indicate pervasive corruption; they may indicate minor errors. We don't know. We'll find out.

But the point is the Constitution prohibits Congress from acting on that information by punishing an organization. They should be punished, if indeed they should be punished, by an administrative agency, by cutting off funds, by HUD or whatever.

Mr. DREIER. Madam Speaker, if I could reclaim my time, let me say to my friend that the American people get it. They understand that ACORN is responsible for its own actions. They have seen what has taken place. It has been outrageous behavior. And the notion of somehow standing here and defending that when we are dealing with the funding bills themselves, the appropriations process, is just plain wrong.

Let me also say to my friend from Worcester managing this measure that he responded to my remarks by saying that he didn't want to have lectures given and he was tired of excuses being made. You know, the American people get it, too. The notion of pointing the finger of blame back and forth is not what they want.

Children make excuses and get slapped down by their parents. That has happened to me as a kid. It happens to everybody. And the idea of standing here saying, Well, we were lectured here and excuses are being made, so we somehow can continue to do what it is that we want to do. Well, Madam Speaker, I have to tell you that we didn't do things perfectly, but the fact of the matter is we didn't shut down the appropriations process. We did not shut down the appropriations process, denying Democrats and Republicans the opportunity to participate, as has been the case throughout the history of our country, and I think it's just plain wrong to do that. And the American people get that, too.

So we're not providing any lecturing. We're just saying regular order. The rules of the House should be followed, and they have been ignored consistently.

When one looks at the statements that have been made by many of our colleagues on the other side of the aisle who were critical of us when we were in the majority, it's incredible to see that they have taken and ramped up, ramped up the kind of behavior that they criticized on our part.

In fact, on the fiscal year 2000 measure, the fiscal year 2000 measure, as the Legislative Branch Appropriations bill

was moving through, the ranking member of the Committee on Appropriations, the now chairman of the Committee on Appropriations, Mr. OBEY, said, in talking about the Legislative Branch bill, This bill should not be passed until we know how deep the cuts that are being made contemplated for veterans, for education, for health care, and other areas of major responsibility to our people. Because, in the end, if this bill is one of the first out of the gate and signed into law before the other cuts are made, then the American people are really going to have a right to ask whether we are more concerned with taking care of ourselves than we are with taking care of their own problems.

Those are the words of the chairman of the Appropriations Committee today, who is utilizing the "putting Congress first," the Legislative Branch Appropriations bill, as the first measure for tying the continuing resolution to that. And I think that it's a very, very unfortunate thing.

When we had an exchange up in the Rules Committee, I asked the distinguished Chair, As we look at our priorities—homeland security, veterans, our men and women in uniform who are in Iraq and Afghanistan—and we have now chosen that the priority for passage is the funding for the Congress of the United States, the distinguished Chair's response was, Uh-huh. Right. She said, That's it.

And so here we are, putting Congress first, when the American people believe we should be focusing on our border security, the threat of terrorism, funding for our troops. Those should be the priorities that we have. And the notion of standing here, Madam Speaker, having subverted the opportunity for the American people, Democrats and Republicans alike, to be heard in this appropriations so that we could get everything done by September 30, when we failed to meet that, is just plain wrong.

With that, I reserve the balance of my time.

Mr. MCGOVERN. Madam Speaker, I yield 30 seconds to the gentleman from New York.

Mr. NADLER of New York. The gentleman from California says the American people get it. They know what terrible things ACORN has done. That's not the point.

We do not punish people by referendum or by unpopularity. Congress should not punish people. That's why the Constitution says we cannot pass a bill of attainder. We have courts. We have due process. We have administrative agencies to punish people or organizations for doing wrong things.

Mr. DREIER: Will the gentleman yield?

Mr. NADLER. Not for the moment.

Once Congress passes a bill of attainder and undertakes to punish an orga-

nization for doing whatever it did, we sacrifice our liberties, we sacrifice our due process protections, and that's why it's not up to us to punish. It's up to the court to punish.

Mr. DREIER. Madam Speaker, would the gentleman yield?

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. DREIER. Madam Speaker, would the gentleman yield? I yielded repeatedly to the gentleman from New York.

Mr. MCGOVERN. I yield 15 seconds to the gentleman from California.

Mr. DREIER. I thank the gentleman for being so generous with the 15 seconds.

Let me just say that article 1 of the United States Constitution very clearly, with section 9, points to us as being responsible for funding. We have the power of the purse here, and the notion of saying that ACORN somehow has a right to U.S. taxpayer dollars is just plain wrong.

I thank my friend for yielding.

Mr. MCGOVERN. Madam Speaker, so nobody is confused here—and I appreciate the opinion of the gentleman from New York, but so nobody is confused here—the bill before us, there are no funds in this bill that may be provided to ACORN or any of its affiliates, subsidiaries, or allied organizations. None.

□ 0945

We can talk about this all we want, but the facts are the facts, and there's no money in this bill for ACORN.

The gentleman earlier talked about shutdowns of the process. What I recall is when the Republicans were in charge, they shut down the government in 1995. We all know the adverse impacts of that.

For the record, I want to make clear to people that the Legislative Branch appropriation bill does not include Members' salaries. So this notion that we're somehow padding our pockets here is a little bit off the mark. The fact of the matter is, included in the Legislative Branch appropriation bill are moneys to help fund CBO so that it will be easier for Members to obtain PAYGO analyses of their proposals. We're all talking about the need to be more conscious of our debt and our deficit. That's one way to do it.

The other thing is that in this bill is money to protect the people who come and visit the United States Capitol. In this conference report, there are moneys that ensure that the Capitol Complex is as secure and as safe as possible, providing a 7 percent increase in funding for the Capitol Police, covering all mandatory spending and maintaining FY09 force levels. The bottom line here is that the men and women who protect us in the Capitol Police deserve more gratitude than they're getting the way this Legislative Branch appropriation bill is being described.

This is an important bill. All appropriations bills are important. We're going to hopefully pass all of our appropriations bills and not do what my friends on the other side did when they were in power, and that is just pass it off to another year. I think that we should move forward on this.

Again, in the continuing resolution there is an increase in funding for veterans health care. I think that is important. We owe our veterans more, quite frankly, than we are giving them. I hope that all my colleagues will support not only the rule but the final passage of this conference report.

I reserve the balance of my time.

Mr. DREIER. Madam Speaker, I yield myself such time as I may consume.

This has been a fascinating debate, and I know that we want to move to consideration of the measure. I hope that we'll be able to defeat the rule. As I listened to my friend from New York talk about ACORN, to follow the logic that the gentleman has put forward basically is saying that ACORN is an entitlement; ACORN is entitled to these taxpayer dollars. We don't believe that, Madam Speaker. We happen to believe that the outrageous reports that have come forward are very clear and the admissions that have been made by ACORN, and the changes that they are attempting to make now that this kind of behavior has come to light is very important.

So my friend from New York is criticizing the fact that this continuing resolution does not provide funding for ACORN, but only for 30 days. The continuing resolution is 30 days. Basically 30 days following September 30, the end of the fiscal year, funding goes right back up. So I guess his entitlement will be able to be continued.

The notion of somehow saying that the United States House of Representatives, which under Article I, Section 9 of the U.S. Constitution, is empowered with spending the taxpayer dollars, cannot cut off funding for ACORN, and for that reason, we're going to see the gentleman from New York voting against the continuing resolution is, to me, absolutely incomprehensible.

Madam Speaker, I've got to say that we've got a process here which is putting Congress first. My friend has just outlined the priorities. I guess I would inquire of him how often he gets calls from his constituents saying, Are you keeping the Capitol Complex safe so that you can move in and out of your office? That is not what the American people are concerned about. I recognize it's important to keep this great Capitol Complex safe, and I'm not saying that we shouldn't pass the Legislative Branch appropriation bill.

I'll tell you what I do believe. I believe that border security and dealing with the threat of terrorism by funding Homeland Security and I believe that passing the Defense appropriation bill

so that our men and women in uniform have the resources that they need through the appropriations process is more important right now, and the American people get that.

With that, if my colleague is prepared to close, Madam Speaker, I will simply say to my colleagues that this measure does, as I said, put Congress first, and we should not put Congress first, ahead of the priority spending for national security, which is priority number one. We continue to have statements made by our friends on the other side of the aisle, including the veto message from President Clinton in 1996. He vetoed a measure because we were passing the Legislative Branch appropriations bill for saying that there are many other priorities that should be ahead of it.

Madam Speaker, I urge my colleagues to vote against this rule so that we can move ahead in a very, very responsible way.

I yield back the balance of my time.

Mr. TEAGUE. Madam Speaker, I am very disappointed that the leadership of this House has put us in the unfortunate position of voting on legislation that combines the Legislative Branch Appropriations bill and the Continuing Resolution.

First, I am against this Legislative Branch Appropriations bill. I am against Congress increasing its own budget while small businesses around the country tighten their belts. Companies in my district are cutting hours and cutting costs. Workers are losing their jobs. But Congress is paying its staff \$74 million more than last year. We have our priorities backward. I voted against the Legislative Branch Appropriations bill when it came up in the House, and I have no interest in supporting the conference report.

Second, I oppose this corruption of the legislative process. My colleagues and I should have the opportunity to say "no" to more money for our own offices without opposing needed increases for our veterans. This isn't the way to do business.

Third, I regret that the first appropriations priority of this Congress is the legislative branch. While spending bills to support veterans, border security, and our men and women in uniform languish, we are sending a bill to increase our allowances to the President. Our veterans should be first in line, not us.

Because of this failure, the U.S. Department of Veterans Affairs will, for the tenth time in 11 years, get its budget late. Late funding threatens the quality of care at the VA and hinders the VA's ability to recruit well-trained medical professionals, maintain facilities, and acquire new equipment.

During testimony before the Senate Veterans' Affairs Committee on July 27, 2007, former VA medical center directors stated that most VA budget cycles began via a continuing resolution. As a result, decisions were made on the basis of cost rather than on the basis of the highest quality. The expression, "a day late, a dollar short," comes to mind.

By passing advanced appropriations for veterans in this year's budget, we will make sure

the VA isn't playing a waiting game with its budget next year. But that doesn't mean we can fall down on the job of supporting our nation's veterans this year. We should be passing legislation to support our veterans, not this.

Mr. MCGOVERN. Madam Speaker, the gentleman described this debate as fascinating. I would describe it as kind of bizarre. The Legislative Branch bill that President Clinton threatened to veto, if I remember correctly, the gentleman from California voted for. And I will stress again that there is no money in this bill for ACORN, none, or its affiliates or its subsidiaries. Huge majorities in both the House and the Senate are on record as opposing funding ACORN. This notion that somehow when the CR runs out that the money for ACORN is going to go up, I don't get that. There will either be another CR or we will have passed relevant appropriation bills that will continue the prohibition. So that is kind of a nutty debate, and it is not relevant to this bill because this bill bans Federal funding for ACORN.

The other thing that I will say is that all appropriations bills are important, and we are going to get to all of them. But I think it is wrong to diminish the Legislative Branch appropriation bill, and I think it's wrong to kind of brush aside the importance of funding for the Capitol Police. We have had members of the Capitol Police lose their lives in the line of duty, protecting not only us but protecting our constituents who come here. They deserve to be supported, and they deserve to be thanked. This bill does that.

Again, I will remind my colleagues that in the CR there is an increase in funding for veterans health. Now if you don't want to fund the Capitol Police and you don't want to increase funding for veterans health, then vote against the rule and vote against the final passage of the bill. But I think the vast majority of our constituents are saying, This is a no-brainer. Move this forward. Continue your business. Continue to work on the other appropriations bills, and get your work done. And we are going to do that.

Let me finally say again in support of Chairman OBEY and the members of the Appropriations Committee, they did all of their work in this House. Every single one of the appropriation bills has been passed. It is now up to the Senate to pass their bills, and then we will conference them and bring them back here for a final vote.

Mr. Speaker, in a moment I will be offering an amendment to this rule, and I want to briefly explain the amendment. The amendment will provide for adoption of an enrollment resolution that corrects a technical error made by the Senate in the continuing resolution. After the Senate struck a section in the continuing resolution, internal cross-references in the con-

ference report became incorrect. This mistake could block contracting authority for any surface transportation programs, a result that I am certain that no Member of this House, Republican or Democrat, would support. The enrollment resolution corrects the cross-references.

I hope all my colleagues will vote "yes" on the amendment, the rule and the previous question.

AMENDMENT OFFERED BY MR. MCGOVERN

Mr. MCGOVERN. Madam Speaker, I have an amendment to the rule at the desk.

The SPEAKER pro tempore. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by MCGOVERN:

At the end of the resolution, add the following:

"SEC. 2. Upon the adoption of the conference report the House shall be considered to have adopted the concurrent resolution (H. Con. Res. 191) directing the Clerk of the House of Representatives to make corrections in the enrollment of H.R. 2918."

Mr. MCGOVERN. Madam Speaker, I yield back the balance of my time, and I move the previous question on the amendment and on the resolution.

The previous question was ordered.

The SPEAKER pro tempore. The question is on the amendment.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the resolution, as amended.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. DREIER. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

#### MOTION TO GO TO CONFERENCE ON H.R. 3183, ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

Mr. PASTOR of Arizona. Mr. Speaker, pursuant to clause 1 of rule XXII and by direction of Committee on Appropriations, I move to take from the Speaker's table the bill (H.R. 3183) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes, with a Senate amendment thereto, disagree to the Senate amendment, and agree to the conference asked by the Senate.

The Clerk read the title of the bill.

The motion was agreed to.

MOTION TO INSTRUCT

Mr. FRELINGHUYSEN. Mr. Speaker, I have a motion to instruct conferees.

The SPEAKER pro tempore (Mr. HASTINGS of Florida). The Clerk will report the motion.

The Clerk read as follows:

Mr. Frelinghuysen moves that the managers on the part of the House at the conference on the disagreeing votes of the two Houses on the Senate amendment to the bill H.R. 3183 be instructed as follows:

(1) To not record their approval of the final conference agreement (within the meaning of clause 12(a)(4) of House rule XXII) unless the text of such agreement has been available to the managers in an electronic, searchable, and downloadable form for at least 48 hours prior to the time described in such clause.

The SPEAKER pro tempore. Pursuant to clause 7 of rule XXII, the gentleman from New Jersey (Mr. FRELINGHUYSEN) and the gentleman from Arizona (Mr. PASTOR) each will control 30 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. FRELINGHUYSEN. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, I voted for the House Energy and Water bill. It was a good bipartisan compromise. It was my pleasure to work closely with the chairman, Mr. PASTOR, as we put it together. I and many of my colleagues are increasingly concerned that we don't have the level of information that we need to make wise decisions on the legislation. Our jobs require that we read and fully understand complex pieces of legislation that we vote on, and that takes time.

It is for this reason that I am making this motion to instruct House conferees not to sign the final conference agreement until the text has been available to the conferees in an electronic, searchable and downloadable form at least 48 hours prior to conferees' approval.

Mr. Speaker, I reserve the balance of my time.

Mr. PASTOR of Arizona. Mr. Speaker, I first of all want to congratulate the ranking member for the work he has done on this bill. I want to thank him for the cooperation he has given and thank him again for his cooperation in working on this conference.

Mr. Speaker, I yield back the balance of my time.

Mr. FRELINGHUYSEN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to instruct.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to instruct.

The motion was agreed to.

A motion to reconsider was laid on the table.

#### APPOINTMENT OF CONFEREES

The SPEAKER pro tempore. Without objection, the Chair appoints the following conferees:

Messrs. VISCLOSKEY, EDWARDS of Texas, PASTOR, BERRY, FATTAH, ISRAEL, RYAN of Ohio, OLVER, DAVIS of Tennessee, SALAZAR, OBEY, FRELING-

HUYSEN, WAMP, SIMPSON, REHBERG, CALVERT, ALEXANDER, and LEWIS of California.

There was no objection.

□ 1000

#### PROVIDING FOR CONSIDERATION OF CONFERENCE REPORT ON H.R. 2918 LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010

The SPEAKER pro tempore (Ms. BALDWIN). The unfinished business is the vote on adoption of House Resolution 772, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the resolution, as amended.

The SPEAKER pro tempore. The question is on the resolution.

The vote was taken by electronic device, and there were—yeas 209, nays 189, not voting 34, as follows:

[Roll No. 738]

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members have 2 minutes remaining in this vote.

□ 1027

Messrs. OLSON, TIM MURPHY of Pennsylvania, NADLER of New York, SCOTT of Virginia, PAYNE, HOLT, Ms. EDWARDS of Maryland, Ms. LEE of California, Ms. JACKSON-LEE of Texas changed their vote from “yea” to “nay.”

So the resolution, as amended, was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. ABERCROMBIE. Madam Speaker, I regret that I missed rollcall vote No. 738. Had I been present, I would have voted “yea.”

Stated against:

Mr. BRADY of Texas. Madam Speaker, it was my intention to vote against adoption of H. Res 772, a rule waiving points of order against consideration of the Conference Report to accompany H.R. 2918, Legislative Branch Appropriations and Continuing Resolution. I inadvertently recorded a “yea” vote.

□ 1030

#### CONFERENCE REPORT ON H.R. 2918, LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2010

Ms. WASSERMAN SCHULTZ. Madam Speaker, pursuant to House Resolution 772, I call up the conference report on the bill (H.R. 2918) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 772, the conference report is considered read.

(For conference report and statement, see proceedings of the House of September 24, 2009, at page 22533.)

The SPEAKER pro tempore. The gentlewoman from Florida (Ms. WASSERMAN SCHULTZ) and the gentleman from Alabama (Mr. ADERHOLT) each will control 30 minutes.

The Chair recognizes the gentlewoman from Florida.

#### GENERAL LEAVE

Ms. WASSERMAN SCHULTZ. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include tabular and extraneous material on the conference report to accompany H.R. 2918.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Florida?

There was no objection.

Ms. WASSERMAN SCHULTZ. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, the conference agreement which we present to the House today for the fiscal year 2010 Legislative Branch Appropriations bill

authorizes a total of \$4.6 billion for the operations of the House and the Senate and for the operating budgets of the legislative branch support agencies. The overall amount is \$254 million above the 2009 enacted level and \$500 million below the request. The net increase over the enacted level is 3.5 percent.

This is the first freestanding conference agreement for the Legislative Branch bill since 2005, and the first since I became Chair of the subcommittee. I am pleased to report that the agreement preserves all of the priorities of the House, and that the Legislative Branch bill is on time and under budget. Madam Speaker, this package was developed in full cooperation with the minority and represents a fully bipartisan agreement.

The principal responsibility of our subcommittee is to serve as stewards of the legislative branch, its institutions, and its employees. In fulfilling these goals, the 2010 Legislative Branch bill provides funding for the routine and recurring costs of paying our hard-working staff, maintaining and repairing the buildings in which we work here in Washington and in our districts, securing the Capitol complex from threats, and for the technologies which we depend on to communicate among ourselves and with our constituents.

Key investments in this category include \$1.369 billion for the operations of the House. This includes basic pay and benefits for employees as well as a number of technology improvements, including funds to replace the aging electronic voting system in the House Chamber. It includes \$328 million for the Capitol Police to protect the Capitol, the Members, and our visitors; \$602 million for the Architect of the Capitol to support ongoing operational costs to the Capitol complex and to fund key initiatives to repair and upgrade these facilities; \$643 million for the Library of Congress, which is an increase of \$36 million over 2009, or 6 percent. This includes \$15 million, as requested, to accelerate improvements in the Library's IT infrastructure, the Librarian's top priority for 2010.

Madam Speaker, this bill is about more than just maintaining the status quo; it includes a number of new investments intended to provide for the long-term health of the Congress, and especially for the House of Representatives. It includes important security funding to protect the employees, visitors, and the institution itself. Let's not forget that one of the planes piloted by terrorists on September 11, 2001, was purported to be headed for the Capitol. A few weeks ago, a brave Capitol Police Officer engaged in a shootout with an individual brandishing a gun. Last year, a bomb was found in a car confiscated by the Capitol Police in the underground garage of the Govern-

ment Printing Office. The legislative branch budget may seem trivial and unimportant, but it funds the greatest democratic institutions in the world.

Madam Speaker, the Legislative Branch bill also funds our most important assets: the dedicated employees who staff our offices, committees, and support teams. We have endeavored to provide adequate funds for their compensation and benefits, but must do more if we are to continue to be able to recruit and retain the high-quality workforce which each Member depends upon. I am pleased that this conference agreement retains a House priority—funding for new childcare and tuition assistance programs which are currently being considered by the Committee on House Administration.

We also must take care of and preserve for future generations the grand buildings of the Capitol complex, many of which are aging and badly in need of repair. I am pleased that the conference agreement retains \$50 million of the \$60 million approved by the House in June to initiate a long-term effort to provide for the revitalization of the iconic buildings of the Capitol complex.

The new House Historic Buildings Revitalization Trust Fund will allow us to spread the cost of very expensive renewal projects, such as the 100-year-old Cannon House Office Building rehabilitation, evenly over the next decade. It allows the Congress to deal with these requirements in a more thoughtful and deliberate way. I am very proud that this bill steps up Congress' effort to deal with its aging infrastructure in a more forward-thinking manner.

Madam Speaker, this conference agreement also includes the fiscal year 2010 continuing resolution. I fully support this action. There are just 5 days until the start of the new fiscal year, and a continuing resolution is necessary to continue basic government services. It is a clean continuing resolution which follows the same pattern used in previous years, in particular, the fiscal year 2007 continuing resolution which was added to the Defense Appropriations bill by our friends on the other side of the aisle when they were in the majority. The only differences that have been added above the current rate are important increased investments in veterans' health care and funding in preparation for the 2010 census.

Before concluding, Madam Speaker, I want to take a minute to thank the minority, particularly my friend and ranking member, Mr. ADERHOLT from Alabama, for their very strong contributions to this conference agreement. I also want to thank my colleagues on the subcommittee, Vice Chairman MIKE HONDA, Representative BETTY MCCOLLUM, Representative TIM

RYAN, Representative DUTCH RUPPERS-BERGER, Representative CIRO RODRIGUEZ, Representative STEVEN LATOURETTE, and Representative TOM COLE. They all made important contributions to this product, and I truly appreciate their friendship and their effort.

I also want to thank our staff for the work that they have done throughout the year. They have put in long hours and have been very helpful to the Members. This includes Mike Stephens, our subcommittee clerk; Liz Dawson, the minority clerk; Shalanda Young, who has just joined the subcommittee staff; Jenny Kisiah, from the minority; Dave Marroni; and Matt Glassman, from the Congressional Research Service. And I want to thank my own associate staff, Ian Rayder, and the associate staff of all the Members on the subcommittee.

Madam Speaker, I am pleased to present this conference agreement to the House and urge the support of all Members.

Madam Speaker, I reserve the balance of my time.

Mr. ADERHOLT. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I am privileged to have had an opportunity to work this year with the chairman of this subcommittee, Ms. WASSERMAN SCHULTZ. And let me just echo what she was saying about all the staff that has helped on the majority and minority this year in putting this bill together. It is a good bill. We have worked very well together, all the subcommittee members on the minority and the majority side. So I am very happy to report that she has worked in a very open manner through this entire process, been very responsive to the concerns and input of all the members of the subcommittee.

We have worked very closely, and we have worked in a spirit of what I consider real bipartisanship for the needs of the legislative branch. I think it would be fair to say that Ms. WASSERMAN SCHULTZ has actually gone beyond the call of duty to make sure that this has been a fair process, along with all of her staff on the majority side. So I again want to especially thank the majority and the minority staff for all their work in putting this together, because certainly they do great work in making sure that what we need is put before us.

Division A of this conference report represents the efforts of the conferees to bring back to the House an agreement which was comprised in a bipartisanship manner and continues the priorities of the House of Representatives. The conference provides a total of \$4.656 billion, which is an increase of \$155 million, or 3.4 percent, over fiscal year 2009.

Among the highlights of the agreement are:

\$1.369 billion for the House of Representatives. This provides an appro-

priate level of funding for the Members' representational allowance;

\$328.3 million for the Capitol Police. This amount supports the current level of 1,799 officers and completes the Library of Congress Police merger;

\$602 million for the Architect of the Capitol. This includes a special emphasis on funding life safety and rehabilitation of critical infrastructure. Also, there is \$50 million for a new House Historic Buildings Revitalization Trust Fund to more evenly spread out the cost of repairing and revitalizing the historic icon buildings such as the Cannon House Office Building.

Also included in the bill is \$643 million for the Library of Congress. This amount includes \$15 million to fund the first year of the Library's 5-year information technology initiative.

There is \$147 million for the Government Printing Office. This amount includes \$7.8 million to continue the development of the Federal Digital System.

Funds are also provided for additional workforce to meet the congressional demands for the Congressional Budget Office and the Government Accountability Office.

Our conferees did their work and addressed many of the competing priorities and individual agency challenges that come with this particular piece of legislation. I know that the chairman of the committee, Ms. WASSERMAN SCHULTZ, feels as I do, that it is nice to have this piece of legislation behind us so that we can move forward. We have been working on this legislation since the very first part of the year, and I know it will be a great birthday present for the chairman, as she celebrates her birthday this weekend, to have this bill behind us. But I am very thankful for the work that we have put in together.

That being said, I think it is important that I stress the point that I am disappointed that the process has brought us to where we are on this Legislative Branch Appropriations bill because it has turned out to be the vehicle for the continuing resolution. This is simply not a reasonable or responsible kind of governing that our constituents sent us here to Washington to do.

As the ranking member of the Legislative Branch Subcommittee, I believe, of course, this bill is very important; but moving this bill forward first, even before Homeland Security and the security of the Nation, is not the proper way to prioritize funding or to meet the critical needs that face the American people.

Madam Speaker, we need a clean continuing resolution and a clean Legislative Branch Appropriations bill, which is what this committee was prepared to do. And while I support the underlying bill and the underlying work that is in this bill, I regret that because of the

attachment of the continuing resolution to this conference report I am unable to support this agreement in the House this morning.

Madam Speaker, I reserve the balance of my time.

Ms. WASSERMAN SCHULTZ. Madam Speaker, at this time, I will continue to reserve.

Mr. ADERHOLT. Madam Speaker, I yield such time as he may consume to the distinguished gentleman from California (Mr. LEWIS), the ranking member of the full committee.

Mr. LEWIS of California. Thank you very much, Mr. ADERHOLT.

I want to congratulate both Ms. WASSERMAN SCHULTZ and my colleague for a fabulous job on their bill working together.

I know that the House realizes that I have serious reservations about some of the procedure involving this bill, but because of the fact that we discussed so much of that on the rule, I choose to submit the balance of my statement for the RECORD and revise and extend my remarks.

Madam Speaker, the House finds itself in a peculiar place today. I'm probably not the only Member in this body surprised by the fact that the majority leadership is putting the budget for the Legislative Branch ahead of the budget for our homeland security, our veterans, and our national defense.

Indeed, many Members on both sides of the aisle are scratching their heads over the fact that the Legislative Branch funding bill has been hijacked by adding to it a 4-week continuing resolution. The CR is necessary because of the absence of any approved spending bills for the fiscal year that begins less than a week from now.

Attaching the CR to the Legislative Branch bill makes a mockery of the legislative process. It's not the CR that I object to but rather that it's being attached to legislation funding the internal operations of Congress rather than higher priority legislation that is ready to go.

Members who are concerned about approving their staff's budget before approving budgets for our veterans, our troops, or the homeland are left with a dilemma of the leadership's making. House Members are faced with the Hobson's choice of either approving their own budget or shutting down the government. Nothing could be more cynical.

To say the least, this is a most unusual precedent. The bipartisan staff of the Homeland Security subcommittee has been working day and night and weekends since August preparing its conference report. My understanding is that the Homeland Security conference report is ready to go. Any remaining issues can and should be resolved at an open conference involving Members and Senators. The whole point of convening a conference committee is to reconcile differences between the bodies.

And yet, even as our law enforcement officials investigate a potential terrorist threat in New York City and Denver, the budget for protecting our homeland has been put on a shelf. How can this Congress possibly justify providing funds for its own use and give less priority to protecting our homeland? I don't get it.

In this case, to put congressional staff salaries ahead of medical care for Veterans, ahead of funding for law enforcement and homeland security, ahead of funding for our troops—is a signal to me that this Congress has its priorities out of order.

Lastly, it's astonishing to me that several commonsense amendments were defeated on straight party-line votes during yesterday's conference committee meeting. The distinction between the Republican and Democrat positions on these issues could not be clearer.

House Republicans believe that the scandal-plagued organization known as ACORN should be denied funding through the next fiscal year because of recently disclosed efforts, caught on videotape, proposing the use of taxpayer dollars to support prostitution. Mr. ADERHOLT offered an amendment to deny ACORN funding for 1 year. Chairman OBEY and his colleagues voted against the amendment.

House Republicans believe that terrorists captured in the field should not be afforded the same rights as American citizens and therefore should not receive "Miranda Rights." I joined with my colleagues to offer an amendment to deny terrorists these rights. Again, Chairman OBEY and his colleagues voted against the amendment.

House Republicans believe that TARP funds should not continue to be used to bail out banks and other financial institutions even after existing loans have been paid back to the government. Congressman COLE offered an amendment to stop TARP from becoming a permanent, reusable, \$700 billion slush fund for private corporations. Again, Chairman OBEY and his colleagues voted against the amendment.

The priorities of this House majority leadership are clearly misplaced and out of the mainstream where most Americans work and live. I feel badly for Ms. WASSERMAN-SCHULTZ and Mr. ADERHOLT, and their fine staff, for they have worked very well together this year. I want to commend both of them for their work and extend my sympathy for the shameful manner in which their conference report is being brought to the floor today.

Ms. WASSERMAN-SCHULTZ. Madam Speaker, I yield such time as he may consume to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. I thank the gentlewoman for the time.

Madam Speaker, our principal obligation on this bill is simply to keep the government open. We've got enough problems in the economy right now without adding to people's uncertainty. We had concluded that the least disruptive way to do that and the way with the least delay was to attach this continuing resolution to the one appropriation bill that was ready to be conferenced, the Legislative Branch Appropriation bill.

This is a relatively straightforward and unadorned CR. As far as funding levels are concerned, we are simply allowing agencies to continue fiscal 2009 levels, with three exceptions:

First, we are following the House's lead when it voted 388-32 to allow the postal service to cover a budget short-

fall by postponing a payment intended to prefund its retiree health benefits;

Second, we're funding the census at a somewhat higher rate to allow it to ramp up activities so the 2010 census can proceed. The calendar is not going to change to suit congressional convenience;

Third, we are providing additional funding for the Veterans Health Administration. The VA expects to treat over 6 million patients in 2010, including almost 420,000 veterans of Iraq and Afghanistan.

□ 1045

The CR also extends a number of authorizations that would otherwise expire: transportation programs, child nutrition, stop-loss payments to our troops, E-Verify, and various other programs.

So, as I said, this is a relatively routine CR which keeps the government open for the next 30 days.

Outside of those items, we make no policy judgments. We change no existing policy except that, in accordance with the House vote last week, we also say no more funds for this 30-day period for ACORN. There have been some objections by the minority to this process. They claim it is procedurally outrageous because we are attaching the continuing resolution to a specific appropriations subcommittee bill. This is certainly not out of the ordinary.

In fact, in September of 2006, our friends on the other side of the aisle, when they controlled this House, attached the continuing resolution to the defense bill. I have the roll call on that if anyone cares to take a look at it. If you do, you would find out there were only two Members of the other party who voted against it, and in the Senate, the vote was 100 to nothing in support of it.

So there is no difference in what we are doing today, but there is a difference in how we do it. We are up front with what we are doing. We included this action in the conference notes, and voted on it in the conference. That was certainly not the case in 2006 when the action of adding the CR was not flagged or noticed in any way during the conference or in the conference notes. I have a copy of those conference notes here if anyone wishes to see them. So the action that was taken then was simply taken after the fact in contrast to our doing it up front and in full view. So I believe that, in comparison to that, this action is, certainly, totally transparent.

Now I need to take this opportunity to note one other point: Until last night, we were not in a position to move other appropriations bills because of a dispute between the House and the Senate over how to deal with for-profit earmarks. As I think the membership knows, we have put in place in the last few years significant

reforms to the earmark process. When we took over control of the Congress in 2007, we put in place a moratorium on earmarks for that year until we could reform the process and make it much less susceptible to wasting taxpayers' money. Since then, including this year's bills, we have cut the dollar amount of earmarks by 50 percent. We require every Member to request earmarks publicly, ending the practice of anonymous earmarks in the House, and to certify that they have no financial interest.

This year, we have gone one step further. Recognizing the potential for abuse in sole-source contracting, we have insisted that all House earmarks designated for for-profit entities must undergo a competitive bidding process. We still allow those entities to be named so we can help, for instance, small businesses get a foot in the door so that they can be noticed by Federal agencies, which all too often simply notice people with whom they are familiar in their inside processes, but we nonetheless require that those entities still submit a bid and compete in a fair competition.

The Senate did not do that this year, and up until last night, was objecting to even allowing the House to follow this policy. Last night, we reached an agreement that will allow us to proceed with House earmarks subject to that new policy.

There is still one small area of disagreement that remains. There are a small number of projects, approximately 5 percent, which have been included in both the House and Senate bills. Until last night, the other body was refusing to allow those to be competed. Under the agreement we reached this year and this year only, those projects will be dealt with according to Senate policy. Next year and thereafter, they will be managed by House policy. So they, too, will be subjected to competition next year.

We reached this agreement because the other body insisted that, because they had proceeded all year under their policies, it was too late to change the rules of the game for them. We recognize that changing policies at this point would be a procedural problem for the other body. We do appreciate their agreement that, starting next year, we can all agree on how to handle for-profit projects and that they will be handled in accordance with the House procedures.

This will enable us to now proceed to conference on a number of other appropriations bills which have been passed by the Senate: We have had a motion to go to conference on energy and water. We expect next week, after two small matters are resolved, to also be able to go to conference on the Agriculture bill. We hope that, within a week, we will be able to resolve a few remaining differences on the Homeland

Security bill and to also go to conference on that and other bills as the Senate grinds through them in their processes.

So, having reported that to the House, I would simply urge an "aye" vote for the legislation before us, and would simply note that, given the calendar, a vote against this proposition would be a vote to shut down the government.

With that, I thank the gentlewoman for the time.

Mr. ADERHOLT. Madam Speaker, I yield 4 minutes to the distinguished gentleman from Kentucky (Mr. ROGERS), who is the ranking member of the Homeland Security subcommittee.

Mr. ROGERS of Kentucky. I thank the gentleman for yielding me the time.

Madam Speaker, I have no problem with the bill that is before us, the Legislative Branch appropriations bill. I think the chairman and the ranking member have done an excellent job with that bill.

However, I have to register my objection to considering the funding bill for Congress and for putting off the bill that funds our homeland security and including it in the continuing resolution.

For almost 7 years, we've had a near-perfect track record of getting the Homeland Security appropriations bill done before funding for the rest of the government. It has taken bipartisan wrangling and compromise, but we've always produced a bill that the President could sign almost unanimously before the other bills.

Why? Because Congress considered the security of the Nation as paramount. This year should be no different.

We've preconferenced the Homeland Security bill with our Senate counterparts. We could produce a bill for the President to sign in a matter of days. Yet the leadership says no. Include Homeland Security in a continuing resolution, and put it off. Instead, first pass funding for the Congress. Our pay is more important than defending our country.

Mr. OBEY. Would the gentleman yield for a question?

Mr. ROGERS of Kentucky. Not at the moment. I will later.

On June 24 of this year, the House wrapped up consideration of the Homeland Security bill, and passed it with 389 votes in this body. Three weeks later, the Senate passed their version of the bill with a near unanimous vote. So it has been more than 2 months since both bills were passed. Since August, staff has been diligently reconciling these two bills, reaching bicameral, bipartisan agreements. We could have produced a finished bill for this body to consider a month ago. Yet leadership refused to allow it to happen.

So I stand here today very concerned, Madam Speaker. There is virtually no excuse to punt this vital security spending bill and to fund the Department of Homeland Security under a continuing resolution. Instead of actually doing our work and fulfilling the security needs of our Nation, we are placing a priority on Congress' own budget, putting Homeland Security spending on ice, taking the next few Mondays and Fridays off, and basically waiting around until October until we get further direction from on high.

That is as indefensible, Madam Speaker, as it is dangerous. The security and safety of our citizens should be our number one priority. Look around you. We face complex cybersecurity challenges, emerging threats from overseas, terrorist cells operating on our soil, and increasing violence along the southwest border, which is already claiming U.S. lives.

The fiscal 2010 Homeland Security bill will infuse much needed increases to our efforts to bolster our border security, to track down illegal immigrants, to protect our critical infrastructure, to replace the aging Coast Guard fleet, and to improve the preparedness of our first responders.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. ADERHOLT. I yield the gentleman an additional 2 minutes.

Mr. ROGERS of Kentucky. Why must our brave Homeland Security professionals wait while we bicker and delay here in the House? Real security demands commitment—commitment from this body and commitment from the Nation's leadership.

I know my subcommittee chairman, DAVID PRICE, and I are ready to finish the work of our bill, and we could do it in a matter of hours, if not days. So I am disgusted, Madam Speaker. I apologize for that, but I think we should reconsider the decision that has been made by leadership to put off funding for the Nation's homeland defense and, instead, to take up funding for this body.

So I will have to vote "no" on the bill, although, I think the Legislative appropriations is okay.

Ms. WASSERMAN SCHULTZ. Madam Speaker, I yield 30 seconds to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Madam Speaker, I would simply note, in light of the gentleman from Kentucky's comments, there are at least seven outstanding issues on homeland security that, to my knowledge, have yet to be resolved. One is the border fence. Another is the National Bio and Agricultural Defense Facility. There is an argument about where that's supposed to go. We have the Gitmo issue. We have immigration issues. We have FEMA.

If the gentleman wants to resolve those by agreeing with our position on

each of them, I would be happy to see them go to conference right now.

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. WASSERMAN SCHULTZ. I yield the gentleman an additional 2 minutes.

Mr. OBEY. The fact is that no one has suggested that they delay the Homeland Security bill in any manner whatsoever. We are noting that there are significant substantive differences. Under the rules of the body, we can't bring a conference bill back to this House until we've reached agreement on all of those differences.

Mr. ROGERS of Kentucky. Will the gentleman yield?

Mr. OBEY. So I think it's patently preposterous to suggest that this bill is being delayed in any way.

The only thing that is delaying it is honest disagreement and, until last night, the disagreement that we had with the Senate which precluded us from bringing up virtually any other bill. Thankfully, that is now gone.

Mr. ROGERS of Kentucky. Will the gentleman yield?

Mr. OBEY. No, I will not. The gentleman would not yield to me. I don't see any reason to yield to him.

Mr. ADERHOLT. I yield the gentleman from Kentucky an additional 2 minutes.

Mr. ROGERS of Kentucky. Well, in response to the distinguished chairman of the Appropriations Committee, if the gentleman would have allowed the Homeland Security conference to proceed—I mean we passed these bills 2 months ago, the House and Senate. We've had 2 months. Yet the gentleman has not allowed conferees to be appointed to consider the Homeland Security bill. In the meantime, staff and Members have been working with our Senate counterparts. We are in agreement. There are no remaining issues. We're ready to go. Ready to go.

□ 1100

Ms. WASSERMAN SCHULTZ. Madam Speaker, I yield myself 1 minute just to point out that with the greatest respect to the gentleman from Kentucky, the Legislative Branch appropriations bill before us being used as a vehicle for the continuing resolution was the most ready to go. There were no outstanding issues at all.

The gentleman from Wisconsin has just indicated a number of issues remaining on the Homeland Security bill. We are 5 days from the end of the fiscal year with an intervening weekend included in those 5 days. It is simply a matter of making sure that we are not shutting the government down.

I appreciate the good work of my colleague, Mr. ADERHOLT, and the members of the minority on getting this bill, the Legislative Branch appropriations bill, in the best possible position to serve as a vehicle to keep the government open.

I reserve the balance of my time.

Mr. ADERHOLT. Madam Speaker, I yield 2 minutes to the distinguished gentleman from Texas (Mr. HENSARLING), who is a senior member of the Budget Committee.

Mr. HENSARLING. I thank the gentleman for yielding.

Madam Speaker, we have a continuing resolution well hidden in a Legislative Branch conference report. Why are we voting on a continuing resolution, Madam Speaker? We are voting on a continuing resolution because this Congress and this President have spent too much money, and now they want more.

Already this President and this Congress have passed into law a \$1.1 trillion stimulus plan which, by the way, since it was passed, we have had almost 3 million more join the unemployment ranks, the highest unemployment rate in almost a quarter of a century. But that stimulus plan weighed in at \$9,746 per household.

Next this Congress and this President signed into law, passed into law an omnibus costing \$410 billion, \$3,511 per household.

The bailouts continue. Madam Speaker, another \$30 billion for AIG, almost \$30 billion for Fannie Mae and Freddie Mac, not to mention \$60 billion for GM and Chrysler. The serial bailouts continue.

What has all this spending brought us, Madam Speaker? It has brought us the Nation's first, first trillion-dollar deficit, and a deficit that increased 10 fold, 10 fold, in just 2 years.

On top of this now the President and the Congress want a \$3.6 trillion budget and a trillion-dollar nationalized health care plan that we cannot afford, meaning that the national debt will triple, triple in the next 10 years.

Madam Speaker, under this spending plan, we are borrowing 43 cents on the dollar, mainly from the Chinese, and sending the bill to our children. If the spending, if the borrowing, if the deficits do not stop, this will be a Congress that will ensure that it's just a matter of time before the Chinese initiate foreclosure proceedings on our Nation.

We cannot let that stand.

Ms. WASSERMAN SCHULTZ. Madam Speaker, I yield 1 minute to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Madam Speaker, what we just heard came from a Member of the then-majority party, which turned \$6 trillion in inherited projected surpluses into a \$2 trillion deficit. We heard that from a Member of the party that provided \$2 trillion in tax cuts primarily aimed at the wealthiest people in the country, all paid for with borrowed money, from the same folks who gave us almost \$1 trillion in spending on the most ill advised war in the country's history, also paid for with borrowed money.

They ran the country's economy into the ditch with record collapse of consumer spending and record collapse of unemployment. Then they are now complaining when Mr. Obama and the majority party are now trying to pull the country out of the ditch.

Someone else can take that seriously if they want, but I won't be one of them.

Mr. ADERHOLT. Madam Speaker, I yield 2 minutes to the distinguished gentleman from Texas (Mr. NEUGEBAUER), who is a senior member of the Financial Services Committee.

Mr. NEUGEBAUER. Madam Speaker, I rise today on behalf of the taxpayers of the 19th Congressional District and all across America. They are angry, Madam Speaker, about the spending and the borrowing that's going on in Washington.

At a time when they are cutting back to make ends meet, paying down their credit cards, saving more, working hard to provide for their families, they don't understand why their government isn't doing the same thing. They don't understand why the government is not only spending all of their tax dollars, but also borrowing almost 50 cents for every dollar that they spend.

This bill before us increases spending for the legislative branch by 5.7 percent. I don't know about other Members in the House, but I think it's pretty hard to explain to the taxpayers why we are increasing our budget by 5.7 percent and the American people are cutting their budgets.

The only explanation I can think of is that Congress doesn't get it. Well, the American people get it. Like them, I don't understand why we are increasing the legislative branch budget when the deficit is going to hit \$1.6 trillion this year, projected to be \$1.3 trillion next year.

This bill includes provisions to continue funding for programs as we complete the remaining annual spending bills, but I would advocate that Congress go ahead and finish the job that it started.

The problem is that these annual spending bills are set forth to increase our spending by 8.9 percent this year. This spending increase would come on top of an 8.6 percent increase last year, a nearly \$1 trillion economic stimulus package, and a \$700 billion financial bailout.

Instead of passing bills to increase spending at a time when we have added \$1 trillion to our national debt this year, Congress should, at a minimum, freeze spending at this level.

Had we gone through normal order, I offered an amendment that would have frozen spending for the coming year and saved the American taxpayers \$43 billion. It's a start, Madam Speaker.

I urge members to vote against this bill.

Mr. ADERHOLT. Madam Speaker, I yield back the balance of our time.

Ms. WASSERMAN SCHULTZ. Madam Speaker, I want to again thank the gentleman from Alabama and my colleagues on the other side of the aisle, as well as the members of our subcommittee, for the good work that they have done on developing this Legislative Branch appropriations bill.

We have a good solid product to make sure that we can move the legislative branch institutions forward and to preserve the legacy of the Capitol complex and its institutions for future generations. We also are going to make sure that we keep the government running.

I am hopeful that my colleagues, both on the other side of the aisle as well as on my side of the aisle, will vote for this bill. A vote against this bill would jeopardize the security and safety of our citizens. Shutting the government down is not a responsible action.

Mr. LATHAM. Madam Speaker, here we are on the Floor of the House again, with less than a week to go before the end of the fiscal year, and the majority is not prepared to send a single, finalized appropriation bill to the President for signature. Where is the change that was promised?

In addition to the legislative bill before us today, we have four significant funding bills that have passed both the House and Senate, and are ready to go to conference or whatever we call conferences these days: Agriculture, Energy and Water, Homeland Security and Transportation/HUD. These are bills that contain important funding for all of our districts, including monies for new and important initiatives that might help the economy.

Over the course of this FY-2010 funding cycle, the majority has run a process that has prevented spending bills from being perfected through the amendment process, primarily to avoid tough votes.

That stunted process has allowed the funding bills to be rammed through the House. Yet, with closed Rules, an 80-seat majority in the House and a 20-seat majority in the other Body, the congressional leadership still cannot manage to move the appropriation bills. As my children used to say, "what's wrong with this picture?"

Ladies and gentlemen, I suggest that what is wrong with this picture is a continuation of what has been going on for the last several months and it is not about the last administration.

Right now, we are: sitting on a 9.6% unemployment rate; struggling with CBO deficit projection numbers that are off the charts for the next several years; suffering the fiscal effects of a gross misallocation of Stimulus bill funds that mostly went to expanding 73 existing government programs and adding 30 new ones for select constituencies; and procrastinating over a healthcare situation about which all agree something must be done, but which the majority refuses to consult the minority or produce a product.

And today, the majority is determined to perpetuate this craziness with a "cooked" appropriation process to temporarily fund the government because the House and Senate cannot get their respective acts together.

No wonder, we heard noisy demonstrations at town hall meetings and in Washington. Folks, the noise from outside the Washington Beltway is not just a response to the healthcare fiasco though that is certainly a part of it.

The noise is part of a steadily growing response to what people rightly perceive to be those running the government in Washington not paying attention to their concerns and fears about spending and the paths we are taking.

This continuing resolution exercise today is just one more example that the majority intends to keep ignoring those concerns.

Mr. HOLT. Madam Speaker, I rise today in support of the Legislative Branch Appropriations bill for Fiscal Year 2010, which will also allow for continuation of government functions through October 31, 2009.

Through this spring and into the summer, the House has worked diligently to approve all 12 regular appropriation bills. Yet, our colleagues on the other side of the rotunda have not finished their work and so today we must approve continued funding for all government operations which are scheduled to expire on September 30, 2009. I hope that we will be able to reach agreement with our Senate colleagues and complete all regular appropriations bills and need no more continuing resolutions.

I regret that the Legislative Branch Appropriations bill does not include funding for the revival of the Office of Technology Assessment, OTA. When OTA operated it provided Congress with assistance in identifying and assessing the consequences of science and technology in a very useful manner and time-frame.

While I was unsuccessful this year reinstating funding for the OTA, I will continue to fight for the revival of OTA because it would strengthen Congress as an institution, elevate the discourse on matters affected by science and technology, and allow Members to more effectively carry out their duties as the people's representatives.

Another point troubles me greatly. This bill contains in Section 163 a provision to deny funding to ACORN or its allied organizations. I must note that a number of questions have been raised about the constitutionality of this section, and I share these concerns. Article I Section 9 of the Constitution of the United States is explicit that, "No Bill of Attainder or ex post facto Law shall be passed." Thus, it is unconstitutional for Congress to pass legislation declaring an individual or a group guilty and sanctioning them without benefit of a trial. Without doubt, the revelations about ACORN presented on the internet and television recently are cause for concern and indicate possible illegality and misuse of funds. Reports on television, however, are not cause for Congress suddenly to become a part of the judicial branch of government and declare guilt and mete out punishment without any legal proceedings. The Congressional Research Service has been asked to look into this question, and concluded that a court would most likely "find that it violates the prohibition against bills of attainder."

Mr. TOWNS. Madam Speaker, I would like to thank Chairman OBEY for his assistance,

and Representative WASSERMAN SCHULTZ of Florida and the members of the conference committee for their hard work in putting together this conference report. Included is a provision of great importance to the Postal Service, over 600,000 postal employees, and 300 million postal customers, who are also our constituents. This conference report includes language from H.R. 22, the United States Postal Service Financial Relief Act of 2009, a bill reported out of the Oversight and Government Reform Committee on July 10 and passed by the full House on September 15.

This provision will allow the United States Postal Service to lower its 2009 payment into the retiree health benefits fund from \$5.4 billion to \$1.4 billion. It does not provide any taxpayer funds to the Postal Service. The language was originally included in H.R. 22, a bill that has been properly vetted and amended by the House Oversight and Government Reform Committee. In line with calls for a more fiscally responsible government, the provision lowering the Postal Service payment does not score. For these reasons, the House passed H.R. 22 by an overwhelming margin of 388 to 32.

The Postal Service faces an unprecedented crisis. Mail volume is projected to drop to 175 billion pieces in fiscal year 2009, from a high of nearly 213 billion pieces. The Postal Service anticipates a loss of more than \$7 billion by end of fiscal year 2009. The losses were driven by the nationwide economic recession, diversion of mail to electronic alternatives, and also by the aggressive payment schedule for retiree health benefits required by the Postal Accountability and Enhancement Act. Its fiscal year 2008 payment total for current and future retiree health benefits was roughly \$7 billion. The Postal Service has paid \$10 billion into the trust fund over the past 2 years. It suffered a combined loss of \$7.9 billion over those 2 years. Without the onerous payments into the trust fund, the Postal Service would have made a net profit of more than \$4 billion over that period.

Reducing the size of the payment into the trust fund for 2009 will bring the postal payment closer to the \$1.6 billion amount recommended by the Postal Service Inspector General, while permitting the Postal Service to survive the economic crisis. Many large companies in the private sector have also temporarily reduced pension and retiree benefit contributions in order to ride out similar, difficult financial circumstances.

I would like to thank Representatives MCHUGH of New York and DAVIS of Illinois for introducing this bill and for their hard work and patience in navigating the bill through the House. Further, I would like to thank the House Democratic leadership and the Budget Committee for working with us to help advance the bill to the floor. Also, I would also like to recognize Chairman LYNCH of Massachusetts for his leadership on the subcommittee and being a tireless advocate for the Postal Service and its employees. Additionally, I would like to thank the Gentlemen from California and Utah, Representatives ISSA and CHAFFETZ, for their help in securing bipartisan support for H.R. 22.

In the coming months, our committee will continue to provide close oversight of the

Postal Service, including studying the business model of the Postal Service to help determine what longer-term changes may be necessary.

I am confident that upon enactment of H.R. 22 the Postal Service will be able to meet its financial obligations for this year.

Ms. WASSERMAN SCHULTZ. I yield back the balance of my time.

The SPEAKER pro tempore. All time for debate has expired.

Pursuant to House Resolution 772, the previous question is ordered on the conference report.

The question is on the conference report.

Pursuant to clause 10 of rule XX, the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 217, nays 190, not voting 25, as follows:

[Roll No. 739]

Mr. TAYLOR, Mrs. EMERSON, Messrs. GRIFFITH, TOWNS, ELLISON, Ms. SCHAKOWSKY, Ms. VELÁZQUEZ, and Ms. WOOLSEY changed their vote from “yea” to “nay.”

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. LOEBSACK. Madam Speaker, during rollcall vote No. 739 on Conference Report to H.R. 2918, I was unavoidably detained. Had I been present, I would have voted “yea.”

Mr. HINOJOSA. Madam Speaker, during rollcall vote No. 739 on the Conference Report to H.R. 2918, I mistakenly recorded my vote as “nay” when I should have voted “yea.”

Stated against:

Ms. CLARKE. Madam Speaker, on rollcall No. 739, had I been present, I would have voted “nay.”

Mr. POE of Texas. Madam Speaker, on rollcall No. 739. I was inadvertently detained. Had I been present, I would have voted “nay.”

Mr. WILSON of South Carolina. Madam Speaker, I submit to the RECORD the following remarks regarding my absence from a vote which occurred on September 25. I was in a meeting with constituents and unable to make the vote. Listed below is how I would have voted if I had been present.

H.R. 2918—On Agreeing to the Conference Report for Legislative Branch Appropriations Act, FY 2010 (Roll no. 739)—“nay.”

#### PERSONAL EXPLANATION

Mr. NUNES. Madam Speaker, on the legislative day of Friday, September 25, 2009, I was unavoidably detained and was unable to cast a vote on a number of rollcall votes. Had I been present, I would have voted: rollcall 738—“nay”; rollcall 739—“nay.”

#### PERSONAL EXPLANATION

Mr. MICA. Madam Speaker, I was unavoidably detained and was unable to vote on rollcalls 738 and 739. Had I been present, I would have voted: “nay” on each of these measures.

The SPEAKER pro tempore. Pursuant to section 2 of House Resolution 772, House Concurrent Resolution 191 is hereby adopted.

The text of the concurrent resolution is as follows:

#### H. CON. RES. 191

*Resolved by the House of Representatives (the Senate concurring).* That, in the enrollment of the bill (H.R. 2918) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes, the Clerk of the House of Representatives shall make the following corrections:

(1) In section 158(a) of division B, strike “section 158” and insert “section 157”.

(2) In section 158(b) of division B, strike “section 158” and insert “section 157”.

(3) In section 162 of division B, strike “sections 158 through 162” and insert “sections 157 through 161”.

#### COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

HOUSE OF REPRESENTATIVES,  
Washington, DC, September 25, 2009.

Hon. NANCY PELOSI,  
*The Speaker, The Capitol, House of Representatives, Washington, DC.*

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on September 24, 2009, at 5:57 p.m.:

That the Senate passed S. 1707.

With best wishes, I am

Sincerely,

LORRAINE C. MILLER,  
*Clerk of the House.*

#### MESSAGE FROM THE SENATE

A message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed without amendment bills of the House of the following titles:

H.R. 1687. An act to designate the federally occupied building located at McKinley Avenue and Third Street, S.W., Canton, Ohio, as the “Ralph Regula Federal Building and United States Courthouse”.

H.R. 2053. An act to designate the United States courthouse located at 525 Magoffin Avenue in El Paso, Texas, as the “Albert Armendariz, Sr., United States Courthouse”.

H.R. 2121. An act to authorize the Administrator of General Services to convey a parcel of real property in Galveston, Texas, to the Galveston Historical Foundation.

H.R. 2498. An act to designate the Federal building located at 844 North Rush Street in Chicago, Illinois, as the “William O. Lipinski Federal Building”.

H.R. 2913. An act to designate the United States courthouse located at 301 Simonton Street in Key West, Florida, as the “Sidney M. Aronovitz United States Courthouse”.

H.R. 3607. An act to amend the Internal Revenue Code of 1986 to extend the funding and expenditure authority of the Airport and Airway Trust Fund, to amend title 49, United States Code, to extend authorizations for the airport improvement program, and for other purposes.

The message also announced that the Senate has passed bills of the following titles in which the concurrence of the House is requested:

S. 832. An act to amend title 36, United States Code, to grant a Federal charter to the Military Officers Association of America, and for other purposes.

S. 1599. An act to amend title 36, United States Code, to include in the Federal charter of the Reserve Officers Association leadership positions newly added in its constitution and bylaws.

#### LEGISLATIVE PROGRAM

(Mr. MCCARTHY asked and was given permission to address the House for 1 minute.)

Mr. MCCARTHY of California. Madam Speaker, I yield to the gentleman from New York for the purpose of announcing next week’s schedule.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

Mr. CROWLEY. I thank the gentleman from California for yielding.

On Monday, the House will not be in session.

On Tuesday, the House will meet at 12:30 p.m. for morning-hour debate and 2 p.m. for legislative business, with votes postponed until 6:30 p.m.

On Wednesday and Thursday, the House will meet at 10 a.m. for legislative business.

On Friday, no votes are expected in the House.

We will consider several bills under suspension of the rules. The complete list of suspension bills will be announced by the close of business today.

In addition, we will consider Senate 1707, a bill to authorize appropriations for fiscal year 2010 through 2014 to promote an enhanced strategic partnership with Pakistan and its people; the conference report on H.R. 3183, Energy and Water Development and Related Agencies Appropriations Act, 2010; and additional motions to go to conference on appropriations bills.

Mr. MCCARTHY of California. I thank the gentleman.

Reclaiming my time, according to Politico, the Speaker announced at your caucus meeting on Wednesday that she intends to have the final version of the Democrat health care bill drafted by the end of next week. My question is: Was the Speaker's statement accurate? And do we expect floor action on the health care bill in the House?

Mr. CROWLEY. A bill will be brought to the floor when a bill is ready to be brought to the floor. I would leave it at that. The bill will be brought to the floor when it's ready to be brought to the floor.

Mr. MCCARTHY of California. Was the Speaker correct? Do we think it is going to be brought to the floor or ready by next week?

Mr. CROWLEY. Well, if the bill is ready to be brought to the floor by next week, it could very well be that case. The bill will be brought to the floor when the bill is ready to be brought to the floor.

Mr. MCCARTHY of California. Will the bill be drafted by next week so people on the other side could actually see it?

Mr. CROWLEY. Again, the bill will be brought to the floor when the bill is ready to be brought to the floor.

Mr. MCCARTHY of California. Well, I thank the gentleman for his answer.

Earlier this week on Monday, our Republican whip, ERIC CANTOR, held a bipartisan town hall on health care with Democrat BOBBY SCOTT, both of Richmond, Virginia, showing bipartisan action. Following the town hall, the majority leader on your side told the media that he would like to meet and discuss health care reform with us, and we have expressed our willingness to meet with him. But we have not been asked by the majority leader yet.

Do you believe that we will be at any time soon, so that our leader can continue to carry on that bipartisan conversation?

I yield to the gentleman.

Mr. CROWLEY. I thank the gentleman for his question. I think the gentleman knows, as do I, that the majority leader is a man of his word; and if he gave his word to do that, I anticipate that he will follow through on that. I can't speak for him. But knowing if that's what he said, I'm sure that he will follow through on that request.

Mr. MCCARTHY of California. We look forward to that. Being one of the signatures early on in this health care discussion to a letter that the leadership on this side sent to the President saying that we were willing, able and wanting to sit down to discuss health care, we're still waiting for the President to allow us to have that discussion in a bipartisan manner.

I do believe that the work that our Republican whip, ERIC CANTOR, and Congressman BOBBY SCOTT on your side of the aisle, that the bipartisanship that they showed down there was very positive. We look to your majority leader coming forward and following up and having that discussion with our leader.

Mr. CROWLEY. I think we all welcome bipartisanship on this debate, and we hope in the end that this will be a bipartisan solution to what is a problem not only for Democrats and Republicans but for all Americans. I think if we could have more productive town halls around the country like the one you referred to that took place where the facts and the issues can be exposed, talked about and deciphered, I think we will all be better off for that.

□ 1145

Mr. MCCARTHY of California. I thank the gentleman.

I would like to know from one standpoint early on and within here as we look across America and we look at the jobless and the idea that we want to create jobs here, many on this side of the aisle worked very hard on a stimulus bill that focused on small business, where 79 percent of all jobs are created. We wanted to focus on job creation. We presented that to the President. Unfortunately, that did not get put into the stimulus.

But the President told us that unemployment would not rise above 8.5 percent if we passed the Democrats' stimulus. Since the signing of the stimulus bill, Americans have lost another 2.5 million jobs and unemployment is now at 9.7, much higher than what the President said it would be.

Will this House bring any legislation next week to help create jobs?

I yield.

Mr. CROWLEY. I thank the gentleman for yielding to me.

I don't think there's any question that these have been very, very dif-

ficult months and, quite frankly, years that the American people have been suffering through. We have looked consistently at months—prior to recent months—of 600,000, 700,000 jobs lost per month, quite frankly, going back to the previous administration, under the Bush administration, where the job loss was at its height. I'm happy to note that that job loss has been diminishing steadily over the past few months, and, in fact, we saw an additional 21,000 fewer jobs lost in this month than the prior month.

Having said that, the road to recovery remains a long one, and we understand that. That's why we took the steps that this administration took, following up on the legislation passed in the prior Congress to help stimulate the growth of jobs in this country. And I believe, as many of my colleagues do, that increasingly there are signs that the economy is turning around. I know that Mr. Bernanke, Federal Reserve Chairman said, "The recession is likely over at this point." I think those are very optimistic statements, and I appreciate the chairman's response to a query.

But I do think we still have a long way to go, and we will work to ensure that job loss is not only stemmed but that we have actual job growth. And we anticipate when the Recovery Act is fully appreciated that we will begin to see job growth in this country.

Mr. MCCARTHY of California. Reclaiming my time, I appreciate the gentleman's willingness to work together. And knowing that with the stimulus the President said unemployment would not go above 8.5, and now it's 9.7, and sitting on Financial Services listening to Mr. Bernanke saying that it will continue to rise, would your side of the aisle be willing to work with us so we could reprogram the money in the stimulus to actually be job creation or help pay down this national debt so our country could actually be stronger? Do you see any future ability of making that happen?

I yield to the gentleman.

Mr. CROWLEY. I thank the gentleman.

I'll just restate for the record: The CBO, the CEA, Moody's all estimate there are 1 million more jobs now than there would have been without the Recovery Act that we passed here in the House. The Congressional Budget Office said in the budget economic update that "even though some elements of the CBO's forecast, particularly the unemployment rate, have clearly worsened, such revisions to the forecast reflect a much sharper deterioration in underlying labor market conditions than had been anticipated rather than a smaller impact of the legislation." In addition, the CBO also said that "the fiscal stimulus provided under the American Recovery and Investment Act will significantly boost economic

activity above what it otherwise would have been."

So I think, going back to what I said before, we're seeing a reversal in job loss. We are not at zero yet, but as I said before, 21,000 fewer jobs were lost in the prior month than they were the month before that. I think that's showing that it is stemming, it is slowing down. And we anticipate that if it continues in that way, which we all hope for and anticipate it will, we will begin to see job growth.

Mr. MCCARTHY of California. Reclaiming my time, when the President first got elected, this side of the aisle invited him to our conference and we sat down and had a discussion about which direction the stimulus bill should go. We actually had a very honest debate.

This side of the aisle wanted to focus on job creation. Our focus was about small business. That's where 79 percent of the jobs are created. And the President said, Well, why don't you write out a bill and bring out some ideas?

So a number of us worked together, a lot of hours, a lot of nights, crafting legislation. And we put this together, and we actually sat down and said, You can't just write down legislation; you need to score it. The idea is for the American people to know what this would cost and how many jobs would it create. And as we put that scoring together, do you know it created twice as many jobs with half the amount of money in the stimulus bill? And we handed that to the President. Unfortunately, it did not get into the bill. And the President said that it was more important on the time of when the stimulus bill passed, and not what was in it; he said if the bill was passed now, unemployment would not go above 8.5 percent.

Well, I don't need a CBO study to understand that's not true. It's now at 9.7. And I think the American people want us to work together to create jobs, not to sit here and somehow celebrate the idea that only 21,000 jobs were lost. We need to be able to work together and celebrate a million new jobs created. We have legislation that allows it, that focuses on small business, focuses on job creation. And I look forward that this Congress could come together.

Mr. CROWLEY. Will the gentleman yield once again? I just want to respond, if I could, to the gentleman.

Mr. MCCARTHY of California. I'm glad to yield to the gentleman.

Mr. CROWLEY. Thank you for yielding.

I appreciate your words of desire for more bipartisanship, and I would just suggest that the Recovery and Reinvestment Act that we passed reflected more bipartisanship in the legislation than was reflected by the vote that took place here on the floor. I think there were many attempts to include

some of the ideas and thoughts from your side of the aisle that were included in that bill, and I can talk about a number of them. But it was not reflected in the overall vote that took place. I, too, hope that in the future we can have more of a reflective vote of bipartisanship on issues like that, as we had this week when both Democrats and Republicans voted 331-83 to extend unemployment for those Americans who are still out of work, who are looking and struggling to find employment. And I hope the Senate will act to pass that bill and send the bill on to the President as soon as possible.

I appreciate the gentleman's yielding for this discussion.

Mr. MCCARTHY of California. Reclaiming my time, the gentleman is correct. The bipartisan vote for the stimulus bill was a "no" vote. A number of people on the other side of the aisle also saw that that bill would not hold us to only 8.5 percent unemployment, that there was a better way, a better idea.

The one thing I would always ask the gentleman and those on the other side, bipartisanship means the power of the idea wins at the end of the day. So when a paper is presented that shows it creates twice as many jobs with half the cost, the pride in ownership should not be there. We should allow the American people to actually win, that jobs being created is a much better place for America. And when that is presented again, which we will always gladly do, to sit here and work with you, because we want to put people before politics. We want to create an America that is strong, and we want to leave America not in debt.

So as we move forward, I would always challenge everybody on this floor: The amount of the national debt that is accumulating in this administration is unheard of, and we have to make sure, this generation that's going before us, that we leave an America better off than we were before.

Mr. CROWLEY. Will the gentleman yield?

Mr. MCCARTHY of California. I would be glad to yield.

Mr. CROWLEY. I appreciate again his comments and his desire to work in a bipartisan way to help lift America out of the doldrums that it's in, lift America out of what has been called "the Great Recession."

I think it's also important to note that we didn't get here in the last 9 months. And we can decry the overspending by this administration all we want, but we also have to reflect upon the overspending of the prior 8 years, which I recognize the gentleman was not serving in the House of Representatives at the time, when the other side of the aisle increased the spending and increased the deficit beyond anyone's wildest dreams.

So I appreciate your thoughts. I too want to help stop putting debt on the

backs of my children and my grandchildren. We both share that. And we all need to work together in a bipartisan way to help this President. As he has said, his desire is to slash the national debt in half, and I think we're going to work together to make that happen.

Mr. MCCARTHY of California. Reclaiming my time, if the President only slashes it in half, it's still the highest deficit that we have ever had.

I am one who likes to look forward. I may have only been here 3 years, but the one thing I have seen, if you take the entire history since the creation of this country, there have been 44 administrations. If you just take the first 43, from George Washington to George Bush, and you add up all the amount of debt that was accumulating, and that's from the creation of this country to our battles with Britain, to World War I, to the Depression, to World War II, Katrina, Afghanistan, Iraq, Vietnam, Korea, the creation of a highway system, it is equal to the amount of debt that is going to be doubled. That is something that cannot be maintained. That is something that cannot be happening.

The way to get out of it, you have to control your spending and you have to create jobs. That's why the power of the idea needs to win at the end of the day.

So we will continue to come up with the ideas. We will continue to try to work in a bipartisan manner, and we will continue to hand them to you. But the only thing I ask of you is when you see something that would create twice as many jobs with half the cost, let's put people before politics, let's put America first, and let's move forward to the future.

Mr. CROWLEY. I would ask the gentleman, as a point of clarification, was that from George Washington to the beginning of George Bush's term or the end of George Bush's term?

Mr. MCCARTHY of California. It's to the end of George Bush's term.

---

#### ADJOURNMENT TO TUESDAY, SEPTEMBER 29, 2009

Mr. CROWLEY. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 12:30 p.m. on Tuesday next for morning-hour debate.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

---

#### CMS GAG RULE

(Mr. HERGER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HERGER. Mr. Speaker, we are now on day 5 of the Obama administration's gag order barring Medicare Advantage plans from telling their enrollees about the benefit cuts that will result from the Democrats' health care bill.

The Centers for Medicare and Medicaid Services actually overturned a Clinton-era ruling that said "prohibiting such information would violate basic freedom of speech and other constitutional rights."

Yesterday, Ways and Means Republicans formally requested a hearing to investigate the CMS gag rule.

Mr. Speaker, Congress needs to get to the bottom of this and find out if the administration is politicizing Federal agencies to stop Americans from learning the truth about his policies.

#### TOWN HALL MEETINGS ON PRESIDENT OBAMA'S HEALTH CARE PLAN

(Mr. DANIEL E. LUNGREN of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DANIEL E. LUNGREN of California. Mr. Speaker, there has been a lot of attention to the fact that Members of Congress held town hall meetings during the month of August, and there was much discussion about the passion that was expressed there.

Well, it's now September, and we're still holding town hall meetings. I had one last Saturday in my district. And let me tell you the passion is still there.

The average citizen in my district looks to Congress to do the right thing. And they are not satisfied. They are not pleased. They are not happy in any way, shape, or form with respect to the Obama health care plan and its various versions here in the House of Representatives and the United States Senate.

They have asked me to convey to my colleagues the fact that they are concerned about the size of government, the cost of government, the size of taxation, and the amount of debt we're imposing on our children and our grandchildren. They want us to get serious about those things. They don't want us to give up on them.

By the way, they're not mobs. They're not un-American. They are the very essence of America. They come to my meetings in ones, twos and threes. They are everyday Americans wanting a responsive House of Representatives that recognizes simple truths.

□ 1200

#### SPECIAL ORDERS

The SPEAKER pro tempore (Mr. PETERS). Under the Speaker's announced policy of January 6, 2009, and

under a previous order of the House, the following Members will be recognized for 5 minutes each.

#### U.N.: HAVEN FOR INTERNATIONAL TYRANTS?

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE of Texas. Mr. Speaker, Libya is about to get \$2.5 million in aid from the American taxpayers. And \$200,000 each is marked for foundations run by Omar Qaddafi's two kids.

Omar Qaddafi is an international terrorist. He gave the order for the bombing of the Pan Am jet over Lockerbie, Scotland, in 1988. And then he led the cheers for the killer when he was returned to Libya. Men, women and children boarded that airplane headed for New York's JFK Airport. A Libyan official checked a suitcase with a bomb in it. The airplane exploded, killing 243 passengers and 16 crew members, mostly Americans. Eleven people on the ground in Scotland were killed when large chunks of the plane fell out of the sky and hit their town.

What are we doing giving this man and his family U.S. taxpayer dollars? Has America lost its way?

The United Nations is starting to look like the bar scene in the Star Wars movies. Murderers, thugs, and terrorists freely roam the halls, and they are asked to speak before the General Assembly. There was a time when the United Nations was a threat to tyrants, but now it seems like it is their home.

Omar Qaddafi said at the U.N. that Lee Harvey Oswald, the person who killed President Kennedy, was an Israeli spy. He called for a civil war in Iraq. He condemned the war on terror in Afghanistan, and he said the swine flu is a biological weapon created in laboratories. Can't tell who he blames that on, however.

Omar also said in his 100-minute rambling rant that we should call the United Nations Security Council the terrorist council, made up of the United States and other nations.

Omar's twin terrorist tyrant, Ahmadinejad, also had some choice things to say at the United Nations this week. The little fella from the desert of Iran said that Israel is committing genocide. He said that capitalism has caused all of the misery in the world. The tiny tyrant also praised himself for his glorious election this year. You know, Mr. Speaker, that is the election where he and his government beat and killed unarmed peaceful protesters that opposed him.

He says the Holocaust is a myth. He wants the destruction of Israel and the United States, and he is building nuclear weapons. Who do you think those weapons are for? And what is the

United States' reaction? Well, we canceled our missile defense system in Poland, a defense system that was to protect the United States from intercontinental ballistic missiles from Iran. And our Polish allies think we betrayed our commitment to them and Eastern Europe.

Mr. Speaker, has America lost its way?

And let's not forget Hugo Chavez, the tyrant of Venezuela who railed against the United States. He spoke also at the U.N. He is good buddies with the desert rat of Iran. And a New York district attorney recently said that there is evidence that Venezuela is setting up a Venezuelan missile crisis for the United States. Now isn't that lovely. Why do we send U.S. taxpayer money to the U.N. at all? Twenty percent of U.N. funds come from the United States, and the American public is asking: Why? Why do we finance the U.N. that embraces thugs, dictators, terrorists and everyone who hates America and Israel.

Mr. Speaker, since nobody else over at the U.N. has said it, I will, and I will say this without apology: The United States is the greatest country in the history of the world. We have more freedom and liberty than any people in the history of the planet. We have done more than any other nation to help some of the most ungrateful people around the planet in history.

We should not abandon our missile defense system in Poland. We should reevaluate our financial commitment to the United Nations, and we should never give American money to tyrants of nations in the hope of a blissful illusion of buying peace.

Mr. Speaker, has America lost its way? We shall see.

And that's just the way it is.

#### MEDICARE AND GAG ORDERS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana (Mr. BURTON) is recognized for 5 minutes.

Mr. BURTON of Indiana. Mr. Speaker, on Tuesday, the Congressional Budget Office headed by Mr. Elmen-dorf, who is the director, told Senator BAUCUS that his plan to cut \$123 billion from Medicare Advantage, the program that gives one-fourth of seniors private health insurance options, will result in lower benefits and some 2.7 million people losing their coverage.

Last week, Mr. BAUCUS ordered the Medicare regulators to investigate and likely punish Humana, Incorporated for trying to educate enrollees in its Advantage plans about precisely this fact.

Jonathan Blum, who is the acting director of a regulator office in the Centers for Medicare and Medicaid Services, who used to work for Senator BAUCUS, said that a mailer Humana

sent to its customers was “misleading and confusing to beneficiaries who may believe it represents official communication about the Medicare Advantage program.”

Mr. Blum has also banned all Advantage contractors from telling their customers what Mr. Elmendorf has told Congress. Mr. Blum, as I said, happens to be a former senior aide to Mr. BAUCUS and a health adviser to the President Obama transition team. So for the record, CBO's Director Elmendorf says that cuts to Medicare Advantage “could lead many plans to limit the benefits they offer, raise their premiums, or withdraw from the program.”

But they want to put a gag on the deliverers of this coverage because they are writing to their patients, to the people they are covering, and telling them that they are going to lose coverage if this bill passes, that Medicare Advantage is going to be gutted. Senator BAUCUS is now saying we want to put a gag in the mouths of people who are providing this coverage so they can't tell the senior citizens of this country that they are going to lose Medicare Advantage coverage.

That is a violation of the First Amendment. And, secondly, I don't know of any rule that would allow Senator BAUCUS to do this. This is absolutely a terrible thing. And Mr. Blum doesn't have the authority to do this. Mr. BAUCUS, Senator BAUCUS, does not have the authority to do this, and yet they are gagging the health care providers, the people who are insuring these people and providing coverage, by saying you can't tell them that they are going to lose Medicare Advantage.

The plan of Mr. BAUCUS and other plans here in the House and the Senate are going to cut \$500 billion out of Medicare, and most of it is coming out of Medicare Advantage and they are trying to keep the seniors in this country from knowing it until they get the job done. That is criminal.

First they violate the First Amendment rights of these companies. And, second, they gag them and threaten them with criminal prosecution or some kind of penalties if they don't adhere to what Senator BAUCUS or Mr. Blum says. And then they don't let the American people, the seniors who vote more than anybody else, know that they are going to lose Medicare Advantage and they are going to take \$500 billion out of Medicare coverage.

Seniors need to know this, and yet they are gagging the people who are trying to get the facts out. This is just dead wrong. It should not happen. This is government control in its worst form, and it is something that we should not tolerate.

In addition, I want to read into the RECORD a letter that I got from Dr. Ned Masbaum, who is a forensic psychiatrist in Indianapolis, and he wrote this

about the American Medical Association:

“Dear Congressman Burton,

“Thank you for your very well-thought out letter. When I heard about the new AMA position supporting socialized medicine, I felt a sickening feeling in the pit of my stomach. I have been a member of the AMA for over 40 years. Unfortunately, it has gradually become a leftist political cheerleader with the usual pro-abortion and anti-Second Amendment drivel. However, this illiterate position for socialized medicine betrays its own members and the American citizenry. It is so blindsided that it also eliminates the need for the very existence of the American Medical Association. If we all become serfs for the government, we no longer need a formerly scientific professional organization.

“With the AMA headquarters in Chicago, the AMA president and his ilk must have been polluted with Chicago-style politics and their brains have turned to mush.

“This morning, I had a lengthy teleconference concerning the issue with the executive vice president of the Indiana State Medical Association, James G. McIntire, J.D. Apparently ISMA has not yet taken any position. I have also written a letter to the president of the AMA, a copy of which is enclosed, advising my opposition and the intent to resign as a member.

“Please keep up the good fight.”

This is the kind of information that needs to get out to Americans. Seniors need to know they are going to lose coverage and \$500 billion is going to be cut out of Medicare.

CARMEL, IN,  
July 22, 2009.

Re your letter of 20 July concerning the AMA.

Hon. DAN BURTON,  
House of Representatives,  
Washington, DC.

DEAR CONGRESSMAN BURTON: Thank you for your very well thought out letter. When I heard about the new AMA position supporting socialized medicine, I felt a sickening feeling in the pit of my stomach. I have been a member of the AMA for over 40 years. Unfortunately, it has gradually become a leftist political cheerleader with the usual pro-abortion & anti-second amendment dribble. However, this illiterate position for socialized medicine betrays its own members and the American Citizenry. It is so blindsided that it also eliminates the need for the very existence of the AMA. If we all become serfs for the government we no longer need a formerly scientific professional organization.

With the AMA headquarters in Chicago, the AMA President and his ilk must have been polluted with Chicago style politics and their brains have turned to mush.

This morning, I had a lengthy teleconference concerning this issue with the Executive Vice President of the Indiana State Medical Association, James G. McIntire, J.D. Apparently ISMA has not taken any position yet. I have also written a letter to the President of the AMA, a copy is enclosed, advising my opposition and intent to resign as a member.

Please keep up the good fight. Best personal regards to you.

Sincerely,

NED P. MASBAUM, M.D.

CARMEL, IN,  
July 22, 2009.

J. JAMES ROHACK, M.D.  
President, American Medical Association,  
Chicago, IL.

DEAR DR. ROHACK: Your announcement of the AMA's backing of nationalizing health care was shocking to say the least. It was my mistaken belief that the AMA always opposed socialized medicine since it does not work anywhere in the world. It was also my belief that the organization backed Health Savings Accounts as a truly free enterprise American way to solve the economic problems of our current system. Why would the AMA sell out it's own members and the American public?

If you and the AMA do not reverse your current position immediately, you can say goodbye to me as a member of over 40 years.

Sincerely,

NED P. MASBAUM, M.D.

On Tuesday, the Congressional Budget Office director told Senator BAUCUS that his plan to cut \$123 billion from Medicare Advantage—the program that gives almost one-fourth of seniors private health-insurance options—will result in lower benefits and some 2.7 million people losing this coverage.

Last week Mr. BAUCUS ordered Medicare regulators to investigate and likely punish Humana Inc. for trying to educate enrollees in its Advantage plans about precisely this fact.

Jonathan Blum, acting director of a regulatory office in the Centers for Medicare and Medicaid Services, CMS, said that a mailer Humana sent its customers was “misleading and confusing to beneficiaries, who may believe that it represents official communication about the Medicare Advantage program.”

Mr. Blum has also banned all Advantage contractors from telling their customers what Mr. Elmendorf has just told Congress. Mr. Blum happens to be a former senior aide to Mr. BAUCUS and a health adviser on the Obama transition team.

So, for the record, CBO's Director Elmendorf says that cuts to Medicare Advantage “could lead many plans to limit the benefits they offer, raise their premiums, or withdraw from the program.”

Providing of accurate information by Medicare Advantage plans to its enrollees is not prohibited by applicable Federal rules and regulations.

#### AFGHAN ASSESSMENT

(Mr. COFFMAN of Colorado asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COFFMAN of Colorado. Mr. Speaker, in 2007, the Commander in Chief, President George W. Bush, relied on his military commander on the ground to give him an assessment as to what it would take to turn around what was then a very bad situation in Iraq. General Petraeus made his case before the House and Senate Armed Services Committees, and he was given the resources that he requested. The

surge in Iraq provided the necessary level of security that ultimately allowed the political process there to move forward.

Similarly, General Stanley McChrystal has been charged by the Commander in Chief, President Barack Obama, to give an assessment of what it will take to win in Afghanistan and achieve the objectives that the President had committed to earlier this year.

I believe General McChrystal's report was politically sanitized and General McChrystal needs to appear before the House and Senate Armed Services Committees to give an honest assessment of what is going on in Afghanistan.

#### AMERICAN POSITION AGAINST TERRORISM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Arizona (Mr. FRANKS) is recognized for 5 minutes.

Mr. FRANKS of Arizona. Mr. Speaker, I stood on this floor about 3 years ago and called upon the United States to clearly define its position toward what is now the world's largest state sponsor of terrorism, the Islamic Republic of Iran.

I then called upon the IAEA to refer Iran to the Security Council because I believed then that what Western intelligence has long suspected about Iran and what it seems that President Obama is now just beginning to realize, Iran is systematically and relentlessly pursuing the development of nuclear weapons.

Today's revelation that they have a second uranium facility at Qom should remove all doubt in any reasonable person's mind about their inevitable intentions. Yet today's announcement at the G-20 summit by the leaders of Britain, France and the United States reveal that Iran has been covertly operating and developing a new underground uranium enrichment facility at Qom.

It is disgracefully ironic that today's announcement comes only a week after announcing our abandonment of the European missile defense site which could have protected the homeland of the United States against Iranian long-range missiles, and only one day after President Obama chaired a United Nations Security Council specifically addressing the need to halt the spread of nuclear weapons throughout the world. Unbelievably, the resolution passed by the Security Council, under President Obama's leadership, omitted any mention whatsoever of either North Korea or Iran.

But regardless of the Security Council's failure to explicitly address the real and present danger that the peace-loving world faces because of Iran's nuclear ambitions, the fact is that Iran

has already disregarded three previous rounds of Security Council sanctions and has continued to aggressively pursue a nuclear weapons capability, including building this underground facility and testing the long-range ballistic missiles that could be used to deliver a nuclear payload.

□ 1215

We have reached a crossroads with Iran, Mr. Speaker, that will result in one of two outcomes: either Iran transforms the geopolitical landscape by becoming a nuclear power that proliferates nuclear and missile technology to terrorists throughout the world and then threatens the very existence of countries like Israel; or, by the world's inaction, we place the tiny country of Israel in the unavoidable position of having to act unilaterally with military force to protect themselves and humanity from the threat a nuclear Iran would represent to the entire civilized world. We must not place Israel in that position, Mr. Speaker.

President Obama's announcement today also offered no assurance and, in fact, was a weaker statement than the statement given by Prime Minister Brown and President Sarkozy, who rightly said that we live in the real world, not the virtual world, and that the real world requires leaders to make decisions to act.

With its languishing economy and literally centuries' worth of natural gas reserves, Iran's claim that it seeks nuclear capability solely for peaceful purposes is ridiculous beyond my ability to express.

It is now open knowledge that for years North Korea gave false overtures that it would engage in negotiations over its nuclear program while holding every deliberate intention to continue its covert development of its nuclear program. We are lying to ourselves and to the world that similar overtures, if made from Iran, will be any less disingenuous. And the implications for our children and our future generations are profoundly significant, Mr. Speaker.

The world must act. As one former Israeli Ambassador put it, "The game is over." Iran is no longer progressing but has now reached the endgame of diplomatic relations.

Mr. Speaker, I am in favor of every sanction and diplomatic effort possible to prevent Iran from gaining nuclear capabilities. However, ultimately I am convinced the only two things that will stop Iran from becoming a nuclear armed nation and proliferating nuclear terrorism globally in the future will either be a direct military intervention from America or other nations, or the absolute conviction in the minds of the Iranian regime that that will occur if their march toward gaining nuclear weapons continues.

The world must act, Mr. Speaker. For the sake of freedom and for all

that free people love, Iran must not be allowed to progress one step further in its pursuit of nuclear weapons.

#### IRAN: A CLEAR AND PRESENT THREAT

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Ohio (Mr. TURNER) is recognized for 60 minutes as the designee of the minority leader.

Mr. TURNER. Mr. Speaker, President Obama's decision to scrap a long-range, European-based missile defense shield was not only met with concern among our European allies, but more importantly has sounded alarms here at home where the President's action will leave the Nation vulnerable to Iranian long-range missile attack.

Three years ago, in response to growing threats from Iran, the U.S. developed plans to install a missile defense system in Eastern Europe to protect Europe and the United States from potential long-range missile attack. Under the program, 10 interceptor missiles would be located in Poland and a radar station would be built in the Czech Republic by 2013. The European-based missile defense system would add an additional layer of defense to the continental United States, which already has a small network of interceptors on the west coast.

The European-based missile defense shield was endorsed by our NATO allies, who called it a "substantial contribution to their collective security." Now, the Obama administration has taken the unusual and highly questionable position of canceling the planned European-based missile defense system in favor of a scaled-back program that will not be ready until 2020.

The threat represented by Iran is real and growing. Last February, Iran launched a satellite, demonstrating substantial progress toward achieving a reliable long-range missile program. A month later, the head of the U.S. European Command testified before the House Armed Services Committee that Iran would be able to deploy an intercontinental ballistic missile, an ICBM, capable of reaching all of Europe and parts of the United States by the year 2015.

The President stated his decision was based upon reduced threats from Iran and greater cost efficiency of his alternative defense system—and anyone watching the news knows that there is no diminished threat from Iran. However, a July 2008 classified report produced by the Institute for Defense Analyses concluded that the European-based missile defense system that the administration now wants to cancel would, in fact, be the most cost effective. I have called on the administration to declassify this report so that all of the facts can be known and we can have a robust debate.

Moscow has made no secret of its opposition to the European-based missile defense system and has repeatedly called for its elimination. Furthermore, European leaders have heard from Russian leaders. The Russians have continually shown that they have no intention of pressing Iran to drop its nuclear and missile programs. For its part, Iran also shows no willingness to be deterred by Russia. Yet, the administration, in courting Moscow assistance in halting Iran's nuclear missile ambitions, has effectively chosen to surrender America's bargaining position with its shelving of the proposed missile defense system.

While the Obama administration's decision to reverse course on European missile defense is being met with smiles in Moscow, Americans have real reason to be concerned. By the administration's own admission, its alternative missile defense system will not be able to be fully capable until 2020, with intelligence indicating Iran will have ICBM capability by 2015. This means the United States could be vulnerable to Iranian missile attack 5 years before the administration gets its new missile defense system ready.

Not only is Iran near its goal of launching ICBMs, reportedly, it has already the ability to construct a nuclear bomb. Last Thursday, a group of experts at the International Atomic Energy Agency stated, in a report obtained by the Associated Press, that Iran is already capable of building a nuclear bomb and is on the way to developing a missile system capable of carrying an atomic warhead.

Remarkably, in the face of Iran's blatant actions to develop a nuclear weapons program, the administration continues to pursue a course of unilateral disarmament. Earlier this year, the President cut funding for missile interceptors to be based in Alaska as part of the ongoing construction of a homeland missile defense system, reducing the number of interceptors by one-third. I opposed that move and offered an amendment in the House to restore the funding. Unfortunately, the President's cuts were sustained by a Democrat majority of the House.

The administration's record on missile defense at a time when both North Korea and Iran are seeking nuclear weapons capable of reaching the United States is troubling. This year, the administration has cut missile defense by \$1.2 billion, reducing by one-third our intended west coast shield which would protect us from North Korea's advancements and has stopped a European-based system intended to protect the U.S. from Iranian missile threats. In the face of known threats, this administration needs to rededicate itself to defense of the United States' mainland.

It is now my honor to recognize our ranking member of the House Armed Services Committee, BUCK McKEON,

who represents California's 25th District, was elected in 1991, has been a leader in ensuring the United States has adequate defense, both that our troops have adequate equipment in their conflicts but also in ensuring that the United States has adequate defense systems.

With that, I would like to recognize Representative McKEON.

Mr. McKEON. Thank you, MIKE. And thank you for holding this Special Order.

I think you have done an outstanding job of getting out to the American people the problem with cutting our missile defense system at a time of war. I have been here a little bit longer than you. I came in 1992. In 1992, we had 18 Army divisions. We are down to 12 now. Actually, in 1998, we were down to 10. We've built it back up in the last 10 years. We had 24 fighter wings; we now have 12. We had 546 Navy ships; we now have 283. Do you detect a trend?

Historically, we have cut our defenses after a war. We did that after World War I, so that when World War II came along, we were training with wooden dummy rifles and it took us a while to get built up into that fight. By the end of the war, we were building hundreds of planes a day, but it took a long time to get there.

But the world has changed. We're not in a situation now where we can build up defenses after the fact. We have to be prepared ahead of time. We had a golden opportunity to do that. The President, earlier this year in the Democratic Congress, passed an \$800 billion supplemental that was supposed to help us get out of the financial system that we're in. The President called for shovel-ready projects, things that could be done immediately to help the economy. Well, just a couple of things.

I also serve on the Education Committee, and we had about \$14 billion in that supplemental for education, education programs, the Pell Grants, which are very important. But to put \$12 or \$14 billion into IDEA and the same amount into Pell Grants—those are long-range things that will help in the long run—it showed where his priorities are, which it's good to find out where his priorities are. But at the same time, out of \$800 billion, \$300 million went into defense; \$300 million out of \$800 billion. Now, that \$300 went to MILCON, which are important projects, and we need to build on military bases. Nothing went into weapon systems.

When I came to Congress, we were building the B-2 bomber, and it was supposed to be 132 planes. That was what was needed for defense of our Nation. That was planned out. Everybody bought into it. Everybody agreed on it. They ended up building 21. At the same time, we were planning a new fighter because we needed it to compete worldwide with things that Russia and China

were doing, and we were going to build 750 F-22s. In this last budget that was just passed in the House—hasn't finally become law yet. We're still in conference, but they have made a decision that now we don't need 750; we can get by with 187.

I don't know what's changed in the world to make it all of a sudden much safer to give us 187, that that will now satisfy the need. It's a trend that's very disturbing, cutting \$1.2 billion out of our ballistic missile defense. Historically, as I said, we have cut our defense after a war. I don't know that we have ever in our history cut our defense during not one, but two wars which we have going right now in Iraq and Afghanistan, and as you've mentioned, the problems that we see with Iran.

Today's announcement that Iran has a covert uranium enrichment facility should really come as no surprise. Why develop a covert enrichment facility if Tehran claims its program is solely for civilian purposes? Why don't they tell the world? Why don't they brag about it if that's what they're doing? I think people understand there's a reason why they're doing it covertly. This deception shows a clear intent by Tehran to hide a growing nuclear weapons capability.

In the unclassified judgments from December 2007 National Intelligence Estimate on Iran's nuclear intentions and capabilities, it was assessed that "Iran probably would use covert facilities, rather than its declared nuclear sites, for the production of highly enriched uranium for a weapon." However, the NIE went further to say that "we judge that these efforts were probably halted in response to the fall 2003 halt, and that these efforts had not been restarted through at least mid-2008."

Well, what I heard this morning in the President's speech is that they had been building this plant secretly, covertly, to enrich uranium for years. These efforts have been restarted. Today's announcement means that previous estimates on when Iran could achieve a nuclear weapons breakout are now inaccurate.

This disclosure also highlights just how uncertain our intelligence can be. Just a week ago, the administration explained that its primary reason, as you said, for scrapping the European missile defense system to be located in Poland and the Czech Republic was because the threat was now downgraded. In December 2007, our intelligence community judged that Iran didn't have a covert uranium enrichment facility. Now, less than 2 years later, it does. How, then, could the administration be so confident in its assessment that Iran can't develop a long-range ballistic missile by 2015, or maybe buy one from somebody?

□ 1230

We need to be skeptical of policy decisions based solely on intelligence. Intelligence can be wrong as much as it can be right. We have to take into account that it cannot be, even with the best efforts of our Intelligence Committee, the sole basis for a decision. I mean, you can also look at human nature. You can look at past history. You can look at how they reacted in the past. Based on that, how can we expect them to react in the future?

We've witnessed Iran successfully use a long-range rocket to launch a satellite into space, work closely with the North Koreans, who themselves appear to be pursuing ICBMs and continuing to expand their nuclear capabilities. What other covert facility programs does Iran have under its sleeve?

Apparently, they came up with this information because they found out that we had already known about it, so now they're telling the world. What else do they have going on that we don't know about or that they're not telling us or that we're not finding out about?

It's time for the Obama administration to do something concrete about it beyond pinning their hopes on upcoming talks and relying on Russia to protect our security interests. This starts with: stronger sanctions against Iran right now; robustly funding missile defense so that now we have defenses in place before 2018 or 2020, unlike the administration's plan; and an Iran containment strategy, working with our allies, which will deter Iran and will dissuade allies and friends from proliferating.

I want to commend you, MIKE, for the job you're doing as ranking member on the subcommittee. It's a very important job. I appreciate your holding this Special Order and getting this information out to the people. The American people have to understand this important issue.

Our defense is our main responsibility. We do a lot of other things around here, but the defense of this Nation is our number one responsibility. We do a lot of things that we're not obliged to do by the Constitution, but this is our responsibility.

I commend you for the job you're doing. Thank you for holding this Special Order.

Mr. TURNER. Well, I want to thank you, Representative McKEON, our ranking member on the House Armed Services Committee. I want to thank you for your leadership on the committee, certainly for your leadership of ensuring that we have a quality defense for the United States and also for your highlighting this important issue.

The issues that you've raised concerning Iran are very important. It should not be lost on anybody that, the very day the administration released its decision to drop the European site—

to walk away from the Czech Republic and the Poles—the International Atomic Energy Agency released its statement that Iran was nuclear-capable, that they were capable of making a nuclear weapon.

This was on the very same day, as you were saying, that the President said that there was a downgraded threat when, in fact, there is no evidence that the threat has been downgraded. I keep asking the administration to provide us any evidence that the threat is diminishing from long-range ICBM threats from Iran, and we have no information which would indicate that.

Mr. AKIN. Will the gentleman yield? You're getting me upset.

Mr. TURNER. Representative AKIN, I appreciate your work on this.

Mr. AKIN. This is kind of hard to figure out.

I really am thankful. The ranking Republican member, Congressman McKEON, does a great job on Armed Services, and he is so gentlemanly and scholarly, and he lays the facts out.

I want to just kind of put these things together and ask anybody if this makes any sense at all. What we're going to do is drop missile defense in Europe. Now, this is something for which quite a number of Europeans had to stick their necks out politically. It is the Czechs and the Polish who are agreeing to put this missile defense in. Now, if you draw a line between Iran and New York City, guess what's in line with that? Well, Poland is.

So now we're going to drop this missile defense program to protect our country and Western Europe from rogue states, particularly Iran, which we now know is putting together three things. They're putting together long-range missiles, nuclear warheads and radical Islam. That's not a great combination. So now we're saying the threat assessment has been dropped. How do you figure that? The threat assessment has been dropped when you're putting long-range missiles and nuclear warheads with radical Islam. I don't feel like the threat assessment should have been dropped. I don't know anybody with common sense who would assert that.

Mr. TURNER. Mr. AKIN, you raised a very good point. I'd like you to speak for a moment on this issue:

The European missile defense shield that was intended for interceptors in Poland and for the radar in the Czech Republic was not just intended to protect the United States. Although, it would have provided protection to the United States by 2013, with the President's plan not providing protection to the United States, by their own Web site admission, until 2020.

You make an important point that it wasn't just to protect us; it was also to protect our European allies. In addition to that, the Czechs and the Poles had gone out on a limb.

Mr. AKIN. We cut the limb off.

Mr. TURNER. There had been tremendous pressure on them not to agree to work with the United States.

For a moment, talk about what the unilateralism of the Obama administration does to those allies.

Mr. AKIN. Well, we just basically cut the limb off from underneath them. I mean who else is going to want to partner with us in some sort of a decent effort to defend the Western World from either nuclear destruction or at least blackmail? These guys have gone out on a limb, and we just cut the limb off from underneath them.

What's even worse is the fig leaf of an excuse from a technical point of view—for those of us on the committee, we know this is just a bunch of baloney—of the idea that we're going to use the standard block 3 missile on a ship to stop intercontinental ballistic missiles.

Look, this missile defense stuff is not as rocket science as people think. It's pretty simple. You've got small ones, medium ones and big ones. The big ones are called intercontinental ballistic missiles, and you can't shoot an intercontinental ballistic missile with one of our two-stage missiles off of a ship. You can't do that and make it work very well.

Not only that, think about the logic of what we're saying. The Navy is complaining that they've got a lot of demands in places where they're going to put their ships. Now, if you're going to try and cover this with ships, you're going to have to have probably three ships on station all the time. That's really expensive. It's a lot simpler to put the radar on the Czech Republic and some ground-based interceptors in Poland.

So we're talking about, first of all, a technical solution which is not going to give us the protection we need. It doesn't even make any sense. Then to say the threat assessments have dropped, the President is just not making sense in the kinds of things that he's talking about.

Mr. TURNER. Representative AKIN, to piggyback on what you're saying here, you're making the point that the system that was intended to be in Europe was the system that would provide the greatest capability at the lowest cost.

Mr. AKIN. Right.

Mr. TURNER. You have a great reputation with your leadership in the House and for being the ranking member of the Seapower and Expeditionary Forces for the Armed Services Committee. You were elected in 2001, and you've got a great record of service.

One thing that, I think, is important is that we don't just have to take your word for it. There is the Institute for Defense Analyses' unclassified excerpt

of the executive summary for the independent assessment of the proposed deployment of the ballistic missile defense system in Europe. This was presented to our subcommittee at the beginning of this year. This was asked for by the Democrat leadership to do an assessment of exactly what you just said—to compare the system that's being proposed by the administration and the system that was intended to go into Europe. This report, which is an independent assessment, reads that the most cost-effective way to protect the United States was the system that this President just scrapped.

Mr. AKIN. I'm the ranking member on Seapower, and you know, there's something that just doesn't make sense.

I've been aboard our ships that have these standard block 3-type missiles on them, okay? I've talked to the people who run those systems, and they tell me, if North Korea launches an ICBM, their chance of stopping it is about 1 percent. The reason is that the missile on the ship is a two-stage missile. It doesn't have the velocity and the ability to get on track with a much faster, higher-moving missile.

So that's why I say you've got small ones, medium ones and big ones. You fight the big ones with big ones, and the big ones are ground-based interceptors. It's a three-stage. That's why we have them in Grayling, Alaska, that's why we have some in California, and that's why there should be some in Poland.

This decision, I believe, was made all based on politics and not based on logic. I'll tell you what makes me secure. It's secure when we have American troops defending American homelands instead of vague promises from some Russian or some Iranian leader that everything is going to be okay.

Mr. TURNER. Representative AKIN, reclaiming my time, I appreciate your comments.

I would like to yield to Representative BISHOP, who is from Utah's First District. He was elected in 2003. He is the former speaker of the House of Utah, and is a great champion for national defense on the Armed Services Committee.

I know you have thoughts about this, and I would like to yield to Representative BISHOP.

Mr. BISHOP of Utah. Well, I appreciate the gentleman from Ohio for giving me this opportunity.

I am pleased to be with the gentleman from Ohio and with the gentleman from Arizona, who will be speaking, I believe, in just a moment. They have really turned out to be experts on our missile defense system, as well as the gentleman from Missouri, who clearly understands the technical nature of what we can do both on the sea as well as on the land.

I am deeply concerned about what we have been talking about in this area. It

is very clear that this decision, based on what will happen in Europe, has significant long-term implications to our relationship with those European allies. The gentleman from Ohio and I have been, on several occasions, meeting with German officials as part of the study group on Germany. Is there really an opportunity, once this country has reversed course this way, to expect them to trust us in long-term decisions and in long-term commitments?

I hate to say this, but the idea of our developing a stronger bond with Europe based on this decision, the idea that the current Iranian regime will become nice in its relationships with the rest of the world—I mean I'm sorry. My beloved Cubs, Mr. Speaker, Mr. Parliamentarian, my Cubs have a better chance of making it to the World Series than the Iranians have of becoming nice all of a sudden unilaterally, or the fact that our European ties will be built stronger because of this particular decision.

If I could, I'll expand this slightly and take us a little bit afield because this does deal with the impact to our European defense; it does deal with the impact of the defense of the eastern coast, and it also deals with the impact of the defense of this entire country. We right now have 30 ground-based missiles to defend the entire country, and they're all situated in Alaska—in one spot.

We talked earlier with other administrations about extending that to other areas, which makes sense, about growing that number, which makes sense, about taking not just a ground-based system but also a kinetic energy interceptor system to try to spread out our defense, which, to me, makes sense.

This administration, much of these decisions being made under a unique gag order by the Secretary of Defense, simply took the process of halting our growth so that, once our 30 missiles are gone, there is no replacement. Halting the kinetic intercept system, even though we were ready for the first test-fire and everything had run smoothly up to that time, simply putting a stop-work order and halting it. Halting the increase in production of our ICBM defense system. All at the same time.

I want to put out one other element that has an impact, because I see these people every day. Look, I grew up watching "Bewitched." If there's one thing I noticed from that TV show it's that Samantha wasn't real. Nobody can wiggle his nose and create a new solution.

Once we decide to unilaterally stop the production of these missiles, if at some point in the future we decide maybe we made a mistake, you don't easily and quickly fix that mistake because, once the industrial base is gone on these elements, you don't bring it back. You cannot simply turn the spigot on and off and, all of a sudden, have

the engineers who know the problems and who have worked through them, come back to work for the government.

As one of the generals who was talking to me off the record simply said, Look, first of all, when the work base is gone, it is gone, and we don't bring it back. Most significantly, the first people who leave are the ones we really want. It's not the worst employees who leave first; it's the best employees who leave our industrial base first. Those are the ones we want.

If at some time we decide we were wrong and we have got to fix this problem, that there maybe is a greater threat than we're anticipating. It will cost this government significantly more to restart that work base. It's not just a matter of we're throwing people out of a job. It's not just a matter of boom-and-bust economies. It's the fact that we will have to spend more to recreate what we already have if, indeed, the threat is more significant. Some people in the military currently see that.

Mr. AKIN. Does the gentleman yield?

Mr. BISHOP of Utah. I always yield. Every time I take a breath, I'm ready to yield. I just breathed.

Mr. AKIN. To me, it seems like you've understated how bad things are, because not only is the industrial base closed up, the buildings shuttered, the engineers working on some other project at some other place, but it takes time to get it back on track. If somebody is shooting missiles at you and they're going to arrive in half an hour, that's not very much time to start up a business and to rebuild your missile defense. You just can't do it in that amount of time. This requires planning.

The gentleman's numbers and statistics are right. The only thing is, they do have ground-based not just in Alaska. I think there are a few in California, but it's not spread out. Am I wrong on that? I thought there were a couple of them in California. Anyway, the point is right, which is that they're not spread out. The other point is we're using something to kill something that isn't designed to work from the beginning. It just doesn't make any sense.

As the gentleman has expanded the topic a little bit, let's talk about the different things that have been cut.

□ 1245

Mr. TURNER. Before we move on, I would like to go to Representative TRENT FRANKS who is the Chair of the Missile Defense Caucus of Arizona's Second District, elected in 2003. We were elected at the same time.

Representative FRANKS was talking just today about the covert issue of Iran and what they have announced with their secondary site. You have been a leader on this, both in highlighting the issue, making sure that the technical discussion goes forward

so people know what's at risk and what we have the capability of.

But on the threat side, this administration has stepped forward and said that we have a threat that is not the same as we thought. They say it's lessened. Everybody else that I talked to believes that it's either increasing—but no one will say that it is actually diminishing.

Representative FRANKS, I would love for you to talk about the threat issue to our families.

Mr. FRANKS of Arizona. I appreciate the gentleman very much. I have to say, Mr. Speaker, I think all of the previous speakers have covered critically important points.

Before I give a statement related to the European site primarily, I just want to say I was struck by the chairman or chairman-to-be, we hope, of the Strategic Forces Committee, your comments saying that the statement that was made by the IAEA related to Iran's nuclear capability came on the same day that the President decided to abandon the European site, I thought were profound. Because, in reality, this ostensible alternative that the President suggests that we can put in place of the ground-based system, we were going to build anyway.

That's nothing new. All we have done is to take out the equation of the ground-based system that, as Mr. AKIN says, would have had the actual capability of interdicting ICBMs. That's all we have really done.

Of course, the system we were building in Europe could have protected the American homeland. Any ability to do that in this so-called alternative that we were going to build anyway will be out around 2020.

I just appreciate the gentleman being able to point out that critically important point, because I believe, Mr. Speaker, that the Obama administration's decision last week to abandon the European site will go down in history as a crossroads in European and American relations.

I am afraid that this and future American generations may be greatly affected. When the administration decided to abandon U.S. plans for a ground-based missile defense site in Europe, I believe the President fundamentally disgraced and weakened this Nation by breaking his word to our loyal and courageous allies in the Czech Republic and Poland.

Mr. Speaker, America has become the greatest Nation in history because our word has always meant something. The announcement to abandon the protective missile defense shield in Europe has fundamentally altered that paradigm. After the decision was announced, the newspaper headlines in Poland and the Czech Republic stated the situation in the very starkest of terms.

One Czech newspaper had the quote: "Betrayed, the U.S.A. has sold us to

the Russians and stabbed us in the back." That's an incredible statement. In the Czech Republic, the daily Lidove Noviny commented, that's one of their major newspapers, Obama gave in to the Kremlin. This has weakened America's place in the world.

Mr. Speaker, President Obama's decision to abandon our faithful allies and instead placate Russian belligerence came on the 70th anniversary to the exact day of the Soviet Union's invasion of Poland after two of humanity's notorious monsters named Stalin and Hitler insidiously agreed to divide the nation of Poland between themselves.

Our allies deserve better than that, Mr. Speaker, after they stood bravely in the face of Russian aggression and paid a tremendous price politically and otherwise to stand by us. They had a right to expect America to keep her word and to stand by them. But, ironically, Mr. Speaker, Mr. Obama's terribly flawed reasoning for the abandonment of the European missile defense site really has everything to do with Russia, because Russia has always hated the missile defense plan because they don't want American presence in their quote former "empire." Knowing that this would diminish Russia's influence in the region, even though the Russian military would not be threatened in any way by the European site, it would not be any real defense of any kind against the Russian federation strike.

Russia's leaders know that if an American radar is placed in the Czech Republic and the American missile interceptors are placed in Poland, those two sovereign countries would be stepping further away from the shackles of Russian oppression in the East and joining with the Americans in the West for the cause of democratic independence and human freedom.

Mr. AKIN. I think you just covered something that is absolutely amazing. You know, we don't put enough emphasis, maybe, on history. You are saying to the very day 70 years from the time Russia invaded Poland is when we just drove the knife in the back of Poland and cut the ground out for them as they were trying to defend their own country and the European countries. Is that what I just heard, 70 years exactly to the day we just sold them down the river?

Mr. FRANKS of Arizona. Yes, sir. Of course, as Mr. TURNER said, on the exact day that the IAEA said that Iran was gaining nuclear capability.

Mr. AKIN. On the same day that the IAEA is saying that Iran is gaining nuclear capabilities; and 70 years before when Poland was invaded, we make the brilliant decision to abandon Poland, to abandon the one tool we have to stop intercontinental ballistic missiles and hold this fig leaf of an excuse that we could use a medium-range missile to try to stop things. This is a horrible decision.

Mr. TURNER. The important point, I think, for the IAEA's, International Atomic Energy Agency, statement is that they are saying it's no longer theoretical. I mean, we are not standing on the House floor, the four of us, saying that we are ringing a bell of the threat to the United States. This independent International Atomic Energy Agency says that Iran has the capability now, today. It's not as if someone is saying in projecting the future, this independent agency, which is charged for overseeing this, being the agency that is supposed to know what capability that countries have, has made this announcement saying that they are today capable of making a bomb.

When you couple that with what Iran has accomplished with their missiles, having already put a satellite into orbit, again, we are not talking theoretical again. This is not as if we are projecting that some day Iran is going to have a missile. Iran used a missile to place a satellite in orbit, the same technology that you would be utilizing in order to reach the continental United States.

Those two technologies, the nuclear capability and the missile technology capability, are coming together to be a real threat to the United States. Now, here is the thing that just confuses me most about the administration's statements.

We know that the plan that they just scrapped would have placed interceptors and radar in Europe that would have been available to protect the United States from intercontinental ballistic missiles projected by 2013, could be 2014; 2013 is when it was projected to be completed.

The President comes forward with his plan and says Iran is going slower—no indication that anyone has or that we have that Iran is going slower—but all intelligence says that Iran could have this capability to reach the United States with their nuclear weapon by 2015. The President comes forward with a plan that says we are going to be ready and able to protect the continental United States by 2020?

This is a gap of 5 years there, even if you use the President's numbers. You use their numbers, you go to their Web site and you see 2020. You see Iran's capability from all intelligence agencies is 2015, and they could be sooner. As Ranking Member McKEON said, they could buy it, or they could have advances.

But this President, sitting here in 2009 says, I don't have to be prepared. The next generation isn't going to be prepared for the next 11 years; 2020 is 11 years away; and he says, I am not going to have the capability, I don't need the capability. I don't need the capability to protect ourselves from a country that the International Atomic Energy Agency says has the capability

to produce a nuclear weapon and where our intelligence agencies say will have the capability of a missile.

Representative FRANKS, I know you have some thoughts on that.

Mr. FRANKS of Arizona. You are exactly right. Here is the thing that is most profound to me. Since the timeframe that you mentioned is correct, that means that any alternative system could come far too late to have any influence on Iran's calculus to go forward with its missile program or its nuclear program.

The idea if we had the ability to knock down anything they threw up, anything that they should launch, if they knew that America could interdict those missiles, all of a sudden they might say we are taking a tremendous chance, maybe on a military intervention here. You never know, and if the Americans can knock this down anyway, maybe we should reconsider. That was the hope.

Mr. TURNER. You are right, the deterrence, the deterrence effect it would be.

Speak for a minute, Representative FRANKS, on Russia because this also amazes me. This President has had Russia say to him abandon your missile defense of the country. He has done so without a concession from Russia. At the same time he is on the eve of going into the START negotiations where Russia is going to be asking for additional concessions from the United States. But there are those in the press, because I was on a couple of talks shows, and they said, well, this really isn't about Russia because this missile defense system was no threat to Russia.

Why is it, if it's no threat to Russia, that Russia would be asking or that we should be conceding? Do you really think the administration is going to be able to advance our security by putting our missile defense system down for Russia?

Mr. FRANKS of Arizona. Well, I absolutely do not. You know, we have had a lot of Russian belligerence lately, as you know. They have spoken against this for a long time. But the report surfaced in March of this year that the President was going to offer Russia a promise that the United States would not build the missile defense site if Moscow would commit to helping us to discourage Iran's nuclear program. That was the so-called equation.

But you have to recall that Russia was actually the one who has already delivered nuclear fuel to Iran. They were the one who was paid \$800 million to help build the Bushehr power plant in Iran that could have implications for building fissile material in the future. Of course, they have been complicit in helping them with their missile program.

Moreover, it is just this week—I think this is an important thing to

know—Venezuela's Hugo Chavez announced the purchase of more than \$2 billion in arms from Russia, including rocket technology, and has declared that Venezuela will get started on a nuclear program with Iran's help. This is some sort of unholy alliance here. To somehow suggest that Russia is going to be a help here, I think, is naive beyond degree.

Mr. TURNER. Representative BISHOP, you were talking about the issue of our industrial base. It has a huge impact when we defund programs because then we lose capabilities that we currently have. If we are not making these interceptors anymore, or if we are lessening the number of interceptors, then we are diminishing our capabilities to defend ourselves.

But we pay a really great cost in the issue of innovation. When you defund a program, not only do you lose the intellectual capital that's there, but what we want to do next suffers. I know you have been a big advocate for ensuring that we invest in our industrial base and for ingenuity in the future.

What are your thoughts on what actions that the administration has taken, its impact now?

Mr. BISHOP of Utah. Well, we were talking about cutting back on all of these missile defense programs, not in Europe, but also with our ground-based kinetic energy to save \$1.8 billion. If we look at what we have been throwing around for stimulus money, for other types of programs, even Cash for Clunkers, it kind of is very small in relationship to the impact it is having on research and development. What does it actually cost to try to defend this country?

I appreciate the historical context some of you have been putting into it. The fact that the decision in Europe was announced 70 years to the day, let's face it, if you want to go to some other irony, the time that Secretary Gates was saying that he was going to stop the production of more than 30 ground-based missiles in the KEI was the exact same day the North Koreans were shooting a missile that was threatening Japan going over it.

He was holding a press conference, reassuring the State of Hawaii that we had enough missile defense system to protect everybody on the date of their second shot. I think one of the things we need to do in America is quit holding press conferences about our missile defense and making decisions, because something bad always happens on those particular days.

But it is undisputable, the fact that every program that is started has glitches in them that have to be worked out. That's why you want an experienced work base to try to be there who have gone through that program, who have worked through it, who know what works and know what

doesn't work so you don't have to keep reinventing the wheel. As you said, even if we were going to save \$1.8 billion by not doing this, if at some point we realize along the line that 30 missiles is not enough to defend this entire country, it is going to cost significantly more than that to rebuild it.

We, for example, on the ICBM rocket motor program wanted to keep a warm line in the industrial base so that we could churn out a minimum number of missile motors so that we could refurbish those ICBMs that we are going to keep. Well, we didn't put enough money in the budget to do that.

What it meant was that there were people who were laid off because the private sector could not keep that warm line functioning. Even though the military knew they insisted they were going to have to have a warm line, what it meant in the long term was instead of putting about \$10 million or \$20 million in the line, they are going to have to put four times that much money to start the warm line project again.

What I am trying to say is here—and we are throwing around a lot of numbers, let me try to make this easier—it is cheaper for us in the long run to keep an industrial base of experts so that we can maintain what we have and try to find the research and development to improve what we have.

If we start and stop, it is expensive to restart, to reboot that program. It does not save us money in the long run.

□ 1300

It does not give us better defense in the long run. It does not help with research, and it doesn't help people who lose their jobs, gain their jobs and lose their jobs and uproot their families when we don't benefit from it in the long run.

I appreciate you bringing that particular issue up.

Mr. TURNER. One of the things I find fascinating about this administration's funding requests is that they've cut ground-based missiles in Alaska. They've cut the ground-based missiles that were planned to go into Europe. They have done so by trying to sell that they're committed to Aegis and THAAD as defensive systems. And in their plan that they put out upon canceling the system in Europe, they said we're going to invest more heavily in those systems.

Well, let's look at what they really did. Because, obviously, if they say they're going to do it, we'd all think here that in this body, the legislation that's coming through this body would reflect the administration's commitment to that.

However, although this administration has talked about increasing theater missile defense inventories, Aegis and THAAD, and have added \$900 million in the budget, we're not seeing the

sizable inventory increases reflected in the budget. For example, in FY 2010, the budget acquires less Aegis SM-3 interceptors than the initially projected FY 2009.

So what does that mean? It means that in FY 2009, when the budget came through this House, there was a certain level of purchases that had been indicated for the SM-3 interceptors. And what did the administration do? They came in asking for less. The FY 2009 budget projected that 24 additional SM-3s would be required in FY 2010; yet the FY 2010 budget requests only 18.

Budget documents indicate that the SM-3 inventory will grow from 133 interceptors to 329 within 5 years. Let's do that again. The budget documents indicate that the SM-3 inventory is supposed to grow from 133 interceptors, what we currently have, to 329 within 5 years.

Where will the additional SM-3s come from in the out years? If so, what other programs are going to be squeezed? How are they going to go from 133 to 329 when they're buying less than what was proposed? Where's the big request for the additional ones?

The FY 2009 budget indicates three additional THAAD batteries will be acquired; yet the budget requests no funds for additional THAAD radars. According to the contractor, major suppliers could go cold in FY 2010. So for the administration to say, We're not against missile defense. We're not eliminating missile defense. We're just shifting focus. They're not shifting focus. They're not even buying what was planned.

Representative FRANKS, I know you have been a big advocate for all of these systems.

Mr. FRANKS of Arizona. I agree. I guess I just repeat that we were trying to build out these systems anyway. This was something that was already on the drawing board. We want to have a robust system that is able to interdict short-range, medium-range, and long-range. And THAAD and Aegis, none of us on the Republican side would argue one moment that those aren't important, but the challenge is that we're taking away our ground-based system, which these other things are still on the drawing board, in many cases.

I thought that Mr. BISHOP made a point that was so critical. It might be my last point here, Mr. Chairman, if you would let me make it, because it's really a quote to Mark Helperin in the Wall Street Journal after the President's decision last week to abandon the plans for the European missile defense site. He stated it this way, kind of that historic, 50,000-foot view thing that we're talking about. He said, "Stalin tested Truman with the Berlin Blockade, and Truman held fast. Khrushchev tested Kennedy, and in the

Cuban Missile Crisis Kennedy refused to blink. In 1983, Andropov took the measure of Ronald Reagan, and, defying millions in the street, Reagan did not blink. Last week, the Iranian President and the Russian Prime Minister put Mr. Obama to the test, and he blinked not once, but twice. The price of such infirmity has always proven immensely high," Mr. Speaker, "even if, as is the custom these days, the bill has yet to come."

Mr. TURNER, I would just say this in closing here. If the Obama administration continues down this road of appeasement and denial, the Nation of Iran will gain nuclear weapons capability and pass that technology on to terrorists, as well as perhaps even the weapons, and this generation and so many to come will face the horrifying reality of nuclear jihad.

Those of us who have been blessed to walk in the sunlight of freedom in this generation will relegate our children to walk in the minefield of nuclear terrorism in the next generation.

I just hope that somehow reason can somehow be injected back into this system and we can understand, from a historical point of view, that when we stood up to despotism in the past, it was always a good thing. When we counted on appeasement, it always hurt us. I just pray that we can catch it soon enough here.

I thank you for the opportunity.

Mr. TURNER. Thank you, Representative FRANKS. I appreciate your comments on that. It's very important we look at this through the lens of the administration's policies with respect to Russia.

There is no historical perspective where conceding to Russia early has ever gained anything at the bargaining table. When you concede to Russia prior to entering into negotiations, they say, What else am I going to get when I get to the negotiating table? They never say, Well, that was very great of you, and I appreciate what you have done. I'm now going to do something, too.

In this instance, the President had already signaled in a letter that allegedly went out in the beginning of the year that he was willing to look at conceding on missile defense for Russia's help on Iran without any indication whatsoever that Russia is willing to help. In fact, as you have pointed out, Representative FRANKS, they have done the opposite. They have been active in selling technology and providing technical assistance to Iran.

But also, Iran has shown no indication of their interest in being dissuaded, and, in fact, the International Atomic Energy Agency said, Time for persuasion and time for dissuading is over; that Iran is now declared by the International Atomic Energy Agency to have the capability to create a nuclear weapon. That was announced the

very same day the President decides to abandon the nuclear shield that we should have had with our missile defense shield, with the President moving from what would have been a 2013 deployment for a missile defense shield in Europe to a 2020 protection.

So I appreciate your points with respect to Russia. As we enter the START negotiations, obviously we have a significant amount of concern as to what this administration is going to be doing with respect to our strategic assets, having already compromised on our missile defense.

Representative FRANKS, thank you for being with us and participating in this.

Just to recap for a moment as to where we are timewise, the President has put forth an alternative plan for missile defense that he says is going to be available for protection for the United States for intercontinental ballistic missiles by 2020. He scrapped the plan that was intended to provide protection for the United States from ICBMs by 2013.

All the intelligence that we have to date shows that Iran could have ICBM capability by 2015. The International Atomic Energy Agency says that Iran already has nuclear capability. Let's put that into a calendar.

We would have had a system that would have protected us by 2013. The President has taken that off the table. The intelligence agencies say that Iran could have nuclear capability, coupled with missile technology, that could reach the United States by 2015. The President says, That's all right. We'll wait for another 5 years and have capability to protect the United States by 2020.

That's an unreasonable time period to put the United States at threat with this threat, and it's one that we should all be concerned about.

I have asked the President and the Secretary of Defense to declassify this report from the Institute for Defense Analyses. It's an unclassified excerpt, executive summary, which I'm holding here, of an independent assessment of the proposed deployment of ballistic missile defense systems in Europe that said that, actually, the system that he scrapped would have been the most cost effective. It would have been a system that would have provided 24-hour coverage at the least amount of cost and, by the calendar that we just have discussed, would have been available as early as 7 years earlier than the President's plan for protecting the United States.

While the administration has dismantled our capabilities in Europe, at the same time they have cut missile defense overall by \$1.2 billion, lessening our capabilities in some very important systems, including diminishing, by a third, our capabilities in Alaska.

The administration has indicated that they can use our Alaska ground-based missile systems to protect the United States if Iran should get capability earlier than their system is available in 2020, but to show their commitment to that system, they've cut it by a third. So we're actually going to have less capability there.

Now, in addition to the lessening capability in Alaska, we are losing the opportunity for what would have been an integrated system. With THAAD and Aegis and the European system and Alaska, we would have had opportunities for multiple shots if the United States should have a threat that is posed to us. And, as Representative FRANKS indicated, this system, once in place, would have acted as deterrent to stop the advancement of missile technology and hopefully say to countries that the United States is advancing the type of technology that would provide us the important protection that we need.

The impact of the President's decision on our European allies is one of which many people have grave concern. Both Poland and the Czech Republic are very concerned that this administration unilaterally made the decision to abandon the missile defense shield and to leave them having taken the step of agreeing with the United States, in the face of Russian opposition, without a United States partner there, without a system moving forward; both of those countries having made statements indicating their concern of a continuing strong relationship with the United States.

I know that we all remain concerned about showing to our NATO allies that we remain committed to a strong missile defense for this country, strong deterrence in the area of nuclear proliferation, and this administration, by taking this step backward, weakens, overall, our capabilities and certainly those relationships.

Representative BISHOP, I know one of the areas that you spoke on at the House Armed Services Committee as we were moving forward with the National Defense Authorization Act was this overall cut to missile defense of \$1.2 billion. When we look at what it's doing to Alaska, it is lessening our capability. The missile shield that was there was intended to have 40 interceptors. The administration has cut it to 30.

They've significantly diminished the airborne laser. They have reduced the other programs that they've indicated that they're going to rely on with Aegis and THAAD, actually lessening the amount of investment that was projected in FY 2009.

I know you're concerned about what that cut represents, and so am I. Perhaps you could speak for a moment on that \$1.2 billion cut that this House and Senate and this administration is

advancing at a time that we know that North Korea and Iran are getting increased technology.

Mr. BISHOP of Utah. Well, if sometimes you put a spin on it to try and allow talking not just necessarily about the numbers that we're throwing out there but the human face of what this means, about the individuals who actually are working in these programs to try and make this country more secure, they're the ones who are losing their jobs, which is okay if there's a long-term purpose. But I think you actually put it very well, brilliantly well, in saying so simply that the decision in Europe, instead of being prepared 2 years before the threat is viable, we're now going to change that to be prepared 5 years after the threat is viable. That makes no sense.

In that term, saving a billion dollars is not necessarily in the best interest of this country. Not only do you hurt individuals who are working in that area, but you hurt the entire Nation, who is depending upon their results to provide us with some modicum of protection.

Not only does it not make much sense to say, okay, we already have the holes dug, we're ready to put the missiles in there, and now we stop, even though all the parts are there; not only does it not make sense to say even though the missile is already at Vandenberg Air Base in California, we won't go ahead and finish the test to see if it would have worked or not or how effective it would be; those are not productive approaches. And it illustrates that we, as a country, are now in the position where we seem to be vacillating with not a clear and precise idea of where we want to be in the future and what we will use to defend ourselves in the future.

As the gentleman from Ohio correctly said, even if your assumption is we'll take money and we'll shift it to some other place, to announce shortly after that you're going to flatline military spending and still want to find \$60 billion in some kind of savings within the system doesn't mean we're actually going to move forward in any particular area. It puts us into a world that is very, very dangerous.

In the 1930s, we decided to cut our fighter plane program because we wanted to save some money, and when World War II broke out, we found that our bombing runs were having over a 20 percent casualty rate, which was unconscionable. We stopped our bombing runs until we could build up the fighter program to accompany them.

We no longer have that luxury of time. We live in a world where we no longer have the luxury of time, which Abraham Lincoln understood was part of the strategy you have in warfare. We don't have that anymore.

We must be prepared now, not to find out we made structural and strategic

mistakes sometime down in the future when we don't have the ability to repair that situation.

□ 1315

Mr. TURNER. Thank you, Representative BISHOP. I appreciate your tenacity on this and your advocacy for national defense.

To give a recap of the time frame that we're dealing with, this administration scrapped a plan that would have provided a missile defense capability to the United States mainland from Europe that would have been available as early as 2013. All of our intelligence agencies are indicating that by 2015, Iran could have missile technology to reach the United States. That's why we needed that missile defense technology in 2013. They were going to have ICBM capability by 2015.

The International Atomic Energy Agency said just last week that Iran already has the capability to produce a nuclear weapon. So when we're talking about 2015, and they are going to have the ICBM capability to reach the United States, we are talking about a missile perhaps with a nuclear warhead. This administration scraps that plan and, instead, proposes a plan that will not be available until 2020.

So by all the information we have right now, this administration's action has a 5-year gap that has developed in the time period where the administration is accepting the capability by Iran without having the missile defense technology to protect the United States.

What else are we hearing from Iran? Today there was an announcement that Iran has a covert uranium enrichment facility. This should come as no surprise. This is a country that has continued to seek missile technology, nuclear technology and nuclear capability. We understand that Tehran is not just trying to do this for civilian purposes, that it actually represents a threat to the United States, and that's why people have been such advocates to ensure that this country has the appropriate missile defense technology to protect the country.

So the administration responds and says, It's not just 2020. We have capability in Alaska. That will be our backup plan. We can use our missiles in Alaska to protect the United States from Iran.

The problem with that is that this administration, through this House just this year, cut Alaska's missile defense capabilities by a third. So we would have had our AEGIS and THAAD capability, we would have had our European capability, and we would have had our Alaska capability, perhaps for multiple shots that could have occurred in order to protect this country from Iran's quest for an ICBM with it, as is now said by the IAEA, to have a nuclear capability. Instead, this administration says, We're taking Europe off

the table. We are going to rely on what we have, and we're going to take our Alaska capability and cut it by a third.

It puts our country at risk. It puts our families at risk. The President should reverse this decision and should proceed with supporting our allies in NATO, supporting the Czech Republic and Poland, who have been there for us, and put the system in place, protecting the United States.

The President said that the system that he is doing is more cost effective. There is a classified report—I have an unclassified version of it—an independent assessment of the proposed deployment of ballistic missile defense system in Europe. This report says that the most cost-effective plan was the one that he just scrapped. I will end with reading a letter that I sent to Secretary Gates, requesting that he make this independent assessment and study available. We hope that he releases it so we can have a robust debate on that.

#### MISSILE DEFENSE

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Iowa (Mr. KING) is recognized for 60 minutes.

Mr. KING of Iowa. Mr. Speaker, I appreciate being recognized for the privilege and the honor to address you here on the floor of the House of Representatives.

As we wrap up this congressional week and I listened to the gentleman from Ohio, the gentleman from Utah and the gentleman from Arizona talk about missile defense and our national security, what I have heard over this last hour is a technical, tactical, strategic explanation of why America has taken the positions that we have, the decisions that have been made in the previous administrations, and I think a clear and stark analysis of what apparently is a huge diplomatic mistake made by the President of the United States.

I would make the point that those who defend him seem to always revert back to a default position of, The President must have gotten something for it. They speculate that there must be a quid pro quo to pull the rug out from underneath the Eastern Europeans—in particular, the Poles and the Czechs—who in their headlines, as I believe Mr. FRANKS said—the headline in one of those papers said “Betrayed!” To betray the Poles and the Czechs, the United States of America, the integrity of our Nation and the confidence in our national security have been diminished in a way that probably can't ever be rebuilt.

But those who defend that decision will argue, Well, the President is a smart negotiator. He is a brilliant man. Therefore, we have to trust his knowledge and his judgment because

he must know something that we don't. Yet I haven't heard one of these imaginative characters that can defend anything and advocate for anything come up with a single thing that would be worth doing what the President did. What could possibly be worth giving up the integrity and the credibility of the United States? What could possibly be something that could come out of any negotiations with Iran or Russia that could emerge as a plus on this side that would offset the loss of international credibility, the word of the United States and our commitment to our allies, let alone giving up the strategic position of being able to take out Iranian missiles shortly after they leave the launching pad, instead of leaving this 5-year window, as Mr. TURNER just said?

If your President is so much smarter than you are that he must have gotten something accomplished behind the scenes that's so valuable that even you can't conceive of what it might have been, I don't know if you call that a rational thought or a religion. But, Mr. Speaker, we're in a situation here where the United States and the world is in a very, very dangerous place. This globe is a giant chessboard; it's a giant Monopoly game, and it's a giant Risk game that's going on. It's a giant poker game that's going on. And there are some poker players, chess players, Risk and Monopoly players out there that are really good and really smart, and they spend their time trying to figure out how to outmaneuver the United States. It has taken place ever since the dawn of the Soviet Union, and the Monopoly game here in the United States broke the Soviet Union, and they imploded.

Now we have Putin over there on the chessboard, at the poker table, and he is making moves on this global chessboard that seek to reconstruct what he can of the former Soviet Union. It's been in his interest to cause Iran to be a thorn in our side and for us to think that we could ask Putin to, well, be open and do us a favor and maybe he could talk real nice to the Iranians and they would stop their nuclear endeavor—after all of these years and these billions of dollars spent and the great diplomatic risks that they take?

These people are not going to just simply tip over their king and walk away from this chessboard. For the President to think that dialogue is diplomacy and that you can accomplish things just because you talk about it is an inherently left-wing, myopic European view, and it's something that I've heard from their mouths in the discussions that we have over in that part of the world.

We have with us Mr. BISHOP from Utah who has significant insight into that part of the world, the politics of Western Europe as well as geography of that part of the world—Iran, the Mid-

dle East, Eastern Europe and also Western Europe. I have asked the gentleman if he would stick around long enough to impart some of that broader view to explain the forces that are at play in this dynamic, the forces of Russia, the forces of Iran, the Islamic effort that's there, the Israeli position that's there, the threat that comes from Iran threatening to annihilate and wipe Israel off the face of the Earth.

And by the way, this move, in my view, brings it closer and closer that Israel likely will have no choice but to at least attempt to take out the nuclear capability of Iran. Their survival might very well be at stake. So this move that might look like its a move designed to pacify the Russians might well end up being something that compels the Israelis to make a military strike. And it may well be a tool that, once removed, the missiles are in the Middle East, and this is a decision that is now made that moves us to the inevitability that there will be military action take place as a result of a pacifist action on the part of the President.

This is what comes when you go to—let me call it the Neville Chamberlain School of Diplomacy or capitulation, for remember when he returned from Munich waving a letter saying that he had achieved “peace in our time.” Well, that peace in our time didn't last long. I was thinking about the situation of how it was that Hitler actually negotiated with the Russians for a while and that ended up with Poland being divided and a global war as a result.

I would be happy to yield as much time as he may consume to the gentleman from Utah. I am interested in your perspective on this global chess, poker, Monopoly, Risk game that's taking place.

Mr. BISHOP of Utah. I appreciate the gentleman from Iowa spending some time talking. We had the opportunity earlier this year of traveling to Germany together to meet with the chancellor, the foreign minister, the economics minister, the interior minister, several of those to talk about it. I recognize that I'm not putting myself here as an expert in this particular area because sometimes it is a matter of perspective.

I know at one time when I was over in Germany meeting with our fellow parliamentarians, who are members of the Bundestag, that I was amazed as we started talking about the impact of the Helsinki Accords on the ultimate destruction of the Soviet Union and the falling of the Communist empire. They seemed to have a greater emphasis on the significance of the Helsinki Accords than I have ever heard any political scientist in the United States putting on it.

So sometimes there is that perspective that is somewhat different. But in

dealing specifically with how we should resolve and go forward, specifically with Russia which is rejuvenated, there are a couple of things to keep in mind. I'm not sure quite how you play with them all, but there are a couple of things to keep in mind. The first one to keep in mind is, the Russians have not played nice with their neighbors who used to be part of the empire. So the Ukrainians, they clearly cut the oil and gas and threatened the economic security and independence of the Ukrainians at a time when it was not the most convenient, and it created more political instability in the Ukraine, as if that was a part of an overall goal.

Shortly after that, there was the invasion of Georgia, another former republic of the USSR that is now an independent nation. Certainly, the consequences of that have yet to be actually played out in the international arena. But what the Russians did cannot be considered as a nice neighborly approach to any type of situation.

I would also put into that milieu of understanding some concepts of what is going on internally in Russia. The Russians have traditionally liked having scapegoats for internal problems. One of the problems that the Russians are facing right now is one of demographics. They are losing population. They have a massive amount of land to control without a population that is growing or an economy that is growing to handle that. And one of the elements that historically has happened within the Russian mind-set is to try to find some scapegoat for that particular approach. I think we have got to keep that in the back of our minds as we are dealing with how we actually move forward in relation to the Russians and everywhere else.

It is, indeed, correct, as the gentleman from Iowa said, that if the Russians had been helping us to pressure the Iranians in a nonviolent embargo approach, that we would be further along in that effort to try to pressure the Iranians to use only a peaceful nuclear program, rather than what we, I think justifiably, suspect for all kinds of concepts that would be going there. We would not have Mr. Morgenthau from New York City, who can never be considered a right-wing radical Republican, talking in newspaper and magazine articles about the interconnect between Iran and Venezuela and how some of the money that was supposed to be stopped in the embargo has been able to be laundered through Venezuela and the connection between this. Eight times Chavez has visited Iran. Iran is now putting money into Chavez' efforts. So I see the future of the problem when we look at the Iranians on the east, Venezuela on the south of our country, the North Koreans on our west coast and realize that we are living in some very perilous times.

I happened to be in Germany when Ronald Reagan was talking about put-

ting the missiles in Germany. It was heavily contested at the time. The Soviet Union was violently opposed to it, and there were a lot of pacifists within Europe who said that putting missiles in there was the worst thing we could possibly do; it will escalate the conflicts; it will escalate the violence. And what we found out in looking at history is it did just the opposite. It worked in actually bringing about a longer term peace as well as, ultimately, the end of a reign of terror of communism and allowed people who had never been free to finally become free.

That is why I am so worried about our decision, after our Polish and Czech allies went out on a limb politically to allow us to have some kind of missile defense system that would protect Europe and the eastern coast of the United States before the Iranians could develop anything offensively, to stop that prior to that, saying that we will now come up with a program that won't work until 5 years after the Iranians would probably be effective. I worry about what the result is, and I worry that we, as a country, have not learned the lessons from history, from the past, because we seem to be making what I consider to be mistakes as we deal with these rogue nations.

□ 1330

And mistakes as we deal with our allies in Europe, insulting them, putting them in difficult positions, and then yanking the rug out from under them, as well as putting ourselves at some kind of military disadvantage as to the defense of this country against other countries that significantly are malevolent in their attitudes towards the United States, it's a very cumbersome and difficult situation as we look at how that chess game is being played.

I think the demographics of what is taking place in Russia should not be overlooked. They have decisions that have to be made, and they don't have a lot of very good choices before them right now. They will be looking for choices which kind of deflect the inability of their interior policy that is not working.

Mr. KING of Iowa. Briefly reclaiming my time, a question forms in my mind, and I'd like to take advantage, Mr. Speaker, of the expertise which I will assign to the gentleman from Utah in his understanding of history. And I'm looking back upon those events in the 1980s and this event that's coming up for the 20th anniversary this November 9, the fall of the Berlin Wall.

When I watched that happen on television, I saw literally the Iron Curtain crashing down. Every time a hammer blow landed, every time they hit it with a chisel, every time they knocked another chink or pulled a section of the wall down, that was the Iron Curtain being deconstructed. Demolition of the

Iron Curtain that took place began on November 9 of 1989.

Now, at that moment the pundits in the news media didn't understand what was taking place. They didn't see that as the Iron Curtain. They saw it as the family reunification plan. And therein lies the large flaw that took place on the part of the liberals. They didn't understand the dynamic that had taken place. But Ronald Reagan understood it at that moment. I'm not convinced that his immediate successor understood it to the depth that Ronald Reagan did.

But this question has always lingered in me. I thought that it proved to the world that free markets and free enterprise and freedom would always prevail over communism, socialism, despotism, totalitarianism of any kind because of the dynamics that come from the creativity and the productivity and the freedom that comes from the human spirit and the checks and balances that exist in the marketplace.

Yet I didn't hear them capitulating in their argument. They just suspended their arguments for a little while. And then front-and-center, full-blown, proud, global Communists disappeared.

But where did they go is the question? Did they go back and lick their wounds and change their ideology and come back as free enterprise capitalists? I don't remember their doing that. But I wonder if the gentleman from Utah has any thoughts on what happened to those front-and-center Communists from 1989. Where are they? Some have passed away but some are still with us. What are they doing today and what do they believe in, and how does this fit into the equation?

I yield to the gentleman from Utah.

Mr. BISHOP of Utah. I appreciate the gentleman from Iowa offering me this opportunity to tell you flat-out that I don't know what they have done or where they are going.

I do know that what we have found is for the United States to be effective, we had to be strong and secure and make sure that our self interests could be protected.

I just finished a book about the Civil War and about Lincoln as the Commander in Chief and his approach to it. He was much more intellectual about his view of the war than we are. He understood that time and resources are weapons just as much as individuals are or soldiers are in using war. And to be honest, the problem he had with the Union generals through most of the war was they didn't catch the concept of time and resources as an integral part in making decisions. He got it. And he was very much vilified at the time because he insisted on an approach which ultimately said the only way we can win is if we are forceful and strong and insist on this.

If Lincoln had simply backed off and said, What we're going to do is we're

going to negotiate a peace with the South, there would have been a lot of people that would have said, Yeah, I am tired of the war; let's negotiate a peace with the South. And a lot of people in the North would have said, Yeah, let them go; we don't want to be part of them anyway.

But what Lincoln clearly understood from the geography of the situation and the future is that the Civil War would have been the first war between the States, not the only war. It would have been the first of many wars in the States as the North and South then battled over economic issues, transportation in the Ohio Valley, use of the Port of New Orleans, frontier land in the West. He clearly got what the future would be.

I think President Reagan, when he decided to stand tough and he was highly criticized for it, got what the future would be. He did not want to see a world where there was nuclear proliferation, but he understood that America had to be tough in order to get to that point.

I worry that we have somehow lost those lessons of history, and we don't realize that for the United States to move forward, we have to ensure that we are perfectly capable of defending ourselves. That's why I'm worried. The decision that we made to take the missiles, not implement the missiles in Poland and the radar system in Czechoslovakia, does not make us more secure. The idea of trying to cut our ground-based missile defense does not make us more secure. And where is this overall vision that we are trying to go? Where is this concept that we have to have security first before we can therefore start to negotiate other items around the world?

I'm concerned with our enemies, especially Venezuela, who are clearly malevolent in their approach to us, spreading that document throughout the rest of Latin South America. At the same time, the Iranians are very bellicose, to say the least. And North Korea, who knows what you want to do with him. Those are the concerns. Those are concerns.

I appreciate the opportunity of speaking with the gentleman from Iowa. I know when we had the chance of going to Germany, he was very forceful in presenting an American approach, and he was willing to ask the tough and difficult questions when the rest of us were trying to be reticent here, not in an obnoxious way, by any means, but in a way of saying somebody's got to play the devil's advocate and say, What does this really mean, and where will we go in the long term?

And I appreciate his efforts in that. And I know, if you'll excuse me at this time, that he will also go through that in this period of time that he has on the floor. And, Mr. Speaker, he will do what he always does. He asks the right

questions in a way that you can't avoid trying to find a good answer to those questions.

Mr. KING of Iowa. Reclaiming my time, I very much appreciate the diplomatic gentleman from Utah for his contribution to the knowledge base and the decisionmaking process that we do here in this Congress. And I would suggest that he's a little overly humble when he says he doesn't know the answer to what happened to those Communists. When I think about the discussion that we've heard about Ukraine, Georgia, Iran, Venezuela, North Korea, South America, Mr. Speaker, all of these areas are discussed in a book written by Colonel Robert Chandler called "Shadow World." It's 500-and-some pages long. And Mr. Chandler takes the situation of the world at the end of the Cold War, and that would be at the implosion of the Soviet Union, and he begins to identify the leading personalities in the world, those leaders and those ideologies within the countries that are, let me say, Communist interests, hardcore Communist interests.

And he takes the person around the globe to every populated continent and talks about the core politics of each of those countries, including these countries that have been mentioned by Mr. BISHOP of Utah and especially Venezuela and North Korea and some of the other countries in South America, also Putin in Russia and how things unfolded and Gorbachev's position as well.

It is a very, very educational compilation of what happened after almost 20 years ago when the Berlin Wall went down, the Iron Curtain came crashing down, and the people who were holding up that part of the world, the left side of the world, those on the east side of the Berlin Wall, who had a managed economy, who had the central planning that set up 5-year plans for the collective farms, those that told everyone else when to go to work, what raw materials to deliver. And if you remember, Ronald Reagan and some of the others made the joke that, well, people in the Soviet Union pretended to work and the Soviet Union pretended to pay them. But eventually that house of economic cards collapsed.

A question was before us as a Nation, and that question was, while the Soviet Union was developing a missile capability to eclipse our own capability here, such a devastating force of ICBMs that there was nothing the United States could do to survive such an attack, that mutually assured destruction was going down the path of a destruction that would be so bad in this country that civilization itself may not survive.

The question that was before us was articulated best by the former Ambassador to the United Nations, Jeane Kirkpatrick, who, as she stepped down

from that position in the early 1980s, said this contest that's going on, this Cold War, is the equivalent of playing chess and Monopoly on the same board, and the only question is will the United States of America bankrupt the Soviet Union economically before the Soviet Union checkmates the United States militarily? That was the most succinct example of what was taking place in that Cold War in the 1980s.

We know how it played out now. We look back on that, and almost 20 years ago the Soviet Union could no longer hold their economics together. They couldn't keep their military out even in places like East Germany. So they opened up the border with Hungary. People flowed around through Austria and Hungary. And at a certain point, there wasn't any merit in guarding the Wall anymore because people were streaming around the end. And so they went over the top and began to sit up on top of the wall with hammers and chisels and saws and anything they could get their hands on. And, yes, some broke bottle of champagne, and there was family reunification.

But it was the Iron Curtain crashing down nearly 20 years ago that should have been a lesson for the whole world that free enterprise always defeats a managed economy, because no matter how many smart people you put in positions of power, they can't micro-manage an economy that is a combination of everybody's individual productive and economic activity every day.

The invisible hand, as Adam Smith famously described, and actually didn't, about how free enterprise works with providing the incentives and managing the supply. So it works like this: If the grocery store runs out of bread, the store owner understands he has to have more bread or otherwise people will go someplace else to shop. And if there's a cheaper, better bread at the neighboring store, that store owner is not going to sell his bread. So that's how bakeries get started, how grocery stores grow and shrink, how chain stores begin, how manufacturing begins.

Our control, our managed economy is this: Free enterprise drives our economy. And the buy, sell, trade, make-gain culture that we have that's part of what made America great, one of the central pillars of American exceptionalism is free enterprise. When we have that working for us in this country, Americans are more productive than anybody else in the world.

Our job here in this Congress, Mr. Speaker, is to get government out of the way and to provide the kind of tax and regulatory structure as minimally as we can so that the result is the individuals in this country will see our average annual productivity go up. And if people are rewarded for their productivity, they will produce more. If you tax them and punish them and regulate

them, they will produce less. So in places like the Soviet Union, the former Soviet Union, they just simply suppressed the productivity by taking away the rewards.

I can give you a simple example that stands out in a very stark way. And that is Communist China, a country of more than a billion people, about the same geographical area of the United States, having trouble in a lot of ways competing in the technological and educational side of this. But some years ago, they decided they were going to let their farmers, who are less controlled now than they were, be able to get engaged in the honey business without having government interference. So, in other words, government doesn't appoint themselves a few thousand beekeepers and have them deliver all that honey for a set price. They let them compete on the open market.

And what has happened? China almost immediately began exporting honey and competing against the honey here in the United States because they had some people that could be beekeepers. That's like a little microcosm of free enterprise that sprung up out of China because they took the regulations away, took their managed economy away and let people produce all they could produce and sell all they could sell and keep a significant share of the profits.

Well, here in this country, we've had that as a tradition across the breadth of this economy, and it's diminished significantly, Mr. Speaker.

So the vitality of free enterprise brings about the best in us, the highest productivity, the most innovativeness in us. It gives us an incentive to extend each of our educations. It gives the inventors an incentive to invent. It gives the people that are producing and doing the experiments on pharmaceuticals an incentive to produce better medicine. And those who invent better surgery techniques get to cash a bigger check.

□ 1345

Well, even though they are humanitarians driven by a desire to do good in their work, when you really need to reach back for that extra adrenaline when it gets late at night when the rest of the world is tired, or maybe you don't feel very good because you are exhausted, that extra incentive of profit makes a difference and a reward for it in a society that appreciates it.

Around the globe, there is a line of scrimmage between freedom and the suppression from freedom. So when the gentleman from Utah (Mr. BISHOP) humbly said he didn't know the answer, I think perhaps he didn't know the answer that I wanted him to give—that will happen—but he understands very thoroughly how the rearrangement that took place after the fall of

the Berlin Wall at the end of the Cold War, some countries and philosophies lined up on the side of the freedom. Those countries are among those countries where we already had the holes dug to place the missile defense shield, Poland, Czechoslovakia.

Mr. Speaker, have you failed to notice that the people who have achieved their freedom most recently love it and adhere to it the most? The Poles love their freedom. The Romanians love their freedom. And the Czechs love their freedom. They remember what it is like to live under the boot heel of the Soviet Union. They remember clearly within their own families the fear of the occupation that took place before, in many cases World War II, and certainly during and after it.

I recall in a trip over to that part of the world with Mr. BISHOP a conversation with a man about my age whose father's first military operation he was engaged in was Auschwitz, not at Auschwitz to liberate Auschwitz, but at Auschwitz fighting for the Russians. Those things don't pop up easily in our history books, but this broad global concept of who is on what side of this line of scrimmage, who is on the side of freedom and who is on the side of suppressing freedom, we need to understand this.

These forces know instinctively what is at play out here on the globe. And so we wonder, what is the chess board that Putin is playing on? The Monopoly board that Putin is playing on? He is not about advancing freedom; he is about diminishing freedom. The freedom in the Soviet Union, I should say Russia, and some of our satellite states, has diminished since Putin stepped into control.

We met with significant leading personalities in Russia, and I am going to avoid saying their names because I don't need to turn more heat up on them; but you would recognize many if not all of them, Mr. Speaker, and they told us that there really no longer exists a free press in Russia, not a newspaper that they can count on that has any influence that is free to print what it wants to print. There is not a free legislature in Russia any longer either. They are the people who are controlled by Putin, and they don't have free markets. We know that the Mob has taken over a lot of that economy, and there is a payoff that goes on inside of all of that.

So a Russia that had an opportunity to take a step up after the implosion of the Soviet Union now is stepping into the darkness of the left again, moving towards a communist state, taking away the freedom of its people and their ability to effectively have freedom of speech and freedom of assembly and freedom of the press and freedom of their economy. Those things have been significantly diminished under Putin, and they understand that and they see that.

The leaders of freedom in Russia today would have believed that the Russian people would have stepped up by now and gone to the streets and taken their country back. It has not happened. I would encourage that they do so, that they take their country back. We thought it was happening during the days of Yeltsin when he climbed up on the tank. Good things happened there, but we should not forget that we are the vanguards of freedom here in the United States of America for the world. We are the inspiration for the world.

And when it looks like the model for our diplomacy is simply capitulation to Russia, under the belief that our community organizer in chief somehow is a master of foreign policy, well, he is the manager of foreign policy and he is the Commander in Chief of our military, and certainly I stand with our military, and I want to help coach him on the foreign policy a little bit.

I don't know why the press has not been more critical of the President's foreign policy. This huge plunder of just announcing that he is going to pull the missiles out of Poland and Czechoslovakia, take that shield away, and almost at the same time you notice that the information was leaked out about the nuclear capabilities of Iran, which we have just heard in the previous hour, Iran developing the capability, that they have the capability to develop a bomb now and they are in the process we know of developing the capability to deliver it.

And it doesn't take very much of a missile to drop one into Israel, and it only takes one weapon dropped into Israel to annihilate the entire country. And they have said that is what they intend to do.

We look at the President of the United States, his foreign policy experience seems to have, before he became the Commander in Chief and the chief architect of our foreign policy, his foreign policy experience comes to this: having been raised in part in Indonesia at a young age which would give him some sense of the culture but probably no sense of the global, military, cultural dynamics, but raised at least in part in Indonesia.

A President who has once traveled to Kenya, and once traveled to Pakistan. I don't know quite how that happened, but it was announced. And beyond that, the foreign policy experience for our Commander in Chief and the chief architect of our foreign policy seems to be a trip to Germany to give a speech during the campaign. That is not anything that has ever happened before that I know of during a Presidential campaign, but it looked at the time like he wanted to be President of Europe, the United States, and the world.

In any case, very, very limited on foreign policy experience. And the lessons of history, the lessons so well

drilled into us by Neville Chamberlain's School of Appeasement when Chamberlain came back from the trip to Munich and waved the letter in his hand, the letter that Hitler had signed, and he said: I have guaranteed peace in our time.

That was the image of Chamberlain getting off the plane from Munich. And what happened? Within weeks the Nazis invaded Poland. They carved it up with the Russians, and we were off and running in a global war that cost tens of millions of lives. They remember that in that part of the world. They are afraid of being brought back into another war. The Poles remember being run over by the Nazis and the Russians, and then occupied by the Russians for all of these years up until 1990 or so.

This is a very sensitive situation that is going on. When the gentleman from Utah (Mr. BISHOP) mentioned the Ukraine and Georgia, the importance of the sovereign state of Georgia should not be diminished.

We should understand that this chess game that I have talked about, the central square on the chess board for Putin is Georgia. That is the nexus through which the energy flows, the energy that is produced in gas and oil wells east of Georgia, east of the Caspian Sea, roughly 1.2 million barrels of oil going through Georgia by pipeline on a daily basis, 1.2 million, a train that has constant tankers of crude oil being hauled through the nation of Georgia on their destinations to the tanker ships and the Black Sea, and the natural gas that flows in pipelines through Georgia to other places in Europe.

Georgia is the nexus. Think, Mr. Speaker, of an hourglass, and on one side of that hourglass is a lot of the production of oil and natural gas that is east of the Caspian Sea, flowing through this nexus of Georgia with pipelines, rail lines, and coming out the other side at the Black Sea and going on to land-based places around Western Europe.

Think of the Russians shutting off the natural gas to Germany a year ago January. Think what that meant when they did that. And to have the Germans take the position that it really didn't affect their foreign policy toward Russia because they only got 30 percent of their natural gas from Russia.

Can you imagine if Hugo Chavez had 30 percent of the natural gas coming into the United States and he turned the valve down and shut off our gas in January? Our furnaces would have gone dark on us, and our houses would have gone cold. If that had happened, what would we do? Would we accept that? If we didn't have the power to do something about it, would we capitulate to the demands of Hugo Chavez?

My answer, I think we would say yes. I think if we didn't have the power or

another alternative, we would have to negotiate.

I am going to suggest that the Germans are negotiating with the Russians because they can't do a confrontation, and Putin knows it. That's why he shut the energy off that was flowing through Georgia for 4 days. He sent a message to Europe that he can do that anytime he pleases. When he shut the gas off that was flowing through into Germany, that said clearly that Putin can do that anytime he pleases.

So if someone controls your energy and they can shut the valve down anytime they please, you end up being a little nicer to those folks unless you produce another alternative. Well, the alternative that is being produced is building a new pipeline around to the North Sea. And where does it come from? Russia. That puts them in more control. My answer would be: I don't want any of that; let's develop our own energy sources and not be dependent upon those energy sources that are coming from Russia. But that has been Putin's strength. When energy prices went up, he found himself sitting on a lot of cash. That is unusual for a country whose energy falters; but because Russia has a lot of energy, they have had a significant advantage.

But, Mr. Speaker, we should remember when the Berlin Wall went down in 1989 and the Soviet Union imploded within the next couple of years that the people that were Communists, Socialists, Marxists, Maoists, they didn't go away. They didn't look at the model of this dynamic vigor of the United States economy that is driven by our people and decide they wanted to be more like us. Some did; not many.

Most of them went underground for a little while and then tried to get back in power. The former Communists are there seated in the legislatures across that part of Europe today. In small numbers, and in some cases they don't get to call themselves Communists because that has been stained by the history of it, but they still believe the same thing. They still want to manage. They still believe that their elitist mind-set can tell the rest of us what to do. They want to take away the freedom of individuals to make their own choices economically and militarily and politically and culturally. And, in fact, persecute the churches while they are at it.

We need to understand Communists haven't changed. They might have taken on different names. They might have declared themselves Social Democrats or to be Progressives. They might just be the Democratic Socialists of America that are supporting Progressives in this Congress, but they are the same people with the same ideology.

And us freedom-loving people, I should say we freedom-loving people, need to understand that there are basic

principles of Americanism, and free enterprise is one of them. And those who undermine free enterprise are undergoing anti-American activities because they are undermining our vitality and our freedom and are taking away our ability to take this Nation up to another level of our destiny.

That is part of this equation that is taking place here as the President of the United States—whom I happen to have this portrait of. I think it is a flattering one actually and well done as far as the artwork is concerned. The President of the United States brings an ideology to the task of community organizer in chief. With a limited foreign policy experience of having traveled, lived shortly in Indonesia and traveled to Pakistan and I understand to Kenya, and beyond that his trip to Germany to give his speech there with the Autobahn Bismarcks—I think that is the victory monument or the triumph monument that's there in Berlin—with that in the backdrop, not the Vandenberg Gate which he tried to do, that is not a lot of foreign policy experience to be playing on this global chessboard with the world's number one economy, the world's number one military, and with the destiny of the world hanging in the balance if you make a mistake.

□ 1400

No one has a crystal ball, but this is a very high-risk endeavor taken on by our Commander in Chief. And those who are experts on the military side of this, it's not quite universal, but there has been a broad criticism that has been made. And I have no idea. My imagination cannot tell me what he could possibly have gotten for capitulating on the missiles in Poland and Czechoslovakia.

And so, Madam Speaker, that brings me to the subject matter that has, I will say, riveted the American people over the last couple of weeks, and that is the issue of ACORN, ACORN being the place where the President got his start in politics, where Barack Obama first engaged in community organizing, and his community organizing being part of—the most high profile that he did was Project Vote, the get-out-the-vote effort. And Project Vote that he worked for is a very close, indistinguishable-from affiliate of ACORN.

So ACORN in Chicago has always had a broad and deep connection. It has always been very active there. From the early days when ACORN originated in Arkansas and emerged across the rest of the country, ACORN has had a very solid presence in Chicago. And the President of the United States might, in his most candid moments, confess that he wouldn't be very likely to be the President of the United States if it hadn't been for ACORN, ACORN's ability to register voters and get out the vote and bring about the kind of leverage within the inner city that allows

ACORN to influence votes at the inner city level.

Now, ACORN is a corporation, and its structure is something that seems to be a little bit mysterious. It has been often reported that they're a 501(c)(3); that's not for profit. That means they can't engage in partisan political activities. And we have seen as a report from the Government Reform Committee that ACORN has up to 361 affiliates; in fact, they list 361 affiliates in their report. Some of those may not be active affiliates, and there may be some affiliates that didn't get picked up in the report done by the Government Reform Committee. But ACORN has turned into a spiderweb of this conglomeration of affiliates.

So when I speak of ACORN, Madam Speaker, I'm speaking of ACORN and all other affiliates, think 361 corporations, a third or more of them being 501(c)(3) not for profits, some 527 organizations, and some 501(c)(4) organizations, and other corporate structures, organizations that share, in many cases, interlocking boards of directors and an interlocking mission that reaches out and has become a vacuum that sucks up taxpayer dollars in many of the States and from the Federal Government.

They have received over 53 million Federal tax dollars since 1994, and I think that's a small piece of it until we examine all of the affiliates. Many of the States have contributed to ACORN in one way or another by reentering into contractual agreements with them; ACORN and ACORN Housing, for example, essentially in the business of brokering low-income housing.

So these are some of the things that ACORN has done. They've contributed to the toxic mortgage situation that brought about the economic meltdown just a year ago, and they've done so by shaking down lenders, by demanding contributions from lenders. What large major investment bank has not written at least one fat check to ACORN?

Madam Speaker, I'm going to suggest that they have shaken down many of the banks that have been bailed out. And we should take a look and see which banks received TARP funds and look there and see which banks also contributed money to ACORN. And we need to bring all of the finances together of the private corporations that are part of this funding for ACORN as well as government. It's not enough just to audit what government sent to ACORN. It's important that we go to the private corporations as well and see what has happened.

But we know that ACORN has gone in and intimidated lenders. Lenders have written checks in order to, let me call it, "influence" ACORN to stop demonstrating in their banks so that they can actually do business. We know that ACORN personnel, including Maude Talbot—her first name actually

escapes me, but Talbot is the last name, the head of ACORN in Chicago who has claimed Obama as her own—have bragged about going in to intimidate lenders in their offices and talked of other circumstances about shoving the lender's desk over against the wall, surrounding the loan officer, screaming and yelling and chanting at him until such time as he would get tired of that behavior and commit to loaning certain amounts of money into these areas in their neighborhoods. That's a shakedown, Madam Speaker. ACORN was involved in that.

And we know while they were shaking down lenders, they also were here in Washington, D.C., convincing this Congress that we should pass legislation to lower the standards of Fannie Mae and Freddie Mac on their secondary lending market. And when that happened, it lowered the standards that undermine the foundation of requiring credit for loans. And when that happened, it laid the foundation, in fact, it eroded the foundation for credibility and credit and it began the downward spiral of the mortgage lending crisis. And at the core of that, as you look through it, you will see ACORN there over and over again shaking down lenders, coming to Congress, undermining the underwriting requirements that Fannie and Freddie required in order for them to purchase these bundles of mortgage-backed securities that were being created by individual bad loans in bad neighborhoods that were promoted by ACORN, who was getting checks from the lending institutions and getting agreements from the lending institutions to provide blocks of money that would be loaned into neighborhoods that ended up being bad loans.

ACORN is at the core of the financial meltdown. And by the way, the President of the United States was at the core of ACORN as a lot of the genesis of this was being generated; headed up Project Vote, later on hired ACORN to work for him to get out the vote during the Presidential campaign. So the President of the United States started out with ACORN. He trained their trainers. He represented them in court to undermine, by the way, the integrity of the ballot box, in my view. And that's a Motor Voter issue, which we would disagree with philosophically. Headed up Project Vote.

The actions of ACORN in Chicago have been tied together integrally with the President of the United States all the way through. And here we are now with ACORN helping to, on film, apparently facilitate child pornography and being willing to work with and advocate for what to do with illegal immigrant children brought into prostitution rings in five cities in the United States at a minimum, that being Baltimore; Washington, D.C.; Brooklyn, New York; San Bernardino, California; and San Diego.

Madam Speaker, that was appalling to this Congress. It finally got us to the point of revulsion where we could finally vote to shut off funding going to ACORN and their affiliates. And that vote was a vote of 345–75 here on the floor of the House of Representatives. Just the day before, I didn't think it was possible, but the American people saw the character and the culture of ACORN in that film, those five films that took place inside those five cities, and we understand there are more that have not been released yet. And what happens? Finally, some of us that have been calling for investigations are starting to get a little bit of movement.

But what needs to happen, Madam Speaker, is an all-out full court press on ACORN and all of their affiliates. We need to have the Department of Defense unleash their investigators to trace down, through all the activities of ACORN and all of their affiliates, and work in cooperation with IRS investigations of ACORN and all their affiliates, track every dollar that comes into the affiliates and every dollar that goes out. The commingling of funds, the transfer of funds, we need to have the Department of Justice go back down into the embezzlement that took place of nearly \$1 million out of ACORN by the brother of the founder of ACORN, covered up by the founder of ACORN.

Brothers do that, I understand. One of them commits a crime and apparently the other one covered up the crime, which is a crime itself. And then they misappropriated funds that were pension funds in order to backfill the hole that was created in their accounting by the embezzlement of Dale Rathke, all of this covered up by his brother, Wade Rathke. And they covered it up and held it away from the functioning board of directors of ACORN at the time.

We have ACORN producing over 400,000 fraudulent voter registrations, complicit in the beginning, and part and parcel of the mortgage lending crisis, embezzlement/coverup by its top officers, and now we have ACORN helping to facilitate child prostitution rings and setting up houses of ill repute and helping to facilitate loans to do that, and advocating that the, let me just say, pimp and the prostitute not claim all of the 13 or 14 presumably illegal children that they were going to bring in from El Salvador into Baltimore, but just to claim three of them so it wouldn't raise the levels of suspicion. And then they could qualify for the earned income tax credit and the child tax credit, child tax credit up to three children, \$1,000 a year per child, and then the earned income tax credit, which would probably add another \$3,000 to that, most likely, given the advice that they gave, to game the taxpayer for a check for a cumulative of

about \$6,000, and just as a matter of fact and a matter of course.

ACORN would help with the income tax filings. They would help with gaming the taxpayer. They would help with a loan for the house of ill repute, and they would turn a blind eye, at a minimum, to illegal immigration. This is Baltimore. But in San Diego, they advocated to help with that. We have friends in Mexico. You have to trust us. We'll get this done for you. Unbelievable. No conscience.

We saw the culture of it. But all the parts that we've been talking about up to the part of the prostitution, people would deny it. We had defenders over here on this side of the aisle, but now they can't deny it because once you transpose the image of facilitating child prostitution as a matter of culture within the corrupt criminal enterprise of ACORN and their affiliates, once you expose that, none of the rest of this is unbelievable. It's entirely plausible, and it is, in fact, entirely real.

ACORN has created now a closed, contained economy within itself where its tentacles reach out and suck in and draw down Federal money, State money, contribution money, shake-down money from banks and other lending institutions and corporations to keep ACORN off their back, do the shakedown endeavor. And once that money gets drawn in, then it becomes something that gets commingled. And as it's commingled, then it goes out to further their political enterprise, corrupting the election process in the United States. And if there is anything that I am aggressive on defending, it is the integrity of the ballot box, and they have assaulted the integrity of the ballot box.

The President of the United States grew up in ACORN. He hired ACORN. He worked for ACORN. He hired ACORN. He is a player and a coach. He wore their jersey and now he is the equivalent of the owner. And he had set them up to do the census, and twice now the Census Bureau has announced that they aren't going to use ACORN to help with the census. Why would anybody think ACORN can count people better than they can get people registered to vote? Four hundred thousand fraudulent registration forms. Can't we imagine that ACORN would pay a commission for everybody that the census workers could count?

And if they paid people on commission, they would just simply fill out forms and expand the numbers, or count people two, three, four, five, six times. Even if they set up expectations and not a quota, the result ends up being the same, even though it's not as stark a violation of the law. You can't have American people counted by people that can't even handle a voter registration form with an expectation that it has an even even chance of

being a legitimate voter registration form.

Madam Speaker, when they take your vote, when they undermine the integrity of the ballot box, that's more important itself than the Constitution, because even though the Constitution guarantees the rights that we have, the only thing that guarantees the Constitution itself is a legitimate election process. If the American people lose their faith in a legitimate election process, the whole thing comes crashing down.

If we don't believe that our vote counts, we can't accept the decisions of government. I mean, think what would happen if we elected a President of the United States, or Members of Congress, United States Senators, Governors of the States, and the American people believed that they were not the elected President, Governor, or Congressman, but they were simply those that happened to be on the side that was gaming the system.

□ 1415

We wouldn't accept their decisions either. If we don't accept the decisions that are made by government, then the progress of civilization comes to a halt and digresses, and we fall into the depths of a totalitarian state eventually as well.

Legitimate elections are the underpinnings of our Constitution, and the guarantees in the Constitution can't be sustained if we lose our faith in the election process. The worst thing that can happen in this country from a policy standpoint would be to see the integrity of our ballot box further eroded by organizations like ACORN. So this is very important. It is very important that the President of the United States stands up and takes a position on ACORN.

Did you notice he was really quiet about some things? He was quiet about Van Jones. Van Jones, the former Green Jobs czar, quit on a Friday night. I guess it was a Saturday morning, at 12:01 a.m. on a Saturday morning. Curiously, the President had nothing to say about Van Jones. Curiously, the press had no questions for the President on Van Jones, and he is a self-alleged Communist. Yet Van Jones drifted from the scene because he became too toxic.

There was a little incident up in Massachusetts of a professor from Harvard who was trying to break into his own house and who had a police officer called to his location. The President saw fit to engage himself in that and to hold a beer summit between Professor Gates and Officer Crowley.

Now we've had the United States Senate vote to un-fund ACORN. We've had the House of Representatives vote to un-fund ACORN. We have the Treasury Department starting an investigation. At least it's implicit in their

press release that's coming out. We have the Justice Department looking to see if they've written any checks to ACORN but not investigating ACORN and their affiliates thoroughly. We have a number of ranking members of full committees on this Hill who are doing what they can with the resources they have.

We don't have a single full committee Chair who has announced investigations and hearings into ACORN at this point. We've got Congress doing a slow walk right now on ACORN. We have the President of the United States, who could get himself injected into a lot of different discussions but who has not yet really made much of a peep regarding ACORN.

Now, if the Senate says un-fund ACORN and if the House says un-fund ACORN, why can't the President say un-fund ACORN? That's what I'd like to know.

If the President of the United States would step forward and say to this Congress, Investigate at my request, and I'll turn over all the resources of the entire executive branch of government to drill down through ACORN and all of their affiliates, and will chase every dollar, every director and every employee who has committed an illegal activity and will prosecute them to the fullest extent of the law and will bring about perp walks and prison time for people who are breaking the law, it would happen—it would happen overnight. But he has not. He sat in his ivory tower, and alluded a little bit to the inappropriate actions that might have taken place and about how we should, maybe, get to the bottom of it. They are not yet serious, Mr. Speaker.

They are not going to be serious until the American people make it the highest priority that they have. It's hard to make it the highest priority when you're watching your health care on the chopping block in the United States Senate, when you've watched our national security be diminished significantly by pulling the missile defense shield plan from Poland and Czechoslovakia, when you're not keeping faith with the people who have most recently achieved their freedom—that's the Eastern Europeans—and when you're putting the United States at risk and are empowering Ahmadinejad and empowering Putin and are setting up a tone of going wobbly at a time when we need to be the strongest.

Madam Speaker, I appreciate your indulgence.

I yield back the balance of my time.

CORRECTION TO THE CONGRESSIONAL RECORD OF THURSDAY, SEPTEMBER 24, 2009 AT PAGE 22556

#### DIVISION B—CONTINUING

#### APPROPRIATIONS RESOLUTION, 2010

Division B provides continuing appropriations for all agencies and activities that

would be covered by the regular fiscal year 2010 appropriations bills, until enactment of the applicable regular appropriations bill, or until October 31, 2009, whichever occurs first.

DAVID R. OBEY,  
DEBBIE WASSERMAN  
SCHULTZ,  
MICHAEL HONDA,  
BETTY MCCOLLUM,  
TIM RYAN,  
C.A. RUPPERSBERGER,  
CIRO RODRIGUEZ,

*Managers on the Part of the House.*

BEN NELSON,  
DANIEL K. INOUE,  
MARK PRYOR,  
JON TESTER,  
LISA MURKOWSKI,  
THAD COCHRAN,

*Managers on the Part of the Senate.*

#### LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. JONES (at the request of Mr. BOEHNER) for today on account of personal reasons.

Mr. CULBERSON (at the request of Mr. BOEHNER) for today on account of an illness.

Mr. HILL (at the request of Mr. HOYER) for today on account of a death in the family.

#### SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. KAGEN) to revise and extend their remarks and include extraneous material:)

Ms. WOOLSEY, for 5 minutes, today.

Mr. NYE, for 5 minutes, today.

Ms. KAPTUR, for 5 minutes, today.

Mr. DEFazio, for 5 minutes, today.

Mr. SCHIFF, for 5 minutes, today.

(The following Members (at the request of Mr. POE of Texas) to revise and extend their remarks and include extraneous material:)

Mr. FRANKS of Arizona, for 5 minutes, today.

Ms. ROS-LEHTINEN, for 5 minutes, September 29.

Mr. INGLIS, for 5 minutes, today.

#### SENATE BILL REFERRED

A bill of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S. 1599. An act to amend title 36, United States Code, to include in the Federal charter of the Reserve Officers Association leadership positions newly added in its constitution and bylaws; to the Committee on the Judiciary.

#### ADJOURNMENT

Mr. KING of Iowa. Madam Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 2 o'clock and 19 minutes p.m.), under its previous order, the House adjourned until Tuesday, September 29, 2009, at 12:30 p.m., for morning-hour debate.

#### EXPENDITURE REPORTS CONCERNING OFFICIAL FOREIGN TRAVEL

Reports concerning the foreign currencies and U.S. dollars utilized for speaker-authorized official travel during the first quarter and second quarter of 2009 pursuant to Public Law 95-384 are as follows:

REPORT OF EXPENDITURES FOR OFFICIAL TRAVEL, DELEGATION TO GERMANY, SWITZERLAND, UKRAINE, KAZAKHSTAN, MONGOLIA, CHINA, AND CANADA, EXPENDED BETWEEN JULY 31 AND AUG. 13, 2009

Name of Member or employee	Date		Country	Per diem <sup>1</sup>		Transportation		Other purposes		Total	
	Arrival	Departure		Foreign currency	U.S. dollar equivalent or U.S. currency <sup>2</sup>	Foreign currency	U.S. dollar equivalent or U.S. currency <sup>2</sup>	Foreign currency	U.S. dollar equivalent or U.S. currency <sup>2</sup>	Foreign currency	U.S. dollar equivalent or U.S. currency <sup>2</sup>
Hon. John A. Boehner	8/1	8/3	Germany		980.00		(3)				980.00
Hon. Jo Bonner	8/1	8/3	Germany		980.00		(3)				980.00
Hon. Dan Boren	8/1	8/3	Germany		980.00		(3)				980.00
Hon. Dave Camp	8/1	8/3	Germany		980.00		(3)				980.00
Hon. Tom Latham	8/1	8/3	Germany		980.00		(3)				980.00
Hon. Greg Walden	8/1	8/3	Germany		980.00		(3)				980.00
Paula Nowakowski	8/1	8/3	Germany		980.00		(3)				980.00
Amy Lozupone	8/1	8/3	Germany		980.00		(3)				980.00
Danielle Maurer	8/1	8/3	Germany		980.00		(3)				980.00
Jennifer Stewart	8/1	8/3	Germany		980.00		(3)				980.00
Hon. John A. Boehner	8/3	8/6	Switzerland		1,410.00		(3)				1,410.00
Hon. Jo Bonner	8/3	8/6	Switzerland		1,410.00		(3)				1,410.00
Hon. Dan Boren	8/3	8/6	Switzerland		1,410.00		(3)				1,410.00
Hon. Dave Camp	8/3	8/6	Switzerland		1,410.00		(3)				1,410.00
Hon. Tom Latham	8/3	8/6	Switzerland		1,410.00		(3)				1,410.00
Hon. Greg Walden	8/3	8/6	Switzerland		1,410.00		(3)				1,410.00
Paula Nowakowski	8/3	8/6	Switzerland		1,410.00		(3)				1,410.00
Amy Lozupone	8/3	8/6	Switzerland		1,410.00		(3)				1,410.00
Danielle Maurer	8/3	8/6	Switzerland		1,410.00		(3)				1,410.00
Jennifer Stewart	8/3	8/6	Switzerland		1,410.00		(3)				1,410.00

3836. A letter from the Chief, Publications and Regulations, Internal Revenue Service, transmitting the Service's final rule — Declaratory Judgements — Gift Tax Determinations [TD 9460] (RIN: 1545-BD67) received September 16, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

3837. A letter from the Industry Director, Retailers, Food, Pharmaceuticals, and Healthcare, Internal Revenue Service, transmitting the Service's final rule — Tier II Industry Director's Directive on the Planning and Examination of Contractual Allowance

Issues in the Healthcare Industry #2 received September 17, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

## PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. BAIRD (for himself, Mr. EHLERS, Mr. MACK, Ms. CASTOR of Florida, Mr. DELAHUNT, and Mr. KRATOVL):

H.R. 3650. A bill to establish a National Harmful Algal Bloom and Hypoxia Program, to develop and coordinate a comprehensive and integrated strategy to address harmful algal blooms and hypoxia, and to provide for the development and implementation of comprehensive regional action plans to reduce harmful algal blooms and hypoxia; to the Committee on Science and Technology, and in addition to the Committee on Natural Resources, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BOREN:

H.R. 3651. A bill to reauthorize the Impact Aid Program under the Elementary and Secondary Education Act of 1965; to the Committee on Education and Labor.

By Mr. BARROW:

H.R. 3652. A bill to amend the Public Health Service Act and title XVIII of the Social Security Act to make the provision of technical services for medical imaging examinations and radiation therapy treatments safer, more accurate, and less costly; to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. HODES (for himself and Ms. MOORE of Wisconsin):

H.R. 3653. A bill to amend title II of the Social Security Act to prohibit the display of Social Security account numbers on Medicare cards; to the Committee on Ways and Means.

By Mr. KLEIN of Florida (for himself and Mr. MELANCON):

H.R. 3654. A bill to authorize the National Aeronautics and Space Administration and the National Oceanic and Atmospheric Administration to procure, launch, and operate the next generation of weather forecasting satellites; to the Committee on Science and Technology.

By Mr. RUSH:

H.R. 3655. A bill to direct the Federal Trade Commission to establish rules to prohibit unfair or deceptive acts or practices related to the provision of funeral services; to the Committee on Energy and Commerce.

By Mrs. McMORRIS RODGERS (for herself, Mr. KENNEDY, and Mr. SESSIONS):

H.R. 3656. A bill to amend the Public Health Service Act to expand and intensify programs of the National Institutes of Health and the Centers for Disease Control and Prevention with respect to translational research and related activities concerning Down syndrome, and for other purposes; to the Committee on Energy and Commerce.

By Mr. RODRIGUEZ:

H.R. 3657. A bill to amend title 38, United States Code, to provide for members of the

United States Public Health Service and National Oceanographic and Atmospheric Administration Corps to transfer unused benefits under Post-9/11 Educational Assistance Program to family members, and for other purposes; to the Committee on Veterans' Affairs.

By Mr. SABLAN:

H.R. 3658. A bill to make technical corrections to subtitle A of title VII of the Consolidated Natural Resources Act of 2008, and for other purposes; to the Committee on Natural Resources, and in addition to the Committee on the Judiciary, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. OBEY:

H. Con. Res. 191. Concurrent resolution directing the Clerk of the House of Representatives to make technical corrections in the enrollment of H.R. 2918; considered and agreed to.

By Mrs. BIGGERT (for herself, Mr. STUPAK, Ms. ZOE LOFGREN of California, Mr. WOLF, and Mr. ISRAEL):

H. Res. 779. A resolution recognizing and supporting the goals and ideals of National Runaway Prevention Month; to the Committee on Oversight and Government Reform.

By Mr. FILNER:

H. Res. 780. A resolution recognizing the celebration of Filipino American History Month in October; to the Committee on Oversight and Government Reform.

By Mr. SENSENBRENNER (for himself, Mrs. McMORRIS RODGERS, Mr. SMITH of New Jersey, Ms. BORDALLO, Mr. SESSIONS, Mr. KENNEDY, Mr. KIRK, and Mr. COBLE):

H. Res. 781. A resolution supporting the goals and ideals of Down Syndrome Awareness Month; to the Committee on Energy and Commerce.

#### ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 32: Mr. YOUNG of Florida, Mr. WHITFIELD, Mr. FORBES, Mr. SMITH of New Jersey, Mr. ENGEL, Mr. COURTNEY, Mr. JORDAN of Ohio, Mr. BISHOP of Georgia, Mr. PASTOR of Arizona, Mr. BROWN of Georgia, Mr. DANIEL E. LUNGREN of California, and Mr. HERGER.

H.R. 204: Mr. NEAL of Massachusetts.

H.R. 213: Mr. SKELTON.

H.R. 275: Mr. SNYDER and Mr. SMITH of Texas.

H.R. 333: Ms. DEGETTE and Mr. KLEIN of Florida.

H.R. 391: Mr. GOODLATTE.

H.R. 422: Mr. LIPINSKI, Mrs. BIGGERT, Mrs. MYRICK, and Mr. LEE of New York.

H.R. 442: Mr. MCCLINTOCK.

H.R. 482: Mr. MANZULLO.

H.R. 510: Mr. MCMAHON.

H.R. 557: Mr. KING of Iowa and Mr. GOHMERT.

H.R. 560: Mrs. NAPOLITANO.

H.R. 571: Ms. DELAULO and Mr. BOUSTANY.

H.R. 574: Mr. DAVIS of Alabama, Mr. MORAN of Virginia, and Mr. PERLMUTTER.

H.R. 668: Mr. LARSEN of Washington.

H.R. 690: Ms. BERKLEY.

H.R. 725: Mr. LUJAN.

H.R. 734: Mr. BARTLETT.

H.R. 795: Ms. EDWARDS of Maryland.

H.R. 977: Mr. HODES.

H.R. 981: Mr. COHEN.

H.R. 1054: Mr. PETRI.

H.R. 1079: Ms. DEGETTE.

H.R. 1084: Mr. HALL of New York.

H.R. 1086: Mr. MARCHANT.

H.R. 1173: Mr. HOLDEN.

H.R. 1193: Mrs. MALONEY and Mr. ELLISON.

H.R. 1206: Mr. DANIEL E. LUNGREN of California and Mr. WOLF.

H.R. 1208: Mr. SHULER.

H.R. 1233: Mr. BARTON of Texas.

H.R. 1242: Mr. HALL of New York.

H.R. 1245: Mr. RAHALL and Mr. MACK.

H.R. 1265: Ms. MARKEY of Colorado.

H.R. 1313: Mr. BOUCHER and Mr. SMITH of Nebraska.

H.R. 1362: Mr. MCNERNEY, Mr. OLVER, and Mr. PRICE of North Carolina.

H.R. 1378: Ms. LEE of California, Ms. BEAN, and Mr. WHITFIELD.

H.R. 1408: Ms. MOORE of Wisconsin and Mr. OBERSTAR.

H.R. 1456: Mr. DELAHUNT, Mr. SERRANO, Mr. HONDA, and Mr. KANJORSKI.

H.R. 1458: Mr. DAVIS of Alabama.

### DISCHARGE PETITIONS

Under clause 2 of rule XV, the following discharge petition was filed:

Petition 6, September 23, 2009, by Mr. GREG WALDEN on House Resolution 554, was signed by the following members: Greg Walden, Vernon J. Ehlers, Michael N. Castle, Roy Blunt, Jerry Moran, Rob Bishop, F. James Sensenbrenner, Jr., Dan Burton, Charles W. Boustany, Jr., Jo Bonner, Charles W. Dent, Brian Baird, Jean Schmidt, Judy Biggert, Henry E. Brown, Jr., Walter B. Jones, Michael T. McCaul, Bill Shuster, Candice S. Miller, Fred Upton, Walt Minnick, Thadeus G. McCotter, Dave Camp, Michele Bachmann, Jeff Fortenberry, Ed Whitfield, Aaron Schock, Pete Sessions, Randy Neugebauer, Frank R. Wolf, Mike Pence, Michael C. Burgess, Lynn Jenkins, John R. Carter, Sam Johnson, Ileana Ros-Lehtinen, Kay Granger, Thomas J. Rooney, David P. Roe, Gregg Harper, Virginia Foxx, Jim Jordan, Cliff Stearns, Bob Inglis, Harold Rogers, Lee Terry, Bill Cassidy, Todd Tiahrt, Joe Barton, Timothy V. Johnson, John Sullivan, John Kline, Marsha Blackburn, Kevin McCarthy, Doug Lamborn, Donald A. Manzullo, Edward R. Royce, John Boozman, Paul Ryan, Paul C. Broun, Parker Griffith, Rodney Alexander, John Fleming, Jeff Flake, Sue Myrick, Daniel E. Lungren, Steve King, John B. Shadegg, Mac Thornberry, Bill Posey, Glenn Thompson, Christopher John Lee, Steve Scalise, Wally Herger, Duncan Hunter, Todd Russell Platt, Gus M. Bilirakis, Kevin Brady, Trent Franks, Thomas E. Petri, Cathy McMorris Rodgers, Tom Cole, Pete Olson, K. Michael Conaway, Lynn A. Westmoreland, John Abney Culberson,

Roscoe G. Bartlett, Ginny Brown-Waite, Bob Goodlatte, J. Randy Forbes, Mike Rogers (AL), Jeb Hensarling, Louie Gohmert, Jo Ann Emerson, Frank D. Lucas, Joe Wilson, David G. Reichert, Jason Chaffetz, Cynthia M. Lummis, Rodney P. Frelinghuysen, Brian P. Bilbray, Michael K. Simpson, Mario Diaz-Balart, Lincoln Diaz-Balart, Peter J. Roskam, Robert J. Wittman, Dean Heller, Joseph R. Pitts, Ted Poe, Jim Gerlach, Ander Crenshaw, Tom Price, Robert E. Latta, Ron Paul, Howard P. "Buck" McKeon, Dana Rohrabacher, Tom Latham, Michael R. Turner, Mark E. Souder, Don Young, Gene Taylor, Mary Bono Mack, Connie Mack, Robert B. Aderholt, Leonard Lance, Mike Rogers (MI), Ken Calvert, Tom McClintock, John Campbell, Ralph M. Hall, Frank A. LoBiondo, Darrell E. Issa, W. Todd Akin, George Radanovich, Dennis R. Rehberg, John J. Duncan, Jr., Spencer Bachus, Anh "Joseph" Cao, John Shimkus, John Linder, Zach Wamp, Adam H. Putnam, Nathan Deal, Blaine Luetkemeyer, Mike Coffman, Howard Coble, Brett Guthrie, Tim Murphy, Jerry Lewis, Mark Steven Kirk, Patrick T. McHenry, Vern Buchanan, Gary G. Miller, Elton Gallegly, Peter T. King, Erik Paulsen, Geoff Davis, Patrick J. Tiberi, Devin Nunes, Christopher H. Smith, Jack Kingston, Steve Austria, John L. Mica, Eric Cantor, Dan Boren, Steve Buyer, Lamar Smith, Peter Hoekstra, Jeff Miller, Adrian Smith, Scott Garrett, Mary Fallin, John A. Boehner, C.W. Bill Young, Phil Gingrey, J. Gresham Barrett, Kenny Marchant, and Steven C. LaTourette.

### DISCHARGE PETITIONS— ADDITIONS OR DELETIONS

The following Members added their names to the following discharge petition:

Petition 5 by Mrs. BLACKBURN on H.R. 391: Gregg Harper, Geoff Davis, Kay Granger, Eric Cantor, Fred Upton, Gresham J. Barrett, Joe Wilson, Jeff Miller, Kenny Marchant, Frank D. Lucas, Daniel E. Lungren, Kevin Brady, Jim Jordan, and Jason Chaffetz.

**SENATE—Friday, September 25, 2009**

The Senate met at 9:30 a.m. and was called to order by the Honorable JEFF MERKLEY, a Senator from the State of Oregon.

**PRAYER**

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

O God, whose spirit searches all things, send us Your truth and mercy today. Guide our lawmakers along a path that leads to the hearts and needs of those on life's stormy seas. Give our Senators a grace that will take away fear and provide them with courage and faith. Increase their understanding of the scope of their tasks as servants of Your kingdom, as You inspire them to stay within the circle of Your loving providence. Lord, imbue them with understanding and sympathy, as well as with a sense of justice that they may be champions of liberty and instruments of Your peace. May this be a day in which the Senate exemplifies to America unity, courage, and civility. Today, as we welcome a new lawmaker, we ask Your blessings for the Honorable PAUL KIRK, Jr.

We pray in the Redeemer's Name. Amen.

**PLEDGE OF ALLEGIANCE**

The Honorable JEFF MERKLEY led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

**APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE**

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The assistant legislative clerk read the following letter:

U.S. SENATE,  
PRESIDENT PRO TEMPORE,  
Washington, DC, September 25, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable JEFF MERKLEY, a Senator from the State of Oregon, to perform the duties of the Chair.

ROBERT C. BYRD,  
President pro tempore.

Mr. MERKLEY thereupon assumed the chair as Acting President pro tempore.

**RECOGNITION OF THE MAJORITY LEADER**

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

**SCHEDULE**

Mr. REID. Mr. President, following leader remarks, the Senate will resume consideration of the appropriations bill for the Department of Defense. There will be no rollcall votes during today's session, but at 3:30 p.m. today, PAUL KIRK will be sworn in as the new Senator from Massachusetts, filling in for the late Senator Kennedy.

As I speak, we have an international war on terrorism, we have American troops stationed in Iraq and Afghanistan, and we have a Defense appropriations bill which is now before the Senate. The appointment of the Chairman of the Joint Chiefs of Staff, ADM Michael Mullen, expires on September 30. It would be absolutely unacceptable to allow his position to be vacant at a time when our Nation is so engaged internationally. I hope we can count on the cooperation of all my colleagues in allowing this nomination to proceed without delay—immediately.

Mr. President, would you announce the business of today.

**RESERVATION OF LEADER TIME**

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

**DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2010**

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will resume consideration of H.R. 3326, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 3326) making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes.

The ACTING PRESIDENT pro tempore. The Senator from Hawaii.

Mr. INOUE. Mr. President, I submit pursuant to Senate rules a report, and I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

**DISCLOSURE OF CONGRESSIONALLY DIRECTED SPENDING ITEMS**

I certify that the information required by rule XLIV of the Standing Rules of the Sen-

ate related to congressionally directed spending items has been identified in the committee report which accompanies H.R. 3326 and that the required information has been available on a publicly accessible congressional website at least 48 hours before a vote on the pending bill.

Mr. INOUE. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MCCAIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

**HEALTH CARE**

Mr. MCCAIN. Mr. President, for at least several months, Congress, as we know, has been considering comprehensive health reform legislation written and moved through committees without bipartisan support. The Senate Finance Committee, now the last committee, is apparently considering a proposal that was originally believed to possibly garner bipartisan support. However, it has not. At the end of the day, the bill has ended up being divided along partisan lines.

I agree that bipartisanship alone does not propose good legislation, but I can guarantee that partisan legislation pushed through Congress on artificial deadlines will not engender confidence or the support of the American people. Not one of the bills in the House or Senate committees has received a Republican legislator's vote—now they are counting on perhaps one—nor did any of the bills deserve the vote of any Member of Congress. I hope reason will prevail this week.

Unfortunately, as written, the administration's and Senator BAUCUS's proposal does not warrant the support of the American people or Members of Congress. During the August recess we saw millions of Americans come to townhall meetings across this country and express their concerns. While some have dismissed these peaceful revolutionaries and impugned their motives, I believe these citizens should be listened to. This peaceful resolution is like nothing I have ever seen in my nearly 30 years of elected office. Americans have made it abundantly clear they do not want government taking over their health care decisions. But, unfortunately, that is the reality of the proposals before the Senate Finance Committee and those that have already been passed. Senator BAUCUS's proposal is not any different. It increases or creates new government control in all aspects of our health care

system, increases health care taxes, and makes cuts to Medicare that reduce benefits and weaken its fiscal health.

The administration's bill being considered this week in the Finance Committee puts Washington in control of health insurance regulations by defining what is "acceptable health insurance coverage" and what Americans must pay for this coverage. Washington also seeks to tell Americans that they have no more than four insurance plan coverage levels available to them, the least costly of which would be more expensive than many individual and small group policies today.

In addition, the proposal decides which health care industry should be taxed and then imposes billions in new taxes on them. There are new taxes on prescription drugs, there are new taxes on medical devices, there are new taxes on laboratory tests, and there are new taxes on insurance companies.

The Congressional Budget Office has confirmed what we know: that these taxes will be passed on to the consumers and will drive up health insurance premiums, directly contradicting the goal all of us shared together. This week CBO Director Douglas Elmendorf in the Senate Finance Committee said:

Our judgment is that that piece of legislation would raise insurance premiums by roughly the amount of the money collected.

If there are some out there who are not concerned by this massive government expansion, here is the kicker. The tax increases start right away even though many coverage provisions do not begin for 4 years, making the real 10-year implementation cost between \$1.5 and \$2 trillion. While it may seem to most Americans that reform is all about regulating health insurers and getting people covered, America's seniors who depend on Medicare would be wrong to assume their benefits will not be affected under the proposal that is being considered in the Senate Finance Committee.

The administration's proposal under consideration in the Finance Committee cuts \$500 billion from Medicare and allocates it to creating a new entitlement that we know taxes and costs too much. Instead of improving Medicare's financial stability, the proposal cuts nearly \$120 billion from hospitals serving Medicare patients, more than \$40 billion from Medicare home health providers, and approximately \$130 billion of the cuts come from Medicare Advantage.

CBO confirmed the obvious—that taking \$130 billion from Medicare Advantage is a cut in the extra benefits provided to seniors despite protestations that this is not a cut from the other side and from President Obama.

From the Associated Press:

Congress' Chief Budget Officer is contradicting President Barack Obama's oft-stated

claim that seniors would not see their Medicare benefits cut under a health care overhaul.

Candidate Obama campaigned to make this cut, but now we hear the other side twist themselves in circles trying to obscure the facts. Americans should understand what is in these proposals and make up their own minds. But the other side must not agree. Why else would Democrats vote down an amendment in the Senate Finance Committee that would have simply required the legislative language to be posted online for 72 hours before voting on the proposals? This is what happens when you do not have online or prior information concerning amendments.

The Finance Committee passed a Democratic amendment earlier Wednesday by voice vote that they thought would have no impact on the bill's bottom line. Hours later, the committee staff learned from CBO that Senator DEBBIE STABENOW's amendment on foster care would actually cost \$600 million. This is why we need to have cost estimates and online scrutiny not only by Members of Congress and their staffs but by the American people before we adopt amendments.

Let me read from the press release issued by Senator BAUCUS this week:

At the urging of Senate Finance Committee Chairman Max Baucus, the Centers for Medicare and Medicaid Services [known as CMS] has cracked down on insurance compan[ies] . . . The CMS investigation into the beneficiary letter was prompted by a Baucus request.

This is a press release issued by the office of the Senator from Montana himself. And what did Senator BAUCUS's urging result in? A gag order from the acting head of the CMS Center for Drug and Health Plan Choices. Shockingly, the CMS subgroup ordered health plans offering Medicare Advantage benefits to stop communicating with their members what the CBO tells us is true, that taking \$130 billion from Medicare Advantage is a cut.

Let's be clear. This is government-imposed restrictions on free speech. How is it that we have an agency of government telling a private corporation they are not free to express their opinions or views on anything the Congress does?

So where does this leave us? The proposal expands failing Medicaid, increases government control in the health care of every American, and drives up premiums by raising taxes on health care and health insurance. Then the proposal forces you or your employer to purchase their more expensive insurance. But to hide the impact, we are going to subsidize some Americans for this more expensive coverage, and if they do not purchase this more expensive coverage, the proposal tells the IRS to come after them with new tax penalties.

The recent poll this morning, published in various newspapers, shows

there continues to be waning support and a lack of understanding of the President's proposal. I think that is perfectly logical because the President says: If you like your present health insurance, you can keep it. Then CBO determines, and others, if your employer provides you with health care benefits and chooses the government option, then you as the employee do not have the ability to keep your health insurance policy if you like it.

So I think it is pretty clear the strategy of the administration is to try to ram something through the Senate and the House, rewrite it in conference, and certainly without Republican participation. I hope that is not the case.

I look forward to continued discussion of this very vital issue for the American people on the floor of the Senate and in the various forums around the country. I intend to continue to have health care townhall meetings in my State as they have been very helpful both in informing my constituents and my constituents informing me.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MCCONNELL. I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore.

The Republican leader is recognized.

#### HEALTH CARE WEEK X, DAY III

Mr. MCCONNELL. Mr. President, Senators are still hashing out the details of the Democrat health care proposal that they plan to bring to the floor, and it isn't getting any better.

Americans wanted us to work together on reforms that improve the system we have. What they are getting instead is a bill that creates an entirely different system in which government plays a bigger and bigger role in people's health care decisions. They are slapping this plan together as quickly as possible, and then they are going to force it on the American people whether they like it or not. That is what is going on this week in the hearing room of the Finance Committee.

Supporters of this bill are watching the clock. They know the longer it sits out there, the more Americans will oppose this trillion-dollar experiment that cuts Medicare, raises taxes, and threatens the health care choices that millions of Americans now enjoy. That is why they struck down a commonsense amendment this week that would

have given the American people 72-hours to look at the details of this legislation.

They are rushing it through, hoping no one gets to see the fine print. Why else would they deny this 72-hour amendment that gives people the time they need to read a 1,000-page bill? Why else would they be dismissing anyone who raises a peep of opposition? Why else would they be asking people to forward fishy e-mails to the White House? And why else would the administration order an investigation into a private company for telling its clients the truth about what this legislation would mean for them?

More and more, it seem like supporters of this legislation just don't believe that the American people know what is best for themselves, so they want to keep them in the dark about the details. But that is not the way democracy works. And that is why Republicans sent a letter to the Department of Health and Human Services yesterday calling on the HHS Secretary to rescind the gag order that it placed on companies that want to tell seniors how health care legislation will affect them. Seniors deserve to know what is in this bill, and insurers should be free to tell them.

But until that gag rule is lifted, we will tell seniors ourselves, because it hits them hard. It cuts services that millions of seniors currently enjoy. It could force seniors off the plans they have with nearly \$140 billion in cuts to one popular Medicare plan; it calls for nearly \$120 billion in Medicare cuts for hospitals that care for seniors; more than \$40 billion in cuts to home health agencies; and nearly \$8 billion in cuts to hospice care.

Everyone agrees Medicare needs reform. This isn't reform. Lawmakers want to use Medicare as a piggy bank to pay for their experiment, and seniors are going to suffer for it. The response we keep getting from the administration is that hundreds of billions of dollars in cuts to Medicare won't affect services. Who can blame seniors for scratching their heads over that one? How do you cut half a trillion dollars from something without anybody noticing the difference? Seniors, rightly, just aren't buying it.

Americans want reform. They want lower costs. They want greater access for people without insurance. And they want Congress to deliver commonsense solutions to all these problems. What they are getting instead is a trillion-dollar experiment that cuts Medicare, raises taxes, and threatens the health care options that millions of Americans now enjoy. And they are being told it all has to be done as fast as possible to meet some artificial deadline that no one can explain.

Americans want us to slow down, and Congress is putting its foot on the accelerator. Americans want to know

what this bill would mean for them, and Congress won't let them read it before a vote, won't even allow them 72-hours to look over the details of a 1,000 page piece of legislation that will affect one of the most significant aspects of their lives. Americans have concerns about what they're hearing, and they are being told to shut up, sit down, and take the health care we give you.

This is precisely the kind of condescending attitude from lawmakers in Washington that ordinary Americans are tired of. This is the kind of thing they are protesting and speaking out against across the country. And over the last few months, Congress hasn't given them any reason to believe that their concerns aren't exactly right.

I yield the floor.

Mr. COCHRAN. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. INOUE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### MORNING BUSINESS

Mr. INOUE. Mr. President, I ask unanimous consent that the Senate proceed to a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. INOUE. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### FAA REAUTHORIZATION ACT

Mr. DORGAN. Mr. President, last evening the Senate passed a 3-month extension—until December 31—of the Federal Aviation Administration reauthorization bill, and I wanted to mention a word about that.

The 3-month extension is necessary because the authorization ends at the end of this month, September 30. This is such an important issue, so I hope we are able to find time on the floor of the Senate—I have talked to the majority leader, Senator REID, about finding time on the floor to consider the FAA reauthorization bill, which includes important provisions to modernize our air traffic control system.

Let me talk about the process for getting a bill considered on the floor just for a moment. It has been difficult here to get things done on the floor of the Senate. Sometimes we have had cooperation, sometimes not. Sometimes on very noncontroversial things we have had to file cloture just on the motion to proceed. It takes 2 days to get cloture, have a vote on cloture, and then the minority has insisted on 30 hours postcloture. So you have to take the better part of a week just to get to a piece of legislation, even the noncontroversial ones. So my hope would be that perhaps we could get more cooperation particularly when it comes to passing the FAA Reauthorization Act.

The FAA Reauthorization Act is critically important because we need to modernize the air traffic control system. I chair the Aviation Subcommittee, and that is why I wish to bring this bill to the floor, along with my colleague, Senator ROCKEFELLER, and move rather rapidly on the issue of modernization of the air traffic control system.

We are still flying using ground-based radar systems that have been around for a long time. Previously, I described on the floor of the Senate that when flying began in this country and we started to haul mail by airplanes, planes could only fly during the day when the pilot could see. Then eventually they began flying at night by building big bonfires 50 or 100 miles out so the pilot could see the direction they were supposed to head. Then, with more sophistication, we developed ground-based radar and we put transponders in an airplane which send signals to a radar on the ground, and that radar then puts a little signal on a screen that says: Here is where the airplane is. Well, that is all fine, except in most cases it's actually: This is where the airplane was. Because for the next 7 seconds that jet is elsewhere. It is moving. So you have a single dot on a ground-based radar system, and the transponder says, here is where that jet airplane is, but it is really not there anymore. It is there for just a nanosecond, and during the rest of the sweep of the radar that airplane is somewhere else.

We need to go to an entirely new system. Europe and the United States are both moving to a system that uses GPS so that we know exactly where that airplane is. It is a much more effective system and a safer system. It will save energy. It will allow airlines to fly more direct routes, so it will save time for passengers. It will be better for the environment because planes will be using less energy. All of that is true. But we can't get there until we pass the provisions that move the FAA forward with modernization that are part of the FAA reauthorization bill.

I and others have worked on this for a long time. We extended the existing

reauthorization last evening until the end of the year, but between now and then we need to pass the reauthorization bill through the Senate so that we can conference it with the House and get a bill to the President.

It also includes provisions dealing with safety. For example, I have chaired two hearings on the tragic accident in Buffalo, NY, with the Colgan Air flight in which many lives were lost. We have included in this legislation issues dealing with the FAA and the issues of pilot fatigue, crew rest, pilot training, and other issues dealing with safety that are very important.

We also include the Passengers' Bill of Rights, which some of my colleagues have worked on for a long while. I included that in the mark that has now passed the Commerce Committee. It includes, for example, one little piece in the Passengers' Bill of Rights says that if you are on an airplane and you are stranded someplace on a tarmac, they can't keep you more than 3 hours without being required to take you back to the terminal. We have had examples—tragic examples, I should say—of people being stuck on an airplane for way too many hours and not allowed to come back to the terminal. Well, we put a provision in here dealing with that which relates to the Passengers' Bill of Rights.

My point is this: This is important to passengers, it is important to the airlines, and it is important to our country to get this done and get it done right. My fervent hope is that we will get time on the schedule and get it through the Senate so that we can get it to conference with the House of Representatives and see if we can get done what should have been done 2 years ago. It is called the Air Traffic Control Modernization Program. It is part of the FAA Reauthorization Act, and it is very important for this country.

#### ENERGY

Mr. President, I want to talk just for a moment about energy. I know we have been spending a lot of time dealing with health care. I believe the Finance Committee is meeting and working on a health care bill, as we speak, and that is important to continue that work. Another important issue for the Senate to address is energy. I want to talk just for a moment about the need for an expanded energy program in this country and a new set of energy policies. Just as we have reported an FAA reauthorization bill, we have also reported a bill out of the Senate Energy Committee. I worked with Senator BINGAMAN and others on a bipartisan bill, and we have reported a very important bill out of the Energy Committee which is now on the Senate calendar. If we can pass it in the Senate and House, resolve the differences, and have the President sign it, this legislation can move us in the direction toward addressing the climate change.

But it also makes us less dependent upon foreign energy, thus improving our energy and our national security situation.

Here are the issues. We produce millions of barrels of oil every single day by sucking it out of our planet. We stick little straws in the dirt, and we suck oil out at a rate of about 85 million barrels a day. Think about a globe in your office or someplace at school and look at where we are relative to the size of the planet. Even though we produce 85 million barrels a day for the world, one-fourth of it comes to this patch called the United States of America. We use one-fourth of all the oil that is sucked out of our planet every single day, so we have a prodigious appetite for energy.

That is not surprising. Everything we do uses energy, and we are an advanced industrial country. We get up in the morning and turn on a switch and the light goes on. We plug in an electric razor and shave. We use it for the coffee maker or for the toaster by using electricity. We open the refrigerator which keeps the food cool all the time. We get in our cars, put a key in the ignition and ignite an engine with probably 250 horses to take us to work or to get a doughnut and coffee. We are unbelievable users of energy, and we do not even think much about it. But if tomorrow morning we awoke and none of that energy were available, our lives would change in a dramatic way.

Now think of this: Although we need one-fourth of 85 million barrels of oil today, brought to this country, almost 70 percent of the oil we use is produced elsewhere. Some of it is produced in countries that do not like us very much. Then in addition to nearly 70 percent being produced elsewhere, about 70 percent of the oil in this country is used in the transportation sector. So those are the elements of things that ought to concern us. How do we deal with all of this?

What we need to do is produce more energy at home. We also need to produce different kinds of energy. I happen to believe we ought to produce virtually every kind of energy to the extent that we can do so, and do it with an eye and understanding on how that impacts climate change issues. We should be attending to and producing more renewable energy—including wind, solar, biomass and other renewable resources. Developing renewables will move us in the direction of addressing climate change.

So here is what we have done in the Energy Committee. We have produced a piece of legislation that maximizes the use of renewable energy.

Here is a picture of wind turbines. They are plentiful in my State and in many other States as well. We are taking energy from the wind and producing electricity. When we put up a turbine, it can blow for 10 years, 20

years or 50 years so that we are getting energy from the wind. It is renewable, increasingly reliable, carbon free, and very protective of the environment.

By producing electricity from the wind, solar or biomass resources, we are capable of extending and expanding our energy supply and in many ways, making us less dependent on foreign oil or energy that comes from foreign sources. This is especially true as we work to electrify our transportation system.

One of the things we did with respect to wind energy is, for the first time in the Senate Energy bill, establish a national renewable electricity standard. We said we believe there ought to be a requirement of how much of our nation's electricity should come from renewable energy. So we have a 15-percent requirement. When we get a bill to the Senate floor, we ought to increase it to a 20-percent requirement where 5 percent is for energy efficiency and 15 percent is for renewable energy. I would like to see if we can strengthen that standard which came out of the Energy Committee. But at least the first renewable electricity standard of 15 percent is in the committee passed bill. It is very important that we a starting point for where we want to be.

There is this old saying: If you don't care where you are, you are never lost. That is very true for public policy in this country. If you don't care where you are, then you don't set goals. But we should set goals because we are unbelievably and dangerously dependent on energy from other countries. That doesn't make any sense to me, so we must maximize the production of renewable energy.

The problem is where the Sun shines or where the wind blows and where we can produce electricity from the wind and the Sun may not necessarily be where we most need the energy. What we need to do is produce energy where we can and move it to the load centers where they need the electricity. So we have a transmission piece in this energy legislation which is very important because it essentially will create an interstate highway of transmission capability to maximize the production of renewable energy and move it to where it is needed, the load centers.

We cannot seem to produce or build transmission capabilities at this point to the scale we need it. We have—we built 11,000 miles of natural gas pipelines in the last 9 years in this country to move natural gas, but we have only been able to build 668 miles of interstate, high voltage transmission lines. We just can't get it done. There are 100 different ways for people to say no. We put a transmission piece in this legislation which will move us down the road to maximize the production and the movement of renewable energy. This is a positive step for this country.

Here is a chart that describes what has happened with domestic production

and use of petroleum in our country from 1981 to today. It is pretty clear from this graph what has happened, and this ever growing gap is what makes us dangerously dependent on foreign oil. We use a lot of oil, and we are unbelievably dependent on foreign oil. As I indicated, some of it is from countries that don't like us very much, and that is not smart at all.

The Energy bill passed in the Energy Committee awaiting floor action is legislation that contains an amendment I successfully offered that would open access to the eastern gulf of Mexico which is closed for oil and gas production. It would open it for oil and gas production. That is very important because there are substantial amounts of production available to us in this region.

Down in the Cuban waters we have this misguided embargo against Cuba for the last 50 years that has not worked. It continues, and at the same time, the Cubans are opening their waters for oil and gas production to companies based in other countries. We understand there is about a half million barrels a day for production available in these waters. The Spanish are there, the Indians are there, Canada is there—they are all seeking to develop the resources, but American oil companies can't because of that embargo. That makes no sense to me, and we ought to remove that embargo, in my judgment. But the point is, the bill I have just described actually opens a substantial area for additional oil and gas production that came from an amendment passed with bipartisan support.

Here is another chart describing where we get our energy. It includes coal, petroleum, natural gas, hydroelectric, renewables, and nuclear. I happen to think to the extent that we can, even as we take action to protect our environment, we ought to consider all types of energy to make us less dependent on foreign energy.

Coal—I recognize, by using coal to produce energy, we release carbon into the atmosphere. That is difficult when we are dealing with a need to address climate change. In the appropriations committee I chair on energy and water, what we are doing is making sure we are investing in finding ways to remove the carbon from fossil energy. I believe it can be done. I believe one day we will have a near-zero emission, coal-fired, electric-generating plant.

I think we ought to do a lot of everything and do it well. I believe there are so many exciting things going on that will alter our future, if we just keep investing in them and make them happen.

I want to show a chart that is kind of a Byzantine chart, actually. This might not mean much to anybody at first glance, but this is algae. It is single-cell pond scum. We have all seen in

very common places, especially those of us who grew up in rural areas. In a pond when the Sun shines we will see this film develop, this green slimy stuff in a pond. It is pond scum, right? Algae.

When I became chairman of the Energy and Water Appropriations Subcommittee, I restarted the algae research work that had been discontinued for 15 years. Why would we research algae? Here is why: Because if CO<sub>2</sub> is a problem in coal-burning or fossil-fired plants, what we can do with it is take the CO<sub>2</sub> from the facility and feed it into a big old greenhouse. We can grow algae because algae grows with sunlight, water, and CO<sub>2</sub>. We get rid of the CO<sub>2</sub> by feeding it into and growing the algae, then harvesting the algae and producing a diesel fuel. We take the CO<sub>2</sub>, which is a problem because we want to protect the atmosphere.

There is research going on right now in which I believe Exxon and Dr. Craig Venter are working on for new algae research. They are taking the algae and excreting the lipids which, with little manipulation, would then become petroleum projects. Dr. Venter was also one of several leading scientists involved in the research to map the human genome which gave us the first owners manual for the human body. Dr. Venter and Dr. Francis Collins are remarkable Americans. He is now doing research in which people are trying to determine how to create synthetic microbes that would consume coal and, in the process of consuming coal, leave methane gas behind.

Isn't that interesting? Isn't it something, if we could have synthetic microbes turn coal into gas by consuming the coal? I don't know what the future holds for all of this. I do know this. The Energy bill we have passed in our Energy Committee builds on a lot of these interesting and important ideas, and I believe does it well. While I haven't mentioned nuclear, there are loan guarantee funds and other incentives that Congress has already passed to try to build some of the first few nuclear projects, which obviously don't produce carbon.

I think it is important that we recognize we should do a lot of things, do them well, make us less dependent on foreign oil, protect the environment, and provide greater national security and energy security as a result. That is the point of it all.

The reason I have described all this—I come from a State that produces a lot of energy and I am on the Energy Committee. I am the second ranking Democrat on the committee. I am also chairman of the appropriations subcommittee that funds all energy and water projects, and that is a great opportunity for me because I come from a State that produces a lot of energy. We have virtually every form of energy. In

the western half of that State, we produce a lot of oil and natural gas. We produce a lot of coal. We also have a great deal of wind and biomass. In fact we have more wind than any State in America. According to the Department of Energy, we are the Saudi Arabia of wind.

Also, we have a plant that uses lignite coal and produces from lignite coal synthetic natural gas. It is the only plant of its kind in the United States. We take CO<sub>2</sub> from that facility, put it in a pipeline to inject into the oil fields in Canada. We are taking CO<sub>2</sub>, sequestering it, selling it, using it in enhanced oil recovery because a very small amount of oil a new oil field is actually brought up until we use additional means to move it. We can do that by injecting it with CO<sub>2</sub> which stays in the ground. Then we can bring up a lot more oil. We are doing all these things.

The reason I wanted to talk about this today is we need to get that Energy bill to the floor of the Senate, get it passed, get it to the President for signature. It is a significant first step in the direction of addressing climate change but is also a significant step in making us less dependent on foreign oil.

Senator BINGAMAN and Senator MURKOWSKI, the chairman and ranking member of the Energy Committee, worked with me and other Members for many months to produce this legislation. Some say let's merge it with climate change.

We should put this energy bill and climate change together and bring it to the floor for a debate. Well, you know what. I have said I think it would be far more beneficial, as a matter of practical policy, to bring the Energy bill to the Senate floor, pass it, put that progress in the bank because it is a significant stride toward addressing climate change, then follow that up with a climate change bill behind that.

I know some have interpreted my remarks as saying I do not support climate change legislation. Well, I have already spoken on the floor to clarify that point. I do not support a cap-and-trade bill as it relates to the market trade portion of cap and trade.

I do not intend and do not have any interest in consigning the price of energy tomorrow to the decisions in a \$1 trillion carbon securities market that will be populated by investment banks and speculators today that are going to tell us what they believe the price of carbon should be tomorrow.

I have had way too much acquaintance with markets that are broken and markets that do not work in recent years to believe that is what we ought to do. I do believe there is something significant happening with respect to our climate changing. I believe this country should take, at a minimum, a series of important "no regret" steps in addressing those issues.

But I have great difficulty with those who believe we should do the cap-and-trade bill when you talk about carbon marking trading, given the experience we have had in recent years in other markets. We have discovered that time on the Senate floor is evaporating quickly because health care is taking longer than one would have expected.

We must also do financial reform. I would hope that financial reforms come after health care. My own view is we do financial reform first this year because that would have established the foundation by which people could have confidence in the system that steered this country's economy into the ditch. I have expressed this to the President.

But I understand health care is a very serious problem as well. So we need to consider health care and financial reform. I also hope we can consider the issue of FAA reauthorization; all these things and others are needed to be done before the end of the year. The majority leader understands all of that, is working very hard to try to fit the pieces of that puzzle into the time available.

My only point for expressing the point on the floor is that I would very much hate to lose some important work on energy that affects virtually every form of energy, including energy efficiency, the first ever national RES, more transmission, additional access to oil, and more that will make us less dependent on foreign oil and start to address climate change.

All of that is part of a plan that I think is a plan that will advance the interests of this country. So my hope is that in the coming weeks, as we think through and talk through what should be our agenda in the near future, my hope is we can find a way to move these important parts of an energy bill.

This, I think, should represent a significant opportunity for bipartisanship at a time when there has been precious little. Too little bipartisanship exists right now. But if there is any area in which most of us would believe our country's best interests reside, it has to be producing more energy and doing it the right way, protecting our environment at the same time. That is very much what this Energy bill strives to do.

It will advance our country's interests, and so my hope is that when the calendar turns for the new year, we will have sent to the President's desk an energy policy that has a lot to commend in it for this country's future. I visited personally with the President, the Majority Leader and others about this idea and commit to working with them on it.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. KAUFMAN). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### NATIONAL MESOTHELIOMA AWARENESS DAY

Mr. DORGAN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 288 submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 288) Designating September 26, 2009, as "National Mesothelioma Awareness Day."

There being no objection, the Senate proceeded to consider the resolution.

Mr. DORGAN. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no interviewing action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 288) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

#### S. RES. 288

Whereas mesothelioma is a terminal cancer related to exposure to asbestos that affects the lining of the lungs, abdomen, heart, or testicles;

Whereas workers who are exposed to asbestos on a daily basis over a long period of time are most at risk, but even short-term exposures to asbestos can cause the disease;

Whereas exposure to asbestos for as little as 1 month can cause mesothelioma 20 to 50 years later;

Whereas asbestos was used in the construction of virtually all office buildings, public schools, and homes built before 1975, and more than 3,000 products sold in the United States contain asbestos;

Whereas there is no known safe level of exposure to asbestos;

Whereas millions of workers in the United States have been, and continue to be, exposed to dangerous levels of asbestos;

Whereas the National Institutes of Health reported to Congress in 2006 that mesothelioma is a difficult disease to detect, diagnose, and treat;

Whereas the National Cancer Institute recognizes a clear need for new treatments to improve the outlook for patients with mesothelioma and other asbestos-related diseases;

Whereas the need to develop treatments for mesothelioma was overlooked for decades;

Whereas even the best available treatments for mesothelioma typically have only a very limited effect, and a person diagnosed with mesothelioma is expected to survive between 8 and 14 months;

Whereas mesothelioma has claimed the lives of such heroes and public servants as Admiral Elmo Zumwalt, Jr., and Congressman Bruce F. Vento;

Whereas many mesothelioma victims were exposed to asbestos while serving in the Navy;

Whereas it is believed that many of the firefighters, police officers, and rescue workers who served at Ground Zero on September 11, 2001, may be at increased risk of contracting mesothelioma in the future; and

Whereas cities and localities throughout the United States will recognize September 26, 2009, as "Mesothelioma Awareness Day":

Now, therefore, be it

Resolved, That the Senate—

(1) designates September 26, 2009, as "National Mesothelioma Awareness Day"; and

(2) calls on the people of the United States, Federal departments and agencies, States, localities, organizations, and media to observe National Mesothelioma Awareness Day with appropriate ceremonies and activities.

#### RECESS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Senate stand in recess until 3:15.

There being no objection, the Senate, at 12:10 p.m., recessed until 3:15 p.m. and reassembled when called to order by the Presiding Officer.

The PRESIDING OFFICER. The Senator from Hawaii.

Mr. INOUE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### ENERGY SECURITY THROUGH TRANSPARENCY ACT

Mr. CARDIN. Mr. President, I rise today to discuss a bill that will increase energy security and combat poverty through greater transparency in the oil, gas and mining industries.

This week, Senator LUGAR and I, along with Senators SCHUMER, WICKER and FEINGOLD, introduced the Energy Security Through Transparency Act. This legislation will require all companies listed on U.S. exchanges to disclose their payments to foreign governments for the extraction of oil, gas and minerals on a country-by-country basis. This disclosure would apply to all companies that file with the Securities and Exchange Commission, SEC, regardless of where they are based, and would be added to existing SEC requirements.

This legislation will set a new international standard for corporate and State behavior.

With this bill, we are changing the paradigm within the world's oil, gas and mining companies operate, and, importantly, changing the nature of their relationship with the governments in the countries in which they operate.

This is critical to our energy security, our national security and for the welfare of the citizens of these countries.

When we look at countries situated on oil and natural gas reserves, we think these countries have won the global version of the economic lottery. But what economists have found by studying these resource-rich countries is that they often fare worse than their resource-poor neighbors, both economically and politically.

In these countries rich in natural resources, governments do not provide the most basic of information concerning natural resource revenues. This lack of transparency facilitates and even encourages corruption. This often leads to grinding poverty in countries that are paradoxically rich in natural resources.

This legislation will provide much-needed regulatory and legal support to existing initiatives such as the Extractive Industries Transparency Initiative, EITI, and Publish What You Pay.

It is critical that the United States lead by example on transparency. That is why this legislation also encourages the United States to become an implementing country under EITI.

U.S. implementation of EITI would have practical and symbolic value on a number of fronts.

While this legislation puts human rights front and center in the global energy discussion, it also empowers people to fight corruption and hold their governments accountable. Greater transparency will lead to greater stability in countries that benefit from their natural resources and will lessen volatility in the global energy market, making them more conducive for long-term investments.

Just as importantly, U.S. implementation would bolster the momentum for the EITI, helping to make it a truly global standard for transparency in extractive industries. Leading by example is one of the most powerful ways the U.S. can encourage other countries to sign on to the initiative.

I look forward to working with our colleagues to ensure passage of this important and timely legislation.

#### THE SITUATION IN HONDURAS

Mr. LEAHY. Mr. President, on Monday, September 21, President Manuel Zelaya returned to Tegucigalpa, Honduras, for the first time since he was deposed and exiled in a June 28th coup d'etat, taking refuge in the Brazilian Embassy. His return has led to the installation of a curfew, violence between Zelaya's supporters and Honduran security forces, and troubling reports of the detention and physical abuse of his supporters.

I am encouraged by reports that representatives of Roberto Micheletti, who currently occupies the Presidency,

have met with President Zelaya. As divided as these two factions are, these talks need to continue in order to resolve this situation peacefully before the country descends into further bloody confrontations between civilians and police, or it leads to violent fractures within the military.

I continue to believe that the proposal for the restoration of President Zelaya and early elections, put forward by Costa Rican President Oscar Arias, has the best chance of resolving this conflict. Brute force, like that reported from Honduras this week, will achieve nothing but further polarization.

If President Zelaya is guilty of violating the law, as some have maintained, there are constitutional procedures for dealing with that. But by abusing the law themselves and simply throwing him out of the country, those who claim to have acted in the interests of the Honduran people only compounded the country's problems. Honduras, an impoverished country that needs the support of the United States and its neighbors, can ill afford this crisis to continue.

#### REMEMBERING FRANK FERTITTA

Mr. ENSIGN. Mr. President. I wish to honor the memory of a remarkable human being who inspired those around him with kindness, generosity, and devotion. He was a man who loved his family and understood the value of education.

Lately, it seems that heads of corporations and big businesses have become about as popular as lawyers and politicians. Well, you don't have to look further than the legacy of Frank Fertitta, Jr., to understand that compassion and respect can very much be part of a successful mission statement.

The name Fertitta may be best known in Las Vegas, NV, but the lessons of how this gaming patriarch lived his life should be emulated around the world.

Frank Fertitta, Jr., moved to Las Vegas in 1960 with his lovely wife Victoria. He started as a bellman and slowly worked his way through the ranks—dealer, pit boss, general manager. But what he will be remembered for professionally is his vision and understanding of business and human nature.

In 1976, Frank opened a 5,000-square-foot building called The Casino. Those around him had their doubts about whether this venture would succeed. Instead, Frank became a pioneer of a gaming niche that catered to locals. His little experiment eventually became the Palace Station. Thirty-three years after that first venture, Station Casinos today has 18 casinos and reports and employs more than 13,000 people. And today, another generation of Fertittas is working to keep the vision of Frank Fertitta, Jr., alive and well.

His success, however, is not what made Frank Fertitta, Jr., so extraordinary. It was his character and integrity that truly made him an example to all. With the utmost respect, he was called Mr. Fertitta by longtime employees and patrons of Station Casinos. That is because he showed respect to all he came into contact with, and they knew it.

I was fortunate to know Mr. Fertitta and call him a friend. He was genuine and unwavering in his support. The kind of person you were blessed to have in your life.

Described as quiet and polite, family and faith were the foundations of his life. Mr. Fertitta showed how a successful, hard-working businessman can also be a dedicated family man. Each week his whole family gathered at his and Victoria's home for Sunday dinner. This was a tradition that all of the Fertittas have cherished over the years. Anyone who knew him knew his family came first.

He was also a consistent and valued friend to many philanthropic organizations in Las Vegas. He and Victoria were involved with the University of Nevada Las Vegas, Bishop Gorman High School, Catholic Charities of Southern Nevada, the Nevada Cancer Institute, Opportunity Village, St. Jude's Ranch, and the Cleveland Clinic Lou Ruvo Center for Brain Health.

It is one thing to be generous with your resources. It is another thing to raise your children to also be generous with theirs. That was part of Mr. Fertitta's success. He was proud that his children had become such generous contributors to the community. They did so because he set such a strong example.

Las Vegas lost a visionary with the recent passing of Mr. Fertitta. He taught us all how to respect others—regardless of one's status, how to dream big, and how to give back to our communities. There aren't many people like Mr. Fertitta in the world. We should all take a page from his mission statement to ensure that his brand of success lives on.

#### ADDITIONAL STATEMENTS

##### 2009 SERVICE TO AMERICA MEDAL RECIPIENTS

• Ms. MIKULSKI. Mr. President, today I honor and congratulate three outstanding Federal employees from Maryland—Thomas Alexander Waldmann, Patricia Guerry and Deborah Jin—who have recently been awarded Service to America medals in recognition for their great work.

Our Federal employees are on the front lines every day, working hard for America. Their commitment to public service makes life better for us all. I am proud to honor these three terrific

Federal employees from Maryland today.

For the past five decades, Dr. Thomas Alexander Waldmann has devoted himself to performing cutting-edge science at the National Institutes of Health. His work has resulted in great advances in treatment for patients with multiple sclerosis, various types of cancer and AIDS. Dr. Waldmann's commitment to transforming scientific research to save and improve lives has earned him the nickname "renaissance scientist" by his peers. His seminal research extends from the study of the immune system to clinical trials of immunotherapeutic agents, which help your immune system perform better. His innovative use of clinical trials has helped transform the way trials are used to treat patients, and has led to the development of treatments for fatal forms of leukemia and lymphoma and for multiple sclerosis.

Dr. Patricia Guerry of the U.S. Naval Medical Research Center is an innovator in combating food-borne illnesses throughout the world. After the discovery of the most common cause of food-borne illnesses, the *Campylobacter* microbe, in the late 1970s, researchers struggled to understand it and develop vaccines to combat it. But Dr. Guerry was unwavering in her quest to study the *Campylobacter* microbe, overcoming many barriers and working with limited resources to develop a promising new vaccine that may be only a couple years away from human trials. Over the past 3 years, Dr. Guerry and her group have had impressive success in advancing a vaccine, working at a breakneck pace. Dr. Guerry's success is especially promising for American troops abroad, who are particularly vulnerable to food poisoning.

Dr. Deborah Jin is another pioneering researcher. A research team leader at the JILA-National Institute of Standards and Technology joint institute in Boulder, CO, Deborah and her team have made great advances in the field of physics, including the creation of a new form of matter, a major discovery in the race toward superconductivity. Superconductivity—using extremely low temperatures to move electrons through a magnetic field—can potentially lead to breakthroughs in energy efficiency and computing. Deborah's team raced against six other teams worldwide to be the first to make this discovery.

These three Marylanders exemplify the very best that our Federal employees have to offer. But don't think that there aren't thousands of stories like this across the country, from Atlanta to Silver Spring. They work hard so that the American people have a government they can count on. I will continue to stand sentry so that Federal employees get the pay and benefits they have earned and the job security they deserve.●

#### TRIBUTE TO CAROL BROADNAX

● Mr. PRYOR. Mr. President, today I wish to congratulate and thank a true dedicated public servant upon her retirement. Ms. Carol Broadnax, a longtime resident of Alexandria, VA, is retiring on October 2, 2009, after 42 years of service in our Federal Government. I want to recognize Carol's outstanding service to the public, and especially, her 30 years of Federal service at the U.S. Consumer Product Safety Commission. Carol started out at the CPSC as a clerk typist and then as a secretary in the Directorate for Communications under Kenneth Rashid and Bessie Draper at the 18th Street location, and then she moved to the agency's Bethesda, MD, location. There, she worked in the Office of the General Counsel as the secretary for Richard Allen, general law division. Over the course of her long and distinguished Federal career she served as the secretary for the following general counsels: Martin Katz, Daniel Levinson, Acting General Counsel John Mackey, James Lacy, Acting General Counsel Susan Birenbaum, Clement Erhardt, Jerry Thorn, Eric Rubel, Jeffrey Bromme, Michael Solender, William DuRoss and John "Gib" Mullan. Since 2005, she has been the administrative officer in the Office of General Counsel at the CPSC to former General Counsel Page Faulk and Acting General Counsel Lowell Martin. Carol currently works for CPSC General Counsel Cheryl Falvey. We congratulate and thank Carol for her enormous contributions to product safety and for her outstanding Federal service.●

#### MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

#### EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

#### MESSAGE FROM THE HOUSE

At 12:01 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House disagreed to the amendment of the Senate to the bill (H.R. 3183) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; it agrees to the conference

asked by the Senate on the disagreeing votes of the two Houses thereon, and appoints Mr. VISCLOSKEY, Mr. EDWARDS of Texas, Mr. PASTOR, Mr. BERRY, Mr. FATTAH, Mr. ISRAEL, Mr. RYAN of Ohio, Mr. OLVER, Mr. DAVIS of Tennessee, Mr. SALAZAR, Mr. OBEY, Mr. FRELINGHUYSEN, Mr. WAMP, Mr. SIMPSON, Mr. REHBERG, Mr. CALVERT, Mr. ALEXANDER, and Mr. LEWIS of California as managers of the conference on the part of the House.

The message also announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2918) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes.

The message further announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 3631. An act to amend title XVIII to provide for the application of a consistent Medicare part B premium for all Medicare beneficiaries in a budget neutral manner for 2010.

The message also announced that the House has agreed to the following concurrent resolutions, in which it requests the concurrence of the Senate:

H. Con. Res. 163. Concurrent resolution expressing support for designation of September 23, 2009, as "National Job Corps Day".

H. Con. Res. 191. Concurrent resolution directing the Clerk of the House of Representatives to make technical corrections in the enrollment of H.R. 2918.

#### MEASURES REFERRED

The following bill was read the first and the second times by unanimous consent, and referred as indicated:

H.R. 3631. An act to amend title XVIII to provide for the application of a consistent Medicare part B premium for all Medicare beneficiaries in a budget neutral manner for 2010; to the Committee on Finance.

The following concurrent resolution was read, and referred as indicated:

H. Con. Res. 163. Concurrent resolution expressing support for designation of September 23, 2009, as "National Job Corps Day"; to the Committee on Health, Education, Labor, and Pensions.

#### REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. AKAKA, from the Committee on Veterans' Affairs, with an amendment in the nature of a substitute and an amendment to the title:

S. 801. A bill to amend title 38, United States Code, to waive charges for humanitarian care provided by the Department of Veterans Affairs to family members accompanying veterans severely injured after September 11, 2001, as they receive medical care from the Department and to provide assistance to family caregivers, and for other purposes (Rept. No. 111-80).

By Mr. AKAKA, from the Committee on Veterans' Affairs:

Special Report entitled "Legislative and Oversight Activities During the 110th Congress by the Senate Committee on Veterans' Affairs" (Rept. No. 111-81).

### INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. KERRY (for himself and Mr. LUGAR):

S. 1715. A bill to amend the United States International Broadcasting Act of 1994 to extend the authority of the Broadcasting Board of Governors to make grants for the purpose of operating Radio Free Asia; to the Committee on Foreign Relations.

By Mr. KERRY (for himself and Mr. LUGAR):

S. 1716. A bill to amend the Foreign Affairs Reform and Restructuring Act of 1998 to reauthorize the United States Advisory Commission on Public Diplomacy; to the Committee on Foreign Relations.

By Mr. AKAKA (for himself and Mr. BURR):

S. 1717. A bill to authorize major medical facility leases for the Department of Veterans Affairs for fiscal year 2010, and for other purposes; considered and passed.

By Mr. BENNETT:

S. 1718. A bill to require the conveyance of certain public land within the boundaries of Camp Williams, Utah, to support the training and readiness of the Utah National Guard; to the Committee on Energy and Natural Resources.

By Mr. BENNETT (for himself and Mr. HATCH):

S. 1719. A bill to provide for the conveyance of certain parcels of land to the town of Alta, Utah; to the Committee on Energy and Natural Resources.

By Mr. REED (for himself and Mr. LEAHY):

S. 1720. A bill to amend title VII of the Public Health Service Act to provide improved training and primary care; to the Committee on Health, Education, Labor, and Pensions.

By Mr. SANDERS:

S. 1721. A bill to require the Secretary of Transportation to develop a national transportation low emissions energy plan; to the Committee on Energy and Natural Resources.

### SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mrs. MURRAY (for herself, Mr. CARDIN, Mr. CASEY, Ms. KLOBUCHAR, Mrs. BOXER, and Mr. ISAKSON):

S. Res. 288. A resolution designating September 26, 2009, as "National Mesothelioma Awareness Day"; considered and agreed to.

By Mr. SPECTER:

S. Res. 289. A resolution encouraging the people of the United States to reflect on and remember the integrity and courage of the 6,135 Christian men and women of Poland who acted to save their Jewish countrymen and countrywomen from extermination by Nazi Germany; to the Committee on Foreign Relations.

### ADDITIONAL COSPONSORS

S. 451

At the request of Ms. COLLINS, the names of the Senator from Illinois (Mr. DURBIN), the Senator from Connecticut (Mr. LIEBERMAN), the Senator from Iowa (Mr. HARKIN), the Senator from New Jersey (Mr. LAUTENBERG), the Senator from Illinois (Mr. BURRIS) and the Senator from Missouri (Mrs. MCCASKILL) were added as cosponsors of S. 451, a bill to require the Secretary of the Treasury to mint coins in commemoration of the centennial of the establishment of the Girl Scouts of the United States of America.

S. 583

At the request of Mr. PRYOR, the name of the Senator from North Dakota (Mr. DORGAN) was added as a cosponsor of S. 583, a bill to provide grants and loan guarantees for the development and construction of science parks to promote the clustering of innovation through high technology activities.

S. 653

At the request of Mr. CARDIN, the name of the Senator from Rhode Island (Mr. REED) was added as a cosponsor of S. 653, a bill to require the Secretary of the Treasury to mint coins in commemoration of the bicentennial of the writing of the Star-Spangled Banner, and for other purposes.

S. 823

At the request of Ms. SNOWE, the name of the Senator from Colorado (Mr. BENNET) was added as a cosponsor of S. 823, a bill to amend the Internal Revenue Code of 1986 to allow a 5-year carryback of operating losses, and for other purposes.

S. 1304

At the request of Mr. GRASSLEY, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. 1304, a bill to restore the economic rights of automobile dealers, and for other purposes.

S. 1647

At the request of Mr. REED, the name of the Senator from New Hampshire (Mrs. SHAHEEN) was added as a cosponsor of S. 1647, a bill to provide for additional emergency unemployment compensation, and for other purposes.

S. 1660

At the request of Ms. KLOBUCHAR, the name of the Senator from New Hampshire (Mr. GREGG) was added as a cosponsor of S. 1660, a bill to amend the Toxic Substances Control Act to reduce the emissions of formaldehyde from composite wood products, and for other purposes.

S. 1674

At the request of Mr. WYDEN, the names of the Senator from Ohio (Mr. BROWN) and the Senator from Oklahoma (Mr. COBURN) were added as cosponsors of S. 1674, a bill to provide for an exclusion under the Supplemental

Security Income program and the Medicaid program for compensation provided to individuals who participate in clinical trials for rare diseases or conditions.

S. 1681

At the request of Mr. LEAHY, the name of the Senator from Missouri (Mrs. MCCASKILL) was added as a cosponsor of S. 1681, a bill to ensure that health insurance issuers and medical malpractice insurance issuers cannot engage in price fixing, bid rigging, or market allocations to the detriment of competition and consumers.

S. 1692

At the request of Mr. LEAHY, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of S. 1692, a bill to extend the sunset of certain provisions of the USA PATRIOT Act and the authority to issue national security letters, and for other purposes.

S. 1694

At the request of Mr. ROCKEFELLER, the name of the Senator from Missouri (Mrs. MCCASKILL) was added as a cosponsor of S. 1694, a bill to allow the funding for the interoperable emergency communications grant program established under the Digital Television Transition and Public Safety Act of 2005 to remain available until expended through fiscal year 2012, and for other purposes.

S. 1699

At the request of Mr. REED, the name of the Senator from Missouri (Mrs. MCCASKILL) was added as a cosponsor of S. 1699, a bill to amend the Supplemental Appropriations Act, 2008 to provide for the temporary availability of certain additional emergency unemployment compensation, and for other purposes.

S. 1702

At the request of Mr. UDALL of Colorado, the name of the Senator from Colorado (Mr. BENNET) was added as a cosponsor of S. 1702, a bill to amend the Pittman—Robertson Wildlife Restoration Act to facilitate the establishment of additional or expanded public target ranges in certain states.

S. 1709

At the request of Ms. STABENOW, the name of the Senator from Kansas (Mr. ROBERTS) was added as a cosponsor of S. 1709, a bill to amend the National Agricultural Research, Extension, and Teaching Policy Act of 1977 to establish a grant program to promote efforts to develop, implement, and sustain veterinary services, and for other purposes.

AMENDMENT NO. 2484

At the request of Mr. INHOFE, his name was added as a cosponsor of amendment No. 2484 intended to be proposed to H.R. 3326, a bill making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 2555

At the request of Mr. INHOFE, his name was added as a cosponsor of amendment No. 2555 intended to be proposed to H.R. 3326, a bill making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes.

#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. REED (for himself and Mr. LEAHY):

S. 1720. A bill to amend title VII of the Public Health Service Act to provide improved training and primary care; to the Committee on Health, Education, Labor, and Pensions.

Mr. REED. Mr. President, today I, along with Senator LEAHY, introduce the Health Professions and Primary Care Reinvestment Act, which seeks to enhance the training and education of primary care providers and establish a new system for evaluating and analyzing primary care workforce programs funded by Title VII Health Professions Education and Training grants.

In 1963, in response to an impending physician shortage, Congress passed and President Johnson signed the Health Professions Educational Assistance Act into law. Qualified educational and medical institutions became eligible for grants to support primary care curriculum and faculty development, and scholarships and loans to train individuals in certain primary care health professions.

The country is, once again, facing a physician shortage. However, this time, the shortage is one component of a larger system-wide crisis.

The Health Professions and Primary Care Reinvestment Act takes an important step toward providing our primary care providers with the necessary resources for better coordinating care, integrating treatment options, and communicating with patients. It also would enhance the evaluation and analysis of programs funded by Title VII grants in an effort to ensure that funding is appropriately allocated.

The Title VII program deserves a robust evaluation and restructuring and I believe that the provisions set forth in the Health Professions and Primary Care Reinvestment Act will accomplish that goal. My colleagues on the Health, Education, Labor, and Pensions Committee agreed and voted to include similar provisions in the Affordable Health Choices Act, which was reported out of the Committee on July 15, 2009.

We must continue our efforts to reform our health care system. In doing so, we must not forget about the important need to ensure an adequate workforce to care for patients. I look forward to the full Senate considering these vitally important reforms.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1720

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Health Professions and Primary Care Reinvestment Act".

#### SEC. 2. EDUCATION AND TRAINING FOR DELIVERY SYSTEM REFORM.

(a) MEDICAL HOME TRAINING.—Section 747(a) of the Public Health Service Act (42 U.S.C. 293k(a)) is amended—

(1) in paragraph (5), by striking "and" at the end;

(2) in paragraph (6), by striking the period and inserting "; and"; and

(3) by inserting after paragraph (6) the following:

"(7) to plan, develop, and operate a demonstration program that provides training in new competencies, as recommended by the Advisory Committee on Training in Primary Care Medicine and Dentistry, which may include—

"(A) providing training to primary care providers relevant to providing care through patient-centered medical homes (as defined by the Secretary for purposes of this paragraph, taking into account the criteria of the National Committee for Quality Assurance and other certifying entities);

"(B) developing tools and curricula relevant to patient-centered medical homes; and

"(C) providing continuing education relevant to patient-centered medical homes.".

(b) PRIORITIES OF DELIVERY SYSTEM REFORM.—Section 747 of the Public Health Service Act (42 U.S.C. 293k) is amended by striking subsection (c) and inserting the following:

"(c) PRIORITIES IN MAKING AWARDS.—In awarding grants or contracts under this section, the Secretary shall give priority to qualified applicants that—

"(1) have a record of training the greatest percentage of providers, or that have demonstrated significant improvements in the percentage of providers trained, who enter and remain in primary care practice;

"(2) have a record of training individuals who are from underrepresented minority groups or from a rural or disadvantaged background;

"(3) provide training in the care of vulnerable populations such as children, older adults, homeless individuals, victims of abuse or trauma, individuals with mental health or substance-related disorders, individuals with HIV/AIDS, and individuals with disabilities;

"(4) establish formal relationships and submit joint applications with federally qualified health centers, rural health clinics, area health education centers, or clinics located in underserved areas or that serve underserved populations;

"(5) provide training in interdisciplinary, integrated care through collaboration among health professionals, including physician assistants, nurse practitioners, pharmacists, dentists, geriatricians, and mental and behavioral health professionals;

"(6) provide training in enhanced communication with patients, evidence-based practice, chronic disease management, preven-

tive care, health information technology, or other competencies as recommended by the Advisory Committee on Training in Primary Care Medicine and Dentistry; or

"(7) provide training in cultural competency and health literacy.".

(c) OTHER AMENDMENTS.—Section 747 of the Public Health Service Act (42 U.S.C. 293k) is amended—

(1) in subsection (d)—

(A) by striking "subsection (a) may not exceed" and inserting "this section shall be"; and

(B) by striking the second sentence; and

(2) by striking subsection (e) and inserting the following:

"(e) AUTHORIZATION OF APPROPRIATIONS.—For purposes of carrying out this section, there are authorized to be appropriated \$125,000,000 for each of fiscal years 2010 through 2014. Fifteen percent of the amount appropriated in each such fiscal year shall be allocated to the physician assistant training programs described in subsection (a)(5), which prepare students for practice in primary care.".

#### SEC. 3. HEALTH WORKFORCE INFORMATION AND ANALYSIS.

(a) IN GENERAL.—Section 761 of the Public Health Service Act (42 U.S.C. 294m) is amended—

(1) by redesignating subsection (c) as subsection (e);

(2) by striking subsection (b) and inserting the following:

"(b) NATIONAL CENTER FOR HEALTH WORKFORCE ANALYSIS.—

"(1) ESTABLISHMENT.—The Secretary shall establish the National Center for Health Workforce Analysis (referred to in this section as the "National Center") within the Department of Health and Human Services.

"(2) PURPOSES.—The purposes of the National Center are to—

"(A) carry out the activities under section 792(a); and

"(B) collect, analyze, and report data related to health workforce issues in coordination with the State and Regional Centers for Health Workforce Analysis described in subsection (c) (referred to in this section as the "State and Regional Centers").

"(3) FUNCTIONS.—The National Center shall—

"(A) annually evaluate the effectiveness of programs under this title, based on data reported by recipients of contracts or grants under this title, data collected from the State and Regional Centers described in subsection (c), and analyses conducted under paragraph (4);

"(B) develop and publish benchmarks for performance for programs under this title;

"(C) regularly produce and report to the relevant committees of Congress estimates of the supply, demand, and distribution of health professionals, such as physicians, dentists, nurses, physician assistants, pharmacists, mental and behavioral health professionals, public health workers, and long-term care workers, as appropriate;

"(D) establish, maintain, and make publicly available through the Internet a national health workforce database to collect data from—

"(i) longitudinal tracking systems (as defined in section 761(d)(2)) on performance measures (as developed under sections 748(d)(3), 756(d)(3), and 762(a)(3)); and

"(ii) the State and Regional Centers described in subsection (c);

"(E) establish and maintain a registry of each grant awarded under this title, including data on the project director, the institution, the type and year of the award, and the

residency, fellowship, or internship program, as appropriate; and

“(F) biennially submit to the relevant committees of Congress a report on the activities of the National Center during the previous 2-year period.

“(4) COLLABORATION AND DATA SHARING.—

“(A) IN GENERAL.—The National Center shall collaborate with Federal agencies, health professions education organizations, health professions organizations, and professional medical societies for the purpose of linking data regarding grants awarded under this title with 1 or more of the following:

“(i) Data maintained by the Centers for Medicare & Medicaid Services.

“(ii) Data on participation in the National Health Service Corps.

“(iii) Data sets maintained by health professions education organizations, health professions organizations, or professional medical societies.

“(iv) Other data sets, as the Secretary determines appropriate.

“(B) CONTRACTS FOR HEALTH WORKFORCE ANALYSIS.—For the purpose of carrying out the activities described in subparagraph (A), the National Center may enter into contracts with health professions education organizations, health professions organizations, or professional medical societies.

“(C) STATE AND REGIONAL CENTERS FOR HEALTH WORKFORCE ANALYSIS.—

“(1) IN GENERAL.—The Secretary shall award grants to, or enter into contracts with, eligible entities for purposes of—

“(A) collecting, analyzing, and reporting to the National Center data regarding programs under this title and data related to health workforce issues;

“(B) conducting, broadly disseminating, and making publicly available through the Internet research and reports on State, regional, and national health workforce issues, including research on the supply, demand, and distribution of health professionals;

“(C) evaluating the effectiveness of programs under this title and other policies related to health workforce issues; and

“(D) providing technical assistance to local and regional entities on the collection, analysis, and reporting of data related to health workforce issues.

“(2) ELIGIBLE ENTITIES.—To be eligible for a grant or contract under this subsection, an entity shall—

“(A) be a State, a State workforce commission, a public health or health professions school, an academic health center, or an appropriate public or private nonprofit entity or a partnership of such entities; and

“(B) submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

“(d) INCREASE IN GRANTS FOR LONGITUDINAL TRACKING SYSTEMS.—

“(1) IN GENERAL.—The Secretary shall increase the amount of a grant or contract awarded to an eligible entity under this title for the establishment and maintenance of a longitudinal tracking system.”.

“(2) DEFINITION.—

“(A) IN GENERAL.—For purposes of paragraph (1), the term ‘longitudinal tracking system’ means a system that tracks students, residents, fellows, interns, or faculty who have received education, training, or financial assistance from programs under this title over a period of not less than 5 years, as specified by the Secretary.

“(B) CAPABILITY.—A longitudinal tracking system shall be capable of—

“(i) tracking participation in the National Health Service Corps, practice in federally

qualified health centers, practice in health professional shortage areas and medically underserved areas, and practice in primary care; and

“(ii) collecting and reporting data on performance measures developed under sections 748(d)(3), 756(d)(3), and 762(a)(3).

“(C) GUIDELINES.—A longitudinal tracking system shall comply with guidelines issued under sections 748(d)(4), 756(d)(4), and 762(a)(4).

“(3) ELIGIBLE ENTITIES.—To be eligible to obtain an increase under this section, an entity shall be a recipient of a grant or contract under this title and have not previously received an increase under this section.”; and

(3) in subsection (e), as so redesignated—

(A) by striking paragraph (1) and inserting the following:

“(1) IN GENERAL.—

“(A) NATIONAL CENTER FOR HEALTH WORKFORCE ANALYSIS.—To carry out subsection (b), there are authorized to be appropriated \$1,000,000 for each of fiscal years 2010 through 2014, and such sums as may be necessary for each subsequent fiscal year.

“(B) STATE AND REGIONAL CENTERS.—To carry out subsection (c), there are authorized to be appropriated \$4,500,000 for each of fiscal years 2010 through 2014, and such sums as may be necessary for each subsequent fiscal year.

“(C) GRANTS FOR LONGITUDINAL TRACKING SYSTEMS.—To carry out subsection (d), there are authorized to be appropriated such sums as may be necessary for fiscal years 2010 through 2014.

“(D) CARRYOVER FUNDS.—An entity that receives an award under this section may carry over funds from 1 fiscal year to another without obtaining approval from the Secretary. In no case may any funds be carried over pursuant to the preceding sentence for more than 3 years.”; and

(B) in paragraph (2), by striking “subsection (a)” and inserting “paragraph (1)”.

(b) TRANSFER OF FUNCTIONS.—Not later than 180 days after the date of enactment of this Act, all of the functions, authorities, and resources of the National Center for Health Workforce Analysis of the Health Resources and Services Administration, as in effect on the date before the date of enactment of this Act, shall be transferred to the National Center for Health Workforce Analysis established under section 761 of the Public Health Service Act, as amended by subsection (a).

(c) PREFERENCE FOR USE OF LONGITUDINAL TRACKING SYSTEMS.—Section 791(a)(1) of the Public Health Service Act (42 U.S.C. 295j(a)(1)) is amended—

(1) in subparagraph (A), by striking “or” at the end;

(2) in subparagraph (B), by striking the period and inserting “; or”; and

(3) by adding at the end the following:

“(C) utilizes a longitudinal tracking system (as defined in section 761(d)(2)) and reports data from such system to the national workforce database (as established under section 761(b)(3)(D)).”.

(d) PERFORMANCE MEASURES; GUIDELINES FOR LONGITUDINAL TRACKING SYSTEMS.—

(1) ADVISORY COMMITTEE ON TRAINING IN PRIMARY CARE MEDICINE AND DENTISTRY.—Section 748(d) of the Public Health Service Act (42 U.S.C. 2931(d)) is amended—

(A) in paragraph (1), by striking “and” at the end;

(B) in paragraph (2), by striking the period and inserting a semicolon; and

(C) by adding at the end the following:

“(3) not later than 3 years after the date of enactment of the Health Professions and Primary Care Reinvestment Act, develop, publish, and implement performance measures, which shall be quantitative to the extent possible, for programs under this part;

“(4) develop and publish guidelines for longitudinal tracking systems (as defined in section 761(d)(2)) for programs under this part; and

“(5) recommend appropriation levels for programs under this part.”.

(2) ADVISORY COMMITTEE ON INTERDISCIPLINARY, COMMUNITY-BASED LINKAGES.—Section 756(d) of the Public Health Service Act (42 U.S.C. 294f(d)) is amended—

(A) in paragraph (1), by striking “and” at the end;

(B) in paragraph (2), by striking the period and inserting a semicolon; and

(C) by adding at the end the following:

“(3) not later than 3 years after the date of enactment of the Health Professions and Primary Care Reinvestment Act, develop, publish, and implement performance measures, which shall be quantitative to the extent possible, for programs under this part;

“(4) develop and publish guidelines for longitudinal tracking systems (as defined in section 761(d)(2)) for programs under this part; and

“(5) recommend appropriation levels for programs under this part.”.

(3) ADVISORY COUNCIL ON GRADUATE MEDICAL EDUCATION.—Section 762(a) of the Public Health Service Act (42 U.S.C. 294o(a)) is amended—

(A) in paragraph (1), by striking “and” at the end;

(B) in paragraph (2), by striking the period and inserting a semicolon; and

(C) by adding at the end the following:

“(3) not later than 3 years after the date of enactment of the Health Professions and Primary Care Reinvestment Act, develop, publish, and implement performance measures, which shall be quantitative to the extent possible, for programs under this title, except for programs under part C or D;

“(4) develop and publish guidelines for longitudinal tracking systems (as defined in section 761(d)(2)) for programs under this title, except for programs under part C or D; and

“(5) recommend appropriation levels for programs under this title, except for programs under part C or D.”.

## SUBMITTED RESOLUTIONS

### SENATE RESOLUTION 288—DESIGNATING SEPTEMBER 26, 2009, AS “NATIONAL MESOTHELIOMA AWARENESS DAY”

Mrs. MURRAY (for herself, Mr. CARDIN, Mr. CASEY, Ms. KLOBUCHAR, Mrs. BOXER, and Mr. ISAKSON) submitted the following resolution; which was considered and agreed to:

S. RES. 288

Whereas mesothelioma is a terminal cancer related to exposure to asbestos that affects the lining of the lungs, abdomen, heart, or testicles;

Whereas workers who are exposed to asbestos on a daily basis over a long period of time are most at risk, but even short-term exposures to asbestos can cause the disease;

Whereas exposure to asbestos for as little as 1 month can cause mesothelioma 20 to 50 years later;

Whereas asbestos was used in the construction of virtually all office buildings, public schools, and homes built before 1975, and more than 3,000 products sold in the United States contain asbestos;

Whereas there is no known safe level of exposure to asbestos;

Whereas millions of workers in the United States have been, and continue to be, exposed to dangerous levels of asbestos;

Whereas the National Institutes of Health reported to Congress in 2006 that mesothelioma is a difficult disease to detect, diagnose, and treat;

Whereas the National Cancer Institute recognizes a clear need for new treatments to improve the outlook for patients with mesothelioma and other asbestos-related diseases;

Whereas the need to develop treatments for mesothelioma was overlooked for decades;

Whereas even the best available treatments for mesothelioma typically have only a very limited effect, and a person diagnosed with mesothelioma is expected to survive between 8 and 14 months;

Whereas mesothelioma has claimed the lives of such heroes and public servants as Admiral Elmo Zumwalt, Jr., and Congressman Bruce F. Vento;

Whereas many mesothelioma victims were exposed to asbestos while serving in the Navy;

Whereas it is believed that many of the firefighters, police officers, and rescue workers who served at Ground Zero on September 11, 2001, may be at increased risk of contracting mesothelioma in the future; and

Whereas cities and localities throughout the United States will recognize September 26, 2009, as "Mesothelioma Awareness Day":

Now, therefore, be it

*Resolved*, That the Senate—

(1) designates September 26, 2009, as "National Mesothelioma Awareness Day"; and

(2) calls on the people of the United States, Federal departments and agencies, States, localities, organizations, and media to observe National Mesothelioma Awareness day with appropriate ceremonies and activities.

# SENATE RESOLUTION 289—ENCOURAGING THE PEOPLE OF THE UNITED STATES TO REFLECT ON AND REMEMBER THE INTEGRITY AND COURAGE OF THE 6,135 CHRISTIAN MEN AND WOMEN OF POLAND WHO ACTED TO SAVE THEIR JEWISH COUNTRYMEN AND COUNTRYWOMEN FROM EXTERMINATION BY NAZI GERMANY

Mr. SPECTER submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 289

Whereas the year 2009 marks the 70th anniversary of the start of World War II, a war that should be remembered for introducing the world to the repulsive and unprecedented barbarism and cruelty of Nazi Germany;

Whereas Poland was the first country attacked and enslaved by the government and armed forces of Nazi Germany as part of the methodical extermination of European Jewry by Nazi Germany;

Whereas 6,135 Christian men and women of Poland acted with great integrity and courage, risking their lives and the lives of their families, to save their Jewish countrymen

and countrywomen from the barbarism and extermination of the Nazis;

Whereas the 6,135 Christian men and women of Poland who acted to save their Jewish countrymen and countrywomen did so in spite of the threat of their immediate execution and the execution of their families, a threat that people in no other country in Nazi-occupied Europe had to endure; and

Whereas the 6,135 Christian men and women of Poland who acted to save their Jewish countrymen and countrywomen represent approximately 27 percent of the "Righteous Among the Nations" honored by Yad Vashem in the Republic of Israel: Now, therefore, be it

*Resolved*, That the Senate encourages the people of the United States to reflect on and remember the integrity and courage of the 6,135 Christian men and women of Poland who acted to save their Jewish countrymen and countrywomen from extermination by Nazi Germany.

Mr. SPECTER. Mr. President, I have sought recognition today to submit a resolution encouraging the people of the U.S. to reflect on and remember the integrity and courage of the 6,135 Polish Christians who took action to save their Jewish countrymen and countrywomen from extermination by Nazi Germany. Earlier this year I cosponsored S. Res. 9, a resolution commemorating 90 years of U.S.-Polish diplomatic relations, during which Poland has proven to us be an exceptionally strong partner to the U.S. in advancing freedom around the world. Today I want to recognize a time in history when such a freedom was challenged in Poland and around the world by a despot regime, and more importantly pay tribute to those few who fought this tyranny and helped save innocent lives.

This year marks the 70th anniversary of the start of World War II, a war remembered for the cruelty of Nazi Germany, as well as for the forces that eventually overcame this cruelty. Following World War II, Yad Vashem and a Remembrance Authority was established to embark on a worldwide project to identify those individuals who helped Jews during the Holocaust. All rescuers of European Jews during World War II are honored today as the "Righteous Among the Nations" by Yad Vashem in the State of Israel. Poland's 6,135 "Righteous" rescuers constitute some 27 percent of the 22,765 "Righteous" throughout the world. Furthermore, while unknown in number, it is important to remember those Polish Christians who were caught and summarily executed along with their families while attempting to carry out such rescues. While their stories may never be told, it is important to mention their heroic efforts.

The 6,135 "Righteous" Polish Christians whose acts of courage and integrity have been documented by witnesses should be appropriately honored. These Polish Christians who were willing to risk their own lives and those of their families to save Polish

Jews should not be forgotten. These 6,135 Polish Christians will always stand as universal exemplars and role models of human compassion who acted above and beyond the normal expectations of courage and integrity. Thus, I urge my colleagues to join me in supporting this resolution which reflects on and remembers the Polish Righteous Among the Nations.

## AMENDMENTS SUBMITTED AND PROPOSED

SA 2556. Mr. REID (for Ms. LANDRIEU (for herself and Ms. SNOWE)) proposed an amendment to the bill H.R. 3614, to provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes.

SA 2557. Mr. INHOFE submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table.

## TEXT OF AMENDMENTS

**SA 2556.** Mr. REID (for Ms. LANDRIEU (for herself and Ms. SNOWE)) proposed an amendment to the bill H.R. 3614, to provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes; as follows:

Strike sections 2 and 3.

**SA 2557.** Mr. INHOFE submitted an amendment intended to be proposed by him to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. \_\_\_\_ . Of the amount appropriated or otherwise made available by title IV under the heading "RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, ARMY" and available for Program Element #0708045A, up to \$1,000,000 may be available for Advanced Ultrasonic Inspection of Helicopter Rotor Blades and Other Composite Components.

## AUTHORITY FOR COMMITTEES TO MEET

### COMMITTEE ON FINANCE

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on Friday, September 25, 2009, at 9:30 a.m., in room 216 of the Hart Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

## PRIVILEGES OF THE FLOOR

Mr. INOUE. Mr. President, I ask unanimous consent that Mr. Robert

Berschinski, a fellow with the Appropriations Defense Subcommittee, and Rachel Meyer, staff assistant for the Defense Subcommittee, be granted the privilege of the floor during consideration of H.R. 3326.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Mississippi.

Mr. COCHRAN. Mr. President, I ask unanimous consent that Jason Lindsey, a military fellow in my office, and Tom Osterhoudt, a detailee to the Appropriations Committee, be granted the privileges of the floor during consideration of H.R. 3326, the fiscal year 2010 Defense appropriations bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COCHRAN. Mr. President, I ask unanimous consent that for the duration of H.R. 3326, the 2010 Department of Defense Appropriations Act, Senator McCain's Navy fellow, Mark Holzrichter, be granted floor privileges of the Senate.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, I ask unanimous consent that Bill Curlin be granted floor privileges for the remainder of this session.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I ask unanimous consent that LTC Joseph J. Martin, a U.S. Army Special Forces officer, who is currently serving as my military legislative fellow this year, be granted floor privileges for the duration of the consideration of H.R. 3326, the Department of Defense Appropriations Act for fiscal year 2010.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### DEPARTMENT OF INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

On Thursday, September 24, 2009, the Senate passed H.R. 2996, as amended, as follows:

##### H.R. 2996

*Resolved*, That the bill from the House of Representatives (H.R. 2996) entitled "An Act making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes," do pass with the following amendment:

Strike out all after the enacting clause and insert:

*That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2010, and for other purposes, namely:*

##### TITLE I

##### DEPARTMENT OF THE INTERIOR

##### BUREAU OF LAND MANAGEMENT

##### MANAGEMENT OF LANDS AND RESOURCES

*For necessary expenses for protection, use, improvement, development, disposal, cadastral sur-*

*veying, classification, acquisition of easements and other interests in lands, and performance of other functions, including maintenance of facilities, as authorized by law, in the management of lands and their resources under the jurisdiction of the Bureau of Land Management, including the general administration of the Bureau, and assessment of mineral potential of public lands pursuant to Public Law 96-487 (16 U.S.C. 3150(a)), \$965,721,000, to remain available until expended, of which not to exceed \$69,336,000 is available for oil and gas management; and of which \$1,500,000 is for high priority projects, to be carried out by the Youth Conservation Corps; and of which \$3,000,000 shall be available in fiscal year 2010 subject to a match by at least an equal amount by the National Fish and Wildlife Foundation for cost-shared projects supporting conservation of Bureau lands; and such funds shall be advanced to the Foundation as a lump sum grant without regard to when expenses are incurred.*

*In addition, \$45,500,000 is for the processing of applications for permit to drill and related use authorizations, to remain available until expended, to be reduced by amounts collected by the Bureau and credited to this appropriation that shall be derived from \$6,500 per new application for permit to drill that the Bureau shall collect upon submission of each new application, and in addition, \$36,696,000 is for Mining Law Administration program operations, including the cost of administering the mining claim fee program; to remain available until expended, to be reduced by amounts collected by the Bureau and credited to this appropriation from annual mining claim fees so as to result in a final appropriation estimated at not more than \$965,721,000, and \$2,000,000, to remain available until expended, from communication site rental fees established by the Bureau for the cost of administering communication site activities.*

##### CONSTRUCTION

*For construction of buildings, recreation facilities, roads, trails, and appurtenant facilities, \$8,626,000, to remain available until expended.*

##### LAND ACQUISITION

*For expenses necessary to carry out sections 205, 206, and 318(d) of Public Law 94-579, including administrative expenses and acquisition of lands or waters, or interests therein, \$28,650,000, to be derived from the Land and Water Conservation Fund and to remain available until expended: Provided, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$2,000,000 made available for the Henry's Lake ACEC in the State of Idaho (as described in the table entitled "Congressionally Designated Spending" contained in section 430 of that joint explanatory statement) shall be made available for the Upper Snake/South Fork River ACEC/SRMA in the State of Idaho.*

##### OREGON AND CALIFORNIA GRANT LANDS

*For expenses necessary for management, protection, and development of resources and for construction, operation, and maintenance of access roads, reforestation, and other improvements on the revested Oregon and California Railroad grant lands, on other Federal lands in the Oregon and California land-grant counties of Oregon, and on adjacent rights-of-way; and acquisition of lands or interests therein, including existing connecting roads on or adjacent to such grant lands; \$111,557,000, to remain available until expended: Provided, That 25 percent of the aggregate of all receipts during the current fiscal year from the revested Oregon and California Railroad grant lands is hereby made a charge against the Oregon and California land-grant fund and shall be transferred to the*

*General Fund in the Treasury in accordance with the second paragraph of subsection (b) of title II of the Act of August 28, 1937 (50 Stat. 876).*

##### FOREST ECOSYSTEM HEALTH AND RECOVERY FUND (REVOLVING FUND, SPECIAL ACCOUNT)

*In addition to the purposes authorized in Public Law 102-381, funds made available in the Forest Ecosystem Health and Recovery Fund can be used for the purpose of planning, preparing, implementing and monitoring salvage timber sales and forest ecosystem health and recovery activities, such as release from competing vegetation and density control treatments. The Federal share of receipts (defined as the portion of salvage timber receipts not paid to the counties under 43 U.S.C. 1181f and 43 U.S.C. 1181f-1 et seq., and Public Law 106-393) derived from treatments funded by this account shall be deposited into the Forest Ecosystem Health and Recovery Fund.*

##### RANGE IMPROVEMENTS

*For rehabilitation, protection, and acquisition of lands and interests therein, and improvement of Federal rangelands pursuant to section 401 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701), notwithstanding any other Act, sums equal to 50 percent of all moneys received during the prior fiscal year under sections 3 and 15 of the Taylor Grazing Act (43 U.S.C. 315 et seq.) and the amount designated for range improvements from grazing fees and mineral leasing receipts from Bankhead-Jones lands transferred to the Department of the Interior pursuant to law, but not less than \$10,000,000, to remain available until expended: Provided, That not to exceed \$600,000 shall be available for administrative expenses.*

##### SERVICE CHARGES, DEPOSITS, AND FORFEITURES

*For administrative expenses and other costs related to processing application documents and other authorizations for use and disposal of public lands and resources, for costs of providing copies of official public land documents, for monitoring construction, operation, and termination of facilities in conjunction with use authorizations, and for rehabilitation of damaged property, such amounts as may be collected under Public Law 94-579, as amended, and Public Law 93-153, to remain available until expended: Provided, That, notwithstanding any provision to the contrary of section 305(a) of Public Law 94-579 (43 U.S.C. 1735(a)), any moneys that have been or will be received pursuant to that section, whether as a result of forfeiture, compromise, or settlement, if not appropriate for refund pursuant to section 305(c) of that Act (43 U.S.C. 1735(c)), shall be available and may be expended under the authority of this Act by the Secretary to improve, protect, or rehabilitate any public lands administered through the Bureau of Land Management which have been damaged by the action of a resource developer, purchaser, permittee, or any unauthorized person, without regard to whether all moneys collected from each such action are used on the exact lands damaged which led to the action: Provided further, That any such moneys that are in excess of amounts needed to repair damage to the exact land for which funds were collected may be used to repair other damaged public lands.*

##### MISCELLANEOUS TRUST FUNDS

*In addition to amounts authorized to be expended under existing laws, there is hereby appropriated such amounts as may be contributed under section 307 of the Act of October 21, 1976 (43 U.S.C. 1701), and such amounts as may be advanced for administrative costs, surveys, appraisals, and costs of making conveyances of omitted lands under section 211(b) of that Act, to remain available until expended.*

## ADMINISTRATIVE PROVISIONS

The Bureau of Land Management may carry out the operations funded under this Act by direct expenditure, contracts, grants, cooperative agreements and reimbursable agreements with public and private entities. Projects funded pursuant to a written commitment by a State government to provide an identified amount of money in support of the project may be carried out by the bureau upon receipt of the written commitment. Appropriations for the Bureau of Land Management (BLM) shall be available for purchase, erection, and dismantlement of temporary structures, and alteration and maintenance of necessary buildings and appurtenant facilities to which the United States has title; up to \$100,000 for payments, at the discretion of the Secretary, for information or evidence concerning violations of laws administered by the Bureau; miscellaneous and emergency expenses of enforcement activities authorized or approved by the Secretary and to be accounted for solely on the Secretary's certificate, not to exceed \$10,000: Provided, That notwithstanding 44 U.S.C. 501, the Bureau may, under cooperative cost-sharing and partnership arrangements authorized by law, procure printing services from cooperators in connection with jointly produced publications for which the cooperators share the cost of printing either in cash or in services, and the Bureau determines the cooperator is capable of meeting accepted quality standards: Provided further, That projects to be funded pursuant to a written commitment by a State government to provide an identified amount of money in support of the project may be carried out by the Bureau on a reimbursable basis. Appropriations herein made shall not be available for the destruction of healthy, unadopted, wild horses and burros in the care of the Bureau of Land Management or its contractors or for the sale of wild horses and burros that results in their destruction for processing into commercial products.

UNITED STATES FISH AND WILDLIFE SERVICE  
RESOURCE MANAGEMENT

For necessary expenses of the United States Fish and Wildlife Service, as authorized by law, and for scientific and economic studies, general administration, and for the performance of other authorized functions related to such resources, \$1,244,386,000, to remain available until September 30, 2011 except as otherwise provided herein: Provided, That \$2,500,000 is for high priority projects, which shall be carried out by the Youth Conservation Corps: Provided further, That not to exceed \$22,103,000 shall be used for implementing subsections (a), (b), (c), and (e) of section 4 of the Endangered Species Act, as amended, (except for processing petitions, developing and issuing proposed and final regulations, and taking any other steps to implement actions described in subsection (c)(2)(A), (c)(2)(B)(i), or (c)(2)(B)(ii)), of which not to exceed \$11,632,000 shall be used for any activity regarding the designation of critical habitat, pursuant to subsection (a)(3), excluding litigation support, for species listed pursuant to subsection (a)(1) prior to October 1, 2009: Provided further, That of the amount available for law enforcement, up to \$400,000, to remain available until expended, may at the discretion of the Secretary be used for payment for information, rewards, or evidence concerning violations of laws administered by the Service, and miscellaneous and emergency expenses of enforcement activity, authorized or approved by the Secretary and to be accounted for solely on the Secretary's certificate: Provided further, That of the amount provided for environmental contaminants, up to \$1,000,000 may remain available until expended for contaminant sample analyses.

## CONSTRUCTION

For construction, improvement, acquisition, or removal of buildings and other facilities required in the conservation, management, investigation, protection, and utilization of fishery and wildlife resources, and the acquisition of lands and interests therein; \$39,741,000, to remain available until expended.

## LAND ACQUISITION

For expenses necessary to carry out the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 4601–4 through 11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the United States Fish and Wildlife Service, \$82,790,000, to be derived from the Land and Water Conservation Fund and to remain available until expended, of which, notwithstanding 16 U.S.C. 4601–9, not more than \$1,500,000 shall be for land conservation partnerships authorized by the Highlands Conservation Act of 2004: Provided, That none of the funds appropriated for specific land acquisition projects can be used to pay for any administrative overhead, planning or other management costs.

COOPERATIVE ENDANGERED SPECIES  
CONSERVATION FUND

For expenses necessary to carry out section 6 of the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), as amended, \$85,001,000, to remain available until expended, of which \$30,307,000 is to be derived from the Cooperative Endangered Species Conservation Fund, of which \$5,146,000 shall be for the Idaho Salmon and Clearwater River Basins Habitat Account pursuant to the Snake River Water Rights Act of 2004; and of which \$54,694,000 is to be derived from the Land and Water Conservation Fund.

## NATIONAL WILDLIFE REFUGE FUND

For expenses necessary to implement the Act of October 17, 1978 (16 U.S.C. 715s), \$14,500,000.

## NORTH AMERICAN WETLANDS CONSERVATION FUND

For expenses necessary to carry out the provisions of the North American Wetlands Conservation Act, as amended (16 U.S.C. 4401–4414), \$45,147,000, to remain available until expended.

## NEOTROPICAL MIGRATORY BIRD CONSERVATION

For expenses necessary to carry out the Neotropical Migratory Bird Conservation Act, as amended, (16 U.S.C. 6101 et seq.), \$5,000,000, to remain available until expended.

## MULTINATIONAL SPECIES CONSERVATION FUND

For expenses necessary to carry out the African Elephant Conservation Act (16 U.S.C. 4201–4203, 4211–4214, 4221–4225, 4241–4246, and 1538), the Asian Elephant Conservation Act of 1997 (16 U.S.C. 4261–4266), the Rhinoceros and Tiger Conservation Act of 1994 (16 U.S.C. 5301–5306), the Great Ape Conservation Act of 2000 (16 U.S.C. 6301–6305), and the Marine Turtle Conservation Act of 2004 (16 U.S.C. 6601–6606), \$11,500,000, to remain available until expended.

## STATE AND TRIBAL WILDLIFE GRANTS

For wildlife conservation grants to States and to the District of Columbia, Puerto Rico, Guam, the United States Virgin Islands, the Northern Mariana Islands, American Samoa, and Indian tribes under the provisions of the Fish and Wildlife Act of 1956 and the Fish and Wildlife Coordination Act, for the development and implementation of programs for the benefit of wildlife and their habitat, including species that are not hunted or fished, \$80,000,000, to remain available until expended: Provided, That of the amount provided herein, \$7,000,000 is for a competitive grant program for Indian tribes not subject to the remaining provisions of this appropriation: Provided further, That \$5,000,000 is for a competitive grant program for States, territories, and other jurisdictions with approved

plans, not subject to the remaining provisions of this appropriation: Provided further, That the Secretary shall, for fiscal year 2010 and each fiscal year thereafter, after deducting \$12,000,000 and administrative expenses, apportion the amount provided herein in the following manner: (1) to the District of Columbia and to the Commonwealth of Puerto Rico, each a sum equal to not more than one-half of 1 percent thereof; and (2) to Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands, each a sum equal to not more than one-fourth of 1 percent thereof: Provided further, That the Secretary shall, for fiscal year 2010 and each fiscal year thereafter, apportion the remaining amount in the following manner: (1) one-third of which is based on the ratio to which the land area of such State bears to the total land area of all such States; and (2) two-thirds of which is based on the ratio to which the population of such State bears to the total population of all such States: Provided further, That the amounts apportioned under this paragraph shall be adjusted equitably so that no State shall, for fiscal year 2010 and each fiscal year thereafter, be apportioned a sum which is less than 1 percent of the amount available for apportionment under this paragraph for any fiscal year or more than 5 percent of such amount: Provided further, That the Federal share of planning grants shall not, for fiscal year 2010 and each fiscal year thereafter, exceed 75 percent of the total costs of such projects and the Federal share of implementation grants shall not, for fiscal year 2010 and each fiscal year thereafter, exceed 50 percent of the total costs of such projects: Provided further, That the non-Federal share of such projects may not be derived from Federal grant programs: Provided further, That any amount apportioned in 2010 to any State, territory, or other jurisdiction that remains unobligated as of September 30, 2011, shall be reapportioned, together with funds appropriated in 2012, in the manner provided herein.

## ADMINISTRATIVE PROVISIONS

The Fish and Wildlife Service may carry out the operations of Service programs by direct expenditure, contracts, grants, cooperative agreements and reimbursable agreements with public and private entities. Appropriations and funds available to the United States Fish and Wildlife Service shall be available for repair of damage to public roads within and adjacent to reservation areas caused by operations of the Service; options for the purchase of land at not to exceed \$1 for each option; facilities incident to such public recreational uses on conservation areas as are consistent with their primary purpose; and the maintenance and improvement of aquaria, buildings, and other facilities under the jurisdiction of the Service and to which the United States has title, and which are used pursuant to law in connection with management, and investigation of fish and wildlife resources: Provided, That notwithstanding 44 U.S.C. 501, the Service may, under cooperative cost sharing and partnership arrangements authorized by law, procure printing services from cooperators in connection with jointly produced publications for which the cooperators share at least one-half the cost of printing either in cash or services and the Service determines the cooperator is capable of meeting accepted quality standards: Provided further, That the Service may accept donated aircraft as replacements for existing aircraft.

## NATIONAL PARK SERVICE

## OPERATION OF THE NATIONAL PARK SYSTEM

For expenses necessary for the management, operation, and maintenance of areas and facilities administered by the National Park Service (including expenses to carry out programs of the

United States Park Police), and for the general administration of the National Park Service, \$2,261,309,000, of which \$9,982,000 for planning and interagency coordination in support of Everglades restoration and \$99,622,000 for maintenance, repair or rehabilitation projects for constructed assets, operation of the National Park Service automated facility management software system, and comprehensive facility condition assessments shall remain available until September 30, 2011.

#### NATIONAL RECREATION AND PRESERVATION

For expenses necessary to carry out recreation programs, natural programs, cultural programs, heritage partnership programs, environmental compliance and review, international park affairs, statutory or contractual aid for other activities, and grant administration, not otherwise provided for, \$67,438,000, of which \$3,175,000 shall be for Preserve America grants as authorized by section 7302 of the Omnibus Public Land Management Act of 2009 (Public Law 111-11).

#### HISTORIC PRESERVATION FUND

For expenses necessary in carrying out the Historic Preservation Act of 1966, as amended (16 U.S.C. 470), and the Omnibus Parks and Public Lands Management Act of 1996 (Public Law 104-333), \$74,500,000, to be derived from the Historic Preservation Fund and to remain available until September 30, 2011; of which \$20,000,000 shall be for Save America's Treasures grants as authorized by section 7303 of the Omnibus Public Land Management Act of 2009 (Public Law 111-11) of which \$200,000 may be made available by the Secretary of the Interior to develop, in conjunction with Morehouse College, a program to catalogue, preserve, provide public access to and research on, develop curriculum and courses based on, provide public access to, and conduct scholarly forums on the important works and papers of Dr. Martin Luther King, Jr. to provide a better understanding of the message and teachings of Dr. Martin Luther King, Jr.

#### CONSTRUCTION

For construction, improvements, repair or replacement of physical facilities, including a portion of the expense for the modifications authorized by section 104 of the Everglades National Park Protection and Expansion Act of 1989, \$219,731,000, to remain available until expended.

#### LAND AND WATER CONSERVATION FUND (RESCISSION)

The contract authority provided for fiscal year 2010 by 16 U.S.C. 4601-10a is rescinded.

#### LAND ACQUISITION AND STATE ASSISTANCE

For expenses necessary to carry out the Land and Water Conservation Act of 1965, as amended (16 U.S.C. 4601-4 through 11), including administrative expenses, and for acquisition of lands or waters, or interest therein, in accordance with the statutory authority applicable to the National Park Service, \$118,586,000, to be derived from the Land and Water Conservation Fund and to remain available until expended, of which \$35,000,000 is for the State assistance program and of which \$4,000,000 shall be for the American Battlefield Protection Program grants as authorized by section 7301 of the Omnibus Public Land Management Act of 2009 (Public Law 111-11).

#### ADMINISTRATIVE PROVISIONS

##### (INCLUDING TRANSFER OF FUNDS)

In addition to other uses set forth in section 407(d) of Public Law 105-391, franchise fees credited to a sub-account shall be available for expenditure by the Secretary, without further appropriation, for use at any unit within the National Park System to extinguish or reduce liability for Possessory Interest or leasehold surrender interest. Such funds may only be used

for this purpose to the extent that the benefiting unit anticipated franchise fee receipts over the term of the contract at that unit exceed the amount of funds used to extinguish or reduce liability. Franchise fees at the benefiting unit shall be credited to the sub-account of the originating unit over a period not to exceed the term of a single contract at the benefiting unit, in the amount of funds so expended to extinguish or reduce liability.

For the costs of administration of the Land and Water Conservation Fund grants authorized by section 105(a)(2)(B) of the Gulf of Mexico Energy Security Act of 2006 (Public Law 109-432), the National Park Service may retain up to 3 percent of the amounts which are authorized to be disbursed under such section, such retained amounts to remain available until expended.

National Park Service funds may be transferred to the Federal Highway Administration (FHWA), Department of Transportation, for purposes authorized under 23 U.S.C. 204. Transfers may include a reasonable amount for FHWA administrative support costs.

#### UNITED STATES GEOLOGICAL SURVEY

##### SURVEYS, INVESTIGATIONS, AND RESEARCH

For expenses necessary for the United States Geological Survey to perform surveys, investigations, and research covering topography, geology, hydrology, biology, and the mineral and water resources of the United States, its territories and possessions, and other areas as authorized by 43 U.S.C. 31, 1332, and 1340; classify lands as to their mineral and water resources; give engineering supervision to power permittees and Federal Energy Regulatory Commission licensees; administer the minerals exploration program (30 U.S.C. 641); conduct inquiries into the economic conditions affecting mining and materials processing industries (30 U.S.C. 3, 21a, and 1603; 50 U.S.C. 98g(1)) and related purposes as authorized by law; and to publish and disseminate data relative to the foregoing activities; \$1,104,340,000, to remain available until September 30, 2011, of which \$65,561,000 shall be available only for cooperation with States or municipalities for water resources investigations; of which \$40,150,000 shall remain available until expended for satellite operations; and of which \$7,321,000 shall be available until expended for deferred maintenance and capital improvement projects that exceed \$100,000 in cost: Provided, That none of the funds provided for the biological research activity shall be used to conduct new surveys on private property, unless specifically authorized in writing by the property owner: Provided further, That no part of this appropriation shall be used to pay more than one-half the cost of topographic mapping or water resources data collection and investigations carried on in cooperation with States and municipalities.

#### ADMINISTRATIVE PROVISIONS

From within the amount appropriated for activities of the United States Geological Survey such sums as are necessary shall be available for reimbursement to the General Services Administration for security guard services; contracting for the furnishing of topographic maps and for the making of geophysical or other specialized surveys when it is administratively determined that such procedures are in the public interest; construction and maintenance of necessary buildings and appurtenant facilities; acquisition of lands for gauging stations and observation wells; expenses of the United States National Committee on Geology; and payment of compensation and expenses of persons on the rolls of the Survey duly appointed to represent the United States in the negotiation and administration of interstate compacts: Provided, That activities funded by appropriations herein made

may be accomplished through the use of contracts, grants, or cooperative agreements as defined in 31 U.S.C. 6302 et seq.: Provided further, That the United States Geological Survey may enter into contracts or cooperative agreements directly with individuals or indirectly with institutions or nonprofit organizations, without regard to 41 U.S.C. 5, for the temporary or intermittent services of students or recent graduates, who shall be considered employees for the purpose of chapters 57 and 81 of title 5, United States Code, relating to compensation for travel and work injuries, and chapter 171 of title 28, United States Code, relating to tort claims, but shall not be considered to be Federal employees for any other purposes.

#### MINERALS MANAGEMENT SERVICE

##### ROYALTY AND OFFSHORE MINERALS MANAGEMENT

For expenses necessary for minerals leasing and environmental studies, regulation of industry operations, and collection of royalties, as authorized by law; for enforcing laws and regulations applicable to oil, gas, and other minerals leases, permits, licenses and operating contracts; for energy-related or other authorized marine-related purposes on the Outer Continental Shelf; and for matching grants or cooperative agreements, \$175,217,000, to remain available until September 30, 2011, of which \$89,374,000 shall be available for royalty management activities; and an amount not to exceed \$156,730,000, to be credited to this appropriation and to remain available until expended, from additions to receipts resulting from increases to rates in effect on August 5, 1993, and from cost recovery fees: Provided, That notwithstanding 31 U.S.C. 3302, in fiscal year 2010, such amounts as are assessed under 31 U.S.C. 9701 shall be collected and credited to this account and shall be available until expended for necessary expenses: Provided further, That to the extent \$156,730,000 in addition to receipts are not realized from the sources of receipts stated above, the amount needed to reach \$156,730,000 shall be credited to this appropriation from receipts resulting from rental rates for Outer Continental Shelf leases in effect before August 5, 1993: Provided further, That the term "qualified Outer Continental Shelf revenues", as defined in section 102(9)(A) of the Gulf of Mexico Energy Security Act, division C of Public Law 109-432, shall include only the portion of rental revenues that would have been collected at the rental rates in effect before August 5, 1993: Provided further, That not to exceed \$3,000 shall be available for reasonable expenses related to promoting volunteer beach and marine cleanup activities: Provided further, That notwithstanding any other provision of law, \$15,000 under this heading shall be available for refunds of overpayments in connection with certain Indian leases in which the Director of MMS concurred with the claimed refund due, to pay amounts owed to Indian allottees or tribes, or to correct prior unrecoverable erroneous payments: Provided further, That for the costs of administration of the Coastal Impact Assistance Program authorized by section 31 of the Outer Continental Shelf Lands Act, as amended (43 U.S.C. 1456a), MMS in fiscal year 2010 may retain up to 4 percent of the amounts which are disbursed under section 31(b)(1), such retained amounts to remain available until expended.

For an additional amount, \$10,000,000, to remain available until expended, which shall be derived from non-refundable inspection fees collected in fiscal year 2010, as provided in this Act: Provided, That to the extent that such amounts are not realized from such fees, the amount needed to reach \$10,000,000 shall be credited to this appropriation from receipts resulting from rental rates for Outer Continental Shelf leases in effect before August 5, 1993.

## OIL SPILL RESEARCH

For necessary expenses to carry out title I, section 1016, title IV, sections 4202 and 4303, title VII, and title VIII, section 8201 of the Oil Pollution Act of 1990, \$6,303,000, which shall be derived from the Oil Spill Liability Trust Fund, to remain available until expended.

## ADMINISTRATIVE PROVISION

Notwithstanding the provisions of section 35(b) of the Mineral Leasing Act, as amended (30 U.S.C. 191(b)), the Secretary shall deduct 2 percent from the amount payable to each State in fiscal year 2010 and deposit the amount deducted to miscellaneous receipts of the Treasury.

## OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

## REGULATION AND TECHNOLOGY

For necessary expenses to carry out the provisions of the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87, as amended, \$127,180,000, to remain available until September 30, 2011: Provided, That appropriations for the Office of Surface Mining Reclamation and Enforcement may provide for the travel and per diem expenses of State and tribal personnel attending Office of Surface Mining Reclamation and Enforcement sponsored training.

## ABANDONED MINE RECLAMATION FUND

For necessary expenses to carry out title IV of the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87, as amended, \$39,588,000, to be derived from receipts of the Abandoned Mine Reclamation Fund and to remain available until expended: Provided, That pursuant to Public Law 97-365, the Department of the Interior is authorized to use up to 20 percent from the recovery of the delinquent debt owed to the United States Government to pay for contracts to collect these debts: Provided further, That funds made available under title IV of Public Law 95-87 may be used for any required non-Federal share of the cost of projects funded by the Federal Government for the purpose of environmental restoration related to treatment or abatement of acid mine drainage from abandoned mines: Provided further, That such projects must be consistent with the purposes and priorities of the Surface Mining Control and Reclamation Act: Provided further, That amounts provided under this heading may be used for the travel and per diem expenses of State and tribal personnel attending Office of Surface Mining Reclamation and Enforcement sponsored training.

## ADMINISTRATIVE PROVISION

With funds available for the Technical Innovation and Professional Services program in this Act, the Secretary may transfer title for computer hardware, software and other technical equipment to State and tribal regulatory and reclamation programs.

## BUREAU OF INDIAN AFFAIRS

## OPERATION OF INDIAN PROGRAMS

## (INCLUDING TRANSFER OF FUNDS)

For expenses necessary for the operation of Indian programs, as authorized by law, including the Snyder Act of November 2, 1921 (25 U.S.C. 13), the Indian Self-Determination and Education Assistance Act of 1975 (25 U.S.C. 450 et seq.), as amended, the Education Amendments of 1978 (25 U.S.C. 2001-2019), and the Tribally Controlled Schools Act of 1988 (25 U.S.C. 2501 et seq.), as amended, \$2,309,322,000, to remain available until September 30, 2011 except as otherwise provided herein; of which not to exceed \$8,500 may be for official reception and representation expenses; of which not to exceed \$74,915,000 shall be for welfare assistance payments: Provided, That in cases of designated Federal disasters, the Secretary may exceed

such cap, from the amounts provided herein, to provide for disaster relief to Indian communities affected by the disaster; of which, notwithstanding any other provision of law, including but not limited to the Indian Self-Determination Act of 1975, as amended, not to exceed \$154,794,000 shall be available for payments for contract support costs associated with ongoing contracts, grants, compacts, or annual funding agreements entered into with the Bureau prior to or during fiscal year 2010, as authorized by such Act, except that tribes and tribal organizations may use their tribal priority allocations for unmet contract support costs of ongoing contracts, grants, or compacts, or annual funding agreements and for unmet welfare assistance costs; of which not to exceed \$566,702,000 for school operations costs of Bureau-funded schools and other education programs shall become available on July 1, 2010, and shall remain available until September 30, 2011; of which \$25,000,000 shall be for public safety and justice programs as authorized by the Emergency Fund for Indian Safety and Health, established by section 601 of Public Law 110-293 (25 U.S.C. 443c); and of which not to exceed \$60,958,000 shall remain available until expended for housing improvement, road maintenance, attorney fees, litigation support, the Indian Self-Determination Fund, land records improvement, and the Navajo-Hopi Settlement Program: Provided further, That notwithstanding any other provision of law, including but not limited to the Indian Self-Determination Act of 1975, as amended, and 25 U.S.C. 2008, not to exceed \$43,373,000 within and only from such amounts made available for school operations shall be available for administrative cost grants associated with ongoing grants entered into with the Bureau prior to or during fiscal year 2009 for the operation of Bureau-funded schools, and up to \$500,000 within and only from such amounts made available for administrative cost grants shall be available for the transitional costs of initial administrative cost grants to grantees that assume operation on or after July 1, 2009, of Bureau-funded schools: Provided further, That any forestry funds allocated to a tribe which remain unobligated as of September 30, 2011, may be transferred during fiscal year 2012 to an Indian forest land assistance account established for the benefit of the holder of the funds within the holder's trust fund account: Provided further, That any such unobligated balances not so transferred shall expire on September 30, 2012: Provided further, That in order to enhance the safety of Bureau field employees, the Bureau may use funds to purchase uniforms or other identifying articles of clothing for personnel.

## CONSTRUCTION

## (INCLUDING TRANSFER OF FUNDS)

For construction, repair, improvement, and maintenance of irrigation and power systems, buildings, utilities, and other facilities, including architectural and engineering services by contract; acquisition of lands, and interests in lands; and preparation of lands for farming, and for construction of the Navajo Indian Irrigation Project pursuant to Public Law 87-483, \$225,000,000, to remain available until expended: Provided, That such amounts as may be available for the construction of the Navajo Indian Irrigation Project may be transferred to the Bureau of Reclamation: Provided further, That not to exceed 6 percent of contract authority available to the Bureau of Indian Affairs from the Federal Highway Trust Fund may be used to cover the road program management costs of the Bureau: Provided further, That any funds provided for the Safety of Dams program pursuant to 25 U.S.C. 13 shall be made available on a nonreimbursable basis: Provided further, That for fiscal year 2010, in implementing new construction or facilities improvement and repair

project grants in excess of \$100,000 that are provided to grant schools under Public Law 100-297, as amended, the Secretary of the Interior shall use the Administrative and Audit Requirements and Cost Principles for Assistance Programs contained in 43 CFR part 12 as the regulatory requirements: Provided further, That such grants shall not be subject to section 12.61 of 43 CFR; the Secretary and the grantee shall negotiate and determine a schedule of payments for the work to be performed: Provided further, That in considering grant applications, the Secretary shall consider whether such grantee would be deficient in assuring that the construction projects conform to applicable building standards and codes and Federal, tribal, or State health and safety standards as required by 25 U.S.C. 2005(b), with respect to organizational and financial management capabilities: Provided further, That if the Secretary declines a grant application, the Secretary shall follow the requirements contained in 25 U.S.C. 2504(f): Provided further, That any disputes between the Secretary and any grantee concerning a grant shall be subject to the disputes provision in 25 U.S.C. 2507(e): Provided further, That in order to ensure timely completion of construction projects, the Secretary may assume control of a project and all funds related to the project, if, within eighteen months of the date of enactment of this Act, any grantee receiving funds appropriated in this Act or in any prior Act, has not completed the planning and design phase of the project and commenced construction: Provided further, That this appropriation may be reimbursed from the Office of the Special Trustee for American Indians appropriation for the appropriate share of construction costs for space expansion needed in agency offices to meet trust reform implementation.

## INDIAN LAND AND WATER CLAIM SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

For payments and necessary administrative expenses for implementation of Indian land and water claim settlements pursuant to Public Laws 99-264, 100-580, 101-618, 108-447, 109-379, 109-479, 110-297, and 111-11, and for implementation of other land and water rights settlements, \$47,380,000, to remain available until expended.

## INDIAN LAND CONSOLIDATION, BIA

For consolidation of fractional interests in Indian lands and expenses associated with retermining and redistributing escheated interests in allotted lands, and for necessary expenses to carry out the Indian Land Consolidation Act of 1983, as amended, by direct expenditure or cooperative agreement, \$3,000,000, to remain available until expended.

## INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

For the cost of guaranteed loans and insured loans, \$8,215,000, of which \$1,629,000 is for administrative expenses, as authorized by the Indian Financing Act of 1974, as amended: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That these funds are available to subsidize total loan principal, any part of which is to be guaranteed or insured, not to exceed \$93,807,956.

## ADMINISTRATIVE PROVISIONS

The Bureau of Indian Affairs may carry out the operation of Indian programs by direct expenditure, contracts, cooperative agreements, compacts and grants, either directly or in cooperation with States and other organizations.

Notwithstanding 25 U.S.C. 15, the Bureau of Indian Affairs may contract for services in support of the management, operation, and maintenance of the Power Division of the San Carlos Irrigation Project.

Appropriations for the Bureau of Indian Affairs (except the Revolving Fund for Loans Liquidating Account, Indian Loan Guaranty and Insurance Fund Liquidating Account, Indian Guaranteed Loan Financing Account, Indian Direct Loan Financing Account, and the Indian Guaranteed Loan Program account) shall be available for expenses of exhibits.

Notwithstanding any other provision of law, no funds available to the Bureau of Indian Affairs for central office oversight and Executive Direction and Administrative Services (except executive direction and administrative services funding for Tribal Priority Allocations, regional offices, and facilities operations and maintenance) shall be available for contracts, grants, compacts, or cooperative agreements with the Bureau of Indian Affairs under the provisions of the Indian Self-Determination Act or the Tribal Self-Governance Act of 1994 (Public Law 103-413).

In the event any tribe returns appropriations made available by this Act to the Bureau of Indian Affairs, this action shall not diminish the Federal Government's trust responsibility to that tribe, or the government-to-government relationship between the United States and that tribe, or that tribe's ability to access future appropriations.

Notwithstanding any other provision of law, no funds available to the Bureau, other than the amounts provided herein for assistance to public schools under 25 U.S.C. 452 et seq., shall be available to support the operation of any elementary or secondary school in the State of Alaska.

Appropriations made available in this or any other Act for schools funded by the Bureau shall be available only to the schools in the Bureau school system as of September 1, 1996. No funds available to the Bureau shall be used to support expanded grades for any school or dormitory beyond the grade structure in place or approved by the Secretary of the Interior at each school in the Bureau school system as of October 1, 1995. Funds made available under this Act may not be used to establish a charter school at a Bureau-funded school (as that term is defined in section 1146 of the Education Amendments of 1978 (25 U.S.C. 2026)), except that a charter school that is in existence on the date of the enactment of this Act and that has operated at a Bureau-funded school before September 1, 1999, may continue to operate during that period, but only if the charter school pays to the Bureau a pro rata share of funds to reimburse the Bureau for the use of the real and personal property (including buses and vans), the funds of the charter school are kept separate and apart from Bureau funds, and the Bureau does not assume any obligation for charter school programs of the State in which the school is located if the charter school loses such funding. Employees of Bureau-funded schools sharing a campus with a charter school and performing functions related to the charter schools operation and employees of a charter school shall not be treated as Federal employees for purposes of chapter 171 of title 28, United States Code.

Notwithstanding any other provision of law, including section 113 of title I of appendix C of Public Law 106-113, if in fiscal year 2003 or 2004 a grantee received indirect and administrative costs pursuant to a distribution formula based on section 5(f) of Public Law 101-301, the Secretary shall continue to distribute indirect and administrative cost funds to such grantee using the section 5(f) distribution formula.

#### DEPARTMENTAL OFFICES

##### OFFICE OF THE SECRETARY

##### SALARIES AND EXPENSES

For necessary expenses for management of the Department of the Interior, \$118,836,000; of

which not to exceed \$25,000 may be for official reception and representation expenses; and of which up to \$1,000,000 shall be available for workers compensation payments and unemployment compensation payments associated with the orderly closure of the United States Bureau of Mines: Provided, That, for fiscal year 2010 up to \$400,000 of the payments authorized by the Act of October 20, 1976, as amended (31 U.S.C. 6901-6907) may be retained for administrative expenses of the Payments in Lieu of Taxes Program: Provided further, That no payment shall be made pursuant to that Act to otherwise eligible units of local government if the computed amount of the payment is less than \$100: Provided further, That for fiscal years 2008 through 2012 the Secretary may reduce the payment authorized by 31 U.S.C. 6901-6907, as amended, for an individual county by the amount necessary to correct prior year overpayments to that county: Provided further, That for fiscal years 2008 through 2012 the amount needed to correct a prior year underpayment to an individual county shall be paid from any reductions for overpayments to other counties and the amount necessary to cover any remaining underpayment is hereby appropriated and shall be paid to individual counties using current fiscal year funds.

#### INSULAR AFFAIRS

##### ASSISTANCE TO TERRITORIES

For expenses necessary for assistance to territories under the jurisdiction of the Department of the Interior, \$81,095,000, of which: (1) \$71,815,000 shall remain available until expended for technical assistance, including maintenance assistance, disaster assistance, insular management controls, coral reef initiative activities, and brown tree snake control and research; grants to the judiciary in American Samoa for compensation and expenses, as authorized by law (48 U.S.C. 1661(c)); grants to the Government of American Samoa, in addition to current local revenues, for construction and support of governmental functions; grants to the Government of the Virgin Islands as authorized by law; grants to the Government of Guam, as authorized by law; and grants to the Government of the Northern Mariana Islands as authorized by law (Public Law 94-241; 90 Stat. 272); and (2) \$9,280,000 shall be available until September 30, 2011 for salaries and expenses of the Office of Insular Affairs: Provided, That all financial transactions of the territorial and local governments herein provided for, including such transactions of all agencies or instrumentalities established or used by such governments, may be audited by the Government Accountability Office, at its discretion, in accordance with chapter 35 of title 31, United States Code: Provided further, That Northern Mariana Islands Covenant grant funding shall be provided according to those terms of the Agreement of the Special Representatives on Future United States Financial Assistance for the Northern Mariana Islands approved by Public Law 104-134: Provided further, That the funds for the program of operations and maintenance improvement are appropriated to institutionalize routine operations and maintenance improvement of capital infrastructure with territorial participation and cost sharing to be determined by the Secretary based on the grantee's commitment to timely maintenance of its capital assets: Provided further, That any appropriation for disaster assistance under this heading in this Act or previous appropriations Acts may be used as non-Federal matching funds for the purpose of hazard mitigation grants provided pursuant to section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170c): Provided further, That at the request of the Governor of Guam, the Secretary may transfer any mandatory or discretionary funds appropriated, including those provided under Public

Law 104-134, to the Secretary of Agriculture for the subsidy cost of direct or guaranteed loans, plus not to exceed 3 percent of the amount of the subsidy transferred for the cost of loan administration, for the purposes authorized by the Rural Electrification Act of 1936 and section 306(a)(1) of the Consolidated Farm and Rural Development Act for construction and repair projects in Guam, and such funds shall remain available until expended: Provided further, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That such loans or loan guarantees may be made without regard to the population of the area, credit elsewhere requirements, and restrictions on the types of eligible entities under the Rural Electrification Act of 1936 and section 306(a)(1) of the Consolidated Farm and Rural Development Act: Provided further, That any funds transferred to the Secretary of Agriculture shall be in addition to funds otherwise made available to make or guarantee loans under such authorities.

#### COMPACT OF FREE ASSOCIATION

For grants and necessary expenses, \$5,318,000, to remain available until expended, as provided for in sections 221(a)(2), 221(b), and 233 of the Compact of Free Association for the Republic of Palau; and section 221(a)(2) of the Compacts of Free Association for the Government of the Republic of the Marshall Islands and the Federated States of Micronesia, as authorized by Public Law 99-658 and Public Law 108-188: Provided further, That at the request of the Governor of Guam, the Secretary may transfer any mandatory or discretionary funds appropriated, including those provided under section 104(e) of Public Law 108-188, to the Secretary of Agriculture for the subsidy cost of direct or guaranteed loans, plus not to exceed 3 percent of the amount of the subsidy transferred for the cost of loan administration, for the purposes authorized by the Rural Electrification Act of 1936 and section 306(a)(1) of the Consolidated Farm and Rural Development Act for construction and repair projects in Guam, and such funds shall remain available until expended: Provided further, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That such loans or loan guarantees may be made without regard to the population of the area, credit elsewhere requirements, and restrictions on the types of eligible entities under the Rural Electrification Act of 1936 and section 306(a)(1) of the Consolidated Farm and Rural Development Act: Provided further, That any funds transferred to the Secretary of Agriculture shall be in addition to funds otherwise made available to make or guarantee loans under such authorities.

#### OFFICE OF THE SOLICITOR

##### SALARIES AND EXPENSES

For necessary expenses of the Office of the Solicitor, \$65,076,000.

#### OFFICE OF INSPECTOR GENERAL

##### SALARIES AND EXPENSES

For necessary expenses of the Office of Inspector General, \$48,590,000.

#### OFFICE OF THE SPECIAL TRUSTEE FOR AMERICAN INDIANS

##### FEDERAL TRUST PROGRAMS

##### (INCLUDING TRANSFER OF FUNDS)

For the operation of trust programs for Indians by direct expenditure, contracts, cooperative agreements, compacts, and grants, \$185,984,000, to remain available until expended, of which not to exceed \$56,536,000 from this or any other Act, shall be available for historical accounting, and of which \$1,500,000 shall be available for

the estate planning assistance program under section 207(f) of the Indian Land Consolidation Act (25 U.S.C. 2206(f)): Provided, That funds for trust management improvements and litigation support may, as needed, be transferred to or merged with the Bureau of Indian Affairs, "Operation of Indian Programs" account; the Office of the Solicitor, "Salaries and Expenses" account; and the Office of the Secretary, "Salaries and Expenses" account: Provided further, That funds made available through contracts or grants obligated during fiscal year 2010, as authorized by the Indian Self-Determination Act of 1975 (25 U.S.C. 450 et seq.), shall remain available until expended by the contractor or grantee: Provided further, That, notwithstanding any other provision of law, the statute of limitations shall not commence to run on any claim, including any claim in litigation pending on the date of the enactment of this Act, concerning losses to or mismanagement of trust funds, until the affected tribe or individual Indian has been furnished with an accounting of such funds from which the beneficiary can determine whether there has been a loss: Provided further, That, notwithstanding any other provision of law, the Secretary shall not be required to provide a quarterly statement of performance for any Indian trust account that has not had activity for at least 18 months and has a balance of \$15.00 or less: Provided further, That the Secretary shall issue an annual account statement and maintain a record of any such accounts and shall permit the balance in each such account to be withdrawn upon the express written request of the account holder: Provided further, That not to exceed \$50,000 is available for the Secretary to make payments to correct administrative errors of either disbursements from or deposits to Individual Indian Money or Tribal accounts after September 30, 2002: Provided further, That erroneous payments that are recovered shall be credited to and remain available in this account for this purpose.

DEPARTMENT-WIDE PROGRAMS  
WILDLAND FIRE MANAGEMENT  
(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses for fire preparedness, suppression operations, fire science and research, emergency rehabilitation, hazardous fuels reduction, and rural fire assistance by the Department of the Interior, \$904,637,000, to remain available until expended, of which not to exceed \$6,137,000 shall be for the renovation or construction of fire facilities: Provided, That such funds are also available for repayment of advances to other appropriation accounts from which funds were previously transferred for such purposes: Provided further, That persons hired pursuant to 43 U.S.C. 1469 may be furnished subsistence and lodging without cost from funds available from this appropriation: Provided further, That notwithstanding 42 U.S.C. 1856d, sums received by a bureau or office of the Department of the Interior for fire protection rendered pursuant to 42 U.S.C. 1856 et seq., protection of United States property, may be credited to the appropriation from which funds were expended to provide that protection, and are available without fiscal year limitation: Provided further, That using the amounts designated under this title of this Act, the Secretary of the Interior may enter into procurement contracts, grants, or cooperative agreements, for hazardous fuels reduction activities, and for training and monitoring associated with such hazardous fuels reduction activities, on Federal land, or on adjacent non-Federal land for activities that benefit resources on Federal land: Provided further, That the costs of implementing any cooperative agreement between the Federal Government and any non-Federal entity may be shared, as mutually agreed on by the

affected parties: Provided further, That notwithstanding requirements of the Competition in Contracting Act, the Secretary, for purposes of hazardous fuels reduction activities, may obtain maximum practicable competition among: (1) local private, nonprofit, or cooperative entities; (2) Youth Conservation Corps crews, Public Lands Corps (Public Law 109-154), or related partnerships with State, local, or non-profit youth groups; (3) small or micro-businesses; or (4) other entities that will hire or train locally a significant percentage, defined as 50 percent or more, of the project workforce to complete such contracts: Provided further, That in implementing this section, the Secretary shall develop written guidance to field units to ensure accountability and consistent application of the authorities provided herein: Provided further, That funds appropriated under this head may be used to reimburse the United States Fish and Wildlife Service and the National Marine Fisheries Service for the costs of carrying out their responsibilities under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) to consult and conference, as required by section 7 of such Act, in connection with wildland fire management activities: Provided further, That the Secretary of the Interior may use wildland fire appropriations to enter into non-competitive sole source leases of real property with local governments, at or below fair market value, to construct capitalized improvements for fire facilities on such leased properties, including but not limited to fire guard stations, retardant stations, and other initial attack and fire support facilities, and to make advance payments for any such lease or for construction activity associated with the lease: Provided further, That the Secretary of the Interior and the Secretary of Agriculture may authorize the transfer of funds appropriated for wildland fire management, in an aggregate amount not to exceed \$10,000,000, between the Departments when such transfers would facilitate and expedite jointly funded wildland fire management programs and projects: Provided further, That funds provided for wildfire suppression shall be available for support of Federal emergency response actions.

CENTRAL HAZARDOUS MATERIALS FUND

For necessary expenses of the Department of the Interior and any of its component offices and bureaus for the response action, including associated activities, performed pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (42 U.S.C. 9601 et seq.), \$10,175,000, to remain available until expended: Provided, That Public Law 110-161 (121 Stat. 2116) under this heading is amended by striking "in advance of or as reimbursement for remedial action or response activities conducted by the Department pursuant to section 107 or 113(f) of such Act" and inserting in lieu thereof "including any fines or penalties".

NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION

NATURAL RESOURCE DAMAGE ASSESSMENT FUND

To conduct natural resource damage assessment and restoration activities by the Department of the Interior necessary to carry out the provisions of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (42 U.S.C. 9601 et seq.), the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251 et seq.), the Oil Pollution Act of 1990 (33 U.S.C. 2701 et seq.), and Public Law 101-337, as amended (16 U.S.C. 191j et seq.), \$6,462,000, to remain available until expended.

WORKING CAPITAL FUND

For the acquisition of a departmental financial and business management system and information technology improvements of general benefit to the Department, \$85,823,000, to remain

available until expended: Provided, That none of the funds in this Act or previous appropriations Acts may be used to establish reserves in the Working Capital Fund account other than for accrued annual leave and depreciation of equipment without prior approval of the House and Senate Committees on Appropriations: Provided further, That the Secretary may assess reasonable charges to State, local and tribal government employees for training services provided by the National Indian Program Training Center, other than training related to Public Law 93-638: Provided further, That the Secretary may lease or otherwise provide space and related facilities, equipment or professional services of the National Indian Program Training Center to State, local and tribal government employees or persons or organizations engaged in cultural, educational, or recreational activities (as defined in 40 U.S.C. 3306(a)) at the prevailing rate for similar space, facilities, equipment, or services in the vicinity of the National Indian Program Training Center: Provided further, That all funds received pursuant to the two preceding provisos shall be credited to this account, shall be available until expended, and shall be used by the Secretary for necessary expenses of the National Indian Program Training Center.

ADMINISTRATIVE PROVISION

There is hereby authorized for acquisition from available resources within the Working Capital Fund, 15 aircraft, 10 of which shall be for replacement and which may be obtained by donation, purchase or through available excess surplus property: Provided, That existing aircraft being replaced may be sold, with proceeds derived or trade-in value used to offset the purchase price for the replacement aircraft.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

EMERGENCY TRANSFER AUTHORITY—INTRA-BUREAU

(INCLUDING TRANSFERS OF FUNDS)

SEC. 101. Appropriations made in this title shall be available for expenditure or transfer (within each bureau or office), with the approval of the Secretary, for the emergency reconstruction, replacement, or repair of aircraft, buildings, utilities, or other facilities or equipment damaged or destroyed by fire, flood, storm, or other unavoidable causes: Provided, That no funds shall be made available under this authority until funds specifically made available to the Department of the Interior for emergencies shall have been exhausted.

EMERGENCY TRANSFER AUTHORITY—DEPARTMENT-WIDE

SEC. 102. The Secretary may authorize the expenditure or transfer of any no year appropriation in this title, for the suppression or emergency prevention of wildland fires on or threatening lands under the jurisdiction of the Department of the Interior; for the emergency rehabilitation of burned-over lands under its jurisdiction; for emergency actions related to potential or actual earthquakes, floods, volcanoes, storms, or other unavoidable causes; for contingency planning subsequent to actual oil spills; for response and natural resource damage assessment activities related to actual oil spills; for the prevention, suppression, and control of actual or potential grasshopper and Mormon cricket outbreaks on lands under the jurisdiction of the Secretary, pursuant to the authority in section 1773(b) of Public Law 99-198 (99 Stat. 1658); for emergency reclamation projects under section 410 of Public Law 95-87; and shall transfer, from any no year funds available to the Office of Surface Mining Reclamation and Enforcement, such funds as may be necessary to permit assumption of regulatory authority in

the event a primacy State is not carrying out the regulatory provisions of the Surface Mining Act: Provided, That appropriations made in this title for wildland fire operations shall be available for the payment of obligations incurred during the preceding fiscal year, and for reimbursement to other Federal agencies for destruction of vehicles, aircraft, or other equipment in connection with their use for wildland fire operations, such reimbursement to be credited to appropriations currently available at the time of receipt thereof: Provided further, That for wildland fire operations, no funds shall be made available under this authority until the Secretary determines that funds appropriated for "wildland fire operations" shall be exhausted within 30 days: Provided further, That all funds used pursuant to this section must be replenished by a supplemental appropriation which must be requested as promptly as possible: Provided further, That such replenishment funds shall be used to reimburse, on a pro rata basis, accounts from which emergency funds were transferred.

#### AUTHORIZED USE OF FUNDS

SEC. 103. Appropriations made to the Department of the Interior in this title shall be available for services as authorized by 5 U.S.C. 3109, when authorized by the Secretary, in total amount not to exceed \$500,000; purchase and replacement of motor vehicles, including specially equipped law enforcement vehicles; hire, maintenance, and operation of aircraft; hire of passenger motor vehicles; purchase of reprints; payment for telephone service in private residences in the field, when authorized under regulations approved by the Secretary; and the payment of dues, when authorized by the Secretary, for library membership in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members.

#### AUTHORIZED USE OF FUNDS

SEC. 104. Appropriations made in this Act under the headings Bureau of Indian Affairs and Office of the Special Trustee for American Indians and any unobligated balances from prior appropriations Acts made under the same headings shall be available for expenditure or transfer for Indian trust management and reform activities. Total funding for historical accounting activities shall not exceed amounts specifically designated in this Act for such purpose.

#### REDISTRIBUTION OF FUNDS

SEC. 105. Notwithstanding any other provision of law, the Secretary of the Interior is authorized to redistribute any Tribal Priority Allocation funds, including tribal base funds, to alleviate tribal funding inequities by transferring funds to address identified, unmet needs, dual enrollment, overlapping service areas or inaccurate distribution methodologies. No federally recognized tribe shall receive a reduction in Tribal Priority Allocation funds of more than 10 percent in fiscal year 2010. Under circumstances of dual enrollment, overlapping service areas or inaccurate distribution methodologies, the 10 percent limitation does not apply.

#### TWIN CITIES RESEARCH CENTER

SEC. 106. Notwithstanding any other provision of law, in conveying the Twin Cities Research Center under the authority provided by Public Law 104-134, as amended by Public Law 104-208, the Secretary may accept and retain land and other forms of reimbursement: Provided, That the Secretary may retain and use any such reimbursement until expended and without further appropriation: (1) for the benefit of the National Wildlife Refuge System within the State of Minnesota; and (2) for all activities authorized by 16 U.S.C. 4602z.

#### PAYMENT OF FEES

SEC. 107. The Secretary of the Interior may use discretionary funds to pay private attorney fees and costs for employees and former employees of the Department of the Interior reasonably incurred in connection with *Cobell v. Salazar* to the extent that such fees and costs are not paid by the Department of Justice or by private insurance. In no case shall the Secretary make payments under this section that would result in payment of hourly fees in excess of the highest hourly rate approved by the District Court for the District of Columbia for counsel in *Cobell v. Salazar*.

#### ELLIS, GOVERNORS, AND LIBERTY ISLANDS

SEC. 108. Notwithstanding any other provision of law, the Secretary of the Interior is authorized to acquire lands, waters, or interests therein including the use of all or part of any pier, dock, or landing within the State of New York and the State of New Jersey, for the purpose of operating and maintaining facilities in the support of transportation and accommodation of visitors to Ellis, Governors, and Liberty Islands, and of other program and administrative activities, by donation or with appropriated funds, including franchise fees (and other monetary consideration), or by exchange; and the Secretary is authorized to negotiate and enter into leases, subleases, concession contracts or other agreements for the use of such facilities on such terms and conditions as the Secretary may determine reasonable.

#### PROHIBITION ON USE OF FUNDS

SEC. 109. (a) Any proposed new use of the Arizona & California Railroad Company's Right of Way for conveyance of water shall not proceed unless the Secretary of the Interior certifies that the proposed new use is within the scope of the Right of Way.

(b) No funds appropriated or otherwise made available to the Department of the Interior may be used, in relation to any proposal to store water underground for the purpose of export, for approval of any right-of-way or similar authorization on the Mojave National Preserve or lands managed by the Needles Field Office of the Bureau of Land Management, or for carrying out any activities associated with such right-of-way or similar approval.

#### USE OF COOPERATIVE AGREEMENTS

SEC. 110. For fiscal year 2010, and each fiscal year thereafter, the Secretary of the Interior may enter into cooperative agreements with a State or political subdivision (including any agency thereof), or any not-for-profit organization if the agreement will: (1) serve a mutual interest of the parties to the agreement in carrying out the programs administered by the Department of the Interior; and (2) all parties will contribute resources to the accomplishment of these objectives. At the discretion of the Secretary, such agreements shall not be subject to a competitive process.

#### CONFORMING AMENDMENT

SEC. 111. Sections 109 and 110 of the Federal Oil and Gas Royalty Management Act (30 U.S.C. 1719 and 1720) shall, for fiscal year 2010 and each fiscal year thereafter, apply to any lease authorizing exploration for or development of coal, any other solid mineral, or any geothermal resource on any Federal or Indian lands and any lease, easement, right of way, or other agreement, regardless of form, for use of the Outer Continental Shelf or any of its resources under sections 8(k) or 8(p) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(k) and 1337(p)) to the same extent as if such lease, easement, right of way, or other agreement, regardless of form, were an oil and gas lease, except that in such cases the term "royalty payment" shall include any payment required by

such lease, easement, right of way or other agreement, regardless of form, or by applicable regulation.

#### PROHIBITION ON USE OF FUNDS, POINT REYES NATIONAL SEASHORE

SEC. 112. None of the funds in this Act may be used to further reduce the number of Axis or Fallow deer at Point Reyes National Seashore below the number as of the date of enactment of this Act.

#### OUTER CONTINENTAL SHELF INSPECTION FEES

SEC. 113. (a) In fiscal year 2010, the Minerals Management Service (MMS) shall collect a non-refundable inspection fee, which shall be deposited in the "Royalty and Offshore Minerals Management" account, from the designated operator for facilities subject to inspection by MMS under 43 U.S.C. 1348(c) that are above the waterline, except mobile offshore drilling units, and are in place at the start of fiscal year 2010.

(b) Fees for 2010 shall be:

(1) \$2,000 for facilities with no wells, but with processing equipment or gathering lines;

(2) \$3,250 for facilities with one to ten wells, with any combination of active or inactive wells; and

(3) \$6,000 for facilities with more than ten wells, with any combination of active or inactive wells.

(c) MMS will bill designated operators within 60 days of enactment of this Act, with payment required within 30 days of billing.

#### YOSEMITE NATIONAL PARK AUTHORIZED PAYMENTS, AMENDMENT

SEC. 114. Section 101(a)(1) of Public Law 109-131 is amended by striking "2009" and inserting "2013".

#### NORTHERN PLAINS HERITAGE AREA, AMENDMENT

SEC. 115. Section 8004 of the Omnibus Public Land Management Act of 2009 (Public Law 111-11; 123 Stat. 1240) is amended—

(1) by redesignating subsections (g) through (i) as subsections (h) through (j), respectively;

(2) in subsection (h)(1) (as redesignated by paragraph (1)), in the matter preceding subparagraph (A), by striking "subsection (i)" and inserting "subsection (j)"; and

(3) by inserting after subsection (f) the following:

"(g) REQUIREMENTS FOR INCLUSION AND REMOVAL OF PROPERTY IN HERITAGE AREA.—

"(1) PRIVATE PROPERTY INCLUSION.—No privately owned property shall be included in the Heritage Area unless the owner of the private property provides to the management entity a written request for the inclusion.

"(2) PROPERTY REMOVAL.—

"(A) PRIVATE PROPERTY.—At the request of an owner of private property included in the Heritage Area pursuant to paragraph (1), the private property shall be immediately withdrawn from the Heritage Area if the owner of the property provides to the management entity a written notice requesting removal.

"(B) PUBLIC PROPERTY.—On written notice from the appropriate State or local government entity, public property included in the Heritage Area shall be immediately withdrawn from the Heritage Area."

#### PEARL HARBOR NAVAL COMPLEX, JOINT TICKETING

SEC. 116. (a) DEFINITIONS.—In this section:

(1) HISTORIC ATTRACTION.—The term "historic attraction" mean a historic attraction within the Pearl Harbor Naval Complex, including—

(A) the USS Bowfin Submarine Museum and Park;

(B) the Battleship Missouri Memorial;

(C) the Pacific Aviation Museum-Pearl Harbor; and

(D) any other historic attraction within the Pearl Harbor Naval Complex that—

(i) the Secretary identifies as a Pearl Harbor historic attraction; and

(ii) is not administered or managed by the Secretary.

(2) **MONUMENT.**—The term “Monument” means the World War II Valor in the Pacific National Monument in the State of Hawaii.

(3) **SECRETARY.**—The term “Secretary” means the Secretary of the Interior.

(4) **VISITOR CENTER.**—The term “Visitor Center” means the visitor center located within the Pearl Harbor Naval Complex on land that is—

(A) within the Monument; and

(B) managed by the Secretary, acting through the Director of the National Park Service.

(b) **FACILITATION OF ADMISSION TO HISTORIC ATTRACTIONS WITHIN PEARL HARBOR NAVAL COMPLEX.**—

(1) **IN GENERAL.**—In managing the Monument, the Secretary may enter into an agreement with any organization that is authorized to administer or manage a historic attraction—

(A) to allow visitors to the historic attraction to gain access to the historic attraction by passing through security screening at the Visitor Center; and

(B) to allow the sale of tickets to a historic attraction within the Visitor Center by—

(i) employees of the National Park Service; or

(ii) the organization that administers or manages the historic attraction.

(2) **TERMS AND CONDITIONS.**—In any agreement entered into under paragraph (1), the Secretary—

(A) shall require the organization administering or managing the historic attraction to pay to the Secretary a reasonable fee to recover administrative costs of the Secretary associated with the use of the Visitor Center for public access and ticket sales;

(B) shall ensure that the liability of the United States is limited with respect to any liability arising from—

(i) the admission of the public through the Visitor Center to a historic attraction; and

(ii) the sale or issuance of any tickets to the historic attraction; and

(C) may include any other terms and conditions that the Secretary determines to be appropriate.

(3) **USE OF FEES.**—The proceeds of any amounts collected as fees under paragraph (2)(A) shall remain available, without further appropriation, for use by the Secretary for the Monument.

(4) **LIMITATION OF AUTHORITY.**—Nothing in this section authorizes the Secretary—

(A) to regulate or approve the rates for admission to a historic attraction;

(B) to regulate or manage any visitor services within the Pearl Harbor Naval Complex (other than the services managed by the National Park Service as part of the Monument); or

(C) to charge an entrance fee for admission to the Monument.

(5) **PROTECTION OF RESOURCES.**—Nothing in this section authorizes the Secretary or any organization that administers or manages a historic attraction to take any action in derogation of the preservation and protection of the values and resources of the Monument.

#### ASSISTANCE FOR THE REPUBLIC OF PALAU

**SEC. 117. (a) IN GENERAL.**—Subject to subsection (c), the Secretary of the Interior shall provide to the Government of Palau for fiscal year 2010 grants in amounts equal to the annual amounts specified in subsections (a), (c), and (d) of section 211 of the Compact of Free Association between the Government of the United States of America and the Government of Palau (48 U.S.C. 1931 note) (referred to in this section as the “Compact”).

(b) **PROGRAMMATIC ASSISTANCE.**—Subject to subsection (c), the United States shall provide programmatic assistance to the Republic of Palau for fiscal year 2010 in amounts equal to

the amounts provided in subsections (a) and (b)(1) of section 221 of the Compact.

(c) **LIMITATIONS ON ASSISTANCE.**—

(1) **IN GENERAL.**—The grants and programmatic assistance provided under subsections (a) and (b) shall be provided to the same extent and in the same manner as the grants and assistance were provided in fiscal year 2009.

(2) **TRUST FUND.**—If the Government of Palau withdraws more than \$5,000,000 from the trust fund established under section 211(f) of the Compact, amounts to be provided under subsections (a) and (b) shall be withheld from the Government of Palau.

#### GOLDEN GATE NATIONAL RECREATION AREA, FORT BAKER AMENDMENT

**SEC. 118.** Section 120 of title I of H.R. 3423 (Appendix C) as enacted into law by section 1000(a)(3) of division B of Public Law 106–113 is amended by striking the last sentence.

#### THEODORE ROOSEVELT NATIONAL PARK, ELK REDUCTION

**SEC. 119.** None of the funds made available in this Act shall be used to establish or implement a plan to reduce the number of elk in Theodore Roosevelt National Park unless such plan, notwithstanding any other provision of law, allows North Dakota residents possessing a State hunting license to be deputized by the Secretary as rangers in such numbers as the Secretary deems sufficient for purposes of culling the elk herd at the Park, and allows each such volunteer to cull one elk and remove its carcass from the Park.

#### POINT REYES NATIONAL SEASHORE, EXTENSION OF PERMIT

**SEC. 120.** Prior to the expiration on November 30, 2012 of the Drake’s Bay Oyster Company’s Reservation of Use and Occupancy and associated special use permit (“existing authorization”) within Drake’s Estero at Point Reyes National Seashore, notwithstanding any other provision of law, the Secretary of the Interior is authorized to issue a special use permit with the same terms and conditions as the existing authorization, except as provided herein, for a period of 10 years from November 30, 2012. Provided, That such extended authorization is subject to annual payments to the United States based on the fair market value of the use of the Federal property for the duration of such renewal. The Secretary shall take into consideration recommendations of the National Academy of Sciences Report pertaining to shellfish mariculture in Point Reyes National Seashore before modifying any terms and conditions of the extended authorization.

#### CONTRIBUTION AUTHORITY

**SEC. 121.** Title 43 U.S.C. 1473, as amended by Public Law 110–161 and Public Law 111–8, is further amended by deleting “in fiscal years 2008 and 2009 only” and inserting “in fiscal years 2008, 2009 and 2010 only”.

#### NATIONAL PARK SYSTEM, SPECIAL RESOURCE STUDY

**SEC. 122. (a) IN GENERAL.**—The Secretary of the Interior (referred to in this section as the “Secretary”) shall conduct a special resource study of the national significance, suitability, and feasibility of including the Honouliuli Gulch and associated sites within the State of Hawaii in the National Park System.

(b) **GUIDELINES.**—In conducting the study, the Secretary shall use the criteria for the study of areas for potential inclusion in the National Park System described in section 8 of Public Law 91–383 (16 U.S.C. 1a–5).

(c) **CONSULTATION.**—In conducting the study, the Secretary shall consult with—

(1) the State of Hawaii;

(2) appropriate Federal agencies;

(3) Native Hawaiian and local government entities;

(4) private and nonprofit organizations;

(5) private land owners; and

(6) other interested parties.

(d) **THEMES.**—The study shall evaluate the Honouliuli Gulch, associated sites located on Oahu, and other islands located in the State of Hawaii with respect to—

(1) the significance of the site as a component of World War II;

(2) the significance of the site as the site related to the forcible internment of Japanese Americans, European Americans, and other individuals; and

(3) historic resources at the site.

(e) **REPORT.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report describing the findings, conclusions, and recommendations of the study required under this section.

#### PROHIBITION ON USE OF FUNDS TO IMPEDE OPERATIONAL CONTROL

**SEC. 123.** None of the funds made available by this Act may be used to impede, prohibit, or restrict activities of the Secretary of Homeland Security on public lands to achieve operational control (as defined in section 2(b) of the Secure Fence Act of 2006 (8 U.S.C. 1701 note; Public Law 109–367) over the international land and maritime borders of the United States.

**SEC. 124.** Any owner of private property within an existing or new National Heritage Area may opt out of participating in any plan, project, program, or activity conducted within the National Heritage Area if the property owner provides written notice to the local coordinating entity.

#### TITLE II

#### ENVIRONMENTAL PROTECTION AGENCY SCIENCE AND TECHNOLOGY

For science and technology, including research and development activities, which shall include research and development activities under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended; necessary expenses for personnel and related costs and travel expenses; procurement of laboratory equipment and supplies; and other operating expenses in support of research and development, \$842,799,000, to remain available until September 30, 2011.

#### ENVIRONMENTAL PROGRAMS AND MANAGEMENT

For environmental programs and management, including necessary expenses, not otherwise provided for, for personnel and related costs and travel expenses; hire of passenger motor vehicles; hire, maintenance, and operation of aircraft; purchase of reprints; library memberships in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members; administrative costs of the brownfields program under the Small Business Liability Relief and Brownfields Revitalization Act of 2002; and not to exceed \$9,000 for official reception and representation expenses, \$2,878,780,000, to remain available until September 30, 2011: Provided, That of the funds included under this heading, not less than \$478,696,000 shall be for the Geographic Programs specified in the committee report accompanying this Act.

#### OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, \$44,791,000, to remain available until September 30, 2011.

## BUILDINGS AND FACILITIES

For construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities of, or for use by, the Environmental Protection Agency, \$35,001,000, to remain available until expended: Provided, That, at the discretion of the Administrator of the Environmental Protection Agency, from the funds included under this heading, \$500,000 may be made available for preliminary planning and design of a high-performance green building to consolidate the multiple offices and research facilities of the Environmental Protection Agency in Las Vegas, Nevada.

HAZARDOUS SUBSTANCE SUPERFUND  
(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses to carry out the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended, including sections 111(c)(3), (c)(5), (c)(6), and (e)(4) (42 U.S.C. 9611) \$1,308,541,000, to remain available until expended, consisting of such sums as are available in the Trust Fund on September 30, 2009, as authorized by section 517(a) of the Superfund Amendments and Reauthorization Act of 1986 (SARA) and up to \$1,308,541,000 as a payment from general revenues to the Hazardous Substance Superfund for purposes as authorized by section 517(b) of SARA, as amended: Provided, That funds appropriated under this heading may be allocated to other Federal agencies in accordance with section 111(a) of CERCLA: Provided further, That of the funds appropriated under this heading, \$9,975,000 shall be paid to the "Office of Inspector General" appropriation to remain available until September 30, 2011, and \$26,834,000 shall be paid to the "Science and Technology" appropriation to remain available until September 30, 2011.

LEAKING UNDERGROUND STORAGE TANK TRUST  
FUND PROGRAM

For necessary expenses to carry out leaking underground storage tank cleanup activities authorized by subtitle I of the Solid Waste Disposal Act, as amended, \$114,171,000, to remain available until expended, of which \$78,671,000 shall be for carrying out leaking underground storage tank cleanup activities authorized by section 9003(h) of the Solid Waste Disposal Act, as amended; \$35,500,000 shall be for carrying out the other provisions of the Solid Waste Disposal Act specified in section 9508(c) of the Internal Revenue Code, as amended: Provided, That the Administrator is authorized to use appropriations made available under this heading to implement section 9013 of the Solid Waste Disposal Act to provide financial assistance to federally recognized Indian tribes for the development and implementation of programs to manage underground storage tanks.

## OIL SPILL RESPONSE

For expenses necessary to carry out the Environmental Protection Agency's responsibilities under the Oil Pollution Act of 1990, \$18,379,000, to be derived from the Oil Spill Liability trust fund, to remain available until expended.

## STATE AND TRIBAL ASSISTANCE GRANTS

For environmental programs and infrastructure assistance, including capitalization grants for State revolving funds and performance partnership grants, \$4,954,274,000, to remain available until expended, of which \$2,100,000,000 shall be for making capitalization grants for the Clean Water State Revolving Funds under title VI of the Federal Water Pollution Control Act, as amended (the "Act"); of which \$1,387,000,000 shall be for capitalization grants for the Drinking Water State Revolving Funds under section 1452 of the Safe Drinking Water Act, as amended: Provided, That, for fiscal year 2010, to the extent that there are sufficient applications, not

less than 20 percent of the funds made available for the Clean Water State Revolving Fund or Drinking Water State Revolving Fund capitalization grants shall be for projects to address green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities; \$10,000,000 shall be for architectural, engineering, planning, design, construction and related activities in connection with the construction of high priority water and wastewater facilities in the area of the United States-Mexico Border, after consultation with the appropriate border commission; \$15,000,000 shall be for grants to the State of Alaska to address drinking water and wastewater infrastructure needs of rural and Alaska Native Villages: Provided further, That, of these funds: (1) the State of Alaska shall provide a match of 25 percent; (2) no more than 5 percent of the funds may be used for administrative and overhead expenses; and (3) the State of Alaska shall make awards consistent with the State-wide priority list established in conjunction with the Agency and the U.S. Department of Agriculture for all water, sewer, waste disposal, and similar projects carried out by the State of Alaska that are funded under section 221 of the Federal Water Pollution Control Act (33 U.S.C. 1301) or the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.) which shall allocate not less than 25 percent of the funds provided for projects in regional hub communities; \$150,000,000 shall be for making special project grants for the construction of drinking water, wastewater and storm water infrastructure and for water quality protection in accordance with the terms and conditions specified for such grants in the committee report accompanying this Act, and, for purposes of these grants, each grantee shall contribute not less than 45 percent of the cost of the project unless the grantee is approved for a waiver by the Agency; \$101,000,000 shall be to carry out section 104(k) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended, including grants, inter-agency agreements, and associated program support costs; \$60,000,000 shall be for grants under title VII, subtitle G of the Energy Policy Act of 2005, as amended; \$20,000,000 shall be for targeted airshed grants in accordance with the terms and conditions of the committee report accompanying this Act; and \$1,111,274,000 shall be for grants, including associated program support costs, to States, federally recognized tribes, interstate agencies, tribal consortia, and air pollution control agencies for multi-media or single media pollution prevention, control and abatement and related activities, including activities pursuant to the provisions set forth under this heading in Public Law 104-134, and for making grants under section 103 of the Clean Air Act for particulate matter monitoring and data collection activities subject to terms and conditions specified by the Administrator, of which \$49,495,000 shall be for carrying out section 128 of CERCLA, as amended, \$10,000,000 shall be for Environmental Information Exchange Network grants, including associated program support costs, \$18,500,000 of the funds available for grants under section 106 of the Act shall be for water quality monitoring activities, and, in addition to funds appropriated under the heading "Leaking Underground Storage Tank Trust Fund Program" to carry out the provisions of the Solid Waste Disposal Act specified in section 9508(c) of the Internal Revenue Code other than section 9003(h) of the Solid Waste Disposal Act, as amended, \$2,500,000 shall be for grants to States under section 2007(f)(2) of the Solid Waste Disposal Act, as amended: Provided further, That notwithstanding section 603(d)(7) of the Federal Water Pollution Control Act, the limitation on the amounts in a State water pollution

control revolving fund that may be used by a State to administer the fund shall not apply to amounts included as principal in loans made by such fund in fiscal year 2010 and prior years where such amounts represent costs of administering the fund to the extent that such amounts are or were deemed reasonable by the Administrator, accounted for separately from other assets in the fund, and used for eligible purposes of the fund, including administration: Provided further, That for fiscal year 2010, and notwithstanding section 518(f) of the Act, the Administrator is authorized to use the amounts appropriated for any fiscal year under section 319 of that Act to make grants to federally recognized Indian tribes pursuant to sections 319(h) and 518(e) of that Act: Provided further, That, for fiscal year 2010, notwithstanding the limitation on amounts in section 518(c) of the Federal Water Pollution Control Act and section 1452(i) of the Safe Drinking Water Act, up to a total of 2 percent of the funds appropriated for the Clean Water State Revolving Funds and Drinking Water State Revolving Funds may be reserved by the Administrator for grants to Tribes: Provided further, That, for fiscal year 2010, notwithstanding any other provision of law, up to a total of 1.5 percent of the funds provided for the Clean Water State Revolving Funds and Drinking Water State Revolving Funds may be reserved by the Administrator for grants to territories of the United States: Provided further, That no funds provided by this appropriations Act to address the water, wastewater and other critical infrastructure needs of the colonias in the United States along the United States-Mexico border shall be made available to a county or municipal government unless that government has established an enforceable local ordinance, or other zoning rule, which prevents in that jurisdiction the development or construction of any additional colonia areas, or the development within an existing colonia the construction of any new home, business, or other structure which lacks water, wastewater, or other necessary infrastructure: Provided further, That notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8, the \$300,000 made available to the Village of Crestwood for water storage improvements (as described in the table entitled "Congressionally Designated Spending" in section 430 of that joint explanatory statement) shall be made available to the City of Quincy, Illinois, for drinking water system improvements: Provided further, That, notwithstanding House Report 107-272, the amount of \$1,000,000 made available to the Southeast Alabama Regional Water Authority for a water facility project and the amount of \$2,500,000 made available to the Alabama Regional Water Authority for the Southwest Alabama Rural/Municipal Water System may, at the discretion of the Administrator, be made available to the city of Thomasville for those projects: Provided further, That, notwithstanding House Report 108-10, the amount of \$450,000 made available to the Southwest Alabama Regional Water Authority for water infrastructure improvements may, at the discretion of the Administrator, be made available to the city of Thomasville for that project: Provided further, That, notwithstanding House Report 108-401, the amount of \$450,000 made available to the Southwest Alabama Regional Water supply District for regional water supply distribution in Thomasville, Alabama, may, at the discretion of the Administrator, be made available to the city of Thomasville for that project: Provided further, That, notwithstanding House Report 108-401, the amount of \$2,000,000 made available to the Tom Bevill Reservoir Management Area Authority for construction of a drinking water reservoir in

Fayette County, Alabama, may, at the discretion of the Administrator, be made available to Fayette County, Alabama, for water system upgrades: Provided further, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$500,000 made available to the San Bernardino Municipal Water District for the Inland Empire alternative water supply project (as described in the table entitled "Congressionally Designated Spending" contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to the city of San Bernardino municipal water department for that project: Provided further, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying the Consolidated Appropriations Act, 2008 (Public Law 110-161; 121 Stat. 1844), from funds made available by that Act for the State and Tribal Assistance Grants program, \$170,800 may, at the discretion of the Administrator, be made available to the city of Prescott for a wastewater treatment plant construction project and \$129,200 may, at the discretion of the Administrator, be made available to the city of Wichita for a storm water technology pilot project: Provided further, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 524), the amount of \$185,000 made available to the city of Manhattan for the sewer mainline extension project (as described in the table entitled "Congressionally Designated Spending" contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to the city of Manhattan for a water mainline extension project: Provided further, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 524), the amount of \$290,000 made available to the Riley County Board of Commissioners for the Konza Sewer Main Extension project (as described in the table entitled "Congressionally Designated Spending" contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to the city of Manhattan for the Konza Water Main Extension project: Provided further, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$1,300,000 made available to the City of Warrensburg, Missouri for a drinking water and wastewater infrastructure project (as described in the table entitled "Congressionally Designated Spending" contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to the City of Gravois Mills for wastewater infrastructure (as described in the table entitled "Congressionally Designated Spending" contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to the Gravois Arm Sewer District for that project: Provided further, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the

amount of \$500,000 made available to McDonald County, Missouri for a wastewater infrastructure expansion project (as described in the table entitled "Congressionally Designated Spending" contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to PWS #1 of McDonald County, Missouri for that project: Provided further, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 110-161 (121 Stat. 1844), the amount of \$150,000 made available to the City of Hayti, Pemiscot Consolidated Public Water Supply District 1 for a Water Storage Tank (as described in the section entitled "STAG Infrastructure Grants/Congressional Priorities" on page 1264 of the joint explanatory statement) may, at the discretion of the Administrator, be made available to Pemiscot Consolidated Public Water Supply District 1 for a drinking water source protection infrastructure project: Provided further, That, notwithstanding the joint explanatory statement of the Committee on Appropriations of the House of Representatives accompanying Public Law 111-8 (123 Stat. 524), the amount of \$400,000 made available to the City of Lake Norden, South Dakota, for wastewater infrastructure improvements (as described in the table entitled "Congressionally Designated Spending" contained in section 430 of that joint explanatory statement) may, at the discretion of the Administrator, be made available to the City of Lake Norden, South Dakota, for drinking water infrastructure improvements.

ADMINISTRATIVE PROVISIONS, ENVIRONMENTAL  
PROTECTION AGENCY  
(INCLUDING RESCISSION OF FUNDS)

For fiscal year 2010, notwithstanding 31 U.S.C. 6303(1) and 6305(1), the Administrator of the Environmental Protection Agency, in carrying out the Agency's function to implement directly Federal environmental programs required or authorized by law in the absence of an acceptable tribal program, may award cooperative agreements to federally recognized Indian Tribes or Intertribal consortia, if authorized by their member Tribes, to assist the Administrator in implementing Federal environmental programs for Indian Tribes required or authorized by law, except that no such cooperative agreements may be awarded from funds designated for State financial assistance agreements.

The Administrator of the Environmental Protection Agency is authorized to collect and obligate pesticide registration service fees in accordance with section 33 of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by Public Law 110-94, the Pesticide Registration Improvement Renewal Act.

The Administrator is authorized to transfer up to 50 percent of the funds appropriated for the Great Lakes Initiative under the heading "Environmental Programs and Management" to the head of any Federal department or agency, with the concurrence of such head, to carry out activities that would support the Great Lakes Restoration Initiative and Great Lakes Water Quality Agreement programs, projects, or activities; to enter into an interagency agreement with the head of such Federal department or agency to carry out these activities; and to make grants to governmental entities, nonprofit organizations, institutions, and individuals for planning, research, monitoring, outreach, and implementation in furtherance of the Great Lakes Restoration Initiative and the Great Lakes Water Quality Agreement.

From unobligated balances to carry out projects and activities funded through the State and Tribal Assistance Grants Account, \$40,000,000 are permanently rescinded: Provided, That no amounts may be rescinded from

amounts that were designated by Congress as an emergency requirement pursuant to the Concurrent Resolution on the Budget or the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

GENERAL PROVISIONS, ENVIRONMENTAL  
PROTECTION AGENCY  
BLACK CARBON

SEC. 201. (a) Not later than 18 months after the date of enactment of this Act, the Administrator, in consultation with other Federal agencies, may carry out and submit to Congress the results of a study to define black carbon, assess the impacts of black carbon on global and regional climate, and identify the most cost-effective ways to reduce black carbon emissions—

(1) to improve global and domestic public health; and

(2) to mitigate the climate impacts of black carbon.

(b) In carrying out the study, the Administrator shall—

(1) identify global and domestic black carbon sources, the quantities of emissions from those sources, and cost-effective mitigation technologies and strategies;

(2) evaluate the public health, climate, and economic impacts of black carbon;

(3) identify current and practicable future opportunities to provide financial, technical, and related assistance to reduce domestic and international black carbon emissions; and

(4) identify opportunities for future research and development to reduce black carbon emissions and protect public health in the United States and internationally.

(c) Of the amounts made available under this title under the heading "ENVIRONMENTAL PROGRAMS AND MANAGEMENT" for operations and administration, up to \$2,000,000 shall be—

(1) transferred to the account used to fund the Office of Air Quality Planning and Standards of the Environmental Protection Agency; and

(2) used by the Administrator to carry out this section.

TITLE III  
RELATED AGENCIES  
DEPARTMENT OF AGRICULTURE  
FOREST SERVICE  
FOREST AND RANGELAND RESEARCH

For necessary expenses of forest and rangeland research as authorized by law, \$307,012,000, to remain available until expended: Provided, That of the funds provided, \$66,939,000 is for the forest inventory and analysis program.

STATE AND PRIVATE FORESTRY

For necessary expenses of cooperating with and providing technical and financial assistance to States, territories, possessions, and others, and for forest health management, including treatments of pests, pathogens, and invasive or noxious plants and for restoring and rehabilitating forests damaged by pests or invasive plants, cooperative forestry, and education and land conservation activities and conducting an international program as authorized, \$276,946,000, to remain available until expended, as authorized by law; and of which \$55,145,000 is to be derived from the Land and Water Conservation Fund.

NATIONAL FOREST SYSTEM  
(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of the Forest Service, not otherwise provided for, for management, protection, improvement, and utilization of the National Forest System, \$1,552,429,000, to remain available until expended, which shall include 50 percent of all moneys received during prior fiscal years as fees collected under the Land and Water Conservation Fund Act of 1965, as amended, in accordance with section 4 of the

Act (16 U.S.C. 4601-6a(i)) and of which \$2,000,000 may be made available to the Pest and Disease Revolving Loan Fund established by section 10205(b) of the Food, Conservation, and Energy Act of 2008 (16 U.S.C. 2104a(b)): Provided, That, through fiscal year 2014, the Secretary of Agriculture may authorize the expenditure or transfer of such sums as are necessary to the Secretary of the Interior for removal, preparation and adoption of excess wild horses and burros from National Forest System lands and for the performance of cadastral surveys to designate the boundaries of such lands: Provided further, That \$282,617,000 shall be made available for recreation, heritage, and wilderness.

#### CAPITAL IMPROVEMENT AND MAINTENANCE (INCLUDING TRANSFER OF FUNDS)

For necessary expenses of the Forest Service, not otherwise provided for, \$513,418,000, to remain available until expended, for construction, capital improvement, maintenance and acquisition of buildings and other facilities and infrastructure; and for construction, capital improvement, decommissioning, and maintenance of forest roads and trails by the Forest Service as authorized by 16 U.S.C. 532-538 and 23 U.S.C. 101 and 205: Provided, That \$50,000,000 shall be designated for urgently needed road decommissioning, road and trail repair and maintenance and associated activities, and removal of fish passage barriers, especially in areas where Forest Service roads may be contributing to water quality problems in streams and water bodies which support threatened, endangered or sensitive species or community water sources: Provided further, That up to \$40,000,000 of the funds provided herein for road maintenance shall be available for the decommissioning of roads, including unauthorized roads not part of the transportation system, which are no longer needed: Provided further, That no funds shall be expended to decommission any system road until notice and an opportunity for public comment has been provided on each decommissioning project: Provided further, That the decommissioning of unauthorized roads not part of the official transportation system shall be expedited in response to threats to public safety, water quality, or natural resources: Provided further, That funds becoming available in fiscal year 2010 under the Act of March 4, 1913 (16 U.S.C. 501) shall be transferred to the General Fund of the Treasury and shall not be available for transfer or obligation for any other purpose unless the funds are appropriated.

#### LAND ACQUISITION

For expenses necessary to carry out the provisions of the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 4601-4 through 11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the Forest Service, \$67,784,000, to be derived from the Land and Water Conservation Fund and to remain available until expended.

#### ACQUISITION OF LANDS FOR NATIONAL FORESTS SPECIAL ACTS

For acquisition of lands within the exterior boundaries of the Cache, Uinta, and Wasatch National Forests, Utah; the Toiyabe National Forest, Nevada; and the Angeles, San Bernardino, Sequoia, and Cleveland National Forests, California, as authorized by law, \$1,050,000, to be derived from forest receipts.

#### ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

For acquisition of lands, such sums, to be derived from funds deposited by State, county, or municipal governments, public school districts, or other public school authorities, and for au-

thorized expenditures from funds deposited by non-Federal parties pursuant to Land Sale and Exchange Acts, pursuant to the Act of December 4, 1967, as amended (16 U.S.C. 484a), to remain available until expended. (16 U.S.C. 4601-516-617a, 555a; Public Law 96-586; Public Law 76-589, 76-591; and 78-310).

#### RANGE BETTERMENT FUND

For necessary expenses of range rehabilitation, protection, and improvement, 50 percent of all moneys received during the prior fiscal year, as fees for grazing domestic livestock on lands in National Forests in the 16 Western States, pursuant to section 401(b)(1) of Public Law 94-579, as amended, to remain available until expended, of which not to exceed 6 percent shall be available for administrative expenses associated with on-the-ground range rehabilitation, protection, and improvements.

#### GIFTS, DONATIONS AND BEQUESTS FOR FOREST AND RANGELAND RESEARCH

For expenses authorized by 16 U.S.C. 1643(b), \$50,000, to remain available until expended, to be derived from the fund established pursuant to the above Act.

#### MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES

For necessary expenses of the Forest Service to manage Federal lands in Alaska for subsistence uses under title VIII of the Alaska National Interest Lands Conservation Act (Public Law 96-487), \$2,582,000, to remain available until expended.

#### WILDLAND FIRE MANAGEMENT (INCLUDING TRANSFERS OF FUNDS)

For necessary expenses for forest fire suppression activities on National Forest System lands, for emergency fire suppression on or adjacent to such lands or other lands under fire protection agreement, hazardous fuels reduction on or adjacent to such lands, and for emergency rehabilitation of burned-over National Forest System lands and water, \$1,817,637,000, to remain available until expended: Provided, That such funds including unobligated balances under this heading, are available for repayment of advances from other appropriations accounts previously transferred for such purposes: Provided further, That such funds shall be available to reimburse State and other cooperating entities for services provided in response to wildfire and other emergencies or disasters to the extent such reimbursements by the Forest Service for non-fire emergencies are fully repaid by the responsible emergency management agency: Provided further, That, notwithstanding any other provision of law, \$8,000,000 of funds appropriated under this appropriation shall be used for Fire Science Research in support of the Joint Fire Science Program: Provided further, That all authorities for the use of funds, including the use of contracts, grants, and cooperative agreements, available to execute the Forest and Rangeland Research appropriation, are also available in the utilization of these funds for Fire Science Research: Provided further, That funds provided shall be available for emergency rehabilitation and restoration, hazardous fuels reduction activities in the urban-wildland interface, support to Federal emergency response, and wildfire suppression activities of the Forest Service: Provided further, That of the funds provided, \$340,285,000 is for hazardous fuels reduction activities, \$11,500,000 is for rehabilitation and restoration, \$23,917,000 is for research activities and to make competitive research grants pursuant to the Forest and Rangeland Renewable Resources Research Act, as amended (16 U.S.C. 1641 et seq.), \$56,250,000 is for State fire assistance, \$9,000,000 is for volunteer fire assistance, \$17,252,000 is for forest health activities on Federal lands and

\$9,928,000 is for forest health activities on State and private lands: Provided further, That amounts in this paragraph may be transferred to the "State and Private Forestry", "National Forest System", and "Forest and Rangeland Research" accounts to fund State fire assistance, volunteer fire assistance, forest health management, forest and rangeland research, the Joint Fire Science Program, vegetation and watershed management, heritage site rehabilitation, and wildlife and fish habitat management and restoration: Provided further, That up to \$15,000,000 of the funds provided under this heading for hazardous fuels treatments may be transferred to and made a part of the "National Forest System" account at the sole discretion of the Chief of the Forest Service 30 days after notifying the House and the Senate Committees on Appropriations: Provided further, That the costs of implementing any cooperative agreement between the Federal Government and any non-Federal entity may be shared, as mutually agreed on by the affected parties: Provided further, That in addition to funds provided for State Fire Assistance programs, and subject to all authorities available to the Forest Service under the State and Private Forestry Appropriation, up to \$15,000,000 may be used on adjacent non-Federal lands for the purpose of protecting communities when hazard reduction activities are planned on national forest lands that have the potential to place such communities at risk: Provided further, That funds made available to implement the Community Forest Restoration Act, Public Law 106-393, title VI, shall be available for use on non-Federal lands in accordance with authorities available to the Forest Service under the State and Private Forestry Appropriation: Provided further, That the Secretary of the Interior and the Secretary of Agriculture may authorize the transfer of funds appropriated for wildland fire management, in an aggregate amount not to exceed \$10,000,000, between the Departments when such transfers would facilitate and expedite jointly funded wildland fire management programs and projects: Provided further, That of the funds provided for hazardous fuels reduction, not to exceed \$10,000,000, may be used to make grants, using any authorities available to the Forest Service under the State and Private Forestry appropriation, for the purpose of creating incentives for increased use of biomass from national forest lands: Provided further, That funds designated for wildfire suppression shall be assessed for cost pools on the same basis as such assessments are calculated against other agency programs.

#### COLLABORATIVE FOREST LANDSCAPE RESTORATION FUND

For expenses authorized by section 4003(f) of the Omnibus Public Land Management Act of 2009 (16 U.S.C. 7303(f)), \$10,000,000, to remain available until expended.

#### ADMINISTRATIVE PROVISIONS, FOREST SERVICE (INCLUDING TRANSFERS OF FUNDS)

Appropriations to the Forest Service for the current fiscal year shall be available for: (1) purchase of passenger motor vehicles; acquisition of passenger motor vehicles from excess sources, and hire of such vehicles; purchase, lease, operation, maintenance, and acquisition of aircraft from excess sources to maintain the operable fleet for use in Forest Service wildland fire programs and other Forest Service programs; notwithstanding other provisions of law, existing aircraft being replaced may be sold, with proceeds derived or trade-in value used to offset the purchase price for the replacement aircraft; (2) services pursuant to 7 U.S.C. 2225, and not to exceed \$100,000 for employment under 5 U.S.C. 3109; (3) purchase, erection, and alteration of buildings and other public improvements (7 U.S.C. 2250); (4) acquisition of land,

waters, and interests therein pursuant to 7 U.S.C. 428a; (5) for expenses pursuant to the Volunteers in the National Forest Act of 1972 (16 U.S.C. 558a, 558d, and 558a note); (6) the cost of uniforms as authorized by 5 U.S.C. 5901–5902; and (7) for debt collection contracts in accordance with 31 U.S.C. 3718(c).

Any appropriations or funds available to the Forest Service may be transferred to the Wildland Fire Management appropriation for wildland firefighting, emergency rehabilitation of burned-over or damaged lands or waters under its jurisdiction, and fire preparedness due to severe burning conditions upon notification of the Committees on Appropriations for the House of Representatives and Senate if the Secretary of Agriculture determines that all emergency fire suppression funds appropriated under the heading “Wildland Fire Management” will be fully obligated within 30 days.

Funds appropriated to the Forest Service shall be available for assistance to or through the Agency for International Development in connection with forest and rangeland research, technical information, and assistance in foreign countries, and shall be available to support forestry and related natural resource activities outside the United States and its territories and possessions, including technical assistance, education and training, and cooperation with United States and international organizations.

None of the funds made available to the Forest Service in this Act or any other Act with respect to any fiscal year shall be subject to transfer under the provisions of section 702(b) of the Department of Agriculture Organic Act of 1944 (7 U.S.C. 2257), section 442 of Public Law 106–224 (7 U.S.C. 7772), or section 10417(b) of Public Law 107–107 (7 U.S.C. 8316(b)).

None of the funds available to the Forest Service may be reprogrammed without the advance approval of the House and Senate Committees on Appropriations in accordance with the reprogramming procedures contained in title IV of this Act.

Not more than \$88,785,000 of funds available to the Forest Service shall be transferred to the Working Capital Fund of the Department of Agriculture and not more than \$19,400,000 of funds available to the Forest Service shall be transferred to the Department of Agriculture for Department Reimbursable Programs, commonly referred to as Greenbook charges. Nothing in this paragraph shall prohibit or limit the use of reimbursable agreements requested by the Forest Service in order to obtain services from the Department of Agriculture’s National Information Technology Center.

Funds available to the Forest Service shall be available to conduct a program of up to \$5,000,000 for priority projects within the scope of the approved budget, of which \$2,500,000 shall be carried out by the Youth Conservation Corps and \$2,500,000 shall be carried out under the authority of the Public Lands Corps Healthy Forests Restoration Act of 2005, Public Law 109–154.

Of the funds available to the Forest Service, \$4,000 is available to the Chief of the Forest Service for official reception and representation expenses.

Pursuant to sections 405(b) and 410(b) of Public Law 101–593, of the funds available to the Forest Service, up to \$2,000,000 may be advanced in a lump sum to the National Forest Foundation to aid conservation partnership projects in support of the Forest Service mission, without regard to when the Foundation incurs expenses, for administrative expenses or projects on or benefitting National Forest System lands or related to Forest Service programs: Provided, That, of the Federal funds made available to the Foundation, no more than \$200,000 shall be available for administrative expenses: Provided

further, That the Foundation shall obtain, by the end of the period of Federal financial assistance, private contributions to match on at least one-for-one basis funds made available by the Forest Service: Provided further, That the Foundation may transfer Federal funds to Federal or a non-Federal recipient for a project at the same rate that the recipient has obtained the non-Federal matching funds: Provided further, That authorized investments of Federal funds held by the Foundation may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States.

Pursuant to section 2(b)(2) of Public Law 98–244, \$2,650,000 of the funds available to the Forest Service shall be advanced to the National Fish and Wildlife Foundation in a lump sum to aid cost-share conservation projects, without regard to when expenses are incurred, on or benefitting National Forest System lands or related to Forest Service programs: Provided, That such funds shall be matched on at least a one-for-one basis by the Foundation or its sub-recipients: Provided further, That the Foundation may transfer Federal funds to a Federal or non-Federal recipient for a project at the same rate that the recipient has obtained the non-Federal matching funds.

Funds appropriated to the Forest Service shall be available for interactions with and providing technical assistance to rural communities and natural resource-based businesses for sustainable rural development purposes.

Funds appropriated to the Forest Service shall be available for payments to counties within the Columbia River Gorge National Scenic Area, pursuant to section 14(c)(1) and (2), and section 16(a)(2) of Public Law 99–663.

An eligible individual who is employed in any project funded under title V of the Older American Act of 1965 (42 U.S.C. 3056 et seq.) and administered by the Forest Service shall be considered to be a Federal employee for purposes of chapter 171 of title 28, United States Code.

Any funds appropriated to the Forest Service may be used to meet the non-Federal share requirement in section 502(c) of the Older American Act of 1965 (42 U.S.C. 3056(c)(2)).

Funds available to the Forest Service, not to exceed \$55,000,000, shall be assessed for the purpose of performing fire, administrative and other facilities maintenance. Such assessments shall occur using a square foot rate charged on the same basis the agency uses to assess programs for payment of rent, utilities, and other support services.

Notwithstanding any other provision of law, any appropriations or funds available to the Forest Service not to exceed \$500,000 may be used to reimburse the Office of the General Counsel (OGC), Department of Agriculture, for travel and related expenses incurred as a result of OGC assistance or participation requested by the Forest Service at meetings, training sessions, management reviews, land purchase negotiations and similar non-litigation related matters. Future budget justifications for both the Forest Service and the Department of Agriculture should clearly display the sums previously transferred and the requested funding transfers.

Funds provided to the Forest Service in this Act may be used for the purpose of expenses associated with primary and secondary schooling for the 2009–2010 school year of dependents of agency personnel stationed in Puerto Rico, at a cost not in excess of those authorized by the Department of Defense for that same area, when it is determined by the Chief of the Forest Service that public schools available in the locality are unable to provide adequately for the education of such dependents.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### INDIAN HEALTH SERVICE INDIAN HEALTH SERVICES

For expenses necessary to carry out the Act of August 5, 1954 (68 Stat. 674), the Indian Self-Determination Act, the Indian Health Care Improvement Act, and titles II and III of the Public Health Service Act with respect to the Indian Health Service, \$3,639,868,000, together with payments received during the fiscal year pursuant to 42 U.S.C. 238(b) and 238b for services furnished by the Indian Health Service: Provided, That funds made available to tribes and tribal organizations through contracts, grant agreements, or any other agreements or compacts authorized by the Indian Self-Determination and Education Assistance Act of 1975 (25 U.S.C. 450), shall be deemed to be obligated at the time of the grant or contract award and thereafter shall remain available to the tribe or tribal organization without fiscal year limitation: Provided further, That \$779,347,000 for contract medical care, including \$48,000,000 for the Indian Catastrophic Health Emergency Fund, shall remain available until expended: Provided further, That \$18,251,000 is provided for Headquarters operations and information technology activities and, notwithstanding any other provision of law, the amount available under this proviso shall be allocated at the discretion of the Director of the Indian Health Service: Provided further, That of the funds provided, up to \$32,000,000 shall remain available until expended for implementation of the loan repayment program under section 108 of the Indian Health Care Improvement Act: Provided further, That \$16,391,000 is provided for the methamphetamine and suicide prevention and treatment initiative and \$7,500,000 is provided for the domestic violence prevention initiative and, notwithstanding any other provision of law, the amounts available under this proviso shall be allocated at the discretion of the Director of the Indian Health Service and shall remain available until expended: Provided further, That funds provided in this Act may be used for annual contracts and grants that fall within two fiscal years, provided the total obligation is recorded in the year the funds are appropriated: Provided further, That the amounts collected by the Secretary of Health and Human Services under the authority of title IV of the Indian Health Care Improvement Act shall remain available until expended for the purpose of achieving compliance with the applicable conditions and requirements of titles XVIII and XIX of the Social Security Act, except for those related to the planning, design, or construction of new facilities: Provided further, That funding contained herein for scholarship programs under the Indian Health Care Improvement Act (25 U.S.C. 1613) shall remain available until expended: Provided further, That amounts received by tribes and tribal organizations under title IV of the Indian Health Care Improvement Act shall be reported and accounted for and available to the receiving tribes and tribal organizations until expended: Provided further, That, notwithstanding any other provision of law, of the amounts provided herein, not to exceed \$389,490,000 shall be for payments to tribes and tribal organizations for contract or grant support costs associated with contracts, grants, self-governance compacts, or annual funding agreements between the Indian Health Service and a tribe or tribal organization pursuant to the Indian Self-Determination Act of 1975, as amended, prior to or during fiscal year 2010, of which not to exceed \$5,000,000 may be used for contract support costs associated with new or expanded self-determination contracts, grants, self-governance compacts, or annual funding agreements: Provided further, That the Bureau

of Indian Affairs may collect from the Indian Health Service, tribes and tribal organizations operating health facilities pursuant to Public Law 93-638, such individually identifiable health information relating to disabled children as may be necessary for the purpose of carrying out its functions under the Individuals with Disabilities Education Act (20 U.S.C. 1400, et seq.): Provided further, That the Indian Health Care Improvement Fund may be used, as needed, to carry out activities typically funded under the Indian Health Facilities account.

#### INDIAN HEALTH FACILITIES

For construction, repair, maintenance, improvement, and equipment of health and related auxiliary facilities, including quarters for personnel; preparation of plans, specifications, and drawings; acquisition of sites, purchase and erection of modular buildings, and purchases of trailers; and for provision of domestic and community sanitation facilities for Indians, as authorized by section 7 of the Act of August 5, 1954 (42 U.S.C. 2004a), the Indian Self-Determination Act, and the Indian Health Care Improvement Act, and for expenses necessary to carry out such Acts and titles II and III of the Public Health Service Act with respect to environmental health and facilities support activities of the Indian Health Service, \$394,757,000, to remain available until expended: Provided, That notwithstanding any other provision of law, funds appropriated for the planning, design, construction, renovation or expansion of health facilities for the benefit of an Indian tribe or tribes may be used to purchase land on which such facilities will be located: Provided further, That not to exceed \$500,000 shall be used by the Indian Health Service to purchase TRANSAM equipment from the Department of Defense for distribution to the Indian Health Service and tribal facilities: Provided further, That none of the funds appropriated to the Indian Health Service may be used for sanitation facilities construction for new homes funded with grants by the housing programs of the United States Department of Housing and Urban Development: Provided further, That not to exceed \$2,700,000 from this account and the "Indian Health Services" account shall be used by the Indian Health Service to obtain ambulances for the Indian Health Service and tribal facilities in conjunction with an existing interagency agreement between the Indian Health Service and the General Services Administration: Provided further, That not to exceed \$500,000 shall be placed in a Demolition Fund, to remain available until expended, and be used by the Indian Health Service for the demolition of Federal buildings.

#### ADMINISTRATIVE PROVISIONS, INDIAN HEALTH SERVICE

Appropriations provided in this Act to the Indian Health Service shall be available for services as authorized by 5 U.S.C. 3109 at rates not to exceed the per diem rate equivalent to the maximum rate payable for senior-level positions under 5 U.S.C. 5376; hire of passenger motor vehicles and aircraft; purchase of medical equipment; purchase of reprints; purchase, renovation and erection of modular buildings and renovation of existing facilities; payments for telephone service in private residences in the field, when authorized under regulations approved by the Secretary; uniforms or allowances therefor as authorized by 5 U.S.C. 5901-5902; and for expenses of attendance at meetings that relate to the functions or activities of the Indian Health Service.

In accordance with the provisions of the Indian Health Care Improvement Act, non-Indian patients may be extended health care at all tribally administered or Indian Health Service facilities, subject to charges, and the proceeds along with funds recovered under the Federal

Medical Care Recovery Act (42 U.S.C. 2651-2653) shall be credited to the account of the facility providing the service and shall be available without fiscal year limitation. Notwithstanding any other law or regulation, funds transferred from the Department of Housing and Urban Development to the Indian Health Service shall be administered under Public Law 86-121, the Indian Sanitation Facilities Act and Public Law 93-638, as amended.

Funds appropriated to the Indian Health Service in this Act, except those used for administrative and program direction purposes, shall not be subject to limitations directed at curtailing Federal travel and transportation.

None of the funds made available to the Indian Health Service in this Act shall be used for any assessments or charges by the Department of Health and Human Services unless identified in the budget justification and provided in this Act, or approved by the House and Senate Committees on Appropriations through the reprogramming process.

Notwithstanding any other provision of law, funds previously or herein made available to a tribe or tribal organization through a contract, grant, or agreement authorized by title I or title V of the Indian Self-Determination and Education Assistance Act of 1975 (25 U.S.C. 450), may be deobligated and reobligated to a self-determination contract under title I, or a self-governance agreement under title V of such Act and thereafter shall remain available to the tribe or tribal organization without fiscal year limitation.

None of the funds made available to the Indian Health Service in this Act shall be used to implement the final rule published in the Federal Register on September 16, 1987, by the Department of Health and Human Services, relating to the eligibility for the health care services of the Indian Health Service until the Indian Health Service has submitted a budget request reflecting the increased costs associated with the proposed final rule, and such request has been included in an appropriations Act and enacted into law.

With respect to functions transferred by the Indian Health Service to tribes or tribal organizations, the Indian Health Service is authorized to provide goods and services to those entities on a reimbursable basis, including payments in advance with subsequent adjustment. The reimbursements received therefrom, along with the funds received from those entities pursuant to the Indian Self-Determination Act, may be credited to the same or subsequent appropriation account from which the funds were originally derived, with such amounts to remain available until expended.

Reimbursements for training, technical assistance, or services provided by the Indian Health Service will contain total costs, including direct, administrative, and overhead associated with the provision of goods, services, or technical assistance.

The appropriation structure for the Indian Health Service may not be altered without advance notification to the House and Senate Committees on Appropriations.

#### NATIONAL INSTITUTES OF HEALTH

##### NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES

For necessary expenses for the National Institute of Environmental Health Sciences in carrying out activities set forth in section 311(a) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, and section 126(g) of the Superfund Amendments and Reauthorization Act of 1986, \$79,212,000.

#### AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY

##### TOXIC SUBSTANCES AND ENVIRONMENTAL PUBLIC HEALTH

For necessary expenses for the Agency for Toxic Substances and Disease Registry (ATSDR) in carrying out activities set forth in sections 104(i) and 111(c)(4) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended; section 118(f) of the Superfund Amendments and Reauthorization Act of 1986 (SARA), as amended; and section 3019 of the Solid Waste Disposal Act, as amended, \$76,792,000, of which up to \$1,000 to remain available until expended, is for Individual Learning Accounts for full-time equivalent employees of the Agency for Toxic Substances and Disease Registry: Provided, That notwithstanding any other provision of law, in lieu of performing a health assessment under section 104(i)(6) of CERCLA, the Administrator of ATSDR may conduct other appropriate health studies, evaluations, or activities, including, without limitation, biomedical testing, clinical evaluations, medical monitoring, and referral to accredited health care providers: Provided further, That in performing any such health assessment or health study, evaluation, or activity, the Administrator of ATSDR shall not be bound by the deadlines in section 104(i)(6)(A) of CERCLA: Provided further, That none of the funds appropriated under this heading shall be available for ATSDR to issue in excess of 40 toxicological profiles pursuant to section 104(i) of CERCLA during fiscal year 2010, and existing profiles may be updated as necessary.

#### OTHER RELATED AGENCIES

##### EXECUTIVE OFFICE OF THE PRESIDENT

##### COUNCIL ON ENVIRONMENTAL QUALITY AND OFFICE OF ENVIRONMENTAL QUALITY

For necessary expenses to continue functions assigned to the Council on Environmental Quality and Office of Environmental Quality pursuant to the National Environmental Policy Act of 1969, the Environmental Quality Improvement Act of 1970, and Reorganization Plan No. 1 of 1977, and not to exceed \$750 for official reception and representation expenses, \$3,159,000: Provided, That notwithstanding section 202 of the National Environmental Policy Act of 1970, the Council shall consist of one member, appointed by the President, by and with the advice and consent of the Senate, serving as chairman and exercising all powers, functions, and duties of the Council.

##### CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

##### SALARIES AND EXPENSES

##### (INCLUDING TRANSFER OF FUNDS)

For necessary expenses in carrying out activities pursuant to section 112(r)(6) of the Clean Air Act, as amended, including hire of passenger vehicles, uniforms or allowances therefor, as authorized by 5 U.S.C. 5901-5902, and for services authorized by 5 U.S.C. 3109 but at rates for individuals not to exceed the per diem equivalent to the maximum rate payable for senior level positions under 5 U.S.C. 5376, \$11,195,000.

##### OFFICE OF NAVAJO AND HOPÍ INDIAN RELOCATION

##### SALARIES AND EXPENSES

For necessary expenses of the Office of Navajo and Hopi Indian Relocation as authorized by Public Law 93-531, \$8,000,000, to remain available until expended: Provided, That funds provided in this or any other appropriations Act are to be used to relocate eligible individuals and groups including evictees from District 6, Hopi-partitioned lands residents, those in significantly substandard housing, and all others certified as eligible and not included in the preceding categories: Provided further, That none

of the funds contained in this or any other Act may be used by the Office of Navajo and Hopi Indian Relocation to evict any single Navajo or Navajo family who, as of November 30, 1985, was physically domiciled on the lands partitioned to the Hopi Tribe unless a new or replacement home is provided for such household: Provided further, That no relocatee will be provided with more than one new or replacement home: Provided further, That the Office shall relocate any certified eligible relocatees who have selected and received an approved homesite on the Navajo reservation or selected a replacement residence off the Navajo reservation or on the land acquired pursuant to 25 U.S.C. 640d-10.

INSTITUTE OF AMERICAN INDIAN AND ALASKA  
NATIVE CULTURE AND ARTS DEVELOPMENT

PAYMENT TO THE INSTITUTE

For payment to the Institute of American Indian and Alaska Native Culture and Arts Development, as authorized by title XV of Public Law 99-498, as amended (20 U.S.C. 56 part A), \$8,300,000.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES

For necessary expenses of the Smithsonian Institution, as authorized by law, including research in the fields of art, science, and history; development, preservation, and documentation of the National Collections; presentation of public exhibits and performances; collection, preparation, dissemination, and exchange of information and publications; conduct of education, training, and museum assistance programs; maintenance, alteration, operation, lease agreements of no more than 30 years, and protection of buildings, facilities, and approaches; not to exceed \$100,000 for services as authorized by 5 U.S.C. 3109; and purchase, rental, repair, and cleaning of uniforms for employees, \$634,161,000, of which not to exceed \$19,117,000 for the instrumentation program, collections acquisition, exhibition reinstallation, the National Museum of African American History and Culture, and the repatriation of skeletal remains program shall remain available until expended; of which \$1,553,000 for fellowships and scholarly awards shall remain available until September 30, 2011; of which \$250,000 may be made available to carry out activities under the Civil Rights History Project Act of 2009 (20 U.S.C. 80s et seq.), to remain available until expended; and including such funds as may be necessary to support American overseas research centers: Provided, That funds appropriated herein are available for advance payments to independent contractors performing research services or participating in official Smithsonian presentations.

FACILITIES CAPITAL

For necessary expenses of repair, revitalization, and alteration of facilities owned or occupied by the Smithsonian Institution, by contract or otherwise, as authorized by section 2 of the Act of August 22, 1949 (63 Stat. 623), and for construction, including necessary personnel, \$125,000,000, to remain available until expended, of which not to exceed \$10,000 is for services as authorized by 5 U.S.C. 3109.

LEGACY FUND

(INCLUDING RESCISSION OF FUNDS)

For the purpose of developing a public-private partnership to facilitate the reopening of the Arts and Industries Building of the Smithsonian Institution, \$30,000,000, to remain available until expended, for repair, renovation and revitalization of the building: Provided, That such funds shall be matched on a 1:1 basis by private donations: Provided further, That major in-kind donations that contribute significantly to the redesign and purpose of the reopened building be considered to qualify toward the total private match: Provided further, That privately contrib-

uted endowments, which are designated for the care and renewal of permanent exhibitions installed in the Arts and Industries Building, be considered as qualifying toward the total private match: Provided further, That this appropriation may be made available to the Smithsonian Institution incrementally as private funding becomes available: Provided further, That any other provision of law that adjusts the overall amount of the Federal appropriation for this account shall also apply to the privately contributed requirement: Provided further, That the unobligated balances provided under this heading in Public Law 110-161 and Public Law 111-8 are hereby rescinded.

NATIONAL GALLERY OF ART

SALARIES AND EXPENSES

For the upkeep and operations of the National Gallery of Art, the protection and care of the works of art therein, and administrative expenses incident thereto, as authorized by the Act of March 24, 1937 (50 Stat. 51), as amended by the public resolution of April 13, 1939 (Public Resolution 9, Seventy-sixth Congress), including services as authorized by 5 U.S.C. 3109; payment in advance when authorized by the treasurer of the Gallery for membership in library, museum, and art associations or societies whose publications or services are available to members only, or to members at a price lower than to the general public; purchase, repair, and cleaning of uniforms for guards, and uniforms, or allowances therefor, for other employees as authorized by law (5 U.S.C. 5901-5902); purchase or rental of devices and services for protecting buildings and contents thereof, and maintenance, alteration, improvement, and repair of buildings, approaches, and grounds; and purchase of services for restoration and repair of works of art for the National Gallery of Art by contracts made, without advertising, with individuals, firms, or organizations at such rates or prices and under such terms and conditions as the Gallery may deem proper, \$110,746,000, of which not to exceed \$3,386,000 for the special exhibition program shall remain available until expended.

REPAIR, RESTORATION AND RENOVATION OF  
BUILDINGS

For necessary expenses of repair, restoration and renovation of buildings, grounds and facilities owned or occupied by the National Gallery of Art, by contract or otherwise, as authorized, \$54,499,000, to remain available until expended: Provided, That of this amount, up to \$40,000,000 shall be available for repair of the National Gallery's East Building facade: Provided further, That notwithstanding any other provision of law, a single procurement for the foregoing Major Critical Project may be issued which includes the full scope of the project: Provided further, That the solicitation and contract shall contain the clause "availability of funds" found at 48 CFR 52.232.18: Provided further, That contracts awarded for environmental systems, protection systems, and exterior repair or renovation of buildings of the National Gallery of Art may be negotiated with selected contractors and awarded on the basis of contractor qualifications as well as price.

JOHN F. KENNEDY CENTER FOR THE PERFORMING  
ARTS

OPERATIONS AND MAINTENANCE

For necessary expenses for the operation, maintenance and security of the John F. Kennedy Center for the Performing Arts, \$22,500,000.

CAPITAL REPAIR AND RESTORATION

For necessary expenses for capital repair and restoration of the existing features of the building and site of the John F. Kennedy Center for the Performing Arts, \$17,447,000, to remain available until expended.

WOODROW WILSON INTERNATIONAL CENTER FOR  
SCHOLARS

SALARIES AND EXPENSES

For expenses necessary in carrying out the provisions of the Woodrow Wilson Memorial Act of 1968 (82 Stat. 1356) including hire of passenger vehicles and services as authorized by 5 U.S.C. 3109, \$10,225,000.

NATIONAL FOUNDATION ON THE ARTS AND THE  
HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

For necessary expenses to carry out the National Foundation on the Arts and the Humanities Act of 1965, as amended, \$161,315,000 shall be available to the National Endowment for the Arts for the support of projects and productions in the arts, including arts education and public outreach activities, through assistance to organizations and individuals pursuant to section 5 of the Act, for program support, and for administering the functions of the Act, to remain available until expended: Provided, That funds appropriated herein shall be expended in accordance with sections 309 and 311 of Public Law 108-447.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

For necessary expenses to carry out the National Foundation on the Arts and the Humanities Act of 1965, as amended, \$161,315,000, to remain available until expended, of which \$147,015,000 shall be available for support of activities in the humanities, pursuant to section 7(c) of the Act and for administering the functions of the Act; and \$14,300,000 shall be available to carry out the matching grants program pursuant to section 10(a)(2) of the Act including \$9,500,000 for the purposes of section 7(h): Provided, That appropriations for carrying out section 10(a)(2) shall be available for obligation only in such amounts as may be equal to the total amounts of gifts, bequests, and devises of money, and other property accepted by the chairman or by grantees of the Endowment under the provisions of subsections 11(a)(2)(B) and 11(a)(3)(B) during the current and preceding fiscal years for which equal amounts have not previously been appropriated.

ADMINISTRATIVE PROVISIONS

None of the funds appropriated to the National Foundation on the Arts and the Humanities may be used to process any grant or contract documents which do not include the text of 18 U.S.C. 1913.

None of the funds appropriated to the National Foundation on the Arts and the Humanities may be used for official reception and representation expenses: Provided, That funds from nonappropriated sources may be used as necessary for official reception and representation expenses.

The Chairperson of the National Endowment for the Arts may approve grants of up to \$10,000, if in the aggregate this amount does not exceed 5 percent of the sums appropriated for grant-making purposes per year: Provided, That such small grant actions are taken pursuant to the terms of an expressed and direct delegation of authority from the National Council on the Arts to the Chairperson.

COMMISSION OF FINE ARTS

SALARIES AND EXPENSES

For expenses made necessary by the Act establishing a Commission of Fine Arts (40 U.S.C. 104), \$2,294,000: Provided, That the Commission is authorized to charge fees to cover the full costs of its publications, and such fees shall be credited to this account as an offsetting collection, to remain available until expended without further appropriation: Provided further, That

the Commission is authorized to accept gifts, including objects, papers, artwork, drawings and artifacts, that pertain to the history and design of the Nation's Capital or the history and activities of the Commission of Fine Arts, for the purpose of artistic display, study or education.

#### NATIONAL CAPITAL ARTS AND CULTURAL AFFAIRS

For necessary expenses as authorized by Public Law 99-190 (20 U.S.C. 956a), as amended, \$9,500,000: Provided, That no organization shall receive a grant in excess of \$650,000 in a single year.

#### ADVISORY COUNCIL ON HISTORIC PRESERVATION SALARIES AND EXPENSES

For necessary expenses of the Advisory Council on Historic Preservation (Public Law 89-665, as amended), \$5,908,000: Provided, That none of these funds shall be available for compensation of level V of the Executive Schedule or higher positions.

#### NATIONAL CAPITAL PLANNING COMMISSION SALARIES AND EXPENSES

For necessary expenses, as authorized by the National Capital Planning Act of 1952 (40 U.S.C. 71-71i), including services as authorized by 5 U.S.C. 3109, \$8,507,000: Provided, That one-quarter of 1 percent of the funds provided under this heading may be used for official reception and representational expenses associated with hosting international visitors engaged in the planning and physical development of world capitals.

#### UNITED STATES HOLOCAUST MEMORIAL MUSEUM HOLOCAUST MEMORIAL MUSEUM

For expenses of the Holocaust Memorial Museum, as authorized by Public Law 106-292 (36 U.S.C. 2301-2310), \$49,122,000, of which \$515,000 for the Museum's equipment replacement program, \$1,900,000 for the museum's repair and rehabilitation program and \$1,264,000 for the museum's exhibition design and production program shall remain available until expended.

#### PRESIDIO TRUST

##### PRESIDIO TRUST FUND

For necessary expenses to carry out title I of the Omnibus Parks and Public Lands Management Act of 1996, \$17,230,000 shall be available to the Presidio Trust, to remain available until expended.

#### DWIGHT D. EISENHOWER MEMORIAL COMMISSION SALARIES AND EXPENSES

For necessary expenses, including the costs of construction design, of the Dwight D. Eisenhower Memorial Commission, \$3,000,000, to remain available until expended.

#### CAPITAL CONSTRUCTION

For necessary expenses of the Dwight D. Eisenhower Memorial Commission for design and construction of a memorial in honor of Dwight D. Eisenhower, as authorized by Public Law 106-79, \$16,000,000, to remain available until expended.

### TITLE IV GENERAL PROVISIONS

#### LIMITATION ON CONSULTING SERVICES (INCLUDING TRANSFERS OF FUNDS)

SEC. 401. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive Order issued pursuant to existing law.

#### RESTRICTION ON USE OF FUNDS

SEC. 402. No part of any appropriation contained in this Act shall be available for any ac-

tivity or the publication or distribution of literature that in any way tends to promote public support or opposition to any legislative proposal on which Congressional action is not complete other than to communicate to Members of Congress as described in 18 U.S.C. 1913.

#### PROHIBITION ON USE OF FUNDS FOR PERSONAL SERVICES

SEC. 403. None of the funds provided in this Act to any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency except as otherwise provided by law.

#### DISCLOSURE OF ADMINISTRATIVE EXPENSES

SEC. 404. Estimated overhead charges, deductions, reserves or holdbacks from programs, projects, activities and subactivities to support government-wide, departmental, agency or bureau administrative functions or headquarters, regional or central operations shall be presented in annual budget justifications and subject to approval by the Committees on Appropriations. Changes to such estimates shall be presented to the Committees on Appropriations for approval.

#### GIANT SEQUOIA

SEC. 405. None of the funds in this Act may be used to plan, prepare, or offer for sale timber from trees classified as giant sequoia (*Sequoiadendron giganteum*) which are located on National Forest System or Bureau of Land Management lands in a manner different than such sales were conducted in fiscal year 2009.

#### MINING APPLICATIONS

SEC. 406. (a) None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to accept or process applications for a patent for any mining or mill site claim located under the general mining laws.

(b) EXCEPTIONS.—The provisions of subsection (a) shall not apply if the Secretary of the Interior determines that, for the claim concerned: (1) a patent application was filed with the Secretary on or before September 30, 1994; and (2) all requirements established under sections 2325 and 2326 of the Revised Statutes (30 U.S.C. 29 and 30) for vein or lode claims and sections 2329, 2330, 2331, and 2333 of the Revised Statutes (30 U.S.C. 35, 36, and 37) for placer claims, and section 2337 of the Revised Statutes (30 U.S.C. 42) for mill site claims, as the case may be, were fully complied with by the applicant by that date.

(c) REPORT.—On September 30, 2010, the Secretary of the Interior shall file with the House and Senate Committees on Appropriations and the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on actions taken by the Department under the plan submitted pursuant to section 314(c) of the Department of the Interior and Related Agencies Appropriations Act, 1997 (Public Law 104-208).

(d) MINERAL EXAMINATIONS.—In order to process patent applications in a timely and responsible manner, upon the request of a patent applicant, the Secretary of the Interior shall allow the applicant to fund a qualified third-party contractor to be selected by the Bureau of Land Management to conduct a mineral examination of the mining claims or mill sites contained in a patent application as set forth in subsection (b). The Bureau of Land Management shall have the sole responsibility to choose and pay the third-party contractor in accordance with the standard procedures employed by the Bureau of Land Management in the retention of third-party contractors.

#### CONTRACT SUPPORT COSTS

SEC. 407. Notwithstanding any other provision of law, amounts appropriated to or otherwise

designated in committee reports for the Bureau of Indian Affairs and the Indian Health Service by Public Laws 103-138, 103-332, 104-134, 104-208, 105-83, 105-277, 106-113, 106-291, 107-63, 108-7, 108-108, 108-447, 109-54, 109-289, division B and Continuing Appropriations Resolution, 2007 (division B of Public Law 109-289, as amended by Public Laws 110-5 and 110-28), and Public Laws 110-92, 110-116, 110-137, 110-149, 110-161, 110-329, 111-6, and 111-8 for payments for contract support costs associated with self-determination or self-governance contracts, grants, compacts, or annual funding agreements with the Bureau of Indian Affairs or the Indian Health Service as funded by such Acts, are the total amounts available for fiscal years 1994 through 2009 for such purposes, except that for the Bureau of Indian Affairs, tribes and tribal organizations may use their tribal priority allocations for unmet contract support costs of ongoing contracts, grants, self-governance compacts, or annual funding agreements.

#### FOREST MANAGEMENT PLANS

SEC. 408. Prior to October 1, 2010, the Secretary of Agriculture shall not be considered to be in violation of subparagraph 6(f)(5)(A) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604(f)(5)(A)) solely because more than 15 years have passed without revision of the plan for a unit of the National Forest System. Nothing in this section exempts the Secretary from any other requirement of the Forest and Rangeland Renewable Resources Planning Act (16 U.S.C. 1600 et seq.) or any other law: Provided, That if the Secretary is not acting expeditiously and in good faith, within the funding available, to revise a plan for a unit of the National Forest System, this section shall be void with respect to such plan and a court of proper jurisdiction may order completion of the plan on an accelerated basis.

#### PROHIBITION WITHIN NATIONAL MONUMENTS

SEC. 409. No funds provided in this Act may be expended to conduct preleasing, leasing and related activities under either the Mineral Leasing Act (30 U.S.C. 181 et seq.) or the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) within the boundaries of a National Monument established pursuant to the Act of June 8, 1906 (16 U.S.C. 431 et seq.) as such boundary existed on January 20, 2001, except where such activities are allowed under the Presidential proclamation establishing such monument.

#### INTERNATIONAL FIREFIGHTER COOPERATIVE AGREEMENTS

SEC. 410. In entering into agreements with foreign countries pursuant to the Wildfire Suppression Assistance Act (42 U.S.C. 1856m) the Secretary of Agriculture and the Secretary of the Interior are authorized to enter into reciprocal agreements in which the individuals furnished under said agreements to provide wildfire services are considered, for purposes of tort liability, employees of the country receiving said services when the individuals are engaged in fire suppression: Provided, That the Secretary of Agriculture or the Secretary of the Interior should not enter into any agreement under this provision unless the foreign country (either directly or through its fire organization) agrees to assume any and all liability for the acts or omissions of American firefighters engaged in firefighting in a foreign country: Provided further, That when an agreement is reached for furnishing fire fighting services, the only remedies for acts or omissions committed while fighting fires shall be those provided under the laws of the host country, and those remedies shall be the exclusive remedies for any claim arising out of fighting fires in a foreign country: Provided further, That neither the sending country nor

any legal organization associated with the firefighter shall be subject to any legal action whatsoever pertaining to or arising out of the firefighter's role in fire suppression.

#### CONTRACTING AUTHORITIES

SEC. 411. In awarding a Federal contract with funds made available by this Act, notwithstanding Federal Government procurement and contracting laws, the Secretary of Agriculture and the Secretary of the Interior (the "Secretaries") may, in evaluating bids and proposals, give consideration to local contractors who are from, and who provide employment and training for, dislocated and displaced workers in an economically disadvantaged rural community, including those historically timber-dependent areas that have been affected by reduced timber harvesting on Federal lands and other forest-dependent rural communities isolated from significant alternative employment opportunities: Provided, That notwithstanding Federal Government procurement and contracting laws the Secretaries may award contracts, grants or cooperative agreements to local non-profit entities, Youth Conservation Corps or related partnerships with State, local or non-profit youth groups, or small or micro-business or disadvantaged business: Provided further, That the contract, grant, or cooperative agreement is for forest hazardous fuels reduction, watershed or water quality monitoring or restoration, wildlife or fish population monitoring, or habitat restoration or management: Provided further, That the terms "rural community" and "economically disadvantaged" shall have the same meanings as in section 2374 of Public Law 101-624: Provided further, That the Secretaries shall develop guidance to implement this section: Provided further, That nothing in this section shall be construed as relieving the Secretaries of any duty under applicable procurement laws, except as provided in this section.

#### PROHIBITION ON USE OF FUNDS

SEC. 412. None of the funds made available by this or any other Act may be used in fiscal year 2010 for competitive sourcing studies and any related activities involving Forest Service personnel.

#### LIMITATION ON TAKINGS

SEC. 413. Unless otherwise provided herein, no funds appropriated in this Act for the acquisition of lands or interests in lands may be expended for the filing of declarations of taking or complaints in condemnation without the approval of the House and Senate Committees on Appropriations: Provided, That this provision shall not apply to funds appropriated to implement the Everglades National Park Protection and Expansion Act of 1989, or to funds appropriated for Federal assistance to the State of Florida to acquire lands for Everglades restoration purposes.

#### HUNTERS POINT ENVIRONMENTAL CLEANUP

SEC. 414. In addition to the amounts otherwise provided to the Environmental Protection Agency in this Act, \$8,000,000, to remain available until expended, is provided to EPA to be transferred to the Department of the Navy for cleanup activities at the Treasure Island Naval Station—Hunters Point Annex.

#### EXTENSION OF GRAZING PERMITS

SEC. 415. Section 325 of Public Law 108-108 is amended by striking "fiscal years 2004-2008" and inserting "fiscal year 2010."

#### ALASKA NATIVE HEALTH CARE SERVICES

SEC. 416. (a) Notwithstanding any other provision of law and until October 1, 2011, the Indian Health Service may not disburse funds for the provision of health care services pursuant to Public Law 93-638 (25 U.S.C. 450 et seq.) to any Alaska Native village or Alaska Native village

corporation that is located within the area served by an Alaska Native regional health entity.

(b) Nothing in this section shall be construed to prohibit the disbursement of funds to any Alaska Native village or Alaska Native village corporation under any contract or compact entered into prior to May 1, 2006, or to prohibit the renewal of any such agreement.

(c) For the purpose of this section, Eastern Aleutian Tribes, Inc., the Council of Athabaskan Tribal Governments, and the Native Village of Eyak shall be treated as Alaska Native regional health entities to which funds may be disbursed under this section.

#### TIMBER SALE REQUIREMENTS

SEC. 417. No timber sale in Region 10 shall be advertised if the indicated rate is deficit when appraised using a residual value approach that assigns domestic Alaska values for western red cedar. Program accomplishments shall be based on volume sold. Should Region 10 sell, in the current fiscal year, the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan in sales which are not deficit when appraised using a residual value approach that assigns domestic Alaska values for western red cedar, all of the western red cedar timber from those sales which is surplus to the needs of domestic processors in Alaska, shall be made available to domestic processors in the contiguous 48 United States at prevailing domestic prices. Should Region 10 sell, in the current fiscal year, less than the annual average portion of the decadal allowable sale quantity called for in the Tongass Land Management Plan in sales which are not deficit when appraised using a residual value approach that assigns domestic Alaska values for western red cedar, the volume of western red cedar timber available to domestic processors at prevailing domestic prices in the contiguous 48 United States shall be that volume: (1) which is surplus to the needs of domestic processors in Alaska; and (2) is that percent of the surplus western red cedar volume determined by calculating the ratio of the total timber volume which has been sold on the Tongass to the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan. The percentage shall be calculated by Region 10 on a rolling basis as each sale is sold (for purposes of this amendment, a "rolling basis" shall mean that the determination of how much western red cedar is eligible for sale to various markets shall be made at the time each sale is awarded). Western red cedar shall be deemed "surplus to the needs of domestic processors in Alaska" when the timber sale holder has presented to the Forest Service documentation of the inability to sell western red cedar logs from a given sale to domestic Alaska processors at a price equal to or greater than the log selling value stated in the contract. All additional western red cedar volume not sold to Alaska or contiguous 48 United States domestic processors may be exported to foreign markets at the election of the timber sale holder. All Alaska yellow cedar may be sold at prevailing export prices at the election of the timber sale holder.

#### COLORADO COOPERATIVE CONSERVATION AUTHORITY

SEC. 418. Section 331 of the Department of the Interior and Related Agencies Appropriations Act, 2001, as amended, is amended in subsection (e) by striking "September 30, 2009," and inserting "September 30, 2014."

#### NATIONAL COUNCIL ON THE ARTS MEMBERSHIP

SEC. 419. Section 6 of the National Foundation on the Arts and the Humanities Act of 1965 (Public Law 89-209, 20 U.S.C. 955), as amended, is further amended as follows:

(1) In the first sentence of subsection (b)(1)(C), by striking "14" and inserting in lieu thereof "18"; and

(2) In the second sentence of subsection (d)(1), by striking "Eight" and inserting in lieu thereof "Ten".

#### PROHIBITION ON USE OF FUNDS

SEC. 420. Notwithstanding any other provision of law, none of the funds made available in this Act or any other Act may be used to promulgate or implement any regulation requiring the issuance of permits under title V of the Clean Air Act (42 U.S.C. 7661 et seq.) for carbon dioxide, nitrous oxide, water vapor, or methane emissions resulting from biological processes associated with livestock production.

#### GREENHOUSE GAS REPORTING RESTRICTIONS

SEC. 421. Notwithstanding any other provision of law, none of the funds made available in this Act or any other Act may be used to implement any rule that requires mandatory reporting of greenhouse gas emissions from manure management systems emitting less than 25,000 tons of carbon dioxide equivalent per year.

#### CONGRESSIONALLY DIRECTED SPENDING

SEC. 422. Within the amounts appropriated in this Act, funding shall be allocated in the amounts specified for those projects and purposes delineated in the table titled "Congressionally Directed Spending" included in the committee report accompanying this Act.

#### PROHIBITION ON USE OF FUNDS

SEC. 423. None of the funds made available under this Act may be distributed to the Association of Community Organizations for Reform Now (ACORN) or its subsidiaries.

#### PROHIBITION ON USE OF WILDLAND FIRE MANAGEMENT STIMULUS FUNDS IN THE DISTRICT OF COLUMBIA

SEC. 424. Notwithstanding any other provision of law, none of the funds made available under the American Recovery and Reinvestment Act of 2009 (Public Law 111-5; 123 Stat. 115) for wildland fire management shall be used in the District of Columbia.

#### JUNGO DISPOSAL SITE EVALUATION

SEC. 425. Using funds made available under this Act, the Director of the United States Geological Survey may conduct an evaluation of the aquifers in the area of the Jungo Disposal Site in Humboldt County, Nevada (referred to in this section as the "site"), to evaluate—

(1) how long it would take waste seepage (including asbestos, discarded tires, and sludge from water treatment plants) from the site to contaminate local underground water resources;

(2) the distance that contamination from the site would travel in each of—

(A) 95 years; and

(B) 190 years;

(3) the potential impact of expected waste seepage from the site on nearby surface water resources, including Rye Patch Reservoir and the Humboldt River;

(4) the size and elevation of the aquifers; and

(5) any impact that the waste seepage from the site would have on the municipal water resources of Winnemucca, Nevada.

#### BUYOUT AND RELOCATION

SEC. 426. (a) As soon as practicable after the date of enactment of this Act, the Administrator of the Environmental Protection Agency (referred to in this section as the "Administrator") is encouraged to consider all appropriate criteria, including cost-effectiveness, relating to the buyout and relocation of residents of properties in Treece, Kansas, that are subject to risk relating to, and that may endanger the health of occupants as a result of risks posed by, chat (as defined in section 278.1(b) of title 40, Code of Federal Regulations (as in effect on the date of enactment of this Act)).

(b) For the purpose of the remedial action under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.) that includes permanent relocation of residents of Treece, Kansas, any such relocation shall not be subject to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.).

(c) Nothing in this section shall in any way affect, impede, or change the relocation or remediation activities pursuant to the Record of Decision Operable Unit 4, Chat Piles, Other Mine and Mill Waste, and Smelter Waste, Tar Creek Superfund Site, Ottawa County, Oklahoma (OKD980629844) issued by the Environmental Protection Agency Region 6 on February 20, 2008, or any other previous Record of Decision at the Tar Creek, Oklahoma, National Priority List Site, by any Federal agency or through any funding by any Federal agency.

SEC. 427. Section 404(c) of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7624(c)) is amended—

(1) in paragraph (1), by striking “Agricultural Research Service” and inserting “Department of Agriculture”; and

(2) by adding at the end the following:

“(3) AUTHORITY OF SECRETARY.—To carry out a cooperative agreement with a private entity under paragraph (1), the Secretary may rent to the private entity equipment, the title of which is held by the Federal Government.”

SEC. 428. It is the sense of the Senate that the Senate—

(1) supports the National Vehicle Mercury Switch Recovery Program as an effective way to reduce mercury pollution from electric arc furnaces used by the steel industry to melt scrap metal from old vehicles; and

(2) urges the founders of the Program to secure private sector financial support so that the successful efforts of the Program to reduce mercury pollution may continue.

#### NATIONAL FOREST FOUNDATION

SEC. 429. Section 403(a) of the National Forest Foundation Act (16 U.S.C. 583j–1(a)) is amended, in the first sentence, by striking “fifteen Directors” and inserting “not more than 30 Directors”.

#### CABIN USER FEES

SEC. 430. Notwithstanding any other provision of law, none of the funds made available by this Act shall be used to increase the amount of cabin user fees under section 608 of the Cabin User Fee Fairness Act of 2000 (16 U.S.C. 6207) to an amount beyond the amount levied on December 31, 2009.

#### FLAME FUND FOR EMERGENCY WILDFIRE SUPPRESSION ACTIVITIES

SEC. 431. (a) DEFINITIONS.—In this section:

(1) **FEDERAL LAND.**—The term “Federal land” means—

(A) public land, as defined in section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702);

(B) units of the National Park System;

(C) refuges of the National Wildlife Refuge System;

(D) land held in trust by the United States for the benefit of Indian tribes or members of an Indian tribe; and

(E) land in the National Forest System, as defined in section 11(a) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1609(a)).

(2) **FLAME FUND.**—The term “Flame Fund” means the Federal Land Assistance, Management, and Enhancement Fund established by subsection (b).

(3) **SECRETARIES.**—The term “Secretaries” means the Secretary of the Interior and the Secretary of Agriculture, acting jointly.

(4) **SECRETARY CONCERNED.**—The term “Secretary concerned” means—

(A) the Secretary of the Interior, with respect to Federal land described in subparagraphs (A), (B), (C), and (D) of paragraph (1); and

(B) the Secretary of Agriculture, with respect to National Forest System land.

(b) **ESTABLISHMENT OF FLAME FUND.**—There is established in the Treasury of the United States a fund to be known as the “Federal Land Assistance, Management, and Enhancement Fund”, consisting of—

(1) such amounts as are appropriated to the Flame Fund; and

(2) such amounts as are transferred to the Flame Fund under subsection (d).

(c) **FUNDING.**—

(1) **AUTHORIZATION OF APPROPRIATIONS.**—

(A) **IN GENERAL.**—There are authorized to be appropriated to the Flame Fund such amounts as are necessary to carry out this section.

(B) **CONGRESSIONAL INTENT.**—It is the intent of Congress that the amounts appropriated to the Flame Fund for each fiscal year should be not less than the combined average amount expended by each Secretary concerned for emergency wildfire suppression activities over the 5 fiscal years preceding the fiscal year for which amounts are appropriated.

(C) **AVAILABILITY.**—Amounts appropriated to the Flame Fund shall remain available until expended.

(2) **APPROPRIATION.**—There is appropriated to the Flame Fund, out of funds of the Treasury not otherwise appropriated, \$834,000,000.

(3) **SENSE OF CONGRESS ON DESIGNATION OF FLAME FUND APPROPRIATIONS AS EMERGENCY REQUIREMENT.**—It is the sense of Congress that further amounts appropriated to the Flame Fund should be designated as amounts necessary to meet emergency needs.

(4) **NOTICE OF INSUFFICIENT FUNDS.**—The Secretaries shall notify the congressional committees described in subsection (h)(2) if the Secretaries estimate that only 60 days worth of funding remains in the Flame Fund.

(d) **TRANSFER OF EXCESS WILDFIRE SUPPRESSION AMOUNTS INTO FLAME FUND.**—At the end of each fiscal year, the Secretary concerned shall transfer to the Flame Fund amounts that—

(1) are appropriated to the Secretary concerned for wildfire suppression activities for the fiscal year; but

(2) are not obligated for wildfire suppression activities before the end of the fiscal year.

(e) **USE OF FLAME FUND.**—

(1) **IN GENERAL.**—Subject to paragraphs (2), (3), and (4), amounts in the Flame Fund shall be available to the Secretary concerned to pay the costs of emergency wildfire suppression activities that are separate from amounts annually appropriated to the Secretary concerned for routine wildfire suppression activities.

(2) **DECLARATION REQUIRED.**—

(A) **IN GENERAL.**—Amounts in the Flame Fund shall be made available to the Secretary concerned only after the Secretaries issue a declaration that a wildfire suppression activity is eligible for funding from the Flame Fund.

(B) **DECLARATION CRITERIA.**—A declaration by the Secretaries under subparagraph (A) may be issued only if—

(i) in the case of an individual wildfire incident—

(I) the fire covers 300 or more acres; and

(II) the Secretaries determine that the fire has required an emergency Federal response based on the significant complexity, severity, or threat posed by the fire to human life, property, or resources; or

(ii) the cumulative costs of wildfire suppression activities for the Secretary concerned have exceeded the amounts appropriated to the Sec-

retary concerned for those activities (not including funds deposited in the Flame Fund).

(3) **TRANSFER OF AMOUNTS TO SECRETARY CONCERNED.**—After issuance of a declaration under paragraph (2) and on request of the Secretary concerned, the Secretary of the Treasury shall transfer from the Flame Fund to the Secretary concerned such amounts as the Secretaries determine are necessary for wildfire suppression activities associated with the declaration.

(4) **STATE, PRIVATE, AND TRIBAL LAND.**—Use of the Flame Fund for emergency wildfire suppression activities on State land, private land, and tribal land shall be consistent with any existing agreements in which the Secretary concerned has agreed to assume responsibility for wildfire suppression activities on the land.

(f) **TREATMENT OF ANTICIPATED AND PREDICTED ACTIVITIES.**—

(1) **IN GENERAL.**—Subject to subsection (e)(2)(B)(ii), the Secretary concerned shall continue to fund routine wildfire suppression activities within the appropriate agency budget for each fiscal year.

(2) **CONGRESSIONAL INTENT.**—It is the intent of Congress that funding made available through the Flame Fund be used—

(A) to supplement the funding otherwise appropriated to the Secretary concerned; and

(B) only for purposes in, and instances consistent with, this section.

(g) **PROHIBITION ON OTHER TRANSFERS.**—Any amounts in the Flame Fund and any amounts appropriated for the purpose of wildfire suppression on Federal land shall be obligated before the Secretary concerned may transfer funds from non-fire accounts for wildfire suppression.

(h) **ACCOUNTING AND REPORTS.**—

(1) **ACCOUNTING AND REPORTING SYSTEM.**—The Secretaries shall establish an accounting and reporting system for the Flame Fund that is compatible with existing National Fire Plan reporting procedures.

(2) **ANNUAL REPORT.**—Annually, the Secretaries shall submit to the Committee on Natural Resources, the Committee on Agriculture, and the Committee on Appropriations of the House of Representatives and the Committee on Energy and Natural Resources, the Committee on Indian Affairs, and the Committee on Appropriations of the Senate and make available to the public a report that—

(A) describes the use of amounts from the Flame Fund; and

(B) includes any recommendations that the Secretaries may have to improve the administrative control and oversight of the Flame Fund.

(3) **ESTIMATES OF WILDFIRE SUPPRESSION COSTS TO IMPROVE BUDGETING AND FUNDING.**—

(A) **IN GENERAL.**—Consistent with the schedule provided in subparagraph (C), the Secretaries shall submit to the committees described in paragraph (2) an estimate of anticipated wildfire suppression costs for the applicable fiscal year and the subsequent fiscal year.

(B) **PEER REVIEW.**—The methodology for developing the estimates under subparagraph (A) shall be subject to periodic peer review to ensure compliance with subparagraph (D).

(C) **SCHEDULE.**—The Secretaries shall submit an estimate under subparagraph (A) during—

(i) the first week of February of each year;

(ii) the first week of April of each year;

(iii) the first week of July of each year; and

(iv) if a bill making appropriations for the Department of the Interior and the Forest Service for the following fiscal year has not been enacted by September 1, the first week of September of each year.

(D) **REQUIREMENTS.**—An estimate of anticipated wildfire suppression costs shall be developed using the best available—

(i) climate, weather, and other relevant data; and

(ii) models and other analytic tools.

(i) **TERMINATION OF AUTHORITY.**—The authority under this section shall terminate at the end of the third fiscal year in which no appropriations to or withdrawals from the Flame Fund have been made for a period of 3 consecutive fiscal years.

#### COHESIVE WILDFIRE MANAGEMENT STRATEGY

SEC. 432. (a) **STRATEGY REQUIRED.**—Not later than 1 year after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture, acting jointly, shall submit to Congress a report that contains a cohesive wildfire management strategy, consistent with the recommendations described in recent reports of the Government Accountability Office regarding management strategies.

(b) **ELEMENTS OF STRATEGY.**—The strategy required by subsection (a) shall provide for—

(1) the identification of the most cost-effective means for allocating fire management budget resources;

(2) the reinvestment in non-fire programs by the Secretary of the Interior and the Secretary of Agriculture;

(3) employing the appropriate management response to wildfires;

(4) assessing the level of risk to communities;

(5) the allocation of hazardous fuels reduction funds based on the priority of hazardous fuels reduction projects;

(6) assessing the impacts of climate change on the frequency and severity of wildfire; and

(7) studying the effects of invasive species on wildfire risk.

(c) **REVISION.**—At least once during each 5-year period beginning on the date of the submission of the cohesive wildfire management strategy under subsection (a), the Secretaries shall revise the strategy submitted under that subsection to address any changes affecting the strategy, including changes with respect to landscape, vegetation, climate, and weather.

#### PROHIBITION ON NO-BID CONTRACTS AND GRANTS

SEC. 433. (a) Notwithstanding any other provision of this Act, none of the funds appropriated or otherwise made available by this Act may be—

(1) used to make any payment in connection with a contract not awarded using competitive procedures in accordance with the requirements of section 303 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253), section 2304 of title 10, United States Code, and the Federal Acquisition Regulation; or

(2) awarded by grant not subjected to merit-based competitive procedures, needs-based criteria, or other procedures specifically authorized by law to select the grantee or award recipient.

(b) This prohibition shall not apply to the awarding of contracts or grants with respect to which—

(1) no more than one applicant submits a bid for a contract or grant; or

(2) Federal law specifically authorizes a grant or contract to be entered into without regard for these requirements, including formula grants for States, or Federally recognized Indian tribes; or

(3) such contracts or grants are authorized by the Indian Self-Determination and Education and Assistance Act (Public Law 93-638, 25 U.S.C. 450 et seq., as amended) or by any other Federal laws that specifically authorize a grant or contract with an Indian tribe as defined in section 4(e) of that Act (25 U.S.C. 450b (e)).

SEC. 434. (a) Notwithstanding any other provision of this Act and except as provided in subsection (b), any report required to be submitted by a Federal agency or department to the Committee on Appropriations of either the Senate or the House of Representatives in this Act shall be posted on the public website of that agency upon receipt by the committee.

(b) Subsection (a) shall not apply to a report if—

(1) the public posting of the report compromises national security; or

(2) the report contains proprietary information.

SEC. 435. Section 1971(1) of the Omnibus Public Land Management Act of 2009 (16 U.S.C. 460www note; Public Law 111-11) is amended by striking “December 18, 2008” and inserting “September 20, 2009”.

#### TAR CREEK SUPERFUND SITE

SEC. 436. (a) **IN GENERAL.**—To expedite the cleanup of the Federal land and Indian land at the Tar Creek Superfund Site (referred to in this section as the “site”), any purchase of chat (as defined in section 278.1(b) of title 40, Code of Federal Regulations (or a successor regulation)), from the site shall be—

(1) counted at twice the purchase price of the chat; and

(2) eligible to be counted toward meeting the federally required disadvantaged business enterprise set-aside on federally funded projects.

(b) **RESTRICTED INDIAN OWNERS.**—Subsection (a) shall only apply if the purchase of chat is made from 1 or more restricted Indian owners or an Indian tribe.

(c) **APPLICABLE LAW.**—The use of chat acquired under subsection (a) shall conform with applicable laws (including the regulations for the use of chat promulgated by the Administrator of the Environmental Protection Agency).

This Act may be cited as the “Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010”.

#### AUTHORIZING MAJOR MEDICAL FACILITY LEASES FOR THE DEPARTMENT OF VETERANS AFFAIRS FOR FISCAL YEAR 2010

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. 1717.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 1717) to authorize major medical facility leases for the Department of Veterans Affairs for fiscal year 2010, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. AKAKA. Mr. President, today, with Ranking Member Richard Burr, I have introduced legislation that would authorize the Department of Veterans Affairs to proceed with certain medical facility leases for fiscal year 2010. These leases include facilities in nine different States, including South Carolina, Georgia, California, Alabama, Pennsylvania, North Carolina, Kansas, Texas, and Florida.

We are moving this bill at this time because I have been advised that VA can proceed with preliminary steps relating to these leases in advance of an appropriation, if authorization is in place. While I hope that the Senate will pass an appropriations bill for VA as soon as possible, this is something we can do today. I will soon introduce another bill to fully authorize VA's construction projects. In the meantime, I urge my colleagues to support this bill, which will enable VA to secure the space it needs to care for veterans from all conflicts.

Mr. REID. Mr. President, I ask unanimous consent that the bill be read three times and passed, the motion to reconsider be laid upon the table, there be no intervening action or debate, and any statements relating to the matter be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 1717) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 1717

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. AUTHORIZATION OF FISCAL YEAR 2010 MAJOR MEDICAL FACILITY LEASES.

(a) **IN GENERAL.**—The Secretary of Veterans Affairs may carry out the following fiscal year 2010 major medical facility leases at the locations specified, in an amount not to exceed the amount shown for that location:

(1) Anderson, South Carolina, Outpatient Clinic, in an amount not to exceed \$4,774,000.

(2) Atlanta, Georgia, Specialty Care Clinic, in an amount not to exceed \$5,172,000.

(3) Bakersfield, California, Community Based Outpatient Clinic, in an amount not to exceed \$3,464,000.

(4) Birmingham, Alabama, Annex Clinic and Parking Garage, in an amount not to exceed \$6,279,000.

(5) Butler, Pennsylvania, Health Care Center, in an amount not to exceed \$16,482,000.

(6) Charlotte, North Carolina, Health Care Center, in an amount not to exceed \$30,457,000.

(7) Fayetteville, North Carolina, Health Care Center, in an amount not to exceed \$23,487,000.

(8) Huntsville, Alabama, Outpatient Clinic Expansion, in an amount not to exceed \$4,374,000.

(9) Kansas City, Kansas, Community Based Outpatient Clinic, in an amount not to exceed \$4,418,000.

(10) Loma Linda, California, Health Care Center, in an amount not to exceed \$31,154,000.

(11) McAllen, Texas, Outpatient Clinic, in an amount not to exceed \$4,444,000.

(12) Monterey, California, Health Care Center, in an amount not to exceed \$11,628,000.

(13) Montgomery, Alabama, Health Care Center, in an amount not to exceed \$9,943,000.

(14) Tallahassee, Florida, Outpatient Clinic, in an amount not to exceed \$13,165,000.

(15) Winston-Salem, North Carolina, Health Care Center, in an amount not to exceed \$26,986,000.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Secretary of Veterans Affairs for fiscal year 2010 or the year in which funds are appropriated for the Medical Facilities account \$196,227,000 for the leases authorized in subsection (a).

#### EXTENDING PROGRAMS UNDER THE SMALL BUSINESS ACT AND THE SMALL BUSINESS INVESTMENT ACT OF 1958

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of H.R. 3614.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 3614) to provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. REID. Mr. President, I ask unanimous consent that a Landrieu amendment, which is at the desk, be agreed to, the bill, as amended, be read a third time and passed, and the motions to reconsider be laid upon the table; that there be no intervening action or debate, and any statements relating to this matter be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2556) was agreed to, as follows:

Strike sections 2 and 3.

The amendment was ordered to be engrossed, and the bill to be read a third time.

The bill (H.R. 3614), as amended, was read the third time and passed, as follows:

H.R. 3614

*Resolved*, That the bill from the House of Representatives (H.R. 3614) entitled "An Act to provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes.", do pass with the following amendment:

Strike sections 2 and 3.

#### UNANIMOUS CONSENT AGREEMENT—EXECUTIVE CALENDAR NO. 422

Mr. REID. Mr. President, as if in executive session, I ask unanimous consent that at 4:30 p.m., Tuesday, September 29, the Senate proceed to executive session to consider Calendar No. 422, the nomination of Jeffrey Viken, to be U.S. district judge; that there be 60 minutes of debate with respect to the nomination, with the time equally divided and controlled between the chairman and ranking member of the Judiciary Committee or their designees; that at 5:30 p.m., the Senate proceed to vote on confirmation of the nomination; that upon confirmation, the motion to reconsider be considered made and laid upon the table; that the President be immediately notified of the Senate's action, and the Senate then resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### EXECUTIVE SESSION

#### EXECUTIVE CALENDAR

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider Calendar Nos. 435 to and including 457, and all nominations on the Secretary's

desk in the Air Force, Army and Navy; that the nominations be confirmed en bloc; the motions to reconsider be laid on the table en bloc; that no further motions be in order; and that any statements relating to the nominations be printed in the RECORD; provided further that the President be immediately notified of the Senate's action and the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc, are as follows:

#### IN THE AIR FORCE

The following named officer for appointment in the United States Air Force to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

#### *To be lieutenant general*

Maj. Gen. Ralph J. Jodice, II

The following named officer for appointment in the United States Air Force to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

#### *To be lieutenant general*

Maj. Gen. William J. Rew

The following named officer for appointment in the United States Air Force to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

#### *To be lieutenant general*

Maj. Gen. Christopher D. Miller

#### IN THE ARMY

The following Army National Guard of the United States officer for appointment in the Reserve of the Army to the grade indicated under title 10, U.S.C., section 12211:

#### *To be major general*

Brig. Gen. Joseph B. DiBartolomeo

The following named officer for appointment in the United States Army to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

#### *To be lieutenant general*

Lt. Gen. Benjamin C. Freakley

The following named officer for appointment in the United States Army to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

#### *To be lieutenant general*

Lt. Gen. John D. Gardner

#### LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will now return to legislative session.

Mr. REID. Mr. President, I note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The VICE PRESIDENT. Without objection, it is so ordered.

#### CERTIFICATE OF APPOINTMENT

The PRESIDENT PRO TEMPORE. The Chair lays before the Senate a certificate of appointment to fill the vacancy created by the death of Senator Edward M. Kennedy of Massachusetts. The certificate, the Chair is advised, is in the form suggested by the Senate.

If there is no objection, the reading of the certificate will be waived, and it will be printed in full in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### THE COMMONWEALTH OF MASSACHUSETTS CERTIFICATE OF APPOINTMENT

*To the President of the Senate of the United States:*

This is to certify that pursuant to the power vested in me by the Constitution of the United States and the laws of the Commonwealth of Massachusetts, I, Deval L. Patrick, the Governor of said Commonwealth, do hereby appoint Paul Grattan Kirk, Jr. a Senator from said State to represent said State in the Senate of the United States until the vacancy therein caused by the death of Edward M. Kennedy, is filled by election as provided by law.

Witness: His excellency our governor Deval L. Patrick, and our seal hereto affixed at Boston, Massachusetts this Twenty-Fourth day of September, in the year of our Lord 2009.

By the governor:

DEVAL L. PATRICK,  
*Governor.*  
WILLIAM FRANCIS GALVIN,  
*Secretary of Commonwealth.*

[State Seal Affixed]

The VICE PRESIDENT. If the Senator-designate will now present himself to the desk, the Chair will administer the oath of office.

Mr. KIRK, escorted by Mr. KERRY, advanced to the desk of the Vice President; the oath prescribed by law was administered to him by the Vice President; and he subscribed to the oath in the Official Oath Book.

The VICE PRESIDENT. Congratulations, Senator.

(Applause, Senators rising.)

#### ORDERS FOR TUESDAY, SEPTEMBER 29, 2009

Mr. REID. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 11:30 a.m., Tuesday, September 29; that following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed to have expired, and the time for the two leaders be reserved for their use later in the day; that the Senate proceed to a period of morning business until 1:30 p.m., with Senators permitted to speak therein for up to 10 minutes each; that following morning business, the Senate resume consideration of H.R. 3326, the Defense appropriations bill.

The PRESIDING OFFICER (Mr. KAUFMAN). Without objection, it is so ordered.

#### PROGRAM

Mr. REID. Mr. President, under a previous order, the Senate will debate the nomination of Jeffrey Viken to be U.S. district judge for the District of South Dakota from 4:30 until 5:30 Tuesday. At 5:30 p.m., the Senate will proceed to vote on confirmation of the

nomination. That will be the first vote of the day.

#### ADJOURNMENT UNTIL TUESDAY, SEPTEMBER 29, 2009, AT 11:30 A.M.

Mr. REID. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the previous order.

There being no objection, the Senate, at 4 p.m., adjourned until Tuesday, September 29, 2009, at 11:30 a.m.

NAVY NOMINATIONS BEGINNING WITH TRACY D. EMERSON AND ENDING WITH DAVID K. SHELLINGTON, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON SEPTEMBER 17, 2009.

## EXTENSIONS OF REMARKS

### CONGRATULATING COMMUNITY CHRISTIAN CHURCH IN THEIR CELEBRATION OF THEIR 100TH ANNIVERSARY

**HON. MICHAEL C. BURGESS**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. BURGESS. Madam Speaker, I rise today to congratulate the Community Christian Church on their 100th anniversary. The church, located in Fort Worth, Texas, will be hosting centennial services on October 11, 2009.

Community Christian Church was founded in 1909 by the Reverend William M. Alphin, who held services before a 40-person congregation on the rented second floor of the local Masonic Hall. The Christian Church denomination today maintains a membership of nearly 700,000 across North America.

Through a commitment to service and fellowship, Community Christian Church continues to enrich the community of Fort Worth as well as the surrounding areas. The church has expanded and grown over time, acquiring their proud home on East Vickery St. in 1971. Under the leadership of current Pastor Rueben Thompson, the church remains committed to serving as a "bridge" between Christians of a diverse denominational background.

Madam Speaker, today it is my honor to recognize the Community Christian Church. They have demonstrated a level of commitment to community that is well appreciated, and it serves as an example for us all. It is a privilege to represent the congregation of Community Christian Church in the 26th District of Texas. I look forward to observing the positive impact they will continue to have on our communities at home and abroad.

### RECOGNIZING MICHAEL LAKIN

**HON. DAVID G. REICHERT**

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. REICHERT. Madam Speaker, I rise today in recognition of a true hero, Michael Lakin. Michael, a former student at Cascade Christian high school in Puyallup, Washington, and an Eagle Scout, saved his classmate Allen, a quadriplegic, from choking to death last November.

Madam Speaker, because of Allen's condition he was unable to draw attention to himself when he was choking while eating lunch with his mother, Cathy, and his friends at Cascade Christian. Thankfully, Michael noticed something wasn't right and sprang into action. He picked Allen out of his wheelchair and performed the Heimlich maneuver on him suc-

cessfully, no doubt saving a precious young life.

Michael graduated from Cascade Christian this past summer and is now attending classes at a local community college. I thank him for his courageous actions, I thank him for his service and determination as an Eagle Scout and I wish him the best in the future.

### PERSONAL EXPLANATION

**HON. YVETTE D. CLARKE**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Ms. CLARKE. Madam Speaker, on rollcall No. 735, had I been present, I would have voted "yes."

### IN HONOR OF CAROL WALTON, PRESIDENT OF THE LADIES AUXILIARY OF THE DELAWARE VOLUNTEER FIREMEN'S ASSOCIATION

**HON. MICHAEL N. CASTLE**

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. CASTLE. Madam Speaker, it is with great pleasure that I rise today to pay tribute to Carol Walton, the outgoing President of the Ladies Auxiliary of the Delaware Volunteer Firemen's Association (LADVFA).

Before her role as President of LADVFA, President Walton previously served as the President of the Ladies Auxiliary of the Elsmere Fire Company and the New Castle County Firefighters Association.

The LADVFA has grown significantly since its inception in 1937. Today, as a result of the leadership and hard work of President Walton and others before her, there are 56 auxiliaries in the State Association—19 from New Castle County, 17 from Kent County, and 20 from Sussex County. Nevertheless, the State Auxiliaries have contributed to the community with the same dedication since the very beginning. The LADVFA provides resources and assistance to burn centers, so-called "burned out families," and scholarship funds for firefighters. They also assist each of their communities with many other worthy causes.

When called to action during alarms, LADVFA assist the firemen by serving meals or snacks while the companies are fighting fires or assisting with another emergency. The services they provide both the fireman and the community are invaluable.

The LADVFA serve such an important function in our community, and to be as effective as possible, they must have dedicated and organized leaders. President Walton has been

exactly that over the past year and the State of Delaware and our nation are greatly indebted to her for all of her past and future hard work.

### A TRIBUTE TO CARMICHAEL, CALIFORNIA ON ITS 100TH ANNIVERSARY

**HON. DANIEL E. LUNGREN**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. DANIEL E. LUNGREN of California. Madam Speaker, I rise today to pay tribute to Carmichael, California, in honor of its 100th anniversary on September 26, 2009.

In 1909, Daniel Webster Carmichael bought 6½ square miles of land in a part of unpopulated Sacramento County—land that would grow to over 10 square miles and be known as Carmichael. It is said that he initially bought this remote mass of territory for \$30 per acre, with the intent to populate the area by selling 10-acre lots to American families moving west. Drawn by the lure of building citrus orchard fortunes, these divisions quickly sold. Three hundred families lived in Carmichael by 1927, and the population hit 2,000 by the time of the Great Depression.

In the ensuing decades, wheat, barley, alfalfa, peaches, and almonds were being grown interspersed with horse and poultry farms. Farmers have found success in good times and have battled through the tough ones, and have increasingly been sharing the community with an expanding suburban area. Once a collection of open properties, Carmichael now quarters businesses and families in addition to the traditional farm and occasional horse property.

Carmichael continues to be attractive to people from all walks of life because of its peaceful, family oriented community lifestyle—setting Carmichael in stark contrast to the more populous areas of Sacramento County. Although very close to a major metropolitan area, Carmichael boasts roaming wildlife such as deer, coyote, and wild turkey. The American River flowing through Carmichael accentuates the serenity and beauty of the region. Although many of the original 10-acre lots have been subdivided over the years, some still remain as a reminder of its rural and agricultural past.

Over the past 100 years, Carmichael has also been home to other advancements. Governor Ronald Reagan built a State mansion on California Avenue. Mark Spitz and Debbie Meyer based their successful Olympic training in the local country club. Also, Carmichael is proud to have the world's largest geranium club, and the "Fourth of July Elks Parade" is the longest enduring Independence Day procession in Northern California.

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Let me also say that one of the most admirable traits I find in Carmichael is the humble yet rich tradition and history it embraces.

Now, as Carmichael has grown to a population of 72,000, Carmichael continues its legacy as a home to traditional American life.

IN HONOR OF CITY MANAGER  
LARRY CUNNINGHAM

**HON. MICHAEL C. BURGESS**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. BURGESS. Madam Speaker, I rise today to honor the former City Manager Larry Cunningham for his years of service to the City of North Richland Hills and the North Texas region.

After a public service career that spans more than four decades, Larry Cunningham retired this year from his position as City Manager of North Richland Hills, which he has held since 1997. Prior to being appointed City Manager, he served as the North Richland Hills Finance Director, as well as City Manager in Lubbock, Texas.

During his tenure, City Manager Cunningham was known for his integrity, dedication, and enthusiasm. Under his leadership, North Richland Hills has remained financially stable and continued to grow, even during changes in the economy. The City's bond rating ranks it among the top 2 percent in the state and top 10 percent nationwide.

Larry Cunningham's service to the City includes a number of initiatives that improved the quality of life for the residents of North Richland Hills. Under his leadership, over 30 Parks and Recreation Facilities were constructed in the city. Mr. Cunningham also worked to improve public safety, enacting drainage improvements and flood control, upgrading Fire Department facilities, and supporting increased police patrol and crime prevention programs. He was also instrumental in the creation of the North Richland Hills' Art in Public Spaces Program, helping to create a distinctive community identity. Many of his projects will continue to develop long after Mr. Cunningham's retirement.

It is with great honor that I recognize City Manager Larry Cunningham for his years of hard work and dedication given to the citizens of North Richland Hills and North Texas. I am proud to represent him in Washington. His service sets a standard of devotion and true leadership, one that will endure.

FEDERAL SPENDING

**HON. JIM JORDAN**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. JORDAN of Ohio. Madam Speaker, if federal spending is not reigned in—we will find it more and more difficult to avoid the looming financial crisis that lies ahead. Getting a handle on the out-of-control spending in Washington D.C. is my top priority. Families and

businesses across the country are tightening their belts in these tough economic times, but Congress continues to spend like there is no tomorrow. For the sake of future generations, we have to restore a sense of fiscal responsibility to this town.

Over the August recess, the Congressional Budget Office, CBO, released an updated budget projection showing the federal government running deficits equal to \$8.7 trillion over the FY 2009–FY 2019 period.

The continued spending by this Congress is unacceptable and must be stopped. This is a path we should not have gone down; first it was the \$700 billion financial bailout, then the so-called \$787 billion stimulus. America's hardworking taxpayers deserve better—a Congress that is accountable and one that shows restraint.

During the debate on the FY 2010 Budget Resolution, I proposed a balanced budget. It was a first step in setting our nation's fiscal priorities and getting spending under control.

After the Congress adopted the budget resolution, I offered a modest next step by offering a series of "fiscal discipline amendments" to hold the line on runaway federal spending during the FY 2010 appropriations process. These amendments would force the government to live on last year's income.

Yesterday, I offered an amendment in the Rules Committee to the Continuing Resolution for FY 2010, in order to once again attempt to hold the line on spending by saving taxpayers \$84 billion. This amendment reflects our values. The American people are tired of this blank check and this bailout mentality that has got a hold of Washington. The people are sick of bailouts and rising deficits. And furthermore, they are tired of the piling debt that is crushing the future of our children and grandchildren.

AMENDMENT OFFERED BY MR. JORDAN OF OHIO

In section 101 (relating to rate for operations under CR)—

(1) insert "(a)" after the section designation; and

(2) insert at the end the following new subsections:

(b) Except as provided in subsection (c), whenever the amount that would be made available under subsection (a) for a project or activity is greater than the amount that was made available for such project or activity in appropriations Acts for fiscal year 2008, the project or activity shall be continued at a rate for operations as provided in such Acts and under the authority and conditions provided in such Acts.

(c) Whenever the amount that would be made available under subsection (a) for a project or activity covered by the Department of Defense Appropriations Act, 2010, the Department of Homeland Security Appropriations Act, 2010, or the Military Construction and Veterans Affairs Appropriations Act, 2010 is less than the amount that would be made available for such project or activity by such appropriations Acts as passed by the House of Representatives, the project or activity shall be continued at a rate for operations as provided in such appropriations Acts, as passed by the House.

In section 106(3) (relating to period covered by CR), strike the specified date and insert "September 30, 2010".

HONORING SENIOR SPECIAL  
AGENT AND RETIRED LIEUTENANT COLONEL KRAIG E. HANKINS

**HON. GEOFF DAVIS**

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. DAVIS of Kentucky. Madam Speaker, I rise today to honor Senior Special Agent and retired Lieutenant Colonel Kraig E. Hankins, a resident of Ashland, Kentucky.

After more than thirty years of Federal service, Senior Special Agent Hankins is retiring from the Bureau of Alcohol, Tobacco, Firearms and Explosives to accept the position of Operations Officer and Training Manager with the Tri-State Airport Authority in Huntington, West Virginia.

Senior Special Agent Hankins began his federal investigative career in Columbia, South Carolina, and has since held a number of positions both domestically and abroad.

He has served as a senior instructor and Chief of the Academy Operations Branch at the ATF National Academy in Glynco, Georgia. Senior Special Agent Hankins has also held positions in ATF Field Offices in New Hampshire, Guam, and most recently, in Ashland, Kentucky, where he worked with bomb squads and investigators throughout the Commonwealth as a Certified Explosives Specialist.

In 2008, Senior Special Agent Hankins retired from the USAF Reserve as a Lieutenant Colonel after thirty-four years of service. He served in Operation Enduring Freedom as the Senior Designated Military Officer, Office for the Administrative Review of Detention of Enemy Combatants at Guantanamo Bay, Cuba.

Madam Speaker, I ask my colleagues to join me in applauding Senior Special Agent Hankins for his distinguished career and offer our thanks for his service and sacrifice. I wish him and his family all the best as they enter this new chapter of their lives.

IN MEMORY OF JEFFERY R.  
"PUFF" ADAMS

**HON. IKE SKELTON**

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. SKELTON. Madam Speaker, it is with sadness that I inform the House of the death of Jeffery R. "Puff" Adams, Ray County's presiding commissioner.

Mr. Adams was born in Richmond, Missouri, in 1957. After graduating from Richmond High School, he became involved with many Richmond community activities. For example, he was a lifetime member of the Richmond All Sports Club. He also served on the Spartan Football Chain Gang for several years. Since 1990, he was responsible for painting the Spartan football field before every football game. Additionally, he was past president of the Richmond Little League Baseball program. He also coached several of Richmond's Parks

and Recreation girls' softball teams. In 2008, Jeff was named the grand marshal of the Richmond Spartan Homecoming Parade. He was a loyal alumni and lifetime supporter of the Richmond sports community.

In addition to his involvement with Richmond athletics, Mr. Adams served in a variety of community roles. He served on the Mid-America Regional Council for Presiding Commissioners Board, Ray County's 911 Board, Ray County's Rural Fire Department Board, and Ray County's Planning and Zoning Board. He was past president and served on the Shirkey Golf Club Board, and was very active on the Club House Building Association. Jeff was co-owner of Adams and Howell Floor Covering in Richmond.

Madam Speaker, Jeffery Adams was a respected leader in the Richmond community. I am certain that the members of the House will join me in extending their heartfelt condolences to his family and friends. He will be greatly missed.

---

#### REMEMBERING JIM BRADSHAW

---

#### HON. MICHAEL C. BURGESS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. BURGESS. Madam Speaker, I rise today to remember former Forth Worth City Councilman Jim Bradshaw, who helped to positively shape his community by serving its citizens.

Mr. Bradshaw graduated from Baylor University and soon after began his career in North Texas. He was elected Mayor Pro Tem by the city council, serving beside Hugh Parmer in 1977. Mr. Bradshaw resigned from the city council to challenge House Majority Leader Jim Wright, who remembered Bradshaw as being tough competition. Bradshaw also ran against Tom Vandergriff for the 26th District seat in the House of Representatives. He was not successful in the bid, but it did not deter him from continuing in public service.

Mr. Bradshaw's service to his community went far beyond his time spent on the city council. He sat on advisory boards for the Recovery Resource Council and the Betty Ford Center. Bradshaw's own experiences led him to help others battle addiction, and in 2005 President George W. Bush awarded him The President's Call to Service Award. Mr. Bradshaw also served on the board of the United Way, March of Dimes, and was the recipient of Bank of America's Local Hero Award for Neighborhood Excellence in 2006.

It is with great honor that I remember Mr. Jim Bradshaw for his tenacity in public service as well as his strong commitment to his community. We will always remember the example he set, and he will be greatly missed.

#### RECOGNIZING SOUTH TEXAS ACADEMIC RISING SCHOLARS

#### HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. CUELLAR. Madam Speaker, I rise today to recognize the leadership of the South Texas Academic Rising Scholars (STARS) organization. This nonprofit organization has been critical in helping local students obtain higher education at schools of their choosing.

The South Texas Academic Rising Scholars was established in October 2002, with the goal of making higher education accessible to the students of south Texas.

Higher education is the gateway to advancing one's future. As one of eight children born to migrant parents in the border town of Laredo, Texas, I value the significance education has in our lives. There's no doubt that my education has charted the course of my public service career. As a Hispanic-American, education helped me defy odds which still exist for millions of minorities today.

As we celebrate Hispanic Heritage Month we should recognize the role higher education plays in progressing minority communities and dissolving the disparities. With education comes opportunity; it's an undeniable equation that makes a difference in people's lives.

The STARS Student Scholarship Fund awards scholarships to qualified students of south Texas annually and partners with area colleges and universities to better serve the students of south Texas. To this day, STARS has been able to award thousands of scholarships to south Texas students. I join the organization in the belief that education is essential to the growth and enhancement of our community.

The success of STARS is not only due to those managing the program, but also in large part due to generous individuals, businesses, and organizations that support the organization. I am proud to say that 100 percent of every dollar contributed by sponsors goes toward student scholarships. The board of directors is comprised of a diverse group of community leaders dedicated to helping south Texas students achieve higher education.

This truly is a grassroots effort that has given thousands students in south Texas opportunities that wouldn't have existed otherwise.

Madam Speaker, I am honored to have had the time to recognize the goals and endeavors of the South Texas Academic Rising Scholars.

---

#### IN HONOR OF VERNON J. BRYANT ON THE OCCASION OF HIS RETIREMENT

#### HON. G.K. BUTTERFIELD

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. BUTTERFIELD. Madam Speaker, I rise today to honor my friend and constituent, Mr. Vernon J. Bryant, for nearly 30 years of public service to the people of the State of North Carolina in the Department of Correction.

Since joining the North Carolina Division of Community Corrections in 1981, Mr. Bryant has steadily advanced in his responsibilities. He currently serves in the Probation/Parole division of the Department of Correction as District Manager of District 6A where he manages about 30 corrections staff. Vernon Bryant began his career as a Court Intake Officer and performed admirably over the next 19 years as Probation and Patrol Officer, Intensive Officer and as Chief Probation and Parole Officer. It was in these capacities that I became most acquainted with Mr. Bryant while I served as a Superior Court Judge presiding over the Courts of District 6A. Mr. Bryant interacted with me on a daily basis and I came to believe that he is one of the finest corrections officials in North Carolina. He is a true professional.

Madam Speaker, the Speaker of the North Carolina House of Representatives appointed Vernon Bryant to the North Carolina Criminal Justice Education and Training Standards Commission, which is responsible for the issuance, suspension, and revocation of law enforcement and criminal justice officers' certification. He has also served as a member of the North Carolina Probation and Parole Association and Criminal Justice Partnership Advisory Board for Halifax County.

In addition to his work at the North Carolina Division of Community Corrections, Mr. Bryant provides community service through Church, boards, commissions and other activities. He is a member and Chairman of the Roanoke Rapids Board of Education. He was first appointed to the Board of Education 1997 and has served as Chairman of the board since 1999. Mr. Bryant also serves as a volunteer youth coach for basketball and soccer, serves on the Halifax Regional Medical Center Board of Directors as Vice Chairman, and is Board Chairman for the State Employee's Credit Union Advisory Board.

Vernon Bryant is a devout Christian and demonstrates his values and beliefs in every aspect of his life. He serves as a member of the Roanoke Rapids Recreation Department Advisory Board and is president and co-founder of Exodus of Youth, Inc., a volunteer nonprofit organization that mentors 75 at-risk youth in four northeastern North Carolina counties. Mr. Bryant continues to give countless hours to bettering his community and there is no doubt that he will continue his community service following his well deserved retirement.

Vernon Bryant is married to Sandra W. Bryant and is the father of two adult children, Kendel and Kevin, who are also distinguishing themselves with their educational pursuits.

Madam Speaker, on Monday, September 28, 2009, friends and colleagues will join together to celebrate Vernon Bryant's three decades of exemplary service to the people of Halifax County and the State of North Carolina.

I ask my colleagues to join me in wishing Mr. Vernon Bryant much success in his retirement and thank him for all his years of outstanding public service.

RECOGNIZING RICK SCHEWE,  
LABOR MAN OF THE YEAR FOR  
THE SOUTHWESTERN ILLINOIS  
CENTRAL LABOR COUNCIL

### HON. JERRY F. COSTELLO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. COSTELLO. Madam Speaker, I rise today to ask my colleagues to join me in recognizing Rick Schewe and congratulating him on being named the "George R. Badgley Labor Man of the Year" for the Southwestern Illinois Central Labor Council.

Rick Schewe comes from a union family. In fact, his father was honored with this same award in 1978. Upon joining the Laborers Union in 1973, Rick quickly assumed a leadership role within his local. He served as Secretary-Treasurer for 29 years, assistant business manager for nine years and business manager for 13 years. Rick has represented his local at seven International Conventions and currently is president of the Twelve Counties Southwestern Illinois Laborers District Council.

In addition to his many activities and responsibilities in representing the working men and women of our area, Rick has found time to volunteer within his community, including organizing blood drives and volunteering for the Salvation Army fund-raising campaign.

Madam Speaker, I ask my colleagues to join me in an expression of appreciation and congratulations to Mr. Rick Schewe, a true champion of organized labor.

CONGRATULATING NORTH CENTRAL TEXAS COLLEGE ON THEIR 85TH ANNIVERSARY

### HON. MICHAEL C. BURGESS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. BURGESS. Madam Speaker, I rise today to congratulate North Central Texas College on their 85th year of providing quality education. NCTC will be hosting an anniversary celebration on September 25, 2009.

North Central Texas College, originally Gainesville Junior College, was created when Randolph Lee Clark received authorization from the Gainesville City Council to create the college as part of the Gainesville school system on May 20, 1924.

By the 1950s the college had outgrown its original location in the old Newsome-Daugherty mansion and moved to a new location thanks to the support of citizens like W.T. Bonner, who not only voiced support for funding of the new campus but also donated land. The college eventually changed its name to Cooke County College and then, on June 1, 1994, the Board of Regents voted for the current name, North Central Texas College.

NCTC has seen steady enrollment increases over the years. Since 1980, the student population has nearly quadrupled to a current total of more than 6,000 students. With the addition of campuses in Corinth, Bowie

and Graham, the institution has positioned itself as a key provider of quality workforce education and training in areas such as nursing, law enforcement, agriculture, and computer sciences. The college also provides a foundation of academics to propel students to higher degrees.

The college is home to the Small Business Development Center which offers assistance and training to owners, managers and employees of area businesses. The Bowie campus houses the Oil and Gas Technology Center to help meet the technological demands of the energy industry. And with the new addition of the Career and Technology Center, students will be trained to rapidly adapt to ever changing industry needs.

This all gives North Central Texas College a significant role in the economic development of Cooke County and the North Texas region.

I am honored to represent North Central Texas College as part of the 26th District and I congratulate Dr. Eddie Hadlock, the faculty and students as they celebrate their 85th anniversary.

### PERSONAL EXPLANATION

### HON. KAY GRANGER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Ms. GRANGER. Madam Speaker, on rollcall Nos. 728, 730, 731, 732, and 733, I was absent from the House. Had I been present, I would have voted "nay" on all.

### HONORING COLE PELLETER

### HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. GRAVES. Madam Speaker, I proudly pause to recognize Cole Pelleter, a very special young man who has exemplified the finest qualities of citizenship and leadership by taking an active part in the Boy Scouts of America, Troop 66, and in earning the most prestigious award of Eagle Scout.

Cole Pelleter has been very active with his troop participating in many scout activities. Over the many years Cole Pelleter has been involved with scouting, he has not only earned numerous merit badges, but also the respect of his family, peers, and community.

Madam Speaker, I proudly ask you to join me in commending Cole Pelleter for his accomplishments with the Boy Scouts of America and for his efforts put forth in achieving the highest distinction of Eagle Scout.

### HONORING A SALUTE TO VETERANS AT ST. RICHARD PARISH

### HON. DANIEL LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. LIPINSKI. Madam Speaker, I rise today to honor St. Richard Parish in Chicago, Illinois.

Saint Richard Parish is hosting its tenth annual Salute to Veterans on Sunday, September 27, 2009.

This celebration, which honors all veterans living and deceased, was started ten years ago by a group of veterans led by Joseph Pierce, William Izquierdo, George Vescovi, and Daniel Costa. All members of the community have been invited to join in honoring the men and women who served our country in the past and those who continue to serve today.

Veterans groups and organizations from throughout the community will come together for this special celebration, which will include a Mass to be followed by a program honoring veterans. I look forward to the honor and privilege of participating in this event for our brave veterans.

Prior to the service, a special ceremony will be held in remembrance of all who have lost their lives in the Iraq and Afghanistan conflicts, including Pfc. Omar Torres, a member of the parish who was killed in Iraq in 2007.

I ask you to join me in honoring the members of St. Richard for their civic dedication and the veterans who will be celebrated for their incredible and selfless service to our nation.

IN HONOR OF WARREN JONES,  
PRESIDENT OF THE DELAWARE  
VOLUNTEER FIREMEN'S ASSOCIATION

### HON. MICHAEL N. CASTLE

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. CASTLE. Madam Speaker, it is with great pleasure that I rise today to pay tribute to Warren Jones, the outgoing President of the Delaware Volunteer Firemen's Association (DVFA).

President Jones' career began at the Elsmere Fire Company, where he rose to the rank of Chief and President while serving the town. President Jones' distinguished career did not stop there, however; he then went on to become President of the New Castle County Firefighters Association, as well. After moving from New Castle County to Rehoboth Beach, he became an active member of the Rehoboth Beach Volunteer Fire Company. His continued dedication to serving his community is an inspiration to all Delawareans.

This past January, President Jones had the honor of leading the DVFA contingent in the Inaugural Parade in Washington D.C. I commend President Jones on his exceptional career of service and dedication and I am glad that he had this once-in-a-lifetime opportunity.

Firefighters fulfill a vital need in our society, and to be as effective as possible, they must have dedicated and organized leaders. President Jones has been exactly that over the past year, and the State of Delaware and our nation are greatly indebted to him for all of his hard work.

RECOGNIZING BELLEVUE, WASHINGTON COCA-COLA FACILITY

**HON. DAVID G. REICHERT**

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. REICHERT. Madam Speaker, today I want to applaud the Coca-Cola facility, located in Bellevue, Washington, for their remarkable efforts and leadership in sustainability and conservation.

In August, I toured this Coca-Cola facility in my district in order to see for myself the extraordinary environmental efforts going on there. In May, the facility was the recipient of the Business Generator Recycler of the Year Award, presented by the Washington State Recycling Association, after finishing 2008 with a recycling rate of 99.7 percent! The tour was impressive, to say the least, and I am so proud to represent such a great example of corporate responsibility and stewardship.

I also understand Coca-Cola is celebrating Corporate Responsibility and Sustainability in Action week in Bellevue soon and I hope CEO John Brock and his employees will enjoy their visit to the Eighth District of Washington. I know the Coca-Cola Corporation and their facility in Bellevue will continue to provide sound environmental leadership and I thank them for their earnest investment in sustainability, stewardship and conservation.

RECOGNIZING LAWRENCE J. JENNINGS, HERNANDO COUNTY, FLORIDA

**HON. GINNY BROWN-WAITE**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Ms. GINNY BROWN-WAITE of Florida. Madam Speaker, I rise today to recognize Lawrence J. Jennings of Hernando County, Florida. After 36 years of dedicated service to Hernando County, Larry will retire this fall.

Throughout his tenure, Larry has been a dedicated steward of Hernando County. He has involved himself in the creation of numerous growth management regulations and comprehensive planning strategies to accommodate the rapid growth in the county. His resume alone makes him worthy of this proclamation: He has held the positions of Planning and Zoning Administrator; Deputy Director of the Development Department; Planning Director; Assistant County Administrator for Growth and Development Services; and the Director of Growth and Development for Hernando County. He will retire as the Deputy County Administrator for Hernando County.

However, it is his genuine ability to work with both the public and business communities, and numerous Federal, State, and local officials, including myself, which has brought me to the floor today.

I worked with Larry from 1988 to 1990 when he was the Planning and Zoning Administrator and again from 1990 to 1992 when I was the County Commissioner. I always found him to be thorough, incredibly accurate and, despite

his serious demeanor, he was quick to laugh at a good joke.

I wish him the very best of health and happiness in his retirement. However, I must take this opportunity to remind him that he is far too young to sit in a rocking chair.

COMMEMORATIVE CLASSIC FOOTBALL GAME BETWEEN JOHNSON C. SMITH UNIVERSITY AND LIVINGSTONE COLLEGE

**HON. MELVIN L. WATT**

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. WATT. Madam Speaker, on December 27, 1892 the first college football game between two historically black institutions of higher education was played in Salisbury, North Carolina. On October 3, 2009 the Livingstone College and Johnson C. Smith University football teams will extend this 117-year rivalry in the 2009 Commemorative Classic Football Game.

I rise to recognize and pay tribute to Livingstone College and Johnson C. Smith University as they prepare to participate in this historic game which is being held in my Congressional District.

Collegiate sports provide a backdrop for a multitude of life's lessons and a crucible in which many of society's leaders are shaped. To quote former Livingstone College president S.E. Duncan, "The claim that football engenders school spirit has seldom been challenged. For the stimulation of academic improvement, for its impact on the citizenship of our students and the outcomes of physical fitness, football comes increasingly to the attention for consideration . . . May we remember those who learned how to win and lose."

I wish continued success to Livingstone College and Johnson C. Smith University, and best of success in this year's game to Dr. Jimmy Jenkins, President of Livingstone College, and to Dr. Ronald Carter, President of Johnson C. Smith University. I am honored and privileged to represent these institutions and their outstanding scholars-athletes in Congress.

25TH ANNIVERSARY OF THE WAXMAN-HATCH ACT

**HON. HENRY A. WAXMAN**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. WAXMAN. Madam Speaker, twenty-five years ago, President Ronald Reagan signed the landmark Waxman-Hatch law, delivering generic drug competition to the American marketplace. Since that time, generic drugs have provided millions of American consumers with access to low-cost, yet safe and effective drugs. In the last decade alone, generics have saved consumers, businesses, and state and federal governments \$734 billion. American consumers fill more than six of every ten prescriptions with safe and effective generic

medicines. During these difficult economic times, generic pharmaceuticals are critical to assuring that patients continue to have access to lifesaving medicines. Making sure that Americans have access to, and can afford, life-saving medicines has been one of my chief goals as a Member of Congress, and I am proud of the success of generic competition in helping achieve that goal.

Since passage of the Hatch-Waxman law, we have seen a shift in the pharmaceutical marketplace to permit greater competition and innovation—a win-win for purchasers and manufacturers alike. As a result, millions of Americans have access to safe and affordable generic medicines and our health care bill is much lower than it otherwise would have been. There is still much more we can do to increase savings from generic drugs. We should not only celebrate the 25th anniversary of Hatch-Waxman, but we should use it as motivation to ensure there is real generic competition for biotech medications. Let us show Americans that we understand that they deserve access to affordable medicine and give them a pathway that provides reasonable incentives for innovation, but does not pose unnecessary barriers to competition.

PERSONAL EXPLANATION

**HON. YVETTE D. CLARKE**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Ms. CLARKE. Madam Speaker, on rollcall No. 718, had I been present, I would have voted "no."

IN HONOR OF REBY CARY

**HON. MICHAEL C. BURGESS**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. BURGESS. Madam Speaker, I rise today in recognition Reby Cary, a man who has contributed extensively to the Fort Worth community. His life achievements are being celebrated this month by family and friends at New Rising Star Baptist Church.

Mr. Cary's life has been one of patriotism, service and achievement. After graduating from I. M. Terrell High School, he earned a B.A. in History and Political Science at Prairie View A&M University. He started the path to a higher degree, but would first answer the call to duty. While forced to endure the numerous social inequalities of the time, Mr. Cary served ably and honorably as one of the first African American Radiomen First Class in the Coast Guard, supporting combat operations in the Pacific Ocean aboard the U.S.S. *Cambria* during World War II.

Mr. Cary returned to complete his Master of Science degree at Prairie View A&M University in 1948. He later participated in graduate studies at Texas Christian University and North Texas State University. He would then go on to educate future generations as an instructor at Dunbar High School and as a professor at numerous institutions. He served as

Dean of Personnel at McDonald College of Industrial Arts, and Associate Dean of Student Life and Director of Minority Affairs at the University of Texas in Arlington.

He also broke barriers in public service as the first African American on the Fort Worth ISD School Board, as well as serving as the Texas State Representative from District 95. Mr. Cary has also given back to his community through his service with many area organizations, including volunteering with the Boy Scouts, United Way, Rotary Club of Arlington, and President of the Fort Worth Metropolitan Black Chamber of Commerce. And through all of this, he also found time to be an accomplished author.

He continues to have an impact on the community through his insight and advice. Mr. Cary has always been available to take my phone calls and he has been a rich source of information and history regarding Tarrant County and the City of Fort Worth. He has a unique ability to bring the correct historical context to some of the more contentious debates today. His commitment to the community has continued through his daughter, Faith Ellis' active political and community advocacy in issues such as infant mortality and support for medical research.

It is with great honor that I recognize Reby Cary as a man who has served the Fort Worth community for over a half century as someone dedicated to the education and advancement of all. His is a legacy of service to the City of Fort Worth, the State of Texas and this great Nation, and one that will endure. I am proud to represent him the U.S. House of Representatives.

#### OBSERVATION OF NATIONAL HISPANIC HERITAGE MONTH

#### HON. KEN CALVERT

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. CALVERT. Madam Speaker, I rise today in recognition of National Hispanic Heritage Month. The observation of September as National Hispanic Heritage Month began in 1968 with the designation of Hispanic Heritage Week. It was expanded by President Ronald Reagan in 1988 to cover a 30-day period. Now, every year from September 15 to October 15, we proudly celebrate the histories, cultures and contributions of Americans whose ancestry includes Spain, Mexico, the Caribbean, and Central and South America.

The founding of the United States of America was predicated on the idea that all men are created equal and that America would be a place where anyone could achieve and succeed. That success should know no boundaries.

This year's theme for National Hispanic Heritage Month recognizes the role Hispanic Americans have played in making that dream a reality. Their strength and hard work, anchored by a deep love for family and country, has helped shape our society for the better.

I commend the proud history of all Hispanic Americans and ask that all Americans honor National Hispanic Heritage Month. The rich-

ness of Hispanic culture and the contributions of Hispanic Americans have made our country a better nation.

#### IN HONOR OF KEVIN WILSON, IN- COMING PRESIDENT OF THE DELAWARE VOLUNTEER FIRE- MEN'S ASSOCIATION

#### HON. MICHAEL N. CASTLE

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. CASTLE. Madam Speaker, it is with great pleasure that I rise today to pay tribute to Kevin Wilson, the incoming President of the Delaware Volunteer Firemen's Association (DVFA). President Wilson began his career at the Clayton Volunteer Fire Company No. 1, beginning as a junior member, and moving up to Chief before taking on leadership roles in Kent County and the State of Delaware.

President Wilson's life has been dedicated to protecting others. Along with his distinguished career in the Fire Service, President Wilson served with the Delaware State Police as a Trooper Medic. He is currently an investigator for the Delaware State Police's Sex Offender Division.

During the four decades that President Wilson has served his community, he has been recognized by his peers for heroic work. These honors include being named Clayton Fire Company Fireman of the Year in 2006 and co-winner of the State Fireman of the year in 1997.

I commend President Wilson on his exceptional career of tireless dedication and selflessness. DVFA is fortunate to have such a man filling this important role. I am confident that President Wilson's experience and leadership will help DVFA continue on the path of exceptional service for which they are known across our State.

#### CELEBRATING 125 YEARS OF MAUMEE VALLEY COUNTRY DAY SCHOOL

#### HON. MARCY KAPTUR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Ms. KAPTUR. Madam Speaker, I rise to recognize the 125th birthday celebration of Maumee Valley Country Day School in Toledo, Ohio. As noted in the school's history, "While the world has changed dramatically since the founding of our School in 1884, essential characteristics of our school have remained constant."

Since its founding in 1884, Maumee Valley has seen itself as "a warm, family-centered, comfortable environment that encourages passion and creativity in our exceptional student body." The school is built on the foundation of a visionary board, supportive parents, and the dedication and commitment of our talented faculty and staff, and has never lost focus on its core purpose, to provide the best educational opportunities for its students.

Maumee Valley Country Day School's original school was on North Summit Street in downtown Toledo and known as the Smead School for Girls. The school soon moved to the Judge John Fitch Homestead in Toledo's Old West End. The current school's Smead building was completed in 1934. Beginning in the 1950s, the school saw increasing construction and expansion to its present day. Now in the 21st Century, Maumee Valley embarks on new transformations to further develop education in the new century.

Maumee Valley Country Day School's mission is "to enable students to become enlightened, compassionate and contributing citizens of our global community, while preparing graduates for their best opportunities in higher education." Over three centuries, the school and its leadership, parents and students, have carried forth this mission. As they pause to mark this milestone 125th year celebration, I join the school families past and present in looking toward a bright future.

#### TRIBUTE TO ANNE WHITEMAN

#### HON. MICHAEL C. BURGESS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. BURGESS. Madam Speaker, I rise today in recognition of a brave American, Anne Whiteman. Anne was born September 5, 1956 to parents who met and married in Tübingen, Germany. Her father was born and raised in Germany and fought as a soldier in the German Army during WWII and was later held captive by the American Forces. During Anne's childhood, he recounted many fascinating stories that led to his love for America and his becoming a U.S. citizen.

Though Anne was born in Virginia she completed high school in Germany and worked at the American Consulate in Frankfurt. After college and various jobs she applied with the FAA in 1981 and was the first woman certified Air Traffic Controller to work at El Paso. In those days, pilots were not used to speaking with a female controller but she quickly earned their respect. She was selected for a position at DFW in 1984 where she started in the Tower but later moved downstairs to work in the Terminal Radar Approach Control, TRACON, radar room. Anne believes that her move to the TRACON gave her the best gift as it was there that she met her husband. No one thought they could survive working together every day but not only did they survive but they thrived. Anne was certified on all positions in February of 1986 and became the first female controller to certify at DFW TRACON.

Anne has worked many aircraft in distress and has assisted pilots as she grew in her knowledge of aircraft and skills. As a result, she was encouraged to bid on a supervisor's position and after much encouragement bid on a temporary supervisor detail and was selected for the 120 days in August 1985 and became hers permanently and the rest is history.

While Anne Whiteman received numerous awards throughout her career and became

recognized as a valued FAA team member, this all changed when the safety concerns she reported were compromised and covered up which led to her blowing the whistle. As a result, she was ostracized at the job she loved. During Anne's career, she has supervised or trained at least 30 air traffic controllers at the DFW Tower or in TRACON and was recognized by the Department of Transportation Inspector General who found her egregious reports were well-documented. Twice during a three-year period, these reports were submitted to the President. This reporting activity also led to her being awarded the Office of Special Counsel's 2005 Public Service Award and later sharing the Public Servant of the Year in 2008 for her contribution to air safety. She was also nominated for the 2006 Service to America medal while the reprisals continued along with her safety concerns. After some 30 years of service with the FAA, Anne Whiteman is no ordinary hero for she put her job and well-being on the line for what she believed was needed in order to protect the flying public.

As a Member of Congress it has been my honor to serve this valiant American who not only helped pave the way for women controllers but also serves as a courageous example in the protection of air travel and she did not flinch at such a great personal loss. This record serves to honor this service as she retires from the job she loves on September 3, 2009.

**A PROCLAMATION HONORING  
ABBY FROMAN FOR WINNING  
THE GIRLS DIVISION IV STATE  
SOFTBALL CHAMPIONSHIP**

**HON. ZACHARY T. SPACE**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. SPACE. Madam Speaker,

Whereas, Abby Froman showed hard work and dedication to the sport of softball; and

Whereas, Abby Froman was a supportive team player; and

Whereas, Abby Froman always displayed sportsmanship on and off of the field; now, therefore, be it

Resolved, that along with her friends, family, and the residents of the 18th Congressional District, I congratulate Abby Froman on winning the Girls' Division IV State Softball Championship. We recognize the tremendous hard work and sportsmanship she has demonstrated during the 2008–2009 softball season.

**IN MEMORY OF MR. JAMES H.  
DONNEWALD OF BREESE, ILLINOIS**

**HON. JOHN SHIMKUS**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. SHIMKUS. Madam Speaker, I rise today to honor the life of a distinguished public servant, devoted husband and loving father.

James Donnewald, a man who spent his career serving the people of Illinois as a legislator and state treasurer, passed away September 18th, at the age of 84.

From an early age, Mr. Donnewald had a desire to serve his country. Before beginning his career as a lawmaker, he volunteered for military service in both World War II and the Korean War, but was honorably discharged due to a heart murmur.

After returning from the service, Mr. Donnewald attended St. Louis University and later Lincoln College of Law. In 1960, he was elected to the Illinois state House of Representatives, where he served two terms. After serving as a Representative, James Donnewald was elected to the state Senate in 1964. Throughout his distinguished tenure, he garnered the respect of his colleagues rising to the office of assistant Democratic leader and chairman of the Reapportionment Committee.

In 1982, Mr. Donnewald was elected to one term as Illinois State Treasurer. After his time in public office, he continued to serve our community through his law practice in Breese, IL.

I extend my heartfelt condolences to Mr. Donnewald's daughter Jill, his sons Craig and Eric, his sisters Irene and Juanita and his five grandchildren. He was a respected member of his community and will be deeply missed.

**COMMENDING THE CLASS OF '59**

**HON. SAM FARR**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. FARR. Madam Speaker, Members of the House, I rise to commend an era that many Members of this body fondly remember.

It was the 1950s. This year, the last class of that era, students of the class of '59, celebrate their 50th high school reunions. I am one of those students, and I would like to submit for the RECORD the thoughts of a classmate—Lucinda Lloyd—on those formative years. It was a historic and poignant time for all of us.

Carmel High School Class of '59. That was our identity.

After leaving Sunset School, we entered the hallowed halls of Carmel High School as timid Freshmen. Progressing through the awkward Sophomore stage, we survived being Juniors until we ruled the school as mighty Seniors.

Ours was an age of innocence and happy days, unbeaten athletic teams, and scholastic success. We rocked around the clock, danced cheek-to-cheek to Unchained Melody, hung out at Konrad's, wore Bass Weejuns or Spaulding oxfords, congregated at the Youth Center, cheered our teams to victory, occupied the Senior Steps and looked forward to years of accomplishment. After all, we were told that the world was ours, all we had to do was go for it.

Leaving Carmel behind to forge our paths in the Big World, we attended colleges and universities, went to MPC, joined the military or began another career. Or we got married and had children. Some of us got divorced, while other marriages survived. Some of us distinguished ourselves in careers

and chosen fields of work. And some of us died.

Our common bonds of shared childhood experiences glued us together, more as cousins than classmates. Today we anticipate our 50th reunion with mature interest, warmed by the knowledge that we've softened the sharp edges that may have separated us, that we are more alike than different, that we can laugh at ourselves and with each other.

We've made it! We're adults with grown children who have children. We no longer care if our hair styles droop or frizz in the fog, that our loose clothing covers softened curves, or if we have a date for Saturday night. Accepting ourselves as we are has allowed us to accept everyone else, no matter what.

With warmth in our hearts, smiles on our faces and arms ready to hug, the Class of '59 reunites to remember old times, renew bonds of friendship and forge closer relationships for the coming years. The longer we live, the more we need one another.

Ours was a magic time in a magic place. It is with the perspective of age that we finally realize how lucky we were, how lucky we are. Let us give thanks and enjoy our time together. God bless America.

Go Padres! Forever friends, Class of '59.

**PERSONAL EXPLANATION**

**HON. DENNIS MOORE**

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. MOORE of Kansas. Madam Speaker, on July 17, 2009, I inadvertently voted "nay" on final passage of H.R. 3183, the Energy and Water Development and Related Agencies Appropriations Act of 2010. I should have voted "aye" as I strongly support the projects and programs funded through this important piece of legislation.

**A TRIBUTE TO SAFETY CENTER  
INCORPORATED, ON THEIR 75TH  
ANNIVERSARY**

**HON. DANIEL E. LUNGREN**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. DANIEL E. LUNGREN of California. Madam Speaker, I rise today in celebration of Safety Center Incorporated's 75th anniversary occurring on October 19, 2009, and in praise of their many contributions to the State of California. Safety Center Incorporated, originally established as the Sacramento Safety Council in 1934, was initially recognized by civic leaders "to combat (the) unprecedented wave of motor vehicle fatalities and injuries" in the Sacramento region. This was in reaction to the front page headline of the Sacramento Bee on October 8, 1934, which read, "Local auto deaths soar to 6."

Over the past 75 years, Safety Center Incorporated has expanded well beyond traffic safety programs and is now among the most respected providers of safety leadership and training throughout California and Nevada.

In just the past 5 years alone, SCI has trained 88,925 people amongst a diverse collection of programs. Children and developmentally disabled adults have been given

tours of 'Safetyville'—which is celebrating its 25th anniversary this year. Teens have been taught defensive driving and have been given an education in alcohol and drugs. Enthusiasts of all ages have completed basic and experienced rider motorcycle courses. Professionals have been certified for first aid, CPR, forklift operations, work zone safety, commercial construction, and other courses designed to provide "training solutions that fit" for a diverse array of occupations.

Throughout their history, SCI has been a dependable partner to the public by providing the assistance needed with the changing times. When the Federal Government passed the "Occupational Safety & Health Act of 1970" creating OSHA and authorizing the creation of the first mandatory safety standards for the nation—SCI was there to help lead the community in accountability and preparedness. When the State of California first mandated that drunken drivers attend remedial classes—SCI offered the first classes in the State to educate Californians.

Today, Safety Center Incorporated has locations throughout California. Along with the main campus in Sacramento, there are now campuses in Modesto, Citrus Heights, and Claremont.

I thank Safety Center Incorporated on behalf of my fellow Californians for the untold impact that they have had on the well-being of our home.

**TRIBAL LEADER OF THE TACHI  
YOKUT TRIBE, CHIEF CLARENCE  
ATWELL, JR.**

**HON. JIM COSTA**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. COSTA. Madam Speaker, I rise today to acknowledge the esteemed and cherished Tribal Leader of the Tachi Yokut Tribe, Chief Clarence Atwell, Jr., as he embarks upon his journey of retirement.

The Tachi Yokut Tribe, now 300 members strong, enjoys a rich California history, inhabiting the San Joaquin Valley for centuries. Chief Atwell has provided leadership, advice and spiritual guidance for his tribe and sister tribes across our great Nation for over 40 years.

Born in the early morning hours under a lone tree on the Rice Ranch, Clarence Atwell would grow to lead an extraordinary life. Raised by his grandmother on the reservation, Clarence spoke only his native language of Tachi. It was only when he began to attend school that he taught himself to learn and speak the English language. During his adolescent years, Clarence developed a strong passion for caring for the tribal elders. He would spend days hunting for food; sometimes walking several miles in order to bring the nourishment of rabbit, deer and fish to the elders. As he grew into a young man, his love of the land allowed him to work in the fields where he drove a tractor and worked from sunup to well beyond sundown each day.

Always strongly connected to his tribe, it was in his early 20s that he was first elected

Tribal Chairman, a position he would hold for over 40 years. Under the powerful and wise Tribal Leadership of Chief Atwell, the Tachi Yokut Tribe has prospered. The members have grown into self-sufficiency and they have worked hard for many years to grow their Tachi Palace in Lemoore from a small gaming facility into one of the San Joaquin Valley's top destinations. Tribal members now have access to housing, a particularly significant accomplishment, the elders receive lunch each day and the members have dental and medical care.

Renowned for his spiritual as well as his political leadership, the Kings County of California acknowledges Chief Atwell as an official Spiritual Leader. He has been blessed to perform countless life-changing ceremonies including weddings, baptisms and funerals. Chief Atwell is a Bear Clan Leader for California, one of the highest native spiritual honors afforded to any individuals. The Bears were part of the official inauguration ceremony of then California Lt. Governor Cruz Bustamante where they performed in full regalia at the State's Capitol. Chief Atwell has met many political leaders, including having had the honor to talk with Vice President Al Gore and President Bill Clinton at the White House. Certainly known for his candor and forthrightness, though always in a quiet manner, Chief Atwell had the occasion to meet Governor Schwarzenegger where he shared some very pointed comments, causing a national news story; a moment he remains proud of, on behalf of his tribe. Tribes across the country have come to count on Chief Atwell for his political savvy, keen knowledge and intense wisdom.

Wed to his sweetheart, Jeanette, Clarence and Jeanette's blended family includes sons, Rufus, Aub and Curtis and daughters Cheryl and Kimberly.

Chief Clarence Atwell, Jr., has endured much in his lifetime, and it is at this crossroads that I ask my colleagues to join me in acknowledging the fine deeds of Chief Clarence Atwell, Jr. and wish him and his family well as he embarks upon his retirement.

**HONORING EARLVILLE  
ELEMENTARY SCHOOL**

**HON. BRUCE L. BRALEY**

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. BRALEY of Iowa. Madam Speaker, I rise today to recognize the outstanding results achieved by Earlville Elementary School in Earlville, Iowa by being named a 2009 No Child Left Behind-Blue Ribbon School.

The program honors elementary, middle and high schools that are superior academically or that demonstrate dramatic gains in student achievement to high levels. Students at Earlville Elementary School ranked in the top 10 percent on state tests.

Earlville Elementary School is one of six Iowa Schools receiving the honor this year. This is a true credit to the staff and teachers who continually challenge students to want more and be better.

Madam Speaker, I am extremely proud of the accomplishments of Earlville Elementary School and its Principal, JoAnn Swinton. Earning this award shows strength and persistence and I am proud to serve these fine students in Congress.

**RECOGNIZING THE ONE HUNDRED  
FIFTH BIRTHDAY OF ROWENA  
ELLISON**

**HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize the one hundred fifth birthday of Rowena Ellison on September 25, 2009.

Rowena Ellison was born in Minnieville, Virginia at the Windsor Farm on September 25, 1904. Rowena was the fourth of eight children born to Luther Windsor and Minnie Alexander. She married Roy Ellison from Texas and moved to Alexandria, Virginia in 1936. Together they raised five children, each of whom graduated from George Washington High School. Rowena Windsor has 13 grandchildren and 16 great-grandchildren. Rowena was widowed in 1969. She continues to live in Alexandria with the help of her children.

**100TH ANNIVERSARY OF SALINAS  
PUBLIC LIBRARY, SUNDAY, SEP-  
TEMBER 27, 2009**

**HON. SAM FARR**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. FARR. Madam Speaker, I rise today to celebrate the 100th anniversary of the Salinas Public Libraries in Salinas, California. In 1907, the Salinas Civic Club received \$10,000 from Andrew Carnegie to create a public library. Over the next 2 years they raised another \$4,000, purchased a site and collected books from the Odd Fellows, the Women's Christian Temperance Union, and Daughters of the American West libraries. On September 5, 1909, the doors opened for the first time to the Carnegie Public Library.

A city-wide financial crisis in 2005 threatened closure of the library. This very real danger was nationally publicized and was featured in the movie *The Hollywood Librarian*. The residents of Salinas passed a measure to fund all library operations for 10 years. Today the Library Commission and Friends of the Salinas Public Library raise thousands of dollars for children's programs, and partner with other community organizations and foundations to ensure that the libraries remain open, giving needed services to the community.

All through this year the library celebrated the rich history of the people of Salinas, gathering and displaying over 5,000 historic photographs, paintings of old Salinas adobes, oral histories of prominent residents, historical papers, and other documents. The anniversary was the catalyst for public programs and exhibits of the memories of the people and

places of Salinas. The Centennial voices of children, youth and adults became part of the new collection of voices in the Library.

Madam Speaker, the three branches of the Salinas Library—John Steinbeck, Cesar Chavez and El Gabilan—encourage reading, and provide materials and services to help members of the community meet their personal, informational, educational, and cultural needs. This is the mission statement of the library, and the 42 dedicated employees more than live up to this goal. I know I speak for the whole House in saluting the community of Salinas on this joyous occasion.

#### PERSONAL EXPLANATION

### HON. TIM MURPHY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. TIM MURPHY of Pennsylvania. Madam Speaker, on rollcall No. 733 had I been present, I would have voted "no."

CONGRATULATING SAINT MARK  
MISSIONARY BAPTIST CHURCH  
AS THEY CELEBRATE THEIR 130-  
YEAR ANNIVERSARY

### HON. MICHAEL C. BURGESS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. BURGESS. Madam Speaker, I rise today to congratulate the Saint Mark Missionary Baptist Church on their 130-year anniversary. The church, located in McKinney, Texas, will be hosting anniversary services on October 9, 2009.

Saint Mark Missionary Baptist Church was founded in 1879 by Reverend Jones and Reverend Dick White, who conducted prayer services in the homes of their members, many of whom were freed American slaves.

Through a commitment to ministry and mission work, the church serves to enrich the community within its own congregation as well as the surrounding Dallas-Forth Worth areas. The church has undergone numerous expansions, helping them grow to provide more resources for their community. Recently they acquired over 2 acres in north Texas to accommodate a growing membership.

Madam Speaker, today it is my honor to recognize the Saint Mark Missionary Baptist Church. They have demonstrated a level of commitment to community that is well appreciated, and serves as an example for us all.

IN HONOR OF LORRAINE MADDEN,  
INCOMING PRESIDENT OF THE  
LADIES AUXILIARY OF THE  
DELAWARE VOLUNTEER FIRE-  
MEN'S ASSOCIATION

### HON. MICHAEL N. CASTLE

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. CASTLE. Madam Speaker, it is with great pleasure that I rise today to recognize Lorraine Madden, the incoming President of the Ladies Auxiliary of the Delaware Volunteer Firemen's Association (LADVFA).

President Madden has been a life-long member of the Bowers Fire Company Auxiliary. Like many other members of the Auxiliary and Fire Departments, President Madden's father was the Fire Chief, and her mother was President of the Auxiliary. It has been said that being part of these organizations is like being part of a family—in Lorraine Madden's case, this rings particularly true.

Prior to being elected to this new post, President Madden served as President of the Auxiliary at Bowers and was also the President of the Auxiliary to the Kent County Volunteer Firemen's Association. Her record of service and leadership is commendable, and I believe her worthy of the honor of holding the presidential office.

The LADVFA serves such an important function in our community, and to be as effective as possible, they must have dedicated and organized leaders. I have every confidence that President Madden will provide the LADVFA the leadership it requires and is known for. I wish her the very best in her new role.

#### PERSONAL EXPLANATION

### HON. KAY GRANGER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Ms. GRANGER. Madam Speaker, on rollcall Nos. 727, 729, & 734, I was absent from the House.

Had I been present, I would have voted "yea" on all.

HONORING RONALD BOEHM ON HIS  
INSTALLATION AS COMMANDER  
OF AMERICAN LEGION WILLIAM  
MCKINLEY POST 231

### HON. DANIEL LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 25, 2009*

Mr. LIPINSKI. Madam Speaker, I rise today to honor Commander Ronald Boehm on the occasion of his installation as Commander of American Legion William McKinley Post 231.

Ronald Boehm has served as Commander of Post 231 eight times and his exemplary service is a model of leadership and devotion. In the summer of 2007, Commander Boehm aided in the construction of a beautiful and moving monument to all war veterans, especially those from Post 231 who gave the ultimate sacrifice for our nation. This monument sits outside the McKinley Post and is visible to all who pass by on 35th Street.

In 2001, as Commander, Ronald Boehm led a fundraising effort for the widows and orphans of policemen and firefighters. The fundraiser was a great success and amassed over \$10,000 for the cause.

Even outside of his work with the American Legion, Ronald Boehm has dedicated his life to the service of others, and recently retired after 40 years as a Chicago firefighter. His outstanding civic service was recognized this year by the McKinley Park Civic Association, which named Ronald Boehm "Man of the Year."

Today, I ask my colleagues to join me in recognizing the years of exceptional service and dedication of Commander Ronald Boehm. We acknowledge his service to our nation and to his community, and we express our gratitude.

**SENATE—Tuesday, September 29, 2009**

The Senate met at 11:30 a.m. and was called to order by the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York.

**PRAYER**

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal God, who reads our hearts and knows our motives, You are the source of our being and the goal of our striving, hallowed be Your Name. Inspire our Senators to keep within the grasp of Your firm hands the threads of this day's words and deeds. May they seek Your will throughout this day and permit You to transfigure and redeem even their disappointments and setbacks. As they face perplexing issues of state, may the strength of each be as the strength of 10 because of pure motives. May all that our lawmakers do and are today be so obviously an expression of Your truth that they can be confident of receiving the smile of Your approval.

We pray in Your sacred Name. Amen.

**PLEDGE OF ALLEGIANCE**

The Honorable KIRSTEN E. GILLIBRAND led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

**APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE**

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The assistant legislative clerk read the following letter:

U.S. SENATE,  
PRESIDENT PRO TEMPORE,  
Washington, DC, September 29, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York, to perform the duties of the Chair.

ROBERT C. BYRD,  
President pro tempore.

Mrs. GILLIBRAND thereupon assumed the chair as Acting President pro tempore.

**RECOGNITION OF THE MAJORITY LEADER**

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

**SCHEDULE**

Mr. REID. Madam President, following leader remarks, the Senate will be in morning business until 1:30 today. Senators are permitted to speak during that period of time for up to 10 minutes each. Following that morning business, the Senate will resume consideration of the Defense appropriations bill.

At 4:30 today, the Senate will turn to executive session to debate the nomination of Jeffrey Viken to be U.S. district judge for the District of South Dakota. At 5:30 today, we will vote on the confirmation of that nomination.

**DEFENSE APPROPRIATIONS**

Mr. REID. Madam President, this afternoon we will begin work on the Defense appropriations bill, as I announced. The bill provides \$636 billion in new discretionary authority for the Department of Defense, including more than \$128 billion in funding for overseas contingency operations.

This is a good bill. It provides funding to grow the Army by 22,000 soldiers, provides \$108 billion for procurement of new equipment that our men and women in the military badly need as a result of the equipment having been damaged, destroyed, and worn out in Iraq and other places. It also provides for a modification of tactical vehicles to better protect our forces in battle.

In Nevada, there are significant contributions being made, as we speak, to the wars in Iraq and Afghanistan, with more than 700 Nevada Guard men and women in combat today. Because the desert terrain in Nevada is similar to that in Iraq and Afghanistan, many of our Nation's warriors prepare for their deployment in Nevada. The Naval Air Station in Fallon, in northern Nevada, is the home to the Navy's preeminent strike and air warfare center, which includes the Navy Fighter Weapons School, better known as Top Gun. Naval Air Station Fallon also houses the Strike Warfare Center and the Carrier Airborne Early Warning Weapons School.

If you are a Navy fighter pilot, the only training that allows you to have, in effect, a Ph.D. in flying the Navy's top fighter planes is going to Fallon. Hawthorne Ammunition Depot has been in existence since the late 1920s as a result of a huge explosion of an ammunition facility in New Jersey. Since the late 1920s, this base—in very arid, dry, north-central Nevada—serves as the staging area for conventional bombs, rockets, and ammunition, a role it has filled since World War II.

Creech Air Force Base, located about 35 miles north of Las Vegas, employs

the combat-ready Unmanned Aircraft System or what we call the drones. It is known as the Joint Unmanned Aircraft System Center of Excellence. It is from that facility that the strikes take place in Iraq and Afghanistan; that is where the people on the ground actually do the work that allows these vehicles to do their damage, wherever they are designated to go.

Finally, Nellis Air Force Base, outside Las Vegas, home of the first dedicated air warfare and later air-ground training facility, continues to provide advanced air combat training for U.S. and allied forces. This is the home of the Thunderbirds.

The fiscal year ends tomorrow. We need to pass this Defense bill to ensure these men and women in uniform—our soldiers, marines, sailors, air men and women—have every resource they need to successfully carry out their mission. Whether stationed in Nevada or on one of our many bases around the world, all America's troops are depending on us to do something and do it quickly.

The managers of this bill, Senators INOUE and COCHRAN, were here last Thursday and Friday. They are back this afternoon, ready to complete action on this legislation. This is an extremely important piece of legislation. The Senate needs to act on it very quickly so we can get to conference and minimize the time the Department of Defense has to operate on a stop-gap continuing resolution.

I hope people who have amendments to offer will offer them. We have already had 2 days to offer amendments. We have two of the most experienced managers in the Senate with Senators INOUE and COCHRAN. I hope people would offer their amendments because we are not going to be on this bill all week. We are going to get off this as soon as we can.

**RECOGNITION OF THE REPUBLICAN LEADER.**

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

**DEFENSE APPROPRIATIONS**

Mr. McCONNELL. Madam President, this afternoon we resume consideration of the Defense appropriations bill, and among our most immediate concerns are the protection of our troops and allies in Afghanistan and the success of our mission there.

The President's pick to lead our efforts in Afghanistan, GEN Stanley McChrystal, has made clear that more

forces are necessary to accomplish the mission. And while the administration has not yet reacted to General McChrystal's report, in my view, the President must soon explain to the American people his reasons either for accepting The McChrystal Plan or for taking a different course.

Timing is important. A failure to act decisively in response to General McChrystal's strategy, and his anticipated request for additional forces, could serve to undermine some of the good decisions the President has made on national security.

That said, no President decides to commit troops lightly; all such decisions have far-reaching consequences. And that is why General McChrystal and General Petraeus should also come to Washington to explain to Congress and to the American people how their strategy will work. A counter-insurgency strategy will require a significant investment in time, troops, and resources. We need an explanation from our generals why that investment is needed.

The recent disruption of an alleged al-Qaida plot against America was a reminder to all of us of the seriousness and urgency of our efforts in Afghanistan. There should be no doubt that al-Qaida remains a serious threat. We cannot allow al-Qaida to establish a safe haven in the very place where it plotted and planned the 9/11 attacks.

The Taliban is gaining ground in Afghanistan. And our commanders in the field are in the best position to tell us what is required to complete their mission. General McChrystal says that without adequate resources, we will likely fail. In my view, we should listen to his advice. And hopefully, we will be able to get that advice in person in a timely manner.

I yield the floor. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. AKAKA. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

#### MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to a period of morning business until 1:30 p.m., with Senators permitted to speak therein for up to 10 minutes each.

Mr. AKAKA. Madam President, I ask unanimous consent to speak as in morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### TROPICAL STORM KETSANA

Mr. AKAKA. Madam President, I rise today to stand in unity with our friends in the Philippines, China, and Vietnam, who are recovering from a terrible natural disaster.

Tropical Storm Ketsana struck the Philippines Saturday near Manila, causing massive flooding across the island nation. According to news reports, more than 80 percent of the capital city was submerged by the floods. Footage shows people being swept away by raging torrents, stranded on rooftops without supplies, or wading through waist-high flood water. According to the Associated Press, at least 284 people in the Philippines are confirmed dead, and nearly half a million people have lost their homes. As I speak, rescuers are searching for any remaining survivors. Family members are mourning lost loved ones. Millions of Filipinos across the country are struggling to find clean water, food, medicine, and shelter.

I commend the U.S. Embassy in Manila for pledging financial aid to help the Philippine government get life-saving necessities to people living in emergency shelters.

I am proud and honored by the work of members of the United States Armed Services, based in the Philippines. Their important mission is to provide counterterrorism training, but in the face of disaster, our troops have heroically conducted a number of life-saving rescues. Now they are helping to distribute supplies.

I also thank UNICEF for its large pledge of financial support.

In Hawaii, a number of organizations have stepped up to help. The Filipino Community Center, the United Filipino Council of Hawaii, and the Philippine Consulate General of Honolulu are among the organizations raising funds. I am encouraged by all those offering assistance in Hawaii and across the Nation.

Unfortunately, Ketsana's path of destruction was not finished at the Philippines. The storm picked up strength over the South China Sea, brushed against the coast of China's Hainan Island, and at full typhoon strength today slammed directly into Vietnam, where at least 23 people have been confirmed dead.

Laos, Cambodia, and Thailand are now bracing for heavy rains as the storm moves inland.

In the United States, we are no strangers to the horrors of tropical cyclones. We all remember the tragedy of Hurricane Katrina. It hit the gulf coast more than 4 years ago, but many areas are still recovering. In Hawaii, we will never forget Hurricane Iniki, which

struck the island of Kauai in 1992, killing six people, destroying homes, hotels, and businesses, and leaving residents in some areas without electricity for months. It took parts of Kauai more than a decade to recover, and some historic buildings have never been rebuilt.

The United States stands with our friends in the Philippines, China, and Vietnam as they work to help the survivors. I want to thank everyone who has pitched in to help our friends recover from this terrible disaster.

I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CARDIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### ENERGY SECURITY THROUGH TRANSPARENCY ACT OF 2009

Mr. CARDIN. Madam President, I take this time to bring to the attention of my colleagues legislation that has been introduced by Senator LUGAR, the Energy Security Through Transparency Act of 2009. I have joined Senator LUGAR as a cosponsor, as have Senator SCHUMER, Senator WICKER, and Senator FEINGOLD.

Let me first tell you the problem this legislation is attempting to deal with; that is, there are these mineral-rich countries, countries that have oil, countries that have gas, countries that have valuable resources and minerals, and sometimes it is called a curse because in many of these countries there is horrible poverty, there are conflicts, open war, and very poor governance. The reason, in most cases, is corruption.

Quite frankly, there are individuals and groups and sometimes leaders within these poor nations that have wealthy resources who make their own individual deals with companies that extract these minerals and use them for their own purpose rather than sharing it, as they should, or using it, as they should, for the people of the nation in which these resources are located.

This is happening in so many countries in the world. It is in the interest of the United States to change the way these nations deal with their resources, their wealth. It is in our interest for many reasons. There are American businesses that would like to do business in these countries. They would like to help the economy of America by having business relationships with countries that have oil and gas and countries that have other mineral wealth. The problem is, they cannot do

that because they cannot participate in corruption. It is against our laws for American companies to be coconspirators in corruption in another country, as it should be against our laws. It is also not very stable for them to do business in a country that is corrupt, that does not have the rule of law, that does not have the protections necessary to make sure their business relationships will be honored.

So for all those reasons, it is important for us to clean up the way these nations deal with their mineral wealth. It is also in our interests as far as energy security. I hope we will get into this debate in this Congress on the floor of this body: how we can become energy secure in America. But part of that is having a much more open relationship with those countries that have mineral wealth so we know the arrangements, so we know how the gas and oil and other minerals are entering into the international marketplace, so we can have an open policy in America to deal with our energy. It is important for this country, as I pointed out, for our economics, it is important for our national security to get this done. I might add, it is also going to be important for our environment, and we are going to have that debate, I hope, later this year in this body.

The international community has understood this. As a result of recognizing this problem, the international community came together with the Extractive Industries Transparency Initiative, known as EITI. I mention this because this international effort is to try to bring transparency in what a company pays for mineral rights in a country. So if you are a company, and you are paying a royalty to a nation for extracting its minerals, you need to disclose that so the citizens of that country have the basic critical information necessary to effectively monitor government stewardship of their natural resources.

That is basically what the EITI initiative is. It is all about transparency so companies and governance can be held accountable. I would think we all agree on that. I am proud of the role the United States Helsinki Commission has played on this issue. I have had the honor of chairing that Commission, and we have made the EITI initiative a major priority of our Commission's work because we know if we can get the mineral wealth to the people of that nation, so many of the issues we are charged to deal with on human rights, on the environment, on the economy, and on security can be dealt with, if we could just get that mineral wealth to the people of that nation. That is the reason why the Commission has had a very high priority in getting more participation by countries around the world in the Extractive Industries Transparency Initiative.

That brings me to the Energy Security Through Transparency Act of 2009

that Senator LUGAR has introduced and on which I have joined him as a cosponsor. It would suggest that the United States should be an implementing country of the EITI, that we should subject ourselves to those provisions, that we should lead by example by showing the United States of America believes there should be transparency in all the contracts we enter into resulting in extraction of mineral wealth from America. That would require the proper disclosure of payments from companies that use public lands for mineral extractions. That is the right thing to do. We should have been doing this all along. The public should know what is being paid by companies to take their wealth. This is Americans' wealth. It does not belong to any one of us. There should be transparency in it. It is the right thing to do.

Another part of this legislation would require companies that are listed on the U.S. Stock Exchange that are regulated by the Securities and Exchange Commission to disclose their payments to other countries for extraction of mineral wealth. In other words, we use the leverage of participating in the U.S. Stock Exchange—to be a listed security that Americans invest in—they have the right to know what that company is paying to other countries to extract mineral wealth. That at least gives us part of the disclosure necessary to find out what a country, which is so poor in the way it treats its people, is doing with the moneys that are being paid for the extraction of their national wealth. That would go a long way to helping us get transparency.

This legislation would urge the President to work with our partners in the G8 and G20 to promote similar efforts by the industrial nations of the world so we can get more credibility on the EITI, where passage of the EITI, joining the EITI becomes a matter of respectability for a nation internationally to make sure the contracts that are entered into with that government are shown to the people of that nation.

The bottom line is, the Energy Security Through Transparency Act of 2009 is asking the United States to take a leadership position in fighting corruption. Unfortunately, in too many of the developing countries of the world there is corruption. You have to deal with that corruption if you are going to be able to develop the type of relationships where that nation can deal with the poverty of its own people and work with us on our international priorities.

It helps developing countries. We give significant resources to date for humanitarian efforts in these nations. These nations should use their own wealth. This is a humanitarian issue. This is a human rights issue. It also provides economic opportunities for the people of that nation as well as the international community so they can

participate in an open way to help that nation solve its economic problems.

It helps us with energy security globally. We cannot afford to waste the world's resources, as we look internationally at problems of energy security and global climate change. And it certainly helps in removing conflicts in many parts of the world. It is in our national security interests to make the world safer because it is usually the United States that is called upon first to deal with these conflicts.

For all these reasons, I urge my colleagues to take a look at the Energy Security Through Transparency Act of 2009, and to join us in moving this legislation forward because I believe it does present great hope for America to lead the world in helping these nations take advantage of their wealth in furthering U.S. international goals.

With that, Madam President, I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DORGAN. Madam President, I ask unanimous consent to speak in morning business for such time as I may consume.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

## MAJOR REFORMS FOR AMERICA

### PRESCRIPTION DRUG PRICES

Mr. DORGAN. Madam President, today a news story had the title "Leading Dem Plans to Blow Up Deal with Big PhRMA":

A Senate Democratic leader is hoping to blow up the deal reached between the White House, drug makers and Senate Finance Committee Chairman Max Baucus by introducing an amendment on the floor to allow prescription drugs to be imported from Canada . . . et cetera.

There is a picture of me. I woke up this morning not thinking I was going to try to blow up anything. So I want to respond to this.

The question is, are those of us in this Chamber—a bipartisan group of 30 ranging from myself and Senator SNOWE as the lead sponsor, Senator STABENOW, Senator MCCAIN, and so many others who want to deal with this issue of fair pricing of prescription drugs—are we trying to blow something up? The answer is no. We have been trying for a long time in this Chamber to say we ought to have fair prescription drug pricing for the American people, and presently it is not fair.

This is a pill bottle that would contain Lipitor made by Pfizer. It is made

in Ireland and then sent around the world. These two bottles are identical. One is red, one is blue, but had the same pill made by the same company put in the same bottle, this one shipped to Canada, this one shipped to the United States. This was \$1.83 per tablet. That is what the Canadian consumers paid. Our consumers got to pay \$4.48 per tablet. The same pill, same company, same bottle, different price—American consumers get to pay the higher price: \$4.48 per pill compared to \$1.83. It is not just Lipitor. That is the most popular cholesterol-lowering drug, widely taken. It is not just consumers of Lipitor, it is consumers—this happens to be Canada, but in here I could put France, Germany, Spain, Italy, and so on—it is that we are charged the highest prices in the world for brand-name drugs. Plavix is 73 percent higher than Canada. Boniva is 90 percent higher than Canada. Zocor is 103 percent higher than Canada. The list goes on—157 percent higher than they pay in Canada; 194 percent. It is just not fair.

One day, I sat on a hay bale at a little farm reception with a guy in his eighties. We sat there just talking. He said: My wife has been fighting breast cancer for 3 years. He said: For 3 years, we have driven to Canada to buy Tamoxifen, where she could buy it for 80 percent less than it cost her in North Dakota. That is the only way we could afford to pay for her drug to fight her breast cancer.

I am just saying that is not fair. So a group of us have been trying for a long time to pass legislation that allows the consumer freedom, the freedom to say: If this identical drug is being sold in Winnipeg, Canada, at a fraction of the price why can't our consumers in this country access that drug? Why don't they have the freedom to access that drug?

We have put out a piece of legislation that establishes much greater security for the safety of our drug supply with batch lots and pedigrees and everything that attaches to the security side, and then we say the American people can access the FDA-approved drugs in the countries that have the same chain of custody we have and that have the same kind of safety we have. Give the American people freedom. When they have that freedom to access those identical drugs at a lower price, sold at a fraction of the price in other parts of the world, then the pharmaceutical industry will be required to reprice those drugs in this country and give the American people fair pricing. That is just a fact.

I understand the White House negotiated with the pharmaceutical industry and came up with a plan by which the pharmaceutical industry over 10 years would fill part of what is called the doughnut hole. It is complicated to explain—the doughnut hole is a portion

of the drug benefit in which the seniors have to pay their own drug costs. So I understand there was an agreement between the White House and the pharmaceutical industry to provide a discount to seniors in the donut hole, but nobody here was a part of that agreement.

The 30 or so of us who have been very strongly working to address this issue feel that when the health reform bill comes to the floor of the Senate, we intend to offer this amendment. If you don't deal with the increasing cost of prescription drugs when you try to put downward pressure on the cost of health care, in my judgment, you have failed. One of the fastest areas of cost increases has been prescription drugs. You are just going to leave that aside and say: Don't pay any attention to that; it doesn't matter. You can't do that. So we are trying to find a way to put some downward pressure on health care prices, and that must include putting some downward pressure on prescription drugs.

Let me be quick to point out that the pharmaceutical industry does important things. I don't wish them ill at all. I have done things that support them, including research and development tax credits and so on. But I am not interested in just waiting to allow them to continue to price their brand-name pharmaceutical drugs much higher to our consumers than they do to virtually every other consumer in the world. It is not fair.

When the health care reform bill comes to the floor of the Senate, I and my colleagues—Senator STABENOW, Senator MCCAIN, many others; a bipartisan group—intend to offer this bill as an amendment. It is not intended to blow up anything. We weren't a part of constructing anything; we are not going to blow up something. All we are going to do is demand that some common sense and basic fairness be established in the pricing of prescription drugs in this country. The way to do that is to give the American people the freedom to access this identical prescription drug in other areas where it is sold at a fraction of the price.

So, again, I wanted to disabuse anybody of the notion that we are going to blow up something. It is not true. I understand the pharmaceutical industry does not like what we are trying to do. They would like to have absolute pricing capability to price our drugs, in the case of Lipitor, at \$4.50 a tablet when they sell it to others for less than half of that. I understand they would like that opportunity. On behalf of the American citizen, I say it is not fair. It is wrong, and it ought to change. If we pass the legislation we have introduced—a broad bipartisan group here in the Senate—it will give the American people freedom and force, in my judgment, a repricing toward fair prices for prescription drugs in our country.

Again, I wanted to make the point that we are not trying to blow up anything; we are trying to fix something that is wrong, and we are going to try to do that when the health care reform bill comes to the floor of the Senate.

We have been guaranteed an opportunity. Senator MCCAIN and Senator SNOWE and I intended to offer this earlier in the year, and as a result of that, the majority leader said: Don't offer it here, but I will make certain you have the opportunity on the floor of the Senate. That is why we will be in line right toward the front end of the health care reform bill to offer the amendment and have a debate.

#### FINANCIAL INDUSTRY REFORM

If I might, for a couple of minutes on another subject, say that I have spoken often about an issue on the floor of the Senate that goes back some decade or so on the matter of financial reform. I am not going to revisit all of that, which happened 10 years ago, but I do want to say this: I happen to think one of the first items of business this year should have been financial reform. I know others disagreed. I know the President wanted to do health care and some other items first. But I know the President and his team are working very hard now on financial reform. It is very important to get this right.

I wish to make a point. I have been reading recently about what is happening, and I would like to demonstrate what is happening.

Last fall, a whole series of things steered this economy into the ditch, the deepest economic downturn since the Great Depression.

So now, September 12, 2009, The New York Times, "A Year Later, Little Change on Wall Street":

One year after the collapse of Lehman Brothers, the surprise is not how much has changed in the financial industry, but how little. Not much change on Wall Street.

September 15, the Washington Post, "The Wall Street Casino, Back in Business." Think of that. A year after the almost unbelievable, deepest recession since the Great Depression, 1 year later, "The Wall Street Casino, Back in Business."

What are they talking about? Credit default swaps, derivatives, synthetic derivatives, you name it, all kinds of exotic products where they securitized everything. Everybody made a bunch of money, and on the way back from depositing money in their bank accounts one day, they discovered the economy collapsed because a lot of bad decisions had been made by people who were gambling.

September 8, the Washington Post, "A Year After Lehman, Wall Street's Acting Like Wall Street Again." Not much change.

Wall Street Journal, August, last month, "Bankers Play Dress Up With Old Deals":

Irresponsible securitization helped bring the financial system to its knees. Yet, as

banks start to heal, little seems to have changed. Wall Street has quickly fallen back on old habits.

By the way, some of these FDIC-insured banks are still trading in derivatives out of their own proprietary account. They may just as well put a casino in their lobby or be playing Keno in their boardroom.

This is Steve Pearlstein, September 11: "Wall Street's Mania for Short-Term Results Hurts Economy."

Look, the reason I wanted to go through this is I agree not much has changed, and certainly not enough has changed. The question, it seems to me, as we deal with this issue of financial reform is, Will we address a central issue for me, and that is the too-big-to-fail issue? When we have decided as a matter of economic doctrine in this country that there are big companies that are too big to fail—too big to fail—to me, that is no-fault capitalism. We saw that last fall.

We had the Treasury Secretary come to the Congress, and he said, on a Friday: If you don't pass a three-page bill giving me \$700 billion and do it in 3 days, there is eminent collapse of the American economy. The fact is, I didn't vote for the \$700 billion because I didn't think he had the foggiest idea what he was going to do with that money.

The plain fact is as well that the very firms that did the kind of damage that steered this economy into the ditch—by the way, one of which the then-Treasury Secretary had previously worked for—dramatically expanding leverage; engaging in unbelievable, sophisticated exotic products they couldn't even understand. But you didn't have to understand them as long as you were making a lot of money on them; securitizing almost everything; the scandal in subprime loans; paying massive bonuses to brokers who put mortgages out there called liar's loans, meaning people didn't have to describe their income in order to get a mortgage; and then securitizing the good with the bad and slicing and dicing as if you were cutting sausage and selling it to investment funds. So everybody was fat and happy, making all this money despite the fact they were creating this house of cards. And then the house of cards collapsed, and we had all of these firms with dramatic leverage and exposure. Then we were told: You know what, you have to bail them out. They are too big to fail. The American taxpayer has to come out and open their pocketbook and provide the funds because these companies are too big to fail.

The fact is, when we discuss financial reform, there is too little discussion about this right now. All the discussion we see are these stories: "Wall Street is Back in Business Again"; "Banks Still Trading in Derivatives on Proprietary Accounts." They might as well

just put up a blackjack table in their lobby. Nothing is changing.

So the question is, when we get to this point—and it is very soon, I hope—will we seriously address the doctrine of too big to fail. If we don't, we will go down exactly the same road and, mark my words, we will find the same ditch once again for this economy. We must address this issue of too big to fail. Some of the too-big-to-fail institutions got a lot of TARP funds from the American taxpayer. And by the way, they have gotten bigger now—too big to fail, and now they are too bigger to fail, I guess. It doesn't sound like good English to me. But too big to fail is a problem, so you make them bigger. It makes no sense.

This has to be a centerpiece in our discussion going forward. Are we going to continue to have no-fault capitalism where some of the biggest financial institutions in this country are engaged in gambling, trading in derivatives on their own financial accounts in a bank, while the bank is FDIC insured? Are we going to continue to allow that, or are we finally going to decide that this doctrine of too big to fail has to be addressed along with the other issues? Are we going to securitize everything? Are we going to continue to allow this unbelievable expansion of leverage? All of these are important questions.

At the end of the day, to me, the question of the doctrine of too big to fail is overriding. We must end that proposition. It is not just me, there are a lot of good economists who believe this must be a part of our financial reform.

My hope is that in the coming month or so following the discussion on health care reform, we turn to financial reform. I am going to be on the floor talking again about the doctrine of too big to fail and about the Federal Reserve Board's notion of what that doctrine means and what their responsibilities are.

I yield the floor, and I make a point of order that a quorum is not present.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. ALEXANDER. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. ALEXANDER. How much time remains on the Republican side?

The ACTING PRESIDENT pro tempore. The time is not divided.

Mr. ALEXANDER. Madam President, I ask unanimous consent that we be permitted to engage in a colloquy for up to 20 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

## HEALTH CARE REFORM

Mr. ALEXANDER. Madam President, all of us were home in August. It was a pretty good thing we were, because the people of the United States had a lot to say to us about the health care bill. I think President Obama was very correct when he said the health care reform bill is a proxy for the role of Federal Government in our everyday lives.

I think that is what we are debating here. On the one side, we have an effort by the majority and the President to do this massive, comprehensive health care reform with thousand-page bills and White House czars and trillions in spending and debt. That is on the one side. On the other side we have Republicans saying we want health care reform, but let's focus on reducing costs to each American who has a health care policy—that is 250 million of us—that is why people are showing up at town meetings; it is not some abstract thing—and reducing costs to our government, because we know that \$9 trillion more in debt is coming.

Mr. McCAIN. Will the Senator yield for a question?

Mr. ALEXANDER. Yes, I will.

Mr. McCAIN. First, concerning the costs, how do we know what the cost is if we don't have legislative text? I think all of us have been around here long enough—we have talked a lot about the 72 hours that I absolutely think we need. The text should be online so that every American—not just the 100 of us who are fortunate enough to be here—can read it. Everybody should have the right to know what a fundamental reform of health care in America is all about, and they should be able to read the legislation if they want to.

Just as importantly, I ask my friend, has he seen any legislative text anywhere? Is it true that the Finance Committee is moving forward with legislation regarding which there is no legislative text? And by the way, we find out now, according to the Wall Street Journal, Mr. Barthold noted in a followup letter that the willful failure to file; that is, to take the government option, would be punishable by a \$25,000 fine or jail time under a section of the bill.

I wonder how many Americans are aware of that. In fact, I have to tell my friend from Tennessee, I was unaware of it. So if we are unaware of it, should we not have legislative text so that Americans know what is being legislated in the Senate Finance Committee; and second, shouldn't it be on line at least 72 years so everybody would know about it?

Mr. ALEXANDER. The Senator is right. He and I and the Senator from Georgia are on the HELP Committee. We worked and we spent many hours in June and July marking up that version of the health care bill. We finished our work about July 15. That bill was 839

pages. It wasn't even presented to us until early in September, and we still don't know what it costs. I wonder if the Senator from Georgia heard much about reading the bill and how much it costs.

Mr. ISAKSON. The Senator from Arizona and the Senator from Georgia and I all sat through 67½ hours of markup in the HELP Committee on an 839-page bill, which was not scored and had 3 titles blank and they are still blank. We didn't have text during that debate on three titles within that bill, and what they are developing in the Finance Committee today, as I understand it, is concepts. The language is somewhere that we have not yet seen. This is too important for us to guess on and to take a chance on. It is most important that Congress know precisely what it is doing.

Mr. ALEXANDER. Maybe the Senator from Georgia and the Senator from Arizona know more about this than I do, and they are debating concepts but they are getting down to specifics. I saw in a morning newspaper that Nevada was somehow miraculously taken care of in the provisions for Medicaid expenses. We have had Governors, both Democrats and Republicans, here saying if you are going to expand on Medicaid in our State, pay for it. What happened in Nevada?

Mr. MCCAIN. I say to my friend from Tennessee, first, it is clear that the Medicaid cost increases to the States will be incredibly large. In the original version of the bill, according to media reports, the State of Nevada would have, along with every other State, a significant Medicaid expense. So somehow now the legislation has been changed, again, according to media because—excuse me, the concept has been changed because we don't have legislative language—that 4 States would then have 100 percent of their Medicaid costs assumed by the Federal Government for as long as 4 or 5 years. That is what goes on with the laws and sausages business here. I ask the Senator again, do you—first, I ask unanimous consent that the editorial entitled “Rhetorical Tax Evasion” in the Wall Street Journal this morning be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Wall Street Journal, Sept. 29, 2009]

#### RHETORICAL TAX EVASION

President Obama's effort to deny that his mandate to buy insurance is a tax has taken another thumping, this time from fellow Democrats in the Senate Finance Committee.

Chairman Max Baucus's bill includes the so-called individual mandate, along with what he calls a \$1,900 “excise tax” if you don't buy health insurance. (It had been as much as \$3,800 but Democrats reduced the amount last week to minimize the political sticker shock.) And, lo, it turns out that if

you don't pay that tax, the IRS could punish you with a \$25,000 fine or up to a year in jail, or both.

Under questioning last week, Tom Barthold, the chief of staff of the Joint Committee on Taxation, admitted that the individual mandate would become a part of the Internal Revenue Code and that failing to comply “could be criminal, yes, if it were considered an attempt to defraud.” Mr. Barthold noted in a follow-up letter that the willful failure to file would be a simple misdemeanor, punishable by the \$25,000 fine or jail time under Section 7203.

So failure to pay the mandate would be enforced like tax evasion, but Mr. Obama still claims it isn't a tax. “You can't just make up that language and decide that that's called a tax increase,” Mr. Obama insisted last week to ABC interviewer George Stephanopoulos. Accusing critics of dishonesty is becoming this President's default argument, but is Mr. Barthold also part of the plot?

In the 1994 health-care debate, the Congressional Budget Office called the individual mandate “an unprecedented form of federal action.” This is because “The government has never required people to buy any good or service as a condition of lawful residence in the United States.”

This coercion will be even more onerous today because everyone will be forced to buy insurance that the new taxes and regulations of ObamaCare will make far more expensive. Too bad Mr. Obama's rhetorical tax evasion can't be punished by the IRS.

Mr. MCCAIN. This says:

Chairman Max Baucus's bill includes the so-called individual mandate, along with what he calls a \$1,900 “excise tax” if you don't buy health insurance. (It had been as much as \$3,800. . . )

So American small businesses, which are hurting more than any other group of Americans today, the creators of jobs—are now facing a \$1,900 excise tax. By the way, the President, in response to George Stephanopoulos, said there was no tax engaged here. I wonder how many Americans are aware of that and how many Americans have had the opportunity to know exactly not only what the costs to the Federal Government and the respective States are, but the costs to the individuals who are struggling to make it in America at a time of almost unprecedented unemployment?

Mr. ALEXANDER. That is a very good point. The Senator from Georgia was in small business for many years before he came to the senate.

Mr. ISAKSON. Yes, I ran a small real estate company for 22 years. We tried—myself and other distinguished Senators—on the floor to pass small business health reform 3 years ago which would have made more affordable and accessible health care to those independent contractors, the small business people. It was rejected and we could not get a cloture vote.

Mr. ALEXANDER. May I interrupt for a moment? I often hear it said that you Republicans are not for health care too much. The difference is we have a little more humility than to try to take on the whole health care system

at once and fix the whole world. We are ready to go step by step, and that is one of the most important steps—to allow small businesses to pool their resources and offer health care to their employees. I think the estimate is it would add maybe a million new people who could be insured that way.

Mr. ISAKSON. Under outside estimates—not mine—of the 47 million alleged uninsured, up to 16 million would have access to insurance because of associated health plans and small business reform. That is a third of the uninsured.

Mr. MCCAIN. My friend from Tennessee brings up a good and an important point about some saying that Republicans have no plan. The fact is that the Republicans have no plan for the government to take over the health care system in America. That is what it is. What are we for? We are for going across State lines so that these small businesses and individuals—and the Senator from Georgia used to be one of them—can get the health insurance policy of their choice. Why should they be restricted to the State they are in when perhaps there are minimum requirements for those health insurers residing in that State for coverage, which they neither want or need, and it may be in another State. Why don't we allow small business people to pool their assets together and negotiate with health insurers across America for the best policy they can get? And we are for medical malpractice reform and medical liability reform. We know doctors prescribe time after time, to protect themselves, unneeded and unnecessary procedures and tests. We all know that. That is in tens if not hundreds of billions of dollars. We are for medical malpractice reform. Where is it in any bill that has been proposed by the other side?

We want outcome-based treatment. We want an individual who has a certain chronic disease to be treated on the basis of long term. We want Americans who have preexisting conditions to have a risk pool they can go to or where risk pools would be established so they can get health insurance, and insurers will bid on those people with so-called preexisting conditions, so that every American can have affordable and available health insurance. We are for that. We are for medical malpractice reform. We are for going across State lines to get a policy of your choice. We are for outcome-based care. We are for taking on the drug companies that have cut an unholy deal with the administration, which will give them the obscene profits, and the lobbyists, who make over a million dollars. We want to be able to import drugs from Canada that are cheaper for the American people. We want competition, as there is in Medicare Part D, for these patients who need it, who don't have health insurance.

So we are for a number of things, but we are not for a government takeover of the health care system. So the next time we read that the Republican party does not have anything they are for, then they are not paying attention. There is more that we are for, but it has to do with competition and with availability and with affordability of health care in America, not a government takeover. We have seen that movie before in other countries.

Mr. ALEXANDER. As I listen to the Senator, I wonder if the Senator from Georgia is having the same impact. Every single step he said Republicans are for, whether it is getting rid of runaway junk lawsuits, going across State lines to buy insurance, whether it is allowing small businesses to pool resources, or incentivizing prevention and wellness, they are all focused on reducing costs.

I ask the Senator from Georgia, I thought this was supposed to be about reducing costs for health care premiums and costs to our government; but it seems to me we are talking about more billions and more debt and more spending and taxes.

Mr. ISAKSON. Those are the two things Republicans don't want, which is more debt to bankrupt our children and grandchildren and more taxes. Robert from Loganville was on my telenovela hall meeting a week ago in Georgia. We were talking about the pay-fors. He said, "Senator, I want to ask you a question. The administration keeps talking about there being a half billion dollars of waste, fraud, and abuse in Medicare. If that's true, why haven't you saved it instead of using it to save against a national health care?"

That is precisely right. The pay-fors they are talking about to keep us from going into debt are moneys that may or may not be there. They involve taxation and raising taxes on small businesses. Those are the things we don't want to do as Republicans.

Mr. MCCAIN. I ask the Senator from Georgia, do you believe, one, that small business people in America today are ready for an additional cost laid on them to provide health insurance for themselves and their employees? Should we not make it easier and less costly, rather than imposing a government mandate, which may have types of health care that they neither want nor need, or paying an "excise tax," as is in Chairman BAUCUS's bill?

The second point I want to ask the Senator about, of course, is this whole issue of what should be the government's role in health care in America today. We freely admit—not only admit but appreciate the fact that Medicare is a government program. But we also appreciate that the costs of Medicare have skyrocketed to the point where we now have, by estimates, a \$31 trillion unfunded liability. In

other words, our kids and grandkids will not have Medicare 7 or 8 years from now unless we fix the issue of costs.

Mr. ISAKSON. The Senator is precisely right, because as of right now, Medicare goes broke in 2017. That is only 8 years from now. In this bill, part of the pay-fors is to raise the cost of Medicaid on the States to a level that would take Georgia's Medicaid payments in 2014 by State tax dollars to be from 12 percent to 20 percent of our State budget. That is not the way to run a railroad.

Mr. ALEXANDER. Going back to the point of the Senator from Arizona, I hear our friends on the other side say you have used scare tactics, saying there will be Medicare cuts. I ask the Senator, did I not hear the President say he was going to take a half trillion dollars out of Medicare for seniors? There are about 45 million seniors on Medicare and who depend on Medicare, and they will spend it on new programs. Is that not what I heard him say?

Mr. MCCAIN. That is why there is a rising sentiment, particularly among seniors, against this plan, the one passed through the House and passed through our HELP Committee and is now being formulated. Our seniors and our citizens are a lot smarter than many times we give them credit for. They know you are not going to get \$½ trillion in "savings" from Medicare without there being reductions in Medicare.

There are hundreds of billions of dollars of savings that can be enacted in Medicare, but why don't we start tomorrow or why didn't we start yesterday or why didn't we start at least at the beginning of this debate imposing those savings so we could have a delay in the year when Medicare goes broke?

Mr. ALEXANDER. May I ask the Senator, if there are savings in Medicare, shouldn't it be spent on Medicare?

Mr. ISAKSON. Absolutely.

Mr. MCCAIN. That is an excellent point. But also the fact is to root out this waste, fraud, and abuse is going to take time and effort and it is going to require some pretty hard work on our part. But we need to change some of the fundamentals of the Medicare system in providing more competition in the form of prescription drugs, in the form of medical malpractice liability reform, in the form of more competition between drug companies for Medicare and Medicaid patients. These reforms we are advocating have to be enacted in order to bring down the costs of Medicare, Medicaid, and overall health care costs in America.

Look, it is obvious. The cost escalations that are bringing Medicare to a crisis are the same cost escalations everybody else in America is experiencing.

Mr. ISAKSON. A lot of them are based in defensive medicine, which is practiced because of runaway lawsuits and verdicts. The administration's most recent comment about tort reform, to which the Senator from Arizona referred, was they want to do a study. A study is not what we need. What we need is action. That is one of the biggest contributors to the rising cost of health care we have.

Mr. MCCAIN. Or a demonstration project conducted by the Secretary of Health and Human Services who knows a lot about this, I admit, because I understand she was head of the Trial Lawyers Association for a number of years. I am sure that gives significant qualifications to the person who is tasked with this project.

Life is full of anecdotes and experiences we have. I was down in Miami at the Palmetto Hospital. I spoke to a surgeon there. By the way, they treat a very large number of people who have come to this country illegally. I asked the surgeon: How are you doing on making your insurance payments, your malpractice or medical liability insurance payments?

He said: I don't have a problem. I don't have it. I don't have it because I couldn't afford it and probably I am not going to get sued because if they sue me, they are only going to get everything I have, not what the insurance company has.

We are giving physicians and caregivers the untenable option of either paying skyrocketing malpractice insurance premiums—in some cases \$200,000 a year for a neurosurgeon—or as this surgeon did and others have done: I am not going to have insurance. That is not an acceptable thing to do to physicians in America or anybody in America.

Mr. ISAKSON. The other consequence of that is the threat of it, and the cost of becoming a physician is driving young people to go into other professions. We are going to have a shortage of providers, not just in physicians but nurses and caregivers, if we have an overly regulatory system and an indefensible tort system.

Mr. ALEXANDER. The Senators from Arizona and Georgia have raised a number of questions that need to be answered. How much is the expansion of Medicaid going to cost States in State taxes? How much of the Medicare costs are going to cost people on Medicare? Are individual premiums actually going up instead of down, which is what the Congressional Budget Office said. Why is there not something for getting rid of junk lawsuits in the bill? Why don't we have a small business health insurance pool?

The point we made when we first started is if we are taking on 17 or 18 percent of the whole economy in another one of these 1,000-page-plus bills, why then do the Democratic Senators

vote down the amendment to say that the bill needs to be online for 72 hours so we and the American people can read it? Shouldn't we read the bill we are voting on, and shouldn't we know how much it costs before we start voting on it?

Mr. MCCAIN. The Senator is exactly right. Again, wouldn't it be nice for our constituents—by the way, many of them come to the townhall meetings with a sign that says "Have you read the bill?"—to let them read the bill too. Wouldn't it be nice if every American citizen who wanted to could go online and read the legislation and give us their ideas and thoughts as to how we could make it better?

May I mention—I hate to keep coming back to this issue of medical liability—a PricewaterhouseCoopers study says defensive medicine could cost us as much as \$200 billion annually. If we are interested in savings, why don't we go right at that? Do we need a demonstration project someplace around America? I don't.

May I mention one other point, and I would be interested in my colleagues' views on it. This proposal also levies new taxes on medical devices. Why in the world would we want to do that? Medical devices and the best technology in the world are developed in America, but they are very expensive as they are. Why would we want to levy new taxes on medical devices when we know very well that if the insurance company is paying for them, the insurance company passes on those increased costs to the insured, thereby increasing the cost of health insurance in America. Why would we want to do that?

Mr. ISAKSON. It is raising the cost to the consumer because a lot of those types of things that are being taxed are purchased discretionarily and are not covered. They are paid for out of the pocket of the consumer. When you tax the medical device, you are just raising the cost of the medical device to the consumer.

Mr. MCCAIN. What the other side is trying to do is expand government, expand coverage, and yet, at the same time, reduce costs. You cannot square the circle. That is why they keep bumping into—every time there is a new proposal and to make things more expansive and more available, they run into escalations in costs and how we are going to pay for it.

I believe our constituents, again, have figured it out—a reestimate of a \$7 trillion to \$9 trillion deficit over 10 years, a some \$700 billion stimulus package that may have stimulated Wall Street but, frankly, in my view from being home a lot, has not stimulated Main Street and is not having an effect on unemployment in America, to say the least. The neighboring State of California now has 12.2 percent unemployment. They cannot get to where

they want to go without increasing that deficit and debt burden that we are laying on future generations of Americans.

I wish they would sit down with us. I wish we could sit down together, start from the beginning, knowing what we know—we have all been well educated by this process—knowing what we know now, knowing what we can do to reduce health care costs in America and make it affordable and available. Unfortunately, as we watch the machinations going on in the Finance Committee, that has not happened yet.

Mr. ISAKSON. I completely concur with the Senator from Arizona and the Senator from Tennessee. There is common ground, but you have to be willing to find it. So far that has not been the case. When we get to that point, we can solve a lot of the American peoples' problems. Just ramming through something we cannot read, we cannot quantify, we cannot score is not the way to go about it.

Mr. ALEXANDER. If there is one point we would want to make, it is this. It is such an ambitious program. The stakes are so high. This is no abstract debate. The reason people are turning up at town meetings is because this is about their health care insurance and also whether your government is going to go broke in the next few years, dumping a lot of burdens on our children and grandchildren.

What we are saying is we need to read the bill and know how much it costs before we start voting on it. We need to read the bill. It needs to be online 72 hours. That is a modest request, it seems to me. That is a short period of time. Then we need to know how much it costs. Does it raise our premiums or lower them? Does it cut your Medicare, or does it not cut your Medicare? Does it increase the national debt, or does it not increase the national debt? We need to know the answers to those questions. It would be the height of irresponsibility for us to begin debating a bill that affects 17 percent of the economy at a time when our debt is going up so rapidly without having, one, read the bill and, two, knowing exactly what the nonpartisan Congressional Budget Office tells us every provision costs.

Mr. MCCAIN. Can I tell my friend, if the American people are able to know the details of this legislation, I think they would be surprised to know that the new taxes—the medical devices, the prescription drugs and other tax increases—they begin in the year 2010, 3 years before the provisions in the bill for "reform" are implemented. So for the next 3 years, the cost of health care and health insurance goes up due to the new taxes and fees, but the so-called reforms are not implemented—why did they do that?—so that the actual costs, as we cost it out over a 10-year period, are disguised by beginning

the taxes and not implementing the reforms, which then the Congressional Budget Office can give a cost estimate which is less than, frankly, what it actually is if you put the reforms in at the same time as the tax increases.

That is a little complicated, but I think Americans need to know that.

Mr. ISAKSON. My only comment in closing is simply this: The Senator is exactly right. Once this horse is out of the barn, you can never put him back in. We have to get it right to begin with. We need to go back to the drawing board, have a bill we can read, and a bill we can afford.

Mr. ALEXANDER. I thank the Senator from Arizona and the Senator from Georgia. They said what we believe. We need to stop, start over, and get it right. Above all, we—it seems such a basic thing to say it is almost embarrassing to say it on the Senate floor—we need to make sure we read the bill before we vote on it, and we need to make sure we know what it costs before we vote on it. Those two things are minimum requirements.

From the Republican side, we want to reduce health care costs, and rather than try a comprehensive health care reform of the whole system, we would like to work step by step in the direction of reducing costs in order to re-earn the trust of the American people. Senator MCCAIN and Senator ISAKSON have outlined a series of steps ranging from eliminating junk lawsuits against doctors to allowing small businesses to pool their resources, all of which would help reduce costs. I thank the Senators.

I yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. WARNER). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MCCAIN. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. CASEY). Without objection, it is so ordered.

#### DEFENSE APPROPRIATIONS

Mr. MCCAIN. I rise to address the issue of the Department of Defense Appropriations Act for fiscal year 2010, which is the pending business before the Senate.

The funding provided in this legislation is very crucial. We need to support our commanders as they lead operations in Afghanistan, Iraq, and elsewhere, and care for the men and women who are in the military, including making sure they are provided for, as well as our wounded warriors. But I also note with great concern and alarm, dismay, and even disgust that billions of dollars in wasteful earmarks, unrequested, unauthorized, have again found their way into this

legislation. As I have said before, these are serious times, and we as a Congress are required to make serious decisions, tough decisions, that may go against the special interests.

I need not remind my colleagues that we are at war or that the national debt is growing ever larger. Recently, there was a reestimate of the deficit for the next 10 years from \$7 trillion to \$9 trillion. We are facing deficits of unprecedented proportions. Yet the spending goes on here like, as some people have said, a drunken sailor. I do not use that phrase anymore because I never knew a sailor, either drunk or sober, with the imagination Members of Congress have, which is best epitomized in this bill, as I will point out in several provisions. We cannot afford the waste. We cannot afford it. It is our duty to fully support the funding for our national defense and ensure that each dollar we spend is spent wisely in delivery of the stated need and not on special interests.

The Appropriations Committee has provided \$626 billion in total funding for the Department of Defense—\$498 billion for the base budget and \$128 billion for ongoing military operations in Iraq and Afghanistan. Interestingly, it is \$3.9 billion less than the President's budget request, and the bill further reduces the Defense programs requested by the Pentagon to make room for \$2.5 billion in C-17 cargo aircraft slated for termination by the administration and about \$2.7 billion—I repeat, \$2.7 billion—in earmarks and special interest items.

I have long talked about the broken appropriations process and the corruption it breeds. I remain deeply concerned over the damage done to our country and the institutions we are so proud to serve in by their continued abuse.

While we have made some progress on the issue in the last couple of years, we certainly have not gone nearly far enough. Legislation we passed in 2007 provided for greater disclosure of earmarks, and that was a good step forward. But the bottom line is, we simply do not need more disclosure of earmarks, we need to eliminate them. We need to eliminate them. We should adopt the practice that was the practice here for a long time, up until recent years, that we didn't appropriate unless it was authorized.

In the years that I have been here, I have seen a tremendous shift in the authority and responsibility from the authorizing committees to the appropriating committees and a commensurate rise in earmarks and corruption. I know my colleagues do not like to hear me use the word "corruption," but we have former Members of Congress residing in Federal prison. We had a Congressman from California who used to list the appropriations he was able to get in one column and in the other col-

umn the amount of money he received for earmarking those appropriations. That is corruption.

It is not responsible for us to continue to load up appropriations bills with wasteful and unnecessary spending. Americans all over this country are hurting. People are losing their jobs, their savings, their homes. So what are we doing? We continue the disgraceful earmarking process, elevating parochialism and patronage politics over the true needs and welfare of this Nation. I will be pointing out during the course of this debate a number of examples of that corruption, which I think is really unacceptable to the American people. By the way, that is one of the reasons the American people have risen up in an unprecedented manner in demonstrations against the way we do business here in Washington.

So I want to be clear, disclosure is good. But it was not inadequate disclosure requirements which led Duke Cunningham to violate his oath of office and take \$2.5 million in bribes in exchange for doling out \$70 to \$80 million of taxpayers' funds to a defense contractor. It was his ability to freely earmark taxpayer funds without question.

A lot is said during campaigns. A lot of promises are made. Unfortunately, some are not kept. The President of the United States pledged during his campaign that he would work to eliminate earmarks. The Speaker of the House promised to "drain the swamp."

Just last month, the President of the United States spoke in Phoenix, AZ, to the Veterans of Foreign Wars. In that speech, the President's words were quite compelling about waste and porkbarrel spending in defense bills. In that speech, the President promised an end to "special interests and their exotic projects," and he reaffirmed that he was leading the charge to kill off programs like the F-22, the second engine for the Joint Strike Fighter, and the outrageously expensive Presidential helicopter.

The President went on to say:

If a project does not support our troops, we will not fund it. If a system does not perform well, we will terminate it. And if Congress sends me a bill loaded with that kind of waste, I will veto it.

If the President means those words, this legislation should be vetoed in its present form by the President of the United States.

He went on to say:

We will do right by our troops and taxpayers.

He is right. We should do right by our troops and taxpayers.

The bill has at least \$5.2 billion in programs the Pentagon does not need and did not ask for—\$5.2 billion.

The President last month put on an all court press to terminate the F-22 program in the face of congressional

determination to continue funding the production of the aircraft. So why was the President so adamant about terminating the F-22 while at the same time possibly giving a free ride to 10 unrequested C-17s in this bill at a cost of \$2.5 billion? How can one differentiate between a fighter aircraft that the Pentagon says further production is unnecessary from a cargo aircraft that the Pentagon says the current fleet, coupled with those on order, is sufficient to meet the Pentagon's needs, even under the most stressing situations? Why has the administration, including the Secretary of Defense, been silent on \$2.7 billion in Member-requested earmarks? These are questions for which I do not have a good answer.

What I do know is that the appropriators did not add \$5.2 billion to the bill to pay for the unrequested additions but, rather, secured this additional funding by offsetting programs in other parts of the bill.

So what did the appropriators decide to cut to make room for most of these unrequested earmark and porkbarrel projects?

They reduced \$900 million from the President's request for the Afghanistan Security Forces Fund at a time when the one thing we are in agreement on is that we need to increase the size of the capability of the Afghan Army and security forces. It is a key component of the U.S. strategy in Afghanistan. So they cut it by \$900 million. Reducing funding in the account runs counter to our ground commanders' plan for the Afghan forces to assume a greater share of responsibility for security as quickly as possible.

Equally as incredible, the bill reduces over \$3 billion in operations and maintenance accounts through direct cuts and cuts mandated in other provisions in the bill based on economic assumptions and excess cash balances.

The administration strongly opposes these cuts and in their Statement on Administration Policy said, "These reductions would hurt force readiness and increase stress on the military people and equipment."

This account is the lifeblood for our military. The operations and maintenance of our men and women in the military and the equipment they use is absolutely vital. So what did we do? We took \$3 billion out of operations and maintenance and put it in those porkbarrel projects, including the C-17. The account provides for services with funds to carry out day-to-day activities such as recruitment and fielding of a trained and ready force, all military training and exercises, food, weapons, spare parts, equipment repairs, depot maintenance, ship overhauls, transportation services including aviation fuel, Navy and Marine Corps steaming days, civilian personnel management and pay, and childcare and family centers.

One thing in this debate about Afghanistan that almost everyone is in agreement on is that our equipment is wearing out and that we are way behind in the repair and replacement of spare parts, equipment—all that is necessary for our Active-Duty Forces and our Guard and Reserve, who are practically, for all practical purposes, Active Duty. And we are looking at—and I have guarded confidence that the President will agree to General McChrystal's and Petraeus' and Admiral Mullen's recommendation. We will need more money for operations and maintenance because we will be sending more men and women and equipment to Afghanistan. So what did they do? What is in this bill? A \$3 billion reduction. Well, what is in its place? I will be going over some of the projects that are in its place.

One of the more egregious items in the legislation we are considering today is the addition of \$2.5 billion for 10 C-17 Globemaster cargo aircraft.

First, let's have a little background.

Recognizing that the Department's total requirement for 180 C-17 aircraft has been well exceeded for 3 consecutive years, the Bush administration had actively tried to close down the production line for the C-17s. Nonetheless, earlier this year, the House Appropriations Committee Defense Subcommittee, added eight more C-17s for \$2.25 billion to the 2009 supplemental spending bill, a bill that is supposed to be used to fund the wars in Iraq and Afghanistan. The final version of that bill included all eight of these aircraft. When the subcommittee met later to consider the 2010 Defense appropriations bill, it went ahead and added three more.

This is a little hard to see, this chart, but it is an interesting one. These are the C-17s that were originally in the Air Force budget. These are the C-17s, in red, that have been added by Congress. Each year—each year—the Department of Defense and the administration have said: Enough. We have enough C-17s. Obviously, that has not been the case.

It brings us to where we are now—well in excess of requirements, continuing to spend billions of dollars for aircraft we do not need. Including the 8 C-17s in the 2009 supplemental, the Department has bought now a total of 213 C-17s. The original requirement was 180.

According to the most recent Statement of Administration Position, the administration “strongly objects” to the addition of \$2.5 billion in funding for 10—count them: 10—unrequested C-17 airlift aircraft. The Department's own analyses show that the 205 C-17s in the force and on order, together with the existing fleet of C-5 aircraft, are more than sufficient to meet the Department's future airlift needs even under the most stressing conditions.

In no uncertain terms, Secretary Gates has stated that the military has no need to buy more C-17s. So here we are, my friends, with a \$3 billion cut in operations and maintenance, which any observer, much less the administration, the Secretary of Defense, and the Joint Chiefs, says, is vital to continuing our operations and the well-being and protection of the men and women in the military, and we are adding \$2.5 billion for more C-17s. What kind of a tradeoff is that?

Secretary Gates has stated the military has no need to buy more C-17s. While Secretary Gates called the C-17 “a terrific aircraft”—and I agree—he stressed earlier this year that the Air Force and the U.S. Transportation Command “have more than necessary [strategic airlift] capacity” for airlift over the next 10 years. Nonetheless, continuing C-17 production would cost about \$3 billion per year from 2010 onward.

In connection with the fiscal year 2010 budget request, the President not only requested no funding for additional C-17s but also recommended this program for termination. Particularly in light of today's financial constraints, continuing to spend billions of dollars for more C-17s we do not need is becoming increasingly unsustainable. For these reasons, I will be offering an amendment to strike the additional 10 aircraft.

Given how much our airlift capacity currently exceeds operational requirements, I see no reason why we should buy more of these aircraft—at a minimum, before key analyses on the subject, such as the Institute for Defense Analyses' review and the Department of Defense Mobility Capabilities and Requirements Study are completed.

I will be proposing an amendment shortly that I hope will correct this egregious action on the part of the Appropriations Committee. The men and women in the military, who are fighting and putting their lives on the line, deserve a lot better than that.

I want to talk for a few minutes about earmarks. The practice of earmarking is detrimental to the Department and, with increasing frequency, to Members themselves. The guilty pleas of former Members of Congress, congressional staffers, and lobbyists illustrate how earmarks have been used to corrupt the legislative process. Check the polls. The trust and confidence on the part of the American people in the Congress of the United States is at an all-time low, and deservedly so.

By my preliminary count, there are almost 700 unrequested earmarks in this bill, over 400 of which are not authorized in the fiscal year 2010 National Defense Authorization Act. That represents more than \$1.3 billion in funding for unrequested, unauthorized, Member-interest items. It is unacceptable.

It is the constitutional duty of Congress to provide the Department of Defense the resources it needs while providing the oversight our constituents demand. We have a fiduciary obligation to the American taxpayer, and every time we tuck pork into an appropriations measure, we shun that responsibility.

One of the great untold stories of earmarking is that the money, which is diverted to special-interest projects, would have otherwise been used to address the stated needs of our military services. The money does not come from anywhere but the taxpayers' wallets and purses. But the service chiefs, who are in the best position to advise Congress of their priorities, are routinely shortchanged so that Senators and Congressmen can fund their pet projects.

A sampling: \$9.5 million is in this bill to fund research in Montana on hypersonic wind tunnels, called MARIAH—M-A-R-I-A-H. This self-licking ice cream cone has been with us, earmarked and unrequested, since 1998. The Air Force, leader in hypersonic testing and technology, lost interest in 2004, so appropriators moved the program to the Army. The Army has no official requirement for this capability and published a report in 2005 stating their disinterest in the program.

To date, the Army has no plans to fund the MARIAH wind tunnel effort, as they have stated in their budget documents. That has not kept the Congress from pouring more than \$70 million into it—more than \$70 million—with no discernible return. One group has done very well in the deal, however. Of course, I am referring to lobbyists, including Gage LLC, whose CEO, coincidentally, had been a senior staffer to an appropriator from Montana. I intend to offer an amendment to strike this earmark in the bill, and I can assure you, you will hear more from me on this.

We have spent more than \$70 million on a project that has had no return, that the military has said they have no interest in pursuing.

Another earmark is \$5 million to the battleship USS Missouri Memorial Association. This is a private organization which owns and operates this battleship as a museum in Pearl Harbor. I am aware that the association plans to put the Missouri in drydock and refurbish it, and also aware it was not part of the donation agreement that the Defense Department would pay for required maintenance.

I am all for Navy ships being placed in places where Americans can see and appreciate the great service and sacrifice of the men and women in the military, the Navy and Marine Corps in particular. The deal was that the Defense Department would not, that they would take care of the maintenance of

it, that they would take care of whatever the needed expenses are. So here is \$5 million.

Another earmark is \$25 million for the National World War II Museum in New Orleans, to help pay for the construction of new facilities as part of a \$300 million expansion. This privately funded museum opened in 2000 and, through the help of the Louisiana delegation, has already received \$13 million in Department of Defense funds tucked into previous appropriations bills.

Again, if the members of the Appropriations Committee wish to go through the authorization process and have this project authorized, I would be more than willing to consider it.

Another appropriation is \$13.8 million for five different earmarks pertaining to nano-tuber research. Of the almost 800 earmarks I mentioned earlier, hundreds are for high-tech research or devices. I ask my colleagues whether they are capable of weighing the merits of specific technologies they fund in this bill.

Another earmark is \$20 million for a center at the University of Massachusetts "dedicated to educating the general public, students, teachers, new Senators, and Senate staff about the role and importance of the Senate." This center was neither requested in the President's budget nor authorized by Congress. Certainly a legitimate question should be whether \$20 million should be appropriated for a project that has nothing to do with the defense of this Nation. It may be a worthwhile project. Why couldn't we get it authorized?

Another earmark is \$10 million, as usual, to the University of Hawaii for a program called the Panoramic Survey Telescope and Raid Response System, Pan-STARRS. On the surface, this program seems like a reasonable need for the Air Force as a part of its Space Situational Awareness efforts. Unfortunately, the Air Force will not be getting much return on this investment since it will only be allowed to use the telescope 5 percent of the time.

Let's get that straight. The Air Force is paying \$10 million so the telescope could be developed and maintained, and they are going to get to use it 5 percent of the time. In dollar figures, the Air Force pays \$10 million to the university and receives \$500,000 in return. What is more, the Air Force has not, in the 9-year life of this earmark, requested a single dollar for this program. So since 2001, the Air Force has been forced to spend more than \$75 million of its budget allocation on a program it does not want—but might be able to use—only to be denied use 95 percent of the time.

I do not dispute that some of the earmarks listed in the bill have value. I am sure they do. But I protest the process by which Congress ignores priorities of the armed services so that

Members can deliver tax dollars to their constituents for programs which may have nothing to do with the defense of our Nation, and at a time when we can least afford to misuse resources. We all know the economy has taken a beating over the last year. Unemployment is just under 10 percent, and the national debt is \$11.8 trillion. So we are going to provide \$20 million to a center with a purpose to extol the virtues of the Senate?

The issues we face as a nation require all of us to make sacrifices—all of us. It is about time we started setting an example.

In today's Washington Post is an article written by Jeffrey Smith, entitled "Defense Bill, Lauded by White House, Contains Billions in Earmarks." Mr. President, I ask unanimous consent that article be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Sept. 29, 2009]

DEFENSE BILL, LAUDED BY WHITE HOUSE,  
CONTAINS BILLIONS IN EARMARKS

(By R. Jeffrey Smith)

Sen. Thad Cochran's most recent reelection campaign collected more than \$10,000 from University of Southern Mississippi professors and staff members, including three who work at the school's center for research on polymers. To a defense spending bill slated to be on the Senate floor Tuesday, the Mississippi Republican has added \$10.8 million in military grants earmarked for the school's polymer research.

Cochran, the ranking Republican on the Appropriations subcommittee on defense, also added \$12 million in earmarked spending for Raytheon Corp., whose officials have contributed \$10,000 to his campaign since 2007. He earmarked nearly \$6 million in military funding for Circadence Corp., whose officers—including a former Cochran campaign aide—contributed \$10,000 in the same period.

In total, the spending bill for 2010 includes \$132 million for Cochran's campaign donors, helping to make him the sponsor of more earmarked military spending than any other senator this year, according to an analysis by the nonprofit group Taxpayers for Common Sense.

Cochran says his proposals are based only on "national security interests," not campaign cash. But in providing money for projects that the Defense Department says it did not request and does not want, he has joined a host of other senators on both sides of the aisle. The proposed \$636 billion Senate bill includes \$2.65 billion in earmarks.

President Obama has repeatedly promised to fight "the special interests, contractors and entrenched lobbyists" that he says have distorted military priorities and bloated appropriations in the past. In August, he told a convention of the Veterans of Foreign Wars that "if Congress sends me a defense bill loaded with a bunch of pork, I will veto it."

But the White House instead sent a generally supportive message to the Senate about the pending defense bill on Friday, virtually ensuring that the earmarks will win final congressional approval. For the most part, the White House lauded the bill's proposed funding for the wars in Afghanistan and Iraq, as well as its cancellation of three programs that Defense Secretary Robert M.

Gates has been particularly eager to kill this year: the F-22 fighter plane, a second engine for the F-35 fighter and a new presidential helicopter program.

The bill, however, would add \$1.7 billion for an extra destroyer the Defense Department did not request and \$2.5 billion for 10 C-17 cargo planes it did not want, at the behest of lawmakers representing the states where those items would be built. Although the White House said the administration "strongly objects" to the extra C-17s and to the Senate's proposed shift of more than \$3 billion from operations and maintenance accounts to projects the Pentagon did not request, no veto was threatened over those provisions.

The absence of such a threat provoked Winslow Wheeler, director of a military reform project at the Center for Defense Information, to describe Obama's stance as "too wimpy to impact behavior." Wheeler, who earlier criticized the House for approving a version of the bill that includes extra C-17 planes, \$2.7 billion worth of earmarks and other projects that Gates dislikes, said that "as a long-time Senate staffer who has read these documents for years, my interpretation of it is that the House-Senate conference will listen politely . . . and then do as it pleases."

Senior Obama aides responded that the White House never sought to fix the problem of earmarks in one year. "The president has been clear from Day One: He wants to change the way business gets done in Washington," Thomas Gavin, a spokesman for the Office of Management and Budget, said Monday. "The results speak for themselves. Earmarks in the defense appropriations bills are down 27 percent in the House and 19 percent in the Senate. This is an important step forward in the president's drive to shape a government that is more efficient and more effective."

Those figures are the most flattering the White House could have used: They refer to the number of earmarks in the bills, not total spending. Total spending on military earmarks in the Senate declined by only 11 percent from the \$3 billion approved by Congress last year.

"Despite the fact that earmarks are down, there's still nearly 800 . . . for projects that rose to the top by dint of political power rather than project merit," said Ryan Alexander, president of Taxpayers for Common Sense. "The president needs to take a harder line against waste and political gamesmanship, particularly in the defense bill, which is paying for two wars."

There is, however, wide bipartisan support in Congress for diverting funds to political donors or home-state causes.

Sen. Daniel K. Inouye (D-Hawaii), chairman of the Senate Appropriations Committee, ran a close second to Cochran's \$212 million in earmarks this year, having added 37 earmarks of his own worth \$208 million, according to the tally by Taxpayers for Common Sense.

Almost all of Inouye's earmarks are for programs in his home state, and 18 of the provisions—totaling \$68 million—are for entities that have donated \$340,000 to his campaign since 2007. His earmarks included \$24 million for a Hawaiian health-care network, \$20 million for Boeing's operation of the Maui Space Surveillance System and \$20 million for a civic education center named after the late senator Edward M. Kennedy.

"Many of my earmarks are intended to support investment in small businesses working to hone new and innovative technologies that will better protect and support

our soldiers during a time when our nation is at war," Inouye said in a statement Monday.

In Cochran's case, the proposed earmarks would benefit at least two entities that hired his former aides. The manager of Mississippi operations for Colorado-based Circadence is R. Bradley Prewitt, whose biography on the company's Web site states that he was counsel and campaign manager to Cochran from 1997 to 2002. The University of Southern Mississippi, which would receive \$10.8 million in Cochran earmarks, paid \$40,000 to a firm that employs Cochran's former legislative director, James Lofton, to help lobby on defense appropriations, according to the firm's Senate registration.

"Senator Cochran takes his responsibilities on the Appropriations Committee very seriously," spokesman Chris Gallegos responded Monday. "Senator Cochran does not, and never will, base his decisions on campaign contributions."

Mr. MCCAIN. Quoting from the article:

President Obama has repeatedly promised to fight "the special interests, contractors and entrenched lobbyists" that he says have distorted military priorities and bloated appropriations in the past. In August—

As I mentioned—

he told a convention of the Veterans of Foreign Wars that "if Congress sends me a defense bill loaded with a bunch of pork, I will veto it."

Mr. President, this bill fits that description.

It goes on:

The bill, however, would add \$1.7 billion for an extra destroyer the Defense Department did not request. . . .

It talks about the C-17s and "the Senate's proposed shift of more than \$3 billion from operations and maintenance accounts to projects the Pentagon did not request, no veto was threatened over those provisions."

I want to say again, I am sure the managers of this bill will somehow try to justify this transfer out of operations and maintenance into the C-17. It is not a credible argument. It is not a credible argument.

The absence of such a threat provoked Winslow Wheeler, director of a military reform project at the Center for Defense Information, to describe. . . .

Senior Obama aides responded that the White House never sought to fix the problem of earmarks in one year. "The president has been clear from Day One: He wants to change the way business gets done in Washington". . . .

One thing I know about egregious practices, if you do not stop them early in an administration, you never will. It will be alleged that earmarks are down less than they were before, it is an important step forward, and the sponsors of the bill will say earmarks are down 27 percent in the House and 19 percent in the Senate.

Those figures are the most flattering the White House could have used: They refer to the number of earmarks in the bills, not total spending. Total spending on military earmarks in the Senate declined by only 11 percent from the \$3 billion approved by Congress last year.

"Despite the fact that earmarks are down, there's still nearly 800 . . . for projects that

rose to the top by dint of political power rather than project merit," said Ryan Alexander, president of Taxpayers for Common Sense. "The president needs to take a harder line against waste and political gamesmanship, particularly in the defense bill, which is paying for two years."

Mr. President, I have an amendment at the desk, and I ask for its immediate consideration.

The PRESIDING OFFICER. The bill is not yet pending.

Mr. MCCAIN. I thank the Chair.

#### CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

#### DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2010

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of H.R. 3326, which the clerk will report by title.

The bill clerk read as follows:

A bill (H.R. 3326) making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes.

#### AMENDMENT NO. 2558

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. Mr. President, I have an amendment at the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from Arizona [Mr. MCCAIN] proposes an amendment numbered 2558.

Mr. MCCAIN. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To strike amounts available for procurement of C-17 aircraft in excess of the amount requested by the President in the budget for fiscal year 2010 and to make such amounts available instead for operation and maintenance in accordance with amounts requested by the President in that budget and for Operation and Maintenance, Army, for overseas contingency operations)

At the appropriate place, insert the following:

SEC. \_\_\_\_ (a) REDUCTION OF AIRCRAFT PROCUREMENT, AIR FORCE, FOR EXCESS AMOUNTS FOR C-17 AIRCRAFT.—The amount appropriated by title III under the heading "AIRCRAFT PROCUREMENT, AIR FORCE" is hereby reduced by \$2,500,000,000, the amount equal to the amount by which the amount available under that heading for the procurement of C-17 aircraft exceeds the amount requested by the President in the budget for the Department of Defense for fiscal year 2010 for the procurement of such aircraft, with the amount of the reduction to be allocated to amounts otherwise available for the procurement of such aircraft.

(b) AVAILABILITY FOR OPERATION AND MAINTENANCE.—The amount appropriated by title

II for Operation and Maintenance is hereby increased by \$2,438,403,000, in accordance with amounts requested by the President in the budget for the Department of Defense for fiscal year 2010.

(c) AVAILABILITY FOR OPERATION AND MAINTENANCE, ARMY, FOR OVERSEAS CONTINGENCY OPERATIONS.—The amount appropriated by title IX under the heading "OPERATION AND MAINTENANCE, ARMY", is hereby increased by \$61,597,000.

Mr. MCCAIN. Mr. President, the amendment strikes funding in the Defense appropriations bill for 10 C-17 Globemaster aircraft that we neither need nor can afford. My amendment also redirects those funds to critically important operations and maintenance accounts which the appropriators have seen fit to cut.

At about \$250 million per aircraft, the total cost to the taxpayer of the C-17 earmark in this bill is \$2.5 billion. But how are we paying for these aircraft? With the cuts made in the bill, it appears much of the offset for paying for the 10 aircraft falls on the O&M accounts. So why are we buying C-17s we don't need and can't afford while at the same time reducing overall O&M accounts by \$3 billion?

I am sure the managers of the bill will justify this cut in operations and maintenance. I would rely on the judgment of the Secretary of Defense and the Chairman and members of the Joint Chiefs of Staff who will tell us they need this money for operations and maintenance.

I hope my colleagues understand what this really means. If this bill passes with these cuts, the Air Force in particular will be forced to decrease funding for training, equipment, depot maintenance, and the restoration and modernization of air bases across the United States, and they would not be alone. The Army, Navy, Marine Corps, and National Guard would also come out on the wrong end of these cuts and would be forced to reduce funding for facilities sustainment, training, and recruiting.

After 8 years of war, the Army's equipment readiness has fallen to truly worrisome levels. In testimony before the Armed Services Committee this year, Secretary of the Army Pete Geren said:

Predictable and timely funding is key for us to be able to operate an organization the size of the United States Army. . . . When funding is unpredictable, it makes it very hard to plan long term.

I have seen a hollow Army, deeply degraded in the decade after Vietnam and again during the drawdown of the 1990s. Today's forces are not in such dire straits as those, but 8 years of war has taken its toll on the Army, Marines, Guard, and Reserve component ground forces. As GEN George Casey said: "The current demand for our forces exceeds the sustainable supply."

Particularly in a time of war, I urge my colleagues to invest in the recapitalization of our ground forces—not

funding aircraft we neither need nor can afford with those investments.

Finally, I wish to mention the Army Reserve and National Guard, which are, as General Casey described, "performing an operational role for which they were neither originally designed nor resourced." In my view, any cut to their operations and maintenance accounts will retard the ability of these components to fit and deploy for missions at home or abroad. And I am sure the Secretary of Defense would say he would like a lot more because of the wear and tear and degradation that already exists to much of our equipment and capabilities.

We can and must do better. Left uncorrected what we would do in this bill is effectively fund the purchase of new aircraft that we neither need nor can afford with critical sustainment money. That would have a significant impact on our ability to provide the day-to-day operational funding that our service men and women and their families deserve.

Let me turn briefly to the merits of the C-17 earmark itself. If some of these remarks sound familiar, that is because I was on the floor of the Senate less than 3 months ago speaking about C-17s when the Senate Appropriations Committee earmarked eight of these cargo aircraft in the 2009 supplemental appropriations bill at a cost of \$2.25 billion. That is right. In just 3 months, the Appropriations Committee has set aside nearly \$5 billion for 18 C-17 aircraft that we don't need, the Pentagon doesn't want, and we can't afford.

Against that backdrop, over the last 3 years the White House has actively been trying to close down the C-17 production line, asking for as much as \$500 million per year to shut down the line. But over that same period, the appropriators have been working in the exact opposite direction to ensure continued funding for the program in supplemental war funding bills—bills that are supposed to be used to fund the wars in Iraq and Afghanistan.

So despite that the Democrat Department of Defense's overall requirements for C-17s continue to sit at 180, the appropriators have required the Department to buy through fiscal year 2009 a total of 213 C-17s, and they have done so before two key studies have been completed.

This chart illustrates what is going on. Marked in red we see the C-17s the appropriators have added. Why? Because our service men and women need them? No. In 2007, 2008, 2009, and 2010 the Air Force budgeted money to close the line each and every year.

Is the reason some sort of new stimulus package which will create new jobs? No. That is because, as I mentioned, they have had three dozen more C-17s than the Air Force has needed. In fact, right now, the backlog of C-17s is

such that Boeing will not begin building these aircraft earmarked by the appropriators for another 2 years.

In the bill we are debating today, the 10 C-17s the appropriators want to fund will bring the total number of C-17s the Senate Appropriations Committee has added above any validated military requirement to 44. Enough is enough.

According to the most recent Statement of Administration Policy, the administration "strongly objects" to the addition of \$2.5 billion in funding for 10 unrequested C-17 aircraft. The Department of Defense's own analyses show that the 205 C-17s in the force and on order, together with the existing fleet of aircraft, are sufficient to meet the Department's future airlift needs even under the most stressing conditions.

Secretary Gates has likewise very clearly said that the military has no need to buy more C-17s. While Secretary Gates called the C-17—and I agree—a "terrific aircraft," he stressed earlier this year that the Air Force and U.S. Transportation Command "have more than necessary" strategic airlift "capacity" for airlift over the next 10 years. Nonetheless, continuing C-17 production would cost about \$3 billion per year from 2010 onward.

There is little reason why, in connection with the fiscal year 2010 budget request, the President not only requested no funding for additional C-17s but also recommended this program for termination. In light of today's financial exigencies, continuing to spend billions of dollars for C-17s the Pentagon doesn't need and can't afford is becoming increasingly unsustainable. More so than almost any other earmark I have discussed on the Senate floor, this earmark shows our priorities are just about the opposite of where they should be.

For that reason, I am persuaded by the strength of Secretary Gates's opposition, and I find unacceptable the apparent source of funding for this earmark and urge the Members of this body to support my amendment. As I mentioned before, the amendment would redirect money from buying the C-17s we don't need and can't afford to critically important operations and maintenance accounts that are the lifeblood of our troops and their families.

So we have a choice with this amendment. We can either continue to fund an airplane that the military neither wants nor needs, or we can restore the cuts in funding in operations and maintenance which, according to the testimony of every military leader, is badly needed and wanted. The body will be presented with that choice.

Mr. President, I ask for the yeas and nays on this amendment.

The PRESIDING OFFICER (Mr. KAUFMAN). Is there a sufficient second? There appears to be.

The yeas and nays were ordered.

Mr. MCCAIN. Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. BROWN. Mr. President, I ask unanimous consent to speak as in morning business for up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### INVESTING IN EDUCATION

Mr. BROWN. Mr. President, as Congress awaits health reform and climate change, we must also remember that education is another one of the great moral issues of our time.

Last week, my Washington office was honored to have DeAnthony Cummings serve as an intern for the day. He was 1 of only 60 students selected nationwide who traveled to Washington to participate in Job Corps Day, 45 Years of Building Lives and Launching Careers. For more than four decades, Job Corps centers around the Nation have provided vocational academic training for nearly 3 million economically disadvantaged young Americans.

DeAnthony is enrolled at the Cincinnati Job Corps Center where he is serving his second term as class president. Several months ago I visited with him and his friends at Job Corps. As the eldest sibling, DeAnthony wants to set a good example for his family. He says Job Corps is preparing him for college, where he wants to study psychology and political science. He told me he wants to run for elective office someday to serve his country. He deserves an educational system that helps him get there.

In the coming weeks, the Senate will take up a major bill to expand student aid and education funding at no additional cost to taxpayers. For aspiring college students such as DeAnthony, the bill would move all Federal student loans to the more efficient and less costly public direct loan program. The \$87 billion in savings over 10 years can be invested in educational opportunities for our students—for future teachers and doctors and engineers and scientists and computer technicians and farmers.

The bill will protect a student's purchasing power of a Pell grant by ensuring that the maximum grant grows faster than inflation. Senator CASEY from Pennsylvania, who is with us today, worked with me last year to raise those Pell grants that hadn't been raised in 5 or 6 years to get them to the place where students had more opportunity to go to school. For students attending college today, the maximum Pell grant is now \$5,350, a historic high.

By eliminating wasteful subsidies to lenders, we can make college more affordable and focus our attention on retention and students' success. That is where one of the Nation's most valuable resources plays a critical role. The community college system is essential to training our most talented workers and students for new jobs in new industries. Last month, the New York Times

reported how Sinclair Community College in Dayton focuses on jobs not just degrees.

President Obama's American Graduation Initiative has proposed investing \$12 million in community colleges and increasing the number of community college graduates by 5 million over the next decade. Dr. Jill Biden, one of the Nation's most eloquent voices on community colleges, has said:

Community colleges change lives and serve as a gateway to opportunity for students at all stages of their lives and careers.

A few months ago, at a constituent coffee in Washington, I met an Ohioan who inspired me. Denee, from Columbus, grew up with 13 different foster care families and spent time with the Department of Youth Services. But she believed that better things were ahead for her. She worked hard, earned her GED, enrolled in Columbus State University, and is now finishing nursing school and will start a new job in the fall. Legislation such as the Building Student Success Act, which I recently introduced, will help community college generate a better outcome for their students. It is that type of Federal investment that will help presidents of Ohio's colleges and universities provide the resources for student success on campuses all over my State.

For the last 2 years, I have held the Ohio College Presidents Conference which brings together presidents of Ohio's 2- and 4-year colleges and universities to craft education policy in Washington that meets the needs of Ohio's students. Some 55 college presidents each of the last 2 years have attended and shared their experiences and ideas and views and best practices with one another. Much of what we discussed is what President Obama has explained before: that it is not enough for our economy just to recover, we must rebuild it, and that starts in our classrooms.

Reforming Federal student loan programs frees up resources to modernize schools and strengthen early childhood education. The impact of these investments will, of course, span generations. Student loan reform gives us an opportunity to address another problem that has become more acute because of the economic crisis. Too many of our Nation's students are signing away their economic future when they sign up for college.

In 2007, 63 percent of Ohio graduates of public colleges finished school with an average debt of \$21,000; 75 percent of Ohio graduates of private colleges finished school with an average debt of \$22,700.

Private loans typically, though, have higher interest rates that can top 18 percent and have fewer repayment options than loans administered directly by the U.S. Department of Education.

According to an analysis by the Project on Student Debt, nearly two-

thirds of private student loan borrowers didn't exhaust their Federal loan eligibility. That is why I introduced the Private Student Loan Debt Swap Act.

Under my debt swap bill, if you have an expensive and unaffordable private student loan, you can use your remaining Federal student loan eligibility to pay off or at least pay down some of that loan. By swapping expensive private loan debt, sometimes with local banks or national banks at 18 percent interest, with low-cost Federal student loans capped at under 7 percent, borrowers could much more readily repay their loans.

This legislation wouldn't increase government spending; in fact, it will likely reduce it. Expanded Pell grants and a strong debt swap bill would help Ohioans such as Kimberly, a schoolteacher from Toledo. During college, she took out private student loans, expecting that she would consolidate them after graduating. After accepting a teaching position, her lenders would not consolidate the loans because of the economy. Kimberly is a teacher at a low-income Head Start school, so she doesn't make as much money as a teacher in a public high school. She has four loans, with four different interest rates, which are all significantly higher than Federal student loan rates.

Kimberly should not have to spend the rest of her career paying off her loans or as she writes:

I knew that I would be paying out my loan long after graduating, but at this point, someone else will have to pay out the loan after I'm gone.

Imagine that. She thinks she will never be able to fully pay this loan back because of the exorbitantly high interest rate charged by the banks.

Private student loans with enormous interest rates are driving young Americans into never-ending debt. There is no American dream within reach in that scenario for the Kimberlys of the world, just a sense of helplessness and hopelessness.

That is why this student reform bill is so important. John F. Kennedy said once: "Our progress as a nation can be no swifter than our progress in education."

In Portsmouth, Lima, Mansfield, Marietta, Toledo, Akron, Gallipolis, and Mason, we have leaders in our community, such as Kimberly, teaching in our classrooms, or, such as Denee, healing people in our hospitals.

Years from now? DeAnthony Cummings should be able to stand in this Chamber representing Ohio because there was an education system that believed in him.

The student aid reform bill is part of the progress we seek—that will allow a child, a working mother or an older worker to believe that in this Nation, if you work hard and play by the rules, you, too, can have part of the American dream.

I yield the floor.

The PRESIDING OFFICER. The Senator from Missouri is recognized.

Mr. BOND. Mr. President, there is no doubt that there may be things in the Defense budget that you could characterize expensive, overbudget, and behind schedule programs. But the C-17 aircraft is not one of them, which is why it is so bewildering—and disappointing—that some of this Chamber's well-known budget hawks are opposed to a model procurement program and a boon for the taxpayers.

While the most important concern, of course, is for our warfighter and national security—which I will go into in more detail in a moment—let me address what seems like the primary concern for some of my colleagues: the budget.

Investing in the C-17 is actually a better use of taxpayer dollars than the obsolete and unreliable C-5A. C-17s are planes we need and can afford. The Government Accountability Office has found it would take seven rehabbed and remanufactured C-5As, at a cost of \$924 million to the taxpayer, to equal the capability of just one new C-17. They have to have that airlift. Right now, the C-5A is part of it. But it cannot continue as it is. You can get a C-17 for a lot less than you can remanufacture and rehab one of the old C-5As, and that doesn't even work so good.

My biggest concern, of course, is national security. Some of my colleagues have attacked the C-17 as a special interest item. I agree. Investing in the C-17 is in the special interest of our warfighters and it is critical to our national security interests and it gives us the heavy lift air mobility we require these days.

The C-17 is a proven, combat-tested airlift capability that is essential to the fight we are in right now, and it has been a workhorse in Iraq and Afghanistan.

As some of my colleagues have mentioned, we are at war. I couldn't agree more that this is our primary concern, which is, again, why the C-17 is so important. With the war in Afghanistan heating up and the war in Iraq continuing, our airlift needs are only growing.

The Congressional Research Service has indicated that the C-17 was designed to fly 1,000 hours per year over 30 years. But as our overseas commitments have grown, some aircraft have even reached 2,400 flying hours in a single year. My colleague from Arizona pointed out that equipment is being worn out quickly in Iraq and Afghanistan. That is no doubt true. But one key piece of our equipment there is our heavy airlift capability. The heavy usage, in addition to the growth of the Army and Marine Corps, the logistics difficulty of getting supplies into Afghanistan, and the need for increased humanitarian/smart power missions in

Afghanistan, Iraq, and elsewhere in the world are all reasons why I urge my Senate colleagues to support the provision in the bill that would add the long lead time purchase we need right now to make sure we can continue to purchase the C-17s as the needs develop.

Some opponents may argue that the Department of Defense and the President don't want more, that they have enough C-17s and C-5s to do the job. However, with a 50-percent readiness level, a per hour operating cost of \$29,000, and 40 maintenance man-hours per 1 hour of flight, the C-5A represents ineffective and costly iron.

By replacing these obsolete, ineffective, and costly C-5As with new C-17s, which this Congress has allowed the Department of Defense to do by lifting a truly special legislative interest prohibition, saying in the past they could not retire them, we could save money, provide a more reliable capability for our warfighter, and preserve industrial capability for the future.

I have talked about the importance of investing in our airlift capability for our warfighter and our efforts in Afghanistan and Iraq. But as America's only large airlift production line, the C-17 production line, if ended, would put at risk our Nation's long-term security. Eliminating the only large airlift production line in the United States would demonstrate a lack of understanding and appreciation for the skill sets and efforts needed to build these aircraft.

Without a follow-on program, and because we have already shrunk our aerospace defense industrial base to such a low level, once these skilled workers, the engineers, designers, and their expertise are gone, we do not get them back.

If we lose the skilled engineers, designers, and dedicated workers, we could be forced to turn to Europe or Russia for our future large airlift needs. More and more, this national talent and industrial workforce, which manufactures the critical and unique equipment that helps us fight and win our wars, is being eviscerated.

Without additional funding, our aerospace engineering, design, and manufacturing base will atrophy.

This will put at risk our competitiveness on the global market, our ability to address future airlift requirements, and put at risk 30,000 American jobs stretched across 43 States.

This isn't about preserving jobs in tough economic times, although I believe the administration certainly missed a big opportunity in the stimulus bill to recommend stimulating the economy in defense production. They didn't put a single dollar in defense production needs, which is where we have tremendous needs.

The C-17 addresses a shortsighted decision on the part of the administration. That decision took for granted

the capacity and innovation of our defense industrial base, but we cannot afford to let that wither because their proposal put out of work the people who have designed these aircraft. We have found, in the past, when we have shut down acquisition lines, the skilled engineers leave. One example is they went to work at Disney. That is great. That is good work, but it is not protecting our national defense.

After the draconian defense cuts during the Clinton administration, the arsenal of democracy consolidated and shrank to a point where any further consolidation will result in an irreversible loss in competition, innovation, and industrial capacity.

C-17 production will shut down in 2010 without these 10 aircraft, and restarting production would be incredibly difficult and expensive—according to the GAO, up to \$1 billion.

The GAO study further noted that “careful planning is needed to ensure the C-17 production line is not ended prematurely and later restarted at substantial cost.”

Additionally, the GAO found that “both the manufacturer and Air Force agree that shutting down and restarting production would not be feasible or cost-effective.”

Keeping the C-17 line open is critical not only for our national defense but for thousands of American workers who rely on this aircraft for their livelihood.

With the waning demand for commercial aircraft and a lull in military fighter jet production, it is more critical than ever to maintain the aerospace industrial base that runs the only remaining wide-body assembly line in the United States.

I urge my colleagues to exercise their constitutional authority and not go along with what I believe will be shown very shortly, if we make the decision, to have been very shortsighted. This is a decision that we, in our constitutional responsibility, can and must make.

We cannot afford disastrous defense cuts coming out of the OMB, which is why we fought and won the effort in committee earlier. It is critical—and that colleagues join with me in supporting the managers on the floor to fight a shortsighted attempt to eviscerate our warfighter's airlift capability and our Nation's industrial base. Both are critical elements for the long-term security and future of our country.

I urge my colleagues to join me in opposing the McCain amendment.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. JOHANNIS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. JOHANNIS. Mr. President, I ask unanimous consent to speak as in morning business for about 12 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### HEALTH CARE

Mr. JOHANNIS. Mr. President, many have come to this Chamber and have talked about their constituents and the concerns that have been expressed to us about health care and how their families would be directly impacted. The frustration driving many of those individuals who have written to us, picked up the phone, attended a town-hall meeting continues. They worry we are not listening.

The biggest misconception is that those who are raising concerns about the President's health care proposals believe that somehow they are defending the status quo. That could not be further from the truth.

We can all agree that health care costs are rising at rates that create hardships across our country. They impact families and businesses, and ultimately they are not sustainable for Federal and State budgets.

There are many things I believe upon which there would be very universal agreement. For example, I support insurance market reforms that increase access to insurance for people who have preexisting conditions. Many of us do in the Senate. I support allowing small businesses to band together to bring down health insurance premiums. Many here do. I support subsidies for those who truly cannot afford insurance to help them buy down their premiums, their deductibles or copays. Again, many here could. I support real malpractice reform that would curb costs by reducing defensive medicine. Again, many here do.

These commonsense reforms and others we could mention could be the cornerstone of what I believe would be a truly bipartisan solution to our health care crisis. But I believe the current proposals have veered in a very different direction. I cannot support so-called reform that lowers the quality of our health care, compromises the doctor-patient relationship, and drastically increases costs for Americans. Yet I worry that the provisions working their way through the Senate Finance Committee appear to do precisely that—increase costs and jeopardize quality. I do not believe it is the kind of health care reform Americans have sent us to Washington to enact.

In our current economic crisis, the last thing American families need is to see more of their paychecks going to pay taxes. This legislation presents a “darned if you do, darned if you don't” scenario. It taxes you if you have insurance and it taxes you if you don't.

People who depend on medical devices will see prices rise. So will individuals who take prescription drugs.

States will have to raise money to pay for what I regard as an unfair unfunded Medicare mandate. Having been a Governor, I can tell you there are limited choices in State budgets, and State budgets are in crisis today. They are either going to have to raise taxes to somehow find the revenue to deal with that mandate, or they are going to have to do something equally unpleasant; that is, cut programs. Which State programs do you think Americans will want to sacrifice so Washington can have its way with the States in the Medicaid unfunded mandate?

I can tell you from experience, cutting programs is an impossible decision. So is raising taxes. States should not be put in a difficult position again and again by an overreaching Federal Government. Employers will be taxed in order to pay for required health care insurance for their employees. These taxes will create financial heartburn that no doctor's prescription can ease.

This legislation will require every American to have health insurance, with limited exceptions, and not just any health insurance. It requires health insurance that meets specific qualifications the bureaucracy in Washington will dictate.

The Finance Committee bill would require you to spend a certain share of your income before becoming eligible for health insurance subsidies. Under the original Finance Committee proposal, the Congressional Budget Office estimated that an individual who makes \$32,400 a year—not a lot of money—would be required to pay \$4,100 in health care insurance premiums before becoming eligible for a subsidy. That individual would also be required to pay, on average, \$1,600 in copayments and deductibles. These individuals would be required, through the government mandate, again, to spend 18 percent of their income on health insurance. Surprisingly, the cheaper catastrophic coverage some would prefer would not be considered a so-called qualified plan; therefore, not an option.

Furthermore, if you choose not to have health insurance that meets these qualifications, you could be forced to pay out as much as \$1,900 in additional taxes per family.

The Internal Revenue Service will be knocking on your door to make sure you literally buy into federally dictated health care reform efforts.

I have heard from many Nebraskans who feel as if this individual mandate is a direct assault on their freedom. Most people do not like the notion that Washington tells them how to live their lives. Imposing an individual mandate tax rubs Americans the wrong way. Not only are we telling them they must buy insurance, but we are telling them what kind of insurance they must buy.

I know some, including our President, argue this is not a tax; rather, it

is simply a shared responsibility. The very language in the Finance Committee plan clearly states this is a tax, and it brings in about \$20 billion. Where is the President's promise that he would not raise taxes on individuals who make under \$250,000 a year? Well, it is nonexistent. Last week, this was made clear during the Finance Committee markup. When asked about the effect of this individual mandate tax on the middle class, the chief of staff for the Joint Committee on Taxation responded:

We would expect that some people paying would make less than \$250,000.

For hard-working families, the individual mandates will load them up with a fancy benefit plan covering services they may not want or need. They will be required to buy it or their government will penalize them.

This is a complex and a fundamental shift in how we approach health care in our great country, indeed, in how much the government dictates the health care decisions of each and every American.

Furthermore, this legislation raises money by taxing insurance companies, medical device manufacturers, and prescription drug manufacturers. Does anybody doubt for a minute that will be passed on to the average guy? There is little doubt that these increased taxes will lead to higher premiums, more expensive medical equipment, and higher drug prices for Americans. These industries will compensate for the added tax by raising prices, ultimately raising the cost of health care in this country.

Additionally, this plan is likely to decrease research and development in the health care sector, which has been a major driver of innovation and improvement in health care quality. Creating policy that decreases the quality of our health care makes no sense. It is counterproductive. Requiring employers to provide health insurance to their employees or be fined or taxed does not make sense. The Finance Committee proposal is expected to collect \$27 billion worth of those fines or taxes. In tough economic times, with unemployment almost in double digits and forecasts to go into double digits, putting more requirements and mandates on job creators and job sustainers is counterproductive. Employers will think twice about hiring more workers.

There is little doubt that these increased taxes will lead to higher insurance premiums, more expensive medical equipment, and higher drug prices for Americans. These industries will compensate by raising their prices. They simply will.

I fear low-income Americans will suffer the most. They need those jobs. We must carefully evaluate the details of this legislation and ensure that our attempts to make things better, which I believe we can do in a bipartisan way,

do not ultimately make things worse. I suggest that in tough economic times, creating legislation that increases the cost of health care, that raises taxes is not true health care reform.

I yield the floor.

The PRESIDING OFFICER. The majority leader.

#### MAJORITY PARTY MEMBERSHIP ON CERTAIN COMMITTEES

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to S. Res. 290.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 290) to constitute the majority party's membership on certain committees for the One Hundred Eleventh Congress, or until their successors are chosen.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, with the filling of Senator Kennedy's seat by the State of Massachusetts, we are now rearranging the committees. Some have been vacant since his death.

I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 290) was agreed to, as follows:

#### S. RES. 290

*Resolved*, That the following shall constitute the majority party's membership on the following committees for the One Hundred Eleventh Congress, or until their successors are chosen:

COMMITTEE ON ARMED SERVICES: Mr. Levin (Chairman), Mr. Byrd, Mr. Lieberman, Mr. Reed, Mr. Akaka, Mr. Nelson (Florida), Mr. Nelson (Nebraska), Mr. Bayh, Mr. Webb, Mrs. McCaskill, Mr. Udall (Colorado), Mrs. Hagan, Mr. Begich, Mr. Burris, and Mr. Kirk.

COMMITTEE ON HEALTH, EDUCATION, LABOR AND PENSIONS: Mr. Harkin (Chairman), Mr. Dodd, Ms. Mikulski, Mr. Bingaman, Mrs. Murray, Mr. Reed, Mr. Sanders, Mr. Brown, Mr. Casey, Mrs. Hagan, Mr. Merkley, Mr. Franken, and Mr. Bennet.

COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS: Mr. Lieberman (Chairman), Mr. Levin, Mr. Akaka, Mr. Carper, Mr. Pryor, Ms. Landrieu, Mrs. McCaskill, Mr. Tester, Mr. Burris, and Mr. Kirk.

JOINT ECONOMIC COMMITTEE: Mr. Schumer (Vice Chairman), Mr. Bingaman, Ms. Klobuchar, Mr. Casey, Mr. Webb, and Mr. Warner.

#### DEPARTMENT OF DEFENSE AP- PROPRIATIONS ACT, 2010—Continued

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, as the Senate realizes the business today is the administration's fiscal year 2010 Defense budget proposal, our Committee on Appropriations, as everyone

knows, in the regular order, had hearings and took advantage of advice from testimony and suggestions received by other Senators on and off the committee about the provisions of this important legislation. It sets out, as the Senate appreciates, the funding that will be permitted by the Department of Defense for the next fiscal year. So the subject we have today before us is specifically an issue involving a funding provision in the administration's fiscal year 2010 Defense budget proposal.

The administration proposed several funding cuts for weapons programs they deemed unneeded. The Senate Appropriations Committee, in its hearings and in its deliberations, reviewed each of the proposals and generally agreed with the recommendations set forth in the administration's budget submittal.

This bill does not include additional funding for F-22 aircraft, the Presidential helicopter, the Joint Strike Fighter alternate engine, the combat search and rescue helicopter, the Kinetic Energy Interceptor, and several other programs which were proposed for funding cuts by this administration.

The C-17 aircraft is an area where we did not agree. The committee proposed \$2.5 billion be included in the bill for 10 additional aircraft. As we all know, the Defense Department is not infallible. It was wrong and overruled by Congress when it recommended program terminations of the F-117 stealth fighter and the V-22 Osprey.

The C-17 is the current backbone of our strategic airlift capability, and it will be for decades to come. C-17s are being utilized all over the world at a much faster pace than previously anticipated. While they comprise only 60 percent of the Air Force's strategic airlift fleet, they are flying 80 percent of all worldwide strategic airlift missions.

This demand for C-17 lift capability is only going to grow as new airlift missions emerge. Other missions we know about already are rapid deployment of theater missile defenses, counterinsurgency operations, as well as growing airlift demands for an expanding Army and Marine Corps.

Failure to fund the C-17 will result in the United States shutting down its airlift manufacturing base at a time when the demand for airlift is likely to grow. Allowing the C-17 supply base and production line to shut down and then trying to reconstitute it would cost billions of dollars and take years to accomplish.

The Quadrennial Defense Review and the upcoming Mobility Capability and Requirements Study are reassessing our strategic airlift requirements. Until those requirements are reevaluated, the C-17s should be included in this bill. The Air Force Chief of Staff has stated that he believes 205 C-17s and 111 C-5s are needed to meet strategic

airlift requirements and that procuring more than the 205 C-17s already purchased should involve a light reduction and retirement of C-5A aircraft.

Prior to enactment of the fiscal year 2009 Supplemental Appropriations Act in June of this year, the Air Force was prohibited from retiring the older and less capable C-5As. Now that the Department has authority to retire these aircraft, we should replace a number of them with a highly capable aircraft in production today. The Government Accountability Office has concluded:

It will take seven fully modernized C-5s at a cost of \$132 million each to attain the equivalent capability achieved from buying one additional C-17 at a cost of \$276 million.

In other words, it would cost \$924 million to modernize seven C-5s to get the same capability of one C-17 costing \$276 million.

Based on the growing airlift needs and the new authority to retire the aging and hard-to-maintain C-5 aircraft, we added the \$2.5 billion to sustain production of the C-17 program for 1 additional year. This additional year will give the Department of Defense time to complete its airlift reviews and preserve the option of adding to our strategic airlift fleet.

If funding for C-17s is eliminated in this bill and the ongoing studies determine additional airlift is needed, at best there will be significant cost increases and delays in getting the aircraft to the fleet; at worst, it will be cost prohibitive to restart the line and our service men and women will be denied equipment needed to perform their missions. That would be totally unacceptable, and I urge a "no" vote on the McCain amendment.

The PRESIDING OFFICER. The Senator from Hawaii.

Mr. INOUE. Mr. President, the statement I am about to present may appear a bit redundant after listening to the great statement of the senior Senator from Mississippi, vice chairman of this committee. But as chairman of this committee, I want to, by this redundancy, emphasize that Senator COCHRAN and I work as a team, and we agree with the provisions in this measure. For the interest of this body, it should be noted that this measure was passed and presented to the Senate by a vote of 30 to zero—unanimous. A \$636 billion bill coming out of the committee, after due consideration, unanimously is historic.

The amendment of the Senator from Arizona seeks to eliminate funds provided in this bill to sustain the C-17 program. As I indicated, Vice Chairman COCHRAN and I proposed, and the committee accepted, our recommendation to relocate \$2.5 billion to procure an additional 10 C-17 aircraft. If approved, this will bring the total C-17 inventory to 223 aircraft. We believe this is a critical investment which will support our national security strategy

and add much to the needed airlift capability.

There are three main reasons the committee supported adding funding for the C-17:

First, as everyone in the military, from senior leadership to the soldiers being transported, will agree, it is, simply put, a superb aircraft. The C-17 represents the finest in military technology. It is efficient, cost-effective, and highly capable. In short, it has no detractors.

Second, we believe the facts now show that additional aircraft are needed to meet military requirements despite that it is being recommended by the Pentagon for cancellation.

Third, the C-17 embodies the only strategic airlift production program in our Nation. As the Senator from Missouri pointed out, there is nothing on the planning ledger to replace it. If we cut off the production at this moment, it will be unaffordable to restart this program.

The C-17 provides the U.S. military with the essential flexibility to respond on short notice—and I emphasize short notice—anywhere in the world. Our air fleet assets are a major enabler of strategy and operational plans. There is not a military scenario in existence today which can be put into effect without a strong airlift fleet. The C-17 was designed specifically to meet virtually all of the needs of our warfighters. It is the only airlift aircraft that has the ability to fly both great distances and to land on austere airfields anywhere in the world. That is very important because we don't have long runways prepared for us in far-off countries. When teamed with the tactical C-130 and the C-5, the C-17 fleet provides the Nation with the capability to deliver outsized cargo to our forces wherever they may be located.

We believe the C-17 is today the finest airlift aircraft in the U.S. arsenal. With its new avionics and structures, it can maintain a very high mission capability rate. This is a term used by the Air Force to denote the aircraft's ability to perform. Comparative data filed by the Government Accountability Office in November 2008 showed that the C-17 was able to successfully perform its mission in excess of 85 percent of the time. And I think we should note that—85 percent of the time, they are able to perform their mission. On the other hand, the aging C-5 was only able to meet its performance demands 58 percent of the time. For our men and women in uniform, what this means is that if they are depending on a C-5, their needs will be only addressed a little more than half the time, while a C-17 will meet their needs more than 8 times out of 10.

In addition, the C-17 is much cheaper to operate than the C-5. It is true that a C-5 has the capacity to carry more cargo, but in the actual usage by the

Air Force, the cost per flying hour of the C-17 is only 40 percent of the cost of the C-5. The Air Force has informed us that today its current statistics show that it costs \$6.42 to fly 1 pound of cargo from South Carolina to Baghdad on a C-17—that is \$6.42 from South Carolina to Baghdad—but \$13.76 to fly the same item on a C-5. Why? Because the C-5 is unreliable, because we rarely need to fill either plane to its maximum capacity on an average mission, and because the C-17 is newer and modernized in comparison to the C-5. We simply cannot rely on the older, outdated C-5.

Opponents might argue that when we modernize the C-5 it will be able to overcome many of these problems. I would concur that a modernized C-5 will be a far better aircraft. However, I would point out that the C-5 Modernization Program has been plagued with delays and cost overruns. Because of the high cost of the C-5 Modernization Program, the Defense Department decided that it could no longer afford to modernize all 111 C-5s and it cut the program to 52. That means our military will be dependent on 59 of the old and often broken C-5s that cost twice as much to operate as the C-17 for the foreseeable future. That is 47 percent of the C-5 fleet that won't be updated and will be unable to operate efficiently to meet our military needs.

The Government Accountability Office noted that additional investments in the C-17 may be attractive. It calculated that the Defense Department would need to modernize, as Senator COCHRAN pointed out, seven C-5s—to modernize seven C-5s—to get the equivalent capability gained from acquiring one C-17. It is going to take seven C-5s to do the work of one C-17, but it would cost three times as much to modernize the seven C-5s as it would to purchase one C-17.

I would like to point out that the C-17 is a fully matured program with stable costs and little uncertainty, while the C-5 Modernization Program is still in its infancy. If there is one thing we know about Defense programs, it is that new program costs generally increase during their early years.

Some may address the Senate and say we don't need any more C-17s. They note that today the Air Force now says we only need the 213 we already have purchased. I would like to point out that in 2002 the commander of the U.S. Transportation Command testified that his C-17 requirement was for 222 C-17s. Moreover, the 2005 Mobility Capabilities Study also raises questions about how many aircraft are required. This study, which is supposed to be the basis of our strategic airlift capability requirements, identified the need for between 292 and 383 strategic airlift aircraft, a combination of C-17s and modernized C-5s. In the force today, we have 111 C-5s and 205 C-17s—a total of

315 aircraft—near the bottom of the requirement level. But that doesn't tell the whole story.

In the last Quadrennial Defense Review in 2006, the Defense Department opted to keep its total inventory near the bottom of this requirement range with 180 C-17s and 112 C-5s.

Although we have added C-17s since that time and lost one C-5, the more important fact is that the QDR based this recommendation on a plan to modernize all 112 C-5s. With the plan to only modernize 52 C-5s, the airlift capability of the fleet is drastically diminished.

In 2008, the commander of the Air Force Air Mobility Command expressed his concern with this plan. He testified that the plan with 52 modernized C-5s and 205 C-17s will not provide the strategic airlift that he required.

I would also note that these earlier studies did not take into account today's force structure. That is a very important point. Since the mobility study and the QDR were completed we have transformed our Army creating additional combat capability that requires lift. We have increased the end strength of our Marine Corps, and we have created the U.S. Africa command. All of these have increased our airlift needs.

At the same time, operations in Iraq and Afghanistan are aging our airlift fleet beyond anticipated rates. We are flying the wings off our C-17 fleet. In November, 2007, the Air Force Chief of Staff recommended buying an additional 44 C-17s to meet the required force level. On the 2009 Unfunded Requirements List the Air Force asked for an additional 15 C-17 aircraft with a stated inventory objective of 248 C-17s. Our military leaders have called for additional aircraft, our forces have grown since our last studies were written and our plans have been altered to cut back on our modernization program.

It seems to me that notwithstanding the plan offered by the Defense Department, the country has a choice—we can either agree to modernize all the C-5s or we can continue to procure additional C-17s. As noted earlier, as the GAO discovered a new C-17 offers greater capability at a lower price. To me and to many of my colleagues this just makes sense.

Unless we act this year and approve the recommendation from the Appropriations Committee, we won't have a choice. Without the funds in this bill the C-17 program will begin to shut down. I say to my colleagues this is a critical decision and we have to be certain on our course. As the GAO noted, "careful planning is needed to ensure C-17 production is not ended prematurely . . . Restarting production would not be feasible or cost effective." That is the GAO.

Earlier this decade, on several occasions the Defense Department urged

the Congress to allow it to begin to retire the oldest and least capable C-5s. It too believed that purchasing additional C-17s was a far superior choice to meet our airlift needs. However, each year the Congress refused to allow DoD to retire any C-5s. Eventually, the Pentagon gave up trying and decided it would be stuck with the old unreliable C-5s. While it originally sought to upgrade all the old C-5s to at least make the best of a bad situation, the cost overruns and delays in the C-5 modernization program made that decision unaffordable. I would point out that the Congress rectified this problem this year in the supplemental and allowed the Air Force to begin to retire these aged aircraft. We know that it makes economical sense to retire these poorly performing aircraft and to replace them with new C-17s. We are looking forward to the Air Force revisiting this issue in the fiscal year 2011 budget with a renewed plan to retire the older C-5s and hopefully a desire to replace them with new C-17s.

In this year's budget the Secretary of Defense has made some tough decisions." He has opted to kill the F-22, the JSF second engine, the VH-71 Presidential helicopter, the combat search and rescue helicopter and the kinetic energy interceptor. In the bill before the Senate we have supported each of these recommendations. I will be candid that I am not confident that each of these recommendations is in our Nation's interest, but in general I support the Secretary's plans.

There is only one program that the vice chairman and I felt strongly enough about to reverse the recommendation of the Secretary, the C-17.

I have explained at some length why, it is cost effective, it is capable, and it is needed. I urge all my colleagues to reject the amendment of the Senator from Arizona and to vote to support the continuation of the C-17 program.

It is in our Nation's interest.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. JOHANNIS. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. UDALL of Colorado). Without objection, it is so ordered.

#### AMENDMENT NO. 2484

Mr. JOHANNIS. Mr. President, I ask the current amendment be set aside and we call up amendment No. 2484.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The legislative clerk read as follows:

The Senator from Nebraska [Mr. JOHANNIS] proposes an amendment numbered 2484.

Mr. JOHANNIS. I ask unanimous consent the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: Prohibiting use of funds to fund the Association of Community Organizations for Reform Now (ACORN))

On page 263, between lines 10 and 11, insert the following:

SEC. 9 \_\_\_\_\_. None of the funds made available under this Act may be distributed to the Association of Community Organizations for Reform Now (ACORN) or its subsidiaries.

Mr. JOHANNIS. Mr. President, I rise to present amendment No. 2484. Actually, this is an amendment we have acted on in previous appropriations bills. In fact, this is the amendment that deals with no funding for the organization ACORN.

In the previous Interior bill this passed in a very bipartisan way with a 85-to-11 vote; in the Housing and Transportation bill, again a very bipartisan vote, 83 to 7.

This is an amendment that has overwhelming support of this body. My comments relative to this organization are a matter of the record. I do not feel a need to lay those out again, but I want to present this amendment on this appropriations bill and we have reached an understanding that this can be accepted by voice vote. I want to indicate that will be acceptable to me.

Mr. INOUE. The Senator is correct.

The PRESIDING OFFICER. Is there further debate on the amendment?

If not, the question is on agreeing to the amendment.

The amendment (No. 2484) was agreed to.

Mr. JOHANNIS. Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. INOUE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUE. Mr. President, the pending business before the Senate is the DOD appropriations bill for fiscal year 2010. This measure contains approximately \$636 billion, including nearly \$130 billion to continue the fight against terrorism in Afghanistan and all around Southwest Asia.

It contains funds to pay our men and women in uniform, as well as funds to operate our forces and to take care of our wounded. It provides the money required to equip the warfighters and to develop new weapons systems so that they may be protected in the future.

Today is September 29. The fiscal year ends tomorrow. I believe all of us should know that. On Thursday, the Department of Defense will begin to

operate on a continuing resolution, a stopgap measure required because the Congress has not completed action on its 12 appropriations measures.

I want to point out that the Appropriations Committee reported its first fiscal year 2010 bill in the Senate on June 18, more than 3 months ago, and this last bill on September 10, nearly 3 weeks ago. All of the other bills were reported before the August recess.

However, because of the scheduling problems we have had, this Senate has passed just six bills. We have spent the better part of 7 weeks on the floor to pass these bills. I wish to note that in years past, most appropriations measures were taken up and passed by this body in 1 or 2 days. Now it is nearly 1 week on each bill. The Senate is known for being a deliberative body, but this is the third day the Senate has been on this important bill, and up until a few minutes ago, not a single amendment had yet to be offered.

Moreover, at this point, only eight amendments have been filed, and we have seen this pattern week after week. Our colleagues are waiting days before getting serious about these bills. The impact of these delays is that the end of the fiscal year is upon us, and we are nearly only halfway done completing Senate action on our bills, and only one of the 12 bills has reported out of conference committee.

At this juncture, I wish to note that we have had 12 measures. Of the 12 subcommittees, 3 reported the bill to the Senate on a vote of 29 to 1—not quite unanimous, 29 to 1. The remaining nine subcommittee bills, after due deliberation, debate, and discussion, were passed on to the Senate. The Senate committee reported to this Senate with a recommendation that it be passed by a vote of 30 to 0.

This measure before us was adopted by the Appropriations Committee, made up of liberal members, conservative members, middle of the road and whatever you want, men, women, by a vote of 30 to 0.

In January, when I became chairman of this committee, it was apparent to me that the Senate and the legislative branch were losing control over the budget process. We had not passed all of our spending bills as freestanding measures since 2005. We only accomplished that feat once during the past decade.

In many cases, we have resorted to large omnibus bills to complete our work. The Senate has not been allowed to debate or amend many of the measures that were passed. This is no way to run the government.

Vice-Chairman COCHRAN and I agreed to put a stop to this practice. We vowed to pass 12 bills and to send them to the President individually. We have passed those 12 bills in a timely fashion and presented them to the Senate. Our leaders fully supported us in this plan.

I remind my colleagues that the entire Republican caucus sent a letter to the majority leader urging him to follow this approach. But when it came to putting this in practice, instead of working to get this accomplished, we have been hamstrung by slow progress on each and every bill.

We are well aware that Members have amendments they wish to have considered on this and other appropriations bills. We understand that and have been waiting to debate them. Senator COCHRAN and I came to the floor Thursday night but were told there was nothing to do. We came here on Friday morning with the same results. We are back this afternoon, and we have one amendment.

The go-slow approach that has been taken by a few of our colleagues has put us in a position in which the government must now begin to operate on a continuing resolution. What does that mean to our agencies? It means they must throw out their plans for operations and streamline activities so that only the most essential operations are funded. Continuing resolutions will continue programs that have expired and are no longer needed, and the new programs that will replace them will not be in place. It means they must delay purchases until they are sure the resources they are seeking will be approved.

In the case of the Defense Department, it means they have to delay starting new weapons development and procurement programs. Some of my fiscally conservative colleagues might applaud this, thinking it means they are cutting spending. But, unfortunately, they are wrong. In fact, we are only running up expenses, as we follow penny-wise, pound-foolish practices which cost more in the long run than they save.

Senate rules are written to protect the rights of the minority and to ensure that legislation is carefully reviewed. But it is also true that when time is of the essence, the deliberative process is frequently turned on its head and complex matters rushed through with no time to debate or opportunity to offer amendments. Rather than delay these bills, which have minimal controversy, leaving the body no choice but to adopt expedited procedures to complete action, let's proceed apace and get this and the other five bills through the Senate as quickly as possible because it is the responsibility of the Congress to ensure that taxpayer funds can be expended efficiently by passing each of these appropriations measures without depending on continuing resolutions or omnibus measures.

I urge all of my colleagues to work with us so we can complete our work, the work of this Nation.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DODD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DODD. Mr. President, I am going to take a few minutes to address the pending amendment, if I may. Then, at the conclusion of those remarks, I wish to speak as if in morning business for a few minutes to address another matter that will not be the subject of the pending legislation, if that is permissible.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. DODD. Mr. President, I rise in strong opposition to the amendment offered by my friend and colleague from Arizona that could wipe out a highly skilled American workforce. It would irreparably damage our combat readiness, deprive our troops in the field of critical resources and threaten our national security. Those are strong words, but that is what is involved if the amendment being offered by the Senator from Arizona is adopted.

I wish to introduce my colleagues to three workers at Pratt & Whitney in Middletown, CT. We see three individuals working on this engine. They are removing test equipment after completing testing on a powerful, cutting-edge engine, preparing it for delivery to the U.S. Air Force. The man on the left is Doug. He has been working for Pratt & Whitney for 24 years. He is married with three children, 8-year-old twins and a 4-year-old.

The man in the middle is Steve. He spent 4 years in the Air Force before coming to Pratt & Whitney and boasts a quarter of a century in aviation experience. On the right is his coworker Michael, with 15 years of experience on the floor and 8 as a supervisor at this facility. If we effectively lay off these workers and the 30,000 Americans like them in 43 States who build the C-17, we will be causing tremendous pain and financial hardship at a time when our communities can least afford it.

In my home State of Connecticut—29th in total population, but 6th in total aerospace employment—we just received word that Pratt & Whitney is going to close maintenance facilities in Cheshire, CT, and East Hartford, CT, costing 1,000 jobs. If this amendment prevails, my State's largest private employer tells me that they will stand to lose another 3,000 jobs. That means the loss of decades of experience and expertise that has allowed us to maintain not parity with the world, but superiority, in the aerospace industry.

Perhaps my colleagues aren't persuaded by the imminent loss of thousands of jobs in my state or even their

own. Perhaps some might be tempted to threaten the livelihoods of 30,000 people at a time when we can ill afford it. To them I say, think about these three individuals are doing for our troops.

According to the Air Force, over the last 3 years in the military's Central Command alone, the C-17 has flown more than 100,000 airlift sorties, moved more than 2 million personnel, delivered nearly 300,000 tons of cargo, and executed nearly 2,000 air drops. According to the Government Accountability Office, C-17s have delivered more than 2.4 million tons of cargo to Iraq and Afghanistan alone. That is 2.4 million tons of supplies—everything from critical gear to large vehicles—sustaining our troops on the battlefield.

The Government Accountability Office also notes that this aircraft has “drawn praise during combat operations”—listen to this—with an 86-percent readiness rate, compared to the 53-percent readiness rate of the 40-year-old C-5 fleet that shares the cargo lift mission with the C-17s. The C-17 is the most reliable airlift plane in our arsenal, and it is also the most versatile. Unlike any other aircraft we have, the C-17 can complete combat, humanitarian, and other transport missions all over the world, thanks to its unique ability to take off and land in difficult environments, in remote airfields, or in situations where runways are shortened or degraded.

The Air Force reports that the C-17 is able to take off and land on 65 percent of the world's soils, whereas older airlift planes can only land on 6 percent. This incredible versatility makes the C-17 vital to the success of counterinsurgency, humanitarian, and research missions the world over. It can operate not only in Iraq and Afghanistan, but in places such as Bosnia, Rwanda, Sudan, and even Antarctica.

But today I feel this versatility is taken for granted. Our commitments overseas, especially since 2001, have imposed far greater burdens on these aircraft than we had originally planned for.

The Congressional Research Service reports that the C-17 was designed to fly 1,000 hours per year, with an expected lifespan of 30 years. But as our overseas commitments have grown since 2001, the fleet has averaged 1,250 hours per aircraft and some have even reached 2,400 flying hours in a single year.

GEN Arthur Lichte, the Air Force's air mobility commander, has said that at this rate, the C-17s may have a lifespan as short as 22 years. When a mission-critical aircraft is due to retire 8 years earlier than intended, as this one may be, we who are charged with equipping our troops in the field must address our procurement plans and we must do it now. Some of our newest C-17s are already 15 years old.

I wish to remind my colleagues that last July the Senate voted 93 to 1 to authorize the expansion of the Army by 30,000 soldiers. I, along with nearly all of my colleagues, supported that increase to meet our growing security demands and relieve the combat burden on our already overstretched forces. When we took that vote, we incurred an obligation as well to provide those troops with the support they will need in order to do their jobs.

Chairman INOUE and the members of the Senate Appropriations Committee have demonstrated incredible foresight by acting quickly to prevent these future shortfalls in this very important fleet. If this amendment to undo their good work prevails, we are doing a disservice to our troops. We are also doing a great disservice to our taxpayers.

The author of this amendment has said we should kill the C-17 now and wait for a government study down the road to see whether we need more of these aircraft. Well, if we kill the C-17, we will lose our only wide-body assembly line in the United States. According to the Government Accountability Office, it will cost up to \$1 billion to restart the line when it inevitably dawns on us that we need additional military cargo planes to support our troops in the field. If we hand these three individuals and the 30,000 of their fellow workers around the country pink slips in the next few days, who do we think is going to build those planes down the road?

By the way, if we choose to try to make up the capability by extending the lives of the C-5As, we would need to overhaul and repair seven of them at a cost of nearly \$1 billion to equal the capability we would get from buying just one additional C-17 at a cost of \$276 million.

This amendment would hurt our workers, our troops, and our national security. It is a massive expenditure disguised as a short-term savings. It is the very definition of cutting off our nose to spite our face when it comes to the critical needs of our troops in the field. Whatever views one may have on Afghanistan or Iraq, we want to make sure that our troops, wherever they are, receive the support they need.

Today, when the vote occurs, I urge my colleagues to support the committee and reject the amendment to cut out these critical aircraft.

With that, I ask unanimous consent to be allowed to move to a matter other than the one I just discussed as in morning business.

The PRESIDING OFFICER (Mr. NELSON of Nebraska). Is there objection?

Without objection, it is so ordered.

IRAN

Mr. DODD. Mr. President, it has been a tumultuous year in Iran.

The Iranian regime has continued to pursue its nuclear ambitions, fund terrorist activities throughout the Middle

East, and repress its own people. The world watched this repression play out in the wake of this summer's illegitimate elections, when brave and peaceful protestors were violently attacked.

If Iran were to acquire nuclear weapons capability, it would pose a significant threat to peace and security in the Middle East, especially to our close ally Israel and others in the region.

For years, the Iranian regime has refused reasonable requests by the international community. And it has failed to meet its obligations under international nonproliferation rules.

That is a threat to both national security and global stability, and it cannot be allowed to stand unchallenged.

President Obama has undertaken an aggressive dual-track approach. He has offered high-level engagement with Tehran, but has matched that carrot with the stick of sustained pressure through economic sanctions. As the President has warned, Iran won't be allowed to run out the clock.

As chairman of the Senate Banking Committee, I intend to introduce legislation that will arm the administration with the ability to impose tough, targeted sanctions if Iran does not respond to our final diplomatic efforts in the coming weeks.

We must confront Iran's government with its long record of duplicity and deception on the issue of its nuclear facilities.

Last week, President Obama revealed that Iran is building a secret uranium enrichment facility in violation of international rules.

The President and our allies have rightly insisted that IAEA inspectors be allowed to access this facility promptly. And over the weekend, Iran moved forward on provocative missile tests.

In two days, the United States and our allies will begin key talks with Iran's leaders. Unfortunately, Iran's President has already suggested that appropriate limits to his country's nuclear enrichment program are off the table.

Clearly, in light of this growing threat, there is cause for great concern and prompt action on our part.

But there is also cause for hope that Iran might be forced to change course. We have received renewed support from our allies. We have been encouraged by the strong international rejection of election abuses. And we have seen tensions within the Iranian regime begin to break into the open.

It is not too late for a proper resolution. But the road ahead is difficult. It will require sustained diplomatic effort to ensure all of our strategic partners—the Europeans, the Russians, the Chinese, the Indians and moderate Arab states throughout the Middle East join this effort.

We will only succeed if Iran is confronted by the prospect of sustained,

progressively intensifying multilateral economic and diplomatic pressure on its government including tougher sanctions.

This week's negotiations should confront Iran's leaders with a clear choice: end its illegitimate efforts to enrich uranium, halt its proliferation efforts, and stop supporting terrorists around the world—or continue to deepen this regime's isolation, and ruin the Iranian economy.

The administration is right to attempt engagement with Iran even as we make clear that biting sanctions will follow if international demands for greater transparency continue to meet with stubborn refusal.

Administration officials have outlined to me a menu of additional tough multilateral sanctions that they are considering imposing. Congress must equip President Obama with a full range of tools to deal with the threats posed by Iran.

In the last Congress, the Banking Committee approved comprehensive legislation to impose tough new sanctions on the Iranian regime; authorize investors to divest from companies active in Iran's energy sector; and combat black-market networks spreading weapons around the world. Unfortunately, floor consideration was repeatedly blocked by a small minority.

Given the rising stakes, I intend to work with my committee colleagues, including Ranking Member Senator SHELBY, to press forward similar sanctions legislation in the next few weeks.

I want to congratulate Senators LIEBERMAN and BAYH for their leadership on this issue, including their legislation to impose further sanctions on entities involved in importing gasoline to Iran or in assisting Iran's efforts to expand its domestic refining capacity.

Iran's energy sector is a key source of revenue to the government—and Iran is especially susceptible because of its dependence on imported gasoline. I will integrate these critical provisions into the legislation.

Our legislation will be targeted and strategic, maximizing the economic leverage of the U.S., our partners and allies, and investors while avoiding the risks of a more indiscriminate approach.

The bill would also expand coverage under the Iran Sanctions Act to include financial institutions, underwriters, guarantors, and other business entities, and extend the applicability of sanctions to oil and gas pipelines and tankers.

It would impose a broad ban on direct imports from Iran to the U.S. and exports from the U.S. to Iran of those few items still able to be so shipped, exempting food and medicines.

It will strengthen existing authority to freeze the assets of Iranians active in weapons proliferation or terrorist activity, and make it clear that U.S.

entities who establish a subsidiary to get around sanctions laws will be held liable for the activities of their subsidiaries.

Finally, it would impose new requirements that the President actually make a determination, and report every 6 months to Congress, regarding the sanctionability of eligible investments in Iran's energy sector.

In addition to expanding U.S. sanctions, the bill would also establish a simple formula authorizing divestment from firms which invest significant amounts in Iran's energy sector, with provisions patterned after the Sudan Accountability and Divestment Act enacted 2 years ago.

Many of us believe that Americans should be able to divest from energy firms doing business with the Iranian regime whose policies they abhor, and which indirectly help to prop up the regime.

They should be given the tools they need to make socially responsible decisions. And investors who choose to divest—States, large pension and mutual funds, and others should be held harmless for these decisions. Investing in Iran is risky business, and investors should be fully informed of those risks going in. The bill does not require divestment; it simply permits it.

Finally, this bill will provide incentives for countries to strengthen their export control systems to stop the illegal diversion of sensitive dual-use technology to countries like Iran, and impose tough new licensing requirements on those who refuse to cooperate.

As we confront the realities of a global marketplace, with manufacturers assembling parts of complex machinery such as aircraft and computers from a supply chain spanning the globe, and as regimes like Iran, North Korea, and Syria trawl various trans-shipment hubs for such parts to assemble high-tech weapons, it makes sense to address this problem head-on.

We have developed a way to do this, with an array of carrots and sticks to prod unwilling countries to get serious about developing and implementing tough, comprehensive export control rules and systems.

Our allies continue to work closely with the US to increase economic and diplomatic pressure on Iran.

I believe our legislation will complement and reinforce those ongoing diplomatic efforts, and send a clear signal to Iran's government of what's in store if they continue to flaunt the will of the international community.

Congress will be moving forward on the same timetable that the President and our allies have set for this fall, to underscore to Iran's leaders the huge price they will pay economically, politically, diplomatically, and otherwise if they do not change course.

The government of Iran must come clean on its nuclear program, which as

President Obama observed last week represents a direct challenge to the basic foundation of the international nonproliferation regime. I hope my colleagues will join me in supporting efforts in the coming weeks to make clear to the Iranians that we in Congress stand with President Obama in our determination to confront this problem forcefully, and urgently, before it is too late.

Mr. President, we will have our hearing on October 6 in the Senate Banking Committee. My intention is to, shortly thereafter, a week or so, combine the proposals offered into one strong, comprehensive sanctions bill. I, as well as others, believe we should take no options off the table and that we understand the implications of the statement.

Most of us agree every effort ought to be made to resolve this matter short of the use of military force. Obviously, that option remains. I believe we are proposing a sanctions regime, along with the needed cooperation of other nations around the world, that will send an unequivocal message—and nothing would be more important at this hour than to send that clear united message from this body and the other body—of our determination to use all the tools available to us to bring about the desired change we seek.

By adopting this strong legislation, my hope is they will understand how serious we are in our determination to achieve the common goal sought by the administration and us in this body.

With that, I yield the floor.

The PRESIDING OFFICER. The Senator from Pennsylvania is recognized.

Mr. CASEY. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CASEY. Mr. President, I rise with respect to Iran's nuclear program. I commend the Senator from Connecticut, chairman of the Banking Committee, for his presentation a few moments ago. Similar to so many Americans, we have learned a lot in the last couple days that is troubling.

The Iranian regime, discredited this summer by the deplorable repression of peaceful prodemocracy demonstrators across the country, has reached a new low on the international stage. Again, I speak of the Iranian regime—the Government—and not the people of Iran. The disclosure of the uranium enrichment facility near the city of Qum should serve as a wakeup call for those who believed Iran's nuclear program was only for peaceful purposes. The regime continues to deceive the international community about its nuclear intentions and program development. It continues to threaten our ally Israel; it continues to disregard its international commitments; and, yes, the

regime continues to directly threaten the national security interests of the United States.

As the administration begins talks on Thursday, we in the Senate should be prepared to do our part and pass tougher sanctions on the Iranian regime to compel its compliance with international standards. We have a responsibility to provide the administration with the tools it needs to maximize pressure on this increasingly intransigent Iranian regime.

I applaud the administration's approach to recalibrating U.S. engagement around the world. At a minimum, this international effort will restore America's long-held reputation of being an honest broker, of a country that values diplomacy and relationships with allies and welcomes new ones. Internationally, the United States is on a better footing than it has been in years. Ties with allies have been strengthened. Those on the fence, such as Russia and China, in this particular question, are showing signs of cooperation on issues that are critical to our national interests. Our adversaries, not sure how to demonize the United States such as they used to do, are on their heels. The administration's diplomatic offensive has put us into a position where we have a strong coalition going into these important discussions on Thursday.

The events of the last week are unfortunate evidence of the Iranian regime's deceit, defiance, and disregard for international standards for peace and security.

First, on Monday, the Iranian regime sent a letter to the IAEA disclosing the existence of the second enrichment and refining facility, a site that the United States and Israeli intelligence reportedly have tracked for years. This mis-sive denies that the site was intended for nuclear purposes, though the 3,000 centrifuges were clearly meant for weapons-grade refinement. Moreover, the site was buried deep underground and under protection by the elite Revolutionary Guard—not the typical protocol for a peaceful energy site.

On Wednesday, the Iranian President, Mr. Ahmadinejad, used his time on the rostrum at the United Nations not to welcome a new day of engagement with the international community but in typical fashion to rail against Israel. This desperate attempt to divert attention from his own internal political problems, as well as his government's deceitful nuclear program, once again showed this regime is not a responsible actor on the world's stage. Iran's people recognized this last June by voting against Mr. Ahmadinejad and his brand of politics. The world witnessed on live television how Mr. Ahmadinejad viewed the democratic process as his people paid dearly for the audacity of their vote.

Finally, over the weekend, Iran's news service reported three rounds of

missile tests, including those capable of hitting Israel. GEN Hossein Salami, head of the Revolutionary Guard Air Force, said the drills were meant to show that Tehran is prepared to crush any military threat from another country. This erratic display will actually weaken, not strengthen, Iran's hand in Geneva and will hopefully serve to convince our Russian and Chinese friends that the Iranian regime is not a credible actor nor a reliable trading partner.

After this disturbing but strangely predictable week of Iranian regime behavior, American negotiators will head to Geneva. This is the first official and direct meeting with Iranian negotiators in 30 years. Leading the American delegation is Ambassador Bill Burns, one of America's most respected diplomats. Having served in Russia, Ambassador Burns is well placed to address the complex international dimensions to this diplomatic problem. We will be well represented in Geneva, and I wish Ambassador Burns and his team all the best in what will surely be a challenging assignment.

Iran is not going into these negotiations on sure footing, while the international community has never been more united. Led by the United States, Britain, Germany, and France, opposition to Iran's nuclear program is based in fact, rooted in a willingness to engage, and backed up with a clear and firm message: An Iran with nuclear weapons is unacceptable under any circumstances. Let me repeat. An Iran with nuclear weapons is unacceptable under any circumstances.

This message is gaining stronger resonance with Russia and China. The Russian President's comments at the University of Pittsburgh last week indicated a willingness to consider sanctions. This is a potentially remarkable breakthrough because if the Russians are willing to support international sanctions, the Chinese could be left alone among the P5+1 group in that determination. While China relies on Iran for substantial fuel imports, I trust they are carefully weighing their need for energy against Iran's increasingly erratic and irresponsible behavior. The opportunity cost of doing business with this regime has increased considerably and may now be too high a price to pay. I hope the Chinese will support international efforts to pressure this Iranian regime at this critical time with the understanding that these efforts could ultimately result in a more reliable and stable partner in Tehran.

It is next to impossible that the Iranian regime will be able to prove that its nuclear sites are for peaceful purposes by this Thursday. The Obama administration needs to be ready to move quickly and build on international momentum created over the past week to pressure this regime. That is why we in the Senate need to be ready to play our

part, support the administration, and move on sanctions.

We currently have two proposals on Iran pending before us. First, the Iran Sanctions Enabling Act is a measure introduced by Senator BROWNBACK and myself. We introduced this bill last May. This would allow State and local government pension funds to divest from companies that do more than \$20 million in business with the Iranian energy sector. The second bill, the Iran Refined Petroleum Sanctions Act, introduced by Senators BAYH and KYL, explicitly empowers the President to impose new economic sanctions on foreign firms involved in the export of gasoline and other refined petroleum products to the Islamic Republic of Iran. I am cosponsor of this bill, along with more than 75 of my Senate colleagues.

The Iran Sanctions Enabling Act is modeled on similar legislation passed in response to the genocide in Sudan. Eighteen State legislatures have passed individual Iran sanction measures, and our legislation would bring these State efforts into line with Federal law. When President Obama was in the Senate, he introduced an earlier version of this legislation. It was right in 2007, and it is right in 2009.

Analysts have estimated that Iran requires \$20 billion annually in investments for its oil and natural gas sector. This sector directly provides funding for Iran's nuclear program, as well as its support for international terrorism. Iran will only cease its illicit nuclear program, end its support for terrorists in Hamas and Hezbollah, and stop arming militant groups in Iraq when it is compelled to pay an economic price.

We are entering a critical phase in President Obama's strategy of engagement with Iran where Tehran will face a true test. I hope the October 1 negotiation will lead to a freeze in Iran's nuclear enrichment efforts and ultimately a nuclear weapons-free Iran. Will the regime accept the President's genuine offer of dialog and comply with international nuclear standards or will it continue a losing strategy that serves to deepen its own isolation? These are questions for the Iranian regime, and they must answer these questions.

If last week is any indication, Congress should be prepared to hand the President the leverage he needs to send a message to the regime that America cannot and will not accept an Iran with nuclear weapons. The administration needs all the tools at its disposal to increase pressure on the regime diplomatically, politically, and through more stringent economic sanctions.

I call on my colleagues to listen to legislatures in so many States across the country that have passed divestment measures already. The American people do not want anything to do with

investing in this regime. Let's pass divestment and petroleum sanctions and send a message to this regime and to the international community that a nuclear-armed Iran is unacceptable.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. INOUE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 2558

Mr. INOUE. Mr. President, earlier, the Senator from Arizona raised concerns that the Committee on Appropriations had reduced funding in the operation and maintenance accounts. As I noted in my opening statement, this committee of ours reviews the entire budget and adjusts funds based on that review. That review came out with various results, and I would like to discuss some of them with you.

Before I do the analysis, I would just point out to my colleagues the budget that we are considering at this moment was formulated about a year ago—a year ago. That is when the process began. I am certain all of us will agree that since that time much has changed. Therefore, the committee believed we owe it to the Senate to apply the funds we recommended where they are most needed at this moment, not where they were needed a year ago.

For example, the reductions to operations and maintenance programs we recommended are based on a lack of justification or of changed requirements. The funds are not reduced because of a need to transfer funding to other appropriations.

The Senator from Arizona suggested we are taking out certain funding to pay for earmarks. The O&M accounts—operation and maintenance accounts—were reduced in this fiscal year 2010 base budget for many reasons, and just let me explain a few.

Five hundred million dollars, or half a billion dollars, was not a cut as suggested by the Senator from Arizona, but it was, rather, a transfer from the base budget request to the overseas contingency operations budget because the resources for certain programs were more appropriately funded for the Iraq and Afghanistan war. This is what they suggested.

One hundred million dollars was reduced based on administrative savings proposals. In April of this year the Office of Management and Budget was directed by the President to work with agencies to identify cuts to their administrative budgets separate and apart from those identified by the fiscal year 2010 budget—beyond that.

The DOD savings identified by the administration was \$100 million in fis-

cal year 2010, and we allocated these funds to other worthy projects.

Finally, \$100 million was cut from the Security and Stabilization Program because that was not authorized by the Senate Armed Services Committee.

Mr. President, we do this type of review every year. Every year someone complains their programs are cut, but we stand by our recommendations. We do more to enhance the readiness of the forces in this bill than was requested. Keep in mind since this budget was drafted, we have requested and added 30,000 more troops. We do so by providing equipment to our National Guard and Reserves. Everyone supports the National Guard, but we give them secondhand tools. It is about time they got some good ones. We do so by applying resources to buy MRAPs to protect our troops. And, yes, we do so to buy more C-17s to carry our forces wherever our leaders send them.

I thank the Chair.

Mr. LEVIN. Mr. President, I support the McCain amendment that would strike the \$2.5 billion in additional funding for C-17 aircraft in the committee-reported bill and restore serious cuts that were made in the readiness accounts, in part to shift funds to support continued C-17 production.

Terminating production, like closing a base, can involve some economic loss for the communities involved. It involves pain—we understand that—up close and personal. But we must do so from time to time and make these difficult decisions. We have to do that for what is best for the Nation and for the men and women in the Armed Forces because, as Secretary Gates said in a letter to me today expressing support for ending C-17 production: The Department does not need additional C-17s to meet strategic needs.

First, I want to agree with Chairman INOUE that the C-17 is a fine aircraft. I have been a strong supporter of the C-17 program, even when it was having growing pains early in the program. If we did not already have a C-17 aircraft fleet, we would have to create one. But this is not a question of whether we should buy the C-17. We have bought them, for a total of 213 aircraft. It is a question of "How many C-17s do we need?"

On that very point, I wrote a letter to the current Chief of Staff of the Air Force, General Schwartz, who was then commander of the U.S. Transportation Command, on November 6, 2007.

I had asked for his professional opinion as to whether we needed C-17 aircraft beyond the 190 C-17 aircraft the Air Force had already bought, and he gave us his personal and professional opinion. He said:

Since you asked for my personal and professional opinion, I believe that 205 C-17s and 111 C-5s is the correct fleet mix for the future.

He explained how he reached that opinion.

Mr. President, I ask unanimous consent that my letter to General Schwartz and his letter to me be printed in the RECORD, and also a letter I received from Secretary Gates be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE,  
COMMITTEE ON ARMED SERVICES,  
Washington, DC, November 6, 2007.

General NORTON A. SCHWARTZ, USAF,  
Commander, U.S. Transportation Command,  
Scott AFB, IL.

DEAR GENERAL SCHWARTZ: The conferees on the National Defense Authorization Act for Fiscal Year 2008 are meeting now to reach agreement on the contents of this bill. One of the issues before the conferees is the question of buying more C-17 aircraft as recommended in the House-passed bill.

Before we come to a conclusion on the best way to proceed, we need to hear your personal and professional opinion on two issues: (1) what is your requirement, if any, for C-17 aircraft beyond the 190 C-17 aircraft that the Air Force has already bought; and (2) what is the basis of your requirement, if any, for aircraft beyond the 190 C-17 aircraft that the Air Force has already bought.

Due to the urgency of completing our conference, we appreciate receiving your response to these questions no later than 5 p.m., Tuesday, November 6, 2007.

Sincerely,

CARL LEVIN,  
Chairman.

U.S. TRANSPORTATION COMMAND,  
Scott Air Force Base, IL, November 6, 2007.  
Hon. CARL LEVIN,  
U.S. Senate,  
Washington, DC.

DEAR SENATOR LEVIN: Sir, thank you for the opportunity to respond to your questions concerning the strategic airlift fleet. I support the programmed strategic airlift fleet of 180 C-17s, extended by the Fiscal Year 2007 Bridge Supplemental to 190 aircraft, combined with 111 modernized and reliability improved C-5s. This fleet mix, augmented with the capability of the Civil Reserve Airlift Fleet (CRAF), provides sufficient airlift capacity to meet strategic and operational objectives during large-scale deployments, while supporting other high priority operations and forward deployed forces.

However, the outcome of the C-5 modernization program will have a direct impact on the capacity the C-17 will shoulder. Therefore, given the uncertainty surrounding the C-5 modernization program, I cannot recommend terminating C-17 production at this time.

Since you asked for my personal and professional opinion, I believe 205 C-17s and 111 C-5s is the correct fleet mix for the future. I reach this opinion by combining the analysis of available million-ton-miles per day (MTM/D) capability, fleet mission capable rates, the annual flying hour program, average cost per flying hour, total number of organic aircraft tails, available pallet capacity, and average age of the fleet. Taking these factors together, I personally conclude 205/111 is the sweet spot.

My top airlift priority, however, remains the recapitalization of our aging tanker fleet. The KC-X will not only fulfill its primary refueling role, but will multiply our

transportation options. The strategic airlift fleet mix should be calibrated as necessary to account for this strategic necessity and to ensure we don't over-build overall organic capacity to the detriment of our commercial partners.

Thank you for considering my input on these very important issues. And as always, thank you for the outstanding leadership you provide our country and for the excellent support you provide the Armed Forces of the United States.

Sincerely,

NORTON A. SCHWARTZ,  
General, USAF, Commander.

THE SECRETARY OF DEFENSE,  
Washington, DC., Sept. 29, 2009.

Hon. CARL LEVIN,  
Chairman, Committee on Armed Services, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: I am writing as a follow up to our discussion last week regarding the retirement of strategic airlift aircraft.

The Department fully supports the language in Section 311 of the Supplemental Appropriations Act of 2009 (Public Law 111-32) which requires a minimum of 292 strategic airlift aircraft as reflected in the Department's 2005 Mobility Capability Study.

Since the release of MCS-05, Congress has funded an additional 33 C-17s the Department did not request. The addition of these C-17 aircraft influenced our decision to upgrade only 52 of 111 C-5s with the Reliability Enhancement and Re-engining Program (RERP). Congress is now considering adding another 10 C-17s in the FY2010 budget.

The Department's current fleet of 324 aircraft (213 C-17/111 C-5) is in excess of strategic airlift needs, driving increased operating costs at the expense of other priorities. Each C-5A costs over \$13 million in annual operating expenses. Since we are over our current requirement by eight aircraft, as determined by the analysis conducted during the C-5 RERP Nunn-McCurdy recertification, it costs the Department over \$100 million a year in excess expenditures. These costs will only grow if we receive additional C-17s and/or delay the ability for the Department to retire excess aircraft.

Initial indications from Mobility Capability Requirements Study 2016 show the strategic balance will not fundamentally change. This leads me to believe: (1) the Department does not need additional C-17s to meet strategic needs; and (2) the Department needs to begin shedding excess strategic airlift inventory by retiring a portion of the C-5A fleet now. The Department requests your support and authority to allow the proper management of the strategic airlift fleet to meet the Nation's requirements.

Thank you for your strong interest and continued support of the Department.

Sincerely,

ROBERT M. GATES.

Mr. LEVIN. Mr. President, for those members of the Senate not familiar with the phrase "personal and professional opinion," let me explain. In the Armed Services Committee, we require that military officers, appointed to senior positions such as the Transportation Command position, affirm that, when asked for their personal and professional opinion on any matter, they are obliged to give their own opinion, whether that opinion agrees with that of the Secretary of Defense, the President, or anyone else in the executive branch.

General Schwartz replied to my letter on November 6, 2007:

Since you asked for my personal and professional opinion, I believe that 205 C-17s and 111 C-5s is the correct fleet mix for the future. I reach that opinion by combining the analysis of available million-ton-miles per day (MTM/D) capability, fleet mission capable rates, the annual flying hour program, average cost per flying hour, total number of organic aircraft tails, available pallet capacity. And average age of the fleet. Taking these factors together, I personally conclude 201/111 is the sweet spot.

It is clear from his letter that General Schwartz and the members of TRANSCOM had given serious thought to the question of how many C-17s we should have.

More recently, in the fiscal year 2008 Defense Authorization Act, we required that the Department conduct a Study on Size and Mix of Airlift Force. That study was conducted by the Institute for Defense Analyses, IDA, and was completed in February, 2009. Among the questions that the study answered were the following:

What are the cost and other implications for stopping production of the C-17 line and then restarting it later, if needed?

Our assessment of the C-17 line shutdown and restart is that continued production, even at low rates, is expensive relative to restart costs. Moreover, under the scenarios and other assumptions considered in this study, additional C-17s were not needed to meet the MCS (Mobility Capability Study) moderate-acceptable-risk delivery rates used as a benchmark by the analyses conducted here. We also found that retiring C-5As to release funds to buy and operate more C-17s is not cost-effective.

Mr. President, the time has come to stop C-17 production at 213 C-17 aircraft. That is all we need to buy, that is all we can afford to buy, and that is all we should buy.

The money that would be freed up by the McCain amendment would be transferred to the operation and maintenance, O&M, accounts. The bill cut roughly \$2.4 billion from the budget request. I fear that this overall reduction could force the Department to make serious reductions in O&M activities, if not, in fact, forcing the Department to ask for another supplemental funding request. We should do all we can to avoid that possibility.

Mr. CONRAD. Mr. President, I rise to offer for the record, the Budget Committee's official scoring of H.R. 3326, the Departments of Defense Appropriations Act for fiscal year 2010.

The bill, as reported by the Senate Committee on Appropriations, provides \$636.3 billion in discretionary budget authority for fiscal year 2010, which will result in new outlays of \$401.7 billion. When outlays from prior-year budget authority are taken into account, discretionary outlays for the bill will total \$646 billion.

The Senate-reported bill is \$1 million below its section 302(b) allocation for

budget authority and is \$28 million below its allocation for outlays.

The bill includes \$128.2 billion in budget authority designated as being for overseas deployments and other activities. Pursuant to section 401(c)(4) for the 2010 Budget Resolution, adjustments to the Appropriations Committee's section 302(a) allocation and to the 2010 discretionary spending limits were made for that amount and for the outlays flowing therefrom.

No budget points of order lie against the committee-reported bill.

I ask unanimous consent that the table displaying the Budget Committee scoring of the bill be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

H.R. 3326, DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2010

[Spending comparisons—Senate-Reported Bill (in millions of dollars)]

	Total
Senate-Reported Bill:	
Budget Authority .....	636,270
Outlays .....	646,043
Senate 302(b) Allocation:	
Budget Authority .....	636,271
Outlays .....	646,071
House-Passed Bill:	
Budget Authority .....	636,293
Outlays .....	647,932
President's Request:	
Budget Authority .....	640,137
Outlays .....	650,641
SENATE-REPORTED BILL COMPARED TO:	
Senate 302(b) allocation:	
Budget Authority .....	-1
Outlays .....	-28
House-Passed Bill:	
Budget Authority .....	-23
Outlays .....	-1,889
President's Request:	
Budget Authority .....	-3,867
Outlays .....	-4,598

NOTE: The table does not include 2010 outlays stemming from emergency budget authority (BA) provided in the 2009 Supplemental Appropriations Act (P.L. 111-32) but does include outlays from regular BA designated as being for overseas deployments and other activities. The 2010 BA total includes \$5 million in non-defense BA resulting from that Act. The remaining BA is classified as defense.

## EXECUTIVE SESSION

### NOMINATION OF JEFFREY L. VIKEN TO BE UNITED STATES DISTRICT JUDGE FOR THE DISTRICT OF SOUTH DAKOTA

The PRESIDING OFFICER. Under the previous order, the Senate will now proceed to executive session to consider the following nomination, which the clerk will report.

The assistant bill clerk read the nomination of Jeffrey L. Viken, of South Dakota, to be United States District Judge for the District of South Dakota.

The PRESIDING OFFICER. The Senator from South Dakota.

Mr. JOHNSON. Mr. President, as you know, one of the duties granted to the Senate in the Constitution is the advice and consent of judges appointed by the President to the bench. The lifetime appointment of a judge is a very serious decision, one that has a lasting impact on our democracy.

Today the Senate takes up the nomination of Jeff Viken to be Federal district judge for South Dakota. It is this nomination that I wish to speak of today.

So far this Congress, under the new President, has confirmed two judges. One of those judges is Supreme Court Justice Sonia Sotomayor and the other is a Second Circuit judge. I am proud to have a South Dakotan as the third judge to be confirmed by the Senate. However, we are 9 months into this new administration, and we have only confirmed two judges.

I must say I think the process of nominating and confirming judges has become increasingly overpoliticized. While I believe a President should have some latitude in selecting judges, they should not be ideologues.

Jeff attended law school at my alma mater, the University of South Dakota, where our attendance overlapped. I received my law degree in 1975, and Jeff received his law degree in 1977. Jeff has served as an assistant U.S. attorney and acting U.S. attorney for South Dakota before going into private practice. His extraordinary reputation of skill and integrity during his years of public and private law practice will translate well and benefit this court. The same can be said of his tenure as the Federal Public Defender for North and South Dakota, a job he has held since 2003.

Regarding his nomination, Jeff received a "well qualified" rating from the American Bar Association. It is clear he has an accomplished résumé and many years of public service. It is a great honor that President Obama has placed on Jeff. We are very fortunate to have a great member of the South Dakota legal community nominated to this post. Jeff has many years of public service, and we look forward to his future work for the people of South Dakota. Most importantly, his nomination to the bench is a victory for justice and the rule of law, not only for South Dakota but for our Nation.

I have known Jeff for a long time. I find him to be a nominee of good moral character and standing in the community. It is with great satisfaction that I will cast my vote today for the confirmation of Jeff Viken to be the next U.S. Federal district judge for South Dakota. I urge my colleagues to support this very qualified nominee.

I yield the floor.

The PRESIDING OFFICER. The Senator from Alabama is recognized.

Mr. SESSIONS. Mr. President, I thank Senator JOHNSON for his comments and value his opinion on this nomination. I look forward to seeing this nominee confirmed.

The confirmation process we have in this country is a very important matter. Our Democratic colleagues are, understandably, inclined to be supportive of whomever the President puts up. It has been a recognized responsibility for

the minority party, the party that is not of the President's party, to ask questions and dig into the backgrounds of these nominees and move the good ones and raise the proper questions if there are problems.

Mr. Jeffrey L. Viken has an impressive background. Early in his career, he was an Assistant and Acting U.S. attorney. He is a member of the trial lawyers plaintiff bar association in South Dakota. He has been in private practice for 22 years, and for the last 6 years he has been a Federal Public Defender where he defends criminal cases. So he has been a prosecutor and a public defender. I guess that is a pretty good match, and I am happy we were able to work out this agreement with the majority and process this nomination very quickly. Actually, he was voted out after his first appearance before the Committee and is already on the floor.

But I would note for some people who say there has been a dragging of feet on the nominations that the President did not send this nomination forward, his first district court nominee to the Senate, until June 25, a few months ago, when the Senate and the Judiciary Committee were consumed with the Supreme Court nomination of now-Justice Sotomayor. Understandably, Chairman LEAHY could not and did not report his nomination until after that confirmation process was over, until after Labor Day. We were then able to come to a time agreement and also to vote on the nomination of Judge Gerard Lynch, who is a highly able nominee but an activist judge with a philosophy too close, by my way of thinking, to Justice Brennan on the Supreme Court for whom he clerked. So I think it is healthy for us to ask questions. I voted for Judge Lynch for the Second Circuit, and he was confirmed by a very large vote.

We will continue to work with the majority party and the President and move the nominees at an appropriate pace.

I wanted to note a little bit more about the pace of nominations. You know, it is not possible for the Senate to confirm a nomination until the President has nominated someone. I have heard my colleague, the Chairman, Senator LEAHY, say that we haven't had enough confirmations, but I would note that there is an 11-percent vacancy rate in the Federal courts. That is not an extraordinarily high vacancy rate. It takes some time to do background checks and for the President to consider the people he might want to nominate and to consult with Members of the Senate as he does so. I would note that at this moment there are 74 Federal District Court vacancies—Judge Viken is nominated for one—but there are only 9 nominees before the Senate. There are 28 circuit and district court seats that are

deemed to be judicial emergencies, but only 6 nominees have been submitted to the Senate for those judicial emergency seats. We can't confirm people until they are nominated. We can't do a background check on nominees until they have been nominated. We can't have the information and their records and their FBI backgrounds and the bar association evaluations take place until they have been nominated.

I would just make my commitment that we will continue to move nominees like Mr. Viken in a timely fashion. I reviewed his record. I have also carefully reviewed his responses to questions from the Senate Judiciary Committee. One of his answers, I have to note, was troubling to me. He stated that he believes he fits President Obama's standard for the types of judges he will nominate to the Federal courts; that is, he meets the President's "empathy standard."

President Obama described that standard as follows:

We need somebody who's got the heart, the empathy, to recognize what it's like to be a teenage mom, the empathy to understand what it's like to be poor, or African-American, or gay, or disabled, or old. And that's the criteria by which I am going to be selecting my judges.

In 2005, when then-Senator Obama was in the Senate and he explained on the floor his vote against Chief Justice John Roberts, who I think is one of the finest nominees we have seen in decades and whose testimony before the Judiciary Committee was stunning in its impressiveness and his grasp of the legal issues, his comprehensive knowledge of how the Court worked, and cases—there was not a case brought up that he didn't seem to fully know about. Virtually every case the Supreme Court had ever written he seemed to be knowledgeable about. It was just a tour de force. Senator Obama voted against Judge Roberts and stated that 5 percent of cases are determined by "one's deepest values and core concerns . . . and the depth and breadth of one's empathy." We can only take this to mean that the President believes that in 5 percent of all cases, judges should not set aside their personal beliefs, biases, or experiences. I think this is a radical and a dangerous departure from the most important pillar, the fundamental pillar of the judicial system—judicial impartiality.

Whatever the empathy standard is, it is not law, and we have courts of law in this country. Whenever a judge employs his personal beliefs, biases, or experiences to make a decision that favors one party, is it not true that he necessarily has, therefore, disfavored the other party as a result of his personal beliefs and biases? For every litigant who benefits from the judge's so-called empathy, there is a litigant who loses not on the basis of law but be-

cause the judge did not identify with them.

When people are nominated to our Federal bench, we ask them to take a judicial oath before they take office. The oath embodies the time-honored American tradition of blind justice. The oath says this:

I . . . do solemnly swear that I will administer justice without respect to persons, and do equal right to the poor and to the rich, and that I will faithfully and impartially discharge and perform all the duties incumbent upon me . . . under the Constitution and laws of the United States, so help me God.

I am pleased to say the Supreme Court has not yet struck down "so help me God" in the oath, and hopefully they never will. I think the President's standard for judicial nominees plainly conflicts with that oath.

We have had a big discussion about that, and it is not a little bitty matter. It is not a small matter. Judges take the oath to be impartial. I practiced law in Federal court for many years, and I have always believed and expected that a judge who heard my case would rule on the law fairly and objectively. If I lost and did not have sufficient law or evidence and logic to support my position, I did not expect to prevail. That is the kind of concept that underlies American justice.

Aside from nominee David Hamilton, almost every one of President Obama's nominees, including Justice Sotomayor, has rejected outright the empathy standard. So at first blush, I found Mr. Viken's answer that he believes he fits that standard to be concerning. However, his answers to questions we submitted to him for the record provide maybe a more complete view. This is what he said in his answer in writing:

A judge's consideration of a case must always be governed by impartiality, evenhandedness, attention to the facts presented by the parties, and respect for established law. Empathy is a personal characteristic which may assist a judge in analyzing the human circumstances which bring people before the court. But the law and not the personal experiences of jurists is the path to justice in considering each case.

I think that is OK. I am not sure how you can have any empathy—empathy is a personal characteristic, maybe? I would hate to disagree with the President who nominated me, but that is a pretty good statement overall.

He also stated he believes that, "The role of a Federal district judge encompasses diligent legal scholarship"—that is true—"a strong work ethic"—true—"impartial and dispassionate consideration of proven facts and reasoned legal arguments, fidelity to binding and persuasive precedent, and respect for all who appear before the court."

I think that is good statement. I think if he will conduct himself on the bench according to those standards he will do well. And I believe he will.

I am glad to see he is an honors graduate, but he didn't go to some of these

schools, Senator JOHNSON, he went to school in South Dakota; he has practiced law before judges over the years, a lot of practice; and in the course of that, you learn that judges really do—the good judges—consistently try to reach the right dispassionate result.

I think he may have made some statements about empathy that are not perfect, but my judgment is that he has been in the courtroom and he has been before good judges. I am hopeful he is going to be a very good judge.

We will see. I think the issues become even more problematic when someone is nominated for the Supreme Court or for a circuit court because those higher courts seem to be the ones who feel less compunction in allowing their personal views to influence cases. Because this nominee is nominated to a seat on the district court and is confined not only by the U.S. Supreme Court but also by his circuit, the circuit precedent, and because he stated he believes the role of a judge entails the impartial and dispassionate consideration of proven facts and reasoned legal arguments, fidelity to binding and persuasive precedent, I would certainly give him the benefit of doubt and vote in favor of his nomination. I am hopeful he will follow through on those statements and will interpret the law as written, refraining from imposing personal views in his decision and will basically follow the oath to uphold the Constitution, first and foremost. Even if he didn't like it, he should uphold it.

In closing, I would like to quote from an essay by the former chairman of the Judiciary Committee, Senator HATCH, which was published on Constitution Day. He said this:

The Constitution—its words and their meaning—was established by the people, can only be changed by the people, and is sacredly obligatory upon all government, including judges. That is why in the debate on judicial selection is really a debate over judicial power. It is a debate over whether the Constitution controls judges or judges control the Constitution; over what the Constitution really is, with nothing less than liberty itself at stake.

I think that is an eloquent statement of the role of a judge, and why at its most base level, policy in a democracy must be set by the elected branches who are accountable to the people.

Judges are supposed to be neutral arbiters of the law, deciding a case based on the law and facts, without allowing their personal, political, or ideological views or biases to enter into the decision-making process. That is why they put on a robe, to suggest their impartiality. That is why they take the oath I quoted from. And that is the key ingredient of our legal system, the greatest legal system the world has ever known.

I yield the floor.

The PRESIDING OFFICER (Mr. LAUTENBERG.) Who yields time? If no one

yields time, time will be divided equally.

Mr. LEAHY. Mr. President, what is the parliamentary situation?

The PRESIDING OFFICER. The Viken nomination is the pending question.

Mr. LEAHY. Mr. President, how much time remains on both sides?

The PRESIDING OFFICER. The chairman has 17½ minutes remaining, and 5½ remains with the vice chairman.

Mr. LEAHY. Mr. President, we are considering the nomination of Jeffrey Viken for a lifetime appointment to the U.S. District Court for the District of South Dakota.

President Obama nominated Mr. Viken with the bipartisan support of both Senators from South Dakota, Senator JOHNSON and Senator THUNE. Mr. JOHNSON, the distinguished senior Senator from South Dakota spoke just a moment ago about his strong support for this nominee.

Even though we are almost at the last day of September, this is only the first Senate confirmation for a Federal district court judge, and the first to fill 1 of 74 current Federal trial court vacancies.

There are more than 90 current vacancies throughout the Federal judiciary, and we are soon going to be at near record levels. I accommodated the Ranking Member and other Republicans on the Judiciary Committee by postponing a hearing on Mr. Viken's nomination while we considered the recent Supreme Court nomination, or his nomination would have come to the full Senate earlier. But I am pleased that the committee unanimously reported the nomination at the beginning of this month by a voice vote. I think that the vote tonight, I can virtually guarantee you, will be an overwhelmingly positive vote. I hope it is a sign that we might finally, finally start making some progress on judicial nominations, and do it expeditiously.

The Senate has to do a better job of restoring our tradition of regularly considering qualified, noncontroversial nominees to fill vacancies on the Federal bench without needless and harmful delays.

As I look around this Chamber, I believe I have been here longer than anybody else who is presently on the floor. I saw my distinguished colleague Senator INOUYE step off the floor, who has served here longer than I have. But I have been here 35 years. I have been here with both Republican and Democratic Presidents. I have never seen a situation where there is this kind of slow walking of nominations. We have got to go back to the way we have traditionally done it for the good of the country.

I was briefly chairman of the Judiciary Committee during President Bush's first term. And even though we had the

unfortunate experience of 61 of President Clinton's nominations being pocket filibustered by a then-Republican majority, when I came in during that less than a year and a half, we confirmed 100 of President Bush's judicial nominees. I think it is an all-time record in speed in getting nominees through. That was by a Democratic majority with a Republican President.

I do want to thank the Committee's ranking member, Senator SESSIONS. I see Senator SESSIONS on the floor. I do want to thank him. I had, as I said, agreed to hold back this nominee, the Viken nomination, because of the nomination for Sotomayor, to give time to prepare. But I do want to thank him. After we confirmed Judge Sotomayor to be a Justice on the U.S. Supreme Court, we moved quickly Mr. Viken's nomination through the committee at our business meeting on September 10 without an unnecessary holdover period. Unfortunately, now that it has been on the Senate Executive Calendar, it still has taken 2½ weeks to schedule Senate approval of a noncontroversial nominee who is probably going to be unanimously confirmed, and should be.

Mr. Viken has a wide range of experience. He has been both prosecutor and defender. He is currently the Federal Defender for the combined districts of North Dakota and South Dakota. It is not just the population, but for those of us who come from New England, the area covered in these districts is enormous.

He served as an Assistant U.S. Attorney and as Acting U.S. Attorney for South Dakota. He spent more than two decades in private practice. His nomination received a rating of "well qualified," from the American Bar Association's Standing Committee on the Federal Judiciary. I urge Senators to give him a strong bipartisan vote, and then do a better job of filling the rising number of judicial vacancies to ensure that justice is not delayed or denied to any American because of overburdened courts.

I hope instead of withholding consent and threatening filibusters of President Obama's judicial nominees, the other side would work together to treat his nominees fairly, as I did with President Bush's nominees. I point out, by this time in President Bush's first term, we had already confirmed six of his nominations to the Federal circuit and district courts. Now, nine months into President Obama's first term, we have confirmed only one of his lower court nominees, despite the fact that President Obama made his first nomination two months earlier than President Bush did.

We can do better. It is not just that the Senate can do better, the American people deserve better.

After months of delay on September 17, the Senate finally confirmed Judge Gerard Lynch to serve on the Second

Circuit. I know that circuit well. It covers the States of Vermont, New York, and Connecticut. Despite the fact that Judge Lynch's nomination was noncontroversial, despite the fact that it was reported out of the committee unanimously with the strong support of both Republican and Democratic members, it still took more than three months after his nomination was reported by the committee for the Senate to confirm it. Delayed. Delayed. Delayed. You would think there might be some controversy. But when we finally voted, the vote was 94 to 3. It was being held up for months because three Members out of 100 Senators wanted to hold it up? That is not being responsible. That is not showing the deference to the judiciary that we should show.

Thirteen nominations reported by the Judiciary Committee remain pending on the Senate's Executive Calendar, seven of them from back before the last recess. Five of these nominations are for appointments to be Assistant Attorneys General at the Department of Justice. Five out of a total of 11 divisions at the Department remain without Senate-confirmed Presidential nominees—the Office of Legal Counsel, the Civil Rights Division, the Tax Division, the Office of Legal Policy, and the Environment and Natural Resources Division.

Just think of that: nominees to head five out of a total of 11 divisions at the Justice Department are being held by Republicans even though the President has made the nominations and even though they have passed out of the Senate Judiciary Committee. If any Senator does not like a nominee, vote against them. But let's have a vote up or down.

President Obama made his first judicial nomination back in March. I remember it was snowing like mad. He nominated David Hamilton to the Seventh Circuit. That nomination has been on the Executive Calendar since early June, even though it has the support of the senior most Republican in the Senate and one of the most distinguished Senators of either party who has ever served, Senator LUGAR.

The nomination of Judge Andre Davis to the Fourth Circuit was reported by the committee on June 4 by a vote of 16 to 3. We cannot get it considered by the Senate. The nomination of Judge Beverly Baldwin Martin to the Eleventh Circuit was reported unanimously from the committee by voice vote on September 10 and is strongly supported by the two Republican Senators from her State, but still we cannot get it scheduled or considered.

Federal judicial vacancies will soon number 120 unless we start moving forward. I mention that just because we should have a history before us.

At least the one bright spot is moving Mr. Viken's nomination. At a quarter past 5, it is Mr. Viken. By a quarter past 6, it will be Judge Viken. I congratulate him and his family. I remember him coming before our committee—a wonderful person, a wonderful family. I can see why the two Senators—the senior Senator, a Democratic Senator; the junior Senator, a Republican Senator—support him. He should be a judge. But then let's start moving these nominations a little more expeditiously.

Mr. President, what is the time remaining?

The PRESIDING OFFICER. The Senator has 6 minutes 45 seconds remaining, and the minority has 5 1/2 minutes remaining.

Mr. LEAHY. Mr. President, I suggest the absence of a quorum and ask unanimous consent that the time be run equally.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. LEAHY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEAHY. Mr. President, I ask for the yeas and nays on the nomination.

The PRESIDING OFFICER. Is there a sufficient second? There appears to be a sufficient second.

The question is, Will the Senate advise and consent to the nomination of Jeffrey L. Viken, of South Dakota, to be U.S. district judge for the District of South Dakota?

The clerk will call the roll.

The assistant bill clerk called the roll.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) is necessarily absent.

The result was announced—yeas 99, nays 0, as follows:

[Rollcall Vote No. 299 Ex.]

YEAS—99

Akaka	Cochran	Hutchison
Alexander	Collins	Inhofe
Barrasso	Conrad	Inouye
Baucus	Corker	Isakson
Bayh	Cornyn	Johanns
Begich	Crapo	Johnson

Reid	Stabenow	Wyden

NOT VOTING—1

Byrd

The nomination was confirmed.

The PRESIDING OFFICER. A motion to reconsider is considered made and laid upon the table. The President shall be notified of the Senate's action.

#### LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will now return to legislative session.

The Senator from North Dakota is recognized.

#### MORNING BUSINESS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Senate proceed to a period of morning business, with Senators allowed to speak therein for up to 10 minutes each.

The PRESIDING OFFICER (Mr. TESTER). Without objection, it is so ordered.

The Senator from Iowa is recognized.

#### AMERICA'S FOOD CRISIS

Mr. GRASSLEY. Mr. President, I rise today to respond to Bryan Walsh's recent article, published August 31, 2009, in Time Magazine, entitled "The Real Cost of Cheap Food."

I ask people to read the article and, as you read it, take into consideration my view of it, which is not very positive. Unfortunately, I see this article as one of the most skewed and one-sided articles I have ever had the opportunity to read, particularly in the mainstream media.

This report was far from objective journalism. It seems to me that when people are talking about America's food crisis and how to fix it, it ought to be very intellectually accurate.

Before outlining the numerous factual errors the author presents in his article, I will mention that I support organic and sustainable agriculture. In fact, Norman Borlaug, father of the green revolution, from Iowa, is credited with creating a sustainable agricultural system decades ago. And as you may know, the Nobel Peace Prize winner of 1970, Norman Borlaug—the person I just referred to—recently passed away at the age of 95.

This article refers to the Niman Ranch. What Niman Ranch and other organic farmers across Iowa and our Nation are doing is to be commended. These producers are providing addi-

tional choices to consumers and creating highly profitable small farms which can help sustain rural communities. In fact, the National Agriculture Statistics Service reports that in 2007, 566 organic farms were located in my State of Iowa.

That being said, I am disappointed that an information source, such as I referred to by Time magazine, by the author, Mr. Walsh—previously Time magazine was known as a news magazine—has resorted to an inaccurate, incomplete, and unfair reflection of family farmers—I emphasize the word "family" in connection with farmers—from across the United States. So I will take a few minutes on the Senate floor to refute a few main points this author has made.

First, I wish to discuss how our Nation's farmers are stewards of our land, protecting and caring for their livestock and our environment.

Second, I wish to address population growth and the growing demands to produce safe and affordable food.

Finally, I will address how both organic agriculture and conventional agriculture serve complementary needs and can coexist in harmony.

As everybody in this body knows, I have been a family farmer all my life. Of course, I have to give credit to my son Robin for doing most of the work on the farm and a grandson in that farming operation. One thing you find out as a grandfather, when you have a grandson in a farming operation, is that grandfathers are not quite as important as they used to be.

My son Robin and I crop share our land, and we have taken great pride over the years in both caring for our livestock and conserving our natural resources, while producing bountiful corn and soybean harvests. We are not unlike tens of thousands of other farmers across Iowa and this country whose livelihoods depend on taking care of our soil, water, and animals.

I give credit to the new occupant of the Presiding Officer's chair, Senator TESTER from Montana, for being another family farmer, as well, and being a good caretaker of the environment.

With final passage of the Food Conservation and Energy Act of 2008, also known as the farm bill, Congress made one of the largest commitments to conservation this Nation has ever seen. An additional \$6 billion in new money was added for working lands programs, such as the Conservation Stewardship Program, the Wetlands Reserve Program, and the Farmland Protection Program.

Even on my own farm, we use no till for our beans, minimal tillage for our corn, and we put in wetlands, a waterway and a grass strip, even though we have mostly flat farmland. Robin and I are required to do this. We do it because we know, as stewards of our environment, our farm will benefit in the

long run. In other words, it is economically good to be good stewards of the land. It puts money in your pocket. We will be able to then, in the final analysis, pass the operation down to our grandchildren and great-grandchildren.

That is one of the main points the author of the Time article, Mr. Walsh, totally misses. He basically demonizes production agriculture. Mr. Walsh implies that the only family farmers in our country are those who live on 30 acres of farmland. But nothing could be further from the truth. Family farmers can operate small farms, but they can also operate large farms. If given the opportunity, they want to be able to pass that farm on to future generations of the family.

It makes absolutely no sense to imply that these producers would purposely deplete our resources for a quick buck. There has never been a quick buck in farming, but it can provide, over a lifetime, a rewarding and sustainable lifestyle.

I am going to use three charts during my presentation. The first one is going to be used to refute some of the accusations that have been made.

Producers around the United States continue to become more and more efficient in their production practices. This chart shows that in the last 25 years, we have been able to produce more bushels of corn with less fertilizer. Now get this. Everybody thinks the commercial and family farmers are pouring on the fertilizer without any care whatsoever about the environment to produce, produce, produce. But that does not make you money, and particularly in recent years with the high increase in the price of phosphorous, potassium, and especially nitrogen, this is absolutely the wrong course to go if you are a farmer who thinks pouring more fertilizer on is going to make you more money.

What we show here is, in the last 25 years, we have been able to produce more corn with even less fertilizer. We can see it in the downward trends of nitrogen, phosphate, and potash. We use U.S. Department of Agriculture data compiled by the Fertilizer Institute that nitrogen, phosphate, and potash efficiency is growing in corn production.

To put it another way, we are growing more bushels of corn per pound of nutrient applied. This is in direct contradiction to the impression that Time magazine author Mr. Walsh makes with his statements.

We know the hypoxia is partly a natural phenomenon, but scientists generally agree that nitrates from agriculture and other manmade factors contribute to it. When the hypoxia zone forms—and most of the time we talk about this in the Gulf of Mexico—it does, in fact, displace fish. But it is particularly unfair to try to quantify impacts on the fishing industry be-

cause there is not sufficient data to back up that claim. Technology has allowed farmers to apply the exact amount of fertilizer in the right way so there is not excess.

However, even in organic farming, which the author seems to hold in the highest esteem, it uses manure from animals for fertilizer which also contains nitrogen. Soil naturally contains nitrogen that under certain circumstances of too much rain or too much moisture in the ground can eventually get into our streams. That is true whether it is from natural fertilizer or whether it is from commercial fertilizer.

Farmers for years have been employing conservation practices such as no till, buffer strips, and wetlands, just like I have on my farm, to prevent soil erosion and to keep runoff from going directly into the waterway. I anticipate, especially under this new farm bill, that these practices will grow.

In addition, research is starting to shift on hypoxia issues in regard to the Gulf of Mexico. There is increasing recognition that causes of hypoxia relate strongly to manmade alteration of the entire system, including channelization of the Mississippi, reversal of the Atchafalaya River in Alabama, and extreme loss of wetlands and barrier islands that filter nutrients and protect against storm surges, not solely nutrient issues, as this author would imply.

The U.S. Environmental Protection Agency, the EPA, Science Advisory Board has a hypoxia report out indicating that 22 percent of the nitrogen and 34 percent of the phosphorous loads can be attributed to point source rather than agriculture, as far as the hypoxia problem in the Gulf of Mexico is concerned.

In addition, the Environmental Protection Agency estimates that over 2 trillion gallons of untreated combined sewer overflow run into our Nation's waterways each year, and the Army Corps of Engineers' projects dump millions of yards of nutrient-rich soil into the Missouri and other rivers for habitat restoration purposes that also contribute.

These types of dredging projects in the Missouri River floodplain alone may represent as much as 8 percent of the spring's total phosphorous discharge, leading to problems in the Gulf of Mexico.

Technology in corn production in the United States over the last 100 years has been remarkable. From about 1860 to 1930, corn averaged just about 25 bushels per acre. Not until the 1950s through 1980s, when corn breeders began using double-cross and single-cross technology, did we see these great advances in yields of corn.

Just in the last 10 years, we have seen increased use of biotechnology which has provided yields over 150 bushels per acre. This author, Mr.

Walsh, clearly views biotechnology as a bad thing when, in fact, traits such as drought resistance and nutrient-use efficiency are actually improving corn's performance with less inputs, as demonstrated by this chart.

Many of our technology companies are expecting their yield trends to exceed 300 bushels per acre in coming years. For someone such as me who has been farming for 50 years, it is almost unimaginable, but exciting at the same time, to have these projected yields we are hearing.

I wish to turn to another chart now. It deals with another issue that is very important for us to understand when we are talking about efficiency of agriculture and reducing pollution. In fact, in 1915, we used 90 million acres—in comparison to about 90 million acres, I think it is more like 87 million acres this year of corn being produced, or 2 years ago, 93 million acres of corn being produced. I am referring to 90 million acres in this picture. In 1915, 90 million acres of cropland in America were simply used to fuel our agricultural production.

So let's get it straight. It took 90 million acres of crops just to feed all the horses and all the mules that provided the work and the energy on our agricultural land before tractors were invented.

If you add up all the land in the United States being used to produce corn, wheat, and soybeans, it is about 224 million acres today. So less than 100 years ago, we would have been using nearly half the acres in the United States just to feed the draft animals that produced the power to till the soil and to produce those 25 bushels of corn per acre compared to the 150-some bushels per acre now that we will have in the United States this year of corn production.

By 2050, it is estimated that the world's population will exceed 9.3 billion people, compared to 6 billion people now. As the world demand for nutrient-rich food and protein continues to grow as both income levels and populations grow in developing nations, America's farmers are ready to answer that call to help feed the increasing number of people around the world, and, most people would tell you today, not by putting more land into production but by getting more from each acre of land as that productivity and yield increase very dramatically, as it has in the past and will continue to into the future.

Mr. Walsh of Time magazine attacks animal agriculture throughout this article. His theme is that if an animal doesn't roam free on the western prairie and eat grass, it simply couldn't be healthy or safe to eat. Mr. Walsh cites the Pew Commission on Industrial Farm Animal Production in his analysis of why animals treated with antibiotics produce meat unsafe to eat.

However, the American Veterinary Medical Association responded to the Pew report with a lengthy report of its own, which Mr. Walsh conveniently fails to mention, perhaps because the American Veterinary Medicine Association study said:

A scientific human/animal nexus, connecting antimicrobial treatments in animals with food-borne or environmentally contracted human disease, has not been proven.

Livestock producers take very seriously their responsibility to provide safe and abundant food to the general public. Dairy, poultry, and livestock farmers have made a voluntary commitment to using antibiotics responsibly. By developing responsible-use guidelines, these industries have proactively taken steps to safeguard both human and animal health, and Mr. Walsh makes no mention of that.

On issue after issue, I have worked on my main priority: that the policy decisions we make must be based on sound science and not on political ideology. We have seen studies that indicate that the risk of foodborne bacteria on meat increases when antibiotics that help suppress animal disease are removed, actually making our food less safe to eat. Does Mr. Walsh take that into consideration?

We only have to turn to our neighbor across the Atlantic to see how a ban on antibiotics has played out. The European Union made a decision to phase out the use of antibiotics as growth promoters over 15 years ago, and in 1998 Denmark instituted a full voluntary ban, which in 2000 became mandatory. After the ban was implemented in 1999, pork producers saw an immediate increase in piglet mortality and post-weaning diarrhea.

Dr. Scott Hurd, a former U.S. Department of Agriculture Deputy Under Secretary for Food and Safety and professor at Iowa State University College of Veterinary Medicine, released a study which shows that when pigs have been sick during growth, they have a greater presence of food-safety pathogens on their carcasses when slaughtered.

I want to refer to what went on in Denmark with my third and last chart—the effects of banning antibiotics—and we have a Danish model here. It doesn't project very good healthy animal agriculture or safety for the consuming public. If this ban had resulted in improvements to public health—in other words, the ban the European Union put on antibiotics, and particularly in Denmark—suffering consequences such as piglet mortality would make sense. But the science does not back up that positive improvement in public health has occurred as a result of the Denmark ban. In fact, in 2002 the World Health Organization released a study on antimicrobial resistance and could find no public health benefit from the Denmark ban. It is

true that overall use of antibiotics in Denmark has declined, but there has been a significant increase in the use of therapeutic antibiotics which are used to treat and control diseases. I think an interesting statistic is that in 2009 the use of therapeutic antibiotics in Danish pigs is greater than what was used to prevent the disease and to promote growth prior to the ban in 1999. So I think it is very easy to see that if you look at the science—and Mr. Walsh conveniently ignores it—the practice in the United States is superior to the practice of the ban in Denmark.

We had a 2009 Iowa State University study estimating that production costs would rise by \$6 per pig in the first year of a prohibition if a similar ban were imposed in the United States as it is in Denmark. Over 10 years, the cumulative cost to the U.S. pork industry would exceed \$1 billion. This would all be on top of the estimated \$4.6 billion U.S. pork producers have lost since September 2007 due to a perfect storm of events within that industry.

The author, Mr. Walsh, also points to recent recalls in nuts, fruits, and vegetables as evidence that conventional agriculture is harmful and unsafe. What Mr. Walsh chooses to ignore is that salmonella and *e. coli* are naturally occurring organisms that, with proper handling, processing, and cooking, can be minimized or even eliminated. Organic agriculture is not somehow exempt from being affected by these bacteria, as Mr. Walsh might want us to believe.

In fact, one of the main challenges within our food safety system has been the perpetual underfunding of the Food and Drug Administration. I hope the Senate will be able to undertake comprehensive food safety reform yet this year and give very serious consideration and attention to the funding deficiencies of that agency.

American consumers demand not only a safe and abundant food supply but also an affordable selection to feed their families nutritious and healthy food. The author fails to recognize that personal choice is part of that equation. Ask any American consumer. While less than 1 percent of agriculture is farmed organically, as he points out, a simple economics lesson would tell us that supply and demand are in direct relationship to one another.

In 2008, Americans spent 9.6 percent of their disposable personal income on food expenditures. This has steadily decreased since the late 1920s, when nearly 24 percent of our income was spent for food intake. Our consumers have demanded an affordable food supply, and our agricultural industry has answered that call. Other nations with less developed agricultural industries than the United States spend anywhere from 12 percent to 45 percent of their income on food.

At the same time producers have become more efficient and are providing

U.S. consumers with lower food costs, the farm share being retained by the producer—in other words, the family farmer—has been decreasing. For example, in the years 2000 to 2006, the farm value share ranged from 5 to 6 percent for cereals and bakery products compared to what is being paid at the retail level. Costs in packaging, processing, and transportation account for most of the cost at the grocery level. Conventional agricultural producers are not getting rich. Instead, they are producing the safest, most abundant, most reasonably priced food in the world for our consumers at a time when their share of the food value is not increasing.

Perhaps Mr. Walsh, the Time author, believes we should be spending a higher percentage of our income on food. However, because of the financial situation our Nation is facing, including families out of work and with lower disposable income, citizens would be outraged if suddenly their food expenditure skyrocketed. The Economic Research Service at the U.S. Department of Agriculture reported that total food expenditures for all food consumed in the United States was \$1.165 trillion in 2008, a 3.3-percent increase from the \$1.128 trillion in 2007. Prices are naturally rising because of the higher cost to do business, including transportation costs. But do we really think it is feasible to see these prices go even higher so that the author, Mr. Walsh, can further promote what I consider a political agenda? Growing all of our food organically will take more land, cost more money to produce, drive prices up, and ultimately make food even less affordable to those in need.

I appreciate the opportunities organic agriculture has made possible for farmers in my State of Iowa, and I am sure other Senators would say the same for their own States. It has truly allowed our smallest farmers to flourish and receive a premium for their crops and livestock. It has also promoted gardens and has helped us teach our children where their food comes from.

I agree with the author that the gardens of First Lady Michelle Obama and the U.S. Department of Agriculture are bringing more visibility to educating our consumers about where their food comes from. I commend them for highlighting the important issues relating to our health by eating fresh fruits and vegetables.

Organic agriculture and conventional agriculture can coexist. Both will be driven by demand, and both provide important choices for the U.S. consumer. Some consumers will shop for locally grown foods, others will shop for the cost effectiveness due to their tight household budgets.

It is time—it is time—for Time magazine and Mr. Walsh to start being honest with their readers. The next time

the magazine wants to run a story that clearly reflects the author's personal views, it should identify that article as such. I expect the next article Time publishes on agriculture to be better researched and to present a more balanced view.

Mr. President, I yield the floor.

#### TRIBUTE TO DAVID C. PARRISH, JR.

Mr. McCONNELL. Mr. President. I would like to recognize a courageous Kentuckian, David C. Parrish, Jr., for his induction into the Kentucky Aviation Hall of Fame on October 17, 2009. Sixty-five years ago this past August, Mr. Parrish undertook brave actions during his service as a fighter pilot during World War II. A native of Paris, KY, Mr. Parrish represented the very best in courage, gallantry, and self-sacrifice in defense of this Nation in the skies west of Paris, France. Like many of America's "greatest generation," Mr. Parrish was willing to disregard his own safety for the safety of his fellow airmen and the protection of his country.

Valor and sacrifice are words that describe the nature of Mr. Parrish, and patience would also describe his character. Although he was recommended for the Silver Star in August 1944, lost records and bureaucratic delays meant it would take 60 years for Mr. Parrish's heroism to be officially recognized. It was my deep privilege to work with Mr. Parrish in this effort and to personally present him with his Silver Star in his hometown in 2004. I believe Mr. Parrish's story is a timely reminder of the sacrifices that so many American men and women have made in the name of freedom.

Mr. President, I would like to share with you a retelling of Mr. Parrish's actions in defense of this Nation that earned him the Silver Star and his induction into the Kentucky Aviation Hall of Fame. On August 8, 1944, 1LT David C. Parrish, Jr., was flying in the area of Mortain, France. His flight was part of an eight-plane squadron that became separated from the lead flight while on patrol. Lieutenant Parrish and three others were on their way home when the controller reported 100 enemy fighters flying above him and toward American bombers. His wingman had to fly home because he was low on fuel. Lieutenant Parrish and the remaining two fighters climbed toward the enemy planes.

Lieutenant Parrish was also low on gas and would have normally returned to base, being so outnumbered by enemy fighters. However, recognizing the danger to the friendly bombers, Lieutenant Parrish dove his three fighters into the heart of the enemy formation. The enemy fighters dispersed and Lieutenant Parrish and his fellow airmen gave chase. Lieutenant

Parrish pursued one enemy fighter at 4,000 feet and destroyed it. He then turned toward another enemy fighter flying at tree top level and eventually was able to force the enemy pilot to bail out. These pursuits were extremely hazardous, and even more so because Lieutenant Parrish was perilously low on fuel.

It is my great pleasure to recognize Mr. Parrish for the sacrifices and risks he has made for this country, and I would like to congratulate him on his well-deserved induction in the Kentucky Aviation Hall of Fame. He has made Kentucky very proud.

#### REMEMBERING SENATOR EDWARD M. KENNEDY

Mr. BUNNING. Mr. President, today I am saddened by the death of my colleague from Massachusetts, Senator Edward Kennedy.

Born and raised in Massachusetts, Senator Kennedy dedicated his life to serving his country and the Commonwealth. He enlisted in the U.S. Army in 1951, beginning his long career of public service. Elected in 1962, Senator Kennedy is the third longest serving Senator in the history of the Senate. He served the people of Massachusetts well for 46 years, and I know his family and the people of Massachusetts are proud to call him one of their own.

Senator Kennedy had a long list of accomplishments to show for the people of Massachusetts and the Nation. He was a political icon who served with great distinction and passion for nearly a half century in the U.S. Senate, and whether I agreed with him or not, I always admired the way he fought for the issues he believed in. His leadership in the Senate will be missed and it has truly been an honor serving with him.

Mr. President, Senator Kennedy will be greatly missed. Mary and I give our heartfelt condolences to his wife, Vicki, and the entire Kennedy family.

#### COMMENDING SENATOR MELQUIADES RAFAEL "MEL" MARTINEZ

Mr. BUNNING. Mr. President, today I pay tribute to my distinguished colleague from Florida, Mel Martinez, who retired from the Senate earlier this month.

I have worked with Senator Martinez since he was elected to serve the people of Florida in 2004. He has served his country proudly in several different roles. Senator Martinez also had the distinct honor to serve as the Secretary of Housing and Urban Development in President George W. Bush's Cabinet and as the chairman of the Republican National Committee. In both roles, it was not personal ambition that drove Mel. Rather, it was his passion to make his country a better place to live for his family and for all Americans.

I have also had the privilege of serving on the Senate Banking Committee with Senator Martinez. As a member of this committee, Mel brought a greater understanding and perspective on housing issues facing the Nation than many Senators that have served on this committee. Floridians and all Americans have benefited from his vast experience in this area as well as his dedication to serve for the greater good. A person of this caliber will truly be missed in the United States.

I am honored to know him and to have worked with him. I would like to thank Senator Martinez for his contributions to the Senate and to the country we both love. I wish him and his family the best in all of their future endeavors.

#### ADDITIONAL STATEMENTS

##### REMEMBERING JOSEPHINE PEREZ

• Mr. BENNET. Mr. President, on August 28, 2009, Colorado and the Nation lost a champion for justice and equality, Josephine Marie Varela-Perez. Josie, as she was known by all, surmounted the daunting challenges life brought her to become an exemplary voice for minority students in Denver. Her courage and conviction created a better future not only for Denver students but for countless kids across the country.

Josie's humble beginnings never held her back from achieving her dreams. When faced with adversity, she overcame.

School year after school year, Josie would show up on the first day to be counted among her classmates and then return to working in the beet fields, never attending class past the fourth grade. But Josie—a strong believer that education was the key to success and should be available to all children no matter their race or creed—taught herself English and Spanish and earned her GED.

Josie's commitment to education and minority rights thrust her into the center of the civil rights movement as a party to the landmark desegregation case, *Keyes, et al. v. School District No. 1, Denver, Colorado*. She also marched with Cesar Chavez and the United Farm Workers and was a voice for the less fortunate. Her strength and courage in standing up for the rights of minority students and the less fortunate is an inspiration to all.

Josie's strong spirit extended far beyond her activism. Josie worked tirelessly to support her six kids—Ricardo, Patricia, Lou, Carlos, Terry, and Sheila so that they could have the future they deserved.

I join Coloradans and Americans across the country in grieving the loss of this civil rights champion. Josie's legacy will continue to inspire Americans for generations to come.

My thoughts and prayers are with her family.●

#### RECOGNIZING FIFTY YEARS OF ICBMS

● Mr. CONRAD. Mr. President, I wish today as cochair of the Senate ICBM coalition along with my friend from Wyoming to recognize and pay tribute to 20th Air Force as the Air Force celebrates the 50th anniversary of the first nuclear-tipped ICBM on alert, and to honor the heritage and accomplishments of the ICBM mission and people—past and present—who acquire, develop, operate, maintain, and secure this combat capability for our Nation.

In July 1954, the Air Force established the Western Development Division in response to the growing Soviet missile threat. It developed the first-generation ICBMs—the Titan that is housed in underground silos as well as the above-ground Atlas.

In October 1959, the first alert of a nuclear warhead-equipped Atlas D occurred at Vandenberg Air Force Base, CA. Immediately thereafter, the Air Force started working on a solid-fueled, second-generation ICBM called the Minuteman. Ten Minuteman I ICBMs were already on alert at Malmstrom Air Force Base, MT, by the Cuban Missile Crisis in October 1962. Just three years later, the first-generation ICBMs were replaced with the larger and more accurate Minuteman II.

By January 1970, the Air Force had deployed the Minuteman III. Throughout the 1970s, in response to the Soviet Union's buildup of multiwarhead ICBMs, the Air Force started work on the Peacekeeper. In 1987, 50 Peacekeepers were deployed in existing Minuteman III silos at F.E. Warren Air Force Base, WY. At the height of the Cold War, the Air Force maintained an ICBM fleet of more than 1,200 missiles on alert as a counterforce to the approximately 1,400 Soviet ICBMs poised against the United States.

Currently, the Air Force maintains a fleet of 450 on-alert Minuteman III ICBMs, spanning the missile fields in Colorado, Montana, Nebraska, North Dakota, and Wyoming. In August 2009, the Air Force activated a new major command—Air Force Global Strike Command—committed solely to the nuclear deterrence mission. This December, 20th Air Force and the ICBM mission will transfer from Air Force Space Command to Air Force Global Strike Command. The pride shared today in the heritage and rich history of the ICBM mission will always be a part of Air Force Space Command's contribution to our national security.

Mr. President, the American people are fortunate to have the dedicated Airmen of 20th Air Force operate, maintain, and secure America's only land-based strategic deterrent 24 hours

a day, 7 days a week, 365 days a year. I know my colleagues will join me in congratulating the Air Force on 50 years of the highest commitment in carrying out the ICBM mission.●

#### ABERDEEN MONUMENT TO FIREFIGHTERS

● Mr. JOHNSON. Mr. President, I rise today to honor a special unveiling of the Aberdeen Monument to Firefighters on October 15, 2009. The handsome bronze, carefully crafted by Aberdeen sculptor Benjamin Victor, is a tribute to the firefighters who put their lives on the line and heroically serve with courage, pride and honor. Fully aware that firefighting is inherently dangerous work, these men and women work day and night to save lives, save property and protect the environment.

Benjamin Victor has crafted a spectacular sculpture to commemorate these heroes. It portrays his passion for expression and detail and his natural ability to create unique and inspiring works of art. Ben, at 26 years old, is the youngest artist ever to have a sculpture in the National Statuary Hall in the U.S. Capitol. Art critics and organizations throughout the country recognize the aesthetic and conceptual integrity of Ben's work. Early on, Aberdeen saw his talent and its citizens are very grateful that he continues to share his talents with their community.

I also want to commend the Aberdeen community for their efforts to make this unveiling possible. Using no tax dollars, the entire funding for this project came from businesses, service clubs, schools, fraternal organizations and individuals in the community who saw the significance of this monument. This contribution by the Aberdeen community and Benjamin Victor will commemorate the important role of our firefighters for generations to come.●

#### TRIBUTE TO FATHER ROBERTO BALDUCELLI

● Mr. KAUFMAN. Mr. President, today I recognize the extraordinary contributions of a patriarch of the Italian-American community in my home State of Delaware, Father Roberto Balducci. On Columbus Day, Father Balducci will be honored by the Columbus Communion Breakfast Committee with its Outstanding Achievement Award.

Father Balducci's 96 years on this Earth, while a true gift to all he has served, reads like a novel. As a 9-year-old boy in the small town of Castelluccio, Italy, he decided that he wanted to pursue an ecclesiastical education in Rome. In 1929, at the age of 16, he joined the Oblates of St. Francis de Sales. After studying in France and

Switzerland, he returned to Italy from September 1939 to March 1946.

During World War II, Father Balducci helped save Italian Jews from persecution. The young priest recovered the bodies of civilians killed in bombing raids, was injured in one of these attacks, and sheltered refugees from Nazi persecution.

After receiving a passport to come to the United States, Father Balducci crossed the Atlantic Ocean over the course of 29 days and arrived in New York on April 10, 1946. The young oblate arrived at St. Anthony's of Padua Church in Wilmington soon after and became the church's first Italian priest. In 1959, he became pastor of St. Anthony's.

As a first-rate mason and a licensed contractor in the State of Delaware, Father Balducci oversaw and helped undertake the renovation of an old public school to meet young Catholic students' educational needs, and he helped establish a new school, called Padua Academy, for girls, as well.

His love of welding helped to build St. Anthony in the Hills in the 1960s, a popular summer retreat and sanctuary for children and their families near Hockessin, DE. On his watch, the parish opened a senior and day care center and expanded the regionally prominent Italian Festival in Delaware. He retired as the church's pastor in 1988.

I am privileged to have known Father Balducci for many years. I look forward to breaking bread with him at the Columbus Communion Breakfast in Wilmington's Little Italy on the day of his special recognition.

I hope my colleagues will join me in celebrating Father Balducci's significant accomplishments, which he achieved over the course of a lifetime dedicated to our community. Wilmington and our Italian-American community could not have woven such a fabric of family and strength if it were not for the commitment and foresight of Father Roberto Balducci.●

#### NATIONAL HUNTING AND FISHING DAY

● Ms. STABENOW. Mr. President, I am here today in recognition of National Hunting and Fishing Day, which was recognized on September 26. Hunters and anglers contribute significantly to our Nation's economy. More than 1 million hunters and anglers add over \$3 billion each year into Michigan's economy alone.

From the very beginning, hunting and fishing have been at the center of Michigan's history and culture. Our two great peninsulas, surrounded by the magnificent Great Lakes, are home to over 8 million acres of public hunting land, tens of thousands of rivers and streams, and some of the best hunting and fishing in the United States. Whether meandering along

Hemingway's Fox or Two Hearted Rivers for brook trout and ruffed grouse, or making the annual trip to deer camp with friends and family, Michigan's proud heritage comes with a sense of profound responsibility to protect that legacy for future generations.

We have made some important progress. I have been pleased to spearhead a number of efforts including Federal funding to stop the invasive cormorant from destroying our fisheries. This project has already shown conclusive results in bringing back once-decimated fishing areas. Through my work on the Senate Agriculture Committee, we have invested over \$4 billion in new conservation efforts that will protect wildlife habitats and increase access for hunters and anglers across the country. Most recently, the Senate passed \$400 million in funding for the Great Lakes Restoration Initiative to clean up the Great Lakes.

While we have made progress, there is more work to be done. I will continue to work for passage of the National Fish Habitat Conservation Act and the Clean Water Restoration Act, which will help preserve Michigan's 36,000 miles of rivers and streams, including over 1,000 miles of blue-ribbon trout streams. I will also continue to work to ensure access to public lands and waterways.

Working together, we can preserve our natural resources so others can enjoy our rich hunting and fishing heritage for generations to come.●

#### TRIBUTE TO DR. CAROLYN PORCO

● Mr. UDALL of Colorado. Mr. President, today I praise Dr. Carolyn Porco, a professor at the University of Colorado, senior researcher at the Space Science Institute in Boulder, CO, and leader of the imaging team for the Cassini mission. In this last role, she has a front row seat on some of the most exciting scientific discoveries of today coming from the Cassini spacecraft, which for 5 years has been orbiting and studying Saturn and its Moons. I have submitted for the RECORD an article about Dr. Porco from the September 21, 2009, edition of the New York Times.

In Colorado, we are extremely proud of our science and technology enterprise. We have 16 Federal laboratories, top-flight research universities and a vibrant private sector pushing the limits on everything from biomedical research to space exploration. But even in this crowded field, Dr. Porco stands out as an exemplary Colorado scientist. She has repeatedly been recognized as one of the top scientific leaders to watch this century both for her scientific accomplishments and her leadership within the scientific community. As the Times article shows, she has come a long way from her humble Bronx upbringing.

Thinking about Dr. Porco, I am reminded that great scientists are not born. They are made. They are made through the hard work and determination of the young boy who rejects the stigma that somehow being smart is not cool and the young girl who refuses to take a back seat to any boy. They are made through the guidance and support of countless teachers and mentors who receive far too little credit for the service they give to this country. And perhaps most importantly for this body, they are made through the investments we make in research, development and education. If we want the Carolyn Porcos of the future to be here in the United States—and believe me, we do—we must invest now in our research agencies, and we must have well-paid, high-quality teachers in the classroom.

Dr. Porco is a stellar example of what we can accomplish as individuals and as a nation with focus and a little bit of tenacity. I congratulate her on her accomplishments and well-deserved recognition. I, for one, will be following her progress and expecting many more great things from her in the future.

I ask that the New York Times article to which I referred be printed in the RECORD.

The information follows.

AN ODYSSEY FROM THE BRONX TO SATURN'S RINGS

(By Dennis Overbye)

It is twilight time on Saturn.

Shadows lengthened to stretch thousands of miles across the planet's famous rings this summer as they slowly tilted edge-on to the Sun, which they do every 15 years, casting into sharp relief every bump and wiggle and warp in the buttery and wafer-thin bands that are the solar system's most popular scenic attraction.

From her metaphorical perch on the bridge of the Cassini spacecraft, which has been orbiting Saturn for five years, Carolyn Porco, who heads the camera team, is ecstatic about the view. "It's another one of those things that make you pinch yourself and say, 'Boy am I lucky to be around now,'" Dr. Porco said. "For the first time in 400 years, we're seeing Saturn's rings in three dimensions."

On Monday, Dr. Porco and the Cassini team released a grand view of the rings in all their shadowed glory, including clumps, spikes, undulations and waves two and a half miles high on the edge of one ring.

"We always knew it would be good; instead, it's been extraordinary," Dr. Porco said of the cascade of results that have placed her in a spotlight to which she has become increasingly accustomed. "I feel I'm on a great human adventure," she said.

The work may be carried out by robots, Dr. Porco said, "but we are all explorers."

"It's thrilling," she added, "and I want everyone to know how thrilling it is."

Dr. Porco, 56, a senior researcher at the Space Science Institute in Boulder, Colo., may be the leader of the camera team on the \$3.4 billion Cassini mission, an adjunct professor at the University of Colorado and one of Wired magazine's 15 people who should be advising the president. But she is also a

proud child of the 1960's who has never let go of the exuberance of that era when President John F. Kennedy "said that the sky isn't even the limit," as she puts it, and "things were unleashed."

Her entries on the Cassini imaging Web site echo the spirit of the character Capt. James T. Kirk on "Star Trek":

CAPTAIN'S LOG—MARCH 23, 2009

We are almost there. Saturn and we, its companions, have journeyed together now for nearly five years, in a circumnavigation of the outer solar system.

Stanley Kubrick's film "2001: A Space Odyssey" is still her favorite movie, and she still loves the Beatles. On a visit to England in 2001, she and her imaging colleagues recreated the album cover picture of the Beatles crossing Abbey Road, with Dr. Porco leading, dressed in white like John Lennon.

Dr. Porco was born and raised in a Bronx family with four brothers she partly credits for her subsequent success in astronomy. "I'm used to fighting and arguing with males," she said.

Her father, an Italian immigrant, drove a bread truck, and her mother kept house. Dr. Porco attended Cardinal Spellman High School, the same school that Justice Sonia Sotomayor of the Supreme Court attended.

She was a studious child and a spiritual seeker—"13 going on 80"—who lived a lot in her head. Later, as a student at the State University of New York at Stony Brook, she said she spent two years as a chanting Buddhist and even went on a two-week pilgrimage to Japan, where she was the majorette in a Buddhist marching band, wearing hot pants. "Now, THOSE were the days," she wrote in an e-mail message.

By then, Dr. Porco was pursuing the future she had glimpsed at age 13 when she saw Saturn through a neighbor's rooftop telescope. As a graduate student at the California Institute of Technology, she floundered at first but then got a job helping to analyze data from the two Voyager spacecrafts, which toured the outer planets from Jupiter to Neptune from 1978 to 1989.

It was there, said Peter Goldreich, her thesis advisor, that she demonstrated a knack for picking out important things. Among them was a discovery that mysterious dark spokes in Saturn's ring system were connected to the planet's magnetic field. She did her thesis on aspects of the rings and how they were shaped by the gravity of tiny moonlets.

Dr. Porco also did a lot of dancing, and played a guitar and sang in the Titan Equatorial Band, a pickup group of scientists and science writers named after a feature on Saturn's largest moon, and later for a group in Tucson called the Estrogens. "Three women and one very brave guy," she said.

By the time Voyager passed Neptune in 1989, Dr. Porco was a research associate at the University of Arizona and leading a small team trying to make sense of the thin rings around Neptune.

"She was one of the young rock stars of Voyager," said David Grinspoon, of the Southwest Research Institute in Boulder, who was a graduate student at Arizona at the time.

But it had not been an easy climb in the overwhelmingly male and competitive environment of space science. Dr. Porco once described scientists as "schoolyard toughs." She recalled pumping herself up to be an "alpha male" before meetings of her ring team.

Even as a graduate student, Dr. Goldreich recalled, Dr. Porco "was making a deliberate effort to become tough, and she succeeded."

Dr. Porco found an ally and friend in Carl Sagan, the Cornell astronomer, author and a charter member of the Voyager team, who defended her once when her Voyager colleagues teased her about not being married.

Dr. Porco was subsequently hired as a consultant for the movie "Contact," based on Sagan's novel about a feisty astronomer, Ellie Arroway, who discovers a signal from extraterrestrials.

Although plans fell through for Dr. Porco to meet Jodie Foster, the actress who played Arroway, she did attend a workshop on the script, where she took strong exception to an idea that the character would sleep with her adviser. "She's a let-it-ripper, isn't she?" recalled the movie's producer, Lynda Obst. "She let it rip."

Voyager, Dr. Porco said, was the time of her life. "It had all the elements of Homeric legend," she said. "It was a long 12-year odyssey, punctuated by brief episodes of great discovery and conquest. And then it was back in the boat, oars in the water, until years later we reached our next port of call. It was a defining experience for many of us, and certainly for me."

The chance to channel Dr. Porco's inner Captain Kirk continued with the \$3.4 billion Cassini mission, which was launched on a roundabout course toward Saturn in 1997 and arrived in 2004. Being on the imaging team is like standing on the bridge of the spaceship, she said. "We have the windows," she said. "That's what we're responsible for."

Dr. Porco was chosen over more senior astronomers to head the Cassini camera team in 1990, one of 12 team leaders for the spacecraft. The job swallowed her life, she said, and required her hard-won toughness. "Our experiment has been spectacularly successful," she said, "and that would never have happened if I let people roll over me."

But Dr. Porco said it had all been worthwhile. "Between my participation in Voyager and my role in Cassini," she said, "when comes the time, I will die a happy and gratified woman."

One of the most thrilling Cassini moments was in 2004 when the Huygens probe detached from Cassini and landed on Saturn's largest moon, Titan, a strange, frigid world where rocks are made of ice, and rivers and oceans are formed of what Dr. Porco has described as "paint thinner."

Last month, astronomers announced that they had detected methane storms on Titan, a cloudy moon that has an atmosphere denser than that of Earth.

They also discovered plumes erupting from the south pole of another Saturn moon, Enceladus, suggesting the presence of underground water and prompting talk about a future mission to cruise through the plumes. "Should we ever discover that life has arisen twice," Dr. Porco said, "that would be a game-changer."

The Titan landing, Dr. Porco said in a talk in 2007, should have been celebrated with parades in every major city.

That talk led to another movie adventure. J. J. Abrams, the producer of the television series "Lost," was listening and asked Dr. Porco to consult on his "Star Trek" movie. On a visit to the set, she suggested that a scene in which the Starship Enterprise materialized inside clouds be set on Titan. The scene made it onto the cover of Cinefex, a magazine about special effects in films.

In an interview, Mr. Abrams said: "She helped us feel connected to what Gene Roddenberry had been trying to do. This is our future," referring to the creator of "Star Trek."

Cassini endures, and Dr. Porco is a member of the team for the New Horizons spacecraft, which is scheduled to arrive at Pluto in 2015. But she said she hoped to spend more of her time popularizing science and hopes to write a book about Cassini.

"To my mind," Dr. Porco said, "most people go through life recoiling from its best parts. They miss the enrichment that just a basic knowledge of the physical world can bring to the most ordinary experiences. It's like there's a pulsating, hidden world, governed by ancient laws and principles, underlying everything around us—from the movements of electrical charges to the motions of the planets—and most people are completely unaware of it."

"To me, that's a shame." ●

## MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

## EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations and two withdrawals which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

## MESSAGES FROM THE HOUSE

### ENROLLED BILL SIGNED

At 2:15 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the Speaker has signed the following enrolled bill:

H.R. 3607. An act to amend the Internal Revenue Code of 1986 to extend the funding and expenditure authority of the Airport and Airway Trust Fund, to amend title 49, United States Code, to extend authorizations for the airport improvement program, and for other purposes.

At 4:23 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House agreed to the amendment of the Senate to the bill (H.R. 3614) to provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes.

### ENROLLED BILL SIGNED

At 6:11 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the Speaker has signed the following enrolled bill:

H.R. 3614. An act to provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes.

## EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-3153. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Munitions and Explosives of Concern (MEC); Seal Island, Maine" ((RIN1625-AA00) (Docket No. USG-2009-0595)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3154. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Paddle for Clean Water; San Diego; California" ((RIN1625-AA00) (Docket No. USG-2009-0383)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3155. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; F/V Patriot, Massachusetts Bay, Massachusetts" ((RIN1625-AA00) (Docket No. USG-2009-0707)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3156. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Festivus, Lower Colorado River, Bullhead City, Arizona" ((RIN1625-AA00) (Docket No. USG-2009-0454)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3157. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Hornblower Cruises Fleet Week Fireworks Display, San Francisco Bay, California" ((RIN1625-AA00) (Docket No. USG-2009-0631)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3158. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Neptune Deep Water Port, Atlantic Ocean, Boston, Massachusetts" ((RIN1625-AA00) (Docket No. USG-2009-0644)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3159. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Missouri River, Mile 366.3 to 369.8" ((RIN1625-AA00) (Docket No. USG-2009-0594)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3160. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Upper Mississippi River, Mile 427.2 to

427.6, Keithsburg, Illinois" ((RIN1625-AA00) (Docket No. USG-2009-0646)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3161. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Sea World Labor Day Fireworks, Mission Bay, California" ((RIN1625-AA00) (Docket No. USG-2009-0269)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3162. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; BWR 300' Enduro, Lake Moolvalya, Parker, Arizona" ((RIN1625-AA00) (Docket No. USG-2008-1180)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3163. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Special Local Regulation for Marine Events; Choptank River, Cambridge, Maryland" ((RIN1625-AA08) (Docket No. USG-2009-0749)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3164. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Special Local Regulations for Marine Events; Patapsco River, Northwest Harbor, Baltimore, Maryland" ((RIN1625-AA08) (Docket No. USG-2009-0251)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3165. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Drawbridge Operation Regulation; Sabine River, Echo, Texas" ((RIN1625-AA09) (Docket No. USG-2009-0101)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3166. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Definition of Marine Debris for Purposes of the Marine Debris Research, Prevention, and Reduction Act" ((RIN0648-AV68; RIN1625-AB24) (Docket No. USG-2007-0164)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3167. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Anchorage Regulations; Port of New York and Vicinity" ((RIN1625-AA01) (Docket No. USG-2008-0047)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3168. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Shipping; Transportation; Technical, Organizational, and Conforming Amendments"

((RIN1625-ZA24) (Docket No. USG-2009-0702)) received in the Office of the President of the Senate on September 21, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3169. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; McCauley Propeller Systems Propeller Models B5JFR36C1101/114GCA-0, C5JFR36C1102/L114GCA-0, B5JFR36C1103/114HCA-0, and C5JFR36C1104/L114HCA-0" ((RIN2120-AA64) (9-179-22/25173/NM-24)) received in the Office of the President of the Senate on September 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3170. A communication from the Chief of Staff, Media Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "Television Broadcasting Services; Fort Worth, Texas" (MB Docket No. 09-132) received in the Office of the President of the Senate on September 24, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3171. A communication from the Chief of Staff, Media Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "Television Broadcasting Services; Chicago, Illinois" (MB Docket No. 09-146) received in the Office of the President of the Senate on September 24, 2009; to the Committee on Commerce, Science, and Transportation.

By Mr. REID (for himself, Mr. MCCONNELL, Mr. INHOFE, Mr. COBURN, Mr. AKAKA, Mr. ALEXANDER, Mr. BARASSO, Mr. BAUCUS, Mr. BAYH, Mr. BEGICH, Mr. BENNET, Mr. BENNETT, Mr. BINGAMAN, Mr. BOND, Mrs. BOXER, Mr. BROWN, Mr. BROWNBACK, Mr. BUNNING, Mr. BURR, Mr. BURRIS, Mr. BYRD, Ms. CANTWELL, Mr. CARDIN, Mr. CARPER, Mr. CASEY, Mr. CHAMBLISS, Mr. COCHRAN, Ms. COLLINS, Mr. CONRAD, Mr. CORKER, Mr. CORNYN, Mr. CRAPO, Mr. DEMINT, Mr. DODD, Mr. DORGAN, Mr. DURBIN, Mr. ENSIGN, Mr. ENZI, Mr. FEINGOLD, Mrs. FEINSTEIN, Mr. FRANKEN, Mrs. GILLIBRAND, Mr. GRAHAM, Mr. GRASSLEY,

Mr. GREGG, Mrs. HAGAN, Mr. HARKIN, Mr. HATCH, Mrs. HUTCHISON, Mr. INOUE, Mr. ISAKSON, Mr. JOHANNES, Mr. JOHNSON, Mr. KAUFMAN, Mr. KERRY, Mr. KIRK, Ms. KLOBUCHAR, Mr. KOHL, Mr. KYL, Ms. LANDRIEU, Mr. LAUTENBERG, Mr. LEMIEUX, Mr. LEAHY, Mr. LEVIN, Mr. LIEBERMAN, Mrs. LINCOLN, Mr. LUGAR, Mr. MCCAIN, Mrs. MCCASKILL, Mr. MENENDEZ, Mr. MERKLEY, Ms. MIKULSKI, Ms. MURKOWSKI, Mrs. MURRAY, Mr. NELSON of Nebraska, Mr. NELSON of Florida, Mr. PRYOR, Mr. REED, Mr. RISCH, Mr. ROBERTS, Mr. ROCKEFELLER, Mr. SANDERS, Mr. SCHUMER, Mr. SESSIONS, Mrs. SHAHEEN, Mr. SHELBY, Ms. SNOWE, Mr. SPECTER, Ms. STABENOW, Mr. TESTER, Mr. THUNE, Mr. UDALL of Colorado, Mr. UDALL of New Mexico, Mr. VITTER, Mr. VOINOVICH, Mr. WARNER, Mr. WEBB, Mr. WHITEHOUSE, Mr. WICKER, and Mr. WYDEN):

S. Res. 293. A resolution relative to the death of Henry Louis Bellmon, former United States Senator for the State of Oklahoma; considered and agreed to.

#### EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Mr. LIEBERMAN for the Committee on Homeland Security and Governmental Affairs.

\*Richard Serino, of Massachusetts, to be Deputy Administrator, Federal Emergency Management Agency, Department of Homeland Security.

\*Daniel I. Werfel, of Virginia, to be Controller, Office of Federal Financial Management, Office of Management and Budget.

\*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

#### ADDITIONAL COSPONSORS

S. 254

At the request of Mrs. LINCOLN, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. 254, a bill to amend title XVIII of the Social Security Act to provide for the coverage of home infusion therapy under the Medicare Program.

S. 451

At the request of Ms. COLLINS, the names of the Senator from Indiana (Mr. LUGAR), the Senator from Rhode Island (Mr. REED), the Senator from Texas (Mr. CORNYN) and the Senator from Utah (Mr. HATCH) were added as cosponsors of S. 451, a bill to require the Secretary of the Treasury to mint coins in commemoration of the centennial of the establishment of the Girl Scouts of the United States of America.

S. 461

At the request of Mrs. LINCOLN, the name of the Senator from Illinois (Mr.

BURRIS) was added as a cosponsor of S. 461, a bill to amend the Internal Revenue Code of 1986 to extend and modify the railroad track maintenance credit.

S. 607

At the request of Mr. UDALL of Colorado, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 607, a bill to amend the National Forest Ski Area Permit Act of 1986 to clarify the authority of the Secretary of Agriculture regarding additional recreational uses of National Forest System land that are subject to ski area permits, and for other purposes.

S. 662

At the request of Mr. CONRAD, the name of the Senator from Iowa (Mr. HARKIN) was added as a cosponsor of S. 662, a bill to amend title XVIII of the Social Security Act to provide for reimbursement of certified midwife services and to provide for more equitable reimbursement rates for certified nurse—midwife services.

S. 669

At the request of Mr. BURR, the name of the Senator from Kansas (Mr. BROWNBACK) was added as a cosponsor of S. 669, a bill to amend title 38, United States Code, to clarify the conditions under which certain persons may be treated as adjudicated mentally incompetent for certain purposes.

S. 688

At the request of Ms. SNOWE, the names of the Senator from Vermont (Mr. SANDERS) and the Senator from South Dakota (Mr. JOHNSON) were added as cosponsors of S. 688, a bill to require that health plans provide coverage for a minimum hospital stay for mastectomies, lumpectomies, and lymph node dissection for the treatment of breast cancer and coverage for secondary consultations.

S. 727

At the request of Ms. LANDRIEU, the name of the Senator from Hawaii (Mr. AKAKA) was added as a cosponsor of S. 727, a bill to amend title 18, United States Code, to prohibit certain conduct relating to the use of horses for human consumption.

S. 823

At the request of Ms. SNOWE, the name of the Senator from Maryland (Mr. CARDIN) was added as a cosponsor of S. 823, a bill to amend the Internal Revenue Code of 1986 to allow a 5-year carryback of operating losses, and for other purposes.

S. 831

At the request of Mr. KERRY, the name of the Senator from Texas (Mrs. HUTCHISON) was added as a cosponsor of S. 831, a bill to amend title 10, United States Code, to include service after September 11, 2001, as service qualifying for the determination of a reduced eligibility age for receipt of non-regular service retired pay.

S. 883

At the request of Mr. KERRY, the names of the Senator from Colorado (Mr. UDALL) and the Senator from Idaho (Mr. RISCH) were added as cosponsors of S. 883, a bill to require the Secretary of the Treasury to mint coins in recognition and celebration of the establishment of the Medal of Honor in 1861, America's highest award for valor in action against an enemy force which can be bestowed upon an individual serving in the Armed Services of the United States, to honor the American military men and women who have been recipients of the Medal of Honor, and to promote awareness of what the Medal of Honor represents and how ordinary Americans, through courage, sacrifice, selfless service and patriotism, can challenge fate and change the course of history.

S. 1008

At the request of Mrs. SHAHEEN, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 1008, a bill to amend title 10, United States Code, to limit requirements of separation pay, special separation benefits, and voluntary separation incentive from members of the Armed Forces subsequently receiving retired or retainer pay.

S. 1066

At the request of Mr. SCHUMER, the name of the Senator from Iowa (Mr. HARKIN) was added as a cosponsor of S. 1066, a bill to amend title XVIII of the Social Security Act to preserve access to ambulance services under the Medicare program.

S. 1085

At the request of Mr. MENENDEZ, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 1085, a bill to amend the Immigration and Nationality Act to promote family unity, and for other purposes.

S. 1147

At the request of Mr. KOHL, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. 1147, a bill to prevent tobacco smuggling, to ensure the collection of all tobacco taxes, and for other purposes.

S. 1221

At the request of Mr. SPECTER, the name of the Senator from Tennessee (Mr. ALEXANDER) was added as a cosponsor of S. 1221, a bill to amend title XVIII of the Social Security Act to ensure more appropriate payment amounts for drugs and biologicals under part B of the Medicare Program by excluding customary prompt pay discounts extended to wholesalers from the manufacturer's average sales price.

S. 1222

At the request of Mrs. LINCOLN, the name of the Senator from Georgia (Mr. CHAMBLISS) was added as a cosponsor of S. 1222, a bill to amend the Internal

Revenue Code of 1986 to extend and expand the benefits for businesses operating in empowerment zones, enterprise communities, or renewal communities, and for other purposes.

S. 1239

At the request of Mr. BINGAMAN, the name of the Senator from Georgia (Mr. CHAMBLISS) was added as a cosponsor of S. 1239, a bill to amend section 340B of the Public Health Service Act to revise and expand the drug discount program under that section to improve the provision of discounts on drug purchases for certain safety net providers.

S. 1301

At the request of Mr. MENENDEZ, the name of the Senator from Wisconsin (Mr. KOHL) was added as a cosponsor of S. 1301, a bill to direct the Attorney General to make an annual grant to the A Child Is Missing Alert and Recovery Center to assist law enforcement agencies in the rapid recovery of missing children, and for other purposes.

S. 1329

At the request of Mr. KOHL, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 1329, a bill to authorize the Attorney General to award grants to State courts to develop and implement State courts interpreter programs.

S. 1340

At the request of Mr. LEAHY, the name of the Senator from Wisconsin (Mr. KOHL) was added as a cosponsor of S. 1340, a bill to establish a minimum funding level for programs under the Victims of Crime Act of 1984 for fiscal years 2010 to 2014 that ensures a reasonable growth in victim programs without jeopardizing the long-term sustainability of the Crime Victims Fund.

S. 1409

At the request of Mr. KERRY, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 1409, a bill to expedite the adjudication of employer petitions for aliens with extraordinary artistic ability.

S. 1524

At the request of Mr. KERRY, the name of the Senator from Missouri (Mrs. MCCASKILL) was added as a cosponsor of S. 1524, a bill to strengthen the capacity, transparency, and accountability of United States foreign assistance programs to effectively adapt and respond to new challenges of the 21st century, and for other purposes.

S. 1542

At the request of Mr. SCHUMER, the names of the Senator from Pennsylvania (Mr. SPECTER) and the Senator from Vermont (Mr. LEAHY) were added as cosponsors of S. 1542, a bill to impose tariff-rate quotas on certain casein and milk protein concentrates.

S. 1547

At the request of Mr. REED, the name of the Senator from Vermont (Mr.

LEAHY) was added as a cosponsor of S. 1547, a bill to amend title 38, United States Code, and the United States Housing Act of 1937 to enhance and expand the assistance provided by the Department of Veterans Affairs and the Department of Housing and Urban Development to homeless veterans and veterans at risk of homelessness, and for other purposes.

S. 1550

At the request of Mr. MENENDEZ, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 1550, a bill to ensure that individuals detained by the Department of Homeland Security are treated humanely, provided adequate medical care, and granted certain specified rights.

S. 1569

At the request of Ms. STABENOW, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 1569, a bill to expand our Nation's Advanced Practice Registered Nurse workforce.

S. 1583

At the request of Mr. ROCKEFELLER, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 1583, a bill to amend the Internal Revenue Code of 1986 to extend the new markets tax credit through 2014, and for other purposes.

S. 1594

At the request of Mr. LIEBERMAN, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 1594, a bill to provide safeguards against faulty asylum procedures, to improve conditions of detention for detainees, and for other purposes.

S. 1612

At the request of Mrs. LINCOLN, the name of the Senator from Rhode Island (Mr. WHITEHOUSE) was added as a cosponsor of S. 1612, a bill to amend the Internal Revenue Code of 1986 to improve the operation of employee stock ownership plans, and for other purposes.

S. 1660

At the request of Ms. KLOBUCHAR, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 1660, a bill to amend the Toxic Substances Control Act to reduce the emissions of formaldehyde from composite wood products, and for other purposes.

S. 1668

At the request of Mr. BENNETT, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 1668, a bill to amend title 38, United States Code, to provide for the inclusion of certain active duty service in the reserve components as qualifying service for purposes of Post-9/11 Educational Assistance Program, and for other purposes.

S. 1672

At the request of Mr. REED, the name of the Senator from Massachusetts

(Mr. KERRY) was added as a cosponsor of S. 1672, a bill to reauthorize the National Oilheat Research Alliance Act of 2000.

S. 1683

At the request of Mr. BENNETT, the name of the Senator from Tennessee (Mr. ALEXANDER) was added as a cosponsor of S. 1683, a bill to apply recaptured taxpayer investments toward reducing the national debt.

S. 1694

At the request of Mr. ROCKEFELLER, the name of the Senator from Arkansas (Mr. PRYOR) was added as a cosponsor of S. 1694, a bill to allow the funding for the interoperable emergency communications grant program established under the Digital Television Transition and Public Safety Act of 2005 to remain available until expended through fiscal year 2012, and for other purposes.

S. 1709

At the request of Ms. STABENOW, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 1709, a bill to amend the National Agricultural Research, Extension, and Teaching Policy Act of 1977 to establish a grant program to promote efforts to develop, implement, and sustain veterinary services, and for other purposes.

S. 1711

At the request of Mr. REID, the name of the Senator from Colorado (Mr. UDALL) was added as a cosponsor of S. 1711, a bill to amend the Internal Revenue Code of 1986 to provide tax incentives for making homes more water-efficient, for building new water-efficient homes, for public water conservation, and for other purposes.

S.J. RES. 14

At the request of Mr. BROWNBACK, the name of the Senator from Hawaii (Mr. AKAKA) was added as a cosponsor of S.J. Res. 14, a joint resolution to acknowledge a long history of official depredations and ill-conceived policies by the Federal Government regarding Indian tribes and offer an apology to all Native Peoples on behalf of the United States.

S.J. RES. 16

At the request of Mr. DEMINT, the name of the Senator from Oklahoma (Mr. INHOFE) was added as a cosponsor of S.J. Res. 16, a joint resolution proposing an amendment to the Constitution of the United States relative to parental rights.

S. RES. 285

At the request of Mr. BENNETT, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. Res. 285, a resolution supporting the goals and ideals of national cybersecurity awareness month and raising awareness and enhancing the state of cybersecurity in the United States.

AMENDMENT NO. 2555

At the request of Mr. JOHANNIS, the names of the Senator from Iowa (Mr.

GRASSLEY), the Senator from Pennsylvania (Mr. CASEY) and the Senator from Iowa (Mr. HARKIN) were added as cosponsors of amendment No. 2555 intended to be proposed to H.R. 3326, a bill making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes.

#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. CORKER (for himself, Mr. WARNER, Mr. BENNET, and Ms. KLOBUCHAR):

S. 1723. A bill to authorize the Secretary of the Treasury to delegate management authority over troubled assets purchased under the Troubled Asset Relief Program, to require the establishment of a trust to manage assets of certain designated TARP recipients, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. CORKER. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1723

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the “TARP Recipient Ownership Trust Act of 2009”.

#### SEC. 2. AUTHORITY OF THE SECRETARY OF THE TREASURY TO DELEGATE TARP ASSET MANAGEMENT.

Section 106(b) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5216(b)) is amended by inserting before the period at the end the following: “, and the Secretary may delegate such management authority to a private entity, as the Secretary determines appropriate, with respect to any entity assisted under this Act”.

#### SEC. 3. CREATION OF MANAGEMENT AUTHORITY FOR DESIGNATED TARP RECIPIENTS.

(a) **FEDERAL ASSISTANCE LIMITED.**—Notwithstanding any provision of the Emergency Economic Stabilization Act of 2008, or any other provision of law, no funds may be expended under the Troubled Asset Relief Program, or any other provision of that Act, on or after the date of enactment of this Act, until the Secretary transfers all voting, non-voting, and common equity in any designated TARP recipient to a limited liability company established by the Secretary for such purpose, to be held and managed in trust on behalf of the United States taxpayers.

(b) **APPOINTMENT OF TRUSTEES.**—

(1) **IN GENERAL.**—The President shall appoint 3 independent trustees to manage the equity held in the trust, separate and apart from the United States Government.

(2) **CRITERIA.**—Trustees appointed under this subsection—

(A) may not be elected or appointed Government officials;

(B) shall serve at the pleasure of the President, and may be removed for just cause in violation of their fiduciary responsibilities only; and

(C) shall each be paid at a rate equal to the rate payable for positions at level III of the Executive Schedule under section 5311 of title 5, United States Code.

(c) **DUTIES OF TRUST.**—Pursuant to protecting the interests and investment of the United States taxpayer, the trust established under this section shall, with the purpose of maximizing the profitability of the designated TARP recipient—

(1) exercise the voting rights of the shares of the taxpayer on all core governance issues;

(2) select the representation on the boards of directors of any designated TARP recipient; and

(3) have a fiduciary duty to the American taxpayer for the maximization of the return on the investment of the taxpayer made under the Emergency Economic Stabilization Act of 2008, in the same manner and to the same extent that any director of an issuer of securities has with respect to its shareholders under the securities laws and all applications of State law.

(d) **LIQUIDATION.**—

(1) **IN GENERAL.**—The trustees shall liquidate the trust established under this section, including the assets held by such trust, not later than December 24, 2011, unless—

(A) the trustees submit a report to the Congress that liquidation would not maximize the profitability of the company and the return on investment to the taxpayer; and

(B) within 15 calendar days after the date on which the Congress receives such report, there is enacted into law a joint resolution disapproving the liquidation plan of the Secretary, as described in paragraph (2).

(2) **CONTENTS OF JOINT RESOLUTION.**—For purposes of this subsection, the term “joint resolution” means only a joint resolution—

(A) that is introduced not later than 3 calendar days after the date on which the report referred to in paragraph (1)(A) is received by the Congress;

(B) which does not have a preamble;

(C) the title of which is as follows: “Joint resolution relating to the disapproval of the liquidation of the TARP management trust”; and

(D) the matter after the resolving clause of which is as follows: “That Congress disapproves the liquidation of the TARP management trust established under the TARP Recipient Ownership Trust Act of 2009.”.

(3) **FAST TRACK CONSIDERATION IN HOUSE OF REPRESENTATIVES.**—

(A) **RECONVENING.**—Upon receipt of a report under paragraph (1)(A), the Speaker, if the House would otherwise be adjourned, shall notify the Members of the House that, pursuant to this subsection, the House shall convene not later than the second calendar day after receipt of such report.

(B) **REPORTING AND DISCHARGE.**—Any committee of the House of Representatives to which a joint resolution is referred shall report it to the House not later than 5 calendar days after the date of receipt of the report described in paragraph (1)(A). If a committee fails to report the joint resolution within that period, the committee shall be discharged from further consideration of the joint resolution and the joint resolution shall be referred to the appropriate calendar.

(C) **PROCEEDING TO CONSIDERATION.**—After each committee authorized to consider a joint resolution reports it to the House or has been discharged from its consideration, it shall be in order, not later than the sixth day after Congress receives the report described in paragraph (1)(A), to move to pro-

ceed to consider the joint resolution in the House. All points of order against the motion are waived. Such a motion shall not be in order after the House has disposed of a motion to proceed on the joint resolution. The previous question shall be considered as ordered on the motion to its adoption without intervening motion. The motion shall not be debatable. A motion to reconsider the vote by which the motion is disposed of shall not be in order.

(D) **CONSIDERATION.**—The joint resolution shall be considered as read. All points of order against the joint resolution and against its consideration are waived. The previous question shall be considered as ordered on the joint resolution to its passage without intervening motion except two hours of debate equally divided and controlled by the proponent and an opponent. A motion to reconsider the vote on passage of the joint resolution shall not be in order.

(4) **FAST TRACK CONSIDERATION IN SENATE.**—

(A) **RECONVENING.**—Upon receipt of a report under paragraph (1)(A), if the Senate has adjourned or recessed for more than 2 days, the majority leader of the Senate, after consultation with the minority leader of the Senate, shall notify the Members of the Senate that, pursuant to this subsection, the Senate shall convene not later than the second calendar day after receipt of such message.

(B) **PLACEMENT ON CALENDAR.**—Upon introduction in the Senate, the joint resolution shall be placed immediately on the calendar.

(C) **FLOOR CONSIDERATION.**—

(i) **IN GENERAL.**—Notwithstanding Rule XXII of the Standing Rules of the Senate, it is in order at any time during the period beginning on the 4th day after the date on which Congress receives a report of the plan of the Secretary described in paragraph (1)(A) and ending on the 6th day after the date on which Congress receives a report of the plan of the Secretary described in paragraph (1)(A) (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the joint resolution, and all points of order against the joint resolution (and against consideration of the joint resolution) are waived. The motion to proceed is not debatable. The motion is not subject to a motion to postpone. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. If a motion to proceed to the consideration of the resolution is agreed to, the joint resolution shall remain the unfinished business until disposed of.

(ii) **DEBATE.**—Debate on the joint resolution, and on all debatable motions and appeals in connection therewith, shall be limited to not more than 10 hours, which shall be divided equally between the majority and minority leaders or their designees. A motion further to limit debate is in order and not debatable. An amendment to, or a motion to postpone, or a motion to proceed to the consideration of other business, or a motion to recommit the joint resolution is not in order.

(iii) **VOTE ON PASSAGE.**—The vote on passage shall occur immediately following the conclusion of the debate on a joint resolution, and a single quorum call at the conclusion of the debate if requested in accordance with the rules of the Senate.

(iv) **RULINGS OF THE CHAIR ON PROCEDURE.**—Appeals from the decisions of the Chair relating to the application of the rules of the Senate, as the case may be, to the procedure relating to a joint resolution shall be decided without debate.

(5) RULES RELATING TO SENATE AND HOUSE OF REPRESENTATIVES.—

(A) COORDINATION WITH ACTION BY OTHER HOUSE.—If, before the passage by one House of a joint resolution of that House, that House receives from the other House a joint resolution, then the following procedures shall apply:

(i) The joint resolution of the other House shall not be referred to a committee.

(ii) With respect to a joint resolution of the House receiving the resolution—

(I) the procedure in that House shall be the same as if no joint resolution had been received from the other House; but

(II) the vote on passage shall be on the joint resolution of the other House.

(B) TREATMENT OF JOINT RESOLUTION OF OTHER HOUSE.—If one House fails to introduce or consider a joint resolution under this subsection, the joint resolution of the other House shall be entitled to expedited floor procedures under this subsection.

(C) TREATMENT OF COMPANION MEASURES.—If, following passage of the joint resolution in the Senate, the Senate then receives the companion measure from the House of Representatives, the companion measure shall not be debatable.

(D) CONSIDERATION AFTER PASSAGE.—

(i) IN GENERAL.—If Congress passes a joint resolution, the period beginning on the date the President is presented with the joint resolution and ending on the date the President takes action with respect to the joint resolution shall be disregarded in computing the 15-calendar day period described in paragraph (1)(A).

(ii) VETOES.—If the President vetoes the joint resolution—

(I) the period beginning on the date the President vetoes the joint resolution and ending on the date the Congress receives the veto message with respect to the joint resolution shall be disregarded in computing the 15-calendar day period described in paragraph (1)(A); and

(II) debate on a veto message in the Senate under this subsection shall be 1 hour equally divided between the majority and minority leaders or their designees.

(E) RULES OF HOUSE OF REPRESENTATIVES AND SENATE.—This paragraph, and paragraphs (2), (3), and (4) are enacted by Congress—

(i) as an exercise of the rulemaking power of the Senate and House of Representatives, respectively, and as such it is deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of a joint resolution, and it supersedes other rules only to the extent that it is inconsistent with such rules; and

(ii) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner, and to the same extent as in the case of any other rule of that House.

#### SEC. 4. DEFINITIONS.

As used in this Act—

(1) the term “designated TARP recipient” means any entity that has received, or will receive, financial assistance under the Troubled Asset Relief Program or any other provision of the Emergency Economic Stabilization Act of 2008 (Public Law 110-343), such that the Federal Government holds or controls, or will hold or control at a future date, not less than a 10 percent ownership stake in the company as a result of such assistance;

(2) the term “Secretary” means the Secretary of the Treasury or the designee of the Secretary; and

(3) the terms “director”, “issuer”, “securities”, and “securities laws” have the same meanings as in section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c).

By Mr. KYL. (for himself and Mr. CORNYN):

S. 1726. A bill to reauthorize the expiring intelligence tools of the USA PATRIOT Improvement and Reauthorization Act of 2005 and defend against terrorism through improved classified procedures and criminal law reforms, and for other purposes; to the Committee on the Judiciary.

Mr. KYL. Mr. President, earlier this month, we paid homage to those who lost their lives in the terrorist attacks on September 11, 2001. Those attacks changed our nation forever, including how we combat the very real and continuing threat of terrorism. One of the most important changes that we made in the wake of September 11 was the enactment of the PATRIOT Act. That legislation, which had strong bipartisan support in the Congress, provided for a number of common sense changes designed to give our national security intelligence community the same tools our police and FBI agents can use against drug dealers and organized crime. Although many of the PATRIOT Act's provisions are now permanent, three critical national security tools—the “wiretap” authority contained in Section 206 of the PATRIOT Act; the “business records” authority contained in Section 215 of the PATRIOT Act; and the “lone wolf” authority contained in Section 6001 of the Intelligence Reform and Terrorism Prevention Act of 2004—will expire on December 31 of this year.

The tools in the PATRIOT Act are as necessary today as they were when first enacted. Just this month, the government confirmed that the Foreign Intelligence Surveillance Act of 1978, FISA, which includes PATRIOT Act provisions, was used to build a case against Najibullah Zazi. Although many details remain classified, it appears as if Najibullah Zazi was an al Qaeda associate who was planning to detonate bombs within the U.S.

Similarly, it has been reported that the FBI likely used its roving wiretap and business records authorities—two of the PATRIOT Act's expiring provisions—to thwart a terrorist plot uncovered earlier this year in New York, in which four former convicts who converted to radical Islam plotted to use explosives to blow up synagogues and shoot down airplanes with surface-to-air missiles.

Those are two high-profile examples from just this year. There are no doubt countless of other instances, not known to the public, where PATRIOT Act authorities have been used by our national security professionals to keep

Americans safe. Recognizing the importance of these tools, the Department of Justice has written the Chairman of the Judiciary Committee to urge renewal of the expiring provisions of the PATRIOT Act. In addition, FBI Director Mueller and David Kris, the Assistant Attorney General for the National Security Division, both expressed their strong support for these authorities in testimony before the Judiciary Committee this month.

The reality is that the war on terrorism is not going to sunset. Neither should the tools that our investigators and analysts rely upon to prevent attack. That is why Mr. CORNYN and I are introducing today the USA PATRIOT Reauthorization and Additional Weapons Against Terrorism Act of 2009. This legislation permanently renews the three expiring PATRIOT Act provisions and addresses other critical national security needs.

#### I. RENEWING THE ROVING WIRETAP AUTHORITY

The roving wiretap authority allows the Government, in certain circumstances, to focus surveillance efforts on monitoring a particular target rather than a particular telephone number. Gone are the days when you used only one phone at home or in the office. Cell phones are ubiquitous. The point is to intercept the calls of a particular person, not a particular phone. Even so, the Government may have such authority only in limited circumstances. It must provide the FISA Court with “specific facts” indicating that the “actions of the target of the application may have the effect of thwarting the identification” of third parties necessary to accomplish the ordered surveillance. This tool helps ensure that investigators and analysts may overcome a target's efforts to avoid surveillance, for example, rapidly switching cell phone numbers.

As the Department of Justice noted in its September 14, 2009, letter to Chairman LEAHY, the roving wiretap authority has “proven an important intelligence-gathering tool in a small but significant subset of FISA electronic surveillance orders.” The Department's letter explains that the authority has been used judiciously—on average, only 22 applications for roving wiretaps have been made per year—and that “the basic justification offered to Congress in 2001 for the roving authority remains valid today. . . . Any effective surveillance mechanism must incorporate the ability to rapidly address an unanticipated change in the target's communications behavior.”

#### II. RENEWING THE BUSINESS RECORDS AUTHORITY

The business records authority allows the FISA Court, under appropriate circumstances, to compel the production of needed business records. In its September 14 letter, the Department of Justice expressed its strong support for the business records provision, stating that it “addresses a gap in

intelligence collection authorities and has proven valuable in a number of contexts." The Department stated that some of the acquired "orders were used to support important and highly sensitive intelligence collection operations, of which both Members of the Intelligence Committee and their staffs are aware." Although some have questioned the scope and use of this authority, it is important to acknowledge that no one has challenged a business records order in court, even though an explicit right to file such a challenge took effect in 2006. Such authority also exists in at least 300 federal government investigative contexts.

### III. RENEWING THE LONE WOLF AUTHORITY

The "lone wolf" provision fills a critical intelligence gap in situations where the government can establish that a non-United States person is engaged in international terrorism but cannot yet identify the foreign power or terrorist group to which he belongs. Although this authority has not yet been used, the Department of Justice made clear in its September 14 letter that there are foreseeable situations in which such an authority "would be the only avenue to effective surveillance." The Department stated that "it is essential to have the tool available for the rare situation in which it is necessary rather than to delay surveillance of a terrorist in the hopes that the necessary links are established." Had we had this authority at the time, we could have examined the computer of Zacarias Moussaoui, perhaps gaining enough information to provide some warning of 9/11. Terrorists do not carry membership cards in organizations, but it does not make them any less dangerous.

### IV. ADDRESSING OTHER NATIONAL SECURITY NEEDS

In addition to reauthorizing these important national security tools, this legislation responds to several other national security needs. For example, it clarifies what kind of information and disclosures trigger the procedures of the Classified Information Procedures Act, CIPA. This clarification is designed to resolve the difficulties created by the Fourth Circuit's approach in *United States v. Moussaoui*. The legislation also prohibits individuals from providing material support—for example, providing money to support a suicide bomber's family—to international terrorism efforts. It makes it illegal to conspire to violate the current prohibition on receiving military-type training from a foreign terrorist organization. It prohibits the use, transfer, mass transfer, production, and trafficking of false travel documents. Finally, it ensures that convicted terrorists and sex offenders will not be released pending sentencing or appeal.

These are good, common sense provisions that all members should be able to support. I look forward to working

with my colleagues on both sides to ensure that our national security professionals have the tools they need to continue finding and apprehending terrorists before they attack.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1726

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "USA PATRIOT Reauthorization and Additional Weapons Against Terrorism Act of 2009".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

#### TITLE I—USA PATRIOT REAUTHORIZATION ACT OF 2009

Sec. 101. Short title.

Sec. 102. USA Patriot Improvement and Reauthorization Act repeal of sunset provisions.

Sec. 103. Repeal of sunset relating to individual terrorists as agents of foreign powers.

#### TITLE II—CLASSIFIED INFORMATION PROCEDURES REFORM ACT

Sec. 201. Short title.

Sec. 202. Definitions.

Sec. 203. Ex parte authorizations under the Classified Information Procedures Act.

Sec. 204. Application of Classified Information Procedures Act to non-documentary information.

Sec. 205. Interlocutory appeals under the Classified Information Procedures Act.
